## STATE OF SIEGE IS PROCLAIMED IN BERLIN BY THE GOVERNMENT; OFFICERS' BATTALIONS FORMED

### Rebels Form New Government under Title of Revolutionary Committee composed of Herr Liebmann, George Ledebour and Herr Tick

(Special to The News via G. T. P. Telegraphs.)

Amsterdam, Jan. 10.—A state of siege has been proclaimed in Berlin, according to late despatches from that city. The Ebert movement is firmly convinced that it will succeed in overthrowing the rebels, according to the Abendblatt of Berlin. At the request of Herr Noske, the new military governor of Berlin, loyal sailors are on their way to Berlin from Kiel. All the officers in Berlin placed themselves at the disposal of Noske and the Government is forming officers' battalions.

Berne, January 10.—Telegraphic reports from Berlin state that the rebels there have formed a new government under the title of the Revolutionary Committee. This committee comprises three members, Herr Liebmann, George Ledebour and Herr Tiek, the last named being president of the Spartacan League. Spartacans thus appear still to be working with the Socialists of the Left or Independents. The dispatch would seem to indicate the possibility that the new government is a rival to the Ebert Scheidemann Government and has in fact displaced it, as today's advices through a Paris report.

Berlin, January 10.—Heavy fighting continued throughout Wednesday. During the afternoon street cars and taxi-cabs were overturned or destroyed. A general strike was declared at midnight.

## NEW YORK IS ON THE VERGE OF STARVATION

Hunger Point May Be Reached in Forty-Eight Hours Unless Something is Done.

(Special via G. T. P. Telegraphs.)

New York, Jan. 10.—Unless the railroads can bring food into New York by round-about points the hunger point may be reached within 48 hours and the lives of thousands imperilled as a result of the marine workers' strike, which tied up virtually all the traffic in the harbor.

At the end of the first day of the marine workers' strike which virtually halted traffic in New York harbor, the New York boat owners' association announced that the men had signed an agreement for the appointment of a conciliation board to arbitrate all differences. This announcement brought prompt denial from the strike committee which termed it "an owners welfare proposition."

## RECIPROCITY WITH THE U. S. IS DEMANDED BY GRAIN GROWERS

(Special via G. T. P. Telegraphs.)

Brandon, Man., Jan. 10.—The Manitoba grain growers in session here have endorsed the National Farmers' Platform. They also demand a lower tariff and unrestricted reciprocity with the United States.

## COST OF PAPER.

(Special via G. T. P. Telegraphs.)

Ottawa, Jan. 9.—The first day's session of the adjourned sittings of the Paper Control Tribunal was remarkable chiefly for charges of cost inflation made against paper manufacturers by W. N. Tilley, counsel for the publishers, who asked the tribunal reduce the cost of newsprint in rolls from \$69 to \$50.

## MRS. COLLISON PASSES AWAY AT KINCOLITH

Brave Woman Missionary and Pioneer Closes Useful Career Still at Post of Duty.

(Special via G. T. P. Telegraphs.)

Mrs. Collison, wife of Archdeacon Collison, passed away at Kincolith yesterday morning. She was married August 19, 1873, and a few days afterwards she and her husband left England as missionaries of the Church Missionary Society bound for what was then called "the North Pacific Coast" to labor among the natives and landed at Metlakatla on October 20, and for over forty-five years Mrs. Collison has been the devoted help-meet of a devoted minister of the Gospel, living first at Metlakatla, then at Masset, and now for over thirty-five years at Kincolith at the mouth of the Naas river.

As a deaconess Mrs. Collison nursed the wounded on the battle fields during the Franco-German war, and was present at the surgeon of Metz. She also rendered valuable services in taking charge of the Protestant patients during the epidemic of smallpox which took place in Cork, Ireland, before her marriage. She was the first white woman to take up residence amongst the Tsimshians at Metlakatla, and later amongst the Haidas of Queen Charlotte Islands.

It was while at Masset among the Haidas that she nursed her husband through a most dangerous illness and single-handed kept out of her hut the medicine men who wanted to rattle over the dying. It is difficult to estimate the greatness of the loss to this coast of the Rev. W. H. Collison, then in his prime, had succumbed to the terrible fever brought on by living among the Indians in a most unsanitary village.

Mrs. Collison is survived by her husband and eight children, five sons, and three daughters. Two sons have been serving at the front, and one daughter following in her mother's footsteps, has been nursing wounded soldiers. Thousands of people have gathered round the fire-place and shared the warm Irish hospitality of the Mission House at Kincolith during these many years that the Archdeacon and his wife have kept open house. Such with many others join in their tribute of respect and extend their sympathy to the bereaved.

## GERMANY IS A HUMAN STOCK BREEDING FARM

So Says Colonel A. A. Woods in Address at Grain Growers' Convention in Brandon.

(Special via G. T. P. Telegraphs.)

Brandon, Jan. 10.—In a powerful address before the Grain Growers' Convention Colonel A. A. Woods declared that every enemy alien in Canada should be deported. We should not overlook the beast in our midst as Russia, Britain and the United States has done. Russia paid dearly for her blindness and others had narrowly escaped the same fate. In twenty years Germany could restore her man power, for there was abundant evidence to prove that Germany had been turned into a human stock breeding farm. This was more than immorality, it showed a determination to once more try for world mastery. The men at the peace conference should see to it that Germany was rendered powerless.

**Trouble in Germany  
 May Get Worse.**

It is impossible to prophesy what troubles are in store in Germany. She sowed the wind and she is likely to reap the whirlwind. As long as the country is in the throes of rebellion it will be necessary for the Allies to have an army in the field and possibly they will have to step in and settle the trouble and establish a stable government. It is a terrible come down for a country that only recently was about to conquer the world, to have to ask the enemy to keep order for them at home.

**United States Loses  
 Money on Railroads.**

Government operation of railroads in the United States is proving a costly experiment. That country has a bill to foot this year amounting to \$196,000,000, an enormous amount. The country cannot continue to run in debt at that rate. Something will break if it continues. It was all very well to borrow money to win the war. That was necessary, but to go on borrowing to pay transportation debts is out of the question. A similar condition is likely to develop in Canada soon. The Government has two or three railways on its hands just now. That is enough to prove whether or not it is capable of running the business successfully. Let it prove the practicability of the scheme and then it will be time enough to talk of taking over the G. T. P.

Theoretically the Government ownership of railroads is sound. Practically we are not yet ready for the wholesale adoption of the system. For the present the thing to do is to give the present management of the railway a chance to pull the road out of its financial difficulties and then there will be something like a business proposition for the next generation to handle.

**Value of Press  
 To the Community.**

At its meeting last night the School Board passed a resolution instructing the clerk to notify the local newspapers of all meetings of the Board so that they might have a representative attend and report the proceedings. They expressed themselves as pleased that the reporters were present and showed a lively appreciation of the value of publicity to the schools and the community as a whole. The chairman even suggested that in case the press men did not understand any of the references at the meeting, they should ask questions and everything would be made clear.

In some quarters there is a tendency to make light of the value of the newspaper to the community. Difficulties are put in the way of securing proper reports. Seldom are extra copies of reports struck off for the press at the time that they are prepared for the members of boards. It is expected that the reporters will understand an aimless discussion when they have not the text before them on which the discussion is based. If the public would co-operate with the press, it would be an advantage to the public and would often obviate the foolish mistakes which often occur. The Board of School Trustees are to be congratulated on taking the lead in this matter.

## TEMPORARY ROOM FOR SCHOOL PURPOSES ON SECOND AVENUE

A new school-room is to be opened at once in the Hays building on Second Avenue. At the meeting of the school board last night it was decided to take the room for a year at a rent of \$35 a month, to put in temporary furniture and get it ready for the pupils.

Principal Macdonald of the King Edward School reported having examined the room and found it fairly well suited for the purpose. It was well lighted and large enough, he thought, to accommodate about forty pupils. Heat is to be supplied from the furnace in the building and is included in the price to be paid. The walls are to be kalsomined and it is expected to be ready for use next week. The chief difficulty was the lack of playground.

Miss Tingley reported that there would be slightly over thirty pupils in the class at first.

## GERMANS SEND MONEY FOR UNITED STATES

Coblitz, Jan. 9.—Ten million marks has been received here from Berlin recently by special train, this sum being the first payment by the German Government of 25,000,000 marks due in January for the expenses of the American army of occupation. The arrival of this shipment made a total of 64,000,000 marks which has been turned over to the American authorities.

## LORD ROBERT CECIL IS IN FAVOR OF A LEAGUE OF NATIONS

Paris, January 9.—Lord Robert Cecil who has arrived here with the first section of the British peace delegation expressed the opinion that a definite organization of a league of nations is indispensable as a first step towards a conclusion of enduring peace and the satisfactory settlement of international problems which have arisen out of the war. He made it clear that his statements were personal views and did not attempt to give the views of the British Government.

Possibly a feature at the Empress that will be very greatly appreciated especially by the youngsters will be a Mutt and Jeff comedy. This cartoon feature is so well known and everybody is so much interested in it that, like Charlie Chaplin, it is a big drawing card. Mutt and Jeff are come to be looked upon as almost national characters. The humor conveyed through them is irresistible.

## DOUGLAS FAIRBANKS AT THE WESTHOLME

A special treat to the patrons of the Westholme Theatre is promised tonight by manager Aivazoff in the way of another rip-roaring comedy presenting the inimitable Douglas Fairbanks in his newest and funniest offerings, "Down to Earth," released by Artercraft Pictures.

In this film the energetic Douglas not only excels all his previous efforts on the screen but at the same time, proves his ability as an author, in which respect he is just as distinctive as his acting. In fact, this photoplay is "very much Fairbanks," so to speak, for he wrote it, enacted its principal character and even directed several scenes himself when other duties in connection with the production of the film called Director John Emerson away.

## What is a WAR-SAVINGS STAMP?

It is a stamp for which the Dominion of Canada will pay you \$5.00 on January 1st, 1924.

It enables you to lend small savings to the Government at a rate of interest which accumulates 20 cents a year on each \$4.00 invested.

A War-Savings Stamp costs you \$4.00 if purchased in December, 1918, or January, 1919, and the price increases one cent each month after January.

## Canada's Pledge for FIVE DOLLARS

Every man, woman and child in Canada should invest in War-Savings Stamps all the money that he or she can save by STRICT ECONOMY.

With W.-S. S. you can "build a bond" at your own convenience, taking advantage of the unexcelled security and the high interest. You are not tied down to making payments at stated times, though it is desirable to purchase as regularly and as often as you can.

Should you at any time need money, you can cash your W.-S. S. at the Post Office for the indicated surrender value—the amount you paid with fair interest.

By placing your W.-S. S. on the Certificate provided, and registering same, you are protected against loss by fire, theft or other cause. Your registered Certificate is of no value to anyone but yourself.

As an aid to the purchase of W.-S. S., you can buy THRIFT Stamps of the value of 25 cents, 16 of which may be exchanged for one W.-S. S.

W.-S. S. are on sale at Money-Order Post Offices, Banks, and other places displaying the W.-S. S. sign shown at the top of this announcement.

LOOK FOR THE SIGN.

## TWO TRUSTEES WILL OFFER SERVICES FOR ANOTHER TERM

L. W. Patmore and Mrs. Kirkpatrick Will be Candidates for School Board, But G. H. Munro Will Retire.

Two of the three retiring school trustees will offer their services once more to the city. They are L. W. Patmore and Mrs. Kirkpatrick. Both these trustees have served two years and have done valuable work. George H. Munro who is the third retiring trustee will not be a candidate this year as he finds that he cannot give the necessary time to the duties.

At the meeting of the board last night Dr. Kergin expressed the pleasure he had taken in working with the other members of the board and he hoped the retiring members would be re-elected. He felt that the work of the schools was most important.

## SCHOOL GROUNDS ARE NOT YET IN SHAPE

Principal Macdonald Reported to School Board Last Night That Coating of Cinders Had Not Yet Arrived.

The playground at the King Edward school is not yet available for the children owing to the fact that there is a coating of cinders yet to be applied. The city teams are to haul the material and one day they started the work but the cart went through the road, and nothing has been done since. That was the gist of the report made to the school board by Principal Macdonald last night.

The principal further pointed out that on fine days the pupils of his school were anxious to play games during the recess. This they were unable to do at present on account of the condition of the grounds. With a covering of cinders there would be a good place for football and similar games.

## COAL MINING IS ACTIVE IN ALBERTA

The Rocky Hard Coal Company who have large interests in what is known as the Alberta Coal Branch of the Grand Trunk Pacific, are actively operating on a hill of coal which extends 60 feet above the level of the railway tracks, coal being taken from a facing of about 400 feet. The field is located near Coalspur station, 47 miles south of Edson. The coal is of good quality and is being shipped as far east as Winnipeg. That steam shovels are being used in loading the coal directly from the coal beds into the cars, indicates its accessibility.

On the suggestion of Trustee Munro the press will be notified of all meetings of the board of school trustees in future. Chairman Dr. Kergin expressed appreciation of the help the press could give the board and welcomed the presence of reporters at the meeting.

J. Dunn of Lockeport was in the city for a few days, returning to the island point yesterday on the Prince John.

### "TOMORROW"

Interesting Lecture Given by Rev. W. S. A. Crux Last Night at St. Andrew's Society.

In the past the ruling power was the big brute; in the future it will be character that will count. That was the pith of the address given by Rev. W. S. A. Crux at the meeting of the St. Andrew's Society in their rooms last night. The speaker showed how an analysis of the past and present indicated what the future would be. Even the captain sailing with sealed orders was able to estimate very closely what those orders were likely to be. So in forecasting the future we judged by the record of the past.
