BLOW UP AND BUST

There still are a few people who think the economic structure will "blow up and bust," judging from the reactions from editorials published in this paper yesterday and Monday.

Mr. Kelland says he has studied history and he finds that the United States has had thirteen previous depressions since 1880 and at least three of them were so much worse than this one that the present predicament looks like a "rush."

After the Napoleonic Wars in the year 1837, about as many years after that war as this is after the world war, there was a panic. The world was in a state that bordered on universal bankruptcy. Everybody was broke, governments and people alike.

In a couple of years there was a period of activity and prosperity the like of which the world had not yet seen.

In 1857 there was another panic following a dozen years of "Unrestrained optimism." The amount of debt had reached a point where it could not be absorbed. Railroads "went bust" and "practically every bank in the country with the exception of one in New York, a few in Kentucky and four in New Orleans suspended."

The longest period of depression ever known was five years, after 1893, but the good time periods here on an average been four times as long as the depressions. People are funny. They think if it rains they will never again be able to go out without an umbrella. But even Noah's rain ended eventually.

One of Mr. Kelland's concluding paragraphs says: "We've had thirteen of these things, some worse than this, some not so bad. And the folks in each one curled up with fear of the future and thought they would never end. And then the first thing anybody knew they were ended. In the past hundred and thirty-two years we have had four years of prosperity for every year of adversity. We have proved by coming through thirteen panics that we can come through the fourteenth. When this one is over we're going to have unexampled prosperity just as we have had after every panic."

"How do you know?" he was asked. "Well, if a thing happens once in a certain way, it's just a happening. If it happens twice in exactly the same way it may be a coincidence. If it happens three times it makes you wonder. But, fellow, if it happens thirteen times in a row, then any scientist will tell you you've discovered a law. And this law is that there is an ebb and flow in finance which is going to work just as the tide of the ocean ebbs and flows. You can't do anything about it, nor stop it nor hasten it. It is going to flow in beautifully for about ten years and then it is going to turn around and ebb for about three years. And it is always going to keep on doing the same thing."

Richard Long returned to the city on this afternoon's train from a business trip to Skeena River cannery points.

VON GRONAU AT MONTREAL ON WORLD FLIGHT

German Aviator Still Uncertain As to Plans After Leaving Chicago

Glad to Hear That His Gasoline Has Arrived at Prince Rupert—Says That His Flight is For Purpose of Mapping New Air Mail Route From Europe

MONTREAL, July 27.—Capt. Wolfgang von Gronau, German long-distance flyer, and three companions landed here at 8:06 last night from the Labrador coast following their successful crossing of the Atlantic Ocean in their big seaplane.

Von Gronau was not certain but stated he would probably continue to Chicago after resting until tomorrow. He was still indefinite regarding his future movements after Chicago, although it is believed he will proceed around the world via Winnipeg, Prince Rupert and the Pacific Coast.

Von Gronau said that he was glad to hear that his gasoline had arrived safely at Prince Rupert. It had been hinted that the presence of this supply might mean that he intended to continue on a flight around the world.

"Ah, but who knows?" Gronau smilingly remarked, when inquiry was made of him in regard to this. His immediate necessity was to study a route across the continent, von Gronau suggested.

The German flyer outlined a possible air mail service from Europe via Iceland and Greenland across the continent to the Pacific Coast. He said that it was to study such a project that he was engaged in the present flight.

Capt. Griffiths Here on Cruise

Yacht Sueja III Arrived in Port Last Night From Seattle

The Seattle yacht Sueja III, carrying Capt. James Griffiths, president of the Coastwise Steamship and Barge Co., and party on their annual cruise to Northern British Columbia and Alaska waters, arrived in port at 5:30 last evening from the south and, after a brief visit here, will proceed north. The Sueja III is moored at the Pacific Salvage Co. floats.

ULTIMATUM BY GERMANY

BERLIN, July 27.—Germany delivered an ultimatum yesterday to Great Britain and France demanding effective disarmament by those nations or else that permission be given Germany to reorganize the Reich army beyond the limits imposed by the Treaty of Versailles. Thus Germany feels that she would be ensured security which she contends is not allowed under the present limitations.

DR. LAMB IS HEARD

Tuberculosis is Preventable and Cureable Disease, Gyro Club is Informed in Address

Onset Slow

Early Diagnosis is Essential—Valuable Work Being Carried on to Arrest Malady

Tuberculosis is a largely preventable and, to a great extent, cureable disease, Dr. A. S. Lamb, travelling provincial health officer and chest specialist, who is holding tuberculosis clinics in Prince Rupert, told a luncheon meeting of the Prince Rupert Gyro Club in a very interesting address yesterday afternoon. Dr. Lamb stressed the necessity of early diagnosis and treatment if the disease was to be cured and explained that the onset was slow and insidious, there being few marked symptoms such as characterized the most of other infectious fevers like pneumonia, etc. which, from the outset, compelled the patient to seek medical assistance.

While it was not the duty of the doctor to seek out the patient, in view of the insidiousness of the onset of tuberculosis, the work of going out in the endeavor to prevent the disease and its spread had been instituted and this was the work in which he had been engaged for the past nine years, Dr. Lamb explained. The speaker described how the work had expanded and told of the successful results with which it had been attended.

Once the disease was found, it was essential to ascertain the infection which caused it in the end of preventing its spread. The disease was highly infectious and its spread was often from one generation to another.

Ability to Recover Ability to recover from the disease depended largely upon three factors—the degree or amount of the disease, the reaction of the system and the length of time that could be devoted to the cure. While the sanitarium, with its facilities and methods, was the ideal place for the treatment of tuberculosis, Dr. Lamb declared that the disease could be readily and successfully treated either in the general hospital or the home. Patients could be taken care of very satisfactorily at home provided the treatment was started in the early stages and the conditions were proper. The two prime requirements were that the patient should go to bed and be isolated so that others might not contract the disease.

The Olympics Attract Many

If this doesn't take the cake, at least its the frosting, at Sugar-bowl, California, where they have skiing above and swimming below. Roy Mikkleson, Olympic entry, and Merle Reeves, demonstrator.

LIBERALS TO MEET

Convention to Be Held on October 3, T. D. Pattullo Announces Today

VANCOUVER, July 27.—British Columbia Liberals will hold a convention on Monday, October 3, T. D. Pattullo, provincial leader of the party, announced today. The place of the meeting has not yet been announced. The meeting will be in line with the constitution of the British Columbia Liberal Association which declares that a convention must be held once every three years.

WEATHER REPORT

Noon Reports Prince Rupert—Part cloudy, light northwest wind; barometer, 30.00; temperature, 60; sea smooth. Dead Tree Point—Overcast, light southeast wind; barometer, 29.88; temperature, 52; sea rough. Triple Island—Clear, calm; sea smooth. Langara Island—Overcast, light easterly wind; sea smooth.

DISCUSSION OF DUMPING

Russian Competition in Lumber Trade Presents Problem For Economic Conference

OTTAWA, July 27.—Conversations in Russian dumping are continuing between British and Canadian delegations at the Imperial economic conference here. They turn, it is understood, chiefly upon lumber.

Canadian lumber generally now has a preference of ten percent in the British market. This, Canadian lumber interests contend, is not sufficient to overcome the difference in exchange with Scandinavian countries. Their chief difficulty, however, is the overhang of Russian dumping.

ADVANCES IN WHEAT

Winnipeg Market Surges Upward In View of Heavy Exports, Short Covering and Unfavorable Crop News

WINNIPEG, July 27.—The grain market surged upward today as a result of heavy export reports, short covering in July future and unfavorable crop news. Wheat futures finished from 2 1/2c. to 1 1/2c. above yesterday's final. July closed at 59 1/2c., October at 61 1/2c. and December at 62 3/4c.

LABORITE WON SEAT

Conservatives Lost Out in By-Election in Wednesbury, England Yesterday

WEDNESBURY, England, July 27.—Labor gained a seat from the Conservatives in the by-election to the House of Commons necessitated by the elevation of Viscount Edmonds to the peerage. J. W. Banfield defeated Capt. R. G. Davis by thirty-seven hundred votes against a Conservative majority of 4100 in the last election.

The seat had been Laborite before the last election when Labor suffered so many losses. This latest result follows closely on the victory of Sir Francis Acland, Liberal free trader, in the North Cornwall by-election.

Large Coho Run At Dundas Island; Many Are Fishing

Word received from the Dundas trolling grounds is that this morning there was a good run of cohoes and the fishermen were doing well. There are a large number of boats operating.

Plans For Activities At Annual Exhibition Are Being Perfected

Entries in Some Lines, Including Flowers and Vegetables, Expected to Be Heavier—Sports and Attractions Are Being Arranged

Prince Rupert will have a Fall Fair as usual this year. Plans are nearing completion for all the activities in connection with the big annual event. While the poultry and pet stock section has been cut off this year and other non-essential features eliminated, the sections devoted to flowers and fruit, ladies' needlework, household science and Indian exhibits remain untouched.

In view of the increased interest taken in local gardens this year it is confidently expected that the number of exhibits in flowers and vegetables will be larger than ever before. The flower show especially will be a great attraction and the exhibition board this year makes a special appeal to the people of the city and district to take part in this section of the event and make it a success. At a time when everybody is looking for an improvement in conditions it is well to let the world know what Prince Rupert can do so far as natural production is concerned, they say.

The date set for the fair is from Tuesday to Friday, August 30 and 31 and September 1 and 2.

The sports and attractions committee is working on a program which is expected to satisfy the patrons of sport to the fullest possible extent. Indian sports will as usual be a feature and of course there will be football and baseball.

While all costs in connection with the fair have been pruned to the limit in order to conform to the general conditions, there is no reason why the fair should not be just as interesting as usual and possibly it may surpass former efforts.

WORKLESS AT COURT HOUSE

Rowd of 250 Men Gathered This Morning to Await Report From Delegation

Two hundred and fifty single unemployed men stood outside the Court House today to await the report of a delegation which was interviewing Government Agent Norman A. Watt and J. C. Brady, district engineer for the provincial department of public works, in regard to relief work plans for single men.

The delegation reported that the demand for clothes could not be met but each individual case would be considered on its merits. The crowd did not seem to be satisfied with this so a meeting was arranged for tonight in the Canadian Labor Defence League Hall.

Mayor Cyril H. Orme was also interviewed this morning in regard to the married men and their families and, in view of the assurance of His Worship that clothes for women and children would soon be on hand in addition to that for the men which is already here, it was decided to call off a meeting which was to have been held on Friday night to go into the condition of the married unemployed men and their families.

Mrs. R. L. McIntosh came in on this afternoon's train from her summer home at Terrace where she is in residence for the season.

DROWNED IN RIVER

Four and Possibly Five Drivers Lose Their Lives in Turbulent Ottawa

DEUX RIVIERES, Ont., July 27.—Four of a party of nine river drivers, employed on the Ottawa River by the Upper Ottawa Improvement Co., perished today when their boat was sucked into an eddy of the True Rapids and capsized as they endeavored to run the turbulent part of the river. It is feared that a fifth member of the party was also drowned.

The known drowned are: Clarence Dsormeau, Earl McCullough, Joseph Berard and George Ducharme. The missing man who is believed to be also drowned is Thomas McGivern.

Edmonton Grads To Pay Visit Here Again

READY FOR OLYMPIAD

Bill Plommer of This City Chats With Vancouver in Regard to Track and Field Talent

Prince Rupert's youthful track and field stars are taking their training seriously in anticipation of capturing a fair share of awards at Canada Pacific Exhibition on opening day, August 29, says an article in the Vancouver Province recently. Members of Spartan Athletic Club of the northern city are rounding into condition rapidly and turning in good performances, despite the handicap of a poor track.

This information reached Junior Olympic Club headquarters when Bill Plommer, organizer of the Spartans, visited the office. Affiliation with the movement was arranged for the Prince Rupert club several days ago.

Discussing the outlook for his club Mr. Plommer states that Alex Walters, star of the squad, will go a long way in the Junior Olympic Track and Field Meet when he matches his skill and stamina with the pick of athletes from every section of British Columbia.

Prince Rupert's meet on Dominion Day revealed that Walters is a sprinter of more than average ability. He won the century in 10 2-5 seconds, the time caught by four watches, captured the pole vault at 10 feet, and broad jumped 18 feet 10 inches. He is also star basketball player, soccer and junior baseball star.

Carl Smith, who shows ability over the furlong and in broad jump, also scintillates at basketball and baseball, and Ron Allen, who holds the city and northern badminton championships, can be depended upon to give the best of British Columbia's half-milers a close race. His time was 2 minutes, 7 3-5 seconds, well within the standard set for the Junior Olympics.

Edgumbe Big Aid Much credit goes to Phil Edgumbe for the rapid strides made by the Prince Rupert club. A cruel trick of fate makes him ineligible to take part in this year's meet. He will be past the age limit by a scant margin. However, this has not deterred him from giving every possible encouragement to the younger members.

"Rusty" Bjornson, a likely prospect in the pole vault and weight events, is another of the Spartan stars. Without training, he has made 9 feet, 3 inches in the pole vault, which equals the qualifying standard. Mr. Plommer advises sports followers to watch this lad after he gets in some practice.

Two other sprinters of the Prince Rupert club who have already made good are Bill Patmore, University of B. C. runner and Canadian football player, and Bill Vance, who is making a specialty of the furlong and the quarter mile. Besides upholding his share of track honors for the club, Vance is a basketball and soccer player. Primo Vaccher is expected to make a place on the team that will journey to Vancouver in August. He is a hard worker who looks good in the 200 yards dash and pole vault.

It is expected that a team will be entered from Port Simpson, chiefly of Indian boys. Mr. Plommer states that his district has some exceptionally fast sprinters and distance men who should be capable of even better times with the incentive of competition. Addition of the Port Simpson club would almost complete the northern hook-up of the Junior Olympics.

REGIMENT LINE-UP

The following line-up for Regiment against Canadian Legion in tomorrow evening's Stuart Benefit Shield football game is announced: Smith; Blake and Thurber; Redpath, DeJong and Wingham; Christison, Santerbane, Cameron, Colussi and Bamford; reserves, Wilson and Walters.

World Champion Women's Hoop Team to Play With Champions Of Intermediate League Here

The announcement made today that the famous Edmonton Commercial Grads, for years the world's champion women's basketball team, will pay a visit to Prince Rupert on August 19 on their way home after attending the Olympic Games in Los Angeles and play a game that evening with the High School boys' team, champions of the Intermediate League here, will be received with interest by the sporting fraternity of the city in particular and the public in general. It will be the second visit to Prince Rupert for the Commercial Grads, who are coming here on this occasion under the auspices of the Fair Board, the game to be played in the Exhibition Hall. It is not usual for the Commercial Grads to play against boys but they have agreed through their coach, Percy Page, to do so especially for this occasion.

ROUND HOUSE WINS AGAIN

Defeated Navy Last Night For Third Straight Victory in C.N.R. Softball

In a regular scheduled C.N.R. softball game last evening the Roundhouse captured its third victory in the second half by defeating R.C.N.R.V. 8 to 5. The game was well played throughout but poor headwork on bases lost the game for the Navy. Several chances were thrown away by the Navy boys in not running out hits. For the Navy, Franks, at third base, showed up well, while Young, for the same team, did some fancy hitting. For the Round House, Raby pitched his usual steady game and was fairly well supported in the field.

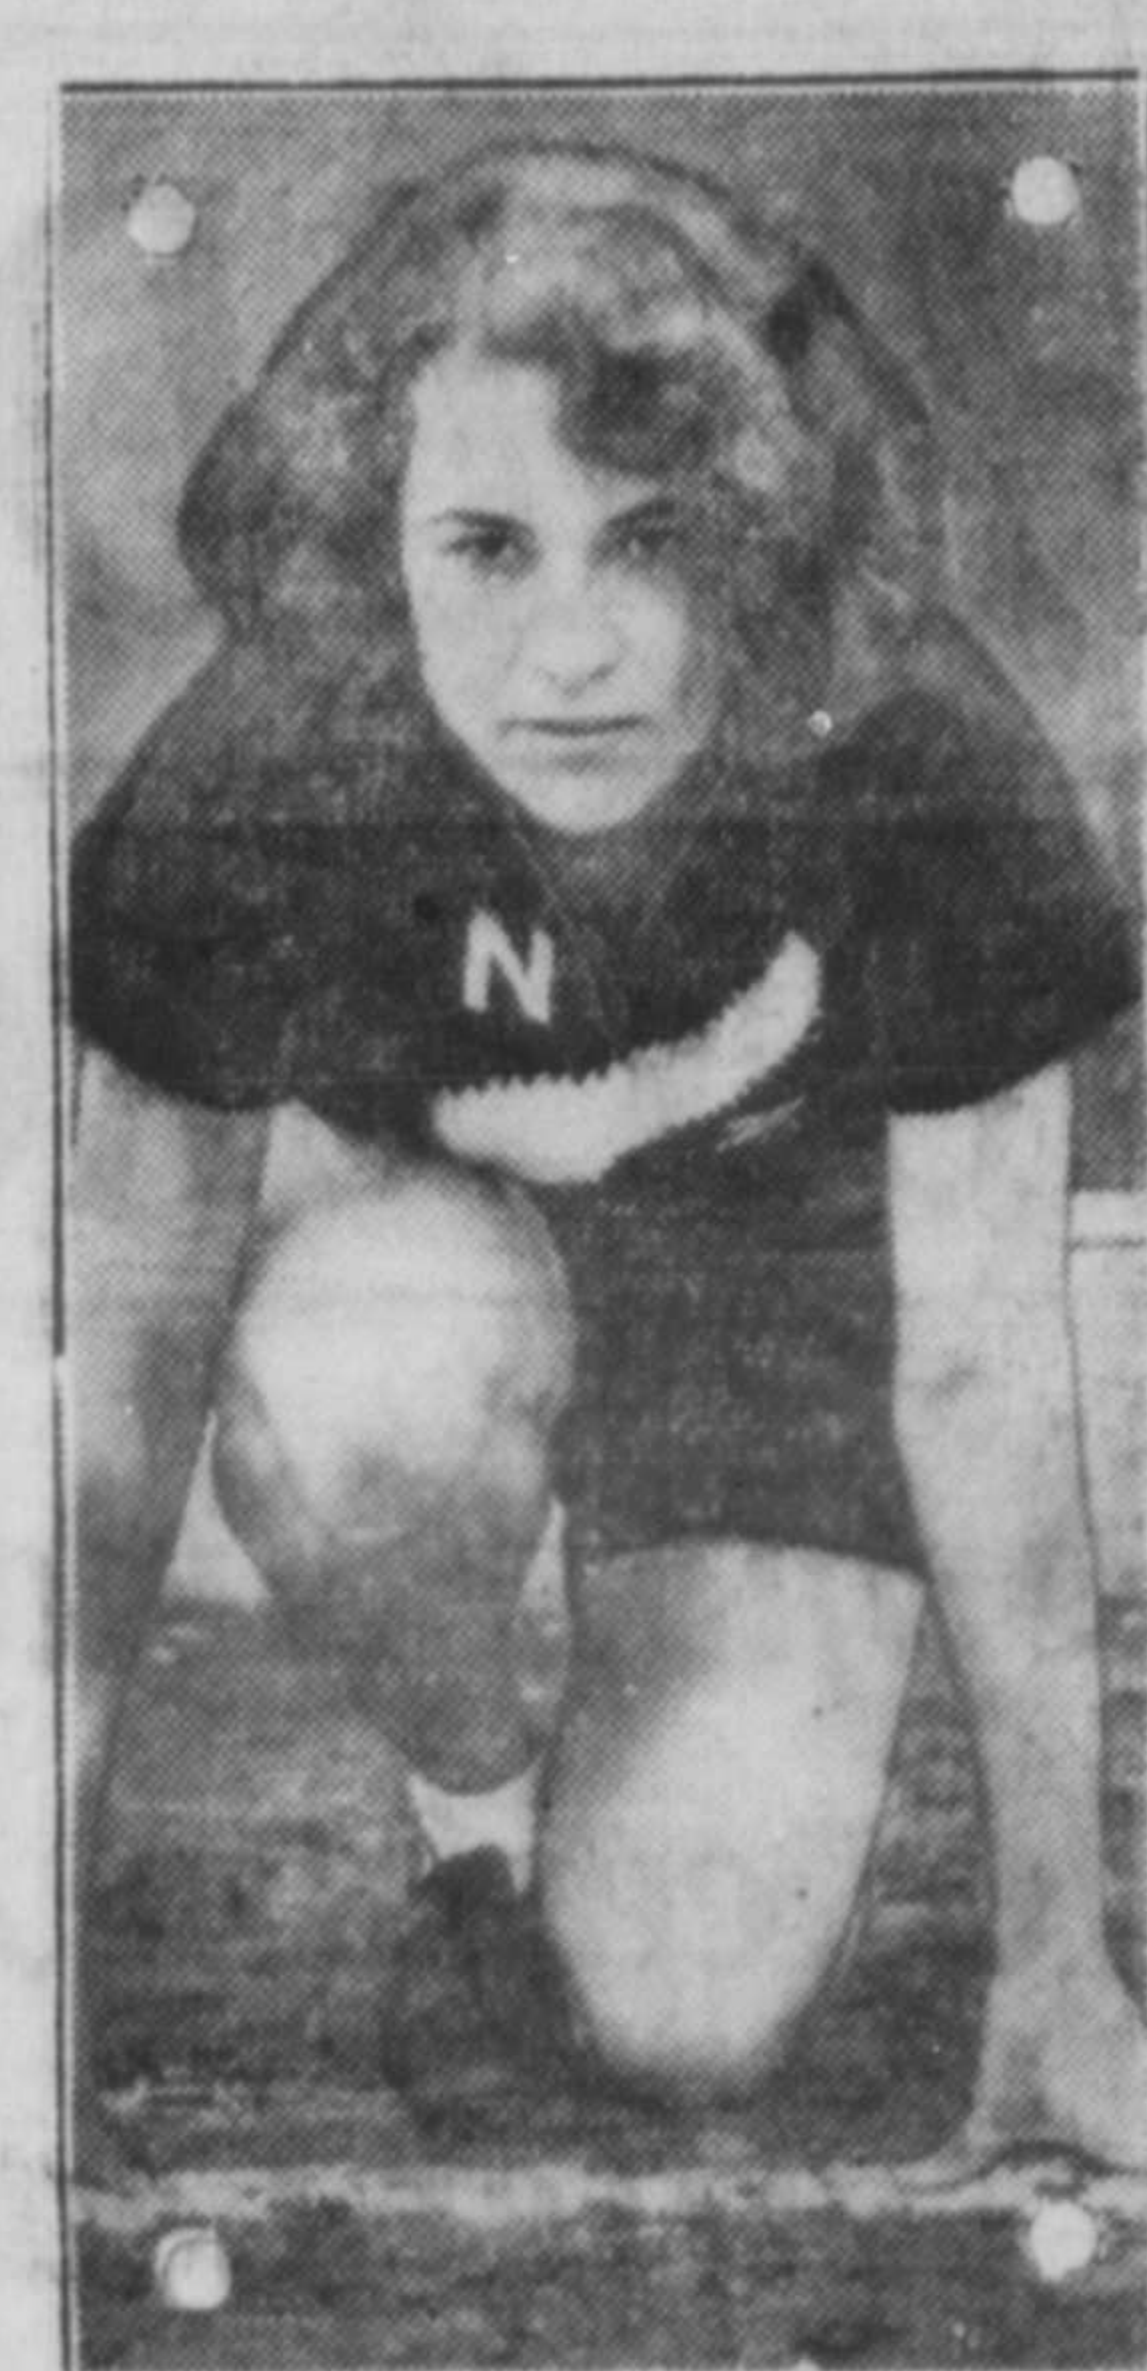

Players: Round House—Johnson, Arney, Horton, Boulter, Smith, Allen, Raby, Skattebol, Cameron. Navy—Young, Pitcher, Armstrong, McFie, White, Franks, Stewart, Murdoch, Westman. Batteries—Round House—Raby and Boulter. Navy—Pitcher and Armstrong. Umpires—Comadina and DeMarco.

Louis Pasteur died while investigating the diseases of the silk worm.

FOOTBALL

July 28—Canadian Legion vs. Regiment. August 2—Merchants vs. Home Oil.

James Boyd, supervisor of fisheries for District No. 2, returned to the city on this afternoon's train after a trip to the Skeena River on official duties.

MERCHANTS WIN MATCH

Home Oil Unfortunate to Lose to Stuart Shield Football By Three to Nil Score

With a vastly improved team due to large extent to the addition to the line-up of three Spaniards who recently arrived from Anyox, the Home Oil Distributors played the Stuart Benefit Shield fixture and were deserving of a better fate than a three to nil defeat at the hands of the Merchants. A fair-sized crowd of fans attended the match.

Particularly in the first half of the play fast, keen and interesting the sphere travelling from one end of the field to the other almost continuously. The score at the end of the first period was one to nil, Albert Dickens having scored a simple shot when he went right through the Home Oil defence about ten minutes from half time.

About midway through the second half, Michoski added the second for the Merchants while Albert Dickens was responsible for the third about five minutes from the time. It was alleged that Dickens had handled but the referee ruled otherwise and allowed the goal which decision caused considerable discussion on the part of the Home Oil players.

Albert Dickens, Chenoski, Webster and Hill were the pick of the Merchants' team while Pierce, Del Rio and Vieira starred for Home Oil.

The Line-Ups

J. A. Johnstone was referee of the teams took the field as follows: Merchants—Laidler, Mitchell, Menzies, Hill, Webster and Gilchrist; Vaccher, Henry Diekens, Albert Dickens, Chenoski and Hardy. Home Oil—Pierce; Del Rio and Mowatt; Currie, Vieira and Stalker; Fisher, Woodside, Tony, Gomez and Parks.

The Stuart Benefit Shield standing to date is as follows: W. D. L. F. A. 3 0 1 11 4 Merchants 3 0 1 11 4 Canadian Legion 2 0 1 10 4 Regiment 2 0 2 6 8 Home Oil 0 0 3 1 12

Sweep Winners On Horse Race

T. M. Spencer, George Davis, sr., and M. M. Lamb Winners in Prince Rupert Football Association's Drawing

T. M. Spencer of Prince Rupert held ticket number 1194 drawn on Solenoid, the winner of the Stewart's Cup race, in the Prince Rupert Football Association's Sweepstake yesterday. George Davis, sr., of Port Essington was the holder of No. 1060 on the second horse, Slipper, while M. M. Lamb of Prince Rupert Grew No. 1417 on the Polar Bear, the third horse.

Canadian and British Oar Teams Work

LOS ANGELES, July 27—British and Canadian rowing crews had their first try-outs yesterday preparatory to the Olympic Games competitions. Much interest attached to the work-outs since both the Britishers and Canadians are expected to put up strong competition in these events.

R. G. Cunningham of Port Essington arrived in the city from Prince Rupert Grew No. 1417 on the Skeena River on this afternoon's train.

AIR DRIED SHINGLES

Retain the cedar oil in the wood, affording extra and better preservation than kiln-dried shingles from which the essential oil has been evaporated. Our shingles are made on Queen Charlotte Islands and, as a home product, deserve your preference. Shingle makers wages on the Islands are spent eventually in Prince Rupert, while Vancouver wages never come north. Support a home industry and your own welfare by specifying Air Dried Shingles.

Prices: No. 1 5X \$3.75; No. 1 3X \$3.25

UNION STEAMSHIPS LIMITED

Steamers leave Prince Rupert for Vancouver:—
P.S.S. CATALA EVERY TUESDAY, 1:30 P.M.
Via Waypoint, arriving Vancouver, Thursday a.m.
T.S.S. CARDENA EVERY FRIDAY MIDNIGHT.
Arriving Vancouver Sunday midnight, approx.
Weekly sailings to Port Simpson, Alice Arm, Anyox, Stewart and Naas River points, Sunday, 8 p.m.
Further information regarding all sailings and tickets at —
PRINCE RUPERT AGENCY, Second Avenue. Phone 568.

R. W. Sinclair of Inverness cannery is paying a brief visit to the city on business, having arrived last evening from the Skeena River.

James H. Thompson returned to the city on this afternoon's train after a week's visit to Terrace. Mrs. Thompson is remaining at Terrace for a couple of weeks longer.

C.P.R. steamer Princess Charlotte, Capt. C. C. Saintey, is due in port at 3:45 this afternoon from Skagway and other Aaska points and will sail at 5 p.m. for Vancouver. This is the second of three voyages the Princess Charlotte will make on the Alaska route this summer.

Misery Is Ended; Weakness Gives Way to Strength

"For three years I suffered almost constantly with stomach trouble. I was so nervous at times I could not sleep over two hours at night. Often I had a severe headache all day long. Unless I took laxatives regularly I would become terribly constipated. Sargon acted almost like magic in my case and I can now eat anything I want without the least distress. Sargon Soft Mass Pills regulated my bowels perfectly. I now feel like an entirely different person in every way." — Mrs. Gladys Frost, Toronto, 301 Caledonia Road.

DR. LAMB IS HEARD

(Continued from Page 1)

While it had been originally thought that dry climate and high altitude were necessary for treatment of tuberculosis, it was now realized that this was not essential at all. Cases had been found to do well even in the wet climate of the coast. The all-important thing was to go to bed under proper conditions.

That progress had been made in efforts to prevent and treat tuberculosis was apparent by the fact that, whereas the death rate from the disease in 1901 had been 180 per 100,000 of population, today it was but 98. British Columbia had a somewhat higher rate of mortality than other provinces due to the fact that a larger proportion of the population in this province was Indian, Chinese or Japanese. Dr. Lamb, incidentally, revealed how the death rate from tuberculosis among the Indians had been reduced.

Christmas Seals

In the diagnosis of tuberculosis at the clinics which he conducted throughout the province, Dr. Lamb stressed the important part that the x-ray played. While his own salary was paid by the government, the expenses of his nurse, herself a public health nurse with special training in tuberculosis, and of the x-ray was met by the sale of Christmas seals by the Tranquille Publishing Co. which had been raising on the average about \$5000 annually by this means which nicely covered the work. Dr. Lamb, in closing, made an appeal for co-operation in the purchasing of these tuberculosis seals.

After Dr. Lamb had concluded his address, Frank Dibb suggested that the executive of the club go into the possibility of co-operating in the distribution of these seals locally.

\$1000 For Relief

During a brief business session, the club, after some discussion, decided to loan \$1000 being held in trust for gymnasium purposes to the city for use in relief work provided the necessary security and undertaking for repayment can be secured.

C. P. Balagno was the winner of the luncheon raffle. Dugald Campbell of Vancouver was a guest at the luncheon.

William Cruickshank, the president, was in the chair.

Inexpensive Satisfying... Ask for **WRIGLEY'S**

Evelyn Brent

Star of "Attorney For the Defence," middle of the week feature at Capitol Theatre.

DRAMA IS THRILLING

Edmund Lowe Has Fine Role in "Attorney For the Defence." Now at Capitol

"Attorney For the Defence," which is the feature offering on the screen of the Capitol Theatre here for the middle of this week, presents the virile Edmund Lowe in the very suitable role of a district attorney who sours on his profession when he finds that he has sent an innocent man to the electric chair, becomes a defence attorney and, finally, has a dramatic battle from being condemned himself to the chair. The picture provides an abundance of entertainment and combines fine dramatic action and subtlety in a nice balance which should make the film attractive to all types of audiences.

The punch of the story's drama hits out in the first sequence—the courtroom scene when Lowe is hysterically denounced by an innocent man who has been condemned to the chair. From that point the story is built through the scenes where Lowe and Donald Dillaway argue over Evelyn Brent, through the scene in her apartment after her murder to the final trial where Lowe defends himself, mounting steadily in dramatic intensity to the climactic scene where Lowe reveals the real murderer.

Lowe's superb performance is given splendid support by Evelyn Brent, as an adventures, and Constance Cummings as Lowe's faithful and adoring secretary.

As the weekly revival feature in addition to the full regular program tonight, the musical picture, "The Smiling Lieutenant," starring Maurice Chevalier, Claudette Colbert and Miriam Hopkins is being presented.

Inspector John Macdonald, provincial police, sailed this morning on the Prince Robert for a holiday trip to Vancouver.

LOCAL ITEMS

Miss Phyllis Lamb of Booth Memorial School teaching staff, who has been spending part of the summer vacation at Cassiar canyery with her parents, Mr. and Mrs. James Lamb, arrived in the city from the Skeena River on this afternoon's train.

J. Arthur Smith returned to the city on this afternoon's train from Edmonton where he was called to attend the funeral of his brother, Hon. V. W. Smith, minister of railways and telephons in the Alberta government and former resident of Prince Rupert, who died suddenly last week.

WE DON'T THINK OF PRICE WHEN REPAIRING A WATCH

Our main thoughts are to get your watch to keep as good time as possible that you will be pleased to tell your friends where to get their watch repaired. It is on that principle that we maintain the largest watch repair trade in the north and of course we see to it that our prices are the lowest possible for good workmanship. A trial will convince you too.

Max Heilbronner, Jeweler.

Man in the Moon

Talking of economic conferences the one most of us have Saturday nights with our wives bigger headlines than the Ottawa confab can possibly warrant.

Sir Henry is walking out on his job and it is persistently rumored in the south that Simon Fraser Tolmie will buy a return ticket east. In each case the pressure behind is strong.

Isn't it wonderful how public opinion changes? A few years ago a German would not have dared to visit Canada. Today von Gronau will be a welcome guest when he reaches Prince Rupert.

Premier Bennett is an astute politician as well as a clever statesman. He sprung the St. Lawrence Waterway scheme which is opposed by Quebec just at the time when the Imperial Conference was all-absorbing and from which Quebec will benefit.

For at least one week Fort Fraser is the pivotal point of the interior. The Associated Boards of Trade is placing it on the map by holding a convention there.

An English paper tells us that Liverpool was once a great fishing centre and large numbers of kip-pers came down the river to spawn. It must have been near there where sausages had to be caught when young and strangled.

The origin of knitting is credited to Scotland.

The Letter Box

NEW ORGANIZATION

Editor, Daily News:— Why this council of Organized Employed and Unemployed?

The difference of this council, or committee, which ever you like to call it, is composed of representatives of the labor unions of the city with representatives of the Unemployed Association. The council is not only organized in Prince Rupert, but extends to every city of any size in Canada. You can understand what effect it will have in bringing pressure on the Dominion government to deal with relief direct.

The council's function here in the city will be to give assistance to the already existing committee.

I had the pleasure of attending their last meeting and I can assure you they grappled with the problem of unemployment in a logical and intelligent manner, and I am looking forward to the next meeting (on Friday, 29, at 8 p.m. at the Longshoremen's Hall) when I hope there will be a larger attendance with every union represented.
