MUCH PROPERTY IS DESTROYED DURING RIOTS IN WINNIPEG WHEN MEETING IS BROKEN UP

Revolutionary Socialists Attacked by Returned Soldiers and Sympathizers and Much Hard to Hand Fighting Follows; Feeling Against Foreigners Manifested by Crowds.

(Special to The News via G. T. P. Telegraphs.)

Winnipeg, Man., Jan. 27. — Thousands of dollars of damage represented in wrecked business houses and smashed windows marks the trail of rioting in Winnipeg yesterday from the afternoon until late at night following the breaking up of a Revolutionary Socialist meeting in market square by returned soldiers and crowds of sympathizers.

The outbreak which started with an attack upon "Reds" developed into a general display of feeling against foreigners, who were supposed to be of alien enemy sympathies and about a score of buildings, principally stores in the central and north parts of the city suffered at the hands of mobs which were composed of returned soldiers and youths.

In the attack upon the meeting in the square there was much hand to hand fighting and although a number of people of foreign nationality were somewhat severely mauled, no hospitalizations were reported to the police as having arisen out of the fracas although rumors were circulated during the evening of people being killed.

Serious damaging of property is the worst feature of the rioting and the feeling which the police fear is only the start of an anti-alien enemy campaign in the city. In view of this, steps are being taken to provide protection for concerns in Winnipeg where a large number of foreigners are employed.

Arrests were made but the names of many were taken by the police who were assisted by the Provost Marshall. The police station was surrounded by the Military last night.

Winnipeg, Jan. 27.—(Noon.) Up to noon there were three arrests in connection with the riots, the men being charged with destruction of property and trespass. Detectives are searching for others. The police received many anonymous warnings that the riots will continue until the employees have discharged all enemy aliens.

The big abattoirs are said to be marked for attack. Many Germans and Austrians are employed there. There is little excitement in the city over the occurrence, the public generally sympathizing with the soldiers.

CANADA'S DEBT IMMENSE SUM

Sixty Millions to be Spent on Railways and Similar Amount on Shipbuilding.

YEAR'S DISBURSEMENTS TO BE \$400,000,000

Ottawa, Jan. 25.—When war broke out Canada's net debt totalled \$336,000,000 and her gross debt \$541,000,000. Today the net debt stands at \$1,336,000,000 and the gross debt at \$2,491,000,000. Both more than quadrupled since war commenced.

When war broke out interest on the debt was in the neighborhood of \$12,000,000 and by the end of the present fiscal year will be nearer \$100,000,000, for interest must be paid not only on net but on a very large part of the gross as well.

No further back than 1910 the total revenue of the Dominion was only \$10,000,000. During the year prior to the war Canada's total disbursements amounted to \$144,000,444 and this was considered high. Her disbursements during the coming year apart entirely from those required for upkeep of troops still virtually on active service will amount to close to \$400,000,000. It is proposed to spend \$60,000,000 on government railways and over \$20,000,000 on public works. A further \$60,000,000 is required to complete the shipbuilding program at present on. In fact it cannot be said this will constitute altogether "Capital" expenditure. Ships are to cost \$200 per ton, but the price of shipbuilding in peace time is little more than half that, so that a goodly part of \$60,000,000 will have to be written off by the Dominion.

DELEGATES APPOINTED TO LEAGUE OF NATIONS PART OF GENERAL PEACE TREATY

SPEECH BY PRESIDENT WILSON AND CAREFUL GUIDANCE OF CLEMENCEAU STEERS CONFERENCE CLEAR OF ROCKS AND WEATHERS FIRST STORM.

(Special to The News via G. T. P. Telegraphs.)

Paris, January 27.—The Peace Conference on Saturday weathered its first storm and under the inspiration of a speech by President Wilson and the skilful guidance by M. Clemenceau, Chairman, unanimously adopted resolutions declaring for a League of Nations.

The Conference also went on record in favor of incorporating the League as an integral part of the general treaty of peace admitting to the League "every civilized nation which can be relied on to promote its objects."

Belgium, Serbia, Roumania, Portugal, Brazil, China and Czecho-Slovakia protested against various committees being largely restricted to the Great Powers and asked for proportionate representation privileges, particularly on bodies dealing with the League of Nations, Labor and Reparation for war damages.

Although this was a cloud no bigger than a man's hand, it threatened at one time to grow into a general alignment of the small powers against the five great powers. This, however, was averted by M. Clemenceau's good tempered and skilful direction.

Delegates of the Great Powers in the League of Nations will be: United States, President Wilson and Col. E. M. House; Great Britain, Lord Robert Cecil and Gen. Jan. C. Smuts; France, Leon Bourgeois and Ferdinand Larnaude, Dean of Faculty of Law of University of Paris; Italy, Premier Orlando and Viterio Solaloi; Japan, Viscount Chinda and K. Ochiai.

Delegates of the small nations will be announced later.

**Being on Time
One of Virtues.**

Prince Rupert people usually are not on time. Very few of the public affairs start on time and private or semi-private events are even worse. It seems to be understood that if an event is timed for nine, ten is intended. So it is throughout. Sometimes events are only a few minutes late, but very few start on time. There are one or two notable exceptions such as the City Council. There Mayor McClymont makes a point of starting on the tick and the result is that the aldermen arrive on time.

Now that there is a prospect of the city growing and new people coming it would be well to try to get in line with the rest of the world and have meetings start on time. The same applies to office hours in business houses and those employed generally. No man can look for much promotion or even to hold a good job long if he is not down on time in the morning. It is one of the essentials. An hour in the morning is worth two in the afternoon. Anyone who is not on hand when the rest of the staff commences upsets the work and causes any amount of inconvenience. Not only that but he has a bad influence on the others, and if allowed to continue eventually disorganizes the whole staff. Promptness is an essential in commercial life and is just as important in a small town as in a big one.

**Peace Conference
Making Progress.**

The Peace Conference seems to be making first rate progress and Mr. Wilson seems to be having his way to a large extent, in spite of many prophecies that when he got against the big men of Europe he would find he had not much influence. The League of Nations seems likely to be an accomplished fact and when it and the general principles of the territorial limits have been passed on the chief work of the President of the United States will have been finished and he may return home.

**Will Wilson Be
Candidate Again?**

One of the topics of conversation in the United States and Canada is whether Wilson will seek a third term as President. Those who seem to know the president best think he will not make the attempt as it would be fatal, but others fancy that the hope of the party would be for him to make a good showing at the Peace Conference and then seek the nomination on the strength of it. As the election is so far away, however, and so many things may happen in that time, it is hardly likely that the Peace Conference and the European settlement will have any effect on the next presidential election.

Without Music You Cannot Live a Full Life

Music is now recognized as a necessity in the home. Music feeds the soul, as food feeds the body and literature feeds the brain. Next to religion, it is humanity's greatest comforter.

The New Edison opens the doors to the world of music. It brings the supreme art of the greatest singers, instrumentalists and musical organizations to you with such unerring fidelity that the artists themselves could give you no more.

The NEW EDISON
"The Phonograph with a Soul"

does not merely imitate; it actually re-creates.

Before audiences totalling more than two millions, thirty great artists have conducted tone tests which proved that no shade of difference could be detected between the artist and the instrument. They have sung in direct comparison with the New Edison, then suddenly ceased, permitting the instrument to continue alone. The only way the listeners could tell when the artist stopped was by watching his lips. And with the lights lowered, they were unable to say when it was the living voice they heard and when the New Edison.

Could a more convincing test than this be devised? Doesn't it prove the truth of our assertion that ownership of this instrument is equivalent to having all the great artists of the world literally at one's command?

Come in and hear the New Edison here, or allow us to send one to your home, where you can hear it at your leisure.

Candace Newby was hungry.
 She had offered to sell her talent
 to a theatrical manager, but not
 her soul. The offer had been re-
 fused and she was tormented by
 the barbed thrusts of hunger.

With a few pennies remaining
 of her legacy, she trod rainswept
 streets to a cheap bakery, where
 she bought a loaf of bread. It
 might put color into her cheeks
 and fit her for a decent place in
 a theatrical company forming.

She slipped to the wet pave-
 ment and the bread rolled into the
 gutter, a soggy mass of dough.

A limousine stopped in front
 of a palatial cafe. In the car was
 the man she thought she loved
 and another man who loved her
 wildly. The man she thought
 she loved stepped on the mass of
 bread at his feet, speared it with
 his umbrella and carried it aloft
 into the cafe as a drunken trophy
 of the boulevard.

Sessue Hayakawa Who Plays the
 Part of Ghengis, with Scene
 in Africa.

The scenes of "The White
 Man's Law," which is to be
 shown at the Westholme Theatre
 this evening, are laid in Sierra
 Leone, on the West Coast of
 Africa. The story has to do with
 Maida Verne, a young Soudanese
 girl, who is loved by John A.
 Ghengis, the son of a curio dealer
 and an ivory trader, who is an
 Oxford graduate. Falling under
 the evil influence of Sir Harry
 Falkland, a disreputable English-
 man and forger, Maida coquets
 with Ghengis and narrowly
 escapes falling a victim to the Eng-
 lishman's wiles. Ghengis saves
 Maida, however, and brings Sir
 Harry, who had violated "the
 white man's law," to book. After
 a series of thrilling incidents, the
 Englishman commits suicide just
 as his wife arrives from England,
 but through the generosity of
 Ghengis, her husband's perfidy
 remains a secret and she is happy
 in the belief that he "had made
 good" at last.

IN THE LETTER BOX

House Building.

To the Editor:
 Sir—Your ideas of the price of lots and the cost of house building in Prince Rupert are of a practical and reliable nature, as described in one of your editorials.

Will not some of the progressive citizens look around the river and shores for some good clean sand and purchase some lime and begin the manufacture of sand brick? This is a class of cheap building material that I can thoroughly recommend as suitable for the climate of Prince-Rupert, if well made, and can be supplied much cheaper than bricks made of clay. I make this statement after fifteen years close observation of the durability of sand bricks under nearly all conditions.

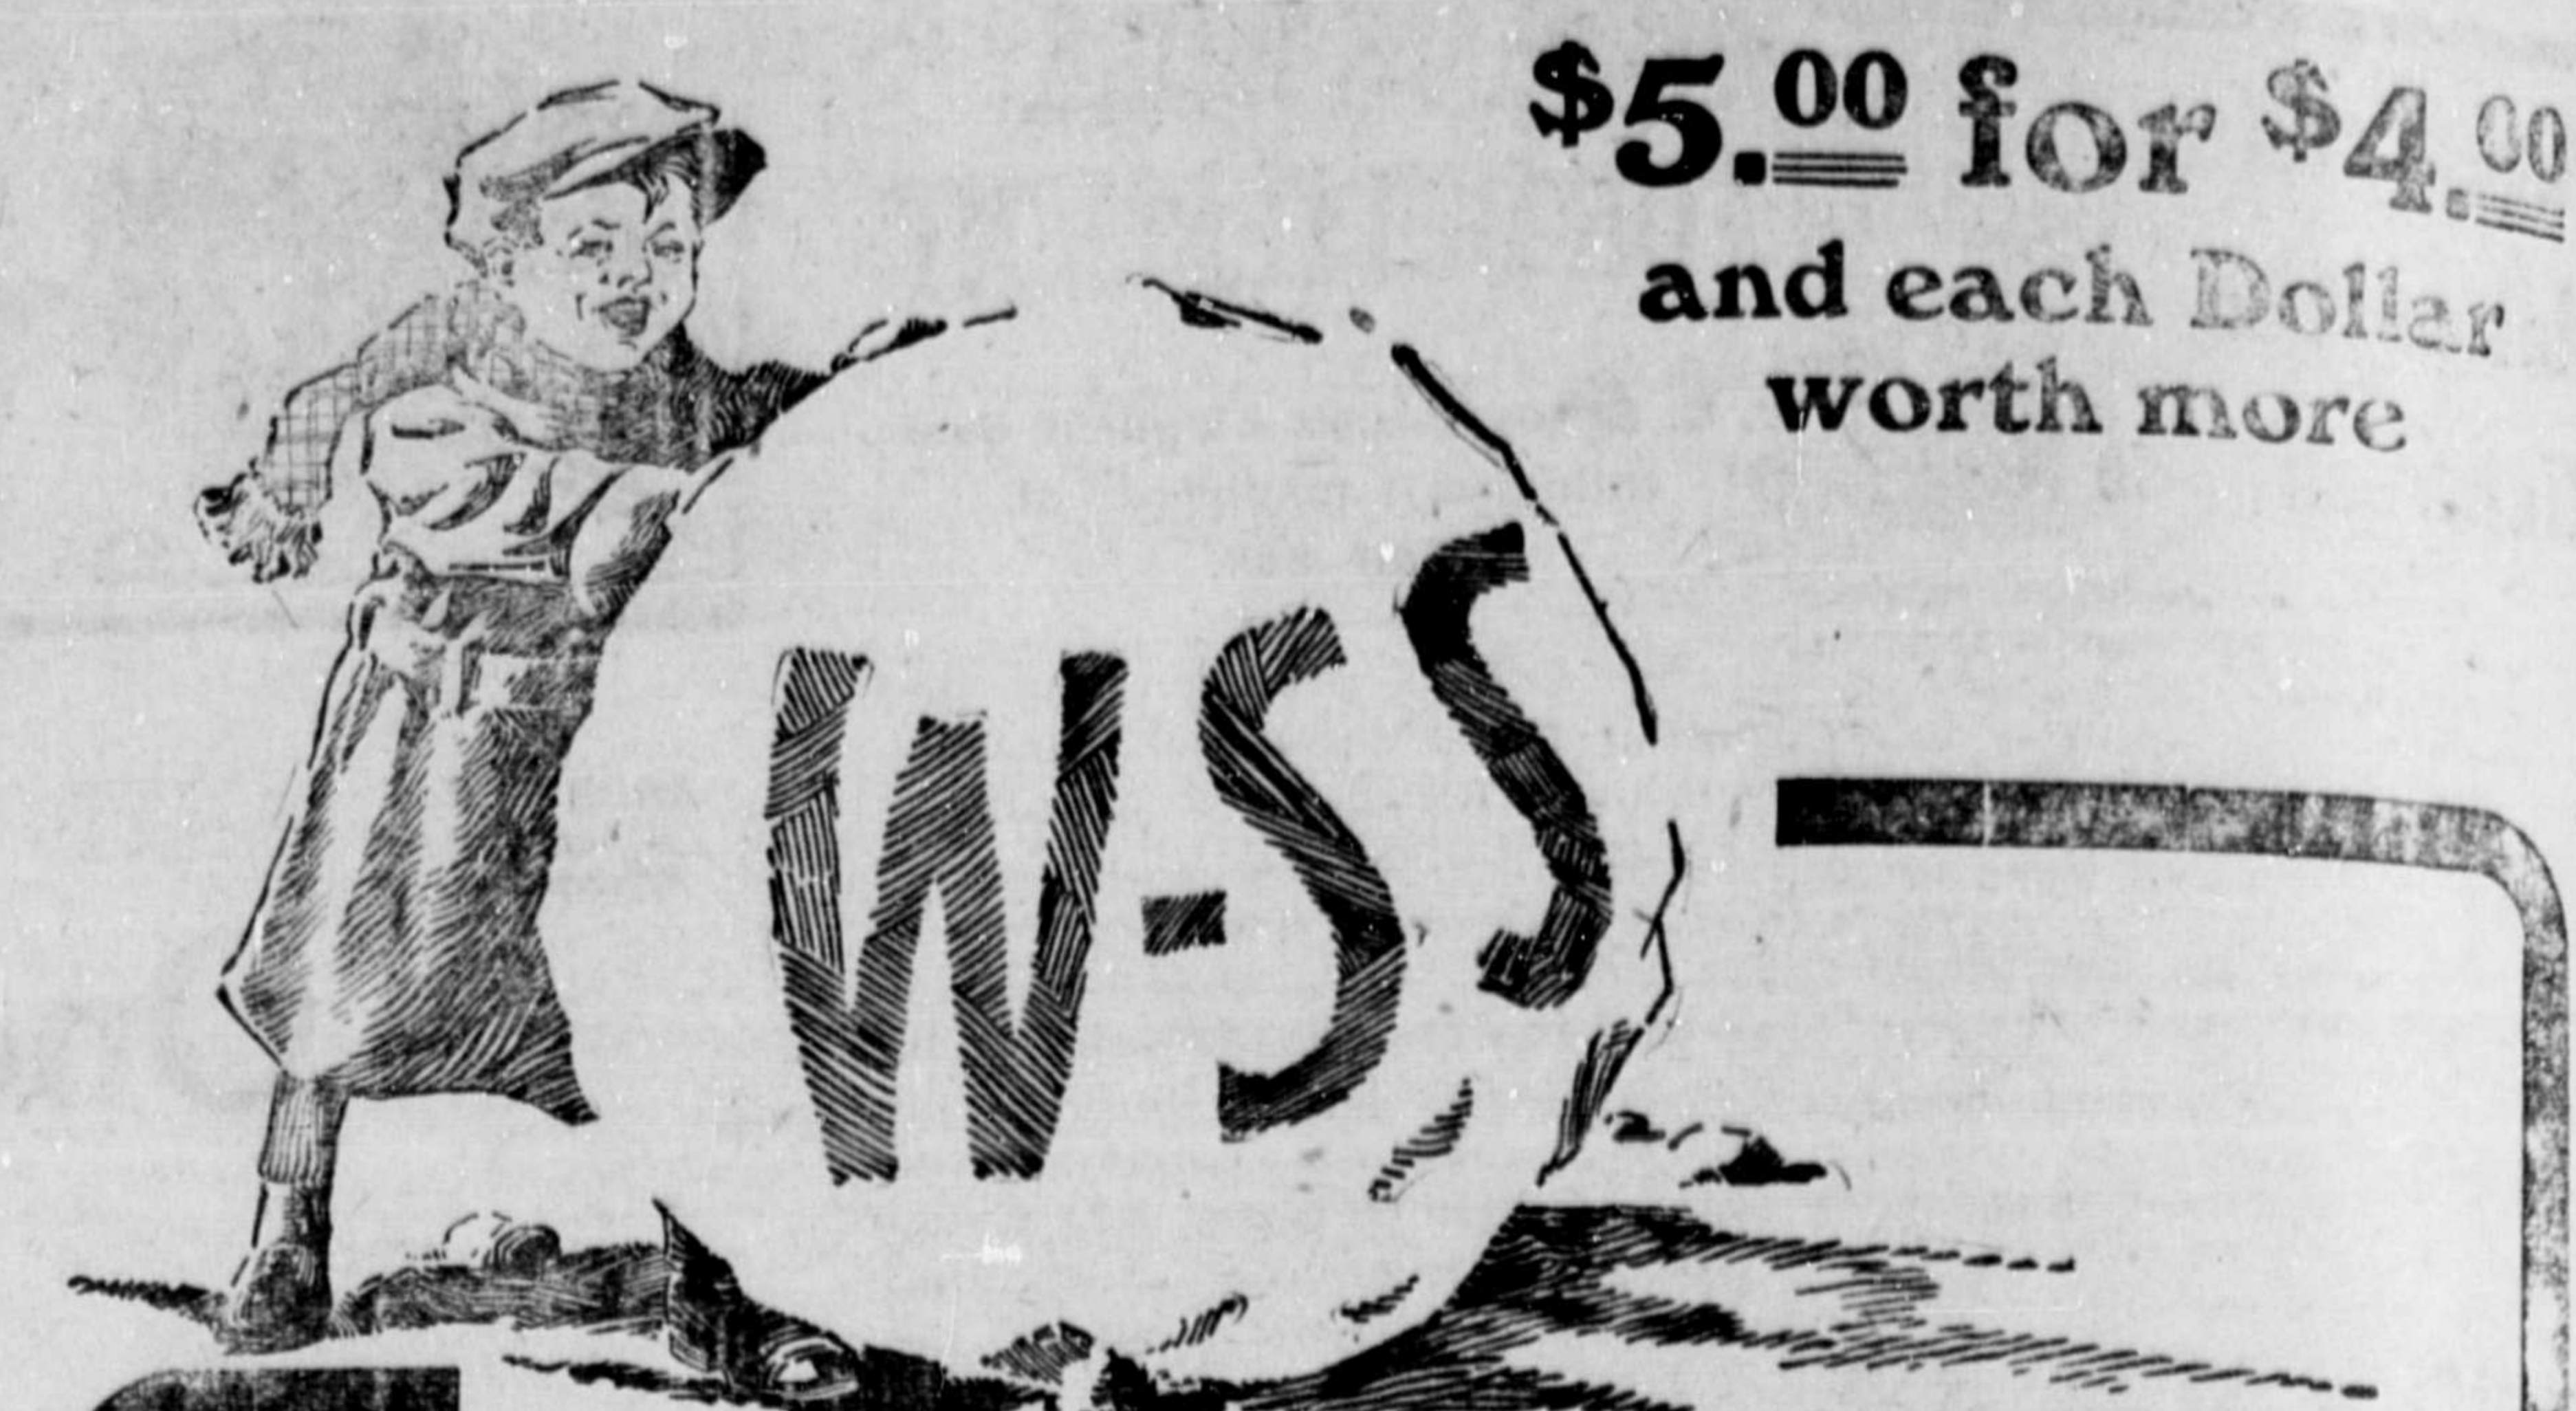

Houses built of nine-inch hollow walls (that is with a space between and tied with iron ties) do not require straps and fill on the inside and can be built damp proof and fire proof. Of course the walls would be thicker for high buildings.

Sand bricks are cheap and suitable for high-class apartment buildings, stores and offices, can be colored red to any depth of shade and made ornamental in design. I trust The News will continue in its present progressive manner for the benefit of the citizens of this new city.

 GROWING!**

W-S. S. are sold wherever you see this sign.
 Thrift Stamps are sold at above places, and by patriotic storekeepers.

What is \$4.00 today? It is a question of purchasing power. What will \$4.00 buy at present prices? Just over one third of a barrel of flour. Before the war flour was selling at \$5.00 a barrel.

No one can say just how much more the purchasing power of the dollar will be in 1924, but you can see that the four dollars you put into War-Savings Stamps now, will grow, not only in number, but in value.

Your investment in War-Savings Stamps is like the snowball rolling down a slope. You give it a start and it grows by itself!

Your four dollars becomes five, and every dollar will be worth more.

Whether you buy one W-S.S. each day, or each week, or each month, or only two or three in a year, your money is growing, growing, GROWING all the time.

Those who cannot invest \$4.00 at a time, can buy Thrift Stamps at 25 cents each. Sixteen of these on a Thrift Card will be accepted as \$4.00 in exchange for a W-S.S.

The Man in the Moon

It is suggested that the war profiteers do not seem to know that the armistice has been signed and the Peace Conference is sitting. Their activities continue as usual.

Since the raid of Constables Adams and Bailey on Room 14, many local sports have been regretting that they never took a room at the corner of Sixth and Third in order to be near the source of supply.

It will be a great relief to the people of Prince Rupert to think the restrictions on food have been lifted by the Food Control Board. Now they will wax fat.

The removal of the Food Board restrictions has reminded those who did not know that it was lack of proper nourishment that kept so many people thin in this city. There has been nothing much better to eat during the long dreary months than beef-steak and mutton chops. Now if they are millionaires they will be able to live on chicken and turkey.
