## BELGIUM AT THE PEACE CONFERENCE CHINDA OF JAPAN DENIES PRESSURE

(Special to The News via G. T. P. Telegraphs.)  
Paris, February 12.—The Supreme Council gave attention today to Belgium, hearing Symans and Vanderveelde on the Belgian claims for international readjustment and for changes in the treaty of 1839 delimiting the frontiers of Belgium and providing that it be a perpetually neutral state. It was this treaty which was declared to be a scrap of paper when Belgium was invaded. Belgium wants Luxembourg and part of Holland.

**Japan Denies.**  
A News Agency gives out a statement by Viscount Chinda, Japanese Ambassador to Great Britain, who is now representing his country at the Peace Conference here, declaring the report untrue that Japan had exercised pressure on China to restrain the action of the Chinese delegation to the Conference.

## GERMANS STILL INSULT ALLIES

**Officers Celebrate ex-Kaiser's Birthday and Drink to His Restoration to Power.**  
(Special via G. T. P. Telegraphs.)  
Berne, Feb. 12.—German officers interned in Switzerland celebrated the birthday of the former Emperor at Lucerne, all of them drinking to his health, his early return to Germany and restoration to his former power. They then drafted a telegram to Amerongen, which is said to have been so insulting to the entente nations that the telegraph office refused it.

## MAYOR MCCLYMONT HAS BUSY TIME WHEN IN VICTORIA

Mayor McClymont returned to Victoria this morning after visiting Victoria and Vancouver on business. While in Victoria he took up several matters with the Provincial Government of importance to the city. Among these were several amendments to the Municipal Act, which will be brought before the House during this session. Several important sources of revenue which at present are controlled by the Provincial Government and are held to more properly belong to the municipality, were also discussed by the mayor during his stay in Victoria. One of these is the automobile licence, which is collected by the Province. Club licences was another of the matters taken up, and the control of clubs and cabarets by the city. The thrift campaign by means of War Savings Stamps, which the Government is now promoting, took up part of the mayor's time while in the south.

(Special via G. T. P. Telegraphs.)  
Basel, Feb. 12.—The German National Assembly elected Friedrich Ebert, President of the German State, by a vote of 277 out of 379 votes, a majority of 102. Herr Ebert accepted election. Count Von Wehner received 49 votes.

## LIBERAL CONVENTION IS BEING ARRANGED

**British Columbia and Yukon Delegates Will Consider Dominion Situation in the Near Future.**  
A federal Liberal convention for the Province of British Columbia and the Yukon will be called at an early date. This decision was made at a meeting at the Liberal headquarters in Vancouver between Senator Bostock, leader of the Liberal Party in the Senate, and representatives from most of the federal constituencies on the mainland. The big room was filled for the conference. The gathering was most enthusiastic in tone and a resolution was unanimously carried that a convention be called as soon as all the Liberal associations within the province can be communicated with and they can appoint delegates. The constituencies represented at the meeting yesterday were Vancouver Centre, Vancouver South, Burrard, New Westminster and Comox-Alberni and the Fraser and Okanagan districts and the Yukon Territory. On all sides it was strongly urged that all the organizations be brought into fighting trim and a committee of five presidents of federal associations was appointed to make arrangements and communicate with the constituencies.

## PRUSSIANISM IN LABOR RANKS

**Representatives of Million Workers Will Discuss Lloyd George's Defi Made in Commons.**  
(Special via G. T. P. Telegraphs.)  
London, Feb. 12.—Representatives of more than a million British workers met today to discuss wages, hours of employment and working conditions. Premier Lloyd George's speech before the House of Commons yesterday in which he uttered a defi to Prussianism in the ranks of labor was expected to form one of the principal subjects of debate in the various industrial meetings today.

## EASTERN TRAWLERS AFTER FLATFISH

Ottawa, Feb. 11.—Demands by Pacific fishermen to increase their rates on flatfish seriously affect the wholesale price fixed by the food board, and will result in increasing the price of these fish to the public at a time when a general reduction in the price of fish was looked for. Owners of trawlers on the Atlantic are producing flatfish equal to the Pacific variety and it is expected they will make a move to capture the market. Certain Nova Scotia producers are said to be already planning to market Atlantic flatfish throughout Canada and representations are looked for at Ottawa seeking to have the two-thirds transportation subsidy made applicable to shipments from Atlantic points. Producers in the East have stated that they can sell flatfish for half a cent a pound less than the price fixed by the board for Pacific flatfish.

## KITCHENER LOST WHEN STRUCK MINE

**Inside History Given in Admiral Jellicoe's New Book Which is Out Today.**

(Special via G. T. P. Telegraphs.)  
London, Feb. 12.—The book written by Admiral Viscount Jellicoe which appeared today gives the cause of the sinking of the British Cruiser Hampshire on which Lord Kitchener lost his life. Jellicoe explains that the Hampshire struck a German moored mine which had been laid by a submarine. The book contains revelations of British unpreparedness at the beginning of the war. The Grand Fleet had to run out of the harbor several times because submarines were reported inside. Admiral Jellicoe says he avoided a night action with his big ships off Jutland because the British searchlights and fire controls were defective. He recommended a greater superiority of all classes of vessels than in 1914.

## SOLDIERS' DEPENDENTS WILL RETURN HOME

(Special via G. T. P. Telegraphs.)  
Ottawa, Feb. 11.—The Department of Immigration and Colonization have taken over from the Militia Department the transport from Overseas of Canadian soldiers' dependents. Five modern vessels of the type of the Minnedosa and Melita have been set apart for this exclusive purpose and from this forward of soldiers' dependents will be transported to Canada at the rate of from 1,500 to 2,000 a week.

## UNDESIRABLES

**Two Car Loads of Aliens Passed Through Chicago for New York and for Deportation.**  
(Special via G. T. P. Telegraphs.)  
Chicago, Feb. 11.—Two car loads of undesirable aliens passed here under heavy guard enroute for New York for deportation. They came principally from the west coast but were not connected with the present labor troubles there. They are mostly Russian agitators and enemy aliens.

## STRIKING TEACHERS RETURN TO DUTIES

(Special via G. T. P. Telegraphs.)  
Victoria, Feb. 12.—The school teachers who have been on strike here have returned to their duties today on the promise that the question of salaries will be submitted to arbitration.

## HINTON GIVES AN INTERVIEW AT EDMONTON

**Speaks of New Industry, Adding to Business and Importance of Prince Rupert.**

W. P. Hinton, vice-president and general manager of the G. T. P., returns to Winnipeg this morning, says the Edmonton Bulletin of Saturday. He was accompanied on his visit to Edmonton by J. A. Hanna, assistant chief engineer of the G. T. P., and while at Edmonton met Captain Nicholson, manager of the G. T. P. steamers operating out of Prince Rupert. Mr. Hinton does not hold out any prospect of G. T. P. construction in Alberta this year. Prices of labor and material are still too high to warrant the large expenditure necessary. There is still an ample field for railway expansion, but it would unduly hinder the future to build branch railways at present prices. The arrangement by which the G. T. P. runs through Saskatoon on the C. P. R. tracks and using the C. P. R. station and freight sheds is found to be very satisfactory all round. The increased length of line is only four or five miles and both passenger and freight traffic is much better accommodated.

Arrangements are about closed to commence shipbuilding at Prince Rupert in connection with the drydock there. Contracts have been awarded for two vessels for the Canadian government and for several others for the French and Italian governments. The new industry will add to the business importance of Prince Rupert and incidentally to the traffic of the railway.

**AMAZING STORY OF  
 FALL OF ROMANOFFS**

Rasputin, the Fakir, Plays Important Role in Dramatic Narrative of Russian Life.

An amazing story, moving onward with the sweep of a mighty symphony and tracing step by step Russia's grasp of freedom is "The Fall of the Romanoffs." It reveals the true story of Rasputin, the real ruler of Russia and the most astounding adventurer of modern times; showing this false prophet rising from peasant filth to the silken splendors of Petrograd, where he makes money masters and Grand Dukes his servants, and the Czar himself a humble follower.

The discovery of Rasputin's duplicity is made by Illiodor, the mad Monk, a highly educated monk he tried to enslave. The following scenes show Illiodor's sensational escape and graphically picture Rasputin's bloody ascent to supreme power, and show the great conspiracy ending in Rasputin's sensational death.

This sensational production will be shown at The Empress Theatre, Wednesday and Thursday.

**W**HILE stooping near the stove I caught the handle of a pan of boiling water and upset it," writes Mrs. Albert Smart, of 279 Harbison Ave., Winnipeg. "The entire contents of the pan poured partly down my arm, but mostly over my foot, and as I was wearing slippers at the time my foot was very badly scalded! A huge blister covered the whole top of my foot and the pain I suffered was intense. We had heard how good Zam-Buk is for such injuries, so my husband got some and applied it. The first application soon gave me wonderful relief from the burning pain, and continued applications completely cured the scald. After this demonstration of the value of Zam-Buk we are now never without a box in the house. We have proved it invaluable for the many little accidents which are of such frequent occurrence in every home.

Zam-Buk is just as effective for skin diseases, such as eczema, salt rheum and ulcers, and is without equal for piles. In many cases where the disease or sore is of long standing and other remedies have been useless, Zam-Buk has worked a complete and permanent cure. Its absolute purity makes it suitable for the most tender skin (even the skin of a young baby) and mothers should always keep a box on hand for emergencies. Zam-Buk does not deteriorate with keeping. **Pure Cream Makes the Richness**

There is a pure cream richness about Pacific Milk that is the only secret behind its goodness for cooking.

You see, all we do to the rich, fresh milk as it comes from the farm is to evaporate water out of it.

This leaves the natural butter fat and other cream solids as they were.

Then we seal it up so it remains fresh and sweet.

Try it in the next recipe which calls for milk or cream.

**E. H. MORTIMER SPEAKS FOR PRINCE RUPERT**

**Scores C. P. R. for Having Vessels Docked in Orient Where Cheap Oriental Labor is Employed.**

The provincial convention of the Navy League of Canada, in session at Victoria, passed a resolution calling for immediate construction of a drydock, irrespective of location, on the Pacific coast, says the Vancouver Daily Province just to hand. E. H. Mortimer, delegate from Prince Rupert, pointed out that the province already had a drydock that cost the G. T. P. millions of dollars to build.

"That dock, fully equipped, has been idle 95 per cent. of the time," said Mr. Mortimer. "We had the Orbita and Lancaster drydocked at Prince Rupert, and several other vessels spoke of 'coming,' but what happened? The work that should have been done in British territory was done in the United States. It is a crime to the British Empire that this drydock that will lift 30,000 tons, should have stood idle."

Continuing his remarks in connection with the disinterested attitude that had permitted tons and tons of shipping to be repaired elsewhere when this splendid dock at Prince Rupert was available, Mr. Mortimer said:

"The Canadian Pacific Railway Company drydocks all its vessels at Hongkong where cheap Oriental labor can be employed. How is that for a fine British concern?"

**Red Cross Notes**

The sale next week will be conducted by Mrs. D. Morrisey and Mrs. George A. Sweet.

**Library.**

Mrs. P. R. Backus has taken charge of the Red Cross Library in the Hut. The installation of his library has filled a long-felt want in the city and donations of discarded volumes of books and magazines for distribution will be gratefully received and acknowledged. The library will be open on Tuesday evening of each week from 7:30 until 9 o'clock and on Friday during the hours the weekly sale is in progress. The collection at present consists of some three hundred volumes on scientific, natural history and other like subjects, as well as fiction. In a few days a junior shelf will be added containing publications on subjects suitable for these of school age. The charges are quite reasonable; a deposit of \$1.00 is required when "borrowing" is commenced, which is returned when the use of the Library is discontinued. For exchange of books the nominal sum of ten cents is charged.

**Creating Opportunities for Employment**

**B**ESIDES helping to distribute employment through a chain of Employment Offices, the Government has developed plans to create opportunities for employment.

Briefly, these plans cover the following phases:—

- 1. Public Works**  
During the war, many important Public Works have been held up. The Minister of Public Works, has his plans and preparations made to proceed with the more necessary of these in the near future. This Committee has also been in touch with Provincial Governments and Municipalities, with a view to impressing upon them the necessity for similar action. The building and public works programme now in sight will provide employment for many returned soldiers and war-workers.
- 2. Railways**  
During the past four years, a great deal of work necessary to keep our railways up to standard has been postponed. Some millions of dollars must be expended on improving road-bed, constructing bridges, buildings and other improvements. Vast quantities of ties are being got out this winter. Equipment of various kinds must be secured. The Minister of Railways states that as soon as weather conditions will permit, some thousands of men will be absorbed in various railway undertakings. The supplies and materials required will also provide employment.
- 3. Shipbuilding**  
The shipbuilding programme arranged for by the Government will provide employment for many men during 1919. It is expected that arrangements will be completed to keep the shipbuilding yards in active operation throughout the year. The Government recognises that this ship construction is one of the best means of providing suitable employment for many skilled and other workers.
- 4. Export Trade**  
The Government has established a Canadian Trade Commission. This Commission has an office in Canada and a "trade mission" overseas. Through this trade mission it is anticipated that Canada will secure an important share in the business of providing materials and manufactured products required for reconstruction work in Europe. A short time may be required before final details are completed and definite results are announced. The business so secured will be distributed through the regular channels of trade and thus afford extra opportunities for employment.
- 5. Housing**  
The Government has set aside the large sum of \$25,000,000 to be loaned through the Provinces in order to encourage the building of workmen's houses. When the season for building arrives, this work should give employment to many hundreds of men both in construction work and in the supply of materials.
- 6. Land Settlement**  
The Government, as already explained in a former announcement, has developed plans to help soldiers to become farmers, providing land, granting loans and giving training and supervision where necessary. It is expected that a large number of returning soldiers will take advantage of these opportunities. The scheme will involve the expenditure of some millions of dollars, a good deal of which will find its way into building materials, supplies, machinery, etc., all of which will assist in providing employment.
- 7. Road Building**  
The Government now has under consideration the question of joining the provincial governments in financing the construction of public highways. Should a favorable decision be reached, a large field for employment opportunities will be opened up. Regardless of Federal action, provincial governments are preparing their own road-making programmes.

The Government is alive to the necessity for providing employment opportunities, and stands prepared to assist in every way possible. If corporations and private citizens will join in this feature of Repatriation Work, Canada should have little difficulty with the employment problem.
