Premier of France is Wounded

ATTEMPT TO MURDER THE PREMIER OF FRANCE TODAY AS HE WAS ENTERING A CAR

BOY NAMED COTTIN FIRED EIGHT SHOTS WITH PISTOL,
WOUNDING GEORGES CLEMENCEAU SLIGHTLY
IN HIS RIGHT ARM

(Special to The News via G. T. P. Telegraphs.)
Paris, February 19.—Georges Clemenceau, Premier of France, was shot and slightly wounded by a boy named Cottin, as he entered a motor car in front of his residence this morning. The assailant who was arrested, refused to make any statement regarding the motive. He is about 18 years old, is a French civilian, and is said to live in Compiègne. As Clemenceau was seating himself in his limousine, Cottin suddenly sprang forward and fired eight shots from the pistol. Six of these hit the front of the car. Two bullets penetrated the glass door, one striking the Premier on the inner side of the right arm near the shoulder, inflicting a flesh wound.

FUNERAL OF MRS. BESNER THIS MORNING

Father McGrath and Bishop Bunoz
Officiated and Very Many
Citizens Were Present.

The funeral of the late Mrs. O. Besner which took place this morning from the Catholic Church. Father McGrath and Bishop Bunoz officiating—was one of the largest attended in the history of the city. High Mass was celebrated by Father McGrath and Bishop Bunoz gave a short exhortation, the cortege then proceeding to the graveyard at Fairview. The coffin was covered with beautiful floral offerings and the church was filled with those who wished to pay the last mark of respect to the deceased lady.

The pall bearers were Martin O'Reilly, D. Morrissey, John Desjardins, Fred Prudhomme, Harry Delourneau and Tom Trotter. Blayn Brothers had charge of the funeral arrangements. Among the numerous floral tributes to the memory of the deceased were the cards of Mrs. Geo. Sweet, Mr. and Mrs. Geo. Frizzell, Mr. and Mrs. G. W. Nickerson, Mr. and Mrs. Harry Lipsitt, Mr. and Mrs. Charles Balagno, Mr. and Mrs. Geo. D. Tite, Mrs. Pearce and daughters, Kaien Hardware Co., Mr. and Mrs. A. D. Phillips, Mrs. Scrimgeour, Miss Adeline Barbeau, and the Graham Island Spruce and Cedar Co.

Officials Who Are Spending Few
Days Here Say Prospects
Look Very Bright.

A party of officials of the Grand Trunk Pacific Railway and Steamship Company are spending the day in Prince Rupert prior to continuing through to Anyox, from which point they will return to Prince Rupert and remain here until departure for the East Saturday.

These officials have been attending a Conference at Edmonton with their field men, which was called for the purpose of discussing and arriving at best ways and means to properly protect the increased volume of traffic which it is anticipated will move during the coming summer. The officials are particularly optimistic as to future prospects, such optimism being based largely on the anticipated increased acreage which will be under cultivation on the prairies this year, and so far as passenger traffic is concerned the undoubted renewal, with increased activity of tourist traffic is looked forward to as the same has been restricted for the past few years on account of war conditions.

Steamship Service.
No announcement can as yet be made regarding steamship service for the coming summer, as this is a matter that is now receiving careful consideration, and a decision may be expected in a short time, but, as heretofore, the Grand Trunk Pacific will of course feature Prince Rupert as the gateway to and from the Pacific Coast.

Attractive fares were arranged, not only to and from Vancouver from certain prescribed sections of the prairies but also in the reverse direction, last summer, and hundreds of passengers took advantage of these fares. Corresponding fares were arranged from the prairie provinces to Vancouver and Victoria for December and January last but owing to the flu epidemic not as much business moved as in the previous year. However, no opportunity is being lost to place Prince Rupert on the map and representation is given in all tariffs of the United States rail lines so that traffic may be routed to and from this city, which is important owing to the large volume of such traffic which originates in United States territory, and it is felt that no better advertising can be secured than to have the residents of our sister country see the advantages of the North Pacific Coast, through the eyes of Prince Rupert. The party consists of A. E. Rosevear, General Freight Agent,

PRELIMINARY PEACE SUBJECT OF DISCUSSION

Opinion Expressed Time for Talk
Now Passed—Should be
Ready in April.

(Special via G. T. P. Telegraphs.)
Paris, February 19.—American, British, French and Italian delegates discussed the program for a preliminary peace today with the intention of having the outline committed soon after President Wilson's return to Paris.

The belief was expressed that the pact might be ready for final discussion by the middle of April. The Supreme Council of Great Powers heard the claims of Serbia yesterday. Some of the representatives of the Council, however, remained away, feeling that the time for talk was passed and that the present need was action, for getting back to a peace basis. This movement is taking form in the most responsible British, American, Italian and French quarters and promises to yield definite results within the next few days.

FISH ARRIVALS

The Lebanon arrived this forenoon with 12,000 lbs. of halibut, and the Dip with 6,000 lbs. The Vansee that arrived last night with 30,000 lbs. proceeded with her fish to Seattle, where she will overhaul.

Winnipeg; W. E. Duperow, General Passenger Agent, Winnipeg, and W. C. Riddell, Advertising Agent, Winnipeg; G. A. McNicholl, Assistant General Freight and Passenger Agent, and F. R. Hunt, local auditor, Prince Rupert, accompanied the party.

DAILY EDITION.  Wednesday, Feb. 19, 1919.

Increased Scope For City Market.

What is going to happen if the market clerk goes broke on his trading, under the proposal of Alderman Casey and Alderman Barrie? The plan which was published yesterday provides that he shall be bonded for \$4,000 so that it is to be presumed that the bonding company is expected to meet the loss in case of failure. It is not, however, a reasonable presumption. No bonding house would bond a firm against losses in business. There are too many failures for that.

If it were as easy to go into business as Alderman Casey seems to intimate and on a seven and a half per cent. margin make money without investing any capital, then why is not the alderman in business himself? He could soon make a fortune. Alderman Barrie who is sponsor to the motion knows that he gets a very much higher margin than seven and a half per cent. or even four times that, yet he does not make a fortune.

No Profits Without Possible Losses.

The city will find it difficult to make any agreement by which it is to make profits without at the same time suffer the risk of having losses. Business is a venture. It means loss as often as profit. Many firms go to the wall and others lose money periodically and then catch up again when good times come. There is little stability except in an old established business where the manager has unusual ability.

The idea of the aldermen to try to save money for the citizens is all right, but they seem to pre-suppose that the merchants now in business are getting more than their share of profits. As a matter of fact more than one firm dealing in food-stuffs is losing money today. For the city to go into a business in a large way means simply forcing some of the merchants to the wall.

Procedure in Other Cities.

In most of the Canadian cities the dealers in the city market are confined to the sale of home productions. They do not buy imported goods and retail them. The whole idea behind the establishment is for those who produce in a small way to get into direct touch with the consumer and thus get the full product of their toil. In Victoria and Vancouver the prices at the market are usually about the same as at the city stores, often higher than at the "cash and carry stores." There is, however, an attraction about buying direct from the farmers that brings business their way.

In Seattle fruit is often cheaper in the markets than in the stores and cheaper in the farmers' markets than in the others. On the whole, however, the difference is only the difference of delivery or no delivery.

Here there are no farmers to bring produce to market. The only farmers are those who live a hundred miles away. The result is that there is little to be gained in extending the market. The city is hardly big enough yet for any great extension at any rate.

Municipal Act Must Be Watched.

F. A. McDiarmid, former city solicitor of Victoria, has prepared a new draft municipal act which will possibly be before the legislature this session. There are many who think it would be better to hold it over until it is thoroughly digested, as it contains many new provisions. Prince Rupert is vitally interested in this legislation and just now during her growing time it seems as if she particularly needs to be on her guard against any move which might handicap her.

The bill is not in the usual sense a Government measure. The Municipal Committee, which is composed of members from both sides of the House, has power to amend or reject clauses and also to add additional ones. It is usually understood that a measure of this kind is not in any sense of the word a party measure. Any powers which are given to or taken from municipalities are not therefore the work of parties, but of the legislature as a whole.

If Mr. Johnson, city treasurer, goes to Victoria and meets the legislative committee he will find that he will get a respectful hearing and every question will be considered on its merits. That is all that can be asked.

WARNING to the PUBLIC

It has come to my knowledge that the Harry Hanson Patent for Hot Water Coils has been infringed from time to time, by the installation of Harry Hanson Coils by unauthorized persons. They say the coil they sell is not a Harry Hanson coil, but if the firebox linings are removed and pipes in any placed in this space, this is an infringement of my patent. If this practice is persisted in by unauthorized persons, I will take steps to protect my interests.

Householders should also note that by having a Harry Hanson coil installed by any unauthorized person, they also become liable under the patent laws.

DOUBLE FEATURE AT THE EMPRESS

Mrs. Vernon Castle in "Stranded in Arcady" and Another Episode of "The Mystery."

Another double program is to be shown tonight at the Empress Theatre. The big feature is Mrs. Vernon Castle, the greatest American dancer, in "Stranded in Arcady," a thrilling story of the great out-doors. The story was very popular as a magazine serial and as a novel and the author is one of the most popular writers of American fiction.

"The Mystery of the Double Cross" is another thrill this week. Two doors confront the characters. Between them is a note which reads, "Behind one of these doors lurks death; enter at your peril." Courage and lack of courage are shown in the sequel. The episode is a story all itself and can be seen and appreciated without knowing anything of what went before.

PRINCE RUPERT IS BACK ON LOCAL RUN

Vessel Arrived This Morning Resplendent With New Paint and With Interior Improvements.

Resplendent in new paint and with officers and men all looking the better for their holiday, the G. T. P. steamship Prince Rupert arrived this morning after several weeks spent in dock at Esquimalt. She is replacing the Prince George which now is having a similar overhaul.

The chief change made in the boat since she was here is the new purser's office which has been built in the centre of the lounge opposite the old office and connecting with the second class sitting room also. It is commodious and much more convenient than the old one besides allowing the use of the old offices for sleeping compartments. Purser Wood and his assistant Mr. McLean are in charge and are much pleased with the change. A similar cabin is being constructed on the Prince George.

War-Savings Stamps

A Nation of Bond-holders

Before the War, Canada looked outside her borders for Capital. During the last three and a half years, Canada has become a nation of Capitalists,—for the man who buys a \$50 Victory Bond, or a \$5 War-Savings Stamp, is a Capitalist of the best type.

By the discovery of ten times the number of Capitalists, or Bond-holders, that she previously had, Canada has made a great stride forward. Interest charges, necessarily high at this time, do not withdraw money from the country. Home industry is fostered, and the problem of the War Burden is solved.

EVERY CANADIAN SHOULD BE A CAPITALIST. The opportunity is provided by the offer of War-Savings Stamps at \$4.01 this month, and redeemed for \$5.00 on the first day of 1924.

Buy War-Savings Stamps, as many as you can, as often as you can, at Money-Order Post Offices, Banks and other places displaying the Beaver—Triangle sign.

Increase Your Holding of Bonds All the Time.

\$5.00 for \$4.01

and each dollar worth more.

Red Cross Notes

The sum of \$72.10 was realized last week from the sale of work conducted in the hut. In addition to this the following gentlemen have kindly donated to the funds of the society commissions to which they were entitled on the sale of Victory Bonds all of which are gratefully acknowledged:—M. M. Stephens, \$10.00; E. C. Gibbons, \$3.75; G. W. Nickerson, \$52.75.

An exceptionally generous donation was received from the Hazelton branch of \$350 to be applied to the general funds of the society.

The following list of articles were disposed of last week:—A. B. C. Packing Co., salmon, won by Mrs. J. W. Potter; Indian women at Telegraph Creek, gauntlets, won by Alex. Rix; Mrs. R. McKay, eggs, won by Mrs. J. C. Gavigan; Mrs. J. L. Christie, coffee, won by Mitchell Albert; Mrs. R. C. Parsons, coffee, won by W. G. Barrie; Mrs. P. Wallis, tea, won by Fritz Schultz; Mrs. W. H. Vickers, baby dress, won by Mrs. F. R. Hunt; Mrs. D. W. Morrissey, box of apples, won by Father McGrath; Mrs. K. Henning, fancy articles, won by Mrs. J. L. Christie; Mrs. A. Bernar, baby's jacket, won by Mrs. Carkill; Mrs. Olier Besner, fern bowl, won by E. C. Gibbons; Mrs. Olier Besner, sack of flour, won by Miss Belle McLeod; Sisters of St. Joseph, baby's dress, won by H. C. Black.

The sale on Friday next will be in charge of Mrs. Valentine and Mrs. Sandison.

Mrs. F. R. Hunt has kindly presented to the Red Cross library in charge of Mrs. Backus a handsome set of the works of Robert Louis Stevenson.

The death of the late Mrs. Olier Besner has removed one who has been a member of the executive committee of the Canadian Red Cross Society in this district since its organization some four years ago. This estimable lady was a most zealous worker in all the numerous activities of the society and both directly and indirectly contributed in no small measure to the prominence and success which the society has attained. In her death the Canadian Red Cross Society has suffered the loss of a highly esteemed and valued member.

One (1) year will be allowed for removal of timber, and has made proportionate improvements, he may, because of ill-health or other cause, be granted intermediate certificate of improvement and transfer his claim.

SYNOPSIS OF

LAND ACT AMENDMENT

Pre-emption now confined to surveyed lands only. Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emption abolished, but parties of not more than four may arrange for adjacent pre-emptions, with joint residence, but each making necessary improvements on respective claims. Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where a pre-emptor in occupation not less than 2 years, and has made proportionate improvements, he may, because of ill-health or other cause, be granted intermediate certificate of improvement and transfer his claim. Records without permanent residence may be issued provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained on these claims in less than 5 years, with improvements of \$10 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years.

Pre-emptor holding Crown Grant may reconvey another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads; title to be obtained after fulfilling residential and improvement conditions. For grazing and industrial purposes, areas exceeding 640 acres may be leased by one person or company.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

TOWNSITE PROPERTY ALLOTMENT ACT.

Provision is made for the grant to persons holding uncompleted Agreements to Purchase from the Crown of such proportion of the land, if divisible, as the payments already made will cover in proportion to the sale price of the whole parcel. Two or more persons holding such Agreements may group their interests and apply for a proportionate allotment. If it is not considered advisable to divide the land covered by an application for a proportionate allotment, an allotment of land of equal value selected from available Crown lands in the locality may be made. These allotments are conditional upon payment of all taxes due the Crown or to any municipality. The rights of persons to whom the purchaser from the Crown has agreed to sell are also protected. The decision of the Minister of Lands in respect to the adjustment of a proportionate allotment for these allotments is limited to the 1st day of May, 1919. Any application made after this date will not be considered. These allotments apply to town lots and lands of the Crown sold at public auction.

For information apply to any Provincial Government Agent or to G. R. NADEN, Deputy Minister of Lands, Victoria, B. C.

WAR VETERANS' CONCERT WAS FINE EFFORT

Musical and Dramatic Selections
All Well Received by Large Audience.

To say that the concert last night given by the Great War Veterans in aid of their funds was a success would be putting it too mildly. In spite of the rain and blustering wind there was a good attendance and the program was distinctly high class. Unfortunately owing to the bad weather Dr. Large found it impossible to come over from Port Simpson until late, but much as he was missed the entertainment was excellent.

The theatre orchestra played with good spirit and ensemble and showed excellent balance and precision. John Davey who has been heard often, sang "Nirvana" with authoritative delivery and dramatic fervour and on being recalled gave "Absent," putting into it that strain of tender longing which indicated the artist. He was in good voice and sang well.

Instrumental.
Will Edmunds played the cello solo "The Broken Melody" in masterly style, and followed with the charmingly tender "Mother Macree." He was accorded a great reception, as was also Wm. Balagno, who is a veritable wizard with his fiddle. Twice Mr. Balagno was recalled and then the audience was not satisfied.

Miss Taylor who made her debut here at the Red Cross concert recently, had acquired considerable more confidence since that time and last night she sang well and was well received. A second song was demanded by the audience and gracefully accorded.

Dramatists.
It is difficult to speak with sufficient enthusiasm of the Shakespearean recital by Mr. and Mrs. J. C. Brady. The scene chosen was the choosing of the caskets from the "Merchant of Venice" and with both characters the sketch was most effective.

At the close the pictures "In His Own Home Town" and Chaplin in "The Rounders" was shown.

Everybody Thanked.
At the conclusion of the musical part of the entertainment Dr. McNeill speaking on behalf of the veterans thanked Paul Aivazoff for the free use of the theatre, the films and the service, all of which had been given for the occasion. He also thanked all the others who had contributed to the success of the evening.

War to Peace

Creating Opportunities for Employment

BESIDES helping to distribute employment through a chain of Employment Offices, the Government has developed plans to create opportunities for employment.

Briefly, these plans cover the following phases:—

1. Public Works

During the war, many important Public Works have been held up. The Minister of Public Works, has his plans and preparations made to proceed with the more necessary of these in the near future. This Committee has also been in touch with Provincial Governments and Municipalities, with a view to impressing upon them the necessity for similar action. The building and public works programme now in sight will provide employment for many returned soldiers and war-workers.

2. Railways

During the past four years, a great deal of work necessary to keep our railways up to standard has been postponed. Some millions of dollars must be expended on improving road-bed, constructing bridges, buildings and other improvements. Vast quantities of ties are being got out this winter. Equipment of various kinds must be secured. The Minister of Railways states that as soon as weather conditions will permit, some thousands of men will be absorbed in various railway undertakings. The supplies and materials required will also provide employment.

3. Shipbuilding

The shipbuilding programme arranged for by the Government will provide employment for many men during 1919. It is expected that arrangements will be completed to keep the shipbuilding yards in active operation throughout the year. The Government recognises that this ship construction is one of the best means of providing suitable employment for many skilled and other workers.

4. Export Trade

The Government has established a Canadian Trade Commission. This Commission has an office in Canada and a "trade mission" overseas. Through this trade mission it is anticipated that Canada will secure an important share in the business of providing materials and manufactured products required for reconstruction work in Europe. A short time may be required before final details are completed and definite results are announced. The business so secured will be distributed through the regular channels of trade and thus afford extra opportunities for employment.

5. Housing

The Government has set aside the large sum of \$25,000,000 to be loaned through the Provinces in order to encourage the building of workmen's houses. When the season for building arrives, this work should give employment to many hundreds of men both in construction work and in the supply of materials.

6. Land Settlement

The Government, as already explained in a former announcement, has developed plans to help soldiers to become farmers, providing land, granting loans and giving training and supervision where necessary. It is expected that a large number of returning soldiers will take advantage of these opportunities. The scheme will involve the expenditure of some millions of dollars, a good deal of which will find its way into building materials, supplies, machinery, etc., all of which will assist in providing employment.

7. Road Building

The Government now has under consideration the question of joining the provincial governments in financing the construction of public highways. Should a favorable decision be reached, a large field for employment opportunities will be opened up. Regardless of Federal action, provincial governments are preparing their own road-making programmes.

The Government is alive to the necessity for providing employment opportunities, and stands prepared to assist in every way possible. If corporations and private citizens will join in this feature of Repatriation Work, Canada should have little difficulty with the employment problem.

"TREASURE ISLAND" IS HERE TONIGHT

Famous Pirate Story in Movie Form at Westholme Theatre is Great Attraction.

Ho for the bounding main! Heave-ho for the smell of the salt sea air, and the romance and adventure of buried millions. "Treasure Island," with all the pirates and bad men that Robert Louis Stevenson put in, is to be at the Westholme Theatre tonight. A magnificent picturization of the great novel, made by William Fox, wizard of screen-craft, will be shown there.

The cast of the production is headed by Francis Carpenter, who plays the role of Jim Hawkins. Having come by a chart of the island on which the notorious Flint buried his ill-gotten gains, Jim sets sail for the place.

When he arrives, he discovers that his crew is composed mainly of former shipmates of Flint, who take the first opportunity to mutiny. Then follows fights and thrilling adventures, which finally end with the triumph of Jim and his regaining the buried bullion.

The picture is another William Fox feature that is bound to be successful all over the country.

MAY ENDORSE ALL CIVIC APPOINTMENTS

Alderman Perry's Motion Provides For Close Scrutiny By Members of Council.

The notice of motion which has been posted at the City Hall by Alderman Perry in regard to appointments to or dismissals from the civic service reads as follows:

"At a regular meeting of the Prince Rupert City Council to be held on Monday, February 24 inst. I will beg leave to present the following motion: addition to clause 'a', section 98, City Procedure Bylaw:

"Standing committees may receive and endorse the recommendations of the heads of the several civic departments coming under this purview, concerning all appointments to the city's service and changes of salaries contemplated or made; provided always that the committees shall not appoint or discharge employees, this being the prerogative and concern of heads of departments; nevertheless the members of committees shall be made aware, individually and severally, of all appointments or changes contemplated or made as aforesaid, through the chairmen of committees upon receipt by them of reports made from such departmental heads."

WOMEN HOLDING ON TO ALL MEN'S JOBS

(Special via G. T. P. Telegraphs.)

Washington, Feb. 18. — Women who took men's jobs for war work are refusing to return to peace pursuits. This is shown today by reports of the United States employment service from all industrial centres of the country. Practically everywhere, it was stated, where the women stepped into men's jobs they are making a determined effort to hold them.

Attention to Salmon Trollers

The finest and most economical engine on the market today is the

Doman Engine for Trolling

Made of the finest materials possible, by a firm who have the whole interest of the fisherman at heart, it is an Engine hard to beat.

Made in all sizes, from 5-7 H.P. to 85 H. P., the Doman engine has been put on the market specially for fishing boats. It burns distillate as well as gasoline, and a mechanical turn of mind is not necessary to run a "DOMAN" fishing boat engine.

For heavy duty, the "N. & S." engine with reversible propeller is the best.

NOBLE MARQUIS HAS BEEN MARRIED AGAIN

Everyone who knows the Marquis of Queensberry will welcome the long delayed news of his marriage, says Valentine in the London Daily Mail. A little eccentric, like all the Douglas family, but a fine gentleman and sportsman at heart. I went with him to the funeral of the late Sergeant Dick Burge when he was one of the most devout and sincere mourners. "Poor old Dick! He was the prince of good fellows, and he made good," said the Marquis to me as we drove to the church.

Meeting "Himself."
"I think I have more doubles than any other man alive," he told me once over lunch at Romano's. I replied that I thought his features rather distinctive. "Oh, perhaps I should have said impersonators instead of doubles," he answered. "I have read about my doings in all parts of the world where I have never been, and once in Paris I was solemnly presented to—the Marquis of Queensberry!"

The Marquis of Queensberry is said to be on his way to Prince Rupert.

BIRTH

There was born this morning to Mr. and Mrs. Richard Bury at the hospital a daughter.

There has been a general advance in the price of furs since last autumn, with the exception of lynx, skunk, and wolf, which have dropped slightly. The recent St. Louis sale was an instance of a general stiffening.

The Cadet Corps and the High school have a fixture for Friday night at the Exhibition Building, when their respective teams will match at basketball. The game starts at 7:30.

BOILING WATER IN OCEAN NEAR INDIES

Clouds of Vapor Rose From Sea and Odor Made Sailors Sick.

That a large area of the sea lying north of the South American coast and southeast of the West Indies is now a seething mass of boiling water from which clouds of vapor rise and which hinder navigation, and the temperature of which is hot enough to cook eggs and spoil cargoes of fish, is the remarkable story brought to Freeport, Texas, by Captain Isaac Gorman, of the fishing smack Isabel last week.

Captain Gorman declares that he sailed for six hours through the boiling seas and that during that time his cargo of several thousand pounds of fish spoiled and had to be dumped overboard. He also says sailors on the Isabel cooked eggs in the sea as his vessel passed through the boiling water and that life on the ship became almost unbearable because of the extreme heat and the nauseating stench which filled the air.

Clouds of Vapor.

"We struck the boiling waters when some 600 miles from our port," said Captain Gorman. "We had captured a large amount of fish and since our ice was limited, were making all speed for home. Early one morning I noticed clouds of vapor rising straight ahead. The heat became more apparent. We thought the vapor was but a fog which we frequently find in that part of the sea—and sailed into it."

"As we struck the area overhung by vapor we learned our mistake. Instead of being an ordinary fog and an ordinary sea, we found boiling water. Thinking that a small area had become affected by volcanic action, we steered ahead and continued to so steer, believing every moment that we were about to clear the seething seas, until we covered almost 100 miles."

Cargo ruined.

"During our passage through this boiling area the entire cargo of the Isabel was ruined. The waters so heated the sides and bottom of the vessel that the fish rotted and the stench, added to the odor from the sea, made many of the sailors sick. We were compelled to dump the cargo overboard and return home empty."

"During our run through these boiling waters—about six hours—several of the men on board dipped small sacks of eggs into the sea. These were cooked in short time. Sailors drew water up in buckets and found it to be heated to a high degree."

Captain Gorman declares he has sailed the gulf for thirty years and never saw anything like the discovery he has just made, nor experienced anything like what he had just gone through.
