GREAT STRIKE IN BERLIN CONTINUES UNABATED AND MOBS LOOT AND PLUNDER

POLICE STATIONS ATTACKED AND POLICEMEN CAPTURED BY CROWDS WHILE PEOPLE PILLAGE FROM STORES—ROBBERIES AMOUNT TO MANY MILLIONS OF DOLLARS

(Special to The News via G. T. P. Telegraphs.)
Berlin, March 6.—The great strike continues. Robberies amounting to many millions of dollars' worth of property have been carried out during the last two days. Jewellers' stores have been looted and also drapers' establishments. In the northeast part of the town, dairies, produce and meat shops have been plundered. The radicals are concentrating their efforts on capturing the police stations. Thirty-two precinct stations have been attacked and the central station assaulted three times. Several policemen were captured by the mobs. Arms depots, jewellery shops and food stores have been pillaged.

PROHIBITION PARTY MAKES A PROTEST

Big Convention at Vancouver Objects to Modification of Law Before Soldiers Return.

(Special via G. T. P. Telegraphs.)
Vancouver, March 6.—The Peoples' Prohibition Party convention opened yesterday with 400 delegates present. They are taking action to protest against the efforts of the so-called Moderate Party to break or modify the provisions of the prohibition laws until the return of the soldiers from overseas.

TOTAL CASUALTIES IN YPRES SALIENT

(Special via G. T. P. Telegraphs.)
London, March 6.—Winston Churchill, British Secretary for war, stated that the total casualties of the British, Canadian and Australian troops in the Ypres salient from July 31 to November 18, 1917, were: British—officers, 10,795, men, 207,838; Canadian—officers, 496, men, 11,917; Australian—officers, 1,289, men, 26,502.

Principal Brady Sets Forth Interesting Truths re Education of Boys, and Scores Conditions.

(Special via G. T. P. Telegraphs.)
Victoria, March 6.—In a letter from General Currie written on February 7 he says most of the third division were then in England en route home. The first, second and fourth divisions will follow in the order named. The policy of returning men by units has been decided upon. All Canadian troops will be in England by May 1 and all back in Canada before June 2.

Religion

Mr. Brady went on to speak of the threefold development which was necessary in education. The moral, intellectual and spiritual nature must be cultivated. Religion, in some form, was necessary for the proper development of a boy or girl. It was not possible to develop into noble manhood without a respect for religion. Even in heathen Sparta it was found necessary to instil religion in the minds of the children.

Scholarships.

Mr. Brady went on to advocate the giving of scholarships to all children who entered the high school in order to do away with the necessity of giving way to the economic urge. He asked why should it be that when parents had the courage to bring up children they should be unable to give them an education.

Recreation.

Mr. Brady went on to speak of the lack of recreational facilities here. There was no gymnasium or swimming bath and the result

CURRIE TELLS HOW THE MEN WILL RETURN

Letter Received from General says Return by Units has been Decided Upon.

(Special via G. T. P. Telegraphs.)
Victoria, March 6.—In a letter from General Currie written on February 7 he says most of the third division were then in England en route home. The first, second and fourth divisions will follow in the order named. The policy of returning men by units has been decided upon. All Canadian troops will be in England by May 1 and all back in Canada before June 2.

Economic Urge.

Through the economic urge many children had to leave school at an early age. Against this condition there is already a rumbling of discontent, said the speaker. Men are wondering why they are not given the rights which they ought to have. Many of the evils of the day took place because men in high office had not the vision. Great nations of old lived for selfish ends and perished. Our empire lives for the future, the lives of the mighty dead say so.

Play.

Another phase of education which was as necessary as religion or intellectual development was physical development. The weak boy or girl did not have the energizing thoughts which was necessary. The playground was just as necessary as the church. Absence of playgrounds did more evil than all the forces for their eradication could cure. The playground is the first step to paradise for many and the absence of it leads in the other direction. More interest was being taken in the proper care of cattle and horses than in the child.

Every dollar spent in playgrounds was so well spent, declared the lecturer, that where they are used the prisons and jails go out of use. He had seen many a sad wreck and had heard

PEACE TREATY MILITARY AND NAVAL TERMS BEING DISCUSSED IN PARIS

(Special to The News via G. T. P. Telegraphs.)
Paris, March 6.—David Lloyd George, British Prime Minister, has arrived in Paris accompanied by the Duke of Connaught. The arrival is a prelude to discussion of the main features of the Peace Treaty by the Council of the Great Powers which begins today. The question to be determined relates to the military and naval terms of enemy disarmament. These were originally framed as terms of the armistice but have now been changed to form part of the permanent peace treaty.

MILLER MUST STAY IN JAIL

Judge Young Confirms Sentence of Nine Months' Imprisonment for Selling Whiskey.

SECOND TRIAL TOOK PLACE YESTERDAY

In confirming the judgment of nine months' imprisonment for selling liquor contrary to the provisions of the British Columbia Prohibition Act against Clarence Miller, Judge Young said that he had little to say. There was no doubt the accused negotiated the sale of the liquor. He saw Blanche Hart and then went to Madeline Myers who agreed to purchase the liquor. As a result of the negotiations the barrel was delivered to Miss Myers.

Johnson—the Crook.

The prisoner told the women he was to get a commission on the sale. It was unreasonable to think he should have placed himself in jeopardy unless he was getting something out of it. The question of grabbing the money was immaterial. He had followed the instructions of Johnson, crook that he was, who was not man enough to carry out his part of the bargain.

The judge said he felt sorry for the man but this was not a court of sympathy but of law. He was not concerned with the suggestion that the Prohibition Act was persecuting the public. In regard to the application for a stated case he was willing to hear argument on it later.

Famous Case.

This case is the famous one in which a barrel of water was sold to Blanch Hart and Madeline Myers of Comox Avenue, on the supposition that it was whiskey, the sum of \$1,450 being paid for it.

The women concerned told their tale again of how Miller had agreed to sell the liquor, how it was delivered and the money paid. How Johnson, the other party to the fraud, had grabbed the money and made off and had not since been heard from. The witnesses

GERMAN WAR PLOT BROUGHT TO LIGHT

Two Seamen Committed Suicide on Barkentine Puako en Route Victoria to Cape Town.

New York, March 6.—Disclosures in regard to a war time plot to destroy American shipping on the Pacific coast have been brought to light in an investigation into charges brought by the crew of the Barkentine Puako from Victoria, B. C., for Cape Town that their master, Captain Adolphe Pedersen had been so strict that two of the seamen had committed suicide. Pedersen said that the crew attempted to sink the ship.

For Dismissal.

The evidence being all in for the prosecution Mr. McInnes made an application for dismissal of case on the plea that the sale made was by the evidence shown to be water and not whiskey. All the whiskey that was in the barrel had been given away as a sample and what was sold was not whiskey. It was whiskey they pretended to sell and it was a miserable, contemptible trick, there was no doubt about that. The proper charge to have made would have been one for getting money under false pretences. Mr. Williams submitted that a

Splendid Price for Provincial Bonds.

That the British Columbia Government is inspiring confidence in the financial world is apparent from the fact that three million dollars' worth of their bonds bearing an interest rate of five and a half per cent. have been sold for practically par. The exact price was 99.32.

When it is considered that Canadian Government Victory bonds had to be made free of income tax in order to market them it is clear that B. C. securities are now looked upon as good as Dominion securities. It speaks very highly for the economic management of the affairs of the province that from a condition of bankruptcy she has been brought to a place where the money magnates of the world again look on her with confidence.

Playground for School Children.

In a lecture last night in the Presbyterian Church Principal Brady of the High School drew attention to the lack of playgrounds in the city. He showed that play was just as important as work as a factor in the development of the child. To have to play on the streets was not good for children. Playgrounds should be provided at any price for they are a modern necessity.

At King Edward school there is a playground that could be made useful with the expenditure of a little money. Like ventilation and other health conditions this is a matter on which it does not pay to be penurious. Money spent on playgrounds is better than on any other school equipment.

Play is the natural outlet for the activities of the child. Forbidden play, the child fails to develop normally and eventually the inclination is to drift into the criminal ranks and eventually to help fill the jails.

Factor in Creating Bolsheviks Here.

The greatest factor in the creation of Bolsheviks in this country is the action of such men as Flaville in profiteering while the country is struggling for freedom. The noble boys who went overseas at the pay of a dollar and ten cents a day and many of whom gave their lives for freedom did not think that while they were freeing the world from the Huns the people at home were being enmeshed by those at home. There can be no liberty here while men in high positions are able to accumulate hoards such as that mentioned in Parliament by Sir Sam Hughes. Compare that with the paltry dollar ten a day that the boys were getting at the same time for doing vastly more important work, and it is evident that something is wrong. It is not a matter of party politics. It is a matter that must be righted by no matter what party is in power. The general opinion expressed is that hanging is much too easy a punishment for a man who could sap the life blood from the nation at a time when the young men were fighting for liberty.

"THE COTTON AND SILK OF IT"

As a thinking housewife, you would not dream of using silk in the making of articles where cotton is employed—just as you would not use cotton for silk. So it has come to be that a soft kernelled wheat is now being milled into a special pastry flour, giving results unobtainable from ordinary flour milled from hard kernelled wheat.

By the use of Wild Rose Pastry Flour, you not only get better results than you ever dreamed possible, but save at least 25 per cent. in shortening. This in itself ought to be sufficient to induce you to give it a trial. If you are using bakers' bread, and enjoy baking your own pastry, why not order up a 10-lb. sack from your grocer!

BIGGEST CATCH FOR FEBRUARY OF ANY YEAR

More Boats Called Here and More Halibut Sold Than During Former Similar Period.

824,800 LBS. SOLD HERE IN TWENTY-EIGHT DAYS

February of this year showed the biggest catch of halibut that has ever been landed during the month. No less than 824,800 lbs. passed through this port to the eastern market. It is a splendid record and is an indication of what may follow.

What makes the present record so outstanding is not only the fact that more fish was marketed here than in any previous February but that during that time the fishing boats of the Canadian Fish and Cold Storage Co. were tied up because the men refused to continue under the old agreement. Also other company boats were tied up so that if they had been working another hundred thousand pounds might have been added to the catch.

For the year 1917 the halibut marketed here amounted to 809,000 lbs.; in 1918 it was 619,000 lbs., and this year it was 824,800 pounds.

In 1918, 54 boats tied up here whereas this year in the month of February 76 boats tied up.

Price Comparison.

On February 1, 1917, the prices obtained were 12 1/2 c. for number 1, and half that price for number 2; in 1918 the price was 17 1/2 c. and this year it was 15 6-10 and 12c for seconds.

On February 28, 1917, the price was 12 1/2 c.; on the same date in 1918 it was 17 1/2 c. and this year it was 13c. with 9.6c for seconds. Previous to this year the price of seconds was half that of first-class fish.

The following is a complete record of the catch of the month:

Kodiak	28,000 lbs.	15.6c and 12c
Albatross	10,000 lbs.	15c and 11c
Tom and Al	70,000 lbs.	14.5c and 10.5c
Libanon	4,900 lbs.	15.6c and 12c
Saturn	400 lbs.	15.6c and 12c
Helena	8,000 lbs.	15c and 11c
Nidaros	6,000 lbs.	15c and 11c
Director	8,900 lbs.	15c and 11c
Volunteer	3,500 lbs.	15c and 10.2c
Agnes B	4,000 lbs.	14.6c and 10.7c
Republic	35,000 lbs.	13.8c and 9.6c
Zilla May	18,000 lbs.	14.2c and 10c

WARNING to the PUBLIC

It has come to my knowledge that the Harry Hanson Patent for Hot Water Coils has been infringed from time to time, by the installation of Harry Hanson Coils by unauthorized persons. They say the coil they sell is not a Harry Hanson coil, but if the firebox linings are removed and pipes in any placed in this space, this is an infringement of my patent. If this practice is persisted in by unauthorized persons, I will take steps to protect my interests.

Householders should also note that by having a Harry Hanson coil installed by any unauthorized person, they also become liable under the patent laws.

Prices for Coils, made of Iron Pipe, \$20 with one Year Guarantee—Made of Brass, from \$25 to \$35, Five Years' Guarantee.

Salad Taught Mrs. Allen

Mrs. Allen tells us that she would never have tinned milk in the house until she at a salad made with Pacific Milk. Her friend told her the only secret she had for salad dressing was Pacific Milk.

Mrs. A. tried it and found she, too, could make better salads.

Now she uses it in all her cooking.

TEN-REEL SHOW AT EMPRESS THEATRE

Charles Ray Starring in "The Clodhopper" Makes Great Hit—Good Comedies and Gazette.

With Charles Ray in the photoplay "The Clodhopper," a Mutt and Jeff cartoon, a Harold Lloyd Comedy, a Pathe Gazette, and the ninth episode of the serial "The Mystery of the Double Cross" the program presented at the Empress Theatre this evening is distinctly one of infinite variety. There are ten reels in all which certainly will give a good evening's entertainment. In "The Clodhopper" there is a story of a country boy, awkward and diffident, and strange to the ways of life outside the narrow circle of his bringing up, who in a different environment fights his way to success. Charles Ray in this play is surpassingly good. Mutt and Jeff are always well received, and the Harold Lloyd comedy is well up to the standard. The program being completed by the Pathe Gazette and the "Mystery Tainment for everyone, no matter what different their tastes.

HERRING INDUSTRY TO BE ENCOURAGED

An appropriation of \$25,000 for the use of the Alaska fisheries bureau to be used in promoting and encouraging the Alaska herring industry has been made by the U. S. Congress.

Through a system of government inspection and supervision and in demonstrating the Scotch method of curing herring and packing this fish so as to comply with the uniform commercial standing it is hoped to make this one of the most important industries of Alaska.

Inspections are to be made at the plant where the fish are packed, as well as at the port of delivery.

REPUTATION COUNTS

with a remedy, as with everything. Zam-Buk enjoys an enviable reputation amongst remedies. Why? Because it justifies the claims made for it. Not only does Zam-Buk cure skin troubles and injuries quickly and permanently, but the quickness with which it ends pain and irritation makes it the most popular remedy wherever it is used.

Then, too, Zam-Buk is the best preventive of blood-poisoning. Applied to an injury as soon as sustained, it destroys all germs and prevents festering. Zam-Buk is best for eczema, piles, rashes, boils, pimples, ulcers, burns, cuts and scalds. All dealers, 50c. box.

"HEART OF A LION" PROVES FINE FILM

Dramatized Version of Ralph Connor's Famous Novel to Be Seen Tonight.

"The Heart of a Lion," the American name for the film version of Ralph Connor's famous novel "The Doctor," was well attended last night at the Westholme and will be seen there again tonight. The story is one of Connor's best and deals with life in the mining towns and camps of the west.

Seldom has there been a story told here in picture that proved so full of real interest as this one. William Farnum appears as the hero and he is simply splendid. The scene is laid in western Canada and it exhales all the flavor of the real west which many people know and appreciate.

Ralph Connor, the author, is one of the most successful of Canadian fiction writers and for that reason alone the picture should be seen.

The fishing boat Pioneer under Capt. Angerness while on her way up from Seattle last Monday night met with a mishap by striking a rock in the Granville Channel. She has entered the Prince Rupert drydock for repairs.

CONSTANT PAIN AFTER EATING

The Tortures of Dyspepsia Corrected by "Fruit-a-lives"

St. MARTIN'S, N.B.

"For two years, I suffered tortures from *Severe Dyspepsia*. I had constant pains after eating; pains down the sides and back; and horrible bitter stuff often came up in my mouth.

I tried doctors, but they did not help me. But as soon as I started taking "Fruit-a-lives", I began to improve and this medicine, made of fruit juices, relieved me when everything else failed."

In the Letter Box

"TUPPER'S TIPPLERS"

It has been reported that the leader of the Moderation Party made the statement upon the public platform that "God and His Son made intoxicating liquor"

If this report is correct let me remind the speaker that the same manufacturers that he so disrespectfully alluded to also made the influenza germ and cooties and further He also allowed some politicians to be woeful failures in certain lines of activity?

It is a pitiable spectacle when a would be superman descends to the use of language offensive to cultured taste to say nothing of the disrespect shown to things considered by many as sacred. Such an exhibition of coarseness might by an extreme critic be considered not inconsistent with emanations from the moderate drinkers' brain, since long continued use of alcohol has the effect of injuring the nerve cells and stunting the finer sensibilities. Would it not be more fitting that he who has felt the touch of a monarch's sword, should feel the touch of the Kingly spirit of reverence and service. We have heard of knighthood being trailed in the dust, surely that trail does not lead to British Columbia.

Degeneracy and Decay.

Let me remind this moderate "scion of noble ancestry" that alcohol is not formed by the process of growth and development, but only in the process of degeneration and decay. It is not found in living, growing nature, but is found when destruction of the organic compound begins. Alcohol is the product of death, and too often leads to death.

Please remember, Sir Hibbert, that the Creator made intoxicating liquor by the same process that he made other decaying, rotting gangrenous substances, many of which vultures feed upon.

ERNEST A. HALL, M. D.

sale was made according to the meaning of the act.

Application Refused.
Judge Young refused to grant the application for dismissal on the ground that the agreement was to sell whiskey and there was no doubt but there was some whiskey in the barrel. They paid for the sample as well as the rest for they bought 42 gallons. The judge said he could not appreciate so fine a distinction as Mr. McInnes would make.

Prisoner's Story.
Prisoner, giving evidence on his own behalf, said that he was an engineer. He had met Johnson on the boat coming north and later had been invited to his room in the Prince Rupert hotel where he had been given whiskey by Johnson and had got drunk. Another day Johnson had told him he had some liquor coming from Vancouver, which he was trying to dispose of. Johnson mentioned Miss Blanche Hart and as witness knew her the outcome was that they went off together but Johnson turned back and left him to go in alone. He told Miss Hart that a friend of his had the liquor to sell.

On the following day after the delivery of the barrel and when Johnson had left, he went away with the teamster who had another barrel with him. He and the teamster tried to get some whisky out of this barrel but they found it to be only water.
Mr. McInnes then renewed his application for dismissal, which was refused by the judge.

In answer to a question asked in the Legislature a few days ago by A. M. Manson, Premier Oliver said that the Government has been considering the closing of some of the government offices in the interests of economy, but no decision had yet been arrived at in regard to the one at Fort Fraser.

Owing to the prevalence of influenza in Vancouver the Archbishop of Vancouver has announced that there will be neither fasting nor abstinence during the Lenten season this year.

MEMBERS WOULD RAISE
SESSIONAL INDEMNITY

Ottawa, March 6. — There is a movement on foot among the members of the House of Commons to have the sessional indemnity increased from \$2500 to \$3000 per annum, and it is understood that the matter was mentioned at the first government caucus of the session held today. Members claim that with the cost of living doubled throughout the country and accentuated at the capital for temporary residents by the shortage of accommodation, they are unable, if a session is prolonged, "to make both ends meet." There is no intimation as yet as to how the government will view the proposal.

In this connection, it is pointed out in parliamentary circles that while the indemnity of members has been gradually advanced from \$1000 to \$2500 the pay of ministers of the crown had remained stationary at \$7500 per annum.

was the young people went to places where it was not good for them to be. The good fruits of education were brought to naught because there was no provision for the young man. No boy was bad at heart, it was the conditions that made him bad.

In conclusion Mr. Brady told of the kind of literature he had seen purchased by young people here when there was so much that was healthy and interesting to be obtained.

Dr. Grant presided and thanked the lecturer for the rare treat he had given. Professor Harvey played the violin and also sang most acceptably and Mrs. Linnell gave a very pleasing vocal solo.

MUCH WARMER

Edmonton, March 6.—The weather is comparatively warm here. The thermometer registered 20 degrees above zero in the shade today.

In reply to a question asked in the legislature by the member for Prince George, Hon. T. D. Pattullo gave the following information: On January 2, 1917, there were 2,740,423 acres of land held under uncompleted agreements and of this 39,517 had been applied for under the Soldiers' Homestead Act, 2,207,994 acres had reverted to the Crown. There are now no lands, the purchase of which is uncompleted, and no money due the Government on account of such land purchases.
