JAPANESE FAIL TO GET RACIAL EQUALITY INCLUDED IN LEAGUE OF NATIONS; MONROE DOCTRINE

Important Amendments made to Constitution in Revised Covenant; Provision made by which Germany may enter later if thought Advisable; Does not interfere with Arbitration Treaties or Special Understandings

(Special to The News via G. T. P. Telegraphs.)

Paris, April 14.—The League of Nations Commission has rejected the Japanese amendment on racial equality, according to an authoritative statement. Some of the members of the commission voted against a specific inclusive amendment in the covenant and as the unanimous approval of the commission was necessary the amendment, which was strongly urged by Japanese delegates, failed of adoption.

Paris, April 14.—The summary of the revised covenant of the League of Nations makes specific mention of the Monroe Doctrine with respect to its bearing on future activities of the League of Nations. It says the covenant does not affect the validity of international engagements, such as a treaty of arbitration, or regional understandings like the Monroe Doctrine, for securing the maintenance of peace.

Additions and Withdrawals.

The League, says the statement, will include all belligerent neutral states named in the document annexed to the covenant and "in future, any self-governing country whose admission is approved by two-thirds of the states already members of the league." A state may withdraw from the league on giving two months' notice, and states which signify dissent from amendments proposed by all the states on the council, and a majority of those members of the assembly, are not bound by them, but in such case cease to be members of the league.

Mandatories of the German colonies and of territories of the German Empire are provided, to be administered by states willing to be mandatories of the league.

Important Changes.

The summary indicates certain important changes in the final draft of the covenant. Provision is made for additional representation of the great powers upon the executive council and unanimous support of the council and two-thirds of the membership of the assembly.

This meets the objection that there is no provision by which any state may take her place among the great powers on the council.

Domestic Affairs Excluded.

Further provision exempts from the scope of the council matters falling solely within the scope of a country's domestic jurisdiction, and continues international agreements for peace, and the important new provision that a member of the league is obliged, against its will, to supply troops for league troops. The rest of the summary is a restatement in terser form of provisions of the original covenant.

MAGISTRATE ADJOURNS CASE

Decision Regarding Rose McCoy and Mina Roberts Accused of Theft Given Tomorrow.

Magistrate McMullin this afternoon postponed his decision in the case of Rose McCoy and Mina Roberts charged with stealing \$200 from Julius Johnson.

The case for the prosecution was heard Saturday morning and in the afternoon the girls' story was heard.

Mina Roberts giving evidence for the defense said she was working at the Royal Hotel, serving bar, when two fishermen with Johnson came in with a taxi driver and asked her to go along with them for a joy ride, which she did. They had a bottle of liquor in the car and were all under the influence of the drug, and she joined with them in consuming all that was there.

Gave Money.

"We then drove over to Jean's place and on arriving there Johnson started throwing his money on the floor of the car. I picked it up several times and told him that if he did not take better care of it he would lose it all. He then offered it to me. First I refused to take it, but after several persistent efforts on his part, I finally accepted the money. We were not drunk then, but we were drinking. He gave me two \$100 bills."

Rose McCoy's Evidence.

Rose McCoy in the course of her evidence said: "The first time I met Johnson was the night I went over to Jean's place, where I met Mina with Johnson and two other fishermen. We then all jumped into the car and drove around the city."

Witness corroborated Mina Johnson's evidence regarding Johnson giving her the \$200. After driving around till day-break, the car driver commenced an argument with Johnson in regard to payment for driving them out all night.

"We then got out of the car," she continued, "and walked over to the noodle joint, after telling Johnson that we would wait for him there, and proceeded to spend the money. That was the last we saw of him at that time, and when he did not come we decided that he had left the money with us, so we split it up and spent it."

"When I got home early that morning I found that I had just \$18 left, after having \$25 with me when I started out, and Mina had nothing left."

MINING MAN WILL ADDRESS BOARD OF TRADE TODAY 4.30

Passengers on the Prince Albert Enthusiastic Regarding the Mining Prospects.

C. Caldwell is this afternoon at 4:30 to address the Board of Trade on the Stewart district. He is enthusiastic regarding the mines there and is anxious that local people shall understand the situation.

The S. S. Prince Albert arrived back from that port yesterday with a cargo of 300 tons of ore from the Premier Gold Mining Co., formerly known as the Bush Mine. This is very high grade stuff and is now on the way to Tacoma where it will be smelted. Owing to the mild weather it was impossible to get out any more of the ore although there was considerable on the dump at the mine.

Among the passengers from Stewart were S. J. Silverman, who owns the Sidney Inlet mines on Vancouver Island, Mr. Housen and R. K. Neil.

A. L. Carruthers, district engineer for the Provincial Government, was there in connection with improving the road facilities to the mines. It is understood that the road to the Bush mine will be improved both on the Alaska and Canadian side.

DEATH TAKES ALFRED CARSS

Barrister and Police Magistrate Succumbs to Illness—Was Well Known Sportsman.

Word was received this morning of the death of Alfred Carss, police magistrate and only remaining partner in the law firm of Carss & Carss. A few weeks ago he went to Rochester, Minn., in the hope that expert treatment might restore him to health, but messages received from time to time have been of a disquieting nature and culminated in the sad announcement which arrived this morning.

Mr. Carss came to this city in the early days and practised law in partnership with Mr. Bennett under the firm name of Carss & Bennett. When his son, Adair Carss, was admitted to the bar the lad joined his father under the firm name of Carss & Carss. Mr. Bennett retiring, Adair went to the war with the 102nd under Colonel Warden and was killed on the Somme, fighting bravely, and naturally the loss came as a sad blow to his father, whose health was none too good.

Police Magistrate. Mr. Carss was appointed police magistrate at the time of the incorporation of the city and he held that position until his death, although of late owing to ill health Magistrate McMullin was often called on to take the work. Known throughout the north as an all round sportsman few men could equal the late barrister as a rifle shot or at the traps. He was also expert at billiards and set a great example to the young men for his clean sportsmanship and keenness for all games.

Widow and Daughter. The late Mr. Carss leaves a widow and a daughter, the latter married to H. P. Wilson, inspector for B. C. of the Royal Bank of Canada at Vancouver, and formerly of this city.

The body will be taken to Vancouver for interment.

FRUIT GROWERS ARE NOT WITH TARIFF REFORM

They Say That the Fruit Market Should be Retained for Canadian Fruit.

(Special via G. T. P. Telegraphs.)

Sycamous, April 14.—Farmers of British Columbia are not supporting the organized farmers of the prairie in the tariff agitation at Ottawa. This was brought to light at a meeting of the provisional directors of the United Farmers of B. C., the new independent organization of farmers.

It was decided that the organization should back the fruit growers in the demands that the economic situation in fruit marketing be taken into consideration in any revision of the tariff and that some provision be made for the home market being retained for Canadian grown produce.

The dairymen of the Fraser Valley have supported the fruit growers.

The farmers of B. C., while expecting some revision in the tariff realize that the fruit market should be retained for the Canadian growers.

GONE TO OTTAWA REGARDING WHARVES

Major Geo. Hull Left Today for Ottawa Where He Will Confer With Government.

Major Hull, Dominion Government engineer, left this morning for Ottawa to take up with the Dominion Government the matter of dockage facilities at Stewart, Prince Rupert and other points. He has made himself thoroughly familiar with the conditions at Stewart and will be in a position to make representations for an improved method of docking at that mining port.

He has also gone over the ground at Shwatlans Passage and is quite familiar with the position of the land where the proposed docking scheme is talked of. It is understood that the Board of Trade will keep in touch with him by telegraph and mail and see that the interests of the city are looked after.

Forget Politics And Work Together.

"It is time that the people of Alaska forgot politics for a while and went earnestly to work for the purpose of restoring satisfactory business conditions." That was the advice given to the people of Juneau by Andrew Nerland formerly mayor of Fairbanks, as quoted in the Alaska Daily Empire. The advice is so timely that we pass it on to the people of British Columbia as equally applicable here.

There is no intention to suggest that the people here have been playing politics, for that seems to be the last thing most people have been thinking about of late. So far as we have been able to discover, Prince Rupert people have had all the politics they want for a few years and are now thinking about business.

At the same time it is difficult to let pass such an interesting bit of advice, particularly when the man who gave it was formerly a politician himself and a member of the territorial legislature.

Unite to Advance Our Own Interests.

Everyone should take a keen interest in the public affairs of the province, and that is politics, but public affairs must give way sometimes. Just now we are more interested in the affairs of Prince Rupert than of anything else, for it is an important juncture in the life of the city. We can unite on everything which will advance our own interests. The better we work together the more we are likely to increase our own prosperity.

There is evidenced everywhere a desire to work as a unit for the common good. We are making progress. There may come times when we shall be divided on public questions, but in all that concerns our own welfare we should stick together. We have all the rest of the country in competition with us. For years we have been held back, largely through unhappy divisions at home. By showing a united front we are likely to make an impression on the outside. Unity of purpose combined with plenty of vigor will carry us a long way.

Grain Westward Via Prince Rupert.

There is a good deal of discussion going on in regard to the hauling of grain westward instead of eastward. It is declared on no less an authority than Grant Hall, vice-president of the C. P. R., that the western route is feasible. He means of course the western route by way of the C. P. R.

If the western route by the C. P. R. is feasible, how much more must the Grand Trunk Pacific route with its low grades be a profitable way of getting the grain off the prairies. All northern Alberta, at any rate, should send its crop through this city and then to Europe by way of the Panama Canal. The difference in distance from here over Vancouver by the water route is not enough to make any appreciable additional cost, whereas the easy grade of the railway is a very material matter.

Small Margin of Safety in War.

The margin of safety in the war was so small that ever so slight advantage might have changed the whole political aspect of the world. The report of Sir Douglas Haig confirms the belief that has been held for some time, that the Allies were very nearly beaten in at least one stage of the war. What would have been the result had the Kaiser and his hosts overrun the world it is difficult even to surmise.

The more we look back at the days when the Allies were being driven from city to city and when the Hun was carrying everything before him, the more we feel indebted to the men who did the fighting for us overseas. Theirs is the triumph and the satisfaction that comes from feeling that they were instrumental in saving us from the crushing heel of the Beast of Berlin.

MINING COMPANY IS INCORPORATED

Concentration Plant Being Installed Similar to That at Silver Standard.

With the incorporation of the Skeena Mining and Milling Company, the organization is now completed for the active carrying out of the plans by the company recently taking over the Coronado and Victory properties, says the Interior News. It is a private company and is incorporated for \$250,000, all of which is taken up by the members of the company, and there is no stock for sale to the public. M. T. Watt is president and the vice-presidents are D. H. Nelson of New Westminster and J. W. Stewart of Bountly, Sask. T. B. Stewart of Vancouver as secretary, and A. J. Fowlie of San Francisco as treasurer are the other officers.

The power is being taken from Sloan and Halley creeks and will be diverted at a point about 1500 feet from the compressor site near the No. 2 tunnel on the Victory. The plant is capable of furnishing 100 h. p. and will provide ample leeway for increasing the mill capacity.

The concentration plant is almost a duplicate of the plant now in operation at the Silver Standard mine at New Hazelton, differing only in improved rolls. Although the terms of the bond called for the immediate establishment of a 25-ton mill, the company decided this would not meet requirements and have ordered a plant of double that output and specially constructed to provide for the addition of other units to increase the capacity to 100 tons per day.

FINE SETTINGS IN THIS NEW PICTURE

Mystery Galore in Dorothy Dalton's New Film, "The Kaiser's Shadow."

Intricate stage settings for the production of the new picture "The Kaiser's Shadow," starring Dorothy Dalton, are a feature of the film which is being offered at the Westholme Theatre tonight. Trap doors, sliding panels, all the elaborate mechanism that goes with a mystery story, are utilized effectively. It is one of the best Paramount pictures in which Miss Dalton has appeared so far and deserves the widespread interest shown by the photoplay public in the production.

Showing to-night at the Westholme Theatre.

A man had a range to sell. He advertised it in The Daily News and within an hour after the paper was on the street the range was sold. If you have anything to sell try the classified column.

SYNOPSIS OF LAND ACT AMENDMENT

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land. Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions, with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 5 years, and has made proportionate improvements, he may, because of ill-health or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained on these claims in less than 5 years, with improvements of \$10 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years.

Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation.

For grazing and industrial purposes, areas exceeding 640 acres may be leased by one person or company.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

TOWNSITE PROPERTY ALLOTMENT ACT.

Provision is made for the grant to persons holding uncompleted Agreements to Purchase from the Crown of such proportion of the land, if divisible, as the payments already made will cover in proportion to the sale price of the whole parcel. Two or more persons holding such Agreements may group their interests and apply for a proportionate allotment jointly. If it is not considered advisable to divide the land covered by an application for a proportionate allotment, an allotment of land of equal value selected from available Crown lands in the locality may be made.

These allotments are conditional upon payment of all taxes due the Crown or to any municipality. The rights of persons to whom the purchase from the Crown has agreed to sell are also protected. The decision of the Minister of Lands in respect to the adjustment of a proportionate allotment is final. The time for making application for these allotments is limited to the 1st day of May, 1919. Any application made after this date will not be considered. These allotments apply to town lots and lands of the Crown sold at public auction.

PURITAN GIRL GOES FORTUNE TELLING

Heroine in "The Dream Lady" Has Many Strange Experiences in Following Her Profession.

Rosamond Gilbert grew up in the straight-backed chairs of a Puritanical household with nothing to do but dream dreams and no chance to realize them until her uncle died and left her a pocket-piece of \$3,000.

With the fortune she set out to make the dreams of dreamers come true. In back of a cozy little bungalow she set up a fortune teller's stand and in the role of a sibyl directed the destiny of those who sought her advice.

Her first client is a wealthy young girl, whose wish is to be a boy. Rosamond sends her forth in boy's clothes. She meets a man who is lonesome and they become fast friends. He has a strange love for her. When she resumes the clothes of a girl he knows why and marries her.

That is not all the story at the Empress tonight.

\$50 - NO BENEFIT

This money might have been saved by Mr. Z. D'Muro of 722 Papineau Ave., Montreal, had he only known of Zam-Buk sooner. Writing to the proprietors of Zam-Buk, a short time ago, he said: "For over a year I suffered with eczema which nothing seemed able to cure. I had treatment from three doctors, which cost me \$50, but none of them were able to cure me. I suffered intensely from the irritation and pain, and I thought I should never get relief, until one day a friend told me about Zam-Buk and I started using it right away. From the very first application I felt better. Zam-Buk relieved the irritation and seemed to cool and soothe the sores. Gradually the sores began to heal and, with perseverance, Zam-Buk completely rid me of the disease. "I would like to be able to tell all sufferers from eczema to stop experimenting with useless remedies and use Zam-Buk. By using this balm in the first place they would save themselves needless suffering and expense." Zam-Buk should be in every home, not only for skin troubles, boils, rashes, pimples, abscesses and ulcers, but also for cuts, burns, and scalds, for which it is indispensable. Get a box to-day. It will keep indefinitely and still retain its strength and purity. All dealers, 50c. box.

CAPT. JULIUS HENSHAW IS RETURNING HOME

Among the well known Vancouver people now on their way home from overseas are Mr. and Mrs. Charles G. Henshaw. Mr. and Mrs. Henshaw are expected home this week. Mrs. Henshaw, who holds the rank of captain, is one of the few Vancouver women decorated during the war. In addition to the honor conferred upon her by the Canadian military authorities, the French Government has conferred upon her the Croix de Guerre, with star, for bravery for evacuating and recuperating inhabitants under shell fire and aerial bombardment with a devotion and courage worthy of the highest praise."

Capt. Henshaw went to England shortly after the outbreak of war and took up war work. Later she returned to Canada and made a lecture tour, raising sufficient funds under the Canadian War Contingent, to give a Christmas gift to every Canadian at the front. Since then Captain Henshaw has been working in France and has seen service very close to the front lines as the wording of the several dispatches have shown and also the French mention of the recent honor.

CANADIAN CARGOES MUST BE DEVELOPED

"It is regrettable that 90 per cent of the cargo now being loaded on the Dollar boats for the Orient originated in the United States, and I hope to see the time when this proportion of the cargoes out of Vancouver will be Canadian, and out of Seattle, too, for the matter of that," said Alex. Johnston, deputy minister of marine and fisheries, as he addressed the shipping bureau of the Vancouver Board of Trade recently.

Mr. Johnston explained the policy of the department is to aid as much as possible all navigation on the Pacific coast but pointed out the setback the war had been to the plans of the department.

What Everywoman Knows

Every year, dress fabrics are becoming sheerer and sheerer—the colors more dainty. The ordeal of trusting the delicate garments to "soap and water", however, is done away with by the use of Lux.

You may feel quite free to buy the daintiest blouse or underwear your purse can afford—without a bit of worry about the washing of them. You keep them fresh and new the Lux way—simply dipping them up and down in the creamy, copious Lux suds with never a bit of rubbing to injure them.

Lux won't hurt anything that pure water itself may touch.
