GRAIN CROP IS REDUCED

Estimated Yields Cut By Drought, Particularly in Southern

Cutting General

Rain Needed Everywhere-Peace River Expects Average Production

WINNIPEG, Aug. 6:- The past week has brought continued reductions in estimated yields in all southern areas and in parts of the central grain growing territories as dry, scorching weather has prevailed. according to the weekly crop report of the agricultural department. Canadian National Railways. Ample precipitation received earlier in the season has evaporated and, with no reserve sub-soil moisture, crops will fail continuously unless general rains ocur. The late crops will show the result of drought more than those seeded earlier. Hail has damaged crops in a few localities and grasshoppers are still taking their toll of coarse grain yields in the more southerly districts. Rust has made its appearance at many points in Manitoba and Saskatchewan but, generally speaking, it is too late to materially affect the

grade of the berry. In Manitoba scattered showers occurred which were of considerable. benefit as they prevented grain from ripening too fast and materially assisted filling. Oats and barley are rapidly nearing the cutting stage and harvest is general throughout the province. The wheat crop gives evidence of producing a heavy yield while oat and barley yields will only be fair as a certain percentage of kernel shrin-

kage will result. At all points in Southern Saskatchewan the weather has been hot and dry. Rain is badly needed to retain normal growth of later sown crops and green feed. Fields, which a month ago gave indications of a better than average yield, will, in some districts, do no more than meet seed requirements. In some of these districts grasshopper and sawfly damage is more apparent since the dry spell set in.

Cutting Commences In Central Saskatchewan cutting of all grains has commenced and will be general within the next few days as the hot weather has brought the crop along to maturity faster than expected. Wheat yields in these sections should be in the neighborhood of 25 bushels to the acre. At all northern sections of the province crop conditions continue good. Moisture is plentiful to sufficiently mature crops although warm weather would assist. Wheat heads are well filled and will yield better than average. This applies over the whole territory known as the Prince Albert division.

Southern Alberta has experienced hot dry weather and yields will necessarily be reduced as moisture at all points would be beneficial. In Central Alberta wheat is ripening fast and some farmers have started cutting. Rain is needed as the oat and barley crops are somewhat short straw and heads are not heavy. A good rain, however, could yet materially change the coarse

grain situation. From the Peace River come reports that conditions have improved and, while at scattered points hail did damage, an average crop is ex-

GREAT DISAPPOINTMENT

Those of our good friends who have been looking for an a close victory over the Boston upsetting of the whole social structure in Canada and the United States are feeling bitterly disappointed at the re- to keep in fourth place ahead of the cent turn in affairs for the better. They had hoped to see Brooklyn Dodgers. the city in bankruptcy, the province in the hands of a receiver and a proletarian rule inaugurated at Ottawa but Boston Red Sox and climbed to instead of that the city is getting out of its difficulties. there is likely to be a change for the better soon at Victoria and Bennett has the affairs of the Dominion well in losing a close struggle with the St. hand and is making a mark at the Empire conference.

In these matters somebody always has to be disappoin- newing their threat against the ted and this time it is the red revolutionists who are still hoping in spite of the strong tendencies against them.

THE IMPERIAL CONFERENCE

Judging from all the reports, mostly unofficial, that come from Ottawa, the Imperial conference will be successful in making arrangements for the interchange of goods among the different nations interested. Those who consider the progress slow must remember that there are a number of nations taking part, each with its own particular axe to grind and that the interests of each has to be considered just as carefully as the interests of Canada.

If the British Empire is to be permanent, there must be no mistakes made at this gathering. There may be revisno mistakes made at this gathering. There may be revisions Baseball Standings have to be laid down now. In a pact of this kind each party must benefit. We look to see great results from the deliberations now going on.

NEW YORK REPORT

The National City Bank of New York has just issued a statement telling of improved conditions in the country, particularly in connection with the market for farm products which will very greatly add to the purchasing power of the nation. Merchants and manufacturers have already taken heart and are responding to the change and this in

the month of July when business is usually very quiet. August, it is expected, will show a still greater improve-

ment and pretty soon employment will become general. We predict that the usual conditions will be reversed this winter. Instead of employment becoming scarcer as the cold weather comes on, there will probably be more employment in December than there was in July. It is impossible to stop a recovery movement of this kind just as it was impossible to stop the crash which brought on the trouble.

Couldn't take it. After seven of the scheduled ten-round fight at New York the other night, between Primo Carnera and Jack Gross, the referee stepped in and gave the fight to Primo on a technical knockout

Retain the cedar oil in the wood, affording extra and better preservation than kiln-dried shingles from which the essential oil has been evaporated. Our shingles are made on Queen Charlotte Islands and, as a home product, deserve your preference. Shingle makers wages on the Islands are spent eventually in Prince Rupert, while Vancouver wages never come north. Support a home industry and your own welfare by specifying Air Dried Shingles.

New Record Turned in By Speedy Yank; Ben Eastman Second While Wilson of Canada Finished Third

LOS ANGELES, Aug. 6:—Coming up from behind and overtaking Ben Eastman who had set the pace, Billy Carr of United States carried off the honors in the final of the 400-metre dash at the Olympic Games here yestertinued their assault upon the Na- lay, creating a new world's record of 46 2-10 seconds. The tional League strongholds yester- former world's record was 47 seconds flat and the former

Olympic record of 47 4-10 seconds. Carr led Eastman by only two paces. Alex Wilson of Montreal was third, Walters of South Africa fourth and Gordon of United States

Carr comes from the University of Pennsylvania. Wilson was only three yards behind Carr.

Wilson duplicated the feat of Phil Edwards, also of Canada, in breaking two Olympic records without winning a championship. The timers caught Wilson in 47 1-5 seconds. Edwards broke both the 800 metre and 1500 metre marks but third place in each race was the best he could get.

Jimmy Ball of Winnipeg, who finished second in the 400 metres at the Amsterdam Olympiad in 1928, failed to qualify for the final this year. .

but the race is being protested by United States officials on the grounds that Lehtinen committed a foul.

Ralph Hill of United States was second in the 5000 metres. It was he who is claimed to have been kine of Canada finished tenth.

In the first of the yachting events, United States won two events. Great Britain one and Sweden one.

American Halibut Landings Holding Up Well But Canadian Down-Further Figures on Salmon Pack—Going to McGill University

Volume of American halibut landings is holding up well at Prince Rupert early in August although Canadian landings continue to be light. During the week ended yes- family who are encamped there for terday landings at the port totalled 487,000 pounds of the summer. which American vessels contributed 399,000 pounds and Canadian but 88,000 pounds. Total landings at the port

for the year up to and including =yesterday were 8,607,500 pounds of Dr. Alexander's 2,771,250 pounds and American 5,-835,300 pounds. During the week the price situation showed some improvement although still leaving much to be desired. The high bid of the week for Canadian fish was the eminent character reader and 5.1c and 2.5c which the Tramp was student of psychology, have been paid for 16,000 pounds while the well attended during the past two low price of the week was 4.9c and weeks. They close tomorrow when 2.5c received by the Covenant for the visitor will deliver his final lec-13,000 pounds. The highest price of ture of the series. the week for American fish was 3.7c and 3c paid the Wave for 5,000 Rupert a number of times and it is bounds and the low 4c and 2c which noticeable that those who have a number of boats received for their heard him before want to hear him

An official bulletin on the salmon pack for 1932 reveals that a total of 127,622 cases had been packed on the British Columbia coast up to July 23 this year as compared with large daily carryovers at all stockbe presented to Mrs. George Smith year and last up to that date was medium kinds.
