

MANY IMPROVEMENTS FOR PRINCE RUPERT DISTRICT PROMISED BY GOVERNMENT

MAJOR GEORGE HULL INSTRUCTED TO PREPARE PLANS AND ESTIMATES IMMEDIATELY IN ORDER THAT WORK MAY PROCEED WITHOUT DELAY

That Prince Rupert is to get a fishermen's dock at Shawatlans, the bar cut through at Metlakatla, that Stewart, Port Essington and Alice Arm are to get wharves and that there will also be wharf improvements at various other points and that ocean docks here are contemplated in the near future is the good news brought from Ottawa by Major Hull of the Public Works Department in this city who has just returned home.

"I had a splendid and most successful trip. I met Col. Peck on my arrival and took up with him the improvements which are needed at this port and other places in the district. I spent a week at this work and found the Colonel very much alive to the situation.

Fishermen's Dock.

"In connection with the contemplated improvements at Shawatlans Passage, I have orders to prepare plans and an estimate at once and to make arrangements with Mr. Pattullo for the transfer of the land. I expect to do this within about two weeks and shall then go to Victoria and take the matter up with the Minister of Lands. Mr. Pattullo has already offered to co-operate in the matter and I anticipate no difficulty on that score as I have found Mr. Pattullo just as anxious as anyone to have the work done. I expect that we shall be able to get the work done almost immediately.

"I also am instructed to prepare estimates and plans for the cut through the Metlakatla bar in order to give fishermen an opportunity to reach the open sea without going around Tugwell and Digby islands. This will provide a short route.

At Skidegate.

"A survey and estimate is to be made of the cut at Skidegate Inlet, but I do not think this work will be done this year. The cut off will save boats going that way over one hundred miles.

DAILY EDITION. Wednesday, May 14, 1919.

Premier Oliver And Prince Rupert.

Frequently we hear of Premier Oliver making trips up the E. & N. Railway and telling the world of the wonderful things he has seen along that route, but it is now well over two years since he has been up that way. He has not visited this centre since he became Premier.

While we all know that the E. & N. Railway is one of the Government's burdensome babies which it had to adopt when it was left an orphan and which must be nursed, yet this country also has claims. We have seen several of the provincial ministers and they are always welcome here, but Honest John's face would look good once in a while.

There are many problems to be solved in this north country. The Minister of Lands, as our particular representative looks after our needs with care, and Alex. Manson, M. P. P., is on the watch for his own constituency, but at the same time we would like to have a visit occasionally from the head of the Government.

Now that this city is beginning to come into the eye of the world it would be worth while for the first minister to keep in touch with us. We are about to be doing things and we want him to know it and to give us a leg up occasionally in our climb to commercial supremacy. Also we shall be able to help him if he only realizes it.

We are not jealous of the other parts of the country, but we do not intend to sit back and wait until someone hears of us. We are going to be right to the front and we want Mr. Oliver and the other members of his cabinet to know it. If they would only come up here occasionally we might let them know what a live little town is like.

Prince Rupert's Nearness to Orient.

The Victoria Daily Colonist prints a table of distances between coast points and Yokohama. From this list it is clear that Prince Rupert has a great advantage.

From the figures given it is shown that this port is 385 miles nearer Yokohama than Victoria and 465 miles nearer than Vancouver. A vessel steaming at 15 miles an hour would have a start of 31 hours going from this port rather than from Vancouver. That is a very material gain and one that cannot be impressed too often. As most freighters make only about ten to twelve knots the gain in time would be near two days.

Need of Road Leading From City.

The need of a road leading out of Prince Rupert connecting with the Skeena River was made clear during the trip of the delegates that went up the river to meet Colonel Peck on Sunday. There is no communication at present except by water with Port Edward, with the canneries on the Skeena, with Smith Island, where a number of settlers are now going in and with the several fertile river valleys along the route, which would be used if there was communication.

Besides this there is the recreation idea. Prince Rupert is wholly shut in. There is probably no city in the world of her size so situated. It is not asking a favor to request that a road be constructed. Considering the income that is collected here, something of the sort is coming to the district.

If the Dominion Government is prepared to look after the fish docks, and it is understood that this will be done, the Provincial Government might turn its attention to roads, of which we have none.

We are aware that the Provincial Government is anxious to serve us. Here is the opportunity.

BUILDING OF HOUSES IS BEING COMMENCED

New Building Society Has Its Charter and is Ready for Business.

While the building program has been rather slow under the campaign which was put on recently to provide houses for those who are coming in, preparations are going ahead steadily. The charter for the new loan company has arrived and they are in a position to do business at once. There has been some delay owing to the time it takes to secure the proper documents of incorporation.

George H. Munro has the material on the ground for four houses and the piles driven for one. He will be going ahead with the work in a few days. The piles are driven for Fred Stork's new house in Section 2 and much of the lumber is on the ground. There are a number of other houses commencing and the prospect is that before very long a good deal of building will be under way.

(Special via G. T. P. Telegraphs.)
Paris, May 13.—A battle occurred last night in the streets of Naples between liberated convicts and soldiers on one side and Gendarmes on the other. The soldiers and convicts defeated the gendarmes and captured the court house. The gendarmes were reinforced by a battalion of troops and order was restored after hours of fighting.

CREED IS WRONG SAYS PRESBYTERIAN PARSON

Rev. R. G. Stewart of Robertson church, stated at the opening of the Presbyterian Synod at Edmonton that to his personal knowledge there were as many retired ministers living in Edmonton as there were ministers in the active work of the Presbyterian church in the city. Under the present conditions he did not blame men for forsaking their calling. Some he said, no doubt, were out on account of physical conditions but others were out because of the unreasonable machinery of the church and because of an un-revised creed.

To get and hold young men in the ministry, he maintained that the church must adopt a creed that can be subscribed to without qualification or "mental reservation." It is time the General Assembly of the church summoned up courage enough to revise the creed of the church in keeping with the belief of the great majority of the ministers. More young men would be induced to take up the ministry if the creed of the church were such that they could accept it whole-heartedly.

PRINCE GEORGE VETS. TAKE EXCEPTION TO ALIEN LANGUAGES

Would Hear Nothing But English Spoken on Streets—Elect Officers for Year.

(Special via G. T. P. Telegraphs.)

Prince George, May 14.—At their recent annual meeting the Great War Veterans elected officers for the coming year as follows:—President, Comrade Wimbles; Vice-President, Comrade Vibbard; Secretary, Comrade Fisher; Assistant Secretary, Comrade Mellson; Treasurer, Comrade Pooley.

Objection was taken at the meeting to the manner in which alien languages were used on the streets. The opinion was expressed that the returning men objected most strenuously to the use of any but the English language and that the local organization would not be responsible for disturbances when people were sufficiently indiscreet to use alien languages.

SYNOPSIS OF LAND ACT AMENDMENT

Pre-emption now confined to surveyed lands only.
Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.
Parties of not more than four may arrange for adjacent pre-emptions, with joint residence, but each making necessary improvements on respective claims.
Pre-emptors must occupy claims for five years and make improvements to value, including clearing, fencing and cultivation of at least 5 acres, before receiving Crown Grant.
Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health or other cause, be granted intermediate certificate of improvement and transfer his claim.
Records without permanent residence may be issued provided applicant makes improvements to extent of \$200 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained on these claims in less than 5 years, with improvements of \$10 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years.
Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.
Unsurveyed areas, not exceeding 20 acres, may be leased as homestead; title to be obtained after fulfilling residential and improvement conditions.
For grazing and industrial purposes, areas exceeding 640 acres may be leased by one person or company.
PRE-EMPTORS' FREE GRANTS ACT.
The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the holder or devisee of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

TOWNSITE PROPERTY ALLOTMENT ACT.

Provision is made for the grant to persons holding uncompleted agreements to Purchase from the Crown of such proportion of the land, if divisible, as the payments already made will cover in proportion to the sale price of the whole parcel. Two or more persons holding such Agreements may group their interests and apply for a proportionate allotment jointly. If it is not considered advisable to divide the land covered by an application for a proportionate allotment, an allotment of land of equal value selected from available Crown lands in the locality may be made. These allotments are conditional upon payment of all taxes due the Crown or to any municipality. The rights of persons to whom the purchase from the Crown has agreed to sell are also protected. The decision of the Minister of Lands in respect to the adjustment of a proportionate allotment is final. The time for making application for these allotments is limited to the 1st day of May, 1919. Any application made after this date will not be considered. These allotments apply to town lots and lands of the Crown sold at public auction.

LOW FISH PRICES DETER ENTERPRISE

Company Lay is Now More Profitable Than Share System.

There is a good deal of dissatisfaction among the fishermen at the low prices which are being paid for halibut. Many of them claim that they cannot make any money at 9c. a pound, the price which has been obtaining recently and as a result some of the boats have tied up.

Since the drop in price there has been a desire among the fishermen to secure positions on the company boats. When prices were high the share system was the best, but now there is more money under the "company lay."

The buyers claim that the eastern market is glutted and that the prices paid there are so low that it does not pay them to handle the fish.

ADVISORY BOARD WILL MEET AT SMITHERS

As a result of suggestions advanced by F. M. Nourse, the district representative on the Advisory Board of Agriculture, that the next session be held at Smithers, and following an invitation by A. M. Manson, M. P. P., for Omineca, word has come that the Hon. E. D. Barrow, minister of agriculture, has consented to the plan, and it is expected the assembly will take place at Smithers about the middle of June, says the Interior News.

During the spring session of the board, Mr. Manson kept in close touch with proceedings, and naturally when it came to the holding of the next session he lost no time or occasion to advance the Bulkley Valley as the proper place.

Not only will members of the Advisory Board attend, but delegates from the Dairy Men's Association, Stock Breeders' Association, Horticultural Association and Poultry Association. Mr. Barrow is lending his keenest support to the matter and the board is getting in touch with the railway company with a view to obtaining special rates.

SPRUCE FOR JAPAN

Product of This District Will Be In Demand on Other Side of Ocean.

That there will be a demand for aeroplane spruce in Japan is the news conveyed by the Canadian Trade Commissioner at Yokohama. The Japanese while not as expert in the air as the British or Americans or French, yet are learning the game and many are becoming proficient. As a result they are about to launch a campaign of aeroplane building in order to interest their people in the new science.

British Columbia will supply most of the material for these planes and already inquiries are being made for British Columbia spruce.

WILL KEEP ARMY BEEF OFF MARKET

(Special via G. T. P. Telegraphs.)

I OFFER HEALING!

For quick healing nothing equals Zam-Buk, and its power to end pain and prevent blood-poisoning is equally wonderful. No home should be without it, not only for burns, scalds and cuts, but also for eczema, ulcers, boils, ringworm, rashes, blood-poisoning and piles. Zam-Buk's purity and refinement make it suitable for all skins—even to the youngest baby. Zam-Buk keeps indefinitely. Get a box to-day and keep it handy.

ECZEMA

Mrs. Hector McDonald of Oyster Ponds, N.S., writes: "For a year I suffered terrible pain and irritation with eczema. Doctor's treatment and so-called 'cures' did me no good. Then I tried Zam-Buk, which has completely cured me."

BLOOD-POISONING

Mrs. S. Cliff of Mellette, cut her hand on a piece of tin and blood-poisoning set in. She says: "The poison spread to my shoulder and the pain was awful. My doctor attended me, but I got no better until I used Zam-Buk which drew out the poison and healed the wound."

CHRONIC SORE

Miss Nellie M. Lewis, of Silver Lake, Oregon, says Zam-Buk saved her father from an operation. "He had a chronic sore on his face and the doctor advised an operation. We determined to try Zam-Buk first, which before long entirely healed the sore."

OLGA PETROVA IN "THE PANTHER GIRL"

Heights of Emotionalism Never Equalled—Seen at Westholme Tonight.

Patience Sparhawk, the girl of fate, around whom is woven the story of "Patience Sparhawk and Her Times," written by Gertrude Atherton to a phenomenal sale in book form, and produced in motion pictures under the title of "The Panther Woman," is the role which claims in Madame Olga Petrova a greater degree of popularity than any other she has ever attempted.

The supreme emotional action of the story gives wide latitude to Madame Petrova's versatility as a dramatic actress, and enables her to attain heights of emotionalism unequalled by any of the previous parts she has played.

Those who have seen the private showing of this picture say that it is a remarkably consistent portrayal, in little more than an hour's time, of the growth of a human soul which, in book form, takes hundreds of pages to describe.

There is also a Chaplin film, "The Daredevil Queen."

"KIDDER & CO." IS A REGULAR FELLER

Not the Kind That Tuoks His Handkerchief Up His Left Sleeve.

Bryant Washburn, the movie star, is a regular fellow.

Those who see "Kidder & Co.," which comes to the Empress tonight will agree that Bryant is not the sort of chap who is given to tucking his handkerchief up his left sleeve. Nor is he the kind who sprinkles scent upon his coat lapel.

In "Kidder & Co." he has a man's part that suits him right down to the ground. He confounds his dad by making a success in business and showing that old party a few curves in the gentle art of gathering in the sheekles right in his own game, and of course he falls in love with a girl whose blonde, dimpled prettiness is almost too good to be true.

SILVER STANDARD SHIPS CONCENTRATES

Two shifts are working at the Silver Standard mine and development work is being carried on as well as mining, says the Omineca Herald.

At the mill everything is running very smoothly and there is a carload of zinc concentrates ready for shipment.

Arrangements were completed this week for shipping the lead concentrates to Selby instead of to Trail. The American smelter handles a lower grade concentrate and gives a better treatment rate. At the same time the mill will turn the concentrates out faster and at less expense.

The mill is to be put on two shifts right away.

Hauling from the mill to the depot will start the first of the

THEY TAKE IT IN ON THEIR BACKS

One of our men was on a fishing trip to a lake about twenty miles from a railway. They discovered a surveyor's camp where a party of engineers are engaged in running lines through some timber tracts.

Nailed to trees and against their backs were empty milk cases used to hold all sorts of things.

The chief of the party said that the men would not have any milk but Pacific and pointed to the empty cases to show how much they use.

All their cooking is done with it and they certainly do live well.
