## STRIKE MAKES LITTLE CHANGE IN SITUATION

Workers Quit Last Night at 6 P. M. at Behest of Strike Committee.

Last night at six o'clock the general strike, so called, started in this town. The fish packers were the first to go out. The shift on at the cold storage at six and promptly at six stopped leaving several hundred pounds of fish on the floor. It is expected that they will return to work for a short time to prevent the waste of this food. This morning a number of the men failed to return to work. The sawmill, however, continued as usual this morning and from outward appearances it would have been known that there was a general strike in the town.

The teamsters are at work as usual, and work is proceeding on the building operations in various parts of the city.

Inquiry at the drydock brought out the fact that a few of the workers had remained away this morning, but otherwise work was proceeding much as usual.

Those not on strike officially are the electricians, carpenters, mail clerks and members of the geographical union.

At a meeting of the Machinists last night it was decided to go off work for two days pending the general meeting on Friday evening when it will be definitely decided whether the members of this union will join in the sympathetic strike or not.

## PASSED THROUGH WITHOUT A SCRATCH

Arthur Hamblin Returned After Three and a Half Years Overseas.

Pte. Arthur Hamblin of this city returned home last night after spending three and a half years overseas right in the thick of the fighting. He was most of the time connected with the Red Cross service with the Sixth Brigade Field Artillery. Although he spent the firing line much of the time he came through without a scratch. He is one of seven brothers who served during the war.

Constable W. Adams of the city police force left for Vancouver via Rainbow this morning. He is accompanied by Mrs. Adams and Miss Adams and will enjoy a short and well earned vacation before returning to resume his duties here. On reaching Vancouver Mr. Adams will identify George Smith who was lately sentenced to six months in the provincial jail for breaking away while out on bail. The sentence was pronounced in the local court when the culprit failed to report when his case was called.

## BLEW UP TRAIN IN ALPS TUNNEL

Anarchists and Secret Agents on Trial at Zurich—Tried to Block Mont Cenis Tunnel During War Time.

(Special via G. T. P. Telegraphs.)

Zurich, June 11.—Remarkable disclosures have been made here during the trial of a gang of anarchists and alleged foreign secret agents. It was testified that an anarchist band blew up a train in the Mont Cenis Tunnel during November, 1917, on which train there were hundreds of French soldiers returning from Italy on leave.

It was also alleged that the large sums of money which the Hindu leaders had spent so freely in propaganda work for the past decade and particularly since 1914 was supplied not only by Berlin but by the Hindus in America, especially in California.

## FIRE DEPARTMENT BEAT MACHINE SHOP FIRE

Prompt Action Saved Valuable Machinery from Destruction; Blaze Quickly Conquered.

Shortly after half past eight last evening, an alarm was rung in from the Imperial Machine Shop near Cow Bay, which had caught fire. Upon the arrival of the brigade, flames had caught a good hold at the back of the shop and were spreading rapidly. It was not long, however, before the blaze was brought under control and finally extinguished.

There were two tanks of oxy-acetylene gas in the building used for welding work, and grave fears were entertained for a while that the heat might cause them to explode. This, however, was prevented and not even the glass dials on the faces of the meters on the tanks were found to be broken.

The loss, which is not yet estimated fully, is partly covered by insurance. Being confined to the back of the building, none of the machinery was damaged, although some belting and pulleys were damaged. The prompt action in saving the roof prevented it from falling in, which would have caused great damage to the machines. As it was a new five h. p. motor and several expensive tools were destroyed.

## HON. C. C. BALLANTYNE WILL VISIT RUPERT

From information received by Commissioner Tinker of the Board of Trade, it is learned that the Hon. C. C. Ballantyne, Minister of Marine and Fisheries, will pay a visit to the coast during the month of September, travelling via Prince Rupert. Col. Peck, during his address to the Board of Trade recently, mentioned the necessity for the ministers at Ottawa seeing Prince Rupert and its problems for themselves, and his suggestion has apparently been acted upon.

## PROFIT SHARING IS EXPERIMENTED WITH

Farm in Alberta and Industrial Concern in Toronto Both Have Plans.

A profit-sharing scheme for farm labor has been announced by the Noble Foundation, of Nobleford, Alberta, which was organized as a company seven years ago, says the Labor Gazette. This company is offering employment to experienced farm laborers and teamsters at the following rates: April to July inclusive, \$65 per month; August to November inclusive, \$75 per month, with a bonus of 20 per cent on the amount of money earned, for those who give good satisfaction and remain through the fall season. In addition to this, not later than thirty days after December 31, the company will pay a dividend on the wages earned, at the same rate as the dividend paid to shareholders, which has averaged 20 per cent since its organization. It is further proposed to pay an extra ten per cent bonus to those who return the following year and complete the season of 1920. A few men will be retained on each farm at winter rates of wages, and a bonus and dividend will be paid to them in the same proportion.

The Robert Simpson Company of Toronto, a large departmental store, has recently announced a profit-sharing plan for the benefit of its employees. Any member of the staff who has been a year with the store may, if he desires, participate in the scheme, in which event he must deposit to the credit of the firm five per cent of his salary up to the maximum of one hundred dollars a year. This limit is set so that the higher paid employees shall not benefit disproportionately. To these savings of the staff the company will add annually a sum equal to five per cent of its net earnings. The deposits will be invested for the benefit of the participating employees. Participants completing ten years of service will be permitted to withdraw their deposits with all interest and profits. Those leaving before completing their ten years' service will be entitled only to the amount of their deposits plus five per cent interest, save in the case of a woman leaving to be married after five years, who would be entitled to the profits as if she had completed ten years' service. In the case of death, beneficiaries will also receive the accrued profits as though the deceased had completed the ten years' term.

## FAST BALL GAME WAS PLAYED LAST NIGHT

Colts Won From Sons of Canada By 8 to 7—Large Attendance of Fans.

In the baseball game last evening played on the Acropolis Hill grounds the Colts won from the Sons of Canada by a score of 8 to 7 in an exciting 11-inning game. Matheson did the twirling for the winners and Day and Harry Lauder took their turn in the box for the Canucks.

Anderson, the fast stepping short stop, was the fielding star of the game, pulling down a couple of fast drives, both of which would have counted for at least two bases. There was fine stick work throughout. Nearly two hundred fans attended and none of the players were spared from criticism and encouragement.

There have been no replies as yet to President Ben Self's challenge to any team north of Vancouver. The date of the next match between these two teams which now hold equal honors will be announced later.

## V. C. CONSTABLE SHOT BY ALIENS IN WINNIPEG

First Clash Occurs Between the Strikers and Special Constables—One Injured; Others Hurt.

(Special via G. T. P. Telegraphs.)

Winnipeg, June 11.—The first really serious conflict between the forces of law and the strikers and the strike sympathizers occurred yesterday afternoon in Winnipeg at the corner of Portage and Main Street, resulting in one mounted constable being rather seriously injured and others being hurt. A number of arrests have been made.

While performing his duties as a special mounted constable Sergt. F. G. Coppins, V. C., was attacked by the striking aliens. He received two bullets on the right side of his chest and his ribs are badly injured, but hope is held out for his recovery.

## FOODSTUFFS ARRIVE

Beef, Butter, Pork and Eggs Come In By Train Yesterday for Local Firms.

The welcome sight of wagon loads of beef, pork and other supplies being hauled from the depot last night to the local stores was one which afforded much satisfaction to the citizens on the route. A car load, which has been alleged to be on the way for the last day or two, came in yesterday and was promptly unloaded and delivered to the local stores.

Apprehensions regarding the scarcity of food which have been excited through strike conditions and rumors were allayed in the breasts of many last night, at least for the time being.

DAILY EDITION. Wednesday, June 11, 1919.

Strike and Revolution Both Fizzling Out.

The big strike is fizzling out and there will be no revolution. That is certain. Those who have been looking for "der tag" will be grievously disappointed.

This is not the kind of country in which to start a revolution. We are not sufficiently excitable. Sometimes we fly off a little, but very soon we come to our senses. We are conservative by nature, as a people, do not like our changes too abrupt.

The dear deluded dupes who have been counting on upsetting things and taking over the affairs of state themselves may very well forget it for a few years.

There are some people who still do not believe that a revolution was contemplated. They are as easily deluded as were those who were ready to enter into the new workingman's oligarchy. Revolution was talked of for many months before the strike, but it was not intended that the "capitalists" should have been overthrown until the One Big Union was properly established. Even in Prince Rupert there were those who were talking revolution and expectantly waiting for it. Even yet they find it hard to believe that they have been such poor fools.

End is Only Matter of Time.

In Winnipeg the people are going back to work, and in most other places the strike has gone off at half cock. Skilled craftsmen who are well paid refuse to be at the beck and call of a lot of men who cannot read and write the English language. They are beginning to feel that the tail is wagging the dog and they resent it.

Most of those who belonged to international unions of repute refused to break with their organizations for an evanescent phantom of revolution, no matter under what guise it might be parading.

The end of the strike is now just a matter of time. It is a wearing down process and the workingman gets the rough side of the stone. He is the man who suffers. He is the one every time who, win or lose, has the short end after industrial conflict. For that reason it was so foolish to listen to a few hotheads who deluded them with smooth talk.

Doubtless the striking unions will hold out for some time yet. It is not to be expected that they will yield without a good struggle. We should hardly admire them if they did. At the same time it is now clear to everyone that there can be but one outcome. The men are fighting a losing game. The odds against them are too strong.

Nothing in Law To Compel Work.

There is nothing in the law of the country to compel a man to work if he does not wish to do so. He can remain out indefinitely. The community is being injured of course, but not so much as the idle individual. The leaders of the labor movement here have no interest in the community. Some of the leaders told The News so. They do not care whether the place is prosperous or not. They would just as soon it should not be, at any rate that is what they say. It is useless to argue with such men. They are in a class by themselves. They form an aristocracy of indifference to everything except their own selfish ends. They like to hear themselves talk at labor meetings, but when it comes to work, they are never among the leaders there. Unions seem to be divided into two classes, workers and talkers, the latter are the leaders and the others are their dupes.

No Hostility To Organized Labor.

The News believes in organized labor. It is necessary that men shall organize in self protection and to advance their own peculiar crafts. The News does not believe, however, in the solidarity of labor. There is no more reason for a skilled craftsman following a loud mouthed agitator than there is for a business man following a flimsy hair-brained politician. Both are abhorrent. When the proletariat rule the world it will not be through men who are not themselves workmen, not through the crafty schemers and revolutionists who would upset the established order of things, but through the great mass of real workers who do their work well, who have brains and use them.

Cost of Living Much Too High.

The cost of living is much too high. Everybody admits that. Wages go up and then there is another jolt up in the prices. It is like a pup chasing his tail. He never gets him anywhere.

No one seems to know why costs are too high. None of the merchants become millionaires unless it be Timothy Eaton, the man who is reputed to sell cheap goods. Many men in business find it impossible to make a living. There have not been many failures in Prince Rupert lately, but in the past there have and doubtless there will be a recurrence.

From time to time some crazy profiteer figures are quoted and then the gullible open their mouths and swallow them down and repeat them with proper embellishments. Usually the figures are false.

The Dominion Government is now calling a convention of retail merchants, not only to discuss the question of profiteers but to find out a way by which the business of the country may be conducted on what may prove a more equitable basis. Whether they will do anything remains to be proved. Doubtless the Government will have something to tell the merchants as well as hearing their side of the story. It is not to be an ordinary investigation but a trade conference with a view to evolving a better condition of affairs. It seems an expensive way of doing things but possibly some good may come of it. Until we know more about it we feel it only just to withhold criticism.

Diamond Engagement Rings

We take special pride in carrying in stock for this purpose some very fine and perfect diamonds.

We guarantee the quality and good value of these rings as we have made special selection of the stones before the last raise in price of diamonds.

We recommend one at \$75.00 in particular as being quite desirable.

### NAVIGABLE WATERS PROTECTION ACT.

R. S. C. 115.

The Grand Trunk Pacific Railway Company hereby gives notice that it has, under the provisions of the said Act deposited with the Minister of Public Works at Ottawa, and in the office of the District Registrar of the Land Registry District of Prince Rupert at Prince Rupert, B. C., a description of the site and plans of car ferry slip and works proposed to be built in Prince Rupert Harbor at Prince Rupert, British Columbia, in front of wharf Block "C."

And take notice that after the expiration of one month from the date of the first publication of this notice the Grand Trunk Pacific Railway Company will, under Section 7 of the said Act, apply to the Minister of Public Works at his office in the city of Ottawa for approval of the said site and plans and for leave to construct the said works.

DATED at Winnipeg, Manitoba, this 30th day of April, A. D. 1919.

GRAND TRUNK PACIFIC RAILWAY COMPANY, per H. H. Hansard, Solicitor.

### SYNOPSIS OF LAND ACT AMENDMENT

Pre-emption now confined to surveyed lands only. Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished. Notice of pre-emption must now be arranged for adjacent pre-emptions, with joint residence, but each making necessary improvements on respective claims. Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 5 years, and has made proportionate improvements, he may, because of ill-health or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained on these claims in less than 5 years, with improvements of \$10 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years.

Pre-emptor holding Crown Grant may record another pre-emption, if he occupies land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes, areas exceeding 50 acres may be leased by one person or company.

### PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

### TOWNSITE PROPERTY ALLOTMENT ACT.

Provision is made for the grant to persons holding uncompleted Agreements to Purchase from the Crown of such proportion of the land, if divisible, as the payments already made will cover in proportion to the sale price of the whole parcel. Two or more persons holding such Agreements may group their interests and apply for a proportionate allotment jointly. If it is not considered advisable to divide the land covered by an application for a proportionate allotment, an allotment of land of equal value selected from available Crown lands in the locality may be made. These allotments are conditional upon payment of all taxes due the Crown or to any municipality. The rights of persons to whom the purchaser from the Crown has agreed to sell are also protected. The decision of the Minister of Lands in respect to the adjustment of a proportionate allotment is final. The time for making application for these allotments is limited to the 1st day of May, 1919. Any application made after this date will not be considered. These allotments apply to town lots and lands of the Crown sold at public auction.

For information apply to any Provincial Government Agent or to

### RAY COLLISHAW HAS TASTE FOR ADVENTURE

One Example of His Indomitable Courage and Great Skill.

"With an insatiable appetite for adventure of the thrilling kind and a heart as big as a mother's, it is no wonder, to those who know Lieut.-Col. Ray Collishaw, why he was followed, admired and deeply respected by all who came under his authority.

"His squadron—number 203—before the amalgamation of R. F. C. and R. N. A. S., 'number three naval'—was not an ordinary squadron. His flight commanders and pilots, may, to the casual observer, have looked ordinary, but they were not. Their one idea was to serve him, and the best way to serve him—and the way he appreciated best was the shooting down of Huns.

"After a successful scrap, 'Collie,' as he was known to his friends, was always to be found in the anteroom of his squadron mess eagerly listening to the story of the fight. To his pilots the mere honor of snooting down a Hun machine was nothing compared to the pat on the back that 'Collie' generally administered after a successful fight.

"The code of honor of his squadron, built up by himself of course, was very high. Here is one little incident that helped to build that code.

### Gallant Work.

"He was returning alone one evening, and had just enough petrol in his tank to carry him back to his aerodrome. As he crossed our front line he casually glanced back and found a broken-up formation of our long-distance bombers gallantly fighting a big patrol of Huns.

"Without hesitation he turned back and climbed up to the fight. Without his assistance the bombers would have had very short shrift. As it was he fought the Hun scouts all over the sky and shot two down. By then the bombers were safely across our lines. At 14,000 feet, five miles into Hunland, Collishaw's engine 'conked out' through his petrol supply having run out. Twisting and dodging his assailants, who realized that his engine had stopped functioning, 'Collie' glided back west and effected a perfect landing a quarter of a mile inside the British lines!"

#### PROPER INVESTIGATION

Will you inform me what Government is taking steps to find out the profits made by the merchants. It seems strange to me that they would appoint the men who are supposed to be making the profits to investigate themselves.

There was a high cost of living committee appointed a year ago and the members of that committee were merchants, and the mayor, I believe. How do you expect to get any information by that method.

When the government holds an investigation of labor conditions they appoint a manufacturer, a lawyer and possibly one laborer.

But what a difference when they go to look into the cost of living. Those men can bring in a report tomorrow that will be as reliable as any they will bring.

Do you expect any man to admit he is making too much money?

Any way that is beginning at the wrong end. It is not the poor retailer that is making the big profit but the bigger men.

Now, Mr. Editor, I believe in the government as by custom established, but do you wonder at people saying they have no confidence in our system when we do things like this.

What would you think if the police commission asked the club owners if they were allowing card playing in their clubs?

Let us wake up and get at the root of things and the unrest will soon vanish and we will laugh and be gay, but the old methods, selling for all you can get, are dead.

Take the lead, Mr. Editor, and demand a proper committee to investigate those things and the people will have some confidence in the findings.

Yours truly, STILL HOPEFUL.

## FARM LOANS for SOLDIERS

## How Everyone Can Help

THE Government has developed a liberal and broad plan to help soldiers settle on farms. It is securing land. It is granting substantial loans. It is obtaining advantageous prices on equipment, implements, building materials and live stock. It is providing agricultural training and farming supervision.

That is as much as the Government itself can do.

But the plan needs more. It needs a community spirit of co-operation.

Already Provincial Governments, Universities, Farmers' Associations, and Veterans' Associations are giving valuable assistance. Many manufacturers and sellers of farm supplies have agreed to allow the soldier settlers special prices. Many successful farmers have willingly worked on Qualification Committees which have to pass on the applicants. Men who have had experience in lending money on farm property are serving on Advisory Loan Committees, judging land values.

But even such practical assistance is not enough. In each community farmers can be of real service to the soldier settler. They can give him advice about local conditions. They can lend him an extra horse or plough, give him a day's help at seeding or harvest time, and extend to him that friendly, neighborly, respectful spirit which he deserves.

In this way Canada is performing a double duty. It is discharging, as far as possible, the debt we owe to our soldiers; and it is adding to the country's chief industry a body of competent, willing producers.

Full information about lands and loans for soldiers will be sent on request to the Provincial Superintendent, Soldier Settlement Board,

STEWART ORE PROVES RICH

Last Shipment of 280 1/2 Tons Returned \$101,000, Says Cassiar News.

Although the last shipment of ore from the Premier mine went to the smelter at Tacoma some time ago, the returns have only just become public, says the Cassiar News.

The shipment contained 280 1/2 tons and returned \$101,000. Work at this mine is now being prosecuted in very rich ore and reports regarding operations are most encouraging.

A large amount of supplies came in by the last steamer and were taken to Hyder, Alaska, by scow, thence up the Salmon River valley to the mine. W. H. Young of San Francisco, a widely known engineer, is at present at the mine.

SCHOOL BOARD WILL CONSIDER PLANS FOR THE NEW BUILDING

At the meeting of the School Board next week the question of a new school building will be further discussed and arrangements made as to when the work can be undertaken. Plans have already been received by Secretary Vance which will be carefully examined and approximate values attached. Rough estimates given opt place the cost of building at from \$100,000 to \$130,000.

More and more it is brought to notice, especially in these days of unrest, that the proper instruction of the young is one of the most essential features of modern civilization. Instead of just having buildings which will simply fill a sore need it is the desire to have them of such design and architecture that they will be a credit to the city. The new building is to be erected on the city property near the exhibition building.
