AUSTRIAN NAVAL BASE OF DURAZZO TAKEN BY ALLIED WARSHIPS AND IS RETAINED

AMERICAN, BRITISH AND ITALIAN VESSELS TAKE IMPORT-
ANT PORT — AUSTRIANS WITHDREW FROM
ALBANIA FOLLOWING TAKING OF
BERAT BY ENTENTE

(Special to The News via G.T.P. Telegrams.)

Rome, October 4.—The Austrian naval base at Durazzo has been destroyed by the Allies. American, British and Italian warships made a combined attack and were entirely successful. They have taken possession of the place and the ships are now anchored there.

Durazzo is in the province of Skutari to the south of Montenegro. Until recently it had only a small population, but recently it was made into an Austrian naval station.

London, October 4.—Austrian three masted ships are missing as a result of the sinking of a British torpedo gun boat in collision with a merchant vessel on September 30.

Madrid, October 4.—The Spanish steamship Franco has been torpedoed by a German submarine. Vienna, October 4.—Austrian ships have been withdrawn from Albania, Berat having been taken by the Allies.

NEW SHOE FIRM IS OPEN FOR BUSINESS

Family Shoe Store Now Owned by
George Hill and E. Tabrum,
Both Well Known
Here.

The Family Shoe store has changed hands and is now in the capable hands of George Hill and E. R. Tabrum of this city, who intend to improve the stock and keep it right up to date as a modern family shoe house.

E. R. Tabrum has had a great deal of experience in the shoe business. He has spent all his life at it and he is well known in Prince Rupert. He has been buyer and manager for some of the largest retail shoe houses in Canada and has made a special study of children's shoes. Besides that he has taken a course in Chicago in the treatment of broken arches and other foot troubles.

George Hill is a practical shoe man and also knows the retail end of the business well. He has been in business here for some time and has a large number of satisfied patrons.

The new firm starts out with the prospects of doing a big business.

George Hill and E. R. Tabrum now in full charge—Family Shoe Store.

U. S. S. TAMPA LOST ESCORTING CONVOY

Washington, Oct. 4.—The U. S. S. Tampa, former coast guard cutter, which was lost with all on board September 20, was torpedoed in the Bristol Channel at night while escorting a convoy. 115 lives were lost. No eye witness. Capt. C. Batterless of the Coast Guard Service, was the commander.

STOCK MARKET IS UNAFFECTED

Canadian Railway Earnings Increase Very Considerably;
Grain Is Steady; Pools
Continue Active.

(Special via G.T.P. Telegrams.)

Winnipeg, Oct. 4.—The grain markets are fairly steady with no pressure of either buying or selling. The receipts are steadily increasing and are now well over 1,000 cars daily.

New York, October 4.—Developments bearing upon the world conflict exerted far less effect over the stock market today. Pools and allied interests continued active in shippings, oil, tobacco, motors and subsidiaries, also coppers and utilities.

Montreal, October 4.—For the week ending September 30 the G. P. R. traffic receipts were \$1,210,000. For the same period last year they were \$3,631,000.

Toronto, October 4.—The gross earnings of the Canadian Northern Railway system for the week ending September 30 were \$1,359,900, compared with \$1,104,400 for the corresponding week last year.

C. P. R. CLERKS AND FREIGHT HANDLERS ARE OUT ON STRIKE

(Special via G.T.P. Telegrams.)

Winnipeg, October 4.—Approximately 2,500 C. P. R. clerks and freight handlers are actually on strike. Quite a number are loyal to the company and are carrying on their duties as usual. It is hinted that the strike may extend to baggage men and Canadian Northern employees.

Victoria, October 4.—The C. P. R. freight handlers strike has not affected this port.

FLOOR OIL PROVES TO BE GOOD CLARET 24 PER CENT. SPIRIT

Seizure of Barrel at the Empress Hotel of What Purported To Be Oil.

Yesterday morning just before noon the police constables paid a visit to the Empress Hotel. They made an examination of the place and on coming away a barrel was noticed lying away in a corner covered over and looking as if it had been there for some considerable time.

"What's in that?" they asked. "Floor oil," was the reply, "we got that some time ago but our man found it was not the right kind of oil and it did not suit the floor. So there you are."

On the constables testing the floor oil they decided to take it to the police station.

"Take it if you like," remarked H. E. Ross, "but if you do you'll have to bring my floor oil back."

"We'll chance it," retorted the constable.

"All right, then," said Mr. Ross. "I bought that barrel some time ago from Joe. You know Joe, just across the street."

Everyone knows Joe, and when he heard of it he felt like kicking himself for selling such a barrel. If he had only known he would have kept it for himself, because when it got to the police station it proved to be full of California claret, which is worth very much more than floor oil.

The floor oil barrel is a California wine case holding some fifty-four gallons and is perfuming the atmosphere of the police station. The wine carries 24.2 per cent. of proof spirit, but for all that, it would not polish the floor of the Empress. Judging from the seizures made lately in town there will soon be steady employment for some one with a good palate testing liquors for alcoholic content.

SOLDIERS ASK AID IN GETTING DIVORCES

(Special via G.T.P. Telegrams.)

Windsor, Ont., Oct. 4.—Returned soldiers here have started a movement to secure Federal aid in obtaining divorces from soldiers' wives who have been unfaithful during the absence of their husbands overseas. It is suggested that in such cases the Federal Government should finance the actions.

FIERCE FIGHTING BETWEEN ST. QUENTIN AND CAMBRAI

FRENCH TAKE 2,800 PRISONERS AND CAPTURE SEVERAL
IMPORTANT POINTS — GERMANS THROWING
RESERVES INTO THE BATTLE IN
ST. QUENTIN SECTOR

(Special to The News via G.T.P. Telegrams.)

Paris, October 4.—French troops captured 2,800 prisoners yesterday. They made an important advance to the northwest of Somme Pys, in Champagne, occupying the crest of Blancmont. Cromicy, northwest of Rheims, has also been captured.

London, October 4.—German forces last night delivered counter attacks at Gouy and Lecatlet midway between St. Quentin and Cambrai. Germany is throwing reserves into the battle on the St. Quentin front. General Gouraud's troops are within six miles of Vouziers junction 25 miles from the railways connecting the German army with Germany.

RILEY'S PICTURES WERE REVELATION

Eloquent Speaker Tells of the
Great Northwest and Illustrates
With Works of Art.

The picture lecture which was given by Frank B. Riley last night was all that the advance notices said of it and a great deal more. Not only was the speaker eloquent and humorous, but the pictures were a marvel. It is impossible to speak of them without seeming to exaggerate. The mountain and stream pictures, the shimmering lakes, the glowing sunsets, the alpine flowers and the picturing of the industries, especially the raw products in timber, were all done artistically and they faded one into the other and blended so delightfully that the audience was carried away with the joy of looking.

Mr. Riley is to be congratulated on the work which he is doing for the Pacific Northwest. The money spent on this branch of the publicity work is certainly spent well. To show those pictures where nothing of the sort had ever been seen must have opened the eyes of the dwellers in the effete East and given them the desired longing to come this way.

The lecturer told of a number of his experiences in showing the pictures and telling of the great things to be seen and done in this great west, he waxed eloquent on the great work that westerners were doing in building ships and getting out aeroplane spruce for the use of the Allies in the war and as an American he paid a warm tribute to the splendid lot of men British Columbia had sent long before the United States had made up her mind to enter the conflict. He showed that if the U. S. had done as nobly as B. C. she would now have 8,000,000 men in the field.

At the close a vote of thanks to the speaker; was moved by Fred Stork who asked that the map be corrected so that Prince Rupert might appear on it. Mayor McClymont also thanked the speaker.

PRICES OF CLOTHES TO BE REGULATED

(Special via G.T.P. Telegrams.)

Washington, October 4.—The United States has commenced controlling the prices of wearing apparel. The War Industries Board will have charge of this department. A regulation was issued yesterday prescribing certain fixed prices for shoes, but this is said to be only the first step in the general policy of setting the price of clothing.

ENGLISH AND AUSTRALIANS DRIVE DEEP INTO DEFENCES OF GERMANS ON WEST FRONT

LARGE AND VITAL PORTION OF THE HINDENBURG LINE
SMASHED — FIVE THOUSAND PRISONERS
TAKEN AND NUMEROUS
GUNS

(Special to The News via G.T.P. Telegrams.)

With the British Army on the St. Quentin Sector, October 4.—British troops have smashed a large and vital section of the Hindenburg line between St. Quentin and Cambrai. They have occupied many additional towns and villages and 5,000 villages and numerous guns have been taken since the previous report. The battle was resumed at six o'clock yesterday. English and Australian divisions drove deep into the enemy defences. The ground over which the British troops fought their way against the inevitable swarm of machine guns was littered with German dead.

TWO MINISTERS ARE EXPECTED HERE TOMORROW

Hon. F. D. Carvell and Hon. J. A.
Calder are to Be Guests of
City At Two Functions.

At a meeting of the executive of the Canadian Club held in the Court House last night with Vice-President McMullin in the chair, acceptances of invitations extended by the secretary to Hon. J. A. Calder, Minister of Colonization, and Hon. F. D. Carvell, Minister of Public Works of the Dominion, were read, and preparations made for their entertainment while here. They are expected to arrive on a special train tomorrow morning and will leave for the south on the steamer Prince Rupert.

The two big events of the visit will be a luncheon under the auspices of the Canadian Club at the Central Hotel tomorrow afternoon at one o'clock at which both the guests will give short addresses, and a big mass meeting in the Empress Theatre in the evening under the joint auspices of the mayor and council, the Board of Trade and the Canadian Club. A general invitation is given the public to both of these functions. Those wishing to attend the luncheon should purchase tickets today from the secretary of the club, J. D. McAuley. The evening meeting is free and everyone is invited to attend.

Arrangements for the luncheon are in the capable hands of J. D. McAuley and G. W. Nickerson, while a joint committee will look after the public meeting, final arrangements for it to be made tonight in the Board of Trade rooms following a meeting of the executive of the Board of Trade.

It is expected that the Board of Trade or possibly a joint committee will also have a business meeting with the ministers at which questions concerning the future of this port and its development will be discussed.

SILVER STANDARD SHIPPING STEADILY

Zinc and Lead Concentrates Being
Obtained to Extent of About
100 Tons a Month
Just Now.

W. G. Norrie-Lowenthal of the Silver Standard mine who is in the city today says that they are shipping about 100 tons of concentrates a month. This ore is zinc and lead. Besides that they are finding high-grade ore here and there which does not need concentrating.

They have just put two shifts to work at the mine and at present 35 men are engaged there. An effort will be made to continue the work all winter unless they should get frozen up.

Up to this time the mine has been in an experimental state but the concentrator is working well and they are shipping regularly.

Mr. Norrie-Lowenthal says that the Nine-Mile property which is owned locally and has been optioned to Toronto people is showing up well. They have been working there all summer with good results.

Wives and Families Still Much Underpaid.

The question of providing for the wives and families of soldiers overseas so that they may be in a position to live respectably and without having to deny themselves all the pleasures which ordinary people enjoy, is still being discussed in many quarters. There is a strong feeling in many quarters that the Patriotic Fund should be provided and administered by the Government and that the allowance from that source should be increased. There is also an agitation going on in the larger cities asking that the separation allowance be increased.

It matters little how the increase is made as long as the women and children get the money. Just now many of them find it almost impossible to live on the miserable pittance that is allowed them, and the results have in many cases been that women have been led to accept presents from men and thus lose their self respect.

No Argument Is Necessary.

It seems so foolish to try to argue on a question of this kind because on the face of it the need of increasing the allowance is so self evident. It was expected that the present Dominion Government would have moved in this matter long before now. They have been putting it off much too long and very soon they will find that their action will be very strongly resented.

There is nothing smacking of partyism about this movement. Liberals and Conservatives are agreed that there should be something done immediately. It is a matter which concerns the honor of the nation and should be attended to at once.

Picture Advertising For the Province.

The picture advertising of the Northwest by Frank B. Riley seems to be the most effective kind of work that could be done for the province. If he adds a few more northern scenes to his collection so that this district may get a little better share of the results, the set will be the most complete ever shown. Prince Rupert should benefit very considerably from this advertising, for people come this way going or coming and they spend a little money here as they pass through. As the city develops and is able to offer more attractions, many of the visitors will stop over here for a short time.

The Skeena valley should some day be a close rival of the Columbia with a great motor highway along its banks. In fact the Columbia has nothing to offer in the way of scenery as grand and majestic as is to be seen on the Skeena. When the highway goes up that valley, people will come from the ends of the earth just to take a drive that way. It seems a big undertaking, but things move fast these days and roads are becoming as necessary as railways. As Mr. Riley said last night, "the end of civilization is at the end of the road," and again, "only the rich can afford to have poor roads."

Ministers Are Coming Tomorrow.

The Minister of Public Works and the Minister of Colonization are expected to arrive in Prince Rupert tomorrow. Preparations are being made to give them a fitting reception and it is hoped that all the people will unite in making them welcome and in showing them something of our resources and our needs. They hold two of the most important positions in the Government and to them Prince Rupert must look for any Government aid that may be needed here.

LAND REGISTRY ACT. (Sections 36 and 134.)

Re Application No. 9768-1 & 9771-1.
TAKE NOTICE that application has been made to register Nathan Louis Lando and Dora Scheinman as owners in fee under two Tax Sale Deeds from the Collector of the City of Prince Rupert, bearing date the 24th day of November, 1917, of ALL AND SINGULAR that certain parcel or tract of land and premises situate, lying and being in the Municipality of the City of Prince Rupert, more particularly known and described as Lot eleven (11), Block twenty-five (25), Section seven (7), and Lot thirteen (13) Block thirty-five (35), Section eight (8), Map 923. You are required to contest the claim of the tax purchaser within 35 days from the date of the service of this notice (which may be effected by publication in the Daily News, and your attention is called to section 36 of the "Land Registry Act" with amendments, and to the following extract therefrom:—
"and in default of a caveat or certificate of its pendency being filed before the registration as owner of the person entitled under such tax sale, all persons so served with notice, and those claiming through or under them, and all persons claiming any interest in the land by virtue of any unregistered instrument, and all persons claiming any interest in the land by descent whose title is not registered under the provisions of this Act, shall be forever estopped and debarred from setting up any claim to or in respect of the land so sold for taxes, and the Registrar shall register the person entitled under such tax sale as owner of the land so sold for taxes."

AND WHEREAS application has been made for a Certificate of Indefeasible Title to the above-mentioned lands, in the name of Nathan Louis Lando and Dora Scheinman.

AND WHEREAS on investigating the title it appears that prior to the 12th day of October, 1916 (the date on which the said lands were sold for overdue taxes), you were the registered owner thereof.

FURTHER TAKE NOTICE that it is the same time I shall effect registration in pursuance of such application and issue a Certificate of Indefeasible Title to the said lands in the names of Nathan Louis Lando and Dora Scheinman unless you take and prosecute the proper proceedings to establish your claim, if any, to the said lands, or to prevent such proposed action on my part.

**TOMMY SAVES
EVERYTHING IN
BRITISH ARMY**All Scraps and Odd Pieces of
Everything Sent Back to be
Made Over.

There is a cry everywhere for the suppression of waste. It is pointed out that nearly everything can be made use of. Newspapers publish articles showing how hitherto despised things can be turned to some good. Housewives vie with each other in matters of economy.

Yet the most thrifty housewife, the most zealous "waste-not" expert, might take lessons from the army in this matter of unconsidered trifles. Salvage is a very big thing in the war. Every day the salvage dumps are added to, and every day things that the casual observer would describe as absolutely useless are being sent to the base to be made useful again. Not an odd bit of equipment, not the tongue of a belt or the buckle of a cross-strap, is allowed to lie about the trenches. Every N.C.O. is held responsible that his own particular part of the line is free from "salvage" stuff.

In a new line, after a push, it is amazing what an amount of salvage is to be found, both British and German. Rifles, bayonets, equipment, haversacks—everything is there more or less in profusion. That is inevitable. But every bit is salvaged, and sent back to be fashioned into new gear. Ammunition, too, is picked up, cleaned, put into clips, and issued again to the troops. There is no waste.

Along the roads behind the line you will find boxes labelled "old nails," "copper," and the like. No man passes an odd fragment without putting it into the box, and these boxes are systematically cleaned.

Fat is collected rigorously, and is delivered by the quartermaster once a month to the nearest railroad. Old boots, bits of harness, discarded clothing, even the soldier from empty "bully" tins is added to the general pile. All old newspapers are carefully kept and either sent to England or used to fill bayonet-fighting sacks. Boche rifles and equipment, clothing and harness are also garnered in. Nothing that can by any possible stretch of the imagination be turned into something useful is allowed to lie about. It has become second nature with the men to pick things up. Nothing they know is so badly damaged or worn as to be absolutely worthless.

The army, for all its critics have said, is the home of saving. Its salvage system is one of the most highly organized of its services. It can teach a real lesson in that direction to most civil authorities. It has accepted absolutely, as a commercial rather than a scientific fact, the dictum that Nature is indestructible.

**CANADA DOES MUCH TO
HELP WIN THE WAR**Shells and Explosives to Fill Them
Have Been Made in Large
Quantities.

Canada's contribution of 552,000 men, and her ability to maintain her strength on the front line, despite 160,000 casualties, are her chief source of pride. Yet at the same time she has provided her allies with large quantities of munitions during the four years of the war and is serving them today with steadily increasing effectiveness. What has been accomplished is summarized by the Director of Public Information as follows:—

Total number of shells produced, 60,000,000.

Approximate number of components represented by above, for which the Imperial Munitions Board has let separate contracts, 670,000,000.

In addition to the 60,000,000 of shells produced there have been a great number of components exported, such as forgings, cartridge cases, primers, copper bands, time and graze fuses, exploder containers, friction tubes, etc. In the production of this war material steel has been used to the amount of 1,800,000 tons. (About 75 per cent. of this steel is Canadian product.)

The quantity of high-grade explosives and propellants produced

has been 100,000,000 pounds.

Value of orders placed by the British Government through the Imperial Munitions Board, \$1,200,000,000, and the amount of orders already executed, \$1,000,000,000. (This figure represents the actual amount of cash disbursements.)

Amount furnished by Imperial Government for above purposes from sources outside of Canada, \$400,000,000.

Amount loaned to the Imperial Government by the Government of Canada and by the banks in Canada for the purposes of the Imperial Munitions Board, \$600,000,000.

The approximate number of contractors in Canada, amongst whom contracts for munitions have been distributed is 1,000.

Immediately after the outbreak of the war, the British Government enquired of the Canadian authorities as to the possibility of obtaining shells from Canada. Some of the leading manufacturers were interested in the matter and initial experiments were made, with the result that the first shipments took place in December, 1914—or three months after the inception of the undertaking. Before the close of 1915 orders to the extent of \$300,000,000 were placed in Canada and represented such a volume of business as to necessitate the formation of a Board in Canada directly responsible to the Imperial Ministry of Munitions. Under the direction of this Board the work involved has been organized and to its thoroughness is due the ability of Canadian industries to assist the United States Government substantially in providing for their overseas forces.

"The food crisis is grave and urgent beyond the possibility of exaggeration."—Sir Robert Borden**Help To Feed Yourself****Are you only a "destroyer of rations" when you might be a food producer?**

Every pound of food that can be grown in Canada and made available for export, will be desperately needed by those who are bearing the brunt of the fighting and the suffering.

The amount of food produced this year will be absolutely limited by the extent to which people in cities and towns become food producers—there is no other labor reserve.

WHERE DO YOU BELONG?**On the Farm?**

Thousands of men are urgently needed on farms in this province to make possible increased production of food. Those who could go and yet hold back, should not forget that, unless production is greatly increased, hundreds of thousands of people will die of starvation.

In the War Garden?

By growing vegetables in home gardens or on vacant lots, and thus helping to feed themselves, city and town people can leave the farmers free to grow more food for export. All that is produced in this way is gain and a net addition to the national food supply.

War Garden service is not sufficient for the man whose rightful place is on the farm. But the War Garden does offer an opportunity for tens of thousands of people, whose circumstances oblige them to remain in the city, to have at least a small part as food producers. Interest the boys and girls in the War Garden, for they too can help to grow food. If there is a garden or vacant lot movement in your community associate yourself with it. If no organization exists, do what you can to interest your neighbours in the War Garden campaign.

Write to your Provincial Department of Agriculture for additional information.

Notice—Military Service Act, 1917 Men Exempted As Farmers

Having in view the importance of leaving a sufficient number of men on those farms which are actually contributing to the national food supply, notice is hereby given as follows:

1. ALL MEMBERS OF CLASS 1 POSSESSING EXEMPTION AS FARMERS, which is expiring, and WHO WISH TO REMAIN EXEMPT, SHOULD communicate with the registrars under the Military Service Act OF THEIR RESPECTIVE DISTRICTS, REQUESTING AN EXTENSION IN TIME OF SUCH EXEMPTION. Questionnaires will thereupon be issued to these men by the registrar and they will receive further exemption upon furnishing satisfactory proof that they are contributing sufficiently to the national food supply.

2. In order to facilitate productive employment during the winter months, MEN EXEMPTED AS FARMERS SHOULD APPLY TO THE REGISTRARS FOR PERMITS TO ENGAGE FOR THE WINTER IN SOME OCCUPATION OF NATIONAL INTEREST, SUCH AS LUMBERING, MUNITION WORK, ETC. Such permits will serve to enable exempted farmers to pursue other useful occupations for the months during which farming operations cannot be carried on.

LAND REGISTRY ACT

(Section 36 and 134.)

Re Application No. 10118-1. File 5960.

TAKE NOTICE that application has been made to register Brenton G. Moore and Roy L. Moore of Prince Rupert, B. C. as owner in fee under a Tax Sale Deed from the Collector of the City of Prince Rupert, bearing date the 25th day of November, 1917, of ALL AND SINGULAR that certain parcel or tract of land and premises situate, lying and being in the Municipality of the City of Prince Rupert, more particularly known and described as Lot eighteen (18), Block eighteen (18), Section six (6), City of Prince Rupert, Map 923. You are required to contest the claim of the tax purchaser within 35 days from the date of the service of this notice (which may be effected by publication), and your attention is called to section 36 of the "Land Registry Act" with amendments, and to the following extract therefrom:—

"And in default of a caveat or certificate of its pendency being filed before the registration as owner of the person entitled under such tax sale, all persons so served with notice, and those claiming through or under them, and all persons claiming any interest in the land by virtue of any unregistered instrument, and all persons claiming any interest in the land by descent whose title is not registered under the provisions of this Act, shall be forever estopped and debarred from setting up any claim to or in respect of the land so sold for taxes, and the Registrar shall register the person entitled under such tax sale as owner of the land so sold for taxes."

AND WHEREAS application has been made for a Certificate of Indefeasible Title to the above-mentioned lands, in the name of Brenton G. Moore and Roy L. Moore.

AND WHEREAS on investigating the title it appears that prior to the 12th day of October, 1916 (the date on which the said lands were sold for overdue taxes), you were the assessed owners thereof.

FURTHER TAKE NOTICE that at the same time I shall effect registration in pursuance of such application and issue a Certificate of Indefeasible Title to the said lands in the name of the aforesaid parties unless you take and prosecute the proper proceedings to establish your claim, if any, to the said lands, or to prevent such proposed action on my part.

Dated at the Land Registry Office, Prince Rupert, B. C., this 6th day of September, A. D. 1918.

PRICES CURRENT IN CITY STORES TODAY

Many Lines Going Off the Market and Apples Coming in More Plentifully—Cranberries For Thanksgiving.

With the advancing of the season, many lines hitherto common on the market are beginning to disappear. Peaches, cantaloupes and corn are beginning to be scarce, and apples are coming in now in greater variety. The Gravensteins are about over, but Wealthies, Macintosh Reds, Jonathans and Kings are showing.

For the last few days there has been a great scarcity of bell peppers and egg plant. This is explained by the fact that in other years these lines have been mostly imported from the United States. But nowadays these things are debarred from import into Canada, thus throwing the onus for supplying the market upon the Canadian growers, who have not previously grown these lines extensively.

Large shipments of Italian prune plums are expected in tomorrow which, selling at \$1.35 per crate, ought to go well. Quinces are coming in and lemons are down a little in price at 50c. Crabapples are offering at \$3 per box. This is between seasons for grape fruit, and the first of the new season's crop is expected any day now. Sweet potatoes are still plentiful and the first of the cranberries are expected on tomorrow's steamer.

Among the special lines being shown in the grocers' shops is Overseas butter, specially put up in tins for despatch to Europe, where there is a distinct scarcity. These are selling at 50c. and \$1 for ½ and 1-lb. tins.

Prices this morning average as follows:

Fish.	
Salmon, fresh, per lb.	25c
Cod, salt, Alaska.	15c

TANK CHASES A GERMAN OFFICER

Also Officer Chases a Tank Asking To Be Taken Prisoner—Odd Yarns of Prison Camps.

The story was told a little while ago of a tank chasing a dignified Prussian officer down the road in his pyjamas. Now this is another story of a dignified Prussian officer chasing a tank. But with a bloodthirsty purpose in his mind. Quite the contrary. He wanted to surrender, and the tank was too busy to bother about him; so he pursued it, shouting the German for "Hi!" just as if it were a motor omnibus—and just as if it were a motor omnibus it refused to take any notice of him, and went on its way serenely, to his great indignation. It was most disrespectful of a British tank to treat a high-born Prussian officer so.

More Sensible.
But there was another German officer, perhaps not a Prussian, who was much more sensible about the whole business. He was seen wandering about the battlefield with a little black bag in his hand, and, as he seemed harmless, a patrol approached him and asked him what he was doing. In good English he begged to be directed to the nearest Prisoners' Rest, and explained that he had brought his week end luggage with him.

A third officer, of the 214th Division, had a different experience. He had ordered his men to attack, but they refused. Having threatened without effect, he drew his revolver and shot ten of them.

LOCAL MAN COMES FROM SCENE OF FIGHT

Sam Antous of the Prince Rupert Hotel Formerly Lived in Town Captured Yesterday.

The special dispatches to The News yesterday told of the taking by the British of the junction of the Hedjas Railway and the line from Beyrout. This town which was not named in the dispatches is Zahle. It is in Syria in the province of Mount Lebanon and is about half way between Damascus and Beyrout. An interesting connection with this town is that it is the old home of Sam Antous of the Prince Rupert Hotel staff. He says that the town has about ten thousand inhabitants and is in a valley among the mountains. They have good roads, stone houses, and other things which make for modern civilization. The soil in the neighborhood is very fertile and grapes and olives are the chief products. The grapes are mostly exported ripe to Egypt and many of the olives are used for the manufacture of olive oil. There are also rich mines in the district.

Before the war the town was independent, its independence being guaranteed by seven of the great powers. He left there about a year before war broke out, and many of his people are there yet. Naturally he is very anxious to hear from his folks as, during the fighting that is going on, they are in considerable danger, especially in view of the fact that they are like the other inhabitants all strongly pro-Allied.

to encourage the others. But, oddly enough the others were still not discouraged; whereupon, in utter despair as to what a good German should do next, he surrendered.

All these, and many other types of the German army are now in the British cages. Old feuds between Bavarians and Prussians break out behind the wire, and men from Baden talk bitterly of the "Prussian blight," and speak of their hopes of a Baden republic after the war. Those of higher rank are not afraid to express their admiration of Foch's strategy; it is only the gentlemen in the German newspapers, far from the battle, who belittle it. But even the newspapers are recognizing slowly that they cannot now win the war. A few more weeks like the last one may convince them that it is even possible for them to lose it.

SYNOPSIS OF LAND ACT AMENDMENT

Pre-emption now confined to surveyed lands only.
Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.
Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions, with joint residence, but each making necessary improvements on respective claims.
Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.
Where a pre-emptor in occupation not less than 5 years, and has made proportionate improvements, he may, because of health or other cause, be granted intermediate certificate of improvement and transfer his claim.
Records without permanent residence may be issued provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained on these claims in less than 5 years, with improvements of \$10 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years.
Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.
Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads; title to be obtained after fulfilling residential and improvement conditions.
For grazing and industrial purposes, areas exceeding 640 acres may be leased by one person or company.
PRE-EMPTORS' FREE GRANTS ACT.
The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor are extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.
TOWNSITE PROPERTY ALLOTMENT ACT.
Provision is made for the grant to persons holding uncompleted Agreements to Purchase from the Crown of such proportion of the land, if divisible, as the payments already made will cover in proportion to the sale price of the whole parcel. Two or more persons holding such Agreements may group their interests and apply for a proportionate allotment jointly. If it is not considered advisable to divide the land covered by an application for a proportionate allotment, an allotment of land of equal value selected from available Crown lands in the locality may be made. These allotments are conditional upon payment of all taxes due the Crown or to any municipality. The rights of persons to whom the purchase from the Crown has been agreed to, as also protected. The decision of the Minister of Lands in respect to the adjustment of a proportionate allotment is final. The time for making application for these allotments is limited to the 1st day of May, 1919. Any application made after this date will not be considered. These allotments apply to town lots and lands of the Crown sold at public auction.
For information apply to any Provincial Government Agent or to
G. R. NADEN,
Deputy Minister of Lands,
Victoria, B. C.

Say NO!

"You might as well have it," whispers temptation, but your Canadian Patriotism says "No!"

THE tempting suggestions of selfishness meet no response from a patriot.

For he knows that selfishness and self-indulgence are just now the allies of the Hun—they fight on Germany's side against Canada.

When the devil-whisper says "You might as well have it," every true Canadian answers "No!"

Except for the bare necessities of life, we should not be spending five cents a day.

For every expenditure we make on things not absolutely necessary directly affects the fighting strength of Canada and her allies.

The materials that go into the making of things you can do without are needed for our soldiers overseas.

Many of those materials which enter into our unnecessary purchases are brought from other countries and occupy

precious space in ships; space sorely needed for those cargoes which can be used for the winning of the war.

The labor that fashions the things we unnecessarily use is labor which could and would be employed to real advantage in the production of war necessities.

Knowing all this, how dare you divert a single unnecessary dollar from your country's war effort!

The shame that must inevitably follow your every self-indulgence, at so grave a time, will be your fitting punishment—if you persist in buying the things you merely want and do not need.

Resist indulgence, cultivate thrift—for thrift is an evidence of patriotism.

And the money you save by thrift will be yours to lend to your country whenever the call comes.

Two Questions

With so many low-priced so-called anti-skids obtainable, would that great host of motorists pay more for Dunlop "Traction" Tread if they could get its merits elsewhere?

Also, would that other large list of car owners buy — "SPECIAL" — if tires which somewhat resemble it in appearance resembled it in efficiency?

"DODGING A MILLION"
AT THE WESTHOLME

The great photoplay "Dodging a Million" to be screened at the Westholme Theatre this evening, with Mabel Normand in the stellar role, is a photoplay of unusual character. Probably nothing precisely like it has ever been shown on the screen. It is a mystery story, and yet has neither a murder nor detective in it. It is thoroughly clean. It has lots of laughter. It has thrills. It has clothes—gowns of the latest design shown under the best conditions. It has beautiful women. It has a romance. It is, in more senses than one the play that has everything. In addition, there will also be an Official British Gazette showing the latest pictures from the British front in Flanders and France.

You Never Know What A Man Will Do

Mrs. Williams has been using Pacific Milk for cooking a long, long time. Her husband got to using it in his morning coffee, so they never buy fresh milk any more.

The other evening Mrs. W. bought some fresh cream to give him a treat (as she thought) with his porridge and to use with his coffee.

However, Mr. Williams didn't short a night waiter. Misfortune see it that way and when he number two. So Ben had to work discovered it was a different himself at both jobs. Misfortune cream in the pitcher, he asked number three. What troubled for the same as he'd been get. Ben was whose was the greatest thing every morning—couldn't misfortune.
