ATLIN TRIP IS VERY FINE ONE

Rivals Trips to Dawson in Popularity and is Superior in Many Ways.

W. H. MacInnes, provincial civil service commissioner, who is making a tour of inspection of the various offices in the North, returned last night on the Comoxin from Atlin and Alice Arm, which places he visited in connection with his departmental duties. Mr. MacInnes expects to visit Smithers before returning south on Sunday night. He arrived here from Atlin on the Princess Alice last Saturday afternoon.

Mr. MacInnes says that the trip to Atlin is becoming increasingly popular, some with tourists who are flocking there this season. As a purely enjoyable scenic and holiday trip it is superior to the voyage down the Yukon River. The time at Atlin can be easily spent in fishing, mountain climbing and sight seeing. There is every accommodation for the comfort of the tourists at the Atlin Inn, Atlin. The trip can be made between boats in one week's time from Skagway, going up the White Pass Railway to Garveross and by boat from there up the Tagish and Atlin Lakes to Atlin. There is everything to see at Atlin that there is at Dawson and the scenery is better. The fox farming and placer mining operations are highly interesting. The complete process of the latter can be seen at Atlin. A complimentary trip of five hours on Atlin Lake is given to all tourists. For Prince Rupert people, Mr. MacInnes says, this should prove the ideal holiday trip.

The state has rested its case.

Former Superintendent of Education Under Fire and Government Asked To Act

VICTORIA, July 27.—The School Board at a meeting last night resolved to ask the Council of Public Instruction to certify to the inefficiency of the principal of the High School in this city, Dr. Alexander Robinson, formerly superintendent of education. The council of Public Instruction is the provincial cabinet.

The results of the recent examinations showed that there was something radically wrong in the school and there has been a good deal of friction throughout the year between teachers and the principal. At the request of the teachers an investigation was held by the department of education and both the principal and some of the teachers were blamed for the unsatisfactory condition. This was followed by a request by the board for Dr. Robinson's resignation but he refused to go as it is contrary to the Education Act to change teachers except at the end of the half year. If the Council of Public Instruction certifies to inefficiency he can be dismissed.

A separate meeting of parents of pupils attending the school was held last night and urged the dismissal of all inefficient teachers and also protested at the holding of so called pitney dances at the High School. A Parents' Association was formed to bring about closer relations between the schools and parents.

**Give Pulp Mill
 Every Encouragement.**

The City Council has decided to pass the necessary bylaw giving the Prince Rupert Pulp and Paper Company all the unused water they require. To have done otherwise would have been to have played the dog in the manger. If we can get that industry under construction this coming winter it will help to carry the city along after the ships are completed.

The citizens generally seem anxious to see the mill built, and we cannot understand why any reasonable request of the company should not be met.

**Congratulations to
 Winner of Medal.**

The Daily News tenders its congratulations to Reid McLennan and his parents on the winning of the Governor's Medal, Reid being the best student in his grade in the northern part of the province. It is a great thing to have such success as that. It is to be hoped that it will be an incentive both to the lad and to others to study hard, to win distinction in their respective callings and to get the most possible out of life. The lads who are growing up will soon be the leaders in the community, and to them we shall have to look to give the right impetus to others.

**Little Pamphlets
 For the Sailor.**

The department of health at Ottawa has just issued some little pamphlets for the guidance of sailors and also for captains and surgeons of ships in connection with venereal diseases. We are asked by the department to mention that free copies of the leaflet may be obtained from the collector of customs at any port in Canada. We should like to add that the leaflets convey valuable advice and should be distributed by the skipper of every ship.

**Daily Newspaper
 Advertising Best.**

People have the habit of looking to the daily newspapers when they want to buy or sell anything. If a person needs a city lot, a boarding house, some second-hand furniture, a house to rent or anything else, he looks to the newspapers to provide him with the information as to where they can be purchased. In a live town it is in the newspapers they find it.

Prince Rupert is a live town, and the housewives and others look to the newspapers for their information. There are still a few business houses do not yet realize it, however. They are in the minority and are themselves the losers for their lack of business acumen. Some of the stores that advertised were full to overflowing on Saturday night. Why? Because they were selling good values and they let the people know about it through the newspaper.

As one expert puts it, "The daily newspaper is the medium of the moment, the axis of opportunity, flexible, powerful and instantaneous in its ability to create sales."

**War and Divorce
 In Old Country.**

One of the aftermaths of the war was an enormous increase in the number of divorcees, especially in the Old Country, but also to a certain extent in Canada. It is somewhat difficult and expensive to get a divorce in England, yet the number of separations of this kind doubled in a few years. In 1914 the number of divorcees in the United Kingdom was 1348, while for 1919, the latest figures available, it had jumped to 5763. In nearly half the cases the divorce was to a large extent the result of a childless marriage.

In these days when there is matrimonial infelicity people look to divorce as a cure, whereas in the old days they made the best of a bad job and carried on, husband and wife living a cat and dog life. It is doubtful if the divorce court record is a sign of moral decadence. It is a sign of a different attitude toward life, whether for better or for-worse only time will tell.

One day while lying in bed, I read about "Fruit-a-lives" the great fruit medicine; and it seemed just what I needed, so I decided to try it. **DOG ARRIVES
 FROM ENGLAND**

**Highly Bred Scotch Terrier Im-
 ported By A. Greenwood, of
 This City.**

Sunday night's train brought in another imported dog for A. Greenwood, the local fancier. It is a one year old black brindle Scotch terrier and was sired by Champion Albion Bottle, who is said to be the best dog living. The latter has beaten every dog of his class in the Old Country and was sold by Mr. Cowley, of Harpende, Sussex, England, to an American dog fancier last December. He won the championship at the New York Dog Show and has beaten every Scotch terrier in the United States.

Mr. Greenwood will send his dog to Vancouver to be shown at all the Fall Fairs along with other dogs he already has there. An Airedale and Wire Fox Terrier, which were shown by Mr. Greenwood at Seattle, Vancouver and Victoria on the spring circuits, won several first prizes, three champions and never dropped lower than the reserves for that honor.

Well Looked After.

"How much does it cost to bring a dog from England?" Mr. Greenwood is now able to answer that question. It cost him \$60 to bring this dog from Liverpool to Prince Rupert. The dogs are well looked after by the butchers on the boats and in his sixteen years experience in bringing dogs to this country, Mr. Greenwood has never had one arrive in poor condition. On the train journey, the dogs are well attended to by the express messengers.

**SEA DOGS BOTHER
 FISHERMEN ON COAST
 OF NEW BRUNSWICK**

CHATHAM, N. B., July 27.—Fishermen along the Miramichi River are complaining bitterly this season of the presence of sea dogs in large numbers in the river waters. In the early part of the year the port and shores of St. John were infested with the animals—they established a maternity home in the St. John River above the falls and many pups were born, but the pest has declined recently. In the northern waters of the Province it has, on the other hand, increased to alarming proportions.

The "dogs" like salmon in preference to all other fish. Recently a fisherman visiting his weir in the morning secured only half a dozen good fish while there were over twenty heads in the trap. As the fish are worth a couple of dollars each, the loss in this particular case was quite appreciable. Similar losses incurred by Miramichi fishermen amount in the aggregate to a considerable sum and it is likely that an appeal will be made to the Government to take some action to prevent the depredations of the seals. It has been suggested that they can best be got rid of by dynamiting the grounds where they are in the habit of sunning themselves. If they are shot in the water, they sink at once, and the whole carcass, which is poor in skin but rich in oil, is lost.

**Ten Years Ago
 in Prince Rupert**

July 27, 1911.
 H. M. Lever had a chilly plunge into the waters of the harbor yesterday afternoon when his bull terrier became entangled in some seaweed at Digby Island and he swam to its rescue.

E. C. Coal's, a Calcutta newspaper man, is visiting the city and today purchased the double corner at Third Avenue and First Street for \$15,000. He intends to build two houses on the property.

Two months out from Glasgow, the new Grand Trunk Pacific steamer Prince John docked at Victoria this morning.

CANCELLATION OF RESERVE.

 Commencing at a point on the West coast of the Island at the mouth of Bull Creek (thence following the western boundary of the Esquimalt and Nanaimo Railway Belt to the southeasterly corner of the Strathcona Park reserve) thence west following the south boundary of the said reserve to its south-west corner, thence north following the western boundary of the said reserve to its north-east corner, thence west along the south boundary of Sayward and Rupert districts to the westerly boundary thereof, thence north following the westerly boundary of the watershed of said Skeena River, Skeena Lake and Skeena River to the south boundary of Township 3 Rupert district, thence west along the south boundary of Township 3, 4, 5 and 6 Rupert district, thence north following the western boundary of the said reserve to the Pacific coast, and including all the reserves and lands covered by water adjacent to the East Coast of Vancouver Island, together with all lands lying between the boundary of the Province south of the 51st parallel of north latitude and Vancouver Island and all the lands within the boundaries of the districts of Omineca, Metobasin, Esquimalt, Victoria, Lake and North and South Saanich, Sooke and Highland.
 The cancellation of this reserve shall not take effect and staking for coal shall not be lawful until notice of such cancellation is published for sixty (60) days in the British Columbia Gazette and in a newspaper published or circulating in each of the Land Registration Districts of the Province of B. MUSKEGS OF NORTH BEING SURVEYED

EDMONTON, July 27.—With a view to finding the agricultural possibilities of the muskegs of the north, a survey will be made this summer by a party of federal departmental agricultural experts. The various districts affected will be visited and particular attention will be paid to the Sawridge district. The question of developing the large areas of muskegs will be fully investigated and following their report it is expected that experimental work will be carried on in a large scale, with a resultant benefit to Northern Alberta.

If the experiments carried out prove to be as favorable as anticipated, several rich areas will be opened to agriculturalists, and the result will undoubtedly prove of great value to the agricultural industry of Alberta as a whole, and to the farmers of northern Alberta in particular.

Mrs. Jack Barnsley sailed last night on the Camosun for Vancouver where she will spend a few weeks visiting.

SPECULATION or INVESTING

Which do you follow? In mining, oil and new industrial stocks the profits are big on paper, but you seldom get them, and generally lose your capital, with nothing to show but a nice certificate with a large seal. Your best investment is in good Government and Municipal Bonds; the return may be low, but it is sure. Your best buy today is Victory Bonds to net 6%. We also have four £100 5% bonds at \$373, par value \$486. As British exchange advances you reap the benefit. About the first we recommended C. P. R. at \$115; today it is \$128.75. LIVESTOCK FOR EXHIBITION AT PRINCE RUPERT

Northern B. C. Agricultural and Association Asking Co-operation Interior Farmers.

The Northern B. C. Agricultural and Industrial Association is taking steps to bring a carload of registered pure bred livestock from the Bulkley Valley for exhibit at the Fall Fair this year. The matter was discussed at the meeting of the directors last night and a letter from the Department of Agriculture suggesting the exhibit was read. The Association may pay the transportation charges if such an exhibit can be obtained.

Commercial booths this year give promise of being larger and more representative than any in the past. Already some big outside firms are in communication with the board on the matter with the intention of advertising their goods in this way.

Another leaf insert is to be made to the prize list which will include the Pattullo prize for exhibit of garden vegetables and the prize offered of the W. Allee Burpee Seed Co. and the Perry Seed Co.

Grounds Improvements.
As a result of the Hayseed Dance held a couple of months ago, it was announced that there was a sum of nearly \$1,000 available for improvement of the grounds. This will be spent in providing accommodation for outside booths, all concessions this year being centred at Acropolis Hill near the Agricultural Hall.

The Sports Committee is working hard on the securing of attractions but what form these will take has not yet been definitely decided. The committee is loath to make advance announcements in this regard on account of the failure of the seaplane, which was to have been here, to arrive although Lieutenant Brown made such a bold but unfortunate attempt to get to Prince Rupert last fall.

Interior Co-operation.
The Association, this year, is making great endeavor to secure the co-operation of the interior in making the fair an outstanding success. This necessity is more and more realized every day and strong representations are being made to the farmers of the Bulkley and other valleys to assist by sending exhibits. The securing of a live stock exhibit will be a step in this direction.

The unemployed carpenters, whose number had been reduced until a fairly large percentage of them were working, have had a considerable increase to their ranks from the hydro development scheme at Chippewa, where men were recently discharged, and from other out-of-town jobs.

The Man in the Moon SAYS:-

ONE of the things that do not get you anywhere is going to sleep in a box car on a railway siding.

ANOTHER thing that does not get you far is learning to swim on the piano stool and not going near the water.

As a contemporary says its a great world. Our grandmothers rolled up their sleeves and our granddaughters roll down their stockings.

A CORRESPONDENT wants to know if we think Bob Edwards and Nellie McClung will sit side by side in the Alberta legislature. No, Nellie might glance over some of the pages of the summer annual if she got that near.

THE finest garment a woman can wear is the mantle of charity. That's what some of them seem to think, apparently.

MEN should beware how they deceive their wives. Recently a husband bought a new Panama hat and told his wife it cost three dollars. An bid clothes buyer came around and offered his wife five dollars for it and she sold it to get the two dollars profit.

SOMEONE discussing the last boat home says sometimes its a moonlight boat and sometimes a spoonlight.

AMONG the things that don't get you anywhere is sitting down and wishing someone would invite you to go for a picnic.

BIGGEST RAFT EVER TOWED IN NORTH WAS TAKEN TO OCEAN FALLS

Tug Lorne arrived back yesterday from Ocean Falls after towing from here a raft containing two and a half million feet of logs.

This was the biggest raft ever towed by one tug in the North for pulp purposes. The logs were some selected by the Prince Rupert Lumber Co. from their cut at Shannon Bay for pulp purposes which were not disposed of but were stored in the fresh water at Silver Creek.

The raft was composed of a Davis raft of 750,000 feet and about fifty sections flat. Reports from Ocean Falls indicate that at present there are twenty million feet of logs on

PROSPECTORS SEARCH FOR ELDORADO, BUT FAIL TO LOCATE IT

ST. JOHN, N. B. July 27.—From Victoria County comes the story of gold-hunters swarming over the country drained by the Wapshie River and panning the sands of the stream in search of the yellow metal. Prospectors are there from all parts of Canada and the United States; the most experienced miners of the continent are seeking to find gold that has been vainly sought for many years.

The Gibertson lode is what they are looking for. The story of that gold has been a favorite in New Brunswick for years and many a legend has centred about the lost lode.

As the tale goes a timber cruiser took a canoe party up the Wapshie sixty years ago to look over the woods on the upper waters. They passed a landing known as Gibertson's now, and some distance further on Gibertson went ashore and ordered the men with him to return to the landing. When he turned up again within two hours he had in his hand a glittering rock which he tossed into the canoe with the remark: "If that's gold, I can load a tow boat with it." The rock was brought to the settlement and for three years it served to keep a door open.

One day a stranger, a geologist, appeared on the scene and took notice of the door weight. He said it was filled with gold, and it is claimed that he dug

enough nuggets out of the rock to make a ring for himself. The story spread through the district like wildfire, but Gibertson refused to tell where he had picked up the rock. Later he became insane and died without revealing the golden secret.

Since that time many expeditions have been formed to search for the vein, but no one has been able to locate it. This season a systematic search is being conducted and borings and panning are being made extensively. The searchers claim to have made discoveries that indicate the presence in the district of large quantities of gold, but so far the location of the Gibertson lode remains a mystery.

THINK GOVERNMENT OF MEIGHEN DOOMED

Member for Three Rivers, Quebec Says Alberta Election Points Way.

WINNIPEG, July 27.—A federal election this fall is practically a certainty, and the signs of the times point to the defeat of the Meighen government, according to Jacques Bureau, member for Three Rivers, Quebec, a guest at the Royal Alexandra hotel. Mr. Bureau, accompanied by his wife has been visiting relatives at Paradise Hill, Saskatchewan, and before leaving for the east will visit French settlements to the south of Winnipeg.

"The overthrow of the Stewart government in Alberta is a plain indication of what will happen to the present administration at Ottawa," said Mr. Bureau. "The people in Alberta had nothing against Premier Stewart. But they decided it was time for a change. Hon. Frank Oliver told me two weeks ago, when I was in Edmonton, that Stewart's government would be defeated."

He declared that the Meighen government should have gone to the country some time ago, and with the result of the Medicine Hat by-election, and the sweeping victories of the farmers in Alberta, he did not see how the evil day could be postponed any longer. When it was pointed out that Premier Meighen might have to stay in London until August 4 as a result of recent developments at the conference of Premiers, he shrugged his shoulders and replied that the political machine would have to prepare for the election.

Prohibition in Quebec.
When asked concerning the probability of Quebec entering the list of provinces who have determined in favor of prohibition, he declared the disposition of the French people would not permit this state of affairs to come to pass. Provincial laws concerning voting on prohibition are so different there that a municipality or a county might vote in favor of prohibition and in two years be permitted to again express an opinion. Crops are looking fine in northern Saskatchewan, he said, the district in which his relatives live expecting to get 40 to 45 bushels an acre from their wheat lands.

Just Enough.
"Was there much of a gathering to see the ship start?" asked Col. Edwards, whose servant had been down to the wharf. "Yassuh. Dey was a most'ous lot o' folk."

"And was the crowd tumultuous or quiet?"

"Well, sah," replied Mose, doubtfully, "dey wasn't zackly too multitudes, I shouldn't say. Nossuh, dey was just about multitudes enough fo' de occasion." —American Legion Weekly.

Many people read newspapers as much for their advertising columns as they do for news.

EGGS SELL HIGHER EDMONTON MARKET

Retail Now at From 40 to 45 Cents a Dozen. Dairy Butter 35c to 40c.

EDMONTON, July 27.—Eggs are selling at from 40c to 45c per dozen on the Rice Street Market, an increase of 5 c per dozen over the previous week. The price of eggs has been on the gradual incline for the past month and although it has increased from 25c to 45c, the demand is quite equal to the supply and some of the dealers are of the opinion that the price is not likely to go down for some time. Dairy butter has also increased in price and was selling at from 35c to 40c per pound depending upon the quality. This is an increase of 5c per pound over last week.

Roots were offered in large quantities and as usual at this season of the year are on the gradual decline. Beets, carrots, radishes, turnips and onions were selling at 5c per bunch. Some of the dealers in order to clean up were selling radishes at three bunches for 10c. New potatoes were offered by a dozen or more dealers and at prices ranging from five to six cents for 25c were in fairly good demand. Old potatoes, were offered by four or five dealers and in small quantities were in very good demand, selling for as high as 75c per bushel.

Think of all the prominent firms whose products you see in the stores and ten chances to one every firm will be a daily newspaper advertiser. They know it.
