ORANGE LODGE SAYS IT WILL FIGHT FOR LIFE AND LIBERTY

EDITORIAL

CABINET POSITION

Says the Portland Canal News: The Dominion election is over. The results are known. The people have expressed their wish. The fight was lost and won, with its disappointments and misgivings on the one hand, and satisfaction and jubilation on the other. The game was played, the game was clean, the contest was fair. Therefore let every man live up to his British standards of sportsmanship and wish to the victors success. More than this, let every member of the constituency put his shoulder to the wheel and boost in every possible way for Fred Stork of Skeena to be included in Mackenzie King's cabinet.

This province has for years, both under Sir Wilfrid Laurier, and later, Sir Robert Borden, been represented in the Dominion cabinet; therefore it is reasonable to suppose that there will be in the next cabinet a member from British Columbia. Fred Stork is the logical man for such a position, for not only is he head and shoulders above his colleagues, but he also has had more experience in the public life of this province. In addition to this no man has extended him as a supporter of his party. One time mayor of Fernie and later of Prince Rupert, he has proved himself not only a leader but a man of executive ability, both in public and in private life as a successful man.

British Columbia is entitled to a cabinet minister. The coast and northern sections, being new, need a lot of attention, and no one can serve them better than a man who knows them as Mr. Stork does. Therefore, Stork is the logical man. Get behind him and boost, regardless of party affiliations. The good of the country comes first.

Pressure Brought Bear on Delegates Peace Conference

DUBLIN, Dec. 20.—The opening session of the Dail Eireann was featured by the address of Michael Collins justifying the treaty and his own support of it. He believed it was the best the Irish could get and emphasized that Ireland's position would be as independent as Canada's, with the assistance of the Dominions always available to prevent infringement of Ireland's rights.

Another feature of the day's debate, during which de Valera, Arthur Griffith, Collins, McBride and several minor members spoke, was R. C. Barton's assertion that he signed the treaty under compulsion. Barton, who was one of the Irish delegates to the British conference said Lloyd George insisted on the immediate signing although Arthur Griffith pleaded that the treaty be referred to Dail Eireann first. Lloyd George said the delegates must either sign or war would be resumed. Barton asserted he signed as the lesser of two outrages.

At the conclusion of his address Barton was loudly cheered and it is believed his speech will have a great influence on the Dail's decision.

Moving for Vote.

DUBLIN, Dec. 20.—It was announced this morning that Arthur Griffith, head of the Sinn Fein delegation which signed the Anglo-Irish treaty, would move in the Dail Eireann today for a vote on the question of approving the treaty and that de Valera would move its disapproval. The session opened at 11:30 a.m.

LONDON, Dec. 20.—The first day of the public debate in Dail Eireann on the Griffith motion to ratify the Irish peace treaty made a somewhat unfavorable impression on the majority of English correspondents in Dublin, their despatches indicate, but none of them takes the view that the treaty will be rejected.

ORGANIZED UNEMPLOYED

Double Rations Demanded by Out of Work Army in London.

LONDON, Dec. 20.—London's unemployed who recently secured higher maintenance grants from local authorities are now making supplementary demands for extra allowances for Christmas. Most of the local unemployed are demanding double rations, which the authorities have rejected and also love for the children, which in some cases have been granted.

ALASKA AND ROUTE OF FISH BY THIS PORT

There was some misunderstanding in regard to an interview given by E. A. Wakefield, American consul here, after his recent visit to Ketchikan. The interview was given over the telephone and the instrument was not working well that day. Apparently Mr. Wakefield did not say this was the natural port but the natural route for the shipment of Alaska fish, and The Daily News did not at that time understand the important difference between the two. Governor Bone made no mention of Prince Rupert except as having visited here, and Collector of Customs Garfield said: "The northern Canadian railway, having its western terminus at Prince Rupert, provides a natural route for fresh fish from Alaska destined to the eastern markets, thus extending the field of fishery operations two days travel to the westward of Southeastern Alaskan points with equal transportation time to those markets as formerly taken."

SEATTLE WON HOCKEY GAME

Got Better of Vancouver in League Fixture at Arena Last Night.

VANCOUVER, Dec. 20. Seattle defeated Vancouver by a score of two goals to one last night in the match played here at the Arena. Foyston scored both goals for Seattle, staging a brilliant game. McKay made the notch for Vancouver in the third period when there was a rally of the local men from the secondary play of the first two periods. The rally came too late for victory, as the Millionaires were unable to get more than the one goal and as a result Seattle goes up one in the Pacific Coast Hockey League.

WASHINGTON, Dec. 20.—The British delegation formally asked for a plenary session of the arms conference to be held this week in order that Britain might present its case for the abolition of submarines.

The spokesman on behalf of the British delegation, discussing the submarine tonnage, declared that unless an agreement was reached on that phase of the question all that had been accomplished toward naval limitation might be upset.

RECITAL AT THE CONVENT

Pupils of St. Joseph's Academy Give Fine Entertainment.

Last evening at St. Joseph's Convent a high class musical entertainment was rendered by the pupils. The affair was also made the occasion for the awarding of diplomas, honor rolls and certificates to deserving students.

The rendition of classical music by the best masters from Gurlitt to Beethoven was offered by children from tots of 8 to those of 12 and 14, in a manner that did them and their instructors great credit. Special mention might be made of the accomplishments of Miss Agnes Grafton and Miss Vera Shockley whose rendering of Liezhetzki's "The Two Larks" and Liszt's "Love Dream" was excellent. Miss Dorothy Thompson appeared in a class by herself and her masterly effect in Beethoven's Sonata was a work of art.

There was a full attendance of parents and friends and all went away pleased with the entertainment with which they had been presented. Rev. Father McGrath made a few appropriate closing remarks.

BELFAST, Dec. 20. The Irish Grand Orange Lodge issued an address to the members of the order declaring that if the Irish Free State is set up Loyalists will be compelled to defend their lives and liberties by force. Why Not Sell All City Lots?

Prince Rupert, like a great many other cities, has on hand a great many city lots of doubtful value which have been surrendered by the owners rather than continue to pay taxes on them. In most cases the tax delinquency commenced during hard times and the owners have never been able to catch up with their payments. The lots have been offered for sale at public auction and were bought in because the amount offered was not equal to the amount of the taxes against them.

The result of the city holding this property is that the lots do not pay taxes and the amount has to be made up by the other taxpayers in the city. The city is becoming a fairly large property owner and like private owners is learning what it is to be property poor.

If the lots were sold for what they would fetch regardless of the amount against them for taxes, the new owners would commence paying taxes at once and the city would be getting an income, thus relieving other taxpayers. The best possible time might be chosen to hold the sale so that the city would get the best possible price, but it seems as if it would be better to sell at any price than to hold in the hope that some day a purchaser will be found.

Pleasure Hunting Not a Pleasure.

There are not many people in Prince Rupert who go hunting for pleasure except during a short holiday. Most of us are working and we take a great deal of pleasure from our work or should do so. There are a few who find the evenings long and dreary from lack of occupation, and some see the world all awry because the vision becomes distorted from introspection and idleness.

Looking for pleasure is like looking for a needle in a bundle of hay. It is there, but the finding is difficult. It is only by having some aim or object in view that we enjoy life. That is true either of work or recreation. To be a mere automaton in work is monotonous in the extreme. There has to be something more to it than the drawing of the wage cheque or else life is a dismal failure.

So it is in seeking for pleasure. There must be some definite aim if the best results are to be obtained. To take a holiday without having in view some educational or other object is futile. The holiday becomes as dreary as the work of an automaton. We must work for something and even our play must have an object in view if it is to be satisfactory.

Superstitions of Our Forefathers.

Our forefathers were very superstitious. When they could not understand anything they ascribed it to the supernatural. Now we know there is no supernatural. Everything is natural and there is cause and effect in everything. There are still a good many things we do not understand, and a few of us still lapse into the old state temporarily, and yet we know, for our reason tells us, that nature is supreme and that the Ruler of the universe does not have whims and fancies and play with the immutable laws which He has established. If a person sees a ghost it is certain that it is a natural ghost, a scientific ghost, a ghost that follows the laws of nature just as much as we do when we appease our appetites or converse with our fellows.

When we hear of wonderful feats of hypnotism, of thought-reading, of thought-transference or other phenomena bordering on the occult, there is no reason to believe that any of these powers, if they are real, are anything but natural powers although they may not be possessed by all.

We could not think much of a workman who in carrying out a scheme were to interfere with the working of that scheme by freakish changes or by manipulations designed to show that he was the controller of the plan. So in the universe we could not think much of the power that would interfere with his own laws and set them at naught. Superstition usually goes with extreme ignorance. To go a step further, it might be said that superstition is a sign of ignorance.

Look for Good Municipal Candidates.

This is the time to look for good municipal candidates. It is useless to complain during the year of the city council not doing its duty. If there is to a successful year in 1922 there must be the very best council obtainable, and in order to get that there must be good men put in nomination.

There are always a lot of people who are anxious to put themselves forward, and often the best men are reluctant about offering their services unless they are asked to do so. On that account citizens who find it impossible to become candidates themselves should see which of their neighbors would be likely to make good material and see that they are nominated.

He says he will put a stop to railway companies exploiting private lands in violation of their solemn agreements. The order by the railway board is a sweeping victory for Bob Kelly, of Vancouver.

LENIN GIVES DIRECT TALK

Says Useless Communists Should Be Expelled and Bribery Put Down.

RIGA, Latvia, Dec. 20.—Russian peasants and laborers, tired of promises of a communist Utopia, have come to the "show me" stage, Premier Nikolai Lenin said in a recent speech before a congress of political educational workers at Moscow.

The full text of the sensational speech, parts of which relating to Lenin's admissions of economic failure were cabled from Moscow at the time it was delivered, has just reached Riga as reported by the official Moscow Pravda.

"There was a time," Lenin said, "when declarations, proclamations, decrees, etc., were necessary. We have had plenty of these. There was a time when it was necessary to show the people what we wanted to build. But can we continue to show and only tell the people what we want to build? No. Even the simplest laborer will then scoff at us, saying: 'You are always talking of what you want to do, but show us now what you can do. And if you can do nothing, then go to the devil!' And he will be right."

Illiteracy.

Speaking about the absence of education and the prevailing illiteracy of the Russian population, Lenin said that the very fact that a commission had to be appointed for the liquidation of illiteracy "shows, to say it as gently as possible, that we are something like half-savages. For in a civilized country it would be considered a shame to create commissions for the liquidation of illiteracy. In other countries they have schools where they liquidate illiteracy. They teach, in the first place, to read and write. As long as this fundamental problem is not solved, it is ridiculous to talk of a new economic policy."

Lenin said that Soviet laws and propaganda were good, but could not succeed until the masses of people helped the regime.

Bribery Rampant.

Several hundred thousand "obnoxious and useless communists," he said, should be expelled from the party. "Russia," he continued, "should have culture which will teach us to fight red tape, corruption and bribery. Experience has shown that a politically educated state knows no bribery, whereas with us bribery is rampant."

Lenin said the government was facing three political foes: first, communist arrogance; second, illiteracy, and third, corruption and bribery.

MOTHERS' PENSIONS WORK TAKEN OVER BY COMPENSATION BOARD

VICTORIA, Dec. 20.—By proclamation authorized by the Provincial Government, the Mothers' Pension Act, Amendment Act, 1921, was made effective as from December 9.

The Act passed at the recent session provided for the bringing of the administration of mothers' pensions under the authority of the Workmen's Compensation Board and for certain administrative powers to the latter body.

In view of the further duties devolving upon members of the Compensation Board by virtue of the change, the Act provides for an increase in the salary of the chairman of the board, E. S. Winn, of $1000 which, added to his previous salary of $6,500, brings his total remuneration to $7,500. The other two members of the Compensation Board are granted salary increases of $400 per year.

Mr. Winn and Mr. Pyke, the latter superintendent hitherto of the work of the Pensions Board, were in the city yesterday arranging for the transfer of the Pensions Board and conferring with officials of the Attorney-General's office relative thereto.

BRITAIN'S LOANS TO CROWN COLONIES

Twenty Million Pounds to Be Raised for Purpose Soon.

LONDON, Dec. 20.—(By Canadian Press)—Considerable attention has been directed lately to the Crown Colonies and to the policy of loans for their development sanctioned by the the Colonial Office. The loan progress now authorized contemplates the raising of some £20,000,000 for public works of immediate importance. Of this total £6,000,000 has been raised already—£3,000,000 for railway extensions, etc., in Ceylon, and £3,000,000 for railway, harbor and other construction in Nigeria. The loan of £5,000,000 for Kenya, Africa, issued on November 7th, is to be devoted, among other objects, to the making of the Uasin Gishu Railway, and a deep-water pier at Kilindini Harbor, Mombasa, which, as Rt. Hon. Winston Churchill, Secretary of State for the Colonies, explained to the Imperial Conference, will enable steamers to be unloaded straight on to the Uganda Railway. It is expected that when the pier is completed this port will become the chief distributing centre for the trade of East Equatorial Africa.

Writing on the subject of Kenya's prospects, a correspondent of the London Times says that Kenya is to a great extent the product of the Uganda Railway, which was begun in 1895 with the dual object of opening up Uganda and suppressing the slave trade. The 587 miles of this railway run from the coast to the shores of Victoria Nyanza. Before the line was built this part of East Africa was practically without trade, nor was it used as a route to the great lakes. In its early days, as the East Africa Protectorate, Kenya involved heavy burdens on the British taxpayer, but by 1913 the revenue began to balance the expenditure, and for the year 1920-21 the revenue was £1,925,260, and expenditure, £1,944,644, in spite of heavily inflated prices.

INCINERATOR BYLAW PUT THROUGH READINGS

The $15,000 city incinerator bylaw was put through its first and second readings and committee stages at the council meeting last night. It was found to be impossible to put the bylaw through reading $15,000 or any portion of that sum that might be required so it was decided to submit it for the full amount. The site of the incinerator has not been set out, that being left for the new council to consider. The bylaw will go before the ratepayers at the next municipal election of January 12.

TENDERS OPENED

City to Purchase 6 Wheelbarrows and 6 Shovels for Immediate Requirements.

Tenders for six wheelbarrows and six shovels were received by the city council last night and were referred to the mayor and the city engineer with power to act.

The bids were as follows:

Thompson Hardware—Wheelbarrows, $11.75 each, shovels, $1.35 each, total, $78.60.

Howe & McNulty—Shovels, $16 per dozen, wheelbarrows, $11.25 each, total, $75.50.

Kaien Hardware—Shovels, $19 a dozen; wheelbarrows, $11.50 each, total, $78.50.

OFFICIAL ELECTION COUNT POSTPONED

Will Take Place on January 7 Following the Arrival of Last Box from Telegraph Creek.

The official federal election count for Skeena constituency by R. W. Cameron, returning officer, will likely be postponed from December 27 to January 7. This will be made necessary because the ballot box from Telegraph Creek will not be here until January 6 on the arrival of the Princess Mary on that date. Mr. Cameron expects that all the other boxes will have arrived by that time. The Tow Hill box is expected on the Prince Albert when that vessel returns from the Northern Queen Charlottes on Wednesday. The Kitimaat box will be in early in January if not sooner.

The Elections Act empowers the returning officer to postpone the official count for a fortnight if circumstances and conditions make it necessary to do so.

DOWNSTAIR STORE TO GIVE GOOD SERVICE

Rupert Table Supply Makes Good Display in Helgerson Block Basement.

The Rupert Table Supply have moved from the store on Sixth Street to the basement of the Helgerson Block, with entrance on the corner of Sixth Street and Third Avenue. This basement has been recently remodelled, the walls have been concreted and concrete piers have been put under the foundations. The spacious floor space now affords ample room for the display of the very complete and large stock of groceries, meats, fresh fruits, vegetables, etc.

The move has only just recently been carried out and when business gets running smoothly it is anticipated by this well known local provision house that the new premises will afford of their being in an excellent position to render the public of the city even a more expeditious service than formerly.

City Engineer Will Cross-section It With a View to Establishing Floor Level.

A letter from Capt. H. B. Nervous Breakdown

Couldn't Sleep Nights.

To those on the verge of a nervous breakdown the following symptoms present themselves: nervous headaches, a feeling of depression, fitful, disturbed, restless and unrefreshing sleep, often troubled with frightful dreams, avoidance of crowded places, dread of being alone, horror of society, etc.

When the nerves become affected in this way the heart generally becomes affected, too, and on the first signs of any weakness of the heart or nerves, flagging energy or physical breakdown do not wait until your case becomes hopeless, but get a remedy that will at once quieten the nerves, strengthen the heart and build up the entire system.

This you will find in

MILBURN'S HEART AND NERVE PILLS

Mrs. M. Damgand, Young's Cove Road, N. B., writes:—"I was bothered very much with my heart and nerves; had nervous headaches and dizziness, could not sleep at nights, and my appetite was all gone. I was on a nervous breakdown when a neighbor told me to try Milburn's Heart and Nerve Pills. This I did, and before I had the second box used I was better and would advise anyone who has nerve trouble to take them."

Price, 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

UNEMPLOYED RELIEF IS AGAIN DISCUSSED

Council Went Fully Into Matter in Committee of the Whole Last Evening.

The city council in committee last night again went into lengthy discussion on the unemployment situation in the city and the relief measures which it is proposed to take. It was decided to adopt a policy of full time for married men and half time for single men. The allotment of work and time will, however, be left to the city engineer who will familiarize himself with the individual cases.

A delegation from the unemployed comprising W. Ormshaw W. E. Dickens and O. White was present and asked that work be provided as per the scale which they submitted in which was set out the absolute requirements of all the men. The delegation also asked that the council take steps to secure the dry dock commissary as quarters in which the single men might live. The latter proposition was left over and will be investigated, the most of the members of the council feeling that it was impossible to secure the place for this purpose.

H. G. Perry, M.L.A., returned last week from attending the sessions of the Legislative Assembly at Victoria. He stated that he believed that there would be changes in the cabinet very soon. He is of the opinion that recent developments have practically assured the building of the pulp mill here.

DEATHS AT SEA BECOMING FEW

Margin of Safety Increased Very Considerably in the Last Few Years.

LONDON, Dec. 20.—(Canadian Press.)—That dream of the ages—the unsinkable ship—has not yet been evolved, though shipowners, shipbuilders and marine underwriters have labored and still are laboring on the problem. Safety on the sea, however, has reached the point where the risk of death to a passenger on an ocean liner is placed at .02 per cent. The chance of a casualty occurring to a passenger ship involving loss of life is placed at 1.2 per cent.

These estimates are given by Sir Westcott Abell, the chief ship surveyor of Lloyd's Register of Shipping, after careful investigation, the result of which has been published in the Times. Sir Westcott Abell has taken the twenty-three years between 1890 and 1913 for the purpose of his enquiries. He does not deal with the war years, because during that period abnormal losses due to enemy action figured very prominently. The result of his researches appears to leave no doubt whatever that ships are safer than they were and that the risks of disaster and loss of life have been very considerably reduced.

In 1890 there were 3600 British steamers engaged in foreign trade. Their white crews numbered over 100,000. The death roll was 350 from shipwreck, 127 from accidents, and 263 from disease. In 1913 the number of ships was over 4600, and the hands employed numbered 160,000. The deaths were: 201 from shipwreck, 84 from accident and 319 from disease. In the first-named year there were 186,000 passengers carried from British home ports to non-European countries and the number of deaths from wrecks, etc., was 560, from accidents 22, and from disease 546. In 1913 the number of passengers carried was 1,075,000, and there were only 50 deaths from wrecks, 17 from accident and 1113 from disease. It is stated that with regard to deaths from disease, the ratio of deaths from natural causes is about the same on sea as on land.

MANITOBA CAMPAIGN FOR BETTER ROADS

1663 Miles of Trunk Highway Is to Be Asked of Legislature.

WINNIPEG, Dec. 19.—Construction of 1,663 miles of main trunk highways, planned to give a network of connecting roads throughout the province, will be asked by the Manitoba Motor league at the next session of the Manitoba legislature. The scheme to be submitted by the league provides all costs of the roads shall be paid for by motor license fees and will not entail an increase in fees for three or four years. It is proposed that a provincial board be appointed to undertake construction and maintenance of the roads, and that each road be built of gravel according to the standard of the Good Roads board.

To obtain public backing for the scheme, the Motor league is launching a provincial-wide publicity campaign, during which speakers will address every large organization in the province.

Bruce Thompson fired the first gun of the campaign before the Rotary club, and the scheme was also explained to the Elks.

RESIGNS SCHOOL BOARD DEFEATED AT ELECTION

VICTORIA, Dec. 19.—Alderman George Sangster, defeated in the aldermanic elections on Wednesday, yesterday announced that he would resign from the school board, to which he was elected by acclamation on nomination day.

The alderman's letter of resignation to the school board, addressed to Secretary W. F. C. Pope, follows:

"I herewith beg to tender my resignation from the board of school trustees.

"Having lost the confidence of the electors as alderman, I consider it my duty, under the circumstances by which I was elected to your board to take this course.

"During my four-year term on the council my policy has been strict economy, and if I had been returned to the council I should have pursued the same case on your board. As the electors have not endorsed my stand for retrenchment, I feel that it is only right that I should make way for someone else."

WORTH BELIEVING IN.

"Do you really believe in heredity?"

"Most certainly I do. That is how I came into all my money!"—London Mail.

NEWSPAPER LIBEL CASE

Dukt of Northumberland and Morning Post Sued by Labor Leader.

DECLARED TO BE A SPY

W. W. Watson's Inflammatory Speeches Quoted in Court as Justification.

W. F. Watson, one of the extreme labor leaders of Great Britain recently sued the Duke of Northumberland and the Morning Post for libel but failed to make it stick on the ground that the words complained of were published in good faith and were in the public interest. The part complained of was as follows:

"Mr. Smillie's other comrade, W. F. Watson, gained so unsavory a reputation that only the extreme Bolshevist circles will now have anything to do with him. He has earned the somewhat unenviable distinction of having as he admitted himself, acted as a spy for the Government in Bolshevist circles, as well as having been imprisoned by the Government for making seditious speeches. After all, why not? If a man will betray his country, he will betray his friends too. On this occasion his society the London Workers' Committee, which is so much indebted to Mr. Smillie, issued a manifesto to its supporters announcing that 'our comrade Watson is to be shut up in the hunger cells of the Windsor family. Long live the Soviet and down with a rotten monarchy must be the cry of the worker and the soldier.' He as well as McManus is a member of the "Hands Offf Russia Committee," whose president is Lenin, one of the vice-presidents being Trotsky. The London Workers' Committee over which he presides, or did preside, is the London counterpart of the Clyde Workers' Committee, of which more anon. Both these societies are in the closest touch with Sinn Fein, and on December, 1918, Mr. Watson boasted that "he had formed the nucleus of 200 Soviets, that he had corrupted many Irish soldiers, and that the London Sinn Feiners could supply him with several hundred men trained in the use of arms." It is noteworthy that with a few days of this statement Mr. Smillie declared, on December 6, 1918, that if the electors returned 300 Labor men to Parliament he hoped they would invite the Sinn Feiners over to help them. They could say then, "Your fight is our fight, come over and help us." So much for two of Mr. Smillie's comrades."

Denies Being Spy.

Watson denied that he was a spy for the Government although he had been paid three pounds a week for fourteen weeks to give information in regards to the "Hands off Russia" movement which he was advocating. He was in addition to this paid five pounds a week by another branch of the service in return for confidential reports.

During the war Watson worked at munitions making in order to avoid going to the front. He admitted that he believed in the Government of the country by councils of workers and sought to bring it about by fomenting strikes. He had been convicted of attempting to cause disaffection among the civilian population and had been fined. He also wrote a pamphlet in which were the words:

Slit Gizzards.

"The latest dirty insult to be heaped upon the head of the too patient ass, the worker, is the "combing out" proposal. Men of military age in munition factories, and other Government works, are now regarded as mere lice, to be scraped off or combed out. And still not a finger of interference is raised anywhere against the filthy insult to our manhood. Are we vermin in reality that we continue to tolerate the bloody insolence and arrogance of the class (the only class) that stands to profit by the war? If we had half the grit and manliness of the old trade unionists and Chartists there would have been some slit gizzards in Park Lane before this, as part payment for the physical mental, and moral outrages we have borne at the hands of the capitalist robbers in the past two years."

In Finsbury Park he said:

"I say this, that if anyone has lost this war it is the British, American, and French working people that have lost the war, and I will tell you why. Germany has revolted, thrown over the House of Hohenzollern, and perhaps the time will come when we shall throw over the House of Windsor Soap."

After being convicted for a speech at the Albert Hall he appealed to the Sessions and in his appeal were the following words:

"I think this would be an opportune moment to acquaint the court with other methods that are used by the authorities to undermine our movement. There is the vile system of espionage whereby members of the movement are paid a weekly salary as informers to the C.I.D., special branch. There are numerous of these reptiles about, and they have their ramifications in almost every organization, and weekly reports of the activities and plans of those organizations are regularly sent to Scotland Yard. . . . I stand before you as a man who has been convicted of an offence against the State, and yet I myself have been approached and offered a good screw to become an informer, and it is possibly due to the fact that I refused to become a traitor to the movement that the Scotland Yard chiefs are so very bitter towards me.

Screw Churchill's Neck.

Extract from a Trafalgar Square speech were quoted in court reading as follows:

"Just as sure as the sun will rise tomorrow morning . . . so will you be confronted with another gigantic war in the near future. Why, echo answers. Why? . . . We, we never fight. Of course, we don't. Now do we? I am asking you as intelligent working people. Do we really fight? Don't you think that if we fought we would not trouble about passing resolutions—we would get hold of Winston Churchill; we would not trouble about putting the chain on him. We would just get hold of him and screw his damn neck. We don't do it, do we? In the old days, when they fought they didn't worry about a murderer like Winston Churchill, did they? They just got hold of him by the scruff of his bloody neck. . . . Winston Churchill is a murderer. . . . What do you do? Nothing! You will go along to meet tomorrow morning and you will say: "I move a resolution that we will ask the employing class to get us a farthing an hour higher wages." Just you pick up your paper and read that the Italian revolutionaries have got 1,500 factories. We here in this damn crowd, what have we? Nothing! You come here and cheer and shout, but what the hell do we do? Nothing; nothing at all. You permit all this unemployment, prostitution, and destitution to go on, and you are just as bad as Winston Churchill. I am spoiling for a fight. I want to show the international capitalist class that we of the working class want to fight."

The case lasted three days and on the third day the plaintiff, in addressing the jury, admitted that he had used coarse language which might have been modified, but he was full of resentment for the wrongs that had been inflicted upon his class. He denied that he was primarily responsible for impeding the successful prosecution of the war.

Judge Sums Up.

His Lordship, in summing up, said that the jury had heard the final address of the plaintiff, and he imagined they must be satisfied that they had before them a man of quite remarkable ability endowed with the gift of speech and of eloquence, and one could not help regretting, when he talked about his own class that he had not got on as others in his class had succeeded doing. Instead of that he had tried to turn society upside down and to bring about a state of things such as existed in Russia. He might have been holding an honorable and remunerative position but instead of taking the line he should he had taken the one which they had heard described. It was a great pity that he had so misused the abilities which God had given him. This was an action for libel and the defendant did not deny that the words complained of were libellous, but they said that they were justified. There could be no doubt that the matter was one of public interest, for the question whether the country should remain under its present form of government or have substituted for it the form of anarchy which prevailed in Russia had an interest for all sections of the community.

FIFTEEN BOILS ON NECK AT ONE TIME

Anyone who has suffered from boils can sympathize with poor old Job.

There was no Burdock Blood Bitters in those days, so Job had to suffer in silence. Nowadays no one need endure the misery of boils.

Boils are simply evidences of the bad blood within coming to the surface and just when you get rid of one, another seems ready to take its place and prolong your misery.

All the poulticing and lancing you may do will not stop more coming.

What you have to do is take

BURDOCK BLOOD BITTERS

and the blood will be cleansed of all its impurities, and then every boil will disappear.

Mr. Roy McSwain, High Bank, P. E. I., writes:—"I was troubled with boils for some time, and had as many as fifteen on my neck at once. After taking one bottle of Burdock Blood Bitters they commenced to get better, and after I had taken two bottles I was relieved of them and felt much better. I think B. B. B. is a grand blood medicine, and can recommend it highly."

For the past 45 years B. B. B. has been manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

Could Not Eat

Constipation is caused by a torpid condition of the liver. Dosing with salts, castor oil, etc., to move the bowels, cannot afford more than temporary relief.

If you are to rid yourself of this ailment and the scores of annoying symptoms and diseases which come in its wake, it is necessary to get the liver right by such treatment as is suggested in this letter:

Mrs. Alvin Richards, R. R. No. 1, Seeley's Bay, Ont., writes: "For two years I was afflicted with indigestion, and in the morning when I got up my breath was bad. I had a poor appetite, and just felt like eating certain foods. I used many different medicines as a laxative without benefit, and the doctor's medicine did not help me at all. Finally I tried Dr. Chase's Kidney-Liver Pills, and found them better than anything I had ever tried. I can highly recommend them to anyone troubled with constipation or kidney troubles."

KNIGHTS OF PYTHIAS CHRISTMAS TREE WAS PUT ON YESTERDAY

The hearts of seventy-five children were delighted at the annual Knights of Pythias Christmas tree held yesterday afternoon in the Castle Hall. The affair started at 4:30 and the first business of the kiddies was the enjoying of the splendid refreshments and Christmas dainties which were provided. Then the attention of all was directed to the big Christmas tree and its load of gifts. This and the decorations had been attended to by Jack Reynolds, while Jack Cobb acted as Santa Claus. Games followed, and the happy children dispersed about 7 o'clock.

The committee in charge comprised Mrs. Dr. A. H. Bayne, Mrs. George Leek, Mrs. George Johnstone, Mrs. E. J. Large, Mrs. J. Rowatt and Mrs. Norman Robinson.

FINE TURKEY

Bird Was Raised at Kitwanga on Du Vernet Ranch.

The live show turkey, weighing 24 pounds, on display in the window of the Northern Interior Co-operative, was raised on the Du Vernet ranch at Kitwanga. Mr. Du Vernet is the son of Bishop Du Vernet of Prince Rupert and has been ranching in the Skeena Valley for some years. This specimen turkey demonstrates that the climatic conditions of the Skeena Valley are most favorable for the raising of turkeys, and in view of the fact that 14,000 pounds of turkey has been imported into the city this season, turkey raising should certainly prove a profitable investment along the Skeena Valley.

AT THE POINT OF WEAR

Here's reason for achievement—two to three times more wear for shoes

PHILLIPS' MILITARY SOLES AND HEELS

are scientifically designed

Easily accounted for is the extra wear you get from shoes when Phillips' Military Soles and Heels lift them from destruction and wet—

For by scientific design they resist the very elements which destroy—friction and dampness. Never in contact with the ground, leather lasts two to three times longer—is far more flexible and easy to wear.

Walking, too, is a buoyant sensation—safe, non-slipping, the shock absorbed.

Ask your dealer or repairman about these scientifically designed soles and heels—there's a special size for everyone.

* * * *

The fastest hockey match of the season took place at Burns Lake a few days ago when a fortunate accumulation of commercial travellers, assisted by one of their former fellow workers, challenged the home talent but were defeated by a score of 5 to 3. C. E. Imeson played with the visitors and the combination work of Walsh, Millichamp and Imeson was the feature of the game. After several warnings from Referee Bob McDonald, Percy Carr was twice sent to the fence for three minute periods and the roar he made goes to show how the term "Bull" was applied to policement. The game was fairly clean throughout and the work of Gordon Wood, in goal, was all that saved the home team from defeat. Alexander, who was between the posts for the visitors, made several splendid stops. The line-up was as follows: Alexander, Sims, Millichamp, Walsh, Imeson and Woodruff; Burns Lake—Wood, Ira Short, A. M. Ruddy, McNeil, P. Carr and Lloyd Bellon.

FIRE INSURANCE is a hobby of ours. We take keen pleasure in making sure that all policies are so written that they cover your property exactly as you intend. If you entrust your fire insurance to careless, inexperienced or ignorant agents you may find, when you come to collect your fire loss, that your policies are so worded that the insurance company is not liable and so will not pay the loss. Why take chances?

TEN PER CENT. ARE DISEASED

Meeting at Victoria Deals With Social Hygiene—Public Opinion Hostile.

VICTORIA, Dec. 20.—At the annual meeting of the Vancouver Island Council for Social Hygiene which was held in the board room of the Chamber of Commerce, Arcade Building, Dr. H. E. Young, provincial health officer, stated that ten per cent of the people of Victoria are suffering from venereal diseases, and that this percentage is about the average for cities in the Dominion. In Toronto, he said, a careful test during a given period at the General Hospital, gave the percentage as twelve per cent of venereal diseases for the population. Twenty-five per cent of the patients in the provincial asylum today are there as the direct result of the same dread disease, but it is difficult to get the public to understand this.

Organized One Year.

The Vancouver Island Council for Social Hygiene has been organized just one year, and the secretary's report given to members who were present last night, is the first presented to the council. This report stated that the officers and executive had been called to set on foot a movement with no precedents to guide them, and with a problem which was not openly met before. Public opinion was hostile often, and misinformed, it stated, and prejudice and false modesty had had to be faced in the task set before them.

The work undertaken by the council during the past year had been mostly along educational lines, and several meetings for education and organization had been held in various parts of the island during the year. Much has been done by the council in the way of educating the awakening public to the prevalence of the disease and in pointing out methods of prevention along the lines of instruction for children in the home in sex matters, and in urging the necessity for healthy recreation.

The executive felt that their policy had been justified by the first year's experience. Between 1,000 and 5,000 pamphlets have been distributed.

It was felt by the members present that the council was working under a constitution which is too elaborate for its needs, and amendments which tended to simplify the organization were passed by last night's meeting.

Officers Elected.

The election of officers for the ensuing year was effected, and the new officers are as follows:

Hon. president, Hon. Dr. MacLean; president, Dr. Thomas Miller; vice-presidents, A. C. Pike, A. W. Evans; treasurer, H. T. Ravenhill; general secretary, Rev. H. T. Archbold, B.A.; executive committee: General R. P. Clarke, Mrs. Spofford, A. D. Crease, Dr. R. L. Miller, B. C. Nicholas and J. T. Elott; legislative committee: Mrs. Spofford, C. L. Harrison, A. D. Crease, Miss Ringland; finance committee, General R. P. Clarke, K. Ferguson, E. Landsberg and Mrs. Hardie.

THE PENALTY.

He entered the breakfast room with a letter in his hand, his face suffused with shame and confusion.

"My dear," he said hesitatingly.

"Well?" snapped his dear.

"I—I'm very sorry, but—"

"You usually are sorry about some thing, and with good cause. What's the matter now?"

"This letter to your mother. You gave it to me to post ten days ago, and—and—I—"

"You've forgotten to post it. Well," calmly—"we must make the best of it I suppose. That letter was to ask mother to postpone her visit this year, but since you've forgotten to post it I expect she'll be here some time today."

Ten minutes later a frantic man might have been dimly discerned in the depths of the innermost coal cellar administering unto himself a sound kicking.—Pittsburg Chronicle Telegraph.

Without advertisements, this paper would not be as interesting to you, because information about goods for sale in the stores is news—just that.

All subsisting licenses in respect to motor cars expire on the 31st instant, and applications for renewal must be made by the licensees on or before the 15th instant. Owners of motor cars are urged to make application at once for renewal of their licenses. Each applicant will be furnished with a sticker to be attached to the windshield of his motor car, giving warning that on and after 6 a.m. on Sunday the 1st day of January, 1922, he must keep to the right, and when overtaking any vehicle going in the same direction, to the left.
