Fred Stork's Election is a Sure Thing VICTORIA BUILT BARKENTINE IN TROUBLE ON FIRST VOYAGE

EDITORIAL

PUT IN FLOAT.

When Colonel Peck was at a meeting he held a meeting and at the meeting he told the people was going to put in a float at the Arm.
 Doubtless the Colonel forgot himself. He was of course a member of the Meighen Government, but he forgot that he had abandoned the Meighen party and that that belongs to them.
 Colonel Peck is running as an independent and if elected or if not elected will have no say as to whether there will be a float at the Arm. If the Meighen Government should be re-elected he would have a say, and that is what he meant. Everyone is aware, however, that the Meighen party is already beaten and is completely as if the vote had already been counted. The float will be no business of Colonel Peck, but will be a matter of the recommendation of Fred Stork if it is put in.

Further reports from Anxox to the effect that not only the recent Peck meeting but also the Meighen meeting, in which Mr. Fowler was cheered and that the town of Anxox will undoubtedly give Stork a majority on Tuesday, and that the tactics of the Government supporters are very much resented there.

Fred Stork Expects Thousand Majority Reviews Situation

There was an impromptu rally at the Liberal rooms last night, when a short talk on the situation was given by Fred Stork, who dropped in during the evening. Some fifty or sixty men were gathered, that being the regular thing any evening, and the candidate told them some most cheering news. He said he had covered all the constituency except the Queen Charlotte Islands, and everything looked most promising.

At the mining towns of Alice Arm and Anxox Mr. Stork said he was convinced he would get a majority. Port Simpson would do its duty and Ocean Falls and Swanson Bay would each give more than fifty per cent of the vote. In the Bella Coosa valley he would get a large majority from Hazelton and a good vote at the other points. Stalkers would vote strongly Liberal and in the lake country he would be successful. At Terrace, which was supposed to be a Tory stronghold, the Liberals were doing good business. The whole outlook was very good and he would be surprised if he did not get a majority in the neighborhood of 1,000.

TO CONSIDER PEACE PLAN

Dail Eireann Will Hold Meeting Tomorrow to Deliberate Over Proposals.

LONDON, Dec. 2.—The British Government's latest proposals for a settlement of the Irish question will be considered by the Dail Eireann cabinet at Dublin Saturday. The new terms show some advances over the Government's previous proposals.

LLOYD GEORGE PLANS LEAVING FOR STATES DECEMBER TWELFTH

LONDON, Dec. 2.—Premier Lloyd George is definitely planning to leave for the United States on December 12 to attend the Washington Armament Conference.

PATTULLO ADVISES NO PERSONALITIES BUT VOTE LIBERAL

Hon. T. D. Pattullo wires that he is sorry he will be unable to reach Prince Rupert before December 6. However, he gives his opinion in connection with the contest as follows:

"In my judgment the issue before the electors of Skeena riding is not the personality of either candidate but is one of what is the wisest policy for the Skeena electoral district. In the light of all the circumstances, prudent judgment overwhelmingly suggests that the Liberal candidate should be elected."

FELL THROUGH ICE IN YUKON

Captain George Black had to Change Clothes on River Bank and Was Badly Frozen.

DAWSON, Dec. 2.—Campaigning in forty below zero weather, Capt. George Black, Conservative candidate for the Yukon territory, fell through the ice of the Stewart River and had to change his clothes on the bank of the stream. His face and hands were badly frozen.

Simon F. Tolmie was Awash Off Coast of Washington Steering Gear Disabled

VICTORIA, Dec. 2.—The four-masted barkentine Simon F. Tolmie, which left a few days ago on her maiden voyage after having loaded 1,100,000 feet of lumber at Nanoose, is lying hove to in a storm off Neah Bay, awash with the steering gear disabled.

The tug Oregon left for Port Townsend to the aid of the vessel, and the salvage steamer Algerine has been sent from here. It is not believed there is any immediate danger.

The Simon F. Tolmie is a wooden vessel built at Victoria by a local company formed to carry on shipbuilding after the Government contracts were completed. It was known as the Victoria Shipowners, Limited.

BALANCE FOR COURT HOUSE IS \$215,000

Vote of \$215,000 Assuring Completion Building Here Passed by Legislature.

VICTORIA, Dec. 2.—A vote of \$215,000 has been passed in the estimates of the legislature to complete the new court house now under construction in Prince Rupert. This assures that the work will be carried to completion with dispatch.

LIBERAL RALLY Tonight, Friday

There will be a Liberal Rally in the Liberal Rooms, Pattullo Block, Second Avenue, at 8 p.m. sharp. Fred Stork and several others will speak briefly on the issues of the day.

Soldier is Supporting W. L. Mackenzie King

VICTORIA, Dec. 2.—C. K. Christian, prominent advocate of the rights of ex-servicemen, who ran up a big total at the last provincial election at the head of the Soldier-Labor ticket, has come out strongly in favor of William M. Ivel, the Liberal candidate for Victoria, and will address a public meeting this evening to explain his reasons for so doing.

Mr. Christian's high principles and the sincerity of his efforts to bring about better conditions for returned men and the working classes have been voiced at various meetings of ex-servicemen organizations and in the Trades and Labor Council, where his knowledge of affairs and his common-sense policies have received very considerable attention.

Interviewed here Mr. Christian said that his action was dictated by the fact that the terms of Sir Robert Borden's speech to the men in the trenches had never been lived up to, and despite the fact that three years had elapsed since the war ended, none of the promises had been carried out.

Mr. Christian has refrained from taking any decided stand in the matter of the election until the amalgamation of ex-servicemen organizations had been accomplished.

At the amalgamation meeting he withdrew his name from nomination for office, stating that in his opinion the best way in which ex-servicemen could get a reasonable adjustment of their rights is through political action, and that if he did not hold office in the Amalgamated Veterans' Association he could have freer action in fighting for their interests.

Supports Mr. King. Mr. Christian said that he had at all times held decided opinions as to what form that political action should take, and he was convinced that to support the Meighen Government would be tantamount to an expression of confidence in the policy pursued by the Borden Government, while the only possible chance of securing anything like a square deal would be by supporting Hon. W. L. Mackenzie King.

Having entered into a compact with the amalgamation convention to keep clear of politics pending the formation of the body which has now been so strongly formed, I now feel at liberty to come out and fight for the cause in which I believe, said Mr. Christian.

Support Meighen By Voting Peck.

Anyone who professes to be a Liberal and who just now votes for the independent candidate puts himself in a similar position to the man who gives comfort to the enemy when his country is at war.

There are but two groups in the present contest. There is the group of reaction and the group of progress. Colonel Peck has allied himself with the reactionary group in Parliament.

This is Day of Consolidating.

These are the times when business is being consolidated, when big organizations are being formed and when the small man has little chance in competition with his stronger competitor.

The hope of democratic government is from the training that will come through the management of big industrial corporations. While we here in Canada often dislike the big trusts, yet for economy and efficiency they cannot be beaten.

Day When Men Are Asserting Themselves.

While these are the days of big organizations, they are also the days of individual assertiveness. We are developing big trusts and big business machines, but at the same time there is more individuality in the world today than ever there was.

Those who mix with the working people of this city are surprised at the great interest there is taken in the present election. Both men and women have the matter reasoned out.

To be more specific, the newspaper that refuses to publish anything except such news and views as are favorable to its own cause is not only damaging itself but damaging the cause which it aims to forward.

THE TORTURE OF INDIGESTION

Thousands Made Miserable By This Trouble

"FRUIT-A-TIVES" Relieves It

What is indigestion and what causes it? As you know, solid food must be changed into a liquid by the stomach before it can be taken up as nourishment by the blood.

The stomach acts as a churn. It is covered by a strong, muscular coat and lined with a soft, delicate membrane which secretes the Gastric Juice which digests or dissolves solid food.

When food enters the stomach, the muscular coat squeezes and presses the food from end to end, or churns it, with the gastric juice to dissolve or digest it.

But—if the stomach muscles are weak—or if the dissolving fluid is poor or insufficient—then food cannot be digested properly and you have indigestion.

"FRUIT-A-TIVES" is the most wonderful medicine in the world for strengthening the stomach muscles and providing an abundance of pure, full-strength dissolving fluid to completely digest every meal.

"FRUIT-A-TIVES" does this because it keeps the kidneys active, the bowels regular and the blood pure, which insures pure Gastric Juice.

"FRUIT-A-TIVES" will correct your indigestion or dyspepsia and enable you to enjoy every meal. Try it.

50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

THRILLS PROMISED IN GEORGE WALSH PLAY

"Dynamite Allen," starring the well-known and popular George Walsh in his latest production, will be shown at the Westholme Theatre tonight.

The story, written especially for George Walsh by Thomas F. Fallon, deals with life in the mining regions of Pennsylvania. It is a very dramatic tale, in which the hero struggles against overwhelming odds to prove the innocence of his father, falsely imprisoned for murder.

In the supporting cast are Edna Murphy and Dorothy Allen—both pleasantly remembered for their excellent work in the big Fox special "Over the Hill" by Byron Douglas and J. Thornton Baston.

"Dynamite Allen" was directed by Dell Henderson, one of the leading megaphone wielders.

Ten Years Ago in Prince Rupert

Property holders of Sections 5, 6, 7 and 8 met in the Presbyterian Church Hall last night and decided to organize. The following officers were elected: President, W. J. Alder; secretary, J. H. Pillsbury; treasurer, Lee Baker; executive, H. F. McRae.

The tug William Joffile has gone to Kyuquot Sound to rescue the Tees which is on the rocks there.

SPECIALIST CURES COLDS

Lectures to London People and Urges Sweating the Body as Most Effective.

LONDON, Dec. 2.—Most people know many ways in which one may catch a cold—draughts, sudden changes of atmosphere, wet feet, association with people already infected with cold germs, and so on.

Isolation Desirable. Dr. Halls-Dally put it as a duty to the community that all persons with a cold should isolate themselves, and for their own good be swift to induce perspiration.

Homey Medicinal Drinks. It is good to learn from Harley Street that old-fashioned medicinal drinks for incipient colds are still commended.

One learns from Grant Ramsay, the president of the Institute of Hygiene, that some of the old-fashioned prescriptions are being forgotten. Possit, with a foundation of beer and milk or treacle and milk (as in Yorkshire), used once to be the English curative drink, and it is almost unknown now.

Mr. Ramsay says these remedies have pleasant sounds, but Dr. Halls-Dally and all Harley Street with him are more concerned with the need for preventing colds than the methods of curing them.

GOOD CONDITION INTERIOR STOCK. Dr. Frank, Dominion Government Inspector, Spent Two Months in Central Interior.

Dr. J. N. Frank, of Vancouver, veterinary surgeon and Dominion government inspector of livestock, returned south last night after having spent two months in the central interior in the course of his departmental duties.

BAD FLOOD AT PRINCE GEORGE

People Go to and From Houses in Boats—Chickens Roost in Trees.

PRINCE GEORGE, Dec. 2.—The flood situation, which followed the heavy jam of ice on the Nechako River last week, is little improved. On Saturday, the water which has been slowly backing up, flooded the railway yards and gradually encroached on the main C. N. R. tracks. By Sunday the main line was under water for some distance and the low lying properties in the vicinity of the station was also under water. The trains are able to move, however, and traffic is not seriously impeded.

Water has entered many houses at the Cache and people are using boats and canoes to get to and from them. Anxiety was felt for some time for the city power house and some of the machinery had to be moved to a higher level.

Chickens in Trees.

Troops were blasted in the railway yards but the railway company is now working on the ice jam attempting to blow out a channel for the flood water.

Chickens, released from their coops in the vicinity of Cache, were found roosting in the trees by their owners and were harking to the primitive so fast that hunting parties were organized and the birds were picked off their roosts by hunters in canoes.

There is danger to the Nechako River bridge, the ice and water now being on a level with its floor. The bridge has already been slightly moved out of alignment.

BIG FOOTBALL MATCH TORONTO TOMORROW

TORONTO, Dec. 2.—Edmonton Eskimos football team has been training steadily all week since arriving here and is in good form for the big match tomorrow against the Toronto Argonauts for the championship of Canada.

The public were not given a chance to see them in action and, as the westerners believe that they have secrets to guard, they are not likely to divulge anything previous to the game. From what can be learned about them they are another McGill team—one backfield player of class and a wing line which specializes in line plunges defensively and offensively.

The Globe sporting writer expects that, like Parkdale, the Edmonton wing line will probably show a lot of strength in stopping line plunges, but that is not where the Argonauts will direct their attack, and if Quarterback Cochrane opens up the play he will force the westerners to weaken their inner defense to such an extent that it will be an easy task for men like McCormick and Stritell to get through for long gains.

The Edmonton team are favorites in some quarters, but most Torontonians are too loyal to their own club to bet against them.

ANTI-BRITISH PAPERS SEEK STIR DISCORD

Hearst New York Publication Says United States Plan Would Be Unfair to That Country.

WASHINGTON, Dec. 2.—The Anglo-Japanese alliance is being used by the anti-British section of the United States press which is making every possible effort to sow seeds of discord within the Washington disarmament conference.

Dealing with the naval ratio scheme proposed by the United States a local Hearst paper declares editorially: "If the Englis-Japanese alliance stands, that alliance would have sixteen naval fighting units to the United States' ten." The same paper also prints an anti-British-Japanese alliance cartoon.

FISH PRICES ON DECLINE

Government Bulletin Tells of Viewpoint of Retail Merchant and Others.

OTTAWA, Dec. 2.—Evidence of declining fish prices is noticeable in many parts of the country, says a bulletin issued by the Dominion Government. While it may be difficult to convince the consuming public of the fact, no one welcomes a drop in prices more than the retail fish merchant. While doubtless some branches of the industry are losing money, or making none, during this period of readjustment, and the fact is to be regretted, at the same time cheaper fish is bound to have a salutary effect on the trade.

The Fisheries Department, Ottawa, has established a direct connection with the retail trade and is endeavoring to study the problems of this department of the merchandizing machinery. Retailers in all quarters declare that the chief obstacle is increasing the market for fish, is the price of the commodity.

There is no reason why fish should not command a reasonable price in comparison to other foods, approximately on a par in palatability and food constituents, but there is no evading the fact that people will not pay an equal price. In other words the low price of the commodity must for years to come be offered as the big inducement to purchase. Not until housewives have been thoroughly educated in the methods of cooking fish, until they have a proper appreciation of its economic and dietary advantages, can retail fish prices safely seek the level justified by a mathematical comparison of food values.

No New Theory.

This is not a new theory. It is a fact that it is quite well appreciated in all branches of fish merchandising. But when it comes to locating a reason for high-priced fish it is impossible to point one's finger in any direction and say—"There is an unduly large profit being taken here." Just at the present time there are very few branches of the fishing industry making even a fair profit. As a matter of fact the industry, like a good many others, is merely juggling along, hoping for a brighter future. High prices are a legacy of the war. In the primary fishing operations, the actual cost of fishing gear and equipment soared in some cases four hundred per cent, and fishermen must get a price for their commodity that will pay for depreciation and maintenance of high-priced equipment. They are not in a financial position to absorb in a lump the depreciated value of their equipment purchased on a high market.

Futile to Lay Blame.

It is futile to lay the blame for high fish prices in any one place. The fishermen, dealers and retailers have no monopoly on the business and any one who has the idea that undue profits are being made is quite at liberty to make a fortune. There is the broad expanse of the North Atlantic and the prolific Pacific, not to mention the 200,000 square miles of inland waters, inviting all and sundry to come and take fish. Frequently one hears the argument—"Why shouldn't fish be cheap? It cost nothing to produce." The same may be said of grain or oats. Mother earth produces the grain and oats, just as the sea gives up the fish, but it is poor consolation for John Jones, starving in Montreal, to know there is a bumper wheat crop standing on the western prairies and that fish are fairly popping

Had Bad Cough and Sore Throat

Never neglect a cough or cold however slight. If you do it can have but one result; it leaves the throat or lungs, or both, affected. A single dose of

DR. WOOD'S NORWAY PINE SYRUP

will help to stop the cough, soothe the throat, and if the cough or cold has become settled on the lungs the healing virtues of the Norway pine tree along with the soothing and expectorant properties of other excellent herbs, roots and barks promptly eradicates the bad effects, and the persistent use cannot but help to bring about relief.

Mr. Albert Marsh, Lower L'Ardoise, N. S., writes—"About a year ago I contracted a cold accompanied by a very bad cough and sore throat. I sent for the doctor, but what he prescribed did me so little good I began to get discouraged. A friend came to see me and asked me if I had ever used Dr. Wood's Norway Pine Syrup. I told him I had not and sent him right away to get me a bottle. I started using it, and after a couple of days I found I was getting relief, and after taking two bottles the soreness in my throat seemed to be leaving me, so I resolved to continue its use, and after I had used five bottles my sore throat and cough were gone. I would not be without Dr. Wood's for any more."

Price, 25c and 50c a bottle; put up only by The T. Millburn Co., Limited, Toronto, Ont.

out of the water on the shores of the Maritime Provinces. Men must be paid to reap the harvest; whether it be wheat or fish, and expense must be incurred in preparing it and shipping it to market and delivering it to the consumer.

MAZZEI GETS NINE MONTHS

Lad Found Guilty of Stabbing Sentenced Yesterday Afternoon by Judge Young.

Louis Mazzei, found guilty of stabbing, was sentenced to nine months with hard labor at Okalla Prison Farm by Judge Young yesterday afternoon.

Evidence as to the good general character of the prisoner was given by D. H. E. Tremayne, C. H. Orme, Max Heilbroner, Martin O'Reilly and Chief Minty. It was also adduced in the evidence that the accused had been under the influence of liquor when the stabbing occurred.

"In view of the circumstances and conditions under which the fight arose and in view of the favorable evidence which has been given by these citizens," said Judge Young, in passing sentence, "I am making your sentence as lenient as possible. I sentence you to nine months imprisonment with hard labor at Okalla Prison Farm."

The judge expressed sympathy with the accused but pointed out that such use of a knife could, under no circumstances, be permitted.

TYPHUS RAGING

No Plague in Russia and Cholera Suddenly Has Ceased Ravages.

LONDON, Dec. 2.—At a meeting a few days ago of the health committee of the League of Nations in Paris, Dr. Norman White, who has just returned from Moscow, where he has been working on the epidemic commission, made a statement with regard to the reports of outbreaks of plague in Russia.

Not only have all the reported cases of plague in European Russia been found incorrect when bacteriological investigation was made, but the outbreak of cholera, which was very severe during the summer, has suddenly and unexpectedly ceased. No adequate explanation is yet given for this.

But typhus is raging. It is believed that the number of cases of typhus during the past year is approximately twenty millions, and probably it will be still more severe during the coming winter. Smallpox also in general, and vaccination is being extensively carried out.

Could Not Eat

Constipation is caused by a torpid condition of the liver. Dosage with salts, castor oil, etc., to move the bowels, cannot afford more than temporary relief. If you are to rid yourself of this ailment and the scores of annoying symptoms and diseases which come in its wake, it is necessary to get the liver right by such treatment as is suggested in this letter: Mrs. Alvin Richards, R. R. No. 1, Seely's Bay, Ont., writes: "For two years I was afflicted with indigestion and in the morning when I awoke my head was bad. I had a gas up my stomach and just felt like eating my hands. I used many different remedies as a laxative without benefit. At last I tried Dr. Chase's Kidney-Liver Pills, and found them better than anything I had ever tried. I can highly recommend them to anyone troubled with constipation or kidney troubles."

MR. PATTULLO'S HOPES.

From among the depressing vapors distributed by the Ancient Order of Blue Ruiners it is consoling to lift the optimistic prophecies of the Hon. T. D. Pattullo. If the visit of the Minister of Lands did nothing else to his vision it succeeded in convincing him that we in British Columbia have a good deal for which to be thankful. But his personal contact with men and things on the other side of the Atlantic seems to have resulted in practical progress towards development in this Province. His announcement of the other day that Old Country interests mean business in an iron and steel connection revives hope for the establishment of a plant on this coast. By the same token the Stuart Lands settlement plan and the development of power at Campbell River bid fair to be practical results of the Minister's visit to Europe.—Victoria Times.

PRINCE RUPERT TIDES

Friday, December 2. High—3:19 a.m., 20.0 feet, 11:57 p.m., 21.1 feet. Low—8:57 a.m., 8.5 feet, 21:36 p.m., 4.2 feet. Saturday, December 3. High—3:58 a.m., 19.6 feet, 15:37 p.m., 20.1 feet. Low—9:37 a.m., 9.0 feet, 22:12 p.m., 5.1 feet. Sunday, December 4. High—1:39 a.m., 19.1 feet, 16:20 p.m., 19.1 feet. Low—10:21 a.m., 9.6 feet, 22:50 p.m., 6.1 feet. The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours, from midnight to midnight. The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson. The height is in feet and tenths of feet above the average level of lower low water.

STORK GIVEN OVATION AT PECK MEETING

Harry Fowler Took Down House at Anxox at Meeting on Tuesday Night.

A letter has been received from a resident of Anxox who was present at Col. Peck's political meeting held there on Wednesday night. It says: "Col. Peck held a meeting in the Elks' Hall and had a full house. Harry Fowler, of Alice Arm, was over and spoke a few words, bringing down the house. Col. Peck tried to make a fool of Mr. Fowler but he was taken back. After the meeting three cheers were given for the Colonel and then somebody proposed three cheers for Fred Stork and the response nearly took the roof off the old building. Things are looking bright here for a majority for Stork."

GERMAN CRISIS IN INDUSTRY

Newspapers of That Country Discuss Fall in Price of Mark and Reparations.

The fall in the mark and the rising cost of living are overshadowing all political events in the German press. The "Frankfurter Zeitung," writes: "We are a people of sixty millions in the heart of Europe. All our needs for life and for commerce are intimately and indissolubly bound up with the world market. We are fighting for our existence and are endeavoring, in spite of all opposition, to carry out our treaty obligations even if they have been forced upon us at the point of the bayonet. We are trying to mobilize our last reserves to gain a last, even if only a short, respite. We are knocking at the doors of foreign countries in search of the credit which will allow us to work on at least for a few more months or another year. We are trying, by constitutional means, to make our productive work realize the highest possible return abroad, and are trying to close our frontiers to all waste. But foreign countries themselves will not allow us to close our western frontiers completely, and at the same time open new dangers in the east. The fall in the mark during these last few months is symptomatic of the anaemia of our trade and industry, which, deprived of all foreign property, robbed of all regenerating forces in the world's trade, its substance reduced in the most terrible manner, threatens to collapse beneath the excessive burden of reparations so unintelligently forced upon it. We are near the end of our strength. The power to avoid the plunge into the abyss is no longer in our hands. We are going downwards along the path shown by the policy of the Allies. The organ of the German People's party and of Herr Stinnes, the "Deutsche Allgemeine Zeitung," writes: "Over the Versailles document, the work of malicious dilettantes, hangs a doom that can only be banished by a complete mental revolution and by the honest co-operation of the nations. The formula for this change seems simple enough to us. Every German must be conscious that two generations must deliver to our opponents the savings earned by hard toil. We must also remember that Germany can only pay a small part of the war indemnity from her greatly diminished national wealth, and must, for the most part, pay in labor. For labor, and the product of labor, are the only factors with which the conception of milliards can be approached. . . . But our opponents must realize that only a nation that sees the fruit of its labor will be able to create a surplus in the long run. Hence the necessity of removing all fantastic figures from the war-payments, and of reducing Germany's burden by sober calculation to a practicable measure. And it must be done at once, for we are descending towards industrial chaos with giant strides."

WOLVES DARING

Sheep Killed Near Sault Ste. Marie—Larger Bounty Demanded.

SAULT STE MARIE, Dec. 2.—So numerous and bold are the wolves becoming at MacLennan, just east of the Sault, that stockraisers there are asking relief. During the past two weeks about 100 sheep have been killed in a very limited area by wolves, which have appeared since the bear epidemic subsided. It is estimated that at least 400 bears were killed within the city and its immediate vicinity during the fall. Reports are coming in from the Algoma Central Railway today that the wolves are doing great damage there, particularly at Mile 95, where they are destroying the beaver and deer. The settlers here are demanding that a larger bounty be placed on the wolves, \$25 not being sufficient, largely to induce expert trappers to spend time in an endeavor to exterminate them.

PECK MEETING WAS QUIET ONE

Candidate Justifies His Position and Assails Daily News at Alice Arm.

ALICE ARM, Dec. 2.—There was a large crowd in attendance at the meeting of the Independent candidate, Col. C. W. Peck, V.C., which was held at the hotel on Wednesday. The speakers were Col. Peck and W. W. Wright. There was little heckling and both speakers were given close attention. Perhaps because this was the third political meeting of the campaign for Alice Arm, the audience was more given to reflection than applause. There were several oratorical pauses during the discourses but they were not taken advantage of.

Candidate's Address.

Col. Peck, in his address, gave an account of his stewardship at Ottawa. He said that the territory was an immense one to be looked after by one member. He declared that he was one of the people here and that he had the interests of the district at heart. He would represent it conscientiously and fearlessly if elected. He touched very lightly, when at all, on national politics and federal issues. The burden of his speech was a justification of his position as an Independent and a refutation of the political criticisms of his opposition. He charged the entrenched position of the Daily News several times and, in fact, the Daily News was one of the high hurdles which was brought up continually. The colonel made rather a short speech, pleading campaign weariness. He closed with an appeal for the suffrage of all who were not bound by party ties.

Rev. W. W. Wright.

Rev. W. W. Wright, not introduced by the churchwarden, followed. He said that he had campaigned for parties from Quebec to British Columbia but that now he was an Independent. He was proud of it and felt it an honor to work for and support Col. Peck. He launched into a criticism of the Liberal party and candidate and told of the growing tide of independence and non-allegiance to parties. He said that Liberal supporters were scarce and that the Liberal candidate had been unable to find campaign helpers. He referred to F. T. Congdon and M. A. Macdonald, introducing them as "two political thugs imported from Vancouver." He did not touch upon federal issues. No chance was given for questions from the floor and requests from the audience for the privilege of speaking were refused at the close of the meeting.

TERRACE is a thrifty, growing town. The chances are good that oil will be struck in the immediate vicinity, as seepages have been found, much ground has been staked and a drilling outfit is on its way there. We offer for sale eighty acres of land, 1 1/2 miles from the town on a good road at \$12.50 per acre. This is your opportunity to participate in the enhanced real estate values that will surely follow the growth of Terrace.

THIRD PARTY IN THE STATES

Distress in Agricultural Section Is Causing Much Discontent.

WASHINGTON, Nov. 30.—(By Canadian Press)—Political leaders, Republican and Democrat, are at sea because of the growing evidences of independent political thought and action throughout the country. On the one hand, the recent elections have revealed that the grip of the Republican Party is by no means as strong as it was a year ago and on the other hand the Democrats are uncertain whether they can capitalize whatever dissatisfaction there is with the Republicans.

The widespread distress in the agricultural sections of the United States, from the Dakotas to the Gulf of Mexico, is having its political effects. At least, it has almost unlimited political possibilities.

Some decision has been indulged at the expense of the agricultural "bloc" in Congress. As a matter of fact, this agricultural group, composed of both Republicans and Democrats from the agricultural states, is not only working together in a non-partisan way but it has become a distinct force in legislation. Many believe that it forecasts the formation of a third party, the basis of which will be agricultural and labor voters.

If any leadership arises which is capable of uniting the agricultural voters, of North and South, under a third party banner, there is no telling what might happen in the 1922 and 1924 elections. The mutterings of a third party movement which will spell trouble for both old parties and which will be able to break up the Democratic grip on the solid South, are plainly to be heard.

Much will depend on how the country takes the new tax measure. If it provides the discount which it seems likely to provide, then one may expect a shake-up in the elections a year hence, with a third party much more than a possibility.

CALENDAR REFORM WILL BE DISCUSSED AT ROME IN APRIL

This Will Provide for Fixed Easter and New Years to Be Extra Day.

LONDON, Nov. 30.—Reform of the old calendar and the fixing of a date upon which Easter should fall will be discussed by an international committee in Rome next April, according to the Rome correspondent of the London Times. A feature of the suggested new calendar would be the setting apart of one day by itself, New Year's day. The committee, which will be presided over by Cardinal Mercier, is one of the thirty-two committees forming the International Astronomical Union.

Professor Pio Emanuelli, astronomer of the Speciosa Vaticana is quoted as follows with regard to the proposed reform of the calendar:

"The object of the reform is to make a new calendar which shall be invariable for every year, so that the same day recurs every year on the same date. This would be quite easy to do could the number of days composing the calendar year be exactly divided by seven. To bring about the reform it would be essential to put one day by itself at the beginning of the year, without including it in the calendar at all. This day would stand apart as New Year's day.

"This would be followed by the 364 days, which are to be divided into fifty-two weeks, making the first day of the week a Sunday. The additional day in leap years could be placed after June 30, and like New Year's day be considered as quite apart from the calendar.

"Having thus fixed the calendar it would be necessary to decide on what date Easter should fall. At present Easter falls between March 22 and April 25. It is suggested that in the new calendar the second Sunday in April should be selected as Easter Sunday."
