CARS USED BY FARMERS

Bureau of Statistics Compiles Information Regarding Number in Various Provinces

OTTAWA, Aug. 22:—The number of automobiles and motor trucks on farms has more than doubled in Canada in the 10-year period between 1921 and 1931, according to the Bureau of Statistics, and it has more than doubled in every province. There is on farms in Canada, one automobile for every 2.27 farms, and the distribution for each province is as follows:

- Prince Edward Island, one automobile to 3.31 farms.
- Nova Scotia, one automobile to 3.83 farms.
- New Brunswick, one automobile to 3.26 farms.
- Quebec, one automobile to 5.06 farms.
- Ontario, one automobile to 1.53 farms.
- Manitoba, one automobile to 2.12 farms.
- Saskatchewan, one automobile to 2.10 farms.
- Alberta, one automobile to 2.27 farms.
- British Columbia, one automobile to 2.46 farms.

The number of farms reporting tractors in Canada has increased from 43,578 in 1921 to 97,176 in 1931, an increase of 123%; similarly the number of tractors has increased from 47,455 to 105,059 for an increase of 121.4% in the same period.

FREE STATE LAW ABIDING

Only One Burglary and One Robbery Reported Since 1929

LOS ANGELES, Aug. 22:—There has been only one burglary and one robbery in the Irish Free State since 1929, due largely to the respect in which the unarmed Irish police are held, according to Gen. Eoin O'Duffy, chief commissioner of police, an Olympic visitor here.

Gen. O'Duffy is president of the Irish Olympic Council and president of the Irish Athletic Federation.

Irish police have no vote, are not permitted to marry until they have spent seven years on the force, or are over 30, are not connected in any way with municipal government, and are punished if they are found carrying fire arms while on duty, Gen. O'Duffy explained.

"The fact that police are unarmed in our country has enabled them to enforce the law more efficiently," Gen. O'Duffy said. "The people all are behind them with a whole-hearted respect. It would be considered cowardly to shoot a policeman who is unarmed. I believe that is the reason we have only had 10 policemen killed in the last 10 years."

The police force is under government supervision, and is made up of 8000 men, detailed to 900 police stations throughout the Irish Free State.

AGREEMENTS SIGNED BETWEEN BRITAIN AND ALL OTHER EMPIRE COUNTRIES AND CANADA SIGNS WITH IRISH FREE STATE AND AFRICA

OTTAWA, Aug. 22:—The signing of twelve agreements brought to a close the Imperial Economic Conference Saturday. Seven were between United Kingdom and Canada, Australia, New Zealand, South Africa, India, Newfoundland and Southern Rhodesia.

The Irish Free States had two agreements, one with Canada and the other with South Africa. Canada had further agreements with South Africa and Southern Rhodesia. South Africa had one with New Zealand.

Embodied in the agreement was a clause designed to prevent Russian dumping, particularly lumber.

In the United Kingdom-Canada agreement Canada gets preferences on the following:

- Butter, 15 shillings a hundredweight.
- Cheese, 15% ad valorem.
- Raw apples and raw pears, four shillings and sixpence per hundredweight.
- Canned apples, three shillings and sixpence per hundredweight.
- Eggs in the shell, from one shilling to one shilling and nine pence per great hundred, according to grade.
- Copper, unwrought, whether refined or not in ingots, bars, blocks, slabs, cakes and rods, two pence per pound.

In the agreement free entry into Great Britain is provided for Canadian eggs, poultry, butter, cheese and other milk products for a three-year period, certain, with possible revision after that period; continued free entry to the British market under the import duties act; continuation of the present 10% duty on foreign lumber, fish, both fresh and sea, canned salmon, other canned fish, asbestos, zinc and lead; modification of restrictions against Canadian live cattle on agreed lines; the existing margin of preference on Canadian tobacco to continue for 10 years.

Canada gives the United Kingdom the following: New or increased margin of preference on 220 items in the Canadian tariff and many articles which were subject to preferential rates are transferred to the free list. These changes are understood to be in iron, steel, textiles, chemicals, glass and other schedules but the details are withheld for the time being.

Protection against United Kingdom products are to be given only those industries which have a sound opportunity for success. United Kingdom producers are to receive an opportunity of reasonable competition in Canadian markets.

Canada will appoint a tariff board which will review the tariffs on request of the United Kingdom. Duties against United Kingdom are not to be increased until reviewed by the tariff board. Existing surcharges on United Kingdom products are to be abolished as soon as the finances of Canada permit.

Sympathetic consideration is to be given to reducing and ultimately abolishing exchange dumping duty and there will be modification of the regulations on importation of pedigreed stock from the United Kingdom.

BAYCHIMO IS FOUND

Well Known Hudson Bay Steamer In Solid Ice Seven Miles From Alaskan Shore

POINT BARROW, Aug. 22:—The well known Hudson Bay steamer Baychimo, which was abandoned nearly a year ago in the Arctic, and sighted several times later in the ice pack, is now lying about seven miles off shore in solid ice.

A party of 19 Eskimos left the village with sled and skin boats to try to board her.

Garden Party Lakelse Lake

TERRACE, Aug. 22:—On Friday afternoon Mrs. George Little gave a garden party on the spacious grounds of her summer home at Lakelse Lake in honor of her house guest, Mrs. F. G. Dawson of Prince Rupert. During the afternoon a swimming and diving contest was held. Among those present were many Prince Rupert ladies who are spending the summer holiday at Lakelse Lake.

Canada's Governor-General

His Excellency the Right Honorable The Earl of Bessborough, P.C., G.C.M.G.

BEER PRICE ADVANCES

Dollar a Barrel Added to Producers of Beer Parlor By Commissioner

VICTORIA, Aug. 22:—Effective today British Columbia beer parlor will pay a dollar a barrel more than formerly for draught beer, it was announced today by W. F. Kennedy, liquor board commissioner. Half and quarter barrels will be increased proportionately.

There will be no increase in the price of bottled beer, it was stated. With beer parlors making 110% on draught beer and the government only 25%, Mr. Kennedy said, action was taken for a more equitable distribution of the profit, either by price or in the way of a smaller quantity being served.

PICKED UP OFF COAST

Lone Cruiser From Alaska Has Been Four Months Going to Seattle

SAN LIUS OBISPO, Calif., Aug. 22:—Nearly four months adrift in the vast loneliness of sea and sky, months of clinging to life in face of near starvation, thirst and ever-present threat of clutching waves, have only strengthened Captain Paul A. Riggs' determination to complete the voyage from Alaska to Seattle, he declared today. He was picked up Saturday on the Pacific off Point Buchon and has set to work to repair his battered 37-foot fishing smack, the Novi, which, though disabled, brought him safely through storm and calm.

Riggs left Dutch Harbor April 23. He had been carried to within 900 miles of the Hawaiian Islands and then eastward. He existed on beans, fish and rain water.

STOCKS UP NEW YORK

Brisk Buying Forced Prices One to Six Points Higher Than Opening

NEW YORK, Aug. 22:—Stocks pushed through to new high ground on their recovery in brisk buying today with the best levels of the day having been established as the market entered its final half hour of trading.

MOLLISON ARRIVES

Says This Will Be His Last Long Distance Flight

NEW YORK, August 22—Completing the hop from Port Marnock, Ireland, via Saint John, Captain Mollison landed here at four thirty Sunday, making a total of thirty-six hours flying. He plans to remain two or three days preparatory to his return flight direct to Croydon. He announced he was through with long-distance flying as "Amy Johnson and himself made a pact to make no more long or extremely hazardous hops."

PARLIAMENT WILL HOLD SESSION IN OCTOBER THIS YEAR

OTTAWA, Aug. 22:—The Canadian Parliament will meet some time in October to consider the ratification of trade agreements negotiated during the Imperial Conference.

Queen Charlotte City is Today Beautiful With Flowers, and Life On Islands Much Improved of Late

Problem of Repopulating Deserted Farms One to Be Tackled Before Long By Government of Province

(By H. F. Pullen)

Nearly every part of Queen Charlotte Islands is today gay with flowers. This is particularly true of Queen Charlotte City, a place which has been hit hard by the depression but which will recover rapidly when the lumber business shows more sign of life. Almost every home in Charlotte, as it is commonly called on the Islands, has a pretty flower garden with the blooms at their best just now.

On a recent visit to the village I was particularly struck by the beauty of these little homes, by the optimism of the people and by the fact that everywhere the people seemed to be growing their own potatoes and vegetables and were therefore in a good position to withstand the difficult times.

Skidegate also looks well and the people are expectant and happy, particularly over the possibilities of the Skidegate Sunrise mine.

Most people in these rather isolated villages have their own radios and they get wonderful reception but it is chiefly news of the United States that reaches them. A (Continued on Page 2)

BESNER BACK FROM FLIGHT

Took Mining Party to Winter Location on Liard River and Returned Safely

After being away about three weeks Oller Besner returned last night from Smithers from which point he had flown north in a Junkers plane in connection with a mining venture. He met the members of his party who had gone in by way of Wrangell not far from Lower Post on the Liard River and took them in the plane about two hundred miles to where they plan to operate during the coming winter.

Mr. Besner reports that the country looks very good, from a mining point of view.

ENTERED HOSPITAL

Robert Baird, Inspector of B. C. Municipalities, who arrived here last night aboard the Union boat Catala, is today a patient in the Prince Rupert hospital for medical treatment.

TRAGEDY DETAILS

More Particulars Received of Supposed Drowning on Sunday of Two Hyder Men

Further details of the supposed speedboat tragedy in Portland Canal near Hyder in which Oren F. Hill and Tommy Walters are believed to have lost their lives last Sunday have been received in exclusive dispatches to the Daily News from Stewart.

Hill and Walters left Hyder in Mr. Hill's sea-sled "Tonic," a sixteen-foot outboard motorboat, capable of doing about thirty miles per hour, about 2 o'clock Sunday afternoon. Before leaving, Hill told his wife not to worry in case he should not return until next day.

A search was instituted on Tuesday but disclosed no trace whatever of the missing men. On Wednesday morning Louis Lewis, one of the search boats, found about two feet of Hill's speedboat sticking above the surface of the water about twenty miles down Portland Canal, there being no trace, however, of the missing men.

An intensive search for Hill and Walters which ensued had failed up to last night to disclose any trace with the result that it is now presumed that they were both drowned.

Mr. Hill, one of the early and well known residents of Hyder, was druggist and postmaster there. He was also a director of the Porter-Idaho Mining Co. and was heavily interested in mining property in the district.

Tommy Walters was the son of Mr. Walters of the Provincial Market on Granville Street in Vancouver and the nephew of Frank Reichenbach, well known Hyder merchant. Young Walters took a prominent part in local sports at Hyder.

PRICE OF WHEAT

VANCOUVER, Aug. 22:—Number 1 Northern wheat was quoted this morning on the local exchange at 51 1/2¢ spot cash.

- GERMAN FLYERS GOT AWAY TODAY ENROUTE ALASKA
- Captain von Gronau and his three companions left today at noon in their multiple-engine flying craft for Cordova on the next leg of their rather leisurely trip around the world after spending three days in the city.
- He had planned to get away this morning but owing to the fog which hung low over the harbor all morning the get-away was delayed.

SUCCESS OF CONFERENCE

Undoubtedly the Imperial Economic Conference at Ottawa has been a success, although it is difficult to say today just how great the success has been. At any rate all the parties to the agreements seem to be satisfied and that is a great thing.

Premier Bennett seems to have carried his main point as laid down at the previous conference and his action at that time has been justified by the outcome of the present gathering. He has been abundantly boosted as the one man who has carried Canada through a difficult crisis.

GOOD PUBLICITY

The publicity on the principal news page of the London Times in regard to Prince Rupert and the leading pictures on the illustrated page showing the city and trolling boats is publicity that cannot be purchased. It came to Prince Rupert as a result of the recent visit of the tour organized through B. C. House in London under the provincial government and was partly the result of the efforts of the local Chamber of Commerce in looking after the visitors and seeing that they were given a good time while in the city.

While everyone knows it is difficult to meet payments of any kind in these difficult days, it is very desirable that the Chamber of Commerce should be continued as a live institution and the more members there are, the better it can function.

At Santa Monica Celebration

Rudy Vallee's father-in-law on war path? No, C. E. Webb is just playing big chief in Santa Monica's pioneer days celebration. It's quite all right, too, 'cause he is really police chief of his home town.

QUEEN CHARLOTTE CITY IS TODAY BEAUTIFUL WITH FLOWERS, AND LIFE ON ISLANDS MUCH IMPROVED OF LATE.

(Continued from page one)

large number of them take the Daily News and they discussed freely with me the governmental policies and other news which came to them through this source, often the only source so far as Canadian news is concerned. All expressed the wish that they could be more closely connected with Prince Rupert by means of a better boat service but they realized the difficulty owing to the present paucity of population.

It was at Charlotte that the suggestion was made that there might be a new government policy which would help them very considerably. This was the repopulation of the deserted farms on the islands which they claim is justified under present conditions. They say there are today many farms on the east coast and up the Miller River which were deserted during war days to which the people have never returned.

At the time when the farms were given up the place was so isolated that life there became almost unbearable. Today radios are available. The homes can be connected with the island telephone system and here are good roads over which they can soon reach any of the centres or visit with neighbors.

The road connecting Charlotte with Skidegate, Tlell and Port Clements is a very good one considering its age and the number of people it serves. It might be better in some sections but cars make fairly good time over it and there is no danger in driving over it in the summer. During winter it doubtless becomes rutty and possibly dangerous. It is a very picturesque drive.

Ambrose Collison, a fisherman, had engine trouble when trolling off North Island. He brought his boat into Massett and from there telephoned to Skidegate for someone to meet him at Port Clements. The car was waiting for him when he arrived. He drove through to his home at Skidegate, repairs were made and he was soon back at the Port with his boat once more in good condition.

Life is altogether different on the Islands today from what it was on my previous visit nine years ago and those wishing to make a home where climatic conditions are excellent and where the people have almost everything except frequent boat service with the outside, could not do better than investigate the Islands and particularly the deserted farms on the East coast.

Hungarian Rider Spills In Olympiad

Biting the dust? We'll say so, Old Dobbin looks as if he's drilling for oil. In the olympics, too. Tut, tut. And the Hungarian entry in the cross-country.

Sons of Canada Issue Challenge to All-Star Team

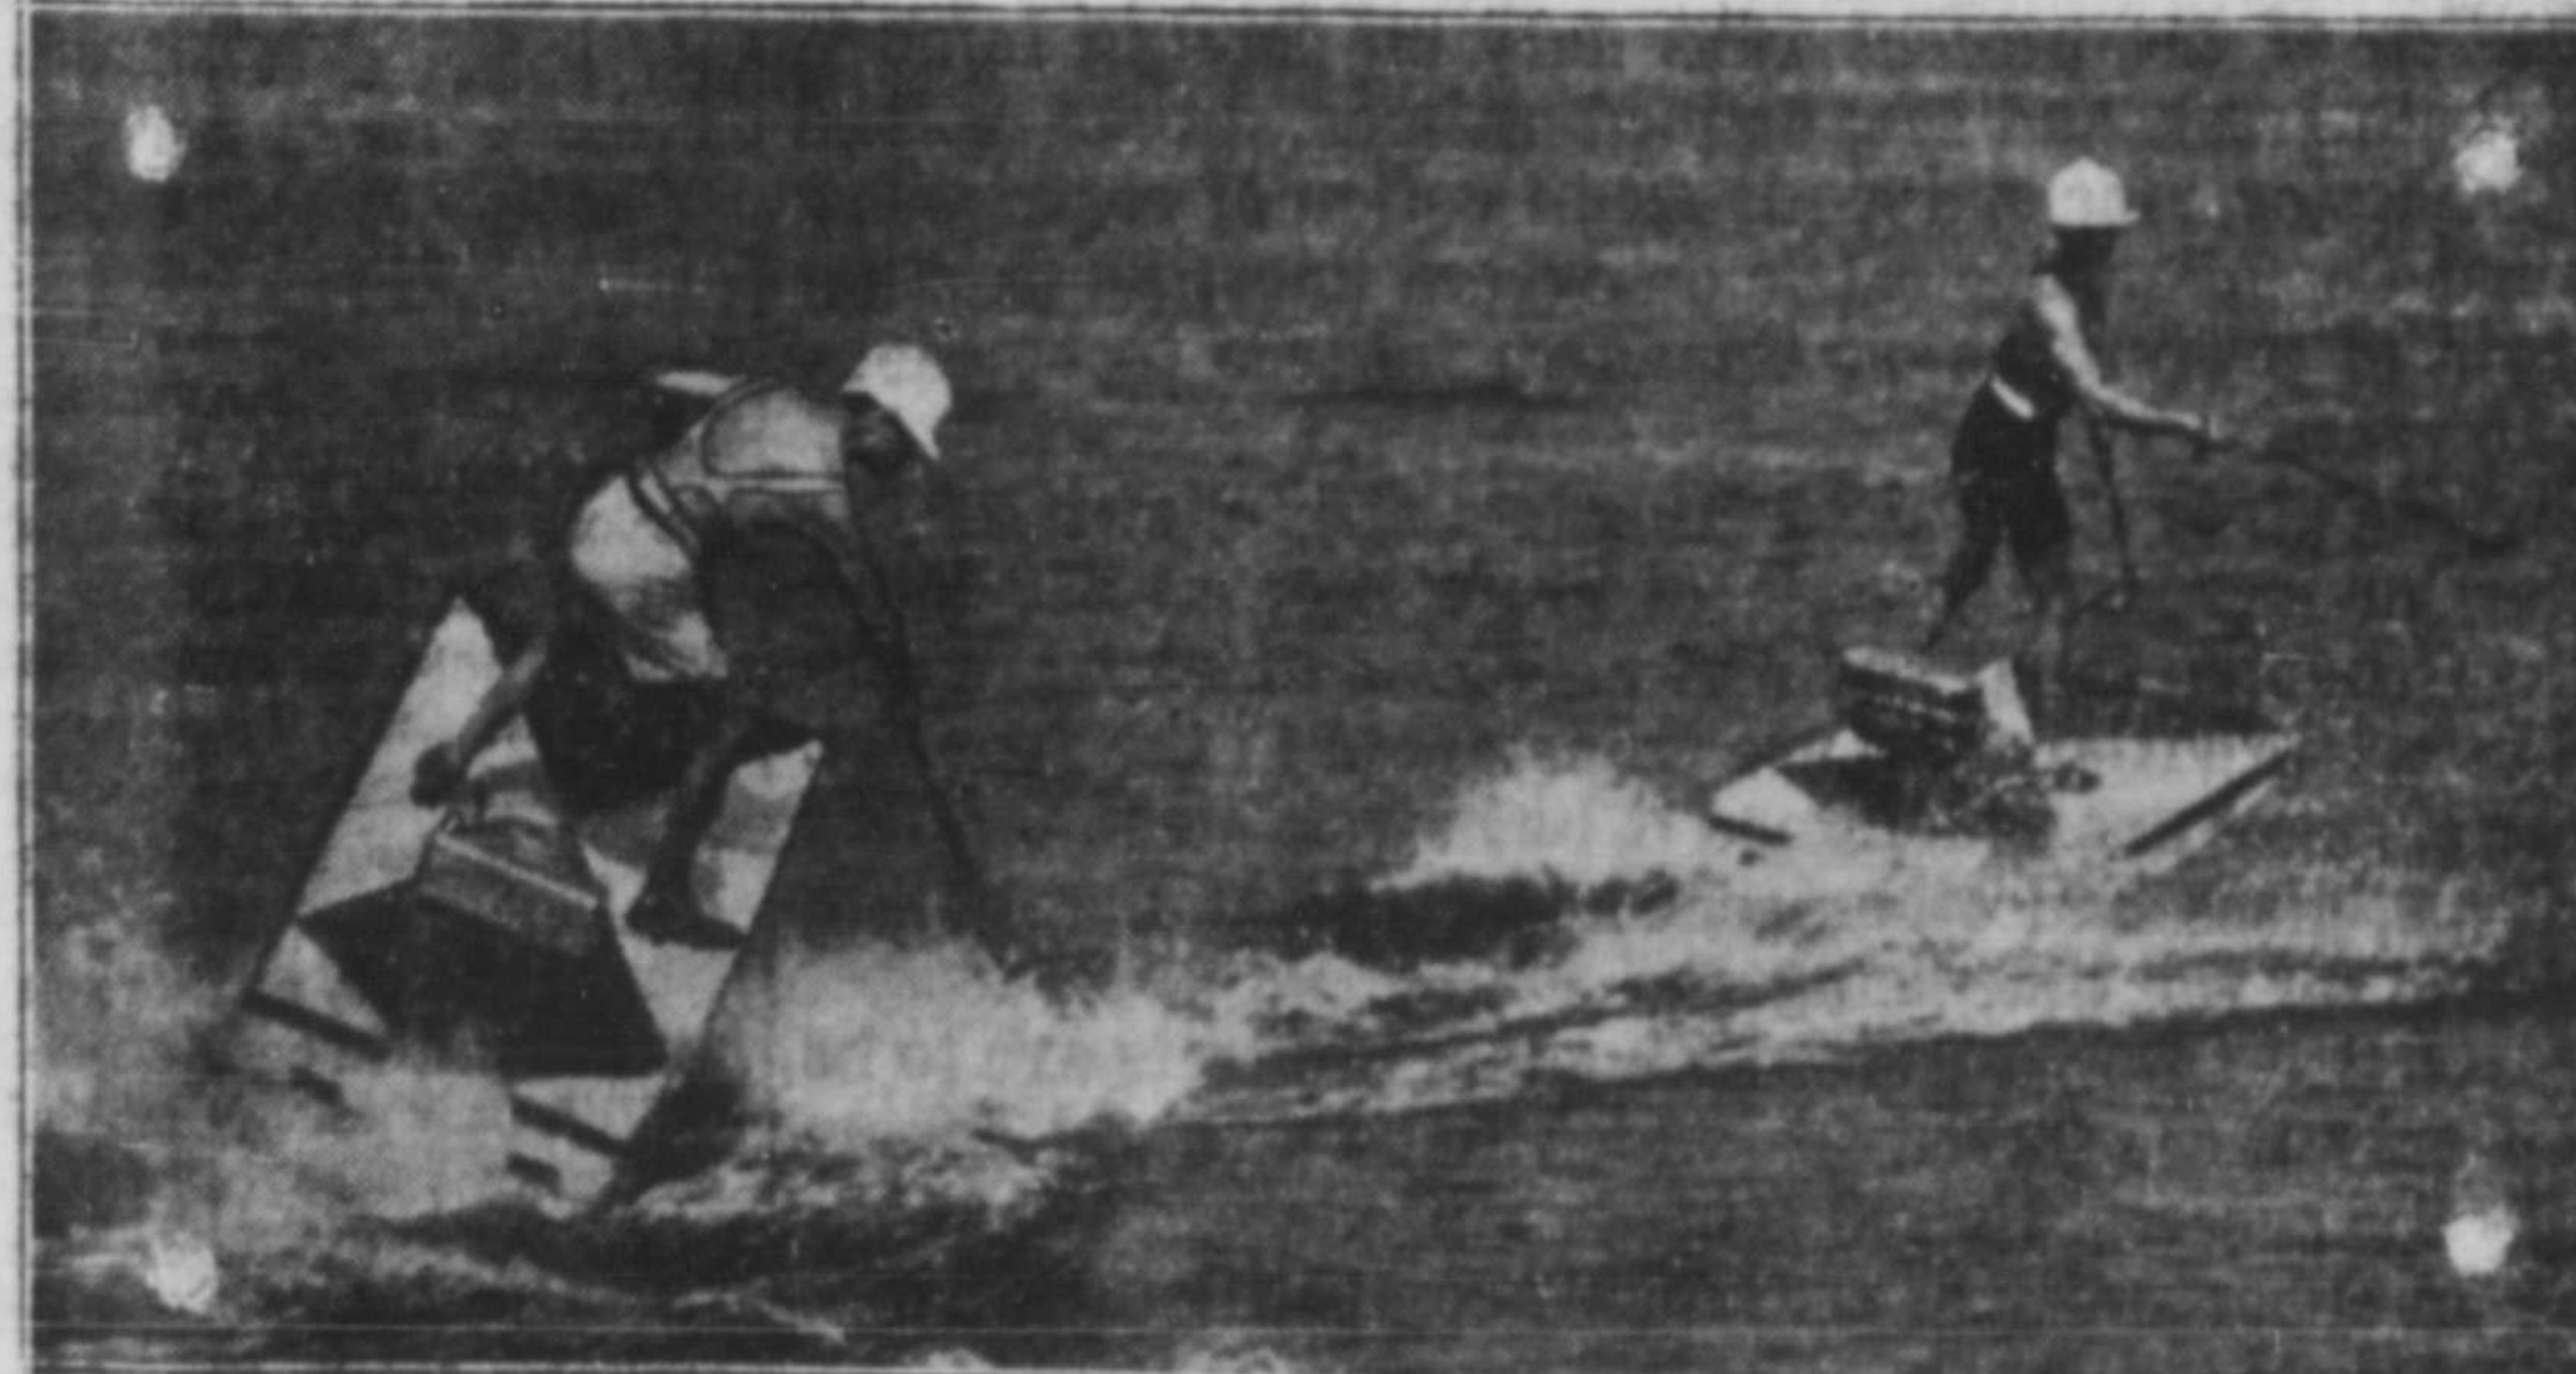

Three-Game Series Arranged to Commence Wednesday Night; Canucks Confident

Sons of Canada, who for the third successive year, have copped the city baseball championship, have issued a challenge to any team in the city for a game or series of games, so that they may demonstrate that it is not all luck which has made them winners again this year.

Accordingly, at a meeting of the executive of the Prince Rupert Baseball Association on Saturday night, it was arranged to have the champions take on an all-star team from the Elks and Empress teams for a three-game series. The series will open on Wednesday night of this week and be continued on Friday. The final game is scheduled for next Monday. Benny Windle has been appointed manager of the All-Stars and he feels certain that they will at last be able to down the "lucky Sons."

Plymouth Colony remained an independent republic for 70 years after attaining its patent.

Water Polo On Aquaplanes Provides Thrills

The maximum in thrills is provided by a new water polo game introduced at Winter Haven, Florida. Chasing a ball on motor-driven aquaplanes is guaranteed to abolish that sinking feeling.

Worm Army Goes In Straight Line

Many Saskatchewan Towns Have Had Amazing Visitations

BROADVIEW, Sask., Aug. 22.—Armies of sugar-beet webworms recently passed through a number of Saskatchewan towns, and have been seen in all sections of the province in amazing numbers this year. These worms, or caterpillars, do not eat wheat and barely touch oats and barley. But when an army passes through a grain field it will clean out every weed except those of the grass family. They like garden truck, however, and have done considerable damage to gardens. The worms evidently march in a straight line and cannot be deflected from their course. When they come to a house or barn they crawl up the wall and over the roof and continue their journey.

REGIMENT LINE-UP

The Regiment line-up for Tuesday night's football game is as follows:

Smith, Blake, Lambe, Edgcombe, LeJong, Wingham, Wilson, Cameron, Vance, Colussi and Christison.

CHALLENGE TO RUPERT

Port Simpson Baseball Nine Wants to Meet Best Team in City During Fair

The Port Simpson baseball team has issued a challenge to meet the best nine Prince Rupert can put on the field, the game or games to take place in Prince Rupert during the fair week.

Port Simpson is reported to have developed some snappy players and they say they do not want to meet any second rate team. They think they can lower the odds of anything Prince Rupert can produce.

The Intermediates are considering the challenge.

BASEBALL TONIGHT, 6:30

HOME OIL LINE-UP

Home Oil line-up for tomorrow's game follows: Pierce, Skinner, Mowat, Currie, Vieira, Gomez, De Rio, Bye, Howe, Tony, Hodgkinson, spares, Davis, Stalker, Parker, Ed.

The Letter Box

GOLF TOURNAMENT TO BE PLAYED AT SMITHERS

Editor, Daily News.— You might be interested to know that the Smithers Golf Club is planning to hold an Annual Golf Tournament. This tournament will be known as the "Northern B.C. Columbia Amateur Open Golf Tournament," to be played over 18 holes, and will be open to men in Northern B.C. The tournament will be played on Monday, September 18. A medal will be presented to the winner which will be kept by him for one year but should a player win three times in succession he will keep it. A prize will be given to the runner-up. All entries must be in the hands of H. G. Houghton, Smithers, B.C., not later than September 11.

This is a new venture in the world of sports in the north. Although our course is only 27 holes visitors are finding that they have to play a better game than what the course at first looks like. We have good fairways, greens, natural bunkers and traps. Our par for 18 holes is 62 and so far no one has made it.

It is hoped that this tournament will become a yearly success. It will, as time goes on, be able to increase our course to nine holes.

If you have any golfing friends please let them know. I can assure you that they will enjoy themselves. There will be no entrance fee.

Yours very truly, H. G. HOUGHTON, Captain, Smithers Golf Club.

The gross tonnage of the United States in 1930 was 13,946,946. Great Britain leading with 20,438,444.

REID LAKE PROGRESSES

New Farming Community Near Prince George Hopeful For Future

PRINCE GEORGE, Aug. 22.—Optimism for the future prevails in the Reid Lake district, which lies about 18 miles northwest of Prince George. Some few settlers located in this area several years ago. Those who have six to ten years' residence claim to be old-timers. During 1929 G. J. Scott of Assinibola, Sask., saw an article in the Family Herald written by W. G. Rogers of Isle Pierre, dealing with the agricultural possibilities of the district. Correspondence developed and, in a short time Messrs. Scott, C. M. Roberts, Hamer, Harkness and others were on their way to the far west to establish new homes. Their families followed, acquired land and set about developing the district. Roads were built, schools erected and a live Farmers' Institute organized under the able leadership of Mr. Scott. New settlers are locating in this fertile district in increasing numbers.

A drive through this district convinces the visitor that the settlers have come to stay. The neat comfortable home-sites, buildings of log secured in the vicinity and surrounded by sturdy fences and well tilled fields indicate pride in the farm and the splendid gardens assure the settler of a bountiful table throughout the winter months.

This community is concentrating on co-operative production of high quality products. At the present time their interest is centered on developing their Red Polled cattle. Many of the settlers brought good females in with them. A bull of outstanding merit was secured by the community. This bull headed the herd of H. E. Waby & Sons, Enderby, for several years and is the sire of the grade Red Polled cow at Armstrong which produced around 12,000 pounds of milk in one year. Excellent quality Red Polled calves are to be found on many of the Reid Lake farms and it is expected that it will only be a matter of a few years until this district is looked to for breeding stock of this type.

P. C. Miller and family and five scouts returned to the city on last night's train from Lakelse Lake where they have been spending the past two weeks camping. Mr. Miller reports a good time was had by all.

Secure Cash During Hard Times

The Classified Ads.

Many people have something in the house they would like to sell which could be turned into money if they knew of a customer. Try a classified advertisement. Most people read the classifieds. For about fifty cents you can let them know about it and it may prove a profitable transaction.

Renting the House

There are a number of houses in the city not rented yet and many people make little effort to secure a tenant. Others who are wise to their opportunities try a classified advertisement in the "For Rent" column and often get results. As one satisfied customer said recently: "Those little ads certainly do bring results."

Some Like Reader Ads.

Some people after trying other kinds of advertising decide to try a reader among the locals and personals. Then they have got results. The cost is a little higher but they have been well satisfied. When conditions are like they are today the newspapers can often help. The price is not very high. Do not lie down and bemoan your hard fate. Try a different kind of advertisement and if that is not successful try again.

Daily News Want Ads.

SUPPORT HOME INDUSTRY

OUR natural resources in lumbering, fishing and mining are second to none and our future prosperity is unalterably attached to these assets. Every person, not only in Prince Rupert but also in the Skeena and Bulkley Valleys can do their bit by giving their mental and physical support. Pull for the lumber industry—boost for the establishment of a pulp plant in Prince Rupert. Take pride in the quality of our sea products and tell the world. Give the mining industry that support and optimism that leads to greater things. When arranging for next winter's fuel requirements remember that you have a local industry already established producing the highest grade article offered on this market.

AIR DRIED SHINGLES

Retain the cedar oil in the wood, affording extra and better preservation than kiln-dried shingles from which the essential oil has been evaporated. Our shingles are made on Queen Charlotte Islands and, as a home product, deserve your preference. Shingle makers wages on the Islands are spent eventually in Prince Rupert, while Vancouver wages never come north. Support a home industry and your own welfare by specifying Air Dried Shingles.

Former Local High School Girl Weds Cariboo Rancher

Miss Virginia Taylor, daughter of Mrs. H. A. Taylor of Prince George, youngest sister of Mrs. H. F. Glassey of this city and herself formerly a High School pupil here, was married at St. Michael's Anglican Church in Prince George on the afternoon of August 2 to Edwin Lance, owner of O. K. Ranch near Clinton. The ceremony was performed by Rev. T. V. L'Estrange.

The bride was given in marriage by her mother and her bridesmaid was Miss Margaret Graham. The groomsmen were Arthur Taylor.

The bride was formerly a member of the nurses' training staff of Royal Inland Hospital at Kamloops. The groom is widely known along the Cariboo Highway.

After a honeymoon trip to Vancouver, Mr. and Mrs. Lance will make their home at O. K. Ranch.

E. P. McDiarmid, manager of the financial house of McDiarmid, Miller and McDiarmid, which placed the bonds recently sold by the city of Prince Rupert, was a passenger north this morning on the Prince Rupert. He plans to spend a few days in the city when the vessel returns later in the week.

BUNKHOUSE ON JESSIE

New Permanent Building to Be in Use By First of September

SMITHERS, Aug. 22.—Construction of a permanent bunkhouse for Jessie Gold Mine has now been commenced and it is expected that the building will be completed and in use by the first of September. The new building will be of log construction with lumber roof and will be of size to accommodate eight men with comfort. James Beaman of Smithers has been put in charge of the construction work.

Continuation of the north drift tunnel on No. 2 vein has been successful during the past week in opening up the third body of good ore in this mineralized zone to a width now exceeding three feet. At the face of the drift a cross-cut to the left has been extended to ascertain the full width but the hanging wall has not yet been encountered. This body of ore is thought to be the hanging wall ore body shown up on surface work above the tunnel. The drift is being continued with a view to determining width, dip and continuity of this ore.

Pack trains have been busy these past few days taking up to the mine additional supplies to continue the work steadily and also, materials for the bunkhouse construction.

The Survival of the Sweetest

(By Barbara B. Brooks)

CORN FLAKE CREAM DESSERT
Four cups corn flakes, 1/4-cup sugar, 1/4-cup butter, 1/2-teaspoon cinnamon.

Put corn flakes through a food grinder, using finest cutter. Mix thoroughly with sugar, butter and cinnamon. Line bottom of cake tin (about 8 inches square) with the mixture, reserving 1/4 cup for the top. Fill with following filling:

Two tablespoons flour, 1/2-cup sugar, 1/4-teaspoon salt, 3 egg yolks (well beaten), 2 cups scalded milk, 1 teaspoon vanilla extract.

Mix flour, sugar and salt. Add egg yolks and mix until smooth. Add scalded milk slowly being careful not to cook eggs. Cook in double boiler until thickened. Add vanilla.

Cool and pour into lined pan and top with following meringue:

Three egg whites, 6 tablespoons sugar.

Beat egg whites until they hold their shape, but not until they lose their shiny appearance, and add sugar.

Spread on top of pie and sprinkle with remaining crumbs. Bake in a slow oven (300 d. F.) for 40 minutes. Cool and serve.

Yield: 10 servings.

Miss Milligan Still to Teach at Prince George

Miss Eliza Milligan, formerly teacher in the Prince Rupert schools, was recently dismissed from the Prince George schools but her dismissal has proved to be irregular and instead her salary has been reduced from \$1,400 to \$1,300 and she will probably be transferred to another school in the city.

Two former Prince Rupert men are members of the Prince George schoolboard, Trustees Pitman and Harlow.

Mrs. J. Borsuk and son Peter arrived today from Hulatt and will be in town two or three days.

Preparing For Movie Careers

These are the daughters of the late Lya De Putti, Hungarian actress, who died recently in New York. The photo was made on their estate near Budapest, where they are preparing for movie careers.

Conditions In Rupert Better Than in South

William Goldbloom, the fur dealer, returned a couple of days ago from Wenatchee where he was visiting his grand-daughter, Mrs. Neubaur, and his great grandson. He also spent a little time in Seattle.

Mr. Goldbloom says conditions in Washington state are worse than in British Columbia. The ranchers cannot sell their fruit for fifty cents a box and the result is that they have no purchasing power. In Seattle too, Mr. Goldbloom said things were decidedly quiet. While Prince Rupert could not be said to be flourishing just now it was better than places in the south. He suggests that they are 50% better here than in most places.

District News SKIDEGATE

The new game regulations whereby the licence for firearms has been increased to \$3.50 have met with disapproval as far as the residents of the Queen Charlotte Islands are concerned. The view is generally held that the Queen Charlotte Islands are already taxed heavily enough without adding extra to their only means of living during these strenuous times.

Madame Rajaut's popular summer resort, "The Dunes," at Tiell has been filled to capacity with guests during the past two weeks. It being necessary, in fact, to turn some away. Among recent guests at "The Dunes" have been Mr. and Mrs. H. F. Pullen and children, Mr. and Mrs. William Brass and children, Miss Olive Van Cooten, Mrs. L. W. Patmore and children, Dr. and Mrs. H. O. Johnson, R. G. Emmerson and son, Mrs. Cousins and child and Miss Rose Rice, Prince Rupert; Mrs. Weatherhead, and Miss De Bou, of Vancouver; Miss B. Weatherhead, Winnipeg; Mrs. Shelbourne and child, Ocean Falls, and Mrs. E. Higgins, J. Allison, D. Allison and A. P. Allison, Queen Charlotte City. Fishing has been splendid and the weather glorious at "The Dunes."

Mr. and Mrs. R. G. McKenzie of the Premier Hotel, Queen Charlotte City, have taken several parties recently to the well known picnic ground at Jungle Beach on the east coast of Graham Island between Lawn Hill and Skidegate.

'So Big' Comes to Capitol Tonight; Taken From Novel

"So Big" is to be shown at the Capitol Theatre tonight and tomorrow night. This announcement should be of interest to admirers of Barbara Stanwyck, who stars in the picture. For "So Big" is regarded by Warner Bros. as one of the ace productions of the company's list for this season, and newspaper critics in all the cities where it has been shown agree with them in this view.

The story of "So Big" has been adapted from the novel by Edna Ferber; and all the rears of "So Big" and admirers of Miss Ferber's writings know that the care and elaborate preparations bestowed by Warner Bros. upon the making of the picture were well worth while. William A. Wellman was given the important responsibility of direction; and the success of the film wherever shown has chalked up another hit for this ace movie-maker.

Charles Gramam, inspector of mines, returned home this morning on the C.N.R. steamer from a visit to Atlin in the course of his routine duties.

Man in the Moon

And here we have the sunshine again. People just arriving from the south are enjoying the change from the persistent rains that have been making life miserable in that part of the country.
