## Irish Peace Terms Before Leaders DEFINITE ARRANGEMENTS MADE TO PAY DRYDOCK CREDITORS

### Definite Peace Terms Handed to Irish Leader and also to Cabinet of Ulster; Terms Not Made Public

BELFAST, July 22.—A copy of the Irish peace terms which was handed yesterday by Lloyd George to De Valera was placed before and considered by the latter cabinet today. No opinion on the terms was requested by the British premier and none was given.

It is expected that the premier will make a comprehensive statement concerning the peace-terms in the House of Commons next week. De Valera left this morning for Dublin.

#### UNEMPLOYED ARE FEWER THAN LAST WEEK IN BRITAIN

LONDON, July 22.—As an indication of the generally improving industrial condition in Britain, the last weekly report of the Labor Department, of the Board of Trade shows the number of unemployed to be 100,000 less than during the previous week.

### Japanese Shot Up Tables In Gaming House

Man Dying as Result and One of Others in Custody.

CUMBERLAND, July 22.—Because the game went against them, a number of Japanese gamblers shot up the tables here last night and as a result an unidentified Chinaman is dying. Japanese from Vernon named Shira is in custody, and two more Japanese are being hunted by the police.

### ADMIRAL FARRAGUT-DISABLED AT SEA NEAR SAN FRANCISCO

SAN FRANCISCO, July 22.—The Steamer Admiral Farragut was disabled last night ten miles north of here when her fuel pipe exploded injuring 14 members of the crew. She arrived this morning in tow of the tug Sea Eagle.

#### FISH ARRIVALS

Five Carloads of Halibut Were Handed at Fish Exchange This Morning.

Five carloads of halibut sold at the Fish Exchange this morning at prices ranging from 9c to 11c. The arrivals and sales were as follows:

Pair of Jacks, 18,000 pounds, and Mayflower, 5,000 pounds, sold to the Booth Fisheries Canadian Co. at 10.7c and 5c.

Eastern Point, 8,000 pounds and Forward, 15,000 pounds, sold to the Pacific Fisheries at 8.9c and 5c.

Gageon, 11,000 pounds and Albenai, 12,000 pounds, sold to the Canadian Fish and Cold Storage Co. at 10.5c and 5c.

Star, 9,000 pounds; Wave, 10,000 pounds, and Ruth, 5,000 pounds, sold to the Canadian Fish and Cold Storage Co. at 9c and 5c.

Cape Spencer, 12,000 pounds; Dolphin, 7,000 pounds, and Daisy, 4,000 pounds, sold to the Booth Fisheries Canadian Co. at 9.1c and 5c.

Murineag, 5,000 pounds, sold to the Pacific Sea Products Association at 10.9c and 5c.

### Was Drowned When Fishing

Albert Pollard, Young Port Simpson Indian, Lost Life off Salmon Boat Last Night

Albert Pollard, a young Port Simpson Indian, was drowned off the Canadian Fish and Cold Storage Company's salmon fishing boat last night between Mid Cap and Klenah Islands, off the straits of Prince Rupert harbor. News of the accident was reported to Chief Minly, of the provincial police, by J. W. Nicholson, comptroller of the Canadian Fish and Cold Storage Co. This morning details are lacking as to the circumstances of the drowning but the provincial police are investigating.

### PROTEST AT NOT BEING INVITED TO PEACE CONFERENCE

LONDON, July 22.—Despatches state that both Belgium and Spain are preparing to protest in Washington against their not being invited to the disarmament conference to be held in the autumn.

### PRIVY COUNCIL AND LIQUOR SEIZURES

LONDON, July 22.—The Privy Council has handed down judgment against the Pacific Wine Co. of Vancouver for the return of enormous stocks of liquor confiscated by the province, which becomes the property of the Liquor Board.

### Stole 100 Cases Scotch Whiskey While Streets Are Thronged with Pedestrians and Watched

VANCOUVER, July 22.—One hundred cases of Scotch whiskey were stolen from the warehouse of the Dominion Trading Company, Columbia Street, here last night while the street was thronged with pedestrians on their way to the ferries.

A nearby warehouse was being guarded at the time and the police were on the watch because two men were overheard on Thursday discussing the projected robbery at the latter place which is near the looted premises.

### P.G.E. TO QUESNEL COMPLETED TODAY

Most Important Centre in Cariboo Reached by Rail After Long Wait.

QUESNEL, July 22.—Naturally there was much rejoicing here today over the completion of the track from Squamish to this town. For years the people have been expecting the railway and have been holding on in expectation of its coming. A regular service is expected to be run here soon.

### Tetzl says Rupert Looks Good to Him

Weather Too Hot in East and Unemployment Serious—Crop Outlook Good.

"Prince Rupert and her weather as well as general conditions look better to me than the East," said C. W. Tetzl, manager of the Edison Shop on his return last night from an 18-day trip, which took him as far as Toronto. Mr. Tetzl also visited Edmonton and Winnipeg and had intended going further than Toronto but it was too hot for him.

"I was born in Ontario and lived there many years but I never saw anything like the heat prevailing there now. Of course I have seen it as warm for a day or so at a time but never for a period of three weeks like this summer. There have been some showers, it is true, but it even seems to get hotter after them. The heat as yet had not affected the crop very seriously except the berries in Toronto. The wheat is showing no signs of suffering. In Ontario and the prairies there are indications of big crops but it is hard to tell if the outlook will be so favorable by the time the harvest is taken. The hailstorms have done considerable damage on the prairies.

**Much Unemployment.**  
"There is a great deal of unemployment on the prairies," said Mr. Tetzl. "In Winnipeg there are a great number of men without jobs. Why men are being sent from the coast for the harvest when there are already so many idle men right on the prairies is more than I can understand."

David Lloyd George leaving the chapel after the recent marriage of his son, Major Oswald Lloyd George, and Miss Edna Jones, daughter of Mr. David Jones.

### Oil Shale Works Practically Assured Queen Charlottes

PORT CLEMENTS, July 22.—A company which has been testing oil shales to the south of here has met with great success and is staking large areas of land with the evident purpose of going ahead with the development of the properties. Well over one hundred square miles has already been blanketed, much of it since the tests have been made. This indicates that the big concern is confident that it has the oil.

It is understood that the company proposes to erect large works for extracting the oil and by-products from the shale, the by-products being almost as valuable as the oil. The supply of shale is unlimited and the oil produced is of high grade. No official statement has yet been made but all agree that extremely good results have been secured from the shale and that the company is about to proceed with further development.

**Staking More Land.**  
The testing of the shale has been in progress for many months and from time to time the company has been adding to its holdings. Now they have staked larger tracts than ever before and great things are expected from the coming developments.

In view of the poor harborage on the east coast it is confidently expected that this will be the port of entry for the supplies that are brought in and that the works will be in this neighborhood. A road is being built from here to connect with Skidegate and the building of

### Drydock's Creditors Will Get Their Checks as Soon as Release Forwarded

M. P. McCaffery, who with J.E. McCrevee went to Ottawa on behalf of the creditors of the Prince Rupert Drydock and Engineering Company, received word today from the assistant deputy minister of marine that on receipt of executed forms of assignment and release the checks will be paid to the creditors who supplied material for the building of the ships here. The checks will be sent direct and not through the receiver.

Mr. McCaffery says he considers it likely the creditors will get close to 100 per cent. of the amount due them. The balance will be paid after the ships have been completed and will come from the disposal of the plant which is now being used. The receiver remains in charge until the work is completed. The form of assignment is in the hands of Mr. McCaffery. Following is the text of the letter received:

**Text of Letter.**  
Under the provisions of an Order-in-Council dated the 18th June, 1921, (P. C. 1713), the Minister of Marine and Fisheries has been authorized to pay the creditors of the Prince Rupert Drydock and Engineering Company, Limited, who furnished materials which have been used or are to be used in the construction and completion of the two ships which were contracted for by the Prince Rupert Drydock and Engineering Company, Limited, fifty per cent. of the price payable for such materials in full and final satisfaction and discharge of any claims which the said creditors may have to recover the prices from the Dominion Government or to be indemnified by the Government from any loss which the creditors may suffer in the premises; it being clearly understood that nothing in the transaction shall be interpreted as an admission of liability by or on behalf of the Government.

**Only For Materials.**  
You will notice that the authorization contained in the Order-in-Council is confined to claims for materials which have been used or are to be used in the construction and completion of the ships.

The underlying idea is that the Government purchasing from the creditors who furnished such materials to the bankrupt company, one-half of their claims for the said materials at full price, and the following procedure for dealing with applications for payments on this account has been adopted by the Department.

**Terms of Payment.**  
(1) An applicant for payment must make out his account or claim in triplicate and have all three copies certified by the Liquidator of the Estate of the Prince Rupert Drydock and Engineering Company, Limited, as having been proved and accepted by him as claims against the Estate.

(2) The applicant should then execute an assignment and release, also in triplicate, in the enclosed form.

(3) The detailed accounts and forms of assignment and release should then be sent to H. A. Eull, care of The Wallace Shipbuilding Company, Limited, Prince Rupert, B. C., for his certificate that the materials represented by the accounts have been used or are to be used in the construction or completion of the ships.

(4) Mr. Butt will then forward these claims to Ottawa where they will be dealt with.

**Notify Creditors.**  
I am sending a copy of this letter to J. E. McCrevee, care of Messrs. Crane Limited, Vancouver, also and would request that the two of you who represented the creditors in your various interviews with the Department, take the necessary steps to apprise all the creditors of the Company of the action the Department proposes to take in the matter and the manner in which their claims are to be handled.

E. HAWKEN,  
Assistant Deputy Minister.

### ALL-CANADIAN HYDROPLANE TO BE CONSTRUCTED

Specially Designed to Meet Requirements and Conditions in Dominion.

OTTAWA, July 22.—An all Canadian flying boat designed and built in Canada especially to meet civil flying conditions in this country is to be constructed under the auspices of the Canadian Air Board in the near future.

### BANK RATE HAS BEEN REDUCED

LONDON, July 22.—The financial condition in Great Britain is showing signs of improvement with the announcement of a reduction in the bank interest of a half percent.

### CANADIAN SOLDIER WILL BE DEPORTED

Held in Connection With Militia Department Exchange Frauds.

OTTAWA, July 22.—Sergeant William Donaney is held in London in connection with alleged sterling exchange frauds against the Militia Department. He has been committed for deportation to Canada.

### FLOODS AT SQUAMISH CARRY AWAY WHARF

VICTORIA, July 22.—Word has been received here by the deputy minister of railways that floods have carried away a large part of the terminal wharf of the P.G.E. Railway at Squamish.

George Little, of Terrace, was a passenger for Vancouver on the Prince Rupert last night.

### WILL SETTLE WAGES CUT

Labor Board Appointed to Adjudicate Cold Storage Dispute.

OTTAWA, July 22.—A board of conciliation has been appointed to adjudicate on the wage dispute between the Canadian Fish and Cold Storage Company and its employees, the latter objecting to a cut in their wages. Action has been taken by the minister of labor who has appointed Colonel S. P. McMorris to represent the company, George Casey to represent the men and Major J. H. McMullin to be chairman.

### MANY KILLED IN BIG NITRATE EXPLOSION

BERNE, July 22.—Twenty people were killed and a hundred wounded in an explosion of a nitrate factory at Bodio near here. Many buildings were destroyed.

**Local Firm to  
Be Congratulated.**

The local firm of Mitchell & Currie is to be congratulated on landing the big contract for the superstructure of the new dock. It is satisfactory to see that a local firm is able to compete with outside firms and that with success. Mitchell & Currie do a lot of work in the city and they aid materially in building up the town and changing it into a modern city.

With the completion of the new dock it will be possible to handle any kind of business from this port. Not only can we co-operate with the people of Alaska in marketing their produce, but we can ship to the Orient. There is no reason why a good deal of the Alaskan product should not be landed here and shipped in big steamers both to the Orient and to the United Kingdom and other parts of Europe.

**Australia Making  
Extensive Plans.**

Australia is making extensive colonization plans. She is talking of putting a million farmers on a million farms. That is big talk, perhaps too big. Canada also has a great work ahead of her. The immense tracts of vacant land could well accommodate many thousands of settlers. What is wanted is men who will come here to work and hew out homes for themselves. Bringing in settlers will tend to make the country more prosperous, but there is more to it than that. The vacant land is here and if we do not colonize it with desirable settlers the undesirable ones will come, for we cannot play the dog-in-the-manger game. The Indians were here before us, but they did not use the land, so the white people overran the country. If now the white people will not use the land the yellow people will overrun it and turn the white people out. We want here a prosperous white country.

While there is perhaps a spirit of self-hatred back of our desire to settle the country, it is also true that many thousands of people would be much better off here than in their old surroundings in Europe. Men and women who come here get a new impetus in the race of life. They see things from a different angle, and those who would never have amounted to anything there develop fast when they come here. It is the land of hope and glory, the country of opportunity. Some few fail as they would fail anywhere. The courageous man or woman never fails. All that is needed here is courage with a determination to work. Success is then assured.

**Everyone Regrets  
Famine in Russia.**

While most of us have not agreed with the Bolshevik program as worked out in Russia and a great many people prophesied all sorts of dire things, it was not anticipated that things would have been as bad as they have turned out. Any supplies of food that the people there may have had have been used up owing to the system of producing only just as much as they needed for the present. Then when the crop failure came there were no stores to fall back upon and the people are starving.

At such a time our sympathies go out to the poor deluded people who now have to suffer for the mistake of their rulers. We are sorry that the condition has arisen, although it was inevitable that some time it would come. Nature is a severe teacher. She exterminates those who do not follow the rules which she has laid down.

**Canada and Treaty  
With Japan.**

The London Times Toronto correspondent sent to that paper what it considered the Canadian point of view as follows:

"Canadians, taken as a whole, overwhelmingly oppose renewal of the Anglo-Japanese Alliance. Their antagonism to it, although embracing a number of reasons, rests upon three main grounds: (1) the attitude of British Columbians, who, faced with Japanese economic penetration of their province, dislike and suspect Japan as a nation; (2) a belief that the Japanese Alliance has served its original purpose and is no longer in harmony with the new international spirit; and (3) a fear that a renewal of the alliance will result in competition in armaments with the United States, with a consequent increasing demand upon Canada's resources for military and naval defense.

"Of these three reasons the third is the most formidable. Canadians have a deeper faith in the value of Anglo-American friendship and a more ardent detestation of expenditure of armaments than the average inhabitant of the British Isles. Living next door to the republic, trading more with its people than with the rest of the world combined, they understand American temperament and ideals, American faults and virtues, and they have become convinced that the destiny of all branches of the Anglo-Saxon-Geltic race is bound up together; that only in deeper understanding and closer co-operation between the British Empire and America lies hope of world-peace and relief from the burden of armaments.

"When, therefore, they are confronted by a proposal which, in their judgment, renders co-operation with the United States more difficult, if not impossible, and also involves heavier demands upon the Dominion's resources for naval and military defense, their opposition to the alliance becomes comprehensible. It is not that Canada is lukewarm about contributing her fair share of the Empire's common defense; it is simply that her people are of the opinion that those who formulate the Empire's foreign policy should endeavor so to direct it as to render the burden of defense as light as possible."

No Return of the Trouble Since Taking  
"FRUIT-A-TIVES"

MR. JOHN E. GUILDERSON  
 P. O. Box 123, Parrsboro, N. S.

"I suffered with Rheumatism for five years, having it so badly at times I was unable to get up without assistance.

I tried different medicines I saw advertised and was treated by doctors in Amherst, also in my home town, but the Rheumatism came back.

In 1916, I saw in an advertisement that 'Fruit-a-tives' would stop Rheumatism, and took one box and got relief; then I took them right along for about six months and the Rheumatism was all gone and I have never felt it since.

Anyone who would care to write me as regards 'Fruit-a-tives' I would be glad to tell them what 'Fruit-a-tives' did for me."

**THE LOVE LIGHT IS  
MARY PICKFORD PLAY**

Entirely New Cast in Film Attraction at Westholme Tonight.

Entirely new faces are to be introduced to the screen in the next Mary Pickford production, "The Love Light," which will be the attraction at the Westholme Theatre tonight and tomorrow.

This thrilling drama is laid in Italy and Miss Pickford selected the principal members of her cast while abroad and had them transported to Hollywood, where the Italian members of the organization were selected in New York and also came to Hollywood especially for this one production.

The cast is one of unusual excellence and every member is especially adapted to the character given them. Miss Pickford was aided by her director Frances Marion, who is also the author of the story.

Raymond Bloomer, Miss Pickford's leading man, although he has played many roles in America, was secured by Miss Pickford in France. Mr. Bloomer had just returned from playing an engagement in one of the leading theatres in Rome. In addition to his successes abroad Mr. Bloomer appeared on the speaking stage in America in support of John Barrymore in "Richard the Third," and also in "Fair and Warmer." He also appeared in Italy with Lina Cavalieri.

The members of the company are unusually fine artists.

**SHE DANCED RIGHT  
INTO THE LENS  
OF THE CAMERA**

A tiny little girl with great big laughing eyes, a reticent nose and elfin Cupid's mouth, has come into fame through her own pluck and desire to "get there."

Scarcely more than two years ago Constance Binney was unknown to Broadway. Nobody had even heard her name. But she was determined that some day "The White Way" would sit up and take notice; they would know her and look for her.

And her expectations have been realized. Today this youthful star's name blazes in incandescent lights on Broadway. Her hour has struck. Things have happened just as she planned and hoped. Her name is a byword to the stage and screen world. And her light dancing feet are the cause of it all. While appearing in several solo dances in "Oh, Lady, Lady," in which she captivated all New York, she was persuaded to try the screen. She literally danced right into the lens of the camera—and incidentally was honored by playing opposite John Barrymore in "The Test of Honor."

The meteoric rise of this girl, still in her teens, to stage and screen stardom was the sensation of the year in amusement circles, and makes a story that reads like a veritable romance. The chief factor, however, in Miss Binney's rise to eminence is the fact that she is the most representative American girl in the public eye, simple, wholesome, unaffected, a "homey" type. To her charm, ability, intelligence, training and perseverance she adds a vitality and an independence that have made the American girl the flower of the world's best young womanhood.

She will be seen at the Empress tonight.

**Ten Years Ago  
in Prince Rupert**

July 22, 1911.

The Prince Rupert Indoor Baseball League has been organized with six teams, the Quill Drivers, Royal Blue Ribbons, Comets, Crescents, Empress Hotel and Kaiten Island Club.

Citizens are complaining about the scavenging monopoly of J. G. Weston which is said to exist. No definite scale of rates has been passed by the council.

Walter Nichol, publisher of the Vancouver Province, is a visitor in Prince Rupert this week.

"Pa, what is a good talker." "A man who can talk and make you actually want to listen to him."—Detroit Free Press.

**PRINCE RUPERT TIDES**

Friday, July 22.
High—2:30 a.m., 19.9 feet.
15:18 p.m., 19.0 feet.
Low—8:59 a.m., 3.5 feet.
21:08 p.m., 3.9 feet.
Saturday, July 23.
High—3:05 a.m., 19.4 feet.
15:50 p.m., 18.9 feet.
Low—9:28 a.m., 4.1 feet.
21:42 p.m., 7.0 feet.
Sunday, July 24.
High—3:42 a.m., 18.7 feet.
16:24 p.m., 18.6 feet.
Low—10:00 a.m., 4.7 feet.
22:20 p.m., 7.0 feet.

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours, from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

The height is in feet and tenths of feet above the average level of lower low water.

**DAILY TRAIN IS DISCUSSED WITH OFFICIALS**

**Reasons Advanced Why It Would Be Advantage to Railway to Run Frequent Service.**  
The need of a daily train service was discussed with the Canadian National officials when they were here this week. It was pointed out to them that there would be much more fish shipped this way than at present if there was a fish train taken out every day. While they were here three car loads of fish were ready for shipment. There were customers to take them but a train could not be made up with only three cars. The result was the fish customers had to get their supply from Vancouver and Seattle and the local fish were put in cold storage. It was not in any way the fault of local officials or of anybody. The fish would have been sold, however, if there had been a daily passenger train running.  
Given a daily train an auction would be held every day except Sunday and there would be a regular stream of fish brought to this port. At present only three days a week are fish sold here and the results is often that cargoes go elsewhere.  
**For and Against.**  
Other reasons for running a train every day over and above the passenger accommodation, would be that milk could be marketed in the city daily, that fruit could be shipped to customers up the line and berries marketed regularly. The objection to the daily service is that only three times a week do the boats meet the trains and on those occasions only could a through service be given. It is claimed that a daily train would be a loss to the railway.

**COMPETITION NOT YET GOING STRONG**

**Five Dollar Prize Yet Open for Those Who Write Verses.**  
The weather was not very good for starting to write verses about an outing. People have not yet got into the swing of it. Who can think about an outing when it is raining?  
Contributors to the competition are reminded that they may write any kind of verse up to ten lines and there will be prizes of \$5, \$3 and \$2 given for first, second and third prizes respectively. Anyone may send as many verses as they wish and they do not need to be subscribers to the Daily News to take part. Five dollars for ten lines is fifty cents a line. If the price is not high enough we will make it higher. Here is what one contributor writes:  
We laid our plans  
For Wednesday  
The rain it bans  
So what d'you say—  
To another date  
For which we'll wait  
Across the Bay.

**TENDERS PAINTING AND SHINGLING OF HOSPITAL REOPENED**

**Board to Await Return of Col. McMordeie Before Taking Definite Action.**  
The matter of opening tenders for the painting and shingling of the hospital was laid over by the board as its meeting last night until the return of Col. S. P. McMordeie, chairman of the building committee. The specifications were read and there seemed to be some confusion in them as to the painting of the building. It was not definitely stated whether the whole building was to be painted at one time or whether the specifications called only for the painting of the new work. It was felt by the board that in the interests of economy it would be better for the whole job to be done in one operation. The matter of putting paper between the present rustic and the new shingling was also discussed.

**The Man in the Moon SAYS—**

MIXED metaphor is still common. Here is an example but it was written some years ago: "More and more the shiny serpent of Socialism is insinuating its way into municipal affairs. With increasing frequency one finds its footprints. Closer and closer sounds the rattle of its devastating chariot wheels. Already it may be too late to nip it in the bud."  
THE man without backbone marries a woman with all jawbone just to make up the general deficiency.  
AND then there's the man who does nothing but talk, especially in other people's time and who never gets anywhere.  
HE likes to gab and blab and blow.  
He's always braying—  
He talks so fast he doesn't know  
What he is saying.  
SOME people are discussing which is the cheaper to marry a disk washer or to buy an electrical affair.  
NEVER despise the common everyday restaurant eggs. You may be ancient yourself some day.  
HERE is another mixed metaphor quoted by the Winnipeg Free Press: "The cloud that tried to stab their happiness was only a false rumor whose bitter taste could not splinter the radiance nor dim the effervescence of their joy."  
"THE man who constantly deceives his wife is a scoundrel," declared the police magistrate. "I should call him a wonder," piped little Henpecked in the back of the court.  
**AUSTRALIAN CENSUS.**  
SYDNEY, N. S. W., June 16.—The census returns for the Commonwealth of Australia give a total population of 5,419,702, an increase of 964,697 since 1914.

**COAST DISTRICT RANGE 1—DISTRICT OF PRINCE RUPERT.**  
TAKE NOTICE that I, Charles Purdy, intend to apply for a license to prospect for petroleum on the following described lands:  
Commencing at a post planted about one and a half miles north of Beaver River and about three quarters of a mile west of Cedar River; thence north 20 chains, thence west 80 chains, thence south 80 chains, thence east 80 chains to point of commencement, containing 640 acres, to be known as Purdy's No. 1 Claim. Located May 4th, 1921.  
CHARLES PURDY, Applicant.

**NOTICE TO CONTRACTORS.**  
Tenders will be received by the Honorable the Minister of Public Works up to noon the 28th day of July, 1921, for the construction of the front part of the Provincial Government Wharf, Prince Rupert, B. C.  
Plans, Specifications, Contract and Forms of Tender may be seen on and after the 19th day of July, 1921, at the office of the Provincial District Engineer, Prince Rupert, B. C.  
By application to the above mentioned office contractors may obtain a copy of the plans and specifications for the sum of five dollars (\$5.00) or a marked cheque for that amount which will be refunded for their return in good order.  
Each tender must be accompanied by an accepted bank cheque on a chartered bank of Canada, made payable to the Honourable the Minister of Public Works, for a sum equal to 5% (five per cent) of the amount of the tender, which will be forfeited if the party tendering declines to enter into the contract when called upon to do so or if he fails to complete the work contracted for.  
The cheques of unsuccessful tenders will be returned to them upon the execution of the contract. The lowest or any contract not necessarily accepted.  
P. PHILIP,  
Public Works Engineer,  
Department of Public Works,  
Victoria, B. C. 171

### TOBACCO AND HEALTH

Eminent Surgeon Advises Regularity in Smoking.

"Smoke the same quantity of tobacco every day," was the advice of Sir James Cantlie, K.B.E., the eminent surgeon, when speaking on "Tobacco and Health," in London recently. Sir James said that a few days previous to his address he read of a man who when he died was more than 100 years of age and who smoked one ounce of tobacco per day. Probably if that man had cut his allowance down to half an ounce one day and one ounce the next day he would not have lived so long. Smokers should not vary the amount of tobacco day by day.

He had seen men in the rifle competition at Wimbledon shooting whilst they were smoking. Even if they were not actually smoking, they had pipes in their mouths, because they found it steadied their nerves. The man with a pipe between his teeth has a certain amount of security. Speaking of the pleasure to be derived from tobacco, Sir James Cantlie said he was sure that it was far more pleasant to be in the company of a smoker than of a man who did not smoke. Life would be much more pleasant if everybody smoked.

### Sport Chat

The hue and cry for more play grounds is ever going up in this city and as time advances the necessity for them becomes more and more evident. No only is a new baseball diamond, suitable also for football requirements, needed but also there must be tennis courts and playgrounds. At the last municipal election this was made quite a feature of the campaign and it has not yet been forgotten. The present council has put in shape the small square at the corner of McBride Street and Sixth Avenue and has also made improvements at McClymont but the good work should be continued if at all possible. It is not likely, however, that much more along this line will be done this season, but it is not too early to look forward to next year. With the experience of this season and last when the athletic ground at the Acropolis Hill has been kept busy nearly every evening and some of the leagues have been forced into the streets, the providing of suitable grounds next year should ever be kept in mind.

While the adult sporting interest in the city seems to be more keenly centred in the Senior Football League and the City Baseball League, the games of the Junior Baseball and Football Leagues are causing no less a degree of rivalry and competition among the youngsters. The quality of the play and the excellence of spirit that is being exhibited augurs well for the rising athletes and the future sport in Prince Rupert. Never before has the sport enthusiasm reached such a pitch of interest and quality of organization among the juveniles than it has done this season. With the experience and practice that they are gaining many of these boys, who now play in the junior leagues, should make excellent material for the seniors in the short space of time. It seems no time since "Warrie" Anderson, "Doc" Shaw, "Art" Mason and others, now Senior stars were playing in the lots and it will be the same with the lads of today.

In the Junior Baseball League, the Tiny Tims and the King Edwards are having quite a time keeping each other out of the lead and the outcome of this league race is very doubtful on account of the teams being so evenly matched. The Juvenile Leaguers are also having interesting contests twice a week on Seventh Street. Although the Falcons seem to have a pretty good hold on the premier position at the present time, the Midgets are formidable contenders and have lots of chance yet to wrest away the head place. In the Junior Football League there may be many good contests yet between the Dry Docks and the Athletics for the former have not yet, by any means, won the championship even if at the present time, they may be a couple of games in the lead.

### HUNT COUGARS THIS PROVINCE

Famous Expert Engaged by Game Board to Kill Fierce Animals.

VICTORIA, July 22.—The game conservation board has engaged the services of John Clark, said to be the ex-champion cougar hunter of America, to hunt cougars in different parts of British Columbia. The object is to protect the wild life and the sheep flocks from the depredations of these animals, especially on Vancouver Island, where they are numerous. Clark has done extensive cougar hunting work in Washington and other states and is at present chief cougar authority on the staff of Dr. Nelson, head of the biological survey of the United States.

### FINE SHOOTING OF COL. KEEN

Won Westminster Cup at Vancouver Yesterday and Governor's Trophy.

VANCOUVER, July 22.—Col. J. F. Keen, the veteran shot of the Second Battalion won the Westminster cup with five successive bullseyes on the shoot off yesterday against three crack shots. He was also top man in the first stage of the Lieutenant-Governor's trophy shoot.

### BISLEY WINNER HAS SHOT FOR TWENTY YEARS

Sergeant Cunningham is 62 Years of Age—Gets Good Prize.

BISLEY, July 22.—Sergeant Cunningham, the sixty-two year old Bisley veteran who won the King's prize this year after for twenty years competing, with a score of 226, gets a cash prize of £250 and a trophy.

### COLORED BOXER IS BEATEN BY SEATTLE BOY

Eud Ridley Wins Decision at Vancouver over Danny Edwards.

VANCOUVER, July 22.—Eud Ridley of Seattle won the featherweight championship of the Pacific Coast when given a decision over Danny Edwards of Oakland by two out of the three judges who officiated. The bout was for ten rounds and was well contested. Edwards gave a fast exhibition and the fact that he showed a reluctance to assume the aggressive in the first three rounds was the only thing that lost him the decision. He is a colored boxer.

### DAVIS CUP PLAYERS FOR CANADA CHOSEN

Bennett, Holmes, Milne and La Framboise Will Tomorrow Contest with Australian Players.

TORONTO, July 22.—The Canadian team to enter in the Davis Cup lawn tennis championship elimination contest with Australia will comprise Paul Bennett and G. D. Holmes, of Winnipeg, A. Milne, of Vancouver, and E. H. La Framboise, of Montreal. The selections were made yesterday and the games will commence tomorrow.

### MOBILIZATION REPORT AT STOCKHOLM FROM FINNISH SOURCES

STOCKHOLM, July 22.—While the Russian legation at Helsinki disavows the reported general mobilization in Russia, a Finnish report today declared the Government had proof that the peasants in Karelin and other districts had been mobilized.

## TROUBLE IN HIGH SCHOOL AT VICTORIA

Former Superintendent of Education Centre of Controversy at Provincial Capital.

VICTORIA, July 21.—There has been a long controversy in school matters in this city which is now about ended but which may break out again at any time. A short time ago Dr. Robinson, formerly superintendent of education and now principal of the Victoria High School, gave five of the Victoria High School teachers notice that their work must improve or they would be dismissed.

The matter was taken up by the teaching staff generally and all but one signed a request to the Department of Education asking for an official inquiry into the condition of the schools. They claimed that Dr. Robinson had not upheld them in matters of discipline and that any lack of efficiency was due to his attitude toward the teachers.

### Conditions Bad.

A commission was appointed and found that the condition was not all that could be desired. It recommended that there be no dismissals at present but that both Dr. Robinson and some of the members of the teaching staff must change their methods and give better service.

There, the matter now stands. Dr. Robinson has written a letter to the Victoria school board in which he says that the present condition of affairs is due to "intrigues and conspiracies" and the inefficiency of high school teachers. Tabulated the reasons given are:

- 1. Inefficiency on the part of teachers and absence of esprit de corps among the students.
- 2. The tendency on the part of

Popular and Reliable

10c CIGAR

Union Made in Vancouver Since 1906

Teacher bodies to combine to support inefficient teachers.

3. Learning that five of their number were to be dismissed, High School teachers demanded an investigation in order that they might "come back at the principal."

1. "Certain intrigues and conspiracies against the principal on the part of some two or three members of the staff."  
Inspector Deane, formerly assistant superintendent of education under Dr. Robinson, has now been appointed municipal inspector with special instructions to clean up the high school difficulty and secure efficiency there.

## SILVER ORE CARRIED FROM MAYO TO DAWSON

DAWSON, July 21.—The steamer Canadian arrived from Mayo brought a barge of 250 tons of Keno Hill ore for the Yukon Gold. This cleans up the big lot hauled to Mayo during the winter, and only about twenty tons more of the company's winter output, which is at various points along the trail, is yet to come down. It is expected here soon and will give a grand total of 2,350 tons of silver ore shipped by the company as the result of last winter's operations. The shipments all have come to Dawson and been forwarded to St. Michael by various lower river steamers and barges, and will go from there to a coast smelter. Six different steamer trips have sufficed to bring down the ore from Mayo to Dawson this spring, and each shipment aggregated 250 to 544 tons.

### Pioneer in Theft.

"A rather seedy looking old fellow."  
"That's Zeke Toppit," said Squire Witherbee. "Ever hear of Zeke?"  
"I never did."  
"He's the village miser. Zeke went on a buyers' strike forty years before the World War and he's still out."—Birmingham Age-Herald.

The Chevrolet Motor Co. reduced the prices of all their models in May.

Present prices are the lowest possible, having regard to maintaining the quality of the output.

Purchasers of Chevrolet Cars in Prince Rupert pay exactly the same prices as are charged for the same models in Vancouver. Let us show you the different models and quote prices and terms.

## SIR ADAM BECK TO U. S. PEOPLE: CO-OPERATION

Head of Ontario Hydro-Electric Commission Speaks of Ideals.

TORONTO, July 22.—"Let us proceed as brethren of the same house with this to which we have set our hand—the opening of channels to the sea. If your country fears your part of the cost, remember what the municipalities in Ontario have done. Build a few less dreadnaughts—and you can carry it on without trouble or burden to anyone. Thank God, the two great peoples of this continent do not require guns to defend themselves from each other."

This ringing call for brotherly co-operation by Canada and the United States in perpetuating for all time the North American ideal of peace and unity—this frank counsel to lessen the making of war machines—was uttered by Sir Adam Beck at a civic luncheon to the delegates on the inland-water tour. It came from the heart of a great Canadian, and it swept into a frenzy of enthusiasm two hundred men who are makers of contemporary history in the land below the border. Rising to their feet in unrestrained appreciation, the guests of the city broke into applause that could not be stifled. Again and again the speaker was forced to bow before a demonstration of kinship such as Toronto has not witnessed in many a day.

### Wonderful Project.

"This is a gathering second to none that I have known of in this country," declared the speaker, "just as there are no greater problems before us today than those of power and transportation. We in Ontario are responsible for the greatest power project on the face of the earth, and it was initiated by a handful of people, as compared with the population that you represent."

"Outlining the results secured in this Province from development of water resources, the speaker hoped that the time was near when the United States would see its way clear to like enterprises. The cost was a phantom, he said, conjured up by those who had made no study either of transportation or of power, and the history of Hydro in Ontario had gone to show that the investment was an extraordinarily profitable one."

### Fewer Dreadnaughts.

"Let us go ahead," he said, "and if your country gets stuck for its part of the cost, the municipalities in Ontario will pay it for you. (Laughter.) Build a few less dreadnaughts—and you can carry it on without trouble or burden to anyone. (Cheers and applause.)"

"No imaginary line; neither, high protection under a Harding Government or lower protection under a Farmers Government, can eliminate the conditions under which we must live together for all time to come on this great continent. The wasteful course of waters should cease. It must stop. We must work hand in hand. On the St. Lawrence let our two Governments build a dam. Let them develop those God-given powers to their full, for the good of all our people. I am speaking for the people of Ontario—and I think the Premier would have me do so—when I say that we are with you body and soul in this great effort for the people of a continent."

**PRINCE RUPERT MUSIC AT SMITHERS CHURCH**

SMITHERS, July 22.—The service at the Union Church last Sunday evening was rendered bright and attractive by the very effective assistance given by visitors from Prince Rupert. The program included a violin solo, "Angel Serenade" by Prof. H. Aubrey Prece; solos "The Children's Home" and "The Better Land" by Miss Marjorie Lancaster and "Come ye Disciples" and "O Saviour Divine" by A. J. Lancaster. There was a good attendance and much appreciation was expressed of the very able rendering of the various items, both instrumental and vocal.
