The last raft is being completed this week and the camp will then be finally closed. About eight million feet of all has been taken from this camp.

Mr. Doby says there is no activity on Masset Inlet but by campers went in there about two weeks ago.

DAVIS CUP AND PROBABLE AMERICAN DEFENDERS.

William N. Johnston, who, with Tilden, brought the much coveted prize to America after spirited competition with Australia's best.

William T. Tilden, world's tennis champion, who looks for American victory in the greatest court match ever held.

The trophy for which many nations will contest, won by Tilden and Johnston. The cup is on its way here and will be on exhibition at the United States Lawn Tennis Association, No. 20 Broad street, next week.

John S. Myrick, president of the United States Lawn Tennis Association, announced at the meeting of the committee in charge of the dinner to be given the Davis Cup team on April 12 that Sir Auckland Geddes, Ambassador to the United States from Great Britain, would be a guest of honor. In view of the fact that the team which won the trophy this year played both in England and Australasia, it was considered particularly appropriate that the British Ambassador should be present. His acceptance, inspired partially, perhaps, by his own interest in the sport was, therefore, most gratifying to the committee.

As Mr. Myrick said:—

"The fact that the British Ambassador has done us the honor of accepting our invitation shows clearly the position which tennis has attained internationally and promises to make this dinner the most important event of the kind that has ever been held."

Organization of the committee was completed at the meeting of the University Club, this being very well attended. The dinner will take place in New York city. In addition to the Davis Cup team, members of former teams and men active in tennis throughout the United States are expected to be present.

LITTLE CHANCE OF THE AMENDMENT CARRYING

VICTORIA, March 31.—The liquor bill comes up in the Legislature today when Thomas Uphill will introduce an amendment in the form of a clause giving license powers for beer sale to municipalities, which would have absolute control over such sales.

Seven per cent proof spirit beer is provided for and treating is forbidden and no other liquor is to be sold in the same premises with beer. It is not likely that the amendment will be accepted by the Legislature which defeated all special beer sales in clubs or hotels when the bill was in committee.

The fishing schooner Chief Zabassa which has been operated by the Canadian Fish and Cold Storage Company up till this year on what is known as the company lay, is leaving for the fishing grounds on Saturday as an independent boat. This means that the members of the crew all share in the result of the trip and the catch is sold by auction along with other fish offering at the time of her arrival.

Capt. Candow is in charge of the schooner. She carries six dories, which means twelve fishermen as well as the captain, engineer and cook.

DAILY EDITION.

Election May Be Almost Any Time.

While the Daily News has taken the view that an election this year is not very likely, there are increasing evidences that the Dominion Government is weakening and that there is a probability of some drastic action being taken by Premier Meighen in the near future.

The first of a series of letters defending the administration of the railroads has been received in which it compares the operating expenses of the Canadian National with those of the C. P. R. and tries to explain why the road had such a large deficit last year.

Tax Reduction Was Expected.

It was expected that this year there would be a considerable reduction in taxation. The experiment in railway ownership and operation prevents this.

This is the one thing just now that is stirring the financial interests that are backing Premier Meighen. They are feeling the pinch and to no good purpose expect to see an ever bigger debt and a heavier tax next year.

It is generally understood that there is a demand for a change in the administration of the National Railways. Not only the minister of railways but possibly the president of the concern may have to give place for someone who will be expected to produce results.

Locally we have had a very stirring example of the inefficiency of the management of the railway. The failure to provide fish cars to handle one of the best paying departments of the road, is an indication of the general trend of affairs.

2. If so, what was the expense of this trip, including wages of those employees during the period they were engaged in same?

4. Was the purpose accomplished?

1. Yes.
2. \$1,065.08.

H. S. MUNRO WAS AT CASSIDY MINE

Says Plant is Not Paying and Company would be Willing to Lease It

"We are not making 5 per cent on our investment at the Cassidy coal mine," said H. S. Munro, general manager of the Granby Consolidated Mining, Smelting & Power Co. recently, "and would gladly rent it to anyone offering us a reasonable return."

Mr. Munro thinks that coal prices charged the public generally are too high, but cannot see any immediate prospect of a drop. With falling production costs which are now slowly taking place the price will probably be down a dollar a ton at the pithead before the end of the year, however. Educating the consumer to use slack coal, which is quite satisfactory for domestic purposes, is a solution which he suggests.

Mr. Munro went North to Anyox last week after having been in the south visiting the Cassidy plant.

Bruce Johnston, the local manager. Mr. Watson, a director of the company building the hotel, will make his residence here this summer.

C. A. Waite returned last week from a fortnight's business trip to the prairies. He reports that many farmers there would come to the Terrace district if they could dispose of their holdings.

The Terrace Board of Trade has passed a resolution petitioning the G. T. P. to reserve a portion of the right of way between the town and track here for use as a park.

BOILS SO BAD

HAD TO
GIVE UP WORK

From the days of Job, up to the present
time, boils have been one of the afflictions
of the human race.
An itching and itching you may
do will not prevent them from breaking
out again.
Boils are simply caused by the bad
blood bursting out, and the bad blood
must be made pure before the boils will
disappear.
Burdock Blood Bitters, which has been
on the market for over forty years, is
well known as the greatest blood medicine
procurable.
It purifies the blood by removing every
particle of food matter from the system,
and when this is done the boils vanish,
and you should never be troubled again.
Mr. James Facer, Newport Island, Que.,
writes: "I was troubled with boils on
my back and neck, so bad that I was
obliged to give up work. I tried several
remedies, but got no relief. Finally I went
to a doctor, and he treated me for several
weeks, and all without benefit. At last a
friend told me of Burdock Blood Bitters,
so I decided to give it a trial. I got three
bottles, but before I had taken two the
boils were all gone. It is eight months
now, and I have had no return of the old
trouble, and have never felt so well."

larn Co., Limited, Toronto, Ont.

WAR VETERANS
GAVE SMOKER

Newly Organized Band Made Its
Initial Appearance and Did
Itself Credit.

There was a good turn out of
veterans and their friends at the
smoker held by the Great War
Veterans' Association in the
rooms on Third Avenue last
night. The feature of the enter-
tainment provided was the initial
appearance of the newly organized
band in public performance. There
are twenty members now under
the capable direction of R. Green-
field and their selections last
night were rendered in most cred-
itable and pleasing style. Indeed
great progress has been made in
the few weeks since the band was
organized and it is becoming a
body that will be a credit to the
city as well as to the association
under whose auspices it has come
into existence.

Athletic Outlook

President J. H. Kelly was the
chairman at last night's meeting
and in making his opening ad-
dress. He touched on athletics in
the city and the part which the
G.W.V.A. had taken and intended
to take in that line. He regretted
the circumstances that had caused
the association to make poor
showings in the basketball, whist
and billiard leagues, but with the
closing down of the drydock in
the fall many of the best players
in each series had left the city
with the result that interest had
waned.

Football Ambitions.

Mr. Kelly wished to assure the
various leagues that the inten-
tions of the association had been
ambitious and he was confident
that future showings would be
better. Particularly in football
the G. W. V. A. was out for the
season. The president also ap-
pealed for the support of the
citizens as a whole for the band
which was now getting along so
splendidly. Shortly a big band
concert and smoker will be put on
in one of the theatres. Next week
the semi-annual meeting of the
association will take place when
future policies will be outlined.

At the concert last night the
band rendered "Naval Militia"
march, "Piedmont" overture,
"Lovelace" waltz and "Boss de
Commande" march. The selec-
tions were received with much ap-
plause and several encores were
demanded. Ed. Ross, Robert
James, George Gray, E. W. Davis,
R. Robertson, H. Pallinson and
Captain Formby gave solos. Jack
Stewart gave a step dance, Algie
Hunter and Jack Newman mono-
logues, while James Peyton ren-
dered a delightful cornet solo, ac-
companied by the band. In the
course of the evening humorous
refreshments were dispensed.

Moving a mountain
with a teaspoon

Moving a mountain with a teaspoon may be possible, but the
method is not to be recommended.

Establishing Provincial or Dominion-wide demand for one's goods
may be possible without newspaper advertising, but again the
method is not to be recommended. You can prove this for your-
self by asking the first twenty persons you meet such questions as:

- What brand of collars do you wear?
- What kind of shaving soap do you use?
- What breakfast food?
- What tea?
- What cocoa?
- What coffee?
- What underwear?
- What chewing gum?
- What tobacco?
- What razor?
- What cigars?
- What mustard?
- What sugar?
- What shoes?
- What motor car?
- What tires?
- What brand of anything?

Irrespective of location, the answers will reveal the names of
products advertised in daily newspapers. This condition is not
accidental. It is the result of ambition and vision and courage
—particularly courage—upon the part of the manufacturers.

Daily newspaper advertising is not a venture to be undertaken
lightly—but once started and persisted in, it will turn Dividends
of Demand that no power on earth can forestall.

If you are not quite sure how to go about
Daily Newspaper Advertising, write to us and
we will advise you.

FATE DECIDES ON RESIDENCE

Fine Place Won by Richard Carrell at Bermuda with Dice

HAMILTON, Bermuda, Mar. 31.—Richard Carrell won "Norwood," a fine residence property on the shore of Hamilton Harbor and one of the show places of Bermuda, by drawing lots yesterday with two other persons in compliance with the provisions of an unusual will of his uncle.

Henry Derrell, former owner of this estate, could not decide which of his three nephews he would make his heir, so he stated in his will that they should throw dice and let fate decide the matter. But in the interval his sister, Miss Harriet, was to retain a life interest and continue her residence at "Norwood."

Miss Darrell died in January last and arrangements were then made to carry out the terms of the bequest. It was thought best, however, to modify the plan to the extent of substituting slips of paper which were shuffled in a box for the dice throwing. This was consented to by all parties and the lucky nephew is now possessed of the ancestral estate.

Benny Facff, outfielder of the New York National League baseball team, is quarantined at his home in Lancaster, Pennsylvania. Mrs. Kaulf is suffering from a severe attack of diphtheria.

The fourth game in the Stanley Cup series between Ottawa and Vancouver will be played this evening and if Vancouver wins a fifth will be necessary which will be played on Monday night next.

Hans Wagner, once the National League's star shortstop, will be succeeded this year in his old position with the Pittsburgh Pirates by Rabbit Maranville. Wagner says that Maranville will work wonders in the Pittsburgh infield and that there will be more double plays and rapid stunts pulled off this year than Forest Field has seen for many seasons.

Jimmie Mitchell, of this city, played half back in the semi-final game between the University of B. C. and St. Andrew's for the Mainland Cup last Saturday in Vancouver. The game was won 3 to 1 by St. Andrew's who will now play in the finals.

Tommy Burns and Joe Becket have been matched for another fight prior to Becket's coming to the States this year. The clash is to come off in May and is the outcome of a little fracas which occurred recently when Becket slammed Tommy on the nose on account of some things the latter had written of Joe in articles for the press.

"You Are Working Too Hard, John"

"WELL, I cannot help that. I am trying to figure out how the business is going to pull through and meet the liabilities with prices falling the way they have been lately."
"But, John, if anything happens to the business your health will be more necessary to you than ever, and you cannot afford to take chances of putting such a strain on your nerves. You are looking so worried and nervous, and you do not half sleep."
"What am I to do? You know I have got to keep plugging along and try to see things through."
"One thing you can do is to begin a treatment of Dr. Chase's Nerve Food. You know how well that brought me around when my nerves gave out and I was so miserable."
Mr. Charles E. How, R. R. No. 5, Aylmer, Ont., writes:
"My system became generally run down, and I suffered from dull, heavy headaches. I was nervous, could not sleep at night, and my muscles used to twitch. My appetite became poor. I had indigestion and weak spells. I consulted a doctor, who gave me a tonic, but it did no good. I used other remedies, too, before finally trying Dr. Chase's Nerve Food. I found that this did me more good than anything I had ever taken."

CLEARING BANDITS FROM HOLY LAND

Notorious Leader Killed and Band Scattered, While Mueira is a Fugitive.
JERUSALEM, March 31.—Bandits have flourished in the Holy Land as well as in other parts of the world since the beginning of the war. The police are now trying to put an end to their activities.
Abdul Hadi Kaha, the notorious outlaw leader, who is said to have several murders to his own personal credit, was shot and killed at Zichron Jacob recently while attempting with several companions to escape arrest.
The Galilee district police, in co-operation with the authorities of Ajlun, successfully attacked the Speitan section of Mueira's gang of bandits at Kafre Abil and captured several of them. Mueira himself is a fugitive on the other side of the Jordan and it is believed that his followers are scattered.

A MAN pays attention to a girl, then he pays her bills and later he pays the doctor.

IT was a labor leader who tried to explain the system of direct action to his wife and since she adopted it, he is sorry he spoke.

THE latest thing in censorship is to have persons go around among the guests at a dance and supply with shawls those not fully equipped with covering below the neck. If all are to be covered, it will take an immense number of shawls.

AND what about a shawl around the knees?

SKIRTS are all right as far as they go, but some of them do not go very far.

"DOCTOR, doctor," exclaimed the man over the telephone. "My mother-in-law is at death's door. Come and help to pull her through." Having a mother-in-law of his own the doctor went.

LIFE would be all right if one did not have to get up in the morning.

ANY excuse is good enough to keep a person in bed an extra half hour in the morning and a still flimsier excuse is needed to make him stay out a few hours at night.

ONE case where the lower is higher than the upper is found in the case of sleeping berths.

HOW blind some girls are. They never seem to realize they are pretty unless you tell them. That is why they like it.

Here's Another Labor Saver!

After the soaking in gasoline in the cleaner we showed you last week, this machine—
THE "EXTRACTOR"

—by centrifugal force removes all the moist gasoline and dirt. It revolves at 4,500 revolutions per minute and the specks of dirt and drops of gas just fly out of the garments. It is a marvel. No shaking or tugging at the clothes or straining any weak parts. The garments lie quiescent, but the dirt gets out quick!!

SELL HORSE FOR MATCHES

Various Causes for Discontent in Russia under Soviet Regime

STOCKHOLM, Mar. 31.—Russian peasants south of Moscow gladly sell a horse for three boxes of matches or a kilo of salt, it is declared by persons in touch with conditions in the interior of the country.

Observers cite this state of affairs as the cause of the counter-revolution in March, which, they say, began to take definite form in January. Unwieldiness of the Soviet administrative machine, the differences among the Bolshevik leaders and the fuel crisis with consequent stoppage of transportation and lack of food are given as the reasons for the subversive movement.

Discontent which was prevalent throughout Russia during the war period, but concealed in the presence of the invading enemy, could no longer be repressed when the fighting men returned home to find want and distress.

Sign of Revolt

The first signs of revolt against the existing order are said to have been apparent at the Russian trades-union congress in Moscow last November. There were further evidences of dissatisfaction in the eighth All-Russian Soviet Congress which convened in Leningrad at Moscow last December. These symptoms of reaction, it is stated, were unapparent on the surface, but made themselves felt among those behind the scenes. Harmonious resolutions were adopted, but the attack came from a quarter whose importance could not be doubted.

In this Eighth Congress, the metal workers' and miners' unions

SHORT OF BREATH Could Hardly Walk Without Resting.

When you go to a physician to be examined for any heart trouble one of the first questions he asks is: "Are you short of breath?"

Now, when the heart becomes affected there ensues a feeling of a choking sensation, a shortness of breath, palpitation, throbbing, irregular beating, smothering sensation, dizziness and a weak, sinking, all gone feeling of depression and anxiety.

On the first sign of the heart becoming weakened or the nerves unstrung, Scott's Heart and Nerve Pills are just the remedy you require. They regulate and stimulate the heart, and strengthen and restore the whole nerve system.

Mr. Stephen Cruise, East Clifford, N. S., writes:—"I suffered for five years with heart trouble. I could hardly walk from the house to the barn without resting as I used to get so short of breath. Doctors could not help me. My wife told me to get a box of Scott's Heart and Nerve Pills and I felt better after taking them; three boxes made me quite well. I am now helping my son to work on a farm and can truthfully say I feel like a different man."

led by Selhapiukoff urged the democratization of the government, which, it was charged, was military and bureaucratic. Selhapiukoff also demanded that the food administration be placed entirely in the hands of the trade unions.

This was plainly an attack against the Communist executive committee and the highest Soviet authorities.

Freedom of Press. More recently the press of the country has shown signs of greater freedom and has not hesitated to attack policies of the government which, it is said, has entrenched itself by appointing thousands of petty officials.

Press controversies have revealed animosities between leaders. For instance, Troitzky and his followers are declared to be set upon a policy of nationalization of trade unions, whereas Lenin believes it wiser to maintain the independence of the unions apart from the government and, to use them as training schools for Communism. And there are numerous other groups which, it is stated, are bent upon other projects, revealing a tendency to destroy the former unity of front in Russian policy.

The Tragedy of the Uninsured

No man appreciates the value of LIFE INSURANCE so much as the man who is not insured. The plight of the holder of a policy in this unfortunate position must force you to realize the necessity of insurance. If it is only \$1,000 policy to start with you ought to insure that much protection to your wife and kiddies. Now, Tomorrow may be too late.

QUEER WHAT STUFF FAIRIES ARE MADE OF

Photographs of Curious Creatures Shown on Screen at Theosophical Lecture

Fairies photographed in Yorkshire were shown, by means of a magic lantern, in the hall of the Theosophical Society, says the London Times. They and their habits suffered, at the same time, the indignity of being leered upon. The lecturer was a firm believer, and, as for the camera, everyone's precaution had been taken lest it should be. The fairies seemed to be the usual sort; nothing very startling about them—except, of course, their existence.

A. P. Sunell, who presided over the demonstration, explained that to see a fairy you must be clairvoyant—which is pretty obvious. They can be photographed, only if they become, with clairvoyant aid, partially materialized. Their duties are concerned with the color, growth and shape of flowers. They have a definite task in the scheme of nature and are subject to evolution. They live on a very humble level, and are about as intelligent as a Newfoundland dog. The matter concerning a fairy's body is plastic to thought. Currents of human thought give fairies the form in which they are seen by the clairvoyant. And so on. It is all relative, as a disciple of Professor Einstein might say.
