British Conference to be on October 11

PRINCE RUPERT PROPERTY SELLS BRISKLY AT TAX SALE TODAY

Valera Reported To Have Accepted Invitation of Lloyd George to Conference Oct. 11

PRINCE RUPERT, Sept. 30.—An Exchange Telegraph despatch that De Valera has accepted the invitation of Premier Lloyd George to a conference here on October 11. This followed a series of notes in which De Valera claimed the right to be treated as an independent nation and Lloyd George laid out the only basis of settlement that Ireland must remain a part of the British Empire.

REV. R. E. KNOWLES VISITS HOME TOWN

Gall, Sept. 30.—After a two months' trip to Britain, France and Switzerland, Rev. R. E. Knowles of Toronto, former pastor of Knox church, well-known author, lecturer and journalist, is spending a few days here, and in the course of an interview on observations made on his trip, said that while England was passing through dark days, the middle class would bring her through. Touching on the situation in Canada, he felt things were promising, but felt a great deal depends on the coming federal elections, which he remarked would be the "most complex election in her national history."

MOTORMAN WAS KILLED BY AN ELECTRIC WIRE

Edmonton, Sept. 30.—Alexander Wilson motorman of the Edmonton radial railway, aged thirty-nine years met instant death on the McKernan Lake carline, when electrocuted in an attempt to disengage a city lighting wire which had fallen across the trolley of street car No. 3, which he was driving.

Much Property Was Sold at City Tax Sale to Local Buyers

Of the 300 lots being offered for sale at the municipal tax sale today, 145 were disposed of this morning, netting a total of \$32,304.52. This included all the lots in Sections 1, 2 and 5. The sale of lots in Sections 6, 7 and 8 is being continued this afternoon, and it is expected that the sale will be finished late this afternoon. There were about sixty people attending the sale this morning. Bidding in some cases was brisk, but quite a few lots went at upset prices to the city and outside buyers.

E. A. Woods, city clerk, is conducting the sale and is being assisted by W. D. Vance, cashier and Frank Vickers, clerk. Prominent among the bidders are J. C. McLennan representing West, enhaber Bros.; G. P. Tinker, David H. Hays & Co.; W. S. Fisher, C. D. Rand estate, Fred Stephens, M. M. Stephens Co.; E. C. Gibbons, McCaffery, Gibbons & Doyle; W. Turnbull, Dybbavn & Hanson; George H. Arnold, Helgerson Bros.; Theo. Collart, F. W. Hart, E. Unwin and R. Stuart.

The highest price this morning was \$1645.79 paid by E. C. Gibbons for Lot 8, Block 18, Section 1. The lowest price by an outside bidder in Section 1, was E. Unwin for Lot 58, Block 27, Section 1, \$98.35, assessed owner being Wilfrid Kelly. Lot 1, Block 21, Section 1, the corner of Second Avenue and Fifth St., next the Prince Rupert Club went at the upset price of \$2,787.71. The assessed owner of this lot was J. A. Kirkpatrick.

In Section 2 the highest price was \$169.21, paid by F. Clapp for Lot 27, Block 2. The assessed owners of this property were J. A. Kirkpatrick and A. C. Beatty, O. P. Smith paid \$155.38 and \$138.07 for lots 11 and 12, Block 8, Section 2, the assessed owner of which was Edward Elias Dronin. In Section 5, R. Stuart paid \$225.74 for Lot 4, Block 10, assessed owner of which was Everett Sinclair. Fred Lanza paid \$461.67 for Lot 12, Block 26, Section 5, the assessed owner of which was Mrs. A. D. DeKeyser.

YALE POSTOFFICE ROBBED OF \$3000; SAFE SMASHED OPEN

Vancouver, Sept. 30.—The Yale post office was robbed last night of three thousand dollars. The safe was carried from the building to the banks of the Fraser river and there smashed with dynamite. The robbers escaped.

New Government Road at Alice Arm Complete and Now Opened for Traffic

ALICE ARM, Sept. 30.—With the completion on Wednesday of the bridge across the creek opposite the Alice Arm Hotel, the government road from the town of Alice Arm to the Dominion Government wharf site is completed and is open to traffic.

The completion of this road fills a long-felt want which is a necessity to the town, as heretofore the only access to the town from the wharves was by way of the Dolly Varden railway or by scows towed up the mud flats, taking advantage of the tides. This manner of distributing freight was both costly and inconvenient. Add to this the fact that the flats were covered with block ice in the winter and it will be found that the hotel guest who made the complaint that his baggage cost was in excess of hotel bill was merely stating fact. The new road will eliminate all these difficulties.

4000 Feet Long.

The road leaves the town at the level crossing near the Government telegraph office and parallels the railroad to the wharf on the sea side. It is 4000 feet long and has one trestle bridge 150 feet in length. The roadbed is 16 feet wide and is of rock fill and rock cut construction with a gravelled surface.

The first thousand feet of the road nearest town was built by the day labor early in the spring. The remaining 3000 feet, comprising very pronounced swing in the heavy rock work amounting to approximately 8000 yards, was let by contract to a local syndicate of sixteen residents of the town. Work was started in June and was completed within three months.

MACDONALD IS CHOSEN

Asked to Be Candidate for Burrard Constituency in Federal Election.

VANCOUVER, Sept. 30.—M. A. Macdonald, member of the Provincial Legislature for Vancouver, was last night chosen as the Liberal standard bearer for Burrard constituency in the forthcoming elections. He will resign his seat in the Legislature, probably at or near the end of the coming session.

Mr. Macdonald has been in provincial politics for a number of years. He has been a much discussed man, but he has a host of good friends who always stand by him and he has been re-elected several times in his home town. He is looked on generally in Vancouver as an ideal representative, being a good speaker and an able all round man.

MINE OPERATOR OF CALGARY WAS SHOT UNKNOWN ASSASSIN

Calgary, Sept. 30.—John Coward, a mine operator of Calgary, Drumheller and Carbon was shot to death by an unknown assailant.

INDIANS MURDERED BY FELLOW TRIBESMEN

Victoria, Sept. 30.—Three Indians from the Kyoquoit reserve were shot to death by fellow tribesmen who ran amuck.

MACKENZIE KING IS INSPIRATION

So Says President Manitoba Liberals, Who Welcomes Advent of the Farmers.

WINNIPEG, Sept. 30.—W. L. Mackenzie King is forging ahead as the guide and inspiration of the Liberal party in a manner worthy of his great predecessor, Sir Wilfrid Laurier, declared A. E. Hill, president of the Manitoba Liberal Association, on his return from Ottawa. Mr. Hill is very optimistic as to the outcome of the election. He said there was a remaining 3000 feet, comprising very pronounced swing in the East toward the view that it was no longer a question of whether the Liberals would have the largest group in Parliament but whether they would have a clear majority over all parties.

Farmers Welcome.

"I am a farmer myself since I retired from business," said Mr. Hill, "and I welcome the advent of more farmer members in Parliament. There are many, many Liberals among the farmers, and they will help support real Liberal legislation. As the Liberalism of Sir Wilfrid Laurier was big enough to include all creeds and all nationalities, so the Liberalism of Mr. King is, I feel confident, big enough to include all industrial divisions.

With New Government.

"In Winnipeg you have always been expected by the people of the West to take the lead in Liberalism," continued Mr. Hill. "All indications are that a Liberal government will soon be in authority. Winnipeg citizens will, I hope, see to it that their lead is not supplanted elsewhere in the West. I am glad to find so much enthusiasm in the city, and hope you will elect representatives who will be of such character as to be able to take their part with the new government in the many problems that must be met."

AID TOWARD MUNICIPALITIES

John Oliver Announces That Are to Get Personal Property Tax and Grant For Education

Victoria, Sept. 30.—John Oliver announces that as further aid to the municipalities in addition to one half of the liquor profits as at present provided they are to get the Personal Property Tax as now collected by the government which last year amounted to \$940,000. An additional grant toward educational purposes has not yet been determined.

Facilities for Recreation.

There is no place on the continent where recreation facilities are required as they are here. The peculiar conditions of life make it almost imperative that recreation facilities other than those ordinarily obtainable in small places be provided.

It has been suggested that when the courthouse headquarters are moved to the new building an effort should be made to purchase or lease the old building from the Provincial Government and fit it up for a Y. M. C. A. or some similar institution which would provide clubroom facilities for everyone and might even house the public library. The suggestion is worth considering.

Claim Too Much Spent on Public.

The cutting down of public expenditures is the object of the Citizens' Research Institute of Canada. This organization issues bulletins dealing with the matter of public expenditures and urges that public business can be conducted on similar lines to private business and that a stop be put to the squandering of money by city and other governments.

The objects of the institute are certainly admirable. There is too much of a tendency to play fast and loose with public money just because it is public money. It has in some cases almost become a public scandal. Employees of civic, provincial or Dominion governments often do not aim to give as good service as would employees of a private firm. In many cases this is not true, but it is true so often that it is very noticeable. Citizens elect officers to do their business for them and often they are not wise in their choice. They choose good talkers instead of good business men. The result is fatal. The motto of the institute in drawing attention to the deficiencies of public service is "Millions for public service, not one cent for public waste."

Opening Tie Camps Will Aid Employment.

The opening of the tie camps in the northern woods, especially along the line of the Canadian National Railways, should help somewhat in giving work to the unemployed. Possibly this will be followed by the opening of the logging camps. There has been a stiffening of lumber prices and logs are selling at higher prices than they were in the summer. It may be possible soon for camps to open and for the regular business of the North to proceed as usual.

Guard Name and Fame of Great.

Let us carefully guard the name and fame of our great lest they pass into nothingness when future ages shall chronicle the doings of this era. Professor Duncan Urquhart, Glasgow sage, lately exploded a bomb while visiting British Columbia, with the solemn statement that the Scriptures were largely mythical and that much of the world's ancient history is nothing but a rehashing from the Norse sagas.

This is disquieting. We must be on our guard. We should protect the famous characters of our day, and see that they, too, are not dethroned from their pinnacles of historic fame in a like manner.

Imagine how distressing it would be if some future historian gravely told his hearers that we never had Joseph Martin at all, but he was only a mythical figure snatched from the sagas. Think, if you can, how injustice would fall upon Hon. Mary Ellen Smith if a blatant historian of, say A.D. 2001, adduced figures to show that the province of British Columbia never owned such a character, but that she was really the wife of a Viking and a lineal descendant of Mr. Odin or Mr. Thor! And Mr. "Pussyfoot" Johnson—must his name pass into doubt? Can history see him pass down to posterity as the possible water carrier of Rameses, or something like that? Then there is our own Capt. Hoopes K. Freeman of Narbethong fame. He might easily be confounded with the men who stood up for their rights among the fjords of Norway instead of the fjords of British Columbia, and what would then be known of Prince Rupert?

If our archives are to remain secure for all time, and our history to remain intact, now is the time for us to take a stand and do something about it.

CRIPPLED WITH RHEUMATISM

Then She Took "FRUIT-A-TIVES" And Has Been Well Ever Since

MADAM SLOAT

PRINCE JERVIS, N.B., Jan. 22nd, 1920

"For many years, I was a great sufferer from Indigestion, Constipation and Rheumatism. My Stomach was weak and gave me constant distress, while Rheumatism in my joints made me almost a cripple. I was treated by two different doctors but their medicine did me no good.

Then I tried "Fruit-a-tives" and at once that fruit medicine helped me. Soon the Constipation and Indigestion were relieved and the Rheumatism began to go away, and in a few months entirely disappeared. For twelve years now, my health has been first class, and I attribute it to the use of "Fruit-a-tives" which I take regularly."

FRUITS AND FLOWERS.

Editor Daily News:
Appropos your editorial note in recent issue of the News regarding the possibilities for floriculture and horticulture in Prince Rupert, I would like to call the attention of your readers to the fact when I first visited Mellakata in 1892, Bishop Ridley was growing successfully apples, pears, grapes, and, I believe, peaches in on the south side of the house. I feel certain that all hardy fruits can be grown at Prince Rupert. Gravelly or stony soil is suitable, providing there is good drainage. If I were a resident of the city I would like to have a fruit tree on my grounds for sake of the blossoms in the spring.

Finest Dahlias.

As to flowers, I would like to add that I have seen in a Prince Rupert garden, the largest and finest colored specimens of dahlias that have ever come under my notice anywhere. A fine material for making gardens is to be found in the clam shell heaps found on the sites of former Indian camps in the vicinity of the city. This, mixed with the peaty soil, will produce beautiful flowers. Your soil needs something of this nature before it is in proper shape to give best results, being deficient in lime elements.

Huckleberries.

The huckleberry, taken out of its damp and sheltered habitats will produce a larger and finer fruit when transplanted to open cultivated gardens and cut back so that it will adopt a bushy form of growth. It will do well in stony ground where there is sufficient soil to give it root hold and proper nourishment.

Near the summit of Yellow Head Pass, huckleberries grow as large as cherries and are of a very fine flavor, beautiful served in pies with cream. The bushes are stocky and spreading like trimmed current bushes in a well kept garden.

Trusting that you can find space for this letter and hoping that it will be the means of starting something.

FRUIT AND FLOWERS.

Many people read newspapers as much for their advertising columns as they do for news.

WRECK OF POLAR BEAR STRIPPED

Mechanician Bach Sailed for South Last Night—Pilot Prest Going Soon.

All the remains of the air plane Polar Bear, standing gaunt and bare and smeared with oil and mud at the Aeropolls Grounds, resembles somewhat a bird shorn of feathers. It is a sorry looking sight indeed and is a bad wreck although more of the ship may be recovered than was at first expected. Yesterday Aviators Prest and Bach were busy dismantling her and salvaging such of the plane as they could. The sheilded canvas wings were stripped off but the body containing the motor and some of the equipment was removed and now awaits being taken to the wharves where it will be shipped. It is possible that it may be taken back to Nevada and new wings built about the same body if freight rates do not make it prohibitive. The weight of what is left is about 900 pounds.

Mechanician Bach sailed last night on the Prince Rupert for Seattle enroute to his home in Santa Monica, California. Pilot Prest remains here to accompany the wreck south. He will probably leave by the Prince George on Sunday night.

Ten Years Ago in Prince Rupert

September 30, 1911.

Injured seriously about their faces and eyes by the effects of an explosion of loose powder at the Goose Bay mines, Sam Roullet and George E. Evans, two muckers, arrived today at the hospital here. They were brought to the city by G. B. Naden in the launch "Kipling" and, on arrival, were attended by Dr. W. T. Kergin. Their eyesight may be saved.

The Mack Realty office was wrecked this morning by a blast on the site for the new city hall on Fulton Street. Fortunately J. Lorne MacLaren and his staff had been warned and were outside the office at the time.

This morning Samuel Harrison completed the sale of the double corner at the corner of Second Avenue and First Street for the sum of \$26,000.

Aunt Jemima's Helpful Hints

Aunt Jemima will answer any questions sent in by readers of The Daily News.

Dear Aunt Jemima—I dearly love a young man but am worried about his health. Last night, when he called, he tried to kiss the cat before he fell from his chair. Then he burst into tears because he was going to be an orphan some time. He next fell asleep and woke up at 3 a.m., leaving with the remark that he had to go home early as he had to get up early to be Queen of the May. Will he recover. Yours lovingly,

GERTIE.

Answer—Yes, dear, he will get over it. Maybe it was his pay day.

Mrs. Knagg—Because your husband had fishhooks in his trousers pockets would not be grounds for your divorce. (2) Bathe the lacerated hands with Aunt Jemima's Soothing Ointment.

Berth B., writes—"Please what time can I call at the News office to ask your dear advice on this matter? I keep company with a nice boy but he played poker with my Pa who won all the money we had saved up for our wedding. Then Pa lost it to another young man that also wants to marry me. I accepted him, but in the meantime, the first young man won all the money from the second boy and now I am engaged to the boy who is broke. O what shall I do?"

Aunt Jemima is so sorry, dearie. You should hurry up and become engaged to the young man that now has the money, and marry him before it is all gone.

ATTEMPT TO BURN AEROPLANE FAILED

Daring Experiment to Test Fire-proof Dope Was of no Effect.

LONDON, Sept. 29.—A daring experiment was made at Hendon, a pilot setting fire to his aeroplane while in mid-air for the purpose of testing a new fire-proof "dope." The fabric of the machine and the airman's suit were treated with "dope," and tin canisters of cotton-wool saturated with petrol were placed at sundry points on the upper and lower sections of the aeroplane. Each container was supplied with a fuse, and the whole system was electrically connected so that the pilot could start the fire at will. Finally the wings and body of the machine were plentifully dressed with petrol. After the pilot got the aeroplane well going he switched on the electric current which fired the fuse, and for a few moments bright flames and dense smoke could be seen. But the expected supreme test was not reached, for the immense air pressure on the rapidly moving machine not only prevented any spread of the fire, but actually extinguished that in the petrol container.

When the machine came to rest it was found that the wings were scorched at points where the red-hot splutterings from the smoke-candles had fallen. Small holes were burned right through but apparently the dope had successfully resisted any tendency for the smouldering to develop into flames.

 Low—9:01 a.m., 5.3 feet.
 21:10 p.m., 3.0 feet.

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours, from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

The height is in feet and tenths of feet above the average level of lower low water.

DOROTHY DALTON TELLS HOW WOMEN SHOULD EXERCISE

Hiking Best of All Says Star in Paramount Picture "Half an Hour"

All actresses who work simultaneously on stage and screen have certain definite health rules they have adopted from experience. Dorothy Dalton, who is recognized as one of the most physically perfect actresses today has this to say about keeping fit under a strain: "I have always taken the utmost care of myself, and have taken part in as many outdoor sports such as swimming, riding and fishing as much as possible, so, I suppose, I naturally had an unusually strong constitution to begin with. However, when I accepted the heavy role of Chrysis, in "Aphrodite," which I knew would entail eight performances a week, I realized it would mean giving up social activities and buckle down to nothing but work and rest.

Walking Only "Practically the only exercise I could get was walking, and I ascertained that even ten minutes of honest no-goodness hiking will do more for one than several hours of languid rambling. Some walking enthusiasts claim that if properly done, men need no other form of exercise. Perhaps they are right, but I am too fond of other athletics to agree."

"BEAUTIFULLY TRIMMED" AT EMPRESS TONIGHT

New Type of Heroine is Norine—Gowned in Moorish Frocks

A new type of heroine, beautiful and unscrupulous, wise and innocent, capable of sustained revenge or of renouncing love, is Norine in "Beautifully Trimmed," adopted from Marguerite Storms' "The Orchid."

Carmel Myers plays the part at the Empress theatre this week, and she invests it with all the fascination of her beauty and with a passionate poise that is her newest acquisition.

It becomes more apparent with every one of her new offerings that this dark haired, vivacious young star is forging on to a dominant position in the film firmament. Since her return to Universal from the stage she has given two attractive features in "In Folly's Trail," and "The Guided Dream," and now she comes to the fare with another drama in which her exotic charms are displayed to full advantage. Another thing—Carmel has learned to wear clothes of recent months, and in Moorish frocks among the younger stars she is second to none.

The story of "Beautifully Trimmed," is that of a society girl whose father has failed in business and died. Determined to make her money on the class responsible for her father's ruin, Norine joins a group in fashionable Bohemia and aids in disposing of counterfeit "great masters" and finding victims for worthless oil stock.

Mrs. O. Martin, of Stewart, reached the city last night.

WEIRD STORIES OF MOONSHINE

Mysterious Visits Said to Be Paid to Outlying Islands With Supplies.

Weird stories of moonshiners and their operations are heard of late along the waterfront from those who come and go in launches. Already the advent of the autumn season and the need of something stronger than coffee to put life into the bones of the fishermen and others at prices lower than those charged by Pat Palmer and his staff has been the cause of the floating in of stories. Passersby say they smell queer smells such as only an amateur distillery can produce. No one is willing to give information about these mysterious places and their doings, and it is only in a jocular way they are referred to. It is mentioned that regular calls seem to be made by certain boats at certain islands, and that mysterious supplies are carried to these mysterious places. Also it is said that men who have

odie calls at the government dispensary are now making periodic trips to sea instead. Such is the trend of small town gossip, which may mean a lot and which also may mean simply that someone has had a smile or two too many and seen things through "the medium of the imagination.

PRESBYTERIANS TAKE OVER MISSION FIELD AT ALICE ARM CAMP

Will Place a Permanent Minister There Early in Coming Year—Probably May

Alice Arm, September 30.—A. Mackenzie, who has been stationed here by the Presbyterian and Methodist Mission Boards for the past two months, left on Monday for the east where he will resume his studies at the University of Toronto. Mr. Mackenzie made many friends while he was here and the camp feels the loss of his services distinctly. He regrets that he did not arrive earlier in the season and states that the Presbyterian Church has taken over this field and will place a minister in the camp early in the coming year, probably in May.

IT IS SAID THAT

"The Recollection of Quality Remains Long After Price Is Forgotten"

That is true of many articles in daily use. Some utensil, some article of wearing apparel, gives out—goes to pieces—quickly. We forget that we bought a "cheap" thing and we "kick" at the poor value we received.

On the other hand, we may have done our "kicking" at the time we purchased something, believing that we paid too dearly, and later on boast of what a good buy we made because the article wears so well. In both instances we have forgotten the price.

Nowadays "PRICE" is very much in the public mind. People are trying to be as thrifty as possible—and a good thing, too—but it frequently happens that "Quality" is lost sight of, and "a poor thing is dear at any price."

Our recent revision of our prices downwards, to conform to the falling market on the lines we handle, makes it an absolute truth that we are today selling many things below what they cost us. This is notably the case in our Dress Goods Section—in Woollens, Silks and Novelty Fabrics, and many other lines. **BUT**—we still go in, as we always have, for **QUALITY**, and—**QUALITY** considered—our prices are as low as any.

Note Special Prices This Week:

Penman's Cashmere Hose—This quality sold for \$1.95 last year. Now, per pair.....**\$1.00**

Silk Hose—Best quality "Winsome Maid" 12-thread Silk Hose in black, grey, white, green, gold, silver, blue, etc. For this week, per pair.....**\$1.95**

Velveteens in practically all colors. Per yard.....**\$1.25**

HOW THE WORLD SLEEPS.

Most people sleep on their side, with knees drawn up. Elephants always, and horses commonly, sleep standing up. Birds, with the exception of owls and the hanging parrots of India, sleep with their heads turned tailward over the back, and the beak thrust among the feathers between the wing and body. Storks, gulls, and other long-

legged birds sleep standing on one foot. Ducks sleep on open water. To avoid drifting shoreward, they keep paddling with one foot, thus making themselves move in a circle. Sloths sleep hanging by their four feet, the head tucked in between their forelegs. Foxes and wolves sleep curled up, their noses and the soles of their feet close together, and blanketed by their bushy tails. Hares, snakes, and fish sleep with their eyes wide open. Owls, in addition to their eyelids, have a screen that they draw sideways across their eyes to shut out the light for they sleep in the daytime.

HAD TO REFUND THE PRICE OF FLOWERS

NEW YORK, Sept. 29.—Like other office boys, Jimmy, employed by the Guaranty Trust Company, has a grandmother who dies frequently and conveniently whenever Jimmy wants a few days off.

But the last "death" nearly cost him his job and now is costing him all his spare pennies.

The bank employees' club felt so sorry for Jimmy that they sent a bouquet to grandma's funeral. Came this telephone call from Jimmy's house:

"We have just received some flowers from the bank. Can you tell me what they are for?"

When Jimmy returned from the "funeral" it was decided he should refund the price of the flowers.

HANGMAN ANNOYED

Considers His Profession as Honorable as Any Other.

BUDAPEST, Sept. 28.—The hangman of Hungary has risen to indignant defense of his calling and denounced those who cast slurs upon it. He was prompted by sneering references made in the Hungarian National Assembly. Friends of former Emperor Charles and the anti-Hapsburgs are always quarrelling there and in some cases have shouted at one another, "the hangman is your friend."

Michael Ball, the official hangman, has resented such slurs.

"My vocation," he writes, to the president of the National Assembly, "is as honorable and useful as that of judges, lawyers, ministers or kings. Why should the old superstition hold in modern times that the hangman's profession is disgraceful, abominable and loathsome? My friends are all perfect gentlemen and any member of Parliament can consider it only flattery when he is called my friend."
