ROTARY CLUB GETS CHARTER

Two Visitors at Luncheon Held Today—Message from Victoria.

Capt. Newcombe of D. G. S. Malaspina and Newton F. Pullen of Victoria were guests today at the Rotary Club luncheon held in the St. Regis Cafe club room upstairs.

Capt. Newcombe congratulated the club on its formation and spoke appreciatively of the work of Rotary clubs generally. He felt sure the club would be an influence for good here.

Newton Pullen said he came from the south into whose way went the money which was paid out here and he came with fear and trembling. He said he was a member of the Gyro Club recently formed in Victoria, he attended the meeting of the Kiwanis Club every week, and he had also attended some of the meetings of the Rotary Club and these were powerful forces in a community. One stood for "Service before self," the motto of another was "We Build" and the third stood for "Friendship." He looked forward to the time when service and not self would be the guiding principle in men's lives and he wished them every success.

At the commencement of the meeting the secretary read a letter from the District Governor stating that the local charter had been granted.

From Victoria.

A letter from the secretary of the Victoria Gyro Club was read as follows:

"At its luncheon held on Monday, May 9, the Victoria Gyro Club unanimously passed and instructed Gyro Dick Pullen to personally deliver the following resolution:

"The Gyro Club of Victoria cordially greets the Rotary Club of Prince Rupert. We fully realize that both new organizations have a responsible work in an immense field, that our aims are identical. Gyro is but a child of Rotary, aiding in the unifying of a world to the end that friendship, in its highest interpretation of mutual assistance, shall become more widespread."

President Doby said the District Governor would be here in the near future to officially install the officers and start the club going. They should put on an entertainment for the occasion so he appointed the committees.

Imitation Hayseeds Fed Gay Time Last Night at Big Dance and Tombola

The big Hayseed Dance given by the Agricultural Association last night in the Exhibition Hall was a great success in every way. Everyone had a great time and there was much mirth and hilarity. As a result of the affair the total gross receipts were over \$1,100 and the net proceeds towards the improvements of the fair building and grounds will be in the neighborhood of \$800 or \$900. The association tenders its thanks to the generous donors and the committees who worked so hard towards making the event the success that it was.

The affair started with the parade of the G. W. V. A. band from down town and soon after its arrival at the hall the celebration commenced and continued till the early hours of the morning. The band provided very creditable music and many took the floor. George Frizzell, as master of ceremonies, kept things moving in good shape and there was never a dull moment.

Appropriate Costumes.

Prizes were awarded for the most appropriate costumes and there were indeed some clever ones. Of course, owing to the nature of the affair, these were mostly all along grotesque lines and some of the costumes were indeed well made up. With the use of makeups and costumery some well known persons about town had their friends guessing to identify them for a while. About 10 o'clock there was a grand march of those in costume and the prize winners were chosen by the judges, Mayor Rochester, Mrs. J. G. McLennan and H. F. Pullen. The awards went to Miss Rose Green and P. J. McCormack, lady and gentleman respectively. Both were garbed in farm costumes, the former a neat farm girl, while the latter was along more comical lines.

The Tombola

The drawings for the plenitude of prizes commenced early in the course of things and kept many interested. This drawing continued until well on to midnight, many of the prizes being claimed on the spot while there is a large list of numbers waiting to be claimed. The principal prize, the handsome cake donated by the St. Regis Cafe, was won by Chief Engineer Scott, of the Malaspina. The numbers still out for prizes as yet unclaimed are as follows: 160, 153, 256, 122, 497, 44, 534, 5, 24, 309, 13, 289, 35, 568, 409, 771, 379, 165, 873, 942, 189, 607, 391, 286, 682, 324, 767, 414, 138, 744, 57, 826, 231, 501, 889, 814, 160, 151, 624, 913, 688, 618, 62, 498, 527, 599, 185, 619, 393, 158, 308, 809, 863, 325, 801, 847, 597, 281, 692, 30, 52, 751, 549, 661, 920, 427, 900, 941, 638, 395, 95, 755, 860, 2 and 642.

Those Responsible

For the success of the affair much credit is due to Jack Venables, who originated the idea and worked energetically in making arrangements and in the carrying out of the event last night. Assisting him on the prize committee was John Meltac. The refreshments were attended to by the Daughters of the Empire, who served ice cream, cake, coffee, tea and such refreshments, while Ben Self, with his band of assistants, dispensed hot dogs, pop, candy and smoke.

Other committees were:

Publicity and Printing—George Munro and W. E. Thompson.
Dance—George Frizzell.
Decoration—S. E. Parker.
Finance—George Bryant and F. G. Dawson.

JAMES CARRUTHERS LEFT FOR HALIBUT BANKS THIS MORNING

The fishing steamer James Carruthers left this morning for the halibut banks with Captain Parsons and a crew of 31 men including eighteen fishermen.

The Carruthers is one of three fishing steamers operated by the Canadian Fish & Cold Storage Company, each with a capacity of 170,000 lbs. of fish. On one memorable occasion one of them brought in 200,000 lbs. of black cod.

On this trip the boat will catch halibut and black cod, all other fish taken on the banks being thrown back into the water. In taking black cod, it is the custom to fish rather deeper than for halibut.

The Andrew Kelly and the G. E. Foster will leave, one next week and the other the week following, the former skippers being in charge.

The cold storage reports a small quantity of salmon coming in but the prices are tending downwards, from 12 to 14 cents being paid for red springs.

Red Cross is Carrying On.

Many people wonder why the Red Cross did not stop its work when the war ended. That was what it did after the South African War and it was expected to do the same after the Great War. But the Red Cross was not to be allowed to stop. It was destined to take on the new obligations of a peace-time program, even before it had completed its war work.

Shocking Facts Revealed by War.

The war had made vividly clear some things which a quarter of a century of peace might not have revealed with so much impressiveness. The war had given us a revelation, for it may fittingly be called a revelation of the relative worth and ability of the ordinary man and woman. But the war had revealed also the shockingly poor physical condition of a great proportion of the men of the Empire. Think of the significance of this: During the last year of war, from the 1st of November, 1917, to 31st October, 1918, the number of men called up to the army in Great Britain was 2,425,184. A summary of the results of the medical examination of them shows the following facts: Of every nine men, three were fit and healthy, two were in infirm health, three might be described as physical wrecks, and one as a chronic invalid with a precarious hold on life. Since that was the physical condition of the men at their most vigorous age, what would be the condition of health among the women and children? In other countries the examination of the men called to the colors revealed conditions somewhat similar. In Canada, of the 361,605 draftees under the Military Service Act, the medical examination found 181,229 of them, or about one half, physically unfit for full service in the field. It is not reported that the disabilities were the result of active disease; their condition was the consequence of poor nutrition, neglect of personal hygiene and unsanitary conditions of working and living.

It was inevitable that serious consideration should be given to such an alarming state of affairs in respect to health and that action should be taken for the purpose of remedying it as soon and as far as possible. In consequence soon after the armistice in 1918, with the approval and endorsement of the governments of the five Great Powers (Great Britain, France, Italy, Japan and the United States) a committee of their Red Cross Societies was constituted "to formulate and to propose to the Red Cross Societies of the world an extended program of Red Cross activities in the interest of humanity."

World Authorities Discuss Health.

That committee of five called a conference of medical and public health experts who met at Cannes, France, in April, 1919. The conference is regarded as one of the most remarkable gatherings of authorities on questions of health ever held. It included many of the foremost men of America, France, England, Italy and Japan. Out of the deliberations of the conference came thirteen highly significant resolutions, which are now embodied in the peace time program of the Red Cross. Principal among these are the movements to promote child welfare, secure public health legislation, establish public health laboratories and supply public health nurses.

Canada Does Part In Great Work.

Thus it came about that Canada, as one of the signatories of the peace treaty, agreed to encourage and promote the establishment of its Red Cross Society with a peace-time program. An amendment to the act of incorporation was granted by parliament in 1919 and in it the new and additional purpose of the Canadian Red Cross Society is set forth as follows: "In time of peace or war to carry on and assist in work for the improvement of health, the prevention of disease and the mitigation of suffering throughout the world."

TEACHERS WILL PASS THROUGH PRINCE RUPERT

Osborne Scott, C. N. R. General Passenger Agent, Says Busy Tourist Season Coming.

A considerable passenger movement north from Washington and Oregon on the Grand Trunk steamers is expected this summer by Osborne Scott, general passenger agent, who passed through the city yesterday en route for Jasper Park.

Mr. Scott stated that the teachers of the northwestern states are now receiving more remuneration than formerly and are, therefore, in a better position to travel. He said that many of them would make the famous "inside passage" trip this season when their vacations are on. During the years of the war they were too busy to travel. The teachers, Mr. Scott stated, would naturally come up to Prince Rupert and then go east to Edmonton and other prairie cities.

The reopening of the Massett mill and other developments in the north will further aid in swelling the passenger traffic on the G. T. P. boats.

DRILLING OUTFITS FOR OIL COUNTRY

Machinery Also Going North for River and Lake Vessels

EDMONTON, May 18.—Several oil drilling outfits are on their way into the north country. An outfit is being installed by the Alcan Oil Corporation on the Athabasca sand belt near McKay a few miles back from the river.

Another outfit is being installed by J. D. Tate for a Montreal syndicate at Pine Point on Great Slave Lake. York boats are being used to carry the machinery and supplies to their destinations.

Machinery is being installed in a number of river and lake boats which will be used to convey passengers and supplies to the various oilfields of the north.

RUPERT BUYS BOXES AT KETCHIKAN MILL

Word was received this morning by the Ketchikan Power Company that it had been awarded a contract at Prince Rupert for furnishing a large order of boxes for packing fresh fish, according to announcement of the mill, says the Ketchikan Chronicle.

"This order," said Mr. Daly today, "will mean that we will be able to keep the mill running at least a month longer, and we are in hopes that something else will turn up in the meantime to give us further orders of size."

A short time ago a test shipment was sent to Prince Rupert by the Ketchikan Power Company and, by making the price and the goods right the order was landed. While the margin on business of this nature is small, Mr. Daly is anxious to keep the mill running as long as possible as a means of finding employment for the men who have always depended on the mill for employment and many of whom have families.

Ten Years Ago in Prince Rupert

May 19, 1921.

City Solicitor Peters this morning conducted his first case in the city police court.

Nick Sheridan, manager of the Portland Canal mine, Stewart, accompanied by his wife and child, is in the city today on his way north.

Worn out with toil and suffering from lack of food, two boat crews from the sealer Pescawa reached Prince Rupert harbor yesterday afternoon. While hunting otters a week ago the men lost their boat in the haze of Banks Island and had to row two hundred miles along the coast living solely on clams. The men in the boats were Joe Morrell, Sid Wombolt, Jack Stewart, Bob Stewart, Fred Smith and Tom Lenton.

PRINCE RUPERT TIDES

Thursday, May 19

Low, 6:06 a.m., 3.9 feet.
17:59 p.m., 6.6 feet.
Friday, May 20
High, 0:02 a.m., 21.3 feet.

Low, 6:47 a.m., 3.0 feet.
18:42 p.m., 6.6 feet.

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours, from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

The height is in feet and tenths of feet above the average level of lower low water.

"MAROONED HEARTS" AT EMPRESS THEATRE

"Marooned Hearts," the picture to be shown at the Empress tonight, is the story of a man whose career is wrecked by a woman's whim. He spurns her and is pursued to a south sea island where things change.

The Man in the Moon SAYS:

HOW can anyone expect the younger generation to desire a life on the farm after the kids saw at the Hayseed Dance what a country existence is supposed to bring a man to?

IT apparently serves to promote red hair, undersized hats and painted complexions.

SOME of the folks got the idea that it was a track meet and not a dance, and some of them mistook the waltz for the hundred yard dash. Collisions were many but no lives were lost.

SOME people thought a tom-bola was a musical instrument, but they found it was an art work—a species of drawing.

THE pessimist is a man who wears a pair of suspenders, and a belt.

THE man said: "I smell fresh paint." The girl said, "Oh, you nasty thing!"

A collector was asked by a book agent recently if he would consider the purchase of an autographed copy of the Bible.

WITH the city on Kaien Island and the salt lakes over the way, how would it be if the citizens wore "pepper and salt" as an advertising stunt?

THE Board of Trade should protest. The Government is spoiling the courthouse site by putting a building on it.

IT is suggested that as the Government does not evidently wish to provide passenger accommodation for local fish, a flying fish should be developed which might be herded to market by aeroplane.

THIS fish car business is a Finnish flight.

CALLIES' LINEUP.

The following team has been selected to play for the Callies football club in the league game against the Sons of Canada tomorrow night: Martin; Currie and Willisoff; Kinghorn, Murray and Campbell; Wilson, Vignins, Jackson, Gay and Sellers. Reserves—Grant and Boote.

There may be something you want. See the classified column

Sport Chat

It now appears that Prince Rupert fans and athletes will have to look to their own home town for their entertainment on Victoria Day, next Tuesday. The Terrace excursion having petered out it is not likely that many will go up the line. Of course, if the weather is fine, there will probably be quite a few persons going over to Port Simpson where a field day is to be staged. At home there will be the formal openings in the City Baseball League and the Senior Football League and any sports that may be arranged in the meantime. In the evening there will be the Wallace Shipyard's football club dance.

The three teams in the City Baseball League seem to be pretty well matched, judging from the games that have already been played and when the series commences on Tuesday a good deal of enthusiasm will likely be started in the respective camps. So far the Red Sox have won two out of the four friendly games they have played with the Sons of Canada and the one game already played between the Sons of Canada and the Elks proved a narrow victory for the former. Next Sunday afternoon the Red Sox will play the league opener on Tuesday will be between the Elks and Sons of Canada.

The volunteers who cross to the Salt Lakes to assist in the finishing touches to the popular swimming place will be given free lunches, the interested ladies thus generously doing their bit towards getting the lakes in shape for the summer. On Sunday it is planned to put in the gangplank leading from the new landing to the walk and there will also be some more sand dumped in the near end of the lake which is to be used this year for the youngsters. The government walk from the landing to the lake is now about finished and can be followed around instead of cutting through the bush as before.

PRESENTATION TO MISS WAY BY PARENTS OF HER MUSIC PUPILS

On Tuesday afternoon Mrs. A. T. Parkin, Borden St., entertained in honor of Miss Way and among those present were the parents of the pupils to whom Miss Way has taught music.

The event of the occasion was a presentation to Miss Way by the parents of a silver casket for jewels, which was given her as an appreciation of her services to the pupils and to the community in general.

It is pointed out that Miss Way without ostentation carries on her work and instills a love for music in the young people with great success. The presentation was a way of expressing in a slight degree the appreciation felt by the parents.

Each proposal must be accompanied by an accepted bank cheque on a chartered bank of Canada, made payable to the Honorable Minister of Public Works, for a sum equal to ten per cent (10%) of the tender, which shall be forfeited if the tenderer declines to enter into contract when called upon to do so, or if he fails to complete the work contracted for. The cheques of unsuccessful tenderers will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied, signed by the tenderer, and accompanied by the lowest or any tender not necessarily accepted.

In any event it has become the most popular.

Was Suffering from
INDIGESTION

No Fear of Pains Now

Indigestion is one of the worst forms of stomach trouble, and many people suffer terribly after every meal they eat. The rising and sinking of the food, pains in the stomach, heartburn, water brash, belching of wind, vomiting shortly after eating, etc., are some of the symptoms.

There is no need for any person to be troubled with indigestion, dyspepsia or any other stomach trouble if they would only take Burdock Blood Bitters, which contains a combination of nature's roots, herbs, barks and berries; a combination that cannot help but put the stomach right.

Mr. H. H. Collins, Norlon, N.B., writes: "I was with the overseas forces for four years and two months, and in October, 1916, I was unfortunate enough to be wounded and taken prisoner. I was a prisoner for 2½ years, and the food they gave us was not good, at times, and after a few months I found I was suffering from indigestion. When I came home in July, 1919, I was nearly a wreck. I was told to use Burdock Blood Bitters. I did so and found great relief, and can now eat without fear of pains and sickness. I would recommend it to all who suffer from indigestion."

Burdock Blood Bitters has been on the market for over forty years, and during that time has made a reputation second to none for relieving all stomach troubles. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont. ADVL.

SEMI-DEISEL ENGINE
ON REPUBLIC PROVES
TO BE GREAT SUCCESS

That semi-deisel engines in fishing craft are a wonderful and successful innovation was proven by the recent trip of the schooner Republic, commanded by Captain "Billie" Hegge, says the Ketchikan Chronicle. The Republic arrived in Ketchikan from the south after discharging a trip of halibut at Vancouver.

Whereas it cost Captain Hegge \$2,100 for distillate for a trip to the westward with his old 125 horse power distillate engine, on his last trip with his new Semi-deisel engine his oil bill was only \$410 including oils for the engine. With this engine present low price of fish does not worry him at all and he is able to make profit with even the smallest trips.

ACTED STRANGELY
BEFORE SHOOTING SELF

Late Allan McLaren Was Buried
At Rosswood Near Kitsum-
kalem Lake.

TERRACE, May 18.—Inquiry into the circumstances of the death of Allan McLaren showed that deceased was found shot in his cabin at Rosswood, some thirty miles from Terrace on the other side of Kitsumkalem Lake. He had lived with his partner Joe Bellwood for some ten years in the same cabin. He was a man of considerable education, but no one knew anything of his antecedents or of his relatives or where he came from.

All the witnesses agreed that he had been acting strangely for some time before the death and on one occasion he had been heard to say that if a man knew his mind was going, he ought to shoot himself. It was found that he had also been carrying poison around with him in his pocket. Burial had to be made at Rosswood, as it was impossible to bring the body to Terrace on account of the condition of the trail at this time of year. There was no suspicion of foul play and every circumstance pointed to suicide.

TERRACE

J. A. Motherwell, inspector of fisheries for the province, accompanied by Alex. C. Finlayson, of Ottawa, inspector of hatcheries for the Dominion, and C. W. Harrison, provincial inspector of hatcheries, all arrived here on Monday and were met by J. Call, manager of the Lakelse Hatchery. The whole party left immediately for Lakelse Lake where the hatchery is located, on a trip of inspection. The progress of the Atlantic salmon eggs which are being hatched out this season, for release into the Pacific waters, is being watched with considerable interest.

Harold Petersen, of Seattle, has been spending several days in the district investigating possible sites for a sawmill of 75,000 feet capacity. Mr. Petersen is interested in a mill concern in the state of Washington, where logs are so far from the millsite that the long haul makes the production of lumber too costly. With timber limits close to the railway line where a suitable site may be chosen, Mr. Petersen is convinced that lumber may be manufactured much cheaper, even allowing for the added freight on the finished product.

As the Kleanza mill at Usk may not start operations this season, John Barge is contemplating the erection of a 25,000 foot sawmill near Kitwanga, which it is hoped will be in operation before the end of the summer.

PRINCE GEORGE

In furtherance of the promise made while here recently, Hon. T. D. Pattullo, minister of lands, has put the machinery in motion for the sale of all government lots in the city limits. Appraisers have been appointed to set values and the sale may take place within sixty days.

Hope of salvaging the stern wheeler Quesnel, which went on the rocks in Fort George Canon recently, has been practically abandoned. The freight has been taken off the wreck and the hull will be stripped.

J. Vernon McKenzie, editor of McLean's Magazine, and H. Weston Taylor and W. V. Chambers, the two illustrators, left here last week to visit the Peace River country. Arthur Stringer, novelist, returned East, where he was called by his publishers.

Fred Steacy, secretary of the Curling Club, was last week presented with a mahogany clock and stand and an address by members of the club in appreciation of his services during the past season.

Miss Eileen Rolston, of the public school staff, has handed in her resignation, to become effective at the end of the present term.
