PIRACY SUGGESTED.

Rupert people are beaten by the Dominion government and railway heads. no other conclusion can be drawn in view of the conditions disclosed at the joint meeting of the Fisheries Association, City Council and Board of Trade last night. It is now clearly, either that way officials and ministers of the crown were woefully negligent in their work or they were deliberately deceiving the people of Prince Rupert. As it was clearly stated at the meeting, nobody was lying, and naturally Prince Rupert is a result.

It seems to be a common desire to starve out the city of Rupert and the section on this side of Jasper. If not the case it appears that we must be something the generally hostile and we are receiving, for business or political act that way without son not apparent on the

The photograph, a very recent one, shows British troops battering down a door with a pick-axe in Dublin. These searching parties are all well armed and equipped. They are holding their bayonets in readiness in case any one makes a rush from within. Sinn Fein disorders seem to be increasing daily, and as many British guards as there are in the bigger cities of Ireland, fighting continues. In a recent raid British police and Sinn Feiners engaged in a pitched battle, in which many were wounded, between 100 and 300 Sinn Feiners taking part in the fighting. The din of the fighting could be heard more than nine miles away.

Grievance is Laid Before Mr. Meighen

Text of Telegram Sent Last Night by Local Organizations to Three Ministers, with Copies to Peck and Pattullo

The following was the text of the telegram sent last night by the Board of Trade, City Council and Fisheries Association to Premier Meighen, the Minister of Railways, and the Minister of Marine and Fisheries, with copies also to Col. G. W. Peck and Hon. T. D. Pattullo:

"Prince Rupert fishing industry being ruined. We have never had sufficient express refrigerator cars to take care of the trade offered. We have repeatedly impressed upon the railway and the government our immediate need for eighty or more cars. In the meantime our trade is paralyzed."

"In July Dr. Reid and Mr. Hanna stated here that thirty cars would be delivered in August for this trade."

"In October Mr. Pullen stated before the railway commissioner here that deliveries would commence in November."

"On November 9 Mr. Hanna wrote that the delay was due to the difficulties in getting materials."

"On January 29 Mr. Warren wired that the first car would be completed March 15 and the entire thirty by March 31."

"Our representative has since interviewed 'official' of National Steel Cap company and was advised that the factory was closed with nothing done and nothing settled as to when the work would commence."

"Is not this industry and its benefits to Canada worthy of better treatment? We ask for an immediate investigation as the matter is of the most vital and immediate importance."

"Could not order for these cars be placed with some concern at present operating who can and will deliver this equipment within thirty days? Please answer."

CREDITORS GET PLANT AT DRY DOCK

Liquidator Expects to be Able To Pay 60 Cents on The Dollar.

VANCOUVER, Feb. 25.—The order of the court in the Prince Rupert Dry Dock case as finally settled reserves to the liquidator the plant, for which the Dominion Government will have to pay such rent as is asked by the liquidator.

Mr. Hodges expects to get an amount equal to what he had originally offered to settle for with the Dominion authorities, which will be enough to pay all wage claims in full as well as 60c on the dollar to the creditors.

Startling Discovery Made in Regard to Refrigerator Cars

Company Where Order is said to be Placed is Not Working and Does Not Seem to Understand Need of Speed; Someone is Prevaricating

At a joint meeting of the executive of the local branch of the Canadian Fisheries Association with the fisheries committee of the Board of Trade and City Council and with Mayor Rochester present and President Williams of the Board of Trade, telegrams were sent to Premier Meighen, the minister of railways, the minister of fisheries and Colonel Peck in regard to express refrigerator cars, following the receipt of a telegram indicating that the cars on order would not be delivered in March as promised. The telegram was from A. L. Hager, president of the Canadian Fisheries Association at Vancouver to the local secretary as follows:

"Wallace has been confined to his house with an attack of grippe, hence the delay in forwarding Thompson's report on his Hamilton trip. Thompson interviewed Skelton, vice-president of National Steel Car Company, and states

and is at present closed down,

and you tonight Thompson's report, also Wallace's letter."

Hostile Talk.

Following the reading of the telegram, there was some very hostile talk in regard to the action of the officials of the railway and the heads of the Government. It was stated very openly and clearly that the officials were only playing with the people of Prince Rupert.

Both T. H. Johnson, manager of the Cold Storage Company, and J. W. Nicholls, controller, expressed surprise that the responsible heads of the railway and the Government should not be aware of the fact that not only was the car company not operating but that they had no knowledge of any need of speed in the execution of the order which had been placed with them. The Cold Storage Company had put up an extra quantity of bait and ice this year relying on the word of the officials that cars would be here to handle

Unemployed Question is Debated in Legislature Labor Members of House

VICTORIA, February 25.—"Unless something is done you will have the unemployed coming here and demonstrating on the steps of the Legislative Building and some of them have been trained to use machine guns," declared Samuel Guthrie, labor member for Newcastle, in the Legislature yesterday when urging the Government to take immediate steps to find work for the unemployed throughout the province.

The Premier interrupted Guthrie on a point of order, declaring that such statements suggested intimidation of the Legislature, which was improper.

"I wonder these people stand by to stop a demonstration of soldiers and see their families short of driers. A member of the Government when there is food in the world on the side told me 'we might pull off the Ole Hanson trick on you,' meaning he supposed to use machine guns as they

Dick Burde of Alberni declared did in Seattle. 'Just do that and the advice being offered was not some of us will walk up and spit intimidation and asked if in the mouths of those machine guns,' he declared. 'Don't talk of over recently was not a species of intimidation. Just wake up and intimidate. He recalled that two do something sessions ago the utmost was done. The debate was then adjourned.'

the business. Even the farmers in the interior were disappointed when business here was poor as they could not sell their produce.

In addition to the telegram circulars will be prepared and sent to every member of the Dominion Parliament stating the case clearly and concisely.

Before the meeting copies of letters giving a resume of the situation were passed around.

Work Proceeding.

A letter received by the secretary of the Fisheries Association from Jas. H. Conlon, director of the publicity and marketing department of Marine and Fisheries on December 28 said:

"Regarding your request for information as to the possible date when delivery will commence of the thirty new express refrigerator cars, there is no accurate information yet available. A few days ago Mr. C. A. Hayes of the Canadian National Railways advised us that the work on these cars was proceeding rapidly and he hoped to have them in service, largely for the accommodation of fish traffic for Prince Rupert in the spring."

From Hanna.

From the same man comes another letter on January 3; "With further reference to our letter of December 28 respecting shortage of refrigerator cars at Prince Rupert, the department has received from Mr. D. B. Hanna, president of the Canadian National Railways assurance that the fifty cars ordered last spring will be delivered not later than March next, and he promises that as soon as this equipment is delivered Prince Rupert may expect an improvement in the situation."

Somebody Lying.

Naturally having had so many promises from the Government representatives and heads of the railway, none of which were fulfilled, the conviction grew locally and among members of the fisheries association that somebody was doing some tall lying. On January 28 James Lee, secretary

Thompson Sent.

This was forwarded also to Mr. Lee who replied expressing appreciation of the action of the association in sending a man to visit the company to find out the condition at first hand, and a telegram was soon received from Wallace saying: "We have furnished our Mr. Thompson at Toronto with full particulars regarding express cars and instructed him to visit National Steel Car Co. at Hamilton and report progress. Will push this matter strongly."

Hagan wired back that he trusted Thompson would dig right into the actual facts reporting promptly and fully.

The final wire received was that quoted which showed that the fears of the local people were justified.

"While employed in a stone yard, I cut my leg very badly," writes Mr. Oakley. "A doctor sewed up the wound and attended me for five weeks. All the while I was on work. At the end of it I was advised to go to hospital."

"After I paid over \$40 to the doctor I determined to try Zam-Buk. Within two weeks Zam-Buk had so healed the wound that I was able to return to work. Further treatment made the limb quite sound. Thus one dollar spent in Zam-Buk did what a forty-dollar treatment had failed to do! I shall never be without Zam-Buk again."

It is counted from 0 to 24 hours, from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

The height is in feet and tenths of feet above the average level of lower low water.

Those Nasty Little Pimples That come on the Face Are Caused by Bad Blood

Many an otherwise beautiful and attractive face is sadly marred by the unsightly pimples and various other skin troubles caused wholly by bad blood.

Many a cheek and brow cast in the mould of beauty have been sadly defaced, their attractiveness lost, and the possessor of the "pimply face" rendered unhappy for years.

Their presence is a source of embarrassment to those afflicted as well as pain and regret to their friends.

There is an effective remedy for these facial defects and that is Burdock Blood Bitters, the old reliable medicine that has been on the market for over 40 years.

It drives out all the impurities from the blood, and leaves the complexion clear and healthy.

Mrs. James Williams, Waterford, Ont., writes: "My face was covered with pimples for nearly a year. I used different kinds of remedies to get rid of them and finally thought there was no relief. A friend dropped in one day and told me I should try Burdock Blood Bitters. I did so and used three bottles, and found the pimples were all disappearing from my face, and now I have a clear complexion again."

Just Look at Him

Man should get a revised edition

of himself, so that he can see

himself as others see him. Man

is the most unchaste, the most

drunken, the most selfish and

conceited, the most miserly,

the most hypocritical, the most

bloodthirsty of terrestrial creatures.

For example, no animal

except man kills for the mere

sake of killing. The human

species is the only species that

plunges to such depths of atrocity.

Even vipers and hyenas do

not kill for recreation.

If man would only get a revised edition

of himself he would find that the

civilized man is a mongrel, a cross

between a barbarian and a hypothetical God.

He would find his psychology a compound

of the jungle and the sky. Then he

might understand why he underestimates the rest of his kind.

Chains Melting

But the spirit of fraternity and

sympathy which broke the black

man's manacles is today melting

the woman's chains, which will

finally convert this planet into an

unbroken spectacle of peace and

solidarity. Then, and never be-

fore, will this bickering as to the

superiority or inferiority of man

and woman cease. E. M. B.

Mr. and Mrs. Hall of Shames, were arrivals in the city last evening.

In the Letter Box

WOMAN'S OPINION OF MAN

Editor, Daily News—Regarding your remarks and editorial comments on the superiority of man, conceit is a distinctly human emotion. No other animal has it, that man lavishes it upon himself with a generosity sufficient to compensate for its total absence from the rest of the universe.

Man has always overestimated himself. In whatever age or province of the world you look down on the human imagination, you find him, through conceit, industriously making disparities and establishing gulf. Man, according to himself, has had great difficulty many times in the history of the world in escaping the divine. According to facts he has, only after great labor and uncertainty, abandoned his tail and all fours.

According to himself man has been endowed with powers peculiarly his own. Those present included Mr. and Mrs. H. A. Wallace, Mr. and Mrs. T. Allen, Mr. and Mrs. A. T. Parke, Mr. and Mrs. Arthur Bailey, Mr. and Mrs. A. Akerberg, Mr. and Mrs. R. W. Grieve, Mr. and Mrs. George Wilson, Misses Sewell, McLeod and Hall, and Messrs. Tinker, Wearmouth, Grear, J. McAuley, Holby, Manuel, Tabrum, Will Edmunds, J. Slade Stevens, A. D. Watt and Muir Graham.

DRAMATIC STORY IN

**"THE WORLD AND HIS
WIFE" HERE TONIGHT**

Aleja Rubens, who was the featured player in "Humoresque," has the leading role in the new production, "The World and His Wife," which will be shown at the Westholme Theatre tonight.

The scenes in the picture, which was adapted from a successful Broadway play, are laid in Spain. Miss Rubens has the role of Fedora, a young Spanish girl, who marries Don Julian, very rich and much older than herself. Ernesto, a youthful writer and son of Don Julian's deceased friend, comes to convince himself that all the rest of the universe is inferior to himself in ability, judgment and intelligence.

Promoted Reptile

If man would only look upon himself not as a fallen God, or a God in the making, but as a promoted reptile instead of a celestial genesis and a tall, long, doleful promotion instead of an Elysian garden and romance, the slime instead of a God with royal nostrils miraculously animating an immortal duplicate, a little long-in-cellule too small to be seen and too senseless to distinguish day from night, each generation of men seem to feel that whenever it creates a new generation, it must pile on this new generation all the fool notions and atrocities which have been acquired from the past, amplified by his own invention.

Just Look at Him

Man should get a revised edition of himself, so that he can see himself as others see him. Man is the most unchaste, the most drunken, the most selfish and conceited, the most miserly, the most hypocritical, the most bloodthirsty of terrestrial creatures. Saunders is to commence the paying of transferred time checks of the Prince Rupert Dry Dock & Engineering Company at the Dominion Fisheries office in the Stephens Block, Third Avenue. The news will come as a relief to the many persons in the city who have been holding these checks for a long time, after having cashed them for workmen who have long since left the city. Captain Saunders states that a clean sweep of the checks will, however, not be made, but only certain ones will be cashed.

BIG INVENTION CAPT. ROBERTSON

New Gun Noiseless and Flashless

OTTAWA, Feb. 25.—Major General McBrien announces an invention by Capt. Robertson, of Vancouver, B.C., of a new gun, noiseless and flashless. He says this will be a big step forward in the efficiency of artillery.

One Great Essential To a Woman's Health Is Her Nerves

Nature intended women to be strong, healthy and happy as the day is long, instead of being sick and wretched. But how can any woman be healthy, and happy when the whole nervous system is unsound. The trouble is they pay more attention to their social and household duties than they do to their health. It is any wonder then that they become irritable and nervous, lose their blushes, faint and dizzy spells, smothering and sinking spells, become weak and nervous, and everything in life becomes dark and gloomy.

Milburn's Heart and Nerve Pills are the very remedy that nervous, tired-out, weary women need to restore them to the blessings of good health.

Mrs. P. H. Ryan, Sand Point, N. S., writes:—"I have been a great sufferer from nerve troubles. I was so weak and nervous I could not sleep at night and my appetite was very poor." I could not walk across the floor without trembling, had no blushes and fainting spells. When I was on my second box of Milburn's Heart and Nerve Pills I began to feel better and kept on until I had used six boxes when I felt like a different person. I am never without them in the house and recommend them to all who suffer with their nerves."

Price 50¢ a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont. Advt.
