U.S. Gives Germany Cold Shoulder JAPANESE FREIGHTER BURNING OFF COLUMBIA RIVER; CREW RESCUED

United States Backs Allies in Demand for Adequate Sums Meet Germany's Obligations

WASHINGTON, May 3.—The Government has informed Germany that her proposals are unacceptable as a basis of discussion. It is believed that Germany will submit direct to the Allies such proposals as will be clear and adequate to meet Germany's just obligations.

LONDON, May 3.—The Supreme Council has notified Germany that she must pay thirty-three billion dollars at the rate of one billion yearly plus twenty-five per cent of her exports covered by per cent bond issues as they become necessary.

BERLIN, May 3.—It is the belief here that the refusal of the United States to deliver the German counter proposals on reparations to the entente necessitates the resignation of Chancellor Brüning and Foreign Minister Simons.

LONDON, May 3.—Nine days remain for Germany to inform the Allies of her intentions relative to payment for reparations. She must give guarantees for the execution of her promises. She must deal directly with the Allies. It is believed the note from the United States Secretary of State has closed the door to Washington.

NOT LIABLE TO PAY ACCIDENTS

City Will Post Notices Apprising Public of Condition of Certain Streets.

RECOMMENDATION ROUGH GRADING NOT ACCEPTED

A report was received from the Board of Works by the city council last night recommending the rough grading of Sixth Avenue from Taylor Street to Hays Cove Circle, Fifth Avenue from Emerson Place to Hays Cove Circle, and Dunsmuir Street from Fourth to Fifth Avenue, but was turned back to the city engineer for separate estimates for the different sections of the work. While the council seemed to favor the advancing of the scheme, the feeling was expressed by some of the members, including Alderman Parker, that the scheme was somewhat too comprehensive and that such a general decision should not be made until there was some idea of what the work would cost. Alderman Dybbavn held similar views, stating that an estimate for similar work had been asked for some eight months ago, but had not yet been received.

It was decided on recommendation of the city solicitor to post notices up on various condemned streets notifying the public of their condition and at the same time pointing out that the city would not be responsible for accidents occurring through their use.

Hull and Deck Work on Canadian Scottish Well Advanced for Launching

The name "Canadian Scottish" has already been lettered on the bows of the first vessel to be launched from the ways at the Hays Cove shipyard and the construction of the big 8,000 ton vessel, which will slip into the water on May 12, is now well advanced. The decking from the fore'shead to the afterdeck is laid and the hull and cabin work is nearly completed.

The fittings for the boat are commencing to arrive and the six wings of the two propellers were laid down in the yard last week. Great progress has been made on the work since the Wallace Shipyard took over the vessel a few weeks ago, and the construction is going ahead with despatch.

The second vessel, the Canadian Thrasher, is also taking shape quickly and her launching should follow not so long after her sister ship is in the water. The yards around her are strewn with the steel plates all marked and numbered for their positions in the hull of the vessel.

SPECIAL GRANT BY COUNCIL TO PAPER

F. S. Wright Gets \$50 for Plain-dealer and Council Gets Pictures Published

An application from F. S. Wright, publisher of the Plain-dealer, that a grant of \$50 be made towards the special number of that publication that is being put out on May 12, launching day, met with opposition by some of the members of the council last night, but was granted on the tie vote of the council and the casting vote of the mayor.

Alderman Parker pointed out that he opposed the grant first on account of the strained financial situation and second on the principle that it would not be fair to the other three publications of the city. No doubt the other papers would be having special issues and he would not favor the precedent of granting to one if the council was not prepared to grant to all. Alderman Dybhavn also backed up this viewpoint, stating that he would not blame the other papers for also asking for grants if this were given.

On the vote being taken Aldermen Perry, Kelly, McNeill and Kerr favored the grant, while Aldermen Silversides, Frizzell, Dybhavn and Parker opposed it. Mayor Rochester declared the motion for the grant carried. The photographs of the mayor and council are to appear in the special issue.

WANTS \$1,000 IMPROVEMENTS AT SALT LAKE

Executive Committee of Swimming Club Make Plans for Lot of Work

On Sunday the executive committee of the Swimming Club visited the Salt Lakes and decided on a program of improvements which they hope to carry out this year and this was further discussed at a short meeting last night in the police court room.

It was found that the water at the lake was rather discolored owing to the dam preventing the sea water coming in except at the very highest tides. Accordingly the dam was removed and the level of the lake lowered for a week or two in order to allow the water to come in. This will make it much better for swimming purposes than it otherwise would be.

The Program

An estimated expenditure of \$1,000 is contemplated. It was found that one of the boats was badly waterlogged and would have to be renewed and some improvements will be made to the dressing rooms. The landing stage also has to be renewed and if there is sufficient money the committee is anxious to get more sand put in the shallow part of the lake for the children to have an opportunity to wade.

The committee reported the work being put in by the Provincial Government to be practically complete and a very great improvement over the old one. It follows the water's edge and is fine from a scenic point of view.

Must Have Money

It was pointed out by a member of the club that people seemed to expect a lot of improvements to be made, but were not ready to put up their money. The few members of the club gave their time to this which was public work and the people should be willing to pay without being demanded for the money.

H. B. Boer resulted in a draw being declared although the former was in the aggressive all the way.

Chris Stapleton gave another ball punching exhibition which was enjoyed as much as ever.

There was a long list of musical numbers which were received with much applause. Towards the end the Westholme orchestra arrived on the scene and delighted the audience with a generous number of lively selections. Refreshments and smokes were served in abundance and the whole affair was keenly enjoyed. J. McCreedy was the chairman.

KILLED BIRD WITH A GOLF BALL SHOT

LONDON, Ont., May 3.—While golfing at the London Hunt Club recently, Arthur White, a local member, killed a bird on the wing with a shot from one of his trusty clubs. The shot, a low fast one, cut the head of a golden ringed woodpecker, better known as a "flicker." The club professional, K. Marsh, admitted that he had heard of similar cases, but declared they were very rare.

Sport Chat

Uk is also blooming forth as a sport town and an athletic association is being launched there in order to organize a baseball team. An ideal spot for a diamond would be on the first terrace of the townsite where an isolated rock remains in amphitheatre position ready to afford seating accommodation for all the fans.

A tennis club has been formed at Uk and a court has been established in front of the hotel. A benefit dance was held last week which greatly assisted the finances of the club. The following are the officers; President, J. A. McGuire; Secretary, Miss H. Jones; Committee, Mrs. Whitlow, Miss Helen Durham, L. E. Moody and Roy Thomas.

"Anybody who says that the Red Sox won their first game by a fluke over the Sons of Canada can take that back right now," says Manager Webber on the strength of the second victory his team scored over the Sons at the Acropolis Grounds last Sunday. He can back up his assertion very well too, for the Sox had their opponents going at every juncture of the game. The Sox will have to brighten up their baseball team if they are going to live up to their enviable record in other lines of sport. In fact it looks like the Red Sox will prove the hane of their baseball achievements, just like the Colts gave them a merry chase at basketball.

Everybody is waiting to see that group of "seasoned veterans" that the Elks declare they have ready to spring in the City Baseball League. They are shrouding

JURY SYSTEM IS IN DISREPUTE SAYS EDMONTON LAWYER

EDMONTON, May 3.—That the jury system of this country had fallen into disrepute and that instead of jurors today being men of intelligence and honor and standing as good British fair play, they were often found to be of far different calibre, was the contention of N. D. Maclean in the supreme civil court in his address at the close of the jury trial in which C. E. Stone, of Vermilion, and the C.N.R. were the litigants.

His remarks drew from Mr. Justice Ives the following comment: "I think Mr. Maclean is broader in his statement of the jury system than he intended to be. In my opinion it is all right and has not come into disrepute. Juries are drawn from a wide territory and the men are necessarily of different calibre and at times their is room for considerable complaint about the appreciation that some juries have of the oath of their office."

Nearly Crazy With Eczema

No rest day or night for those who are afflicted with that terrible skin disease, eczema, or as it is often called, salt rheum. With its unbearable burning, itching and torturing relief is gladly welcomed.

There is no remedy like Burdock Blood Bitters for giving relief to such sufferers; no remedy that has done, or can do more for those who are almost driven to distraction with the terrible torture.

Apply it externally and it takes out the stinging, itching and burning, and promotes a healthy healing.

Take it internally and it gets at the source of the disease in the blood,—for eczema is a blood disease—and drives it out of the system.

Miss L. M. Bottiner, 89 Victoria Road, Halifax, N.S., writes: "I have suffered for years from eczema. I could not rest day or night, I suffered great agony, and was nearly crazy with the itching and burning. I used all kinds of salves, but nothing seemed to help me. I saw Burdock Blood Bitters advertised, and was advised to try a bottle. I found great relief, and I really cannot recommend it highly enough for what it has done for me."

Burdock Blood Bitters has been on the market for over forty years, and during that time has been manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

Denvegan from Spirit River west. There is already a grade constructed.

Premier Stewart took the stand that a line at that particular point would not be of any special service to Alberta settlers, since there was no settlement there. He preferred on the other hand to extend the railway west to the B.C. boundary from Grande Prairie and thus serve a large number of Alberta farmers who are settled in that district. In this event the Pouce Coupe settlers would have the additional expense of coming around the extra distance by Grande Prairie.

The matter was pretty thoroughly discussed, and Premier Oliver went on east to take the matter up with the C.P.R. president. Mrs. Oliver accompanied her husband on the trip.

Advertising is often expensive, but it is nothing like as expensive as an empty store and idle clerks.
