## Admiral Beatty Is Acclaimed Hero TRAIN WRECK ON CANADIAN NATIONAL AT JASPER; MEN KILLED

### Two Killed Near Jasper When Train Struck Rockslide

Following a railway accident near Jasper the train will not leave for Vancouver until tomorrow morning, and the Prince Rupert train will not wait for it. Some passengers from the East who were on the train in Vancouver have been transferred at Jasper to the train going direct to Vancouver.

The Canadian National announced this morning that the train which left Vancouver on October 31 hit a rockslide seven miles west of Jasper, and the engine and first car were derailed and damaged. The train was stopped at the scene of the accident and the injured men were taken to the hospital. The train was then moved to Jasper and the passengers were transferred to the train going direct to Vancouver.

 sailed for the United  
 States on Saturday to at-

 Government Timber Lease  
 Proposal.

VICTORIA, Nov. 3.—There is  
 a party here led by Robert Ty-  
 hurst, manager of the Fraser  
 River Timber Syndicate, for the  
 purpose of discussing with the  
 Government the provision of a  
 suitable supply of pulp timber in  
 the neighborhood of Prince  
 George. If successful in se-  
 curing sufficient leases, they  
 propose erecting a six million  
 dollar paper mill near Prince  
 George.

The syndicate already has a  
 large area of timber on the  
 banks of the Fraser River and  
 its tributaries, but before in-  
 vesting such a large sum they  
 wish to be assured of a con-  
 tinuous supply for all time to  
 come.

### LIQUOR SALES ARE PROFITABLE

Government Will Make \$40,000  
 a Week According to Pro-  
 vincial Secretary.

VICTORIA, Nov. 3.—That the  
 profits in the government sale  
 of liquor will average \$10,000  
 per week is indicated in the  
 statement made by Hon. J. D.  
 McLean, provincial secretary, to  
 the legislature. It had been  
 estimated that the profits for  
 the first period of the liquor  
 board's administration from June  
 15 to November 30 would be  
 \$60,000 on the sale of permits  
 but during this period the gov-  
 ernment had realized \$121,034.  
 Balance sheets showing the  
 turnover in the disposal of stock  
 have not yet been made public.

Hon. Mr. McLean defended the  
 administration of the civil ser-  
 vice quoting from the public ac-  
 counts already issued that the  
 expenditure for the maintenance  
 of the civil service was within  
 average reasonable limits.

### Minister of Agriculture Defends Government Policy Regard to Land Settlement

VICTORIA, Nov. 3.—In a speech in the Legislature yester-  
 day Hon. E. D. Barrow defended the Government's soldier settle-  
 ment policy and said the administration had accomplished a  
 "maximum" of result within the financial limits set for it. He  
 emphasized the success of the Merville settlement. The site had  
 been chosen by the men themselves. The Land Settlement Board  
 could only make appropriations on the basis of value received. A  
 commission was now investigating conditions among the soldier  
 settlers and he expected to be able to recommend that some  
 unsuccessful settlers be trans-  
 ferred to other lines of work.

Mr. Barrow also defended the  
 Creston settlement administra-  
 tion. He spoke of the develop-  
 ment of the cattle club scheme,  
 resulting in the introduction of  
 purchased stock in the northern  
 interior.

The minister of agriculture  
 spoke of propaganda which was  
 planned for the British Islands  
 to encourage the best type of  
 settlers to come to this country,  
 especially with a view to settling  
 upon the vacant lands of the pro-  
 vince.

G.W.V.A. Pass Resolution with  
 Three Dissenters Favor-  
 ing Candidature.

There was a meeting of the  
 G. W. V. A. last night in the  
 Veterans club rooms and this  
 morning the following statement  
 was given out:

"At the regular meeting of the  
 G.W.V.A. last night it was de-  
 cided that, in view of the extra-  
 ordinary statement which had  
 appeared in the columns of the  
 Daily News to the effect that a  
 few members were making fran-  
 tic efforts to push through a  
 resolution endorsing the Colonel,  
 the press in this city should be  
 advised that these frantic ef-  
 forts had been entirely success-  
 ful, the resolution in question  
 having passed practically unan-  
 imously, there being only three  
 dissenting votes in a large and  
 representative meeting.

"The following telegram has  
 been forwarded to all the G. W.  
 V. A. branches in this constitu-  
 ency. "The Prince Rupert branch  
 of the G.W.V.A. at an enthusias-  
 tic meeting tonight went on re-  
 cord as endorsing the candidature  
 of Comrade Colonel Cy Peck, V.G.  
 D.S.O. in the forthcoming fed-  
 eral election."

### IRISH PAPER'S CONDEMNATION LLOYD GEORGE

DUBLIN, Nov. 3.—The Irish  
 Bulletin expresses Sin Fein cen-  
 sure of Lloyd George for not  
 recognizing the conditions re-  
 ferred to in his big speech long

**Why Not Have City Manager?**  
 The suggestion has been made that, since the city engineer is leaving, the council should fall in line with the directors of other big businesses and appoint a manager. It is not reasonable to expect that an engineer should be expert at his profession and also have to deal with all the routine of managing the petty affairs of the municipality. It is the work of a general manager to oversee all the departments and make sure that each one is making good.

The charge is continually made by citizens that we do not get value for our money in the city. It is claimed that any private business, run on the same basis as the city, would go to the wall in a very short time. This may be based on nothing tangible, but on the other hand there may be a basis of fact behind it. At any rate the opinion seems to be very generally held in the city that a system under which a general manager would have complete control and be held responsible to the city council would work out better than the present haphazard, happy-go-lucky method of council committees, made up largely of men who have never been trained to the business.

The Daily News is not advocating this method because we do not know how it would work out in practice and we are not sufficiently familiar with the present system and its weaknesses. We simply give expression to what seems to be a demand from certain quarters. The main thing that is worrying many citizens is the knowledge that they pay large sums in taxation and the suspicion that the money is not always expended to the best advantage. Under the present system it seems impossible to get the highest degree of efficiency.

**Political Analysis of British Columbia.**  
 Yesterday we published a political analysis of the province of British Columbia, sent out by the Canadian Press, which showed that at one time British Columbia was consistently Conservative politically. Then came a wave of Liberalism which swept over the west and the province fell in line and elected Liberals. It had a Liberal minister in the cabinet.

The pendulum swung again and the province at the 1914 election went solid Conservative, and at the war-time election of 1917 there was not a member of the opposition elected, although several of the Unionists chosen were Liberals, notably J. C. McIntosh for Nanaimo. Now the swing is back to Liberalism once more, and it looks as if there would be a good majority of Liberals returned for British Columbia constituencies, even if not a clean sweep. Even our well-known old friend, H. S. Clements, is pretty sure to fall by the way side before the union of opposition forces in Comox-Alberni.

**Not Tariff Issue But Condition of Mind.**  
 The Government will not be beaten on its tariff issue, although that is a factor in the present election. It will be beaten because the people are in a state of mind for a change.

Wise old rats, who have weathered many a storm, are scurrying off the sinking ship down at Ottawa as fast as they can, the Toronto Star remarks with grim satisfaction. It is not the tariff that is the present issue. It is a condition of mind that causes the Government to go down and out. The prevailing idea is that the elections should be made to produce as much of a change at Ottawa as can be brought about. The old hands in the administration perceive this, and all of them escape, get away, into the Senate or to any ark or island they can reach. The rest of them have made their political wills and await the inevitable.

The prevailing state of mind revealed itself in East York, where the sitting Conservative member was defeated in the nominating convention and a new candidate selected. It revealed itself in the West Toronto convention, where the sitting Conservative member was given a run for the nomination. The same state of mind shows itself in all the Conservative ridings in the city—the desire for new men is almost, in some cases, altogether beyond control.

**ASTRONOMERS MEET AT ROME TO FIX EASTER**

**Date of Religious Festival Varies Too Much—In March Next Year.**

ROME, Nov. 2.—The Vatican has announced that a conference of astronomers will take place in Rome next April under the presidency of Cardinal Mercier with the object of reforming the calendar and fixing Easter.

The occurrence this year of Easter Sunday on March 27, within five days of its earliest possible date, revived the proposal for a fixed Easter. No fewer than sixteen Easters will happen in March between now and the close of this century—an average of one every five years—unless something is done to prevent the erratic wandering of the festival between March 22 and April 25.

Under the existing ecclesiastical rule Easter Sunday can fall on any of 35 dates. The present rule is that Easter must be a Sunday and that the ecclesiastical full moon (which is not the same as the real moon) upon which it depends must occur on one of the seven days immediately preceding it. Thus, to have Easter Sunday on its earliest date, March 22, the ecclesiastical moon must be full on March 21, which date must also be a Saturday, but so rarely are these conditions satisfied in the same year that it is over a century since Easter fell on March 22, and it will not again fall so early until the year 2285.

**Restrict Wanderings.**  
 Of late years the inconvenience of a movable Easter has induced calendar reformers to propose reforms which will either make Easter a fixed festival or greatly restrict its wanderings. One suggestion is that Easter Sunday should be assigned to the third Sunday after the spring equinox, which would give it a range of eight days, between April 5 and April 13, according to the date and day of the week on which the equinox falls.  
 Other proposals aim at an Easter absolutely fixed to one date. That, of course, would necessitate a radical reform of the whole calendar, under which the same weekday should always fall on the same date.  
**Two Easters.**  
 Any such reform will probably have to be universal throughout Christendom, for the moon controlled Easter is common to all civilized countries; though, owing to the fact that the Greek Church still uses the Julian Calendar, there are nearly always two Easter days every year, one the Gregorian, observed by Roman Catholics and Protestants and the other the Julian, kept by those countries which are in communion with the Greek church.

**MONEY NEEDED WHO WILL PAY?**

**Government Still Considering Question of Taxation with View to Solution.**

VICTORIA, Nov. 3.—Perhaps no problem which has loomed upon the legislative horizon during the past few years has assumed such importance in the eyes of the general public as that pertaining to municipal taxation. More money is needed by nearly every administrative body in British Columbia, while the government must have more revenue in order to keep pace with expenditures.  
 Every possible source of revenue has been under consideration, from appropriating half the wealth of the rich down to taxing gasoline. The government proposed to give the municipalities the personal property tax, but this many of the larger centres will not have. A strong complaint has gone up from industrial heads all over the province, to the effect that such a step would result in the stagnation of industry and even the removal of many firms from the province so as to avoid the increased burden.  
**Income Tax.**  
 An increase in the income tax may be looked for, while there is a strong indication that the government will collect something from every dollar earned in British Columbia regardless of who earns it. Members of the Legislature, of both parties, have expressed disapproval of this, claiming that the man with a small income—and reference is made particularly to the workman—needs all he has. The assessment proposed amounts to one per cent, which means that the man earning \$125 per month would contribute \$1.25 per month in taxes, or \$15 per year.

**Looking for Solution.**  
 There will be an increase of \$250,000 in the school grant and an equal division of the revenue from the sale of liquor. However, the final settlement of the taxation question, for another year at least, will not be reached until near the end of the present session of the House. Premier Oliver is asking for suggestions from all who have them to offer, maintaining that the government is not tied to any set policy but is endeavoring to meet the wishes of the majority.

**Ten Years Ago in Prince Rupert**  
 November 3, 1921.  
 Mayor Manson, as member in the legislative assembly for Skeena, announces that he is going to move in the house for the erection of a proper provincial jail here. It costs too much to send city prisoners south.  
 Ald. Hilditch suggests in council that the city should buy and operate a newspaper of its own on account of the city's extensive advertising.

The wedding took place last night at the home of Mr. and Mrs. W. T. Robinson, Musgrave Place, of Miss Susie Mae Robertson and Clarence Leicester Swindell.

**PIMPLES ON FACE DIDN'T LIKE TO GO OUT**

Those nasty little pimples that break out on the face and other parts of the body are simply indications that the blood is out of order and requires purifying.  
 There is only one way to get rid of this objectionable skin trouble, and that is by giving the blood a thorough cleansing which can best be done by that old reliable blood medicine  
**BURDOCK BLOOD BITTERS**  
 and when the blood is purified the pimples will vanish and you will have a clear, healthy complexion.  
 Miss Mary E. Flanagan, R. R. No. 3, Stella, Ont., writes:—"I suffered for about two years with pimples and blotches breaking out on my face. The doctor said it was caused by bad blood. My face was so bad that I didn't like to go out among a crowd of people. One day I was talking to a friend, and she advised me to get a bottle of Burdock Blood Bitters and try it. I just took three bottles, and there was not a blotch or pimple of any kind left. Some of my friends asked me what I had used and I said, 'Burdock Blood Bitters chased them.'  
 B. B. B. has been on the market for the past 45 years, so you are not experimenting with some new and untried remedy.

FAR NORTHERN INDIANS MAKE HOME BREW

Condition of Natives Around James Bay Told by Mounted Police Inspector.

OTTAWA, Nov. 3.—(By Canadian Press)—Inspector J. W. Phillips of the R.C.M.P. has returned to Ottawa from a four months trip of inspection to points along the coast of James Bay. Accompanying him were Cpl. E. M. Rimmer, R.C.M.P., and Dr. R. W. Kinsman, Toronto, of the Indian Department, and the expedition was made in order to investigate the condition of the inhabitants, mostly Indians and Eskimos. It was feared that there was a certain amount of destitution, but Inspector Phillips reports things better than had been expected. Throughout the summer there has been an abundance of fish, white whales and seals along the coast, but it is very difficult to induce the Indians to exert themselves. What is wanted, says the inspector, is some means of getting them to take more interest in life generally. At some points they have gained for themselves the name of "coasters" as they will remain near the coast in spite of any inducement made to them to go inland where far bearing animals are plentiful. They seem to prefer to remain near the trading stations, looking for dories.

Native Beer. No destitution was found among the 450 Cree Indians at Moose Factory. Many of them, says Inspector Phillips are well off as Indians go, having bank account gardens of their own and the opportunity of work with the trading companies when they want it. White and Indians alike had been making home-brew or native beer, but the practice is becoming a thing of the past. Both the Hudson Bay Co. and the Revillon Freres Fur Trading Co. have given orders that if any of their employees are discovered making home-brew, they are to be immediately discharged. It was found that there was no sale of the concoction. Inspector Phillips called a meeting of the tribe, at which everyone attended, and explained the law concerning this practice, making it clear that the penalties would be strictly enforced.

At Rupert House, on the east side of James Bay, both the trading companies have posts. The natives are "coasters." They never go inland, but stay about the coast, fishing and hunting foxes. When the foxes are plentiful the natives are self-supporting, but during most years, when not actually starving they are hard up and dependent upon advances made by the trading companies, together with rations issued by the government. These efforts have been made to induce the Indians to go into the interior where hunting is profitable, they have always been found to return to the post without fur, having merely idled away the time. At Rupert House one Indian was charged before the inspector with being drunk. He was fined \$20, and promptly dismissed by his employers, the H. B. Co. Experimental Farm.

At East Main, further north, there are 260 natives almost all "coasters." It was here that the H. B. Co. at one time maintained a farm with 80 cattle, 100 sheep and a number of hogs, supplying all their posts

in James Bay with meat and butter. The inspector reports the land as very fertile, and it would make an ideal spot, he says, for an experimental farm, incidentally providing work for the natives. Something, he says, will eventually have to be done for them. Not only must they be given work, but they must be taught to be industrious and to take more interest in life.

The Man in the Moon SAYS—

ONE of the worst crimes in the calendar is killing time.

"CUTTING a shine" is the job of the barber who trims bald patches.

THE English language is called the mother tongue. You know why. If I were to repeat it I might stand in bad with my wife and some of my lady friends.

THE only use for a man is to buy theatre tickets and to act as groom at a wedding. Then there are sundry details afterwards such as paying the bills and providing an allowance.

There are a lot of Liberals and Conservatives and Socialists and Farmers and Fishermen and Church people and Englishmen and criminals and millionaires who will wish they had their names on the list so they could vote at the December election but if they don't get their names on this week they will be able to do nothing better than swear at the Government.

PRINCE GEORGE TO REMAIN LOCAL DOCK ALL THIS WINTER

General repairs to the Grand Trunk Pacific steamer Prince George, which is in the local dry dock, have been finished and there remains now to be done the painting. This, it is expected, will take well on to Christmas and has been delayed because there were no men available to do the work. It will be proceeded with as soon as the Canadian Britisher is done when there will be plenty of men. In the meantime, until the painting is finished, steam will be kept up in the vessel but after Christmas she will close down altogether and there will be but a watchman left on board. It is likely that she will not again be commissioned in the service until April and will remain tied up here taking the berth of the Britisher after that vessel is gone. Captain Moorehouse is still in the city but expects to leave for Vancouver shortly.

Towards spring the Prince Rupert will likely go into the dock for minor repairs and overhaul. This vessel is in good shape now having been completely renovated in the spring following the disaster at Swan-son Bay of last fall. The Prince John and Prince Albert will likely remain running throughout the winter.

WORKED WITH MEN IN ORDER TO LEARN THEIR POINT OF VIEW

Young American Sociologist Gives First Hand Information in regard to Workingmen of States and Britain.

LONDON, Nov. 3.—"You cannot discover a man's feelings by interviewing him. To understand what he feels and why, you must live with him and eat with him, and most important of all, you must work with him. You must learn all the feelings that go with his job. This," said Whiting Williams, the young American sociologist, addressing a meeting of Friends, "was why since January, 1919, I have worked in mines and docks and steelworks in America, Great Britain, France, and Germany."

Uncertainty Potent Influence.

From America and the East End of London Mr. Williams drew his poignant illustrations of the misery in which millions of men live because they never know from day to day whether there will be a job for them. "The absence of the irregularity of a job is one of the most potent influences in a man's life. The base of the dockers' life is that he never knows whether there will be work for him. If he gets a job he knows that someone else has missed it."

Causes of Unrest.

To understand the psychology of the worker you must know how he is affected by the physical, mental, and spiritual conditions of his job. For instance, in Glasgow the housing conditions are very largely responsible for the unrest. Mentally the worker is affected by things whose importance the employers, removed from him by a vast distance, do not understand. The working man, who probably has no personal knowledge of his employer or manager guesses at his view-point from such indications as the tone of his foreman and the waste or disorder of the management.

Bolshevist Scores.

"Where the Bolshevist scores over the more moderate reformer is in his understanding of the worker's spiritual attitude to his job, the desire of every man to justify his existence by the work he does, his intense satisfaction when he establishes a claim to the respect of his fellows. The question of unemployment, Mr. Williams thinks, must be dealt with internationally. He welcomed M. Briand's "The time is coming when diplomats must get together to discuss ways of remedying unemployment."

PRINCE AT MALTA.

MALTA, Nov. 3.—The Prince of Wales opened the Maltese Parliament under a new form of government based on Dominion self-government.

FIGHT PICTURE FINE FEATURE

Film of Bin Jersey City Championship bout Best of Kind Ever Shown Here.

The Carpentier-Dempsey fight picture, which was shown at the Empress Theatre last night and will be repeated tonight, is by far the best film of its kind that has been ever exhibited in the city and, of course, it is the most interesting. There was a full house for the first show and it is likely that those who did not see it last night will be there tonight. It is an excellently produced film and differs in this respect from the last boxing picture which was shown here—the Dempsey-Brennan film.

Hard Training.

All details of the training are shown and the two boxers are seen hard at work in the long weeks of tireless training preceding the battle. Dempsey's big camp at Atlantic City and Carpentier's quiet little one at Manhasset and the work of conditioning that goes on in them proves very interesting and gives a splendid portrayal of the hard work that is necessary for the pulling of the two supermen in shape.

Then comes the big day at Jersey City when the two enter the ring for the battle of the

Georges Carpentier

century. One is given an idea of the immense crowds that gathered from east, west, north and south for it.

Fight in Detail.

The fight is shown in great detail and from many angles. One sees how the two heavyweights go to it hammer and tongs in the first two rounds, how the immense crowd seems to rise up in a body, when one or the other shows a brilliant streak. It is plain that from the very outset they are looking for a decisive coup. Then comes the third round when Carpentier shows signs of weakening. The fourth, fatal and last round shows the Frenchman plainly on the run—it is but a matter of time. He is knocked down for the count of eight but struggles gamely to his feet and soon goes down again this time to stay until after Referee Harry Erle, has counted out ten.

Taken all in all it is almost as good as actually seeing the fight, although, of course, one knows the outcome and there is not that keen interest that would characterize the actual battle. All those interested in the fight should certainly see it. To round out the program there is a fine Western comedy—one that keeps you laughing all the time.

Sport Chat

Word has been received in Canada that Art Halliwell, Canada's best soccer goalie, who played this season with Ulster, an Ontario team, but who left a few weeks ago for England, played his first game in the Old Country with Dundermine, in the second division of the Scottish League, and more than made good. Halliwell is said to have played a wonderful game and

great things are predicted for him in Old Country soccer.

The Pas 200 mile dog derby is already becoming a favorite topic of conversation in Northern Manitoba and prospects are that there will be a big list of entries. While the race is still far away, February 28 being the date, there is already a lineup of eleven crack teams practically assured, with more contestants to be heard from. Many of last year's drivers, including Goyno, Dupas, Billy Winterton, Morgan, Baneroff, Larry McKay, Sam Pranteau and Jack Hayes have again been entered. A new entrant will be Billy Rusick, of Lake Athabapuskow, of whom little is known and Stuv Bjorkman of Gladstone, who enters annually but never shows up, is another likely entrant. An invitation has been sent to the Neme Kennel Club to send teams the Fairbanks racing drivers also have announced their intention of sending a representative.

A check of \$30,000 was sent from New York last week to Christy Mathewson who is fighting tuberculosis at Saranac Lake in the Alleghany Mountains. The money was paid by New York baseball fans at a benefit game for the former Giant pitcher. This is not all the money that was raised for Mathewson from this game and it is said that \$40,000 will be realized when all returns are in. A letter expressing the hope of New York fans for Mally's recovery accompanied the check.

### YORSTON AFTER RESERVOIR FARM WILLIAMS LAKE

VICTORIA, Nov. 3.—A government "reservoir farm" on the Borland Ranch at Williams Lake is being advocated by John Yorston, member for Cariboo. This 3000-acre property belongs to the provincial government, being part of the assets taken over from the P.G.E. Railway. The idea is to stock the farm with pure-bred cattle, horses and sheep, maintaining a depot where farmers may secure sires and other animals without the expense of importation.

### ATTEMPT TO DUMP MEN IN ALBERTA CITY

Vancouver Charged Trying to Get Rid of Unemployed at Expense Prairie Capital.

Definite evidence that the provincial employment offices of British Columbia have been engaged in "dumping" the unemployed of Vancouver into the Edmonton district has been obtained by Major Duggan who is taking immediate steps to protest the action to the government of British Columbia, and to advertise in Vancouver newspapers that there is no employment in Edmonton and district for the men out of work along the coast, says the Edmonton Bulletin.

Recently a fairly large number of men have come into Edmonton from the coast bearing cards from the provincial employment office in Vancouver with the assurance that there was work in the Edmonton district at 35 cents an hour. Presumably transportation was advanced these men in conjunction with the railways on the understanding that the fare to Edmonton would be refunded out of the wages earned.

Mayor Duggan has secured direct evidence of the attempt to transport idle men of Vancouver to Edmonton. In view of the serious state of unemployment that already exists here, the entrance of a large number of men from the coast add greatly to the local problem. Advertisements will be inserted in the coast papers warning unemployed men of conditions here and of the intention of the city to assume no responsibility for the care of men coming here from other parts of the country seeking work.

### GETTING ACQUAINTED.

A new foreman took charge of the shop this particular morning, and many of the men had not as yet met him. About the middle of the forenoon he was making a tour of the buildings to familiarize himself with the layout, when on passing a small enclosure he saw two workmen inside who were sitting down smoking. Before he had the opportunity to speak one of the men said: "Hello, what are you doing stranger?" "I'm Dodgen, the new foreman," was the reply. "So are we, come in and have a smoke."—Forbes Magazine.
