# Real Work of Conference Beginning FRED STORK OUTLINES HIS POLICY FOR BENEFIT OF ELECTORS

## Open Letter from Fred Stork to the Electors of Skeena Constituency

THE ELECTORS,  
Gentlemen:  
Having received the unanimous nomination of a regularly convened convention of the Liberal Party of the Skeena Electoral district, I take this opportunity of laying before you my views on public questions of the day.  
My effort will be to aid in carrying out the policy of the Liberal Party of Canada, and particularly the railway program laid down by Sir Wilfrid Laurier. In doing this I shall have before me at all times the interests of the Skeena Electoral District.  
Among the matters which are of vital interest and which will receive my closest attention will be the inauguration of a trans-Pacific shipping service from Prince Rupert to the Orient and the provision of necessary equipment for the handling of the business, including coal bunkers and proper terminal facilities.

**The Fisheries.**  
In connection with the deep sea fish trade, I shall make it my business to see that at all times there is sufficient equipment for the handling of the fish. The building of necessary wharves for the fish and for the accommodation of the fishing boats will have my first attention.  
I believe that British Columbia salmon fisheries should be controlled by British Columbians with expert knowledge of their own waters.

**Railway Policy.**  
Regarding the railway situation, we have the pledge of W. L. King, leader of the Liberal Party, that the railway policy announced and inaugurated by Sir Wilfrid Laurier will be carried out by him to a successful fruition, and in this he will have my full assistance. In this connection I shall work for the immediate construction of up-to-date terminal facilities, including round-houses and shops; the building of branch lines serving the ground coal fields, Copper River iron and coal fields, Kootenai, Stuart Lake, Francois and Osoya Lakes, and a spur to the Skeena fields. It is my opinion that the building of these lines to open up the country contiguous to the railway would be wiping out the annual deficits in the operation of the railway.

**Immigration.**  
I am unalterably opposed to Oriental immigration, as I believe that the province should be kept for white people. This has for many years been the policy of the Liberal party both in power and out. If this country is to be kept for the white race we must encourage immigration from Europe, especially with a view to populating the farming districts on which the cities depend.  
I am a firm believer in the equalization of pensions. Every man who has served his country should be entitled to treatment as good as other receives.

Unemployment must be dealt with in a comprehensive manner. I am inclined to favor an unemployment insurance scheme which will be effective at all times and do away with the necessity of any other schemes and organizations.  
While the Liberal Party declines to allow the tariff to be the issue of the day, it is important, and I should favor the formation of a tariff commission to study its workings and on the basis of which Parliament would act.  
The Liberal Party stands for the interests of the common people, and I believe the common people will return a majority of seats to power. The Farmers' party is closely allied to it in its aims and I believe there will be a gradual merging of the two for the purpose of preserving the democratic spirit of our Government. In many constituencies the two parties are working with a common purpose.

**Steamship Service.**  
Lower freight rates both on the railway and on the coast and lower passenger rates and a better coast service to all parts are most desirable and my influence will be used to bring about an immediate change for the better.  
This federal constituency has never had a resident member. Working your suffrage I feel that having lived in the constituency for thirteen years and having all my interests here it is only natural that I shall work in the interests of the district. Your interests are my interests.  
The foregoing is a short summary of some of the issues which are of paramount importance. If you have confidence in me that I will endeavor to carry these things through I ask you to give me your vote and influence.

Yours in the interests of the Skeena Riding,  
**FRED STORK.**

**SQUASH COAL  
MINES ARE SOLD**  
Astral Man Buys Them for  
\$316,100 at Sheriff's Sale  
Yesterday.  
PRINCE RUPERT, Nov. 26.—The Squash and Morden properties of the Pacific Mines Limited were sold yesterday under the sheriff's order in order to cover liens owed by employees, the total

price being \$316,100. The sale lasted ten minutes, A. C. Flumerfelt of Victoria being the only bidder.  
The Squash mines are situated on Vancouver Island a short distance north of Alert Bay and the deposits there are said to be very extensive. They have been developed at irregular intervals for a number of years, but very little coal has been shipped. John Arbuthnot of Victoria, and erstwhile mayor of Winnipeg, opened up the mines first.

The morning sitting was marked by the use of spirited language between counsel, commissioner and witnesses, and was devoted chiefly to the evidence of C. H. Dawson, formerly game warden, who said he had been dismissed for arranging for the purchase of bear skins from the Government under Dr. Baker's instructions.

The testimony of H. G. Perry, member of the Legislature for Prince George, was also heard.  
J. H. Ellis, K. C., appeared for the Government.  
The next meeting of the commission will take place on Thursday next, when all members of the Game Board will be subpoenaed.

## Reports On Second Week's Progress of Arms Parley; Work is Just Commencing

WASHINGTON, Nov. 26.—The conclusion of the second week of the Washington arms conference today brought conflicting reports as to progress in both the Far Eastern and the naval armaments divisions.  
While the week has been marked with several definite stages of progress made by the committee dealing with the Far Eastern problems, it is realized that the work of the conference on this matter is only commencing.

OTTAWA, Nov. 26.—Weekly reviews of the Washington conference again comment on the great length of the parley, but they are far less confident than they were a week ago today. The misgivings voiced in the reports are mainly based on what is considered the doubtful attitudes of France and Japan.

VICTORIA, Nov. 26.—Esquimalt drydock is to be rushed through to completion, declared Dr. S. F. Tolmie, minister of agriculture in the Meighen administration, in a speech here last night. The dock is an immense one, long enough to take two ordinary ships at one time. Work on it is proceeding.

Dr. Tolmie stated that the Dominion Government had cancelled the increased dock charges at all British Columbia ports, bringing them back to the old level to permit docks in this province to compete with the United States. During the next six months the whole dock question will be reviewed.

## OVERHAULING PRINCE GEORGE

The G. T. P. coaster Prince George, which is undergoing annual overhaul at this port, moved from the dry dock to the Grand Trunk Pacific wharf yesterday at noon. She will be moored there for the winter and the work of overhauling will be completed there. Fifteen painters and polishers are working on the vessel. Six men who are engaged renovating the holds. When the overhauling is done with this vessel she will be equal to or better than the Prince Rupert in her appointments and appearance. She is being overhauled from the keel up, and on completion, will be a choice boat to travel on. All the cabins are being given three coats of paint and the hardwood floors are being polished. ## NAUTICAL POEM FROM RUPERT WATERFRONT; FAMOUS LIFE-SAVER

A very beautiful poem has come to light around the waterfront, purely of a nautical nature, and unless one is really versed in nautical terms the beauty of it will be lost on the reader.

Here is the poem:  
All hands on deck, your feet as well,  
The Captain loudly roared,  
Pull on the rigging quick, and throw  
The main deck overboard.  
To get the lifeboats out of pawn,  
And save your lives said he,  
As I've no one to love at all,  
You can leave your wives with me.  
Then up spoke Peter, one old salt,  
Salt Peter bold and true,  
Unless you pay me that two-bits,  
I'll surely drown with you.  
A sail, a sail! the skipper cried,  
I see it through the fog.  
Well what's the use of a sail said one,  
Without a catalogue.  
It was true the ship was sinking,  
And the water tanks caught fire,  
When the savage captain struck his mate,  
And said he was a—(falsehood Ed.)  
Just then the cabin boy came up,  
The bartender by his side,  
We dare not serve this youth with drink,  
He's under age he cried.  
Age or not the captain roared,  
We'll have our Rye and Mild,  
And snatched the bartender's whiskers off  
And stuck them on the child.  
That is how he saved the crew  
Of the good ship Ketchikan,  
The whiskers on the poor boy's face,  
Made the boy look like a man.

## BET IS PLACED ON STORK MAJORITY IN COMING ELECTION

A bet of fifty dollars that Stork will get a majority of 300 has been accepted by a local Conservative. So far as can be heard there is no even money changing hands. There is plenty offering on the Stork side. Any visitor to the Liberal committee rooms between 8 and 9 o'clock in the evening can, it is said, get all the money he wants on a fifty-fifty basis.

It is now conceded that Stork will have a good majority in Prince Rupert. Just how large it will be is not very clear, but some enthusiasts go so far as to say it will be at least two to one.

Supporters of Colonel Peck are making strenuous efforts on his behalf and are leaving nothing to chance in their efforts to turn the tide.

### In the Letter Box

#### THE LAST LETTER.

Editor Daily News:

I have read with considerable  
amusement Mr. Forkrud's letter  
which appeared in your Wed-  
nesday's issue. I really have  
not time to devote to Mr. Fork-  
rud's futile literary efforts, and  
this is the last letter I intend to  
write upon this subject.

Mr. Forkrud accuses me of  
adopting a patronizing tone, evi-  
dently because I addressed him  
in the second person; but the  
superior attitude he adopts him-  
self is too funny for words.

I would like to remind Mr.  
Forkrud that he was the first to  
break into print in this cam-  
paign, in a scurrilous attack  
upon Colonel Peck; and later,  
when I took upon myself to  
write to the editor of the Daily  
News, a letter, protesting  
against the insidious propaganda  
being carried on in the col-  
umns of that paper against Col-  
onel Peck, he had to butt in.

Mr. Forkrud is evidently a  
pronounced egotist, and is peev-  
ed because others take exception  
to his views. He is evidently  
of the opinion that he alone is  
competent to air his political  
views in the press. I would  
like to remind him of the old  
proverb, "People who live in  
glass houses should not throw  
stones."

#### Literary Stones.

Mr. Forkrud has been throw-  
ing literary stones at Colonel  
Peck from the commencement of  
this campaign; the missiles how-  
ever, were poorly aimed, and  
ill directed, and have failed to  
reach their objective.

I am accused of not dealing in  
facts, the following facts should  
prove satisfactory:

Colonel Peck's record, parlia-  
mentary and otherwise, is  
sufficiently well known and ap-  
preciated by the people of this  
constituency; it stands alone—it  
needs no bolstering up by his  
supporters, and all the carping  
criticism of Mr. Forkrud and  
his confederates will fail to  
harm it.

It is a record of achievement.  
The Colonel is a man of action  
and obtains results. He is go-  
ing to achieve a grand victory  
on December 6.

At Ottawa the Colonel no doubt  
found a judicious use of fact  
more productive of results, than  
a lot of oratorical hot air, and  
play to the gallery. We know  
that he delivered the goods.

#### Logical Turn.

Mr. Forkrud writes: "As a  
whole the Colonel's followers  
are not of a logical turn of mind  
etc." The following is a sample  
of Mr. Forkrud's logic. "As if  
happens we are not looking for  
a soldier but a statesman."

When did Mr. Stork qualify as a  
statesman? Has he been tak-  
ing a correspondence course in  
statesmanship, unknown to the  
people of this constituency?  
Surely Mr. Forkrud does not wish  
us to swallow such bunk as this.

A careful study of Mr. Fork-  
rud's last letter suggests that  
"the hand is the hand of Esau,

# "More Men Than Women Have Nervous Troubles"

This is the statement  
of a specialist on  
Nervous Diseases  
who comes in con-  
tact with many thou-  
sands of cases. The  
increase in diseases  
of the nerves during  
the last five years  
has been enormous.

Is it any wonder that men's nerves  
are giving out?

Look back over the history of the  
last few years.

Think of the enormous burden of  
responsibility which has been put up-  
on the shoulders of business execu-  
tives.

The excessive mental strain.

The worry and anxiety.

The physical effort.

This has surely been great enough  
to break the nervous systems of the  
strongest men.

The war strain.

The unsettled conditions of busi-  
ness and employment.

These are responsible for the rapid  
aging of men which you notice every-  
where.

You feel out of sorts.

You do not sleep well.

You find yourself losing your grip  
on business.

Your daily task is more than you  
can stand.

There is, perhaps, no organic dis-  
ease.

But you find your energy and am-  
bition petering out.

Your doctor tells you to take a rest  
for a few months.

But you do not want to be put up-  
on the shelf.

Your business cannot spare you at  
this critical time.

Perhaps you cannot afford com-  
plete rest when living expenses are  
so high.

But you can take things easier.  
And you can profit by the experience  
of others and build up your exhaust-  
ed nervous system by using Dr.  
Chase's Nerve Food.

This is the most rational treatment  
available, and is endorsed by more  
common-sense, reliable people than  
any medicine recommended for the  
restoration of the nervous system.

Dr. Chase's Nerve Food is univer-  
sally used by women as a means of re-  
storing the nervous system. Your  
wife, or sister, or mother, will be able  
to tell you something about its re-  
markable upbuilding influence.

But more men than women now  
have nervous troubles.

And Dr. Chase's Nerve Food is no  
respector of persons.

It builds up new energy and  
strength in the most natural way im-  
aginable by enriching the blood.

It supplies to the blood in con-  
densed, easily assimilated form the  
elements which nature requires in or-  
der to replenish the depleted nerve  
cells and restore the vitality of the  
human system.

These certified letters may be from  
people you know. They are worth  
reading, anyway. For they are the  
honest opinion of people who have  
been benefited by Dr. Chase's Nerve  
Food. Edmanson, Bates & Co., Ltd.,  
Toronto.

### Overwork

Mr. D. F. Armstrong, R. R. No. 3, Mal-  
lorytown, Ont., writes:—  
"Through overwork and an extra  
amount of mental strain, I became very  
nervous and rundown. I began using Dr.  
Chase's Nerve Food, and it certainly  
touched the right spot. It almost seemed  
for a time as though I fairly lived on it, and  
I can recommend this treatment to anyone  
requiring a medicine of this kind."  
("Sworn before me at Mallorytown,  
this 17th day of March, 1921—D. S. Clow,  
J.P.")

### Sleeplessness

Mr. W. J. Van Dusen, Centre St., Nap-  
anee, Ont., writes:—  
"For some time I suffered from sleep-  
lessness and all the weakness and tired  
feelings that follow continual loss of sleep.  
Gas would accumulate in my stomach, and  
this also caused a great deal of trouble.  
Upon the advice of a friend I began a treat-  
ment of Dr. Chase's Nerve Food, and soon  
found it to be just what I required. By the  
time I had completed the treatment my  
system was in splendid condition and I felt  
much stronger."  
(Endorsed by S. Casey Denison, Mayor.)

### Rheumatism

Mr. Charles R. Tait, Newtown, Kings  
Co., N.B., writes:—  
"I suffered with rheumatism and my  
stomach was in a very weak state. I could  
eat no fruit of any kind and suffered nearly  
all the time. I tried several doctors, but  
got no relief from any of them. I was in  
a drug store one day and overheard two  
men talking—one was telling the other  
about Dr. Chase's Nerve Food, completely  
relieving him of rheumatism. I bought a  
box, thinking it would be like all the rest  
of them, but after taking this one box, I  
felt so much better that I continued the  
treatment, and now I can eat anything and  
do not suffer any more with the rheuma-  
tism."  
("This is to certify that I am personally  
acquainted with Mr. Charles R. Tait, and  
believe his statement is true and to my  
knowledge correct."—(Signed) A. S. Mace,  
J.P.)

but the voice is the voice of  
Jacob," I notice that he lapses  
into the plural in writing, "When  
we vote for Mr. Stork we grasp  
a very substantial shadow, etc." I  
can assure him that together  
with that shadow he will sink  
into political oblivion on Decem-  
ber 6.

FRANK SALTER.

### EMPHATIC PROTEST.

Editor Daily News:

Without political bias, and  
with no reference whatever to  
the local political situation, as  
a member of this community and  
a fair-minded citizen of Canada  
I wish to voice an emphatic  
protest against the appearance in  
the public press of such senti-  
ments as appeared last night in  
the editorial column of the Even-  
ing Empire, wherein the hono-  
rable name of Belgium was dragged  
into the local controversy in a  
manner which, to make the most  
charitable allowances, was an  
exhibition of extremely bad  
taste.

To those of us who have lived  
in Prince Rupert long enough to  
be able to place a true value on  
the editorial utterances of the  
Empire the matter is of no  
great consequence. Unfortun-  
ately, however, a newspaper may  
be read by those who are not in  
a position to know to what ex-  
tent the sentiments expressed by  
that paper represent truly the  
views of the community, and to  
those readers, especially to any  
Belgians there may be among  
them, I would like to give the  
assurance that the opinion of  
Mr. Newton as expressed in re-  
ferring to Belgium as a "res-  
cued land" and a "country saved  
from subjugation" is probably  
not shared by one other individ-

ual in this community.  
**Saviour of World.**  
This man speaks of gratitude,  
and in seven short years he has  
forgotten if he ever did real-  
ize it) Belgium's true place in  
the history of the war, and the  
glorious part played by her king  
and people. "Saviour of the  
World" is not an empty phrase,  
and will not be soon forgotten  
by any true Britisher.

The freedom of the press has  
come to be regarded as an in-  
alienable right, but surely there  
should be some means of re-  
straining such ill-advised utter-  
ances as are contained in this  
editorial.

### QUEER BEDFELLOW.

Editor Daily News:

"Politics make queer bedfel-  
lows" is an old saying and this  
campaign fully justifies it. Take  
for instance S. M. Newton and  
O. H. Nelson or S. M. Newton  
and Geo. W. Morrow working  
hand in hand in a political cam-  
paign. It is not so many years  
ago that S. M. Newton virtually  
drove Geo. Morrow out of Prince  
Rupert with his scathing attacks;  
there was no word in the dic-  
tionary strong enough to ex-  
press his contempt.

It is only a year ago that Mr.  
Newton was running as an In-  
dependent candidate, O. H. Nel-  
son in opposing him wound up  
a speech in the Empress The-  
atre with these words: "If you  
cannot see your way clear to  
vote for Capt. Forby for God  
sake vote for Pattullo, do not  
vote for an Independent." Now  
Mr. Newton and Mr. Nelson have  
joined forces to elect an "In-  
dependent?"

"Consistency thou art a  
jewel."

Doings of the Mosquito Fleet Which Is the Chief Source of Prince Rupert's Prosperity

The Admiral of the Mosquito a game of faro or blackjack will Fleet reports that the continued give the same results quicker cold weather is causing him some little apprehension as regards the morale of the crews of the fleet.

For one thing, it is very hard to get all hands on the various decks in good time in the morning, there being a tendency on the part of the fishermen to adopt the old saying, "It's nice to get up in the morning," with the emphasis on the "but it's better to lie in your bed."

Another difficulty is the continued absence of members of the fleet on secret missions up town, the excuse being that up town is the only place where one can get anything real "hot." The recent drop in the price of fish has caused a deal of unrest among the toilers of the deep, and this week several boats have backed out of port to more fruitful fields as a consequence. However, the Admiral has explained to his boys in a friendly manner that all these little things are sort of try us and with the advent of the election and the Christmas spirit it is anticipated that every little thing will be O.K. again soon.

The lady stenogs in the Offices of the Admiralty of the Fleet are hitting up a pretty fast clip on the dominoes these days, and there is certainly a pile of correspondence going on. It is a matter of conjecture as to whether the literary activity is caused from increased political correspondence or whether the fleet is issuing secret orders for the declaration of war on the Swiss navy.

There is a slight atmosphere of friction between the Admiral of the Fleet and the Commodore, for reasons which are as yet unknown. It is thought that it is the result of a political argument which took place on the Flagship of the Fleet recently as to the merits or otherwise of the respective local candidates. Suffice to say that it behooves one to tread very circumspectly around the Admiralty offices these days.

The Admiral reports that he has received several circulars recently pointing out the advantages, etc., of investment in oil stocks of a southern origin. However, he is inclined to view them with suspicion and has issued advice to the fleet that he considers

## SORES SPREAD All Over FACES AND BODIES.

Mrs. Howard Boulette, Waskatenau, Sask., writes:—"I wish to tell you of the benefit we have received by using your valuable medicine, Burdock Blood Bitters."

My children started to break out on their faces with small white pimples which kept getting larger each day. This would form under the scales and they would come off, and each time the sores would be larger; some were as large as a twenty-five cent piece, and would spread all over their bodies. I was nearly in despair and sent to the village for a bottle of good blood medicine. The druggist sent me a bottle of Burdock Blood Bitters, which I commenced giving them at once.

In about ten days I saw an improvement and they grew steadily better each day, and in one month the sores had all disappeared.

All blood and skin diseases are caused by bad blood, and to get it pure and keep it pure you must remove every trace of the impure and morbid matter from the system by a blood cleansing medicine such as

## BURDOCK BLOOD BITTERS

a remedy that has been on the market for the equal forty-five years, and one without an equal for all diseases and disorders of the blood.

Deer hunting has been somewhat affected by the cold snap in so far as it is difficult to stalk the coveted animal through the hush of the fishermen to the noise made by the stalker stumbling over frozen ground and twigs. The only successful way to get near the deer at this season is to make a noise like a piece of grass and when the deer come up to eat elub it with your rifle.

Captain Jud Thurber returned early in the week from a very successful hunting trip. This time Jud has been devoting his attention and that of his double-barrel to the shooting of ducks and geese, hence the reason for so many flights of wild geese over the city to pastures new. During the expedition Jud, early in the morning, espied a flock of geese soaring overhead at a height which did not permit of him getting them within range. Nothing daunted, however, Jud grabbed a couple of large-sized cracker cases and standing them on end, climbed on top and so got nearer the flock. He let both barrels heh forth their message of death with the result, so it is claimed, that the feathers are falling yet, and with the two shots got something like seven birds, more or less. The shower of feathers was so heavy that Jud thought he had hit a snow cloud and crouched for some time under one of the cracker boxes before he tumbled to the real facts.

The affairs of the P. R. Fish Market nearly came to an untimely end during the early part of this week. Jim Bacon was busy, as usual, picking and cleaning some of the feathered barnyard beauties when, opening the crop of one of the biggest birds for the necessary ablation, his sensitive touch struck something which felt like money. With a regular warwhoop Jim uncovered a real nickel (five cents worth of coin) and with great glee took his partner, Bill Kinloch, into his confidence, and that's where the big mistake was made. Bill, being an interested partner in the outfit, demanded a share of the findings, which Jim resented, claiming that "findings were keepings" and that if he hadn't cleaned the crop in his usual thorough manner it would never have disgorged its wealth. However, Bill said it was a reflection on his financial standing and started in to make things move. Jim, being of a very trusting and kind-hearted nature, did not want the store wrecked, so made for the bank and got five one-cent pieces and told Bill he would go halves, another sad mistake, because the half of five is two and a half. Now the difficulty is to get one cent changed. It is anticipated the matter will be settled out of court.

Launch "Oh Baby" Captain Myhill Jones, has been busy chasing skating parties back and forth across the bay during the week to the ice fields in the vicinity of Salt Lakes. While no cases of broken noses or other limbs have been reported, broken hearts have been numerous, doubtless due to the romantic atmosphere around the lakes and the absence of any moonlight.

The government work around Cow Bay is progressing fine and a gang of men are busy getting out rock and grading the new roadway.

The "Starston," Captain Harry Watson, has quit towing rock for the city owing to the flow of ice in the river. The "Starston" recently arrived in port with the pile-driver from Digby for M. M. Stephens, the engine of which is to be used in the work on the superstructure of the new salmon wharf.

The "McCulloch," Captain Herbert Clifton, brought the old river steamer "Port Simpson" from Port Simpson on Wednesday.

The "Torberg," Captain Robertson, arrived in port Thursday morning with 6000 pounds of

halibut. Good fishing is reported on the deep sea fisheries.

The "Thelma H., Captain W. H. Hanson, returned to port Wednesday night from an extended prospecting cruise down the coast. The captain evidently has something good up his sleeve, for a volley of questions did not bring forth very voluminous replies.

Captain Ketchum of the "Wigwam" came into port on Thursday morning from the Georgetown mills with a seawload of box lumber, which is to be divided between the Alfa Fisheries Limited and the Canadian Fish and Cold Storage.

Captain A. H. Anderson of the "Bingo" is busy refitting his boat for an extended trapping expedition.

The "Celtic" of Vancouver is expected to arrive in port any day with a cargo of tile for Albert & McCaffery. This tile is for the work on the new court house.

The "Albert" of Vancouver arrived on Tuesday with a cargo of lumber and lime for local orders, and has completed unloading at the Albert & McCaffery wharf.

The "Pachena," Captain Ed Westerlund, has proceeded to Ocean Falls for the Pacific Stevedoring Company in connection with the loading of an Australian tramp steamer at that port.

Launch "23," H. Gilbert, took about fifty skaters over to the Salt Lakes on Wednesday afternoon and quite a crowd in the evening.

The fishing trawl "Washington" proceeded to the dry dock on Tuesday for a complete overhaul of her machinery, upon completion of which she will proceed to make acquaintance with the deep-sea monsters once again.

There is marked activity at the Prince Rupert Boat House these days. Twenty new rowboats are under construction ready for the coming summer season. This work will continue all the winter.

Two new gasboats are being built at the Seal Cove Marine Ways. They measure 22 ft. by 6 ft. 10 in. beam, and will be fitted with Easthope engines of 4 h.p. capacity. When completed and put into commission from the Prince Rupert Boat House they will be let out on public hire.

Dave Ross of the Kalen Garage has just about completed repairs to the Ole Besner new Studebaker car which recently met with the misfortune to run off the wharf into 60 feet of water.

The following boats are at present in port: Billy Boy, Claran, Chatham, Thelma H., Narbathong, Dixie Rupert, Oh Baby, Starston, Iris, Pug, Lovera, Annie May, Leila R., Ethel June Violet, Gray, Kobe, Lancelot, White Lilly, Ohio, Viola, Speculator, Joe Baker, H. & R., Daisy, Viking, Verna, Alliance No. 1, Hanaco, Fanny F., Muireneag, and the Tordenskjold of Seattle.

# SENIOR LEAGUE BASKETBALL WILL CARRY ON LAST NIGHT

Decided at Special Meeting to Run League Series with Two Teams Playing.

At the special meeting of the Basketball Association executive and players held last evening in the Sons of Canada rooms following the games at the Exhibition Hall, it was decided, after much discussion, to continue the Senior League series with the two teams, the Sons of Canada and the Elks. One game will be played one week and two the next and there will be sixteen or eighteen games in the course of the winter.

The possibility of dividing the league into three teams was discussed from every angle but it was found impossible to effect this. The Sons of Canada delegates, while admitting that they had a number of extra players now, stated that they were not prepared to release any of them for it was expected that several would be leaving for the south before the season was over. The Elks stated that they did not have a large line-up and, in fact, had hardly been able to muster a team for last night's game. The idea of mustering a third team outside the ranks of the present players was not considered seriously. The Intermediate League representatives did not feel inclined to release any players for the Senior. In the first place, they might not be able to keep up the Senior pace and, secondly, there would be a danger of breaking up the Intermediate League if any of the players went over to the Senior.

It has been decided that neither of the two Senior League games already played will be counted in the league standing. W. E. Willisroff was in the chair at the meeting last night and there was a good attendance of players and directors of the league.

SCHAEFER IS NEW CHAMPION

OTTAWA, Nov. 26.—G. G. McNeill, secretary of the Dominion Command of the Great War Veterans, has addressed an open telegram to Premier Meighen, T. A. Crerar, Sir Lomer Gouin and the presidents of the Bank of Montreal and of the Canadian Pacific Railway demanding if there is any truth in the story given the veterans by a non-partisan authority that a conspiracy is afoot to form a coalition after the election between the Quebec Liberals and certain party interests and the big financial interests, with Sir Lomer Gouin as Premier.

The purpose of the coalition is supposed to be the return of the Grand Trunk Pacific Railway to its original directors and the "looting" of the national roads to a point where the transfer to private corporation control will be welcomed by the taxpayers.

The veterans say they understand that both Meighen and King were to be displaced as party leaders to permit unhampered action by the moneyed interests. The confusion of the public mind on election issues will prevent the possibility of a party majority in the election and the corruption of the key men in the Progressives is undermining confidence in Crerar, it is also charged.

WEIRD STORY FROM OTTAWA

OTTAWA, Nov. 26.—Scottish curlers will be seen in action on Canadian ice early in the season of 1922-23 in a series of matches against Canadian curlers. The Royal Caledonian Curling Club has accepted an invitation to tour Canada at that time.
