Vancouver Creditors Agree with Local Group on Policy; McCaffery Goes East to Interview Government

D. G. Stewart on behalf of the creditors of the Prince Rupert Drydock & Engineering Co. this morning received the following telegram dated yesterday from M. P. McCaffery who went to Vancouver to confer with the creditors there:

"Vancouver creditors met today and agreed with us. McCreary and I are leaving with the receiver for Ottawa. Letting Wallace have temporary possession pending settlement of the Government with him."

The point on which Vancouver and Prince Rupert creditors have agreed is that there will be no appeal against the ruling of the court but that the matter be taken up at once with the Dominion Government with a view to a settlement.

While no word has been received locally in regard to the commencement of work on the ships, the general opinion is that the last difficulty is now removed and there is every prospect that work will recommence almost at once.

Mr. Wallace is not so optimistic in that regard. He says he thinks they would have telegraphed him if things were in such condition that work could proceed.

DAILY EDITION. Wednesday, March 2, 1921.

Is Opposed to Party System.

A correspondent from Anyox is opposed to the party system of government. The other method is for the administration to be independent of a party vote, just as it is in the United States, and for each member of the House to treat every question wholly on its merits and vote accordingly.

In our country the administration adopts a policy, asks the approval of the country at an election and then sets out to put that policy in force. As long as the members of the legislature approve its actions, it is kept in power. If the members of the legislature disapprove, the administration resigns and gives place to another.

Dealing With Foreign Countries.

One notable example of how this works in regard to a foreign policy is well exemplified. The United States makes a treaty with Canada providing for the protection of the salmon in the Fraser River. Both the U.S. and the Canadian administrations agree to it. But there is the U.S. Senate to be reckoned with.

In Canada, the Government knows that it can control Parliament as long as it has a reasonable policy. By consulting with the leaders it is able to practically promise the passing of the treaty. Because of the inability of the United States to act the Fraser River fishing has been ruined and the remedy is not yet in sight.

Farmer Party Is Political.

Our correspondent speaks as though the Farmers' party of Ontario was not a party. In that it is evident he is mistaken. Premier Drury is at the head of a political party just as much as is John Oliver or Arthur Meighen.

Liberal and Conservative Old.

The Liberal and the Conservative parties are old parties and in a general sense they have particular lines of policy. Speaking in a very general way, the policy of the Conservatives is to go slowly and steadily, to look backward for precedents and to carefully avoid anything which smacks of radicalism.

JURYWOMEN DISCUSSED

Counsel Objects to Laying Unsavory Evidence before Women Jurors

BERNARD SHAW IS OUT IN DEFENCE

LONDON, Mar. 2.—A storm of discussion, both commendation and condemnation, has swept through London newspapers as the result of the innovation of having women serve with men as members of juries in divorce cases.

The first mixed jury to sit in the London divorce court has been unable to agree on a verdict and has been discharged after hearing the case for four days.

In the comment on the proceedings, newspaper editorials and the contributed communications of readers have discussed principally the propriety of obliging women as members of the jury to examine all the evidence submitted.

Evidence Unsavory

In this case counsel for one of the parties to the action announced that he had evidence to submit which he did not consider it proper to place before women jurors. The judge said he was helpless in the matter, but ultimately only the men jurors examined the evidence.

Sir Edward Marshall-Hall, counsel for one of the parties, said that this was the first case he had ever conducted before a mixed jury and that he hoped he would never again have to deal with a case of such a nature again.

"It is undeniable that there are many cases in which the assistance of women will be of the greatest value to the court," said Sir Edward, "but there are other cases in which, from the nature of the evidence which will have to be discussed before them, it is undesirable that they should serve."

Extremely Offensive

Sir Edward's comment evoked a hot retort from George Bernard Shaw, playwright, who, writing to the Daily News as "a member of the male sex," took issue with the views of the barrister.

"Sir Edward Marshall-Hall's assumption that my sensibilities in this matter are less delicate than women is not only unfounded but extremely offensive," wrote Mr. Shaw. "Why in the name of common sense did this blushing barrister exclude six jurymen from the apology which he thought it necessary to make for presenting them (some of the exhibits in the case) to the six jurymen?"

SHIPPING FISH

WINNIPEG, Mar. 2.—Fish in storage at Riverton is rapidly being disposed of and dealers anticipate no further trouble at that point.

Within the past week 14 cars of fish have been shipped from Riverton to the United States, bringing the total shipments of this year's catch to 225 carloads; each car contains 15 tons of tulliee and pickerel. The balance of the catch in storage, 25 cars or 750,000 pounds, will be shipped as soon as cars are available, probably within the next three days, dealers interviewed today on the situation stated.

BOILS SO BAD HAD TO GIVE UP WORK

From the days of Job, up to the present time, boils have been one of the afflictions of the human race.

All the poultices and linings you may do will not prevent them from breaking out again.

Boils are simply caused by the bad blood bursting out; and the bad blood must be made pure before the boils will disappear.

Burdock Blood Bitters, which has been on the market for over forty years, is well known as the greatest blood medicine procurable.

It purifies the blood by removing every particle of foul matter from the system, and when this is done the boils vanish, and you should never be troubled again.

Mr. James Fane, Newport Island, Que., writes: "I was troubled with boils on my back and neck, so bad that I was obliged to give up work. I tried several remedies, but got no relief. Finally I went to a doctor, and he treated me for several weeks, and all without benefit. At last a friend told me of Burdock Blood Bitters, so I decided to give it a trial. I got three bottles, but before I had taken two the boils were all gone. It is eight months now, and I have had no return of the old trouble, and have never felt so well."

"SAND" HERE

William S. Hart Picture at Westholme Tonight.

"Sand," a William S. Hart picture, is the offering at the Westholme Theatre tonight.

According to the advance notices, "Sand" is one of the most entertaining pictures William S. Hart has made. It is full of love, human interest and thrill and Mr. Hart again proves that as a delineator of western characters he is second to none.

Mrs. D. C. Stuart entertained at the tea hour yesterday in honor of Mrs. D. Thomson who is leaving for Vancouver on Thursday night and who expects to remain away a few weeks.

The Man in the Moon SAYS—

HOW old is a chicken before it has sense?

SOMETIMES some of us kick about Prince Rupert and yet if we reflect we remember there are people still living in Ireland, and it is only sheer luck we are not there too.

THE question is what shall we do with ourselves now that the basketball season is over?

SOMEONE suggests checkers as a substitute.

It would be interesting to know how much more we spend on chewing gum and such like trivialities than we do on buying good books.

WHILE it may not cost much money, we spend a lot of time on "chewing the fat."

NONSENSE is that which is neither true or false and yet there is so much truth in what is stated that the falsity shows up in glaring colors.

PLEASE do not try to answer or explain the above. You can't.

POSSIBLY the best tonic many of us could get would be to read an essay on silence. We need it.

IT seems to have become a custom in Prince Rupert for men to call on married women when their husbands are out.

OF COURSE no one is objecting as long as the husbands do not.

YOUR GAS ENGINE

In the internal combustion engine, the gasoline is turned into an explosive mixture through the carburetor. The speed of the air intake equals that of a rifle bullet, and with gasoline, a perfect mixture is secured at almost any temperature. When one uses any of the heavier oils increased intake speed is required or heat energy supplied to produce the same results. Distillate requires 40 degrees of heat additional to that required for gasoline and coal oil requires 90 degrees of heat additional. The heat for distillate should never exceed 140 F. degrees and for coal oil 240 F. degrees, or boiling water.

When heat is applied to the air or vapor it is continually changing in temperature and speed as the engine speeds are changed, and poor carburation takes place. The mixture rolls up the intake pipe and much of the fuel goes into the engine cylinder in chunks or drops. In this case these chunks or drops are deposited as carbon or thrown out the exhaust pipe.

It is unreasonable to hope we can increase the speed of intake much beyond that now in use. Likewise, it is unpractical and dangerous to hope to apply sufficient dry heat to the air or vapor to burn heavy fuels at the present intake speed. The only logical method is to heat the oil. The Narbethong Water Jacketed Settler is the answer. Price \$30 at Akerberg Thomson Co., Ltd.

George A. Young, road superintendent from Atlin district, is in town today and leaves tonight for Alice Arm after conferring with A. L. Carruthers, provincial public works engineer here. Mr. Young was married some time ago in Vancouver and resides in Alice Arm where he has built a home on the Riel townsite.

K. Giotta, of Port Edward, arrived in town on last night's train.

A Wonderful Opportunity ONE THAT HAS NEVER OCCURRED BEFORE THERE WILL NOT BE SUCH A CHANCE AGAIN SEE WHAT WE GIVE YOU

In order to bring our remarkable book "LOVE AND WAR" before the public we are making a most unusual offer. "LOVE AND WAR" is a romantic novel, full of life and fire and passion.

They are REAL. The book gave me a new insight into the conditions that existed at the Front. The happy way in which Romance is blended with Reality makes it a most outstanding book.

"I have read 'Love and War'. It is vivid and thrilling. I myself took an active part in the War, and so am in a position to judge the truth of the descriptions.

SHORT OF BREATH
Could Hardly Walk Without Resting.

When you go to a physician to be examined for any heart trouble one of the first questions he asks is: "Are you short of breath?"

Now when the heart becomes affected there comes a feeling of chest constriction, a shortness of breath, palpitation, throbbing, irregular beating, smothering sensation, dizziness and a weak, sinking, all-gone feeling of oppression and anxiety.

On the first sign of the heart becoming weakened or the nerves unstrung, Linn's Heart and Nerve Pills are just the remedy you require. They regulate and stimulate the heart, and strengthen and restore the whole nerve system.

Mr. Stephen Grouse, East Clifford, N.S., writes:—"I suffered for five years with heart trouble. I could hardly walk from the house to the barn without resting as I used to get so short of breath. Doctors could not help me. My wife told me to get a box of Linn's Heart and Nerve Pills and I felt better after taking them; three boxes made me quite well. I am now helping my son to work. I feel and can truthfully say I feel like a different man."

Price 50c, a box at all dealers or mailed direct on receipt of price by The T. S. Grouse Co., Limited, Toronto, Ont. ADVL

Local News Notes

Wm. S. Hart in his best. Westholme tonight only.

Oney McFadden, a Stewart miner, arrived in town this morning on his way back north. He was ill in Vancouver but is now fully recovered.

Mr. and Mrs. Alfred Stork and daughters, Patricia and Kathleen, returned to Prince Rupert this morning after having spent a holiday of several months in the south, most of the time in Los Angeles. On the return they were several days at Vancouver.

In connection with the report of a letter read at the meeting of the city council Monday night regarding a sewer for Meltae Bros., Mr. Meltae explains that a sewer was built across the street ten years ago for the use of both properties and he has no advantage that anyone else does not possess.

Morris Condon returned today from a holiday trip in the course of which he visited Vancouver, Victoria, Seattle and Portland. Mrs. Condon and son George are to remain in the south for a couple of months longer. Mr. Condon bought the cup for the billiard tournament while he was away.

The Prince John, Captain Neddin, is due to return tomorrow from Tacoma and will leave in the evening for the Queen Charlotte Islands on her last trip before going into the local dry dock for annual overhaul. The Prince Albert will resume sailings in a day or so, her first trip being to Stewart.

PIPE LINES FROM FORT NORMAN OILFIELD

Two Concerns Asking Right to Construct Pipe Lines in Alberta.

EDMONTON, March 2.—Two companies are asking for the privilege of constructing pipe lines in the province of Alberta, the Imperial Oil Co. and the Edmonton Gas & Power Co.

The Imperial Oil Co. is asking for very wide powers to go anywhere in the province and to carry on practically any kind of work. There is nothing in the application to indicate where the pipe line would be laid, except that it would be from the oil fields to a suitable outlet.

SJES RAILWAY

Freight Train Would Not Stop to Take on Freight.

EDMONTON, March 2.—Daniel Baker of Deville is suing the G. T. P. Railway Company for value of machinery sold by them.

Plaintiff claims he tried repeatedly to flag the freight train which would not stop. At last he left the machinery on the platform and it was later picked up and taken to Edmonton, and not being claimed was eventually sold. In the meantime plaintiff had left the country. Judgment was reserved.
