The Cutting Will Provide More Work MEXICO TO SIBERIA AIRPLANE DESTROYED BY WIND LAST NIGHT

Nothing Left of Polar Bear at Crumpled Mass Smashed Quite beyond Hope of Repair

The airship Polar Bear is no more. As a result of last night's storm she lies crumpled and torn back of the bleachers at the stadium, and with the ship is gone the ambition of Aviators L. M. Bach of making the flight to Siberia this fall. Her first airplane has fallen victim to the rigors of the weather and there is little left to save.

About 6 o'clock in yesterday afternoon's sudden storm the Polar Bear was blown loose from her moorings and was carried over the field and the benches and deposited on the rocks on the west side. She alighted on one wing and then toppled over smashing the other wing and the tail and body. She is a complete wreck and is now but a crumpled mass of shelled covering, light timber and wire. The planes' wings and propeller were smashed beyond repair although the motor and some of the metal fittings may be recovered.

Lashed and Ballasted.
 The ship was prepared in a measure for the wind, having been tied down with ropes and ballasted with 600 pounds of sand bags. Besides this she had a full tank of gasoline and the heavy engine, but this was not sufficient to hold her to the ground and the machine took to the air with the force of the gale.

Her life was short only two months and eleven days. On July 17 she was finished at Las Vegas, Nevada, and shortly after the proposed Mexico to Siberia flight commenced. She has been in Prince Rupert since Sept. 1 and for the past fortnight was held up by the storms which prevented the air voyage being continued.

Only One of Class.
 Mr. Prest and Mr. Bach naturally feel very badly over the loss of their ship. It was an expensive one and took a long time to build. Mr. Prest says that it was the only one of its class in the United States and was specially built with a view to lightness. The wooden parts were larger than those on other machines but were only half the weight. He and Mr. Bach built it themselves.

"It would not have been so bad if I had had the pleasure of smashing it up myself," said Mr. Prest. It is not his first loss of a machine as he has had eleven others crash and be destroyed. It is the second he has lost through wind but the first that has not been wrecked when he was in it.

Sell in Seattle.
 The flyers will gather up such parts as may be salvaged including the engine and metal fittings and will take them to Seattle on Sunday night where they will sell them for what they will bring. Then they will return to Las Vegas, there to make plans for a trip to Siberia next year via Prince Rupert with a new machine. They take the loss philosophically although it has been a bad one. "It goes with the game," they say. They will take with them a part of the web to hang up and "have something to cuss at once in a while."

TWO LOTS SOLD.
 DUNCAN, Sept. 29.—Only two lots were sold at the tax sale, all the other properties having been redeemed before the opening of the auction.

M'CLYMONT ON RAILWAYS

Tells Rotary Club What People
 in South Think About P.G.E.
 and C.N.R.

"One of the big things worrying the people in the south is not the result of the forthcoming Dominion election but the fate of the P.G.E. Railway, which it is stated is going to break the province," stated Thomas McClymont at the Rotary Club luncheon today. Mr. McClymont has just returned from the south and while there was much interested in finding out the views of people on the questions of the day. He says it seems to be the general opinion that the P. G. E. line should be abandoned except that part which might possibly connect with Ashcroft. It has been built at the instance of the Vancouver Board of Trade which body practically forced the hand of Sir Richard McBride. "Even John Oliver's saloons will scarcely pay the interest on the bonded indebtedness of the line," said the speaker.

Mr. McClymont was further told that the line of the Canadian National Railway from Vancouver to Lucerne did not pay and that more traffic was carried over the road from Prince Rupert to Lucerne and that the line this way should be made into the main line instead of the one diverted southward.

Mr. McClymont said that real estate prices were low in Vancouver and Prince Rupert compared very favorably with that city in regard to business.

BIRTH.
 A daughter was born to Mr. and Mrs. Herbert Tyler, of Terrace at the Prince Rupert General Hospital on Wednesday, September 28.

NEW MINISTER.

R. B. Bennett of Calgary, minister of justice in the revised Meighen cabinet. He was formerly counsel for the C.P.R. and is a law partner of Sir James Lougheed, minister of the interior in the same cabinet and also a representative of the big interests.

ATTENDED UNVEILING OF STATUE.

Dowager Queen Alexandra of Great Britain, photographed while chatting with one of the old members of the Court, on the occasion of the unveiling of the equestrian statue of King Edward VII at Waterloo place by King George.

URGES TANK FOR SWIMMING

Principal Harold Campbell Tells
 Rotary Club of Need at
 Booth School.

"I have not been in Prince Rupert long but I have already learned to like the city and have never met so many people who are ready to do things for a stranger as those here," stated Principal Campbell at the Rotary Club luncheon today.

Mr. Campbell is keen on getting a swimming tank built in the basement of the Hays Cove school. He said he had looked over the ground and felt sure it could be constructed without any very great expense. While he was not an authority of building a tank he knew the value it would be to the schools and to the community.

Boys Should Swim.

In England, Mr. Campbell said, every boy at the public schools was taught to swim. They had an ingenious manner of teaching by the use of a simple apparatus. If the tank could be built and an apparatus secured it would take but a short time to teach every pupil to support himself in the water. It would be excellent from a health point of view as well as because of its usefulness.

Mr. Campbell said he thought the tank could be used by other than school pupils and would be a decided asset to the community. He hoped the Rotary Club would see fit to support the idea.

Mr. Campbell went on to speak of his work and of the value to the community of the schools, the church and the home training. Conditions were different today to what they were 25 years ago. In the old days children were educated in the school of hard work. Today they were educated in the lap of luxury, comparatively, and in many cases the children did not work except in school. As a result the schools, the church and the home supply the need.

FISHERIES OVERSEER WEDS SCHOOL TEACHER

Miss V. Christopherson of Smith
 Island Married Yesterday to
 Thomas Dawe, Port Essington.

The wedding took place yesterday afternoon at the Manse of Miss V. Christopherson of Smith Island and Thomas Dawe of Port Essington, Rev. Dr. H. R. Grant officiating. The ceremony was a quiet one and there were present as witnesses Mrs. Christopherson, mother of the bride; S. V. Reith and Miss Kathleen Grant.

Mrs. Dawe was formerly school teacher at Ostland School, Smith Island, and Mr. Dawe is government fisheries overseer at Port Essington. They leave today to make their home at Port Essington.

 BULL HARBOR—Cloudy, light southeast wind; barometer, 30.20; temperature, 59; sea moderate.
 DEAD TREE POINT—Cloudy, calm; barometer, 30.26; temperature, 54; sea smooth.

OPERATIONS GOING ON AT ROYAL MILLS

Logging operations are still going on at the Royal Mills at Pitman Spur owned by Olof Hansen and R. E. Allen. The planer is also running finishing up lumber. There is no indication of an immediate reopening of the entire mill.

Tie Camps to Open Soon in Interior to Cut Half Million for Railway Use

The Canadian National Railways are about to let contracts for the taking out of ties and piles along the railway line between here and Prince George that will keep between 600 and 700 men working throughout the winter. The date for the closing of tenders was September 17, and announcement as to the letting of the contracts is expected within the next day or so in order that the camps may be started soon after October 1. There will be about half a million ties required between here and Prince George. The contractors will commence to take on men soon after the first of the month and as the snow comes and taking of them out is facilitated, the number will be increased.

INSPECTOR AT ROTARY CLUB

H. C. Fraser, School Inspector,
 Expresses Willingness to Co-
 operate in Any Good Work.

H. C. Fraser, the newly appointed inspector of schools, who was a guest at the Rotary Club luncheon today, said he had been interested in Prince Rupert since the lots were first put on the market, when he had loaned a small sum of money to a man to invest in real estate here. That man had since made good.

Mr. Fraser said he was looking for a house, and if he could find one to which he could bring his wife he hoped to take his place in the life of the community as a citizen. All they needed was a place to live.

Mr. Fraser said he believed in the work he was doing. He and Principal Campbell were dealing with the greatest asset Prince Rupert had—the boys and girls. They had greater opportunities than anyone else. He knew that the Rotary Club was always ready to do anything for the boys and girls, and he would always be ready to co-operate in any such work.

TERRACE MILL WILL RUN IN MONTH'S TIME

Foundat'on Now Built and Structure
 Going Up—Machinery
 on Ground.

TERRACE, Sept. 29.—The foundation for George Little's new mill, replacing the one which was destroyed by fire some months ago, is completed and the structure is going up rapidly. The roof is not yet built. The new machinery, which is more modern and efficient than the old, is on the ground ready for installation.

Mr. Little expects that the plant will be running again in about a month's time and announces that he will operate at full blast. The capacity and output will be about the same as formerly.

The Terrace mill will continue to be the only one operating at full capacity, as far as is known.

WILL CLOSE DOWN THE HOMESTAKE MINE FOR COMING WINTER

Captain Gerhardt, who is in the city, is on his way to Alice Arm to close down the work on the Homestake mine for the winter. Owing to the road to the mine not being completed, it was impossible to get in supplies, with the result that the mine had to close. Work is now proceeding on the road, the Provincial Government gang having resumed work after the first of the month.

STORMS GENERAL ALL ALONG COAST

Big Storm East of Prince George
 Takes Down Both Tele-
 graph Lines.

A big storm east and south of Prince George has taken down the Government and Grand Trunk Pacific telegraph lines, with the result that the city is almost out of communication with the outside as far as the land lines are concerned. Heavy weather and high winds are reported all along the coast. The barometer readings are higher today than yesterday, however.

ANNOUNCEMENT

A Grand Bazaar in aid of the Annunciation Church and St. Joseph's Convent will be held on Wednesday and Thursday, November 9 and 10. Attractions many and varied. Refreshments served afternoon and evening.

SALE OF LOTS for Taxes

CITY OF PRINCE RUPERT.

DAILY EDITION  Thursday, Sept. 29, 1921.

Let Us Sometimes Say I Don't Know.
 The smaller the mind the more dogmatic it is. The big mind is willing to admit there are things it does not know. It is a sign of mental health and vigor to occasionally admit that there are limitations to our knowledge.
 We hear someone telling of experiences or of possibilities or theories and because we have had no such experiences we at once set him down as a fakir. We bound knowledge by the scope of our own little minds. We do not acknowledge the limitations of our own mind or the fact that other minds may have had wider experiences or larger scope. Mind is infinite and it is we that set the boundaries for it. Sir Oliver Lodge in addressing the British Association at Edinburgh recently said: "I don't assume that we are the only beings in the universe. I don't assume that we know more about ether and electricity than other people in the universe. I don't know. All I say is, don't let us shut our minds to the infinite possibilities of existence."

Scientists Will Prevent War.
 Scientists are making it very undesirable to go to war and in time will prevent it altogether. When Germany introduced poison gas as a means of offense all the world was aghast at the monstrosity of the act. It was something new and was in line with the poisoning of wells and similar dastardly actions.
 And yet the action of Germany brought the end of war appreciably nearer. Scientists at once set to work to invent yet more horrible means of extermination, and today if war should break out between two major powers it would surpass anything the imagination might conceive in destructibility and horror. There is no longer any glamor about war. There is nothing chivalrous or glorious about wearing a gas mask or smoking out your enemies. It is a reversion to the warfare of savages and will prove a powerful antidote to the attractions of a red coat.
 Sir T. Edward Thorpe, president of the British Association, in his inaugural address appealed to the scientists to abstain from the degradation of science by using it in the interests of destruction. He might have saved his breath. Possibly no greater power exists today than that of the scientist in preventing war, for the very horror of it strikes terror to every nation.

Ignorance Is The Only Menace.
 The only menace today in the world is ignorance. The ignorant person is always a menace to society and the ignorant nation will be a menace to the comity of nations in the future. It is among the ignorant that the agitator holds sway. It is ignorant people or ignorant nations that are most easily led astray. It was the ignorance of Germany of the real heart of the nations against which she was fighting that made her go to war. Ignorance is a menace to the whole world.

Insularity Breeds Ignorance.
 Insularity breeds ignorance. Countries that live wholly to themselves become ignorant of the ways of the rest of the world. India is a country that is ignorant. Her people are superstitious and their knowledge is bounded by the knowledge of their immediate neighbors. Superstition and ignorance go together. Germany held a superstition that she was invincible, and so she would have been if she had stuck to the warfare of commerce in which she was most skilled.
 The people of the Orient are all more or less ignorant. They do not as a people travel much nor do they even use to any large extent illustrated magazines or read literature of other nations. A few are doing that, but not the mass of the people. The coolies of Asia are as ignorant often as a dog. No attempt is made to educate them. These people are a danger or may be in the future.
 It is in its broadening aspect that the missionary does such wonderful work for the world. He is often a narrow person, with prejudices just as strong as the people to whom he preaches. His religion is often as narrow and as full of superstition as the religion of the people he tries to convert. Yet he takes into the country he visits a new conception of life. He is like a breath from other worlds which becomes the starting point for a desire for further knowledge. He pries open the shell which will later lay bare the wonderful kernel of truth which will make all people one.

SAID HE COULD NEVER BE WELL

"Fruit-a-lives" Restored Him to Health
 150 AVENUE PIER IX, MONTREAL
 "For three years, I was a terrible sufferer from Dyspepsia and my general health was very bad. I consulted a physician and took his medicine but I did not improve; and finally he told me that I could not be cured.
 At this time, a friend advised me to try "Fruit-a-lives". After taking two boxes, I was greatly relieved; and this fruit medicine made me completely well. My digestion and general health are now splendid!"

Ten Years Ago in Prince Rupert

September 29, 1911.
 Quite the most picturesque wedding ever solemnized in the city was that of Miss Emilie Lyle Craig, daughter of Mr. and Mrs. Monte Craig, and Duncan McTavish, of Victoria, which took place last evening in the Anglican Church, Rev. W. James officiating. The bridesmaids were Miss McTavish and Miss Morley, of Victoria, groomsmen, E. Wallace, ushers, H. P. Wilson, Mr. Pitcairn and C. H. Kearns, flower girls, Miss Pete Tremayne and Miss Dorothy Palmer, and accompanist, Miss L. Ellet.

A shot from a grading contract on First Avenue this morning damaged Dr. W. T. Kergin's residence and nearly caused the death of his little daughter who was playing in the yard as the shower of rock came down.

Joe Bayley, the Victoria lightweight, last night knocked out Oscar Nelson, of Vancouver, in the second round of a scheduled fifteen round bout. Nelson Dunn was the referee.

Aunt Jemima's Helpful Hints

Aunt Jemima will answer any questions sent in by readers of The Daily News.
 Little Elsie—It was very kind of you to try to help the Mamma goldfish to wear her baby fishes, but you should allow Nature to attend to that.
 Pool Room Boys—Aunt Jemima is not able to say how many home runs Babe Ruth made this season. However, I think it is very sweet of the child to always run home of an afternoon, instead of staying away and worrying her ma. I also think they should watch the dear child, so she would not always be wandering off and running home again.
 Gertie—Yes, my love, it is said to be a bad sign to break one's mirror. The fact that your mirror often breaks when you look into it does not seem a good sign. (2) Aunt Jemima knows of no way which you can alter the shape of your nose. (3) An ingrowing face is a sign of character.

PIONEER SEES WHERE HE MISSED MILLION

VANCOUVER, Sept. 29.—Many years ago, when Vancouver's principal streets were covered with grass, Thomas Petrie was one of the old settlers. He owned some pasture land on what is now the site of the central part of the business district. He sold it for \$240. Today it is worth more than one million dollars. The old man returned this week after a long absence in Montreal. He sees where he has missed a vast fortune.

HOLY LAND NOT VERY ATTRACTIVE TO LIVE

Pools of Solomon to Be Used as Water Supply for Jerusalem.
 LONDON, Sept. 29.—There are now barely 700,000 people in all Palestine, a population much less than that of Galilee alone in the time of Christ, says Sir Herbert Samuel, the British high commissioner there, in a report just made public.
 Ten thousand immigrants arrived in Palestine in the seven months between September, 1920, and May, 1921, he reports.
 Sir Samuel attributes the scarcity of the population to lack of development.
 The financial condition of Eastern and Central Europe, and internal difficulties within the Zionist organization of the United States, says the report, have prevented the Zionist movement from providing, as yet, any large sums for enterprises of development or colonization. As a consequence, while there had been much pressure to admit Jewish immigrants, there had been little expansion in the opportunities for employment, he declared.
 The water supply for Jerusalem having been found to be insufficient, the government is bringing into use some ancient reservoirs of vast capacity, named the Pools of Solomon, but of unknown date, possibly Herodian, situated eight miles away.
 The garrison of the country has been reduced to 5000 combatant troops, imposing a charge of £2,500,000 on the British exchequer, or at the rate of £500 for every fighting man.

The Man in the Moon SAYS—

THE only advice I have to give in this election is to vote against the man who makes a two hour speech.
 A LOT of husbands are cancelling their subscriptions to the Daily News because they don't like the things Maggie says and does to Jiggs. They say it is setting a bad example.
 THAT "dying of a broken heart" stuff does no go any more with Canadian readers or audiences.
 A FLEA bites because he is a flea. Some people are always snarling for some reason or other.
 THE Polar Bear seems fond of Acropolis Hill.
 I DON'T want the matter mentioned publicly, but I am anxious to get that seat in the Senate which the Colonel spurns.
 THE suit of clothes that is all wool is usually mostly cotton wool.
 I PITY a lot of women because of the men they have to live with.
 HUNTING stories seem to lack that imaginative touch which makes them go with so much gusto. It seems as if the hunters must all have got religion.
 MOST of the people who always say just what they think, have not much of a thighbone.
 THE person who keeps his mouth open is not trying to catch flies. He is just wishing for dinner.
 GIRLS are supposed to lose their hearts, but men are seldom accused of such carelessness.
 Yes, charity may cover A multitude of sins But skirts no longer cover A multitude of shins.
 MISPLACED.
 A well-known Admiral—a stickler for uniform—stopped opposite a very portly sailor whose medal-ribbon was an inch or so too low down. Fixing the man with his eye, the Admiral asked: "Did you get that medal for eating, my man?"
 On the man replying "No, sir," the Admiral rapped out: "Then why the deuce do you wear it on your stomach?"—Tit-Bits.
 JUST TURNED AROUND
 "Hello, old top. New car?"
 "No, Old car, new top."—Lafayette Lyre.

PAINFUL DIARRHOEA Cramps in Stomach

Mr. Fred Funston, Craik, Sask., writes: "A year ago last harvest I was taken with a sudden attack of diarrhoea which completely laid me out, and in a few hours I had to quit work. The cramps in my stomach were dreadful, the heads of perspiration would stand out on my face at times I was in such great distress. At last I got a chance to send to town for a couple of bottles of Dr. Fowler's Extract of Wild Strawberry. I used it according to the way I felt and soon obtained a great change for the better, for which I was very thankful. I don't know what the cause of my sickness was except the extremely hot weather and the active work of stacking the wheat."

Several of my neighbors were taken the same as myself and had the doctor attend them, but they didn't get any great relief until I advised them to use "Dr. Fowler's," when they soon experienced a great change."

Dr. Fowler's Extract of Wild Strawberry has been on the market for the past 25 years and many cheap imitations are being offered to the public. Be sure and get the genuine put up only by The T. Milburn Co., Limited, Toronto, Ont. Price 50c. a bottle.

RAID AT JUNEAU MOONSHINE SEIZED

Whiskey Was 95 Per Cent Proof Spirit and There Was Beer and Cider.

JUNEAU, Sept. 29.—What is alleged to be moonshine whiskey home brew beer and cider was seized in a raid on the Fairbanks Clear Store and B. Doizadelli and Charles Baker, arrested by U. S. Deputy Marshals A. E. Lucey and William Garster, assisted by Chief of Police T. E. P. Keegan. The store is located at 167 Front Street.

Evidence seized on the search warrant, as returned by Deputy Lucey, is alleged to be: One bottle of moonshine whiskey, 95 per cent proof; two bottles of home brew beer, one gallon of cider and three hot water bags, alleged to have contained whiskey, and to have been used by the proprietor to carry whiskey upon their persons. Other evidence, not secured in the raid, but having been in the complaining witness' possession is a bottle of whiskey that Charles Lutz claimed he bought in the place.

This is the first case for the alleged violation of the Alaska bone-dry law handled by the present force of the United States Attorney's office. The case was handled by Lester O. Gore, assistant United States Attorney.

ORGANIZED THIEVING VICTORIA LAST WEEK

White Fair Was on Dozen Homes Were Robbed, Eight in 48 Hours.

That Victoria is in the grip of a gang of organized thieves, who are experienced at their work, and make few mistakes, appeared today when four more burglaries were reported as perpetrated here, says the Victoria Times. The thieves in all cases gained entrance while the families were away, either at the fair or elsewhere. Last night's activities of the gang brings the number of burglaries up to over a dozen for the week, eight of which took place in 48 hours. In no case has the thief left a clue to his identity, but the work is known to be the work of a gang, whose activities were traced in other cities before coming here. The event of Fair week, combined with the advent of the races, gives the opportunity of pillaging empty houses that does not appear in ordinary circumstances.

Mrs. Annie Barelay Stevens has made application for a building permit to erect a garage on Atlin Avenue in Westview at a cost of \$200.

FISHERMEN'S LIFE ARDUOUS

Interesting First Hand Account of Activities on Halibut Banks is Told.

For a man to take the old bamboo pole and go up stream to catch a few trout is quite a different matter from shipping on a fishing vessel to land halibut for a living, says a first hand story in the Ketchikan Chronicle by Ernest F. Tobin.

In the first case it is sport; one travels only a mile or so; carries along the lightest fishing gear—a pole and line—with only one hook or two and for bait uses little salmon eggs. If one ships on a trawler it is work. A journey of 800 miles or more is ahead and the fishing gear thrown over by each dory in one set is all four men can carry and contains a thousand hooks or so, each baited with a whole herring.

If the trout fisherman catches 50 pounds of fish in a day he considers it a wonderful day's fishing. Unless two dory mates pull in a thousand pounds of halibut they consider it a very poor day indeed.

Fishermen's Work.

The fishermen's work in landing this great amount of fish begins the day before the arrival at the fishing grounds, when they start baiting up the gear. This in itself is no small undertaking when it is considered that the ground line is nearly two miles long, containing, four skates of eight "lines" each one requiring nearly a thousand pieces of bait.

Torches Supply Light.

All hands are usually up an hour or more before there is any sign of old Sol. In place of his light the fishermen substitute torches. At the grounds everything is made ready, the torches are lighted, the fishermen for the top dory, put their gear, a dory sail and the oars into it; the dory is hoisted clear the men jump in as it is lowered into the water and while the steamer proceeds slowly, it is "dropped." This continues until all eleven dories are launched.

A most striking sight is that of the dories strung out in a long line, their torches showing like street lights at intervals for a distance of more than two miles out in the black night.

Laying the Gear.

As soon as the dory strikes the water an anchor is thrown out. The ground line and buoy keg is attached to this. Then, while one man rows, or the sail carries the dory along, the other plays out the gear. Another anchor is dropped, when the end is reached and the buoy keg follows.

As morning begins to streak the horizon with gray, or sometimes even before it has done so, the steamer returns and picks up the dories. The fishermen then begin to bait up another set of gear. After about two hours have elapsed the dories are again launched, each one at the keg bearing its number, and the fishermen begin to pull in the line.

Fishing halibut does not mean that only halibut pick out the bait. All kinds of queer denizens of the deep from great sea crabs and ugly conger eels to big sharks larger than a man are found on the hooks. Sometimes the set is made in a school of dog fish or cod; then the fishermen are kept busy throwing overboard instead of landing fish.

The procedure of drawing in

the line is for one fisherman, standing in the bow of the dory to turn the gurdy, an apparatus for hoisting up the heavy lines. The slack is passed on to the other man, standing in the stern, who unhooks the fish by snapping them off the hook into a net in the center of the dory if they are halibut, or against the outside if they happen to be any one of the many other varieties.

At the start the two buoy kegs marking each end of the line are out of sight of each other and it usually takes about two hours until the other end is reached. Then the steamer comes alongside; hooks are attached to the net and it is pulled aboard and from one to four sets are made in a day. In Cook Inlet a day's fishing of eleven dories in favorable tide and weather sometimes nets as high as twenty thousand pounds of fish.

Cleaning Them.

After the day's fishing is over the men line up around the table at the hatch; and while one line of fisherman cut out the gills, and the intestines of the fish another line of men scrape and wash the insides. Thus cleaned they are thrown down the hold, where another group of fishermen throw ice into the pokes and ice them down in the pens. When the ship returns to port the fish are beheaded, washed so clean that they are ready for the pot or frying pan; laid in the freezers; then piled in the rooms of the cold storage.

Such is life along the fishing banks and such is fishing there. To us the placed looked good for anyone who would care rather rust than wear away. Many of the men aboard the boats vowed that they were coming to take life easy, but it is doubtful if they would brave its loneliness.

FEW UNEMPLOYED ARE REGISTERED

Outlook in Prince Rupert for Winter Does Not Look Bad.

James Campbell, provincial government employment agent, announces that he has about fifty unemployed men registered at the present time. Considering the general depression all over the province this condition is very good and compares more than favorably with any other office in B. C. With the letting of tie contracts up river in the near future, the reopening of the Dolly Varden Mine at Alice Arm, increased activities at the Premier at Stewart and the prospect of work on the superstructure of the ocean dock and the new station here soon, the outlook from the employment standpoint in Prince Rupert does not look bad.

PRESBYTERIAN LADIES' AID TEA AND SALE OF HOME COOKING HELD

The Presbyterian Ladies' Aid held a silver tea and sale of home cooking at the home of Mrs. A. M. Manson, Fifth Avenue East, yesterday afternoon. On account of the inclement weather, there were possibly not as many in attendance as success resulted and the sum of \$34 was realized.

Mrs. W. S. Fisher poured tea and was assisted by Mrs. T. B. Hooper and Mrs. Jos. Greer. Mrs. C. E. Starr had charged of the home cooking table.

CANCELLATION OF RESERVE.

Notice is hereby given that the reserve against the acquisition of Coal under the "Coal and Petroleum Act" established by Order dated 19th of February, 1920, and published in the British Columbia Gazette on the 12th of February, 1920, is cancelled, except in so far as the same relates to the boundary areas:

1. All the lands lying within the boundaries of the drainage areas of the Skeena River, above and including Duff Creek, the East Fork of the Skeena River, the Little Skeena River, and the Spateo River, above and including Klaxysa and Hudson.

2. All that portion of Vancouver Island lying easterly of the following described boundaries:

Commencing at a point on the West Coast of the island at the mouth of Muir Creek, thence following the western boundary of the Esquimalt and Nanaimo Railway Belt to the southeasterly corner of the Strathcona Park Reserve, thence west following the south boundary of Township 37, Rupert District, thence west along the north boundary of Township 37, 41 and 44 to the Pacific Ocean, and including all the foreshore and lands covered by water adjacent to the coast of the island within the boundaries of the Districts of Oyster, Goldstream, Metchosin, Esquimalt, Victoria, Lake and North and South Saanich, Sooke and Highland.

The cancellation of this reserve shall not take effect and staking for coal shall not be lawful until notice of such cancellation is published for sixty (60) days in the British Columbia Gazette and in a newspaper published or circulating in each of the Land Registration Districts of the Province of B. C.

Notice shall in no wise affect the reserve against the acquisition of Coal, Petroleum and Natural Gas in the Peace River District established by notice in the British Columbia Gazette on the 27th of March, 1919, which reserve is still in force and effect.

G. R. NADEN, Deputy Minister of Lands, Department of Lands, Victoria, B. C. July 30th, 1921.

LAND ACT.

NOTICE OF INTENTION TO APPLY TO PURCHASE LAND.

In the Haida V. Coast Land District, Recording District of Prince Rupert, and situate on Lakelse Lake.

Take notice that Frederick Davison Mulholland, of Prince Rupert, occupant of about 40 chains to shore of lake, thence westerly along shore and across mouth of Clearwater Creek to point of commencement and containing six acres, more or less.

OWN TO REORGANIZED

Enthusiastic Meeting Held in Gymnasium Last Evening.

There was a meeting in the gymnasium last night devoted to the reorganization of the work of the organization.

There was not a large attendance on account of the weather but those who were there showed a great deal of enthusiasm.

At an enthusiastic meeting held in the gymnasium last evening the members of the organization met to discuss the reorganization of the work of the organization.

The meeting was held in the gymnasium last evening and was attended by a large number of members of the organization.

CONNIE MACK STAR MANAGER

Three of His Teams Have Won World Series Honors.

NEW YORK, Sept. 29.—(World's Series).—An interesting sidelight on world series of other years is concerned in the managers of these pennant winning teams, whose employment of baseball cunning in the various games has been one of the invisible yet most potent factors in the great events.

Connie Mack, the slender boss of the Philadelphia Athletics, can lay claim to the greatest world series honors. Three of Mack's teams have won the series since the National commission took hold of baseball in 1905. Twice Mack found himself pitted against the wily John McGraw, manager of the New York Giants and Mack won on both occasions.

Another of baseball's greatest leaders, Frank Chance, of the Cubs, lost a series to the Mack men. However, Chance was one of the select few who led their teams to world series victory on two occasions. In 1907 and 1908 his Cubs turned back Hughie Jennings' Detroit.

Chance's outfit was defeated in the series of 1906 by Manager Jones' Chicago White Sox. The Cubs were woefully weak in that series, taking into consideration the fact that they had set a new record for games won in winning the National League pennant.

Bill Carrigan won two series in 1915 and 1916, with the Boston Red Sox. The following table shows the winning managers since 1905.

Table with 2 columns: Year, Manager, Team. Lists managers from 1905 to 1920 including Mack, Carrigan, Stalling, Moran, and Speaker.

Sport Chat

In commenting on the recent Northern B. C. baseball championship series played in Prince Rupert the Alice Arm Herald says: "The Anyox baseball team did not have the honor of bringing home the Ben Self shield but they did have the satisfaction of beating Prince Rupert by a score of 4 to 1 and the chances are that they would have beaten Prince George had that team played all local men instead of four from Edmonton. All the boys of Anyox were loud in this praise of the hospitality shown them by the people of Prince Rupert who did everything possible to make their visit a pleasant one."

Universal Trading Co. S. K. Shane, Manager Phone 376 Corner Third Ave. and Sixth St.

ant one. The press of Prince Rupert gives Anyox credit for a fine exhibition of baseball against the best team Prince Rupert could put in the field. They hit a surprise package, however, when they ran against Prince George, that team being made up of the Twilight League professionals on their way south with the ducks for the winter. Next year, however, there is no doubt a better understanding will be arrived at and rules will be drawn up which will eliminate any man from playing unless he is a bona fide member of the team and a resident of the town the team represents. If something is not done along these lines there will probably not be any championship games next year, as far as Anyox is concerned. The shield this year has been conceded to Prince George, both Anyox and Prince Rupert being in favor of letting the pros hold it for the time being.

receipts, \$104,827; player's pool, \$54,933. 1908-5 games, attendance, 62,232; receipts, \$94,975; player's pool, \$46,173. 1909-7 games, attendance, 145,807; receipts, \$188,862; player's pool, \$66,925. 1910-5 games, attendance, 124,222; receipts, \$179,080; player's pool, \$79,072. 1911-6 games, attendance, 179,851; receipts, \$342,364; player's pool, \$127,910. 1912-8 games, receipts, \$490,833; attendance, 252,237; player's pool, \$147,572; 1913-5 games, attendance, 150,092; receipts, \$325,739; player's pool, \$135,164. 1914, 3 games, attendance, 110,009; receipts, \$225,739; player's pool, \$121,899. 1915-5 games, attendance, 143,351; receipts \$200,361; player's pool, \$111,899. 1916-5 games,

IT IS SAID THAT

"The Recollection of Quality Remains Long After Price Is Forgotten"

That is true of many articles in daily use. Some utensil, some article of wearing apparel, gives out—goes to pieces—quickly. We forget that we bought a "cheap" thing and we "kick" at the poor value we received.

On the other hand, we may have done our "kicking" at the time we purchased something, believing that we paid too dearly, and later on boast of what a good buy we made because the article wears so well. In both instances we have forgotten the price.

Nowadays "PRICE" is very much in the public mind. People are trying to be as thrifty as possible—and a good thing, too—but it frequently happens that "Quality" is lost sight of, and "a poor thing is dear at any price."

Our recent revision of our prices downwards, to conform to the falling market on the lines we handle, makes it an absolute truth that we are today selling many things below what they cost us. This is notably the case in our Dress Goods Section—in Woollens, Silks and Novelty Fabrics, and many other lines. BUT—we still go in, as we always have, for QUALITY, and QUALITY considered—our prices are as low as any.

Note Special Prices This Week:

- Penman's Cashmere Hose—This quality sold for \$1.95 last year. Now, per pair.....\$1.00
- Silk Hose—Best quality "Winsome Maid" 12-thread Silk Hose in black, grey, white, green, gold, silver, blue, etc. For this week, per pair.....\$1.95
- Velveteens in practically all colors. Per yard.....\$1.25
- All-wool Serges, navy, green, brown, sage, 36 inches wide. Per yard.....\$1.50

VANCOUVER INVENTION PATENTED IN NINE COUNTRIES OF WORLD

VANCOUVER, Sept. 29.—Nine countries, including the United States, have patents on an invention of two Vancouver men. It is for a transmission device that ends friction problems and simplifies gear and speed systems. The mechanism is simple, yet effective. The inventors are B. A. Grant, contractor and old-time resident, and J. S. Russell-Rigby, overseas officer. The managing director is Dr. J. S. Gladwin, physician and overseas officer. Representing them in London for four months in conference with the London Omnibus Company is J. Miles-Peters, surveying engineer, who laid out Industrial Island, B. C., and Vancouver's railroad yards. London and American corporations are now bidding for exclusive rights of the Vancouver men's patent.

LOAVES TOO LIGHT; FINE FORTY DOLLARS

MONTREAL, Sept. 29.—For baking loaves of bread for sale in Montreal which were under the required weight Joseph Robin Cote Street Michel, was fined \$40 and costs by two months imprisonment by Recorder Semple. Inspectors Bissonnette and Nault said that they went into the bake house of Robin and found there 156 loaves, which varied from 2 to 5 1/2 ounces under the required weight. The accused pleaded guilty. The loaves were confiscated and given to a charitable organization.

LOGGER IS CLAIMANT TO EXTINCT TITLE

Is Grand-nephew of Sir J. S. M. Errington.

VICTORIA, Sept. 29.—Joseph Pender Stanley-Errington, who has been working in the woods since he came out of the army, claims to be the legal heir to the title and estates of the late Sir John Stanley Massey Errington, who died more than 30 years ago. The baronet died without issue and the title was declared extinct. It was one of the oldest baronetcies named in Burke's Peerage. The British Columbia claimant has been visiting Vancouver barristers seeking legal aid. He has many documents that, he avers, show him to be the grand-nephew of the deceased baronet. He says a family secret made in expedient for him to withhold his claim before.

Errington has no trade but is a man of apparent culture. For some years he received a small remittance from England, but property taxation has reduced it to almost the diminishing point. He is 39 years of age and is now doing odd jobs.

FORMER ALASKA TEACHER WEDS ONE OF PUPILS

Culminating a romance started in the North five or six years ago came the marriage yesterday in Victoria, B. C., of Miss Helyn Louise Protzman, formerly of the Chronicle office, to Philip A. Knowlton of New York, says the Ketchikan Chronicle. Mr. Knowlton was formerly superintendent of schools of Fairbanks and Miss Protzman was one of the students in his high school. There the friendship started which later led to their marriage. Miss Protzman for the past year has been in the Chronicle office and left only a few days ago to meet Mr. Knowlton at Victoria. The ceremony took place there at the home of relatives of the bride.

CHILD MUSICAL WONDER

NEW WESTMINSTER, Sept. 29.—Although she is only nine years of age, Clarice Grace Cummings, only child of Mr. and Mrs. A. S. Cummings of this place, is a musical wonder and her talent has elicited the widest interest in musical circles. Clarice is able to interpret Wagner, renders Chopin and other masters with absolute fidelity, and reads the classics by sight at her piano. A Seattle music lover and capitalist wants to defray her expenses to the Toronto Conservatory of Music, and later send her abroad. Clarice is a very delicate child.

SKELETON CAUSES FIRE

VANCOUVER, Sept. 29.—While waiting for Dr. Rufus L. Bloch, chiropractor, to return to his office, a patient examined a skeleton hanging in a corner and finally struck a match upon one of its ribs to light his pipe. The skeleton proved to be made of some inflammable composition and ignited. An instant later it was in flames. Several waiting patients fled in terror and the office was ablaze a few moments later. An alarm was sent in.

COG DEVOURS WEALTH.

VANCOUVER, Sept. 29.—When Gregory Burton, steamfitter, returned to his home one night this week, he found his pet pup playing with an object that resembled pulp. To his horror, investigation proved that it was the remains of a roll of bills valued at \$180 which had been laid aside for part payment on his home. The bills were hopelessly mutilated.

WOULD SETTLE IN B. C.

VANCOUVER, Sept. 29.—Enquiries from the U. S. show that thousands of Americans would colonize in this province. Most have capital for farming. The enquiries, addressed to local civic bodies, come from all parts of the States.

A DOUBLE CRIME.

"Did the traffic cop arrest you?"
"Twice," replied Mr. Chuggins. "When I couldn't stop he arrested me for speeding and when I finally stopped and couldn't start he arrested me for blocking the traffic."—Washington Star.
