General Election Soon As Possible CONFERENCE OF UNIONISTS AND REPUBLICAN IRISH LEADERS

Cabinet Reorganization, Fall Session and Early Election are Suggested at Ottawa After Meighen Returns

OTTAWA, July 8.—When Premier Meighen returns about the end of the month the reorganization and strengthening of his cabinet looking to a general election after the completion of the census and the passing of the redistribution bill, possibly this fall, will engage his attention.

It is suggested that he will retire some of the older members of the Government, sending them to the senate, and replace them by younger men. The names mentioned as possible cabinet members are R. B. Bennett, of Calgary; H. H. Stevens, of Vancouver, and Dr. R. J. Manion, of Fort William. These stand out among others as likely men.

TORONTO, July 8.—The chiefs of the Railway Brotherhood will notify the railways that, in view of the fact that the United States brotherhoods have refused to accept the wage cut until a ballot has been taken, they will also refuse to accept the reduction until the question is settled in the United States.

NEW OFFICERS FOR CARPENTERS' UNION CHOSEN WEDNESDAY

The International Brotherhood of Carpenters had a good session at Wednesday night's meeting when officers were installed and general business was transacted. The retiring officers were complimented on their record and a vote of thanks was accorded them. The fiscal is in a strong condition as far as the number of members are concerned and finances are also in good shape.

After the usual routine business had been disposed of at the meeting, the report of the Plein Committee was received and plans were advanced for the event. Details will be concluded by next meeting. The final arrangements are in the hands of a committee consisting of Messrs McLeod, Butters and Vierick.

NEW OFFICERS.

The new officers chosen were as follows: President—J. J. Gillis. Vice-President—S. Butters. Financial Secretary—Rod McLeod. Recording Secretary—William Sager. Treasurer—John Vierick. Conductor—William Cameron. Warden—G. Finlay.

FINANCES OF B. C. ARE SOUND

Minister of Finance Preparing Statement for Public, Ready in a Few Days.

VICTORIA, July 8.—The finances of British Columbia are in a sound condition and are being controlled by the Government in such a way as to keep them sound, the minister of finance stated today. A statement is being prepared and will be issued soon dealing with the Government's financial position. This will be an authoritative statement and will set at rest some of the idle talk consequent on the decision of the Government to conserve the finances by closing down everything but absolutely necessary public works.

The Government is playing safe in troublous times but is determined to keep the provincial finances intact.

MORE FRUIT IN PROVINCE

Some Provinces Show Increased Production—Ontario Down This Year.

OTTAWA, July 8.—According to the July fruit and vegetable reports from the Department of Agriculture, the apple orchards in British Columbia as well as those of New Brunswick and Quebec give promise of a ton per cent increase of produce over 1920. In Ontario it is believed there will be a drop of twenty per cent.

BUILDING TRADE STRIKE SETTLED

Believed Will be Speeding Up of Building Operations.

LONDON, July 8.—The wage dispute in the building trades of Great Britain, which for some time has seriously held up building operations has been settled on lines which it is believed will result in the speed expansion of building work on a considerable scale and will also help clear up the industrial situation.

CONFERENCE AT DUBLIN CONTINUES TODAY AND MUCH HOPE EXPRESSED

DUBLIN, July 8.—The conference between De Valera and the Unionists was resumed here today. All the delegates were loudly cheered upon their arrival by a huge crowd outside the Mansion House.

Lord Mayor O'Neill welcomed the delegates and the deliberations began immediately continuing until 1 o'clock when adjournment was made until 4 o'clock this afternoon.

LONDON, July 8.—English political writers in this morning's papers seemed to believe that the prospect for a settlement at Dublin today has been regarded more with hope than with faith. In many quarters there is little encouragement for optimism on the occasion. King George received Premier Sir James Craig of Ulster in conference this morning for half an hour.

Election Possibilities Are Being Discussed in Ottawa Following That Collapse

OTTAWA, July 8.—The probable effect of the Medicine Hat election on the present Parliament and its influence on the country with the prospect of an election this fall are subjects which are being discussed here.

Particular significance attaches to the Medicine Hat disaster because of the fact that the city itself went Progressive by a respectable majority. The government has professed to believe not only that the Progressives in the west had no strength in the urban centers, but that they could successfully be assailed in their own rural haunts. Medicine Hat is not only a city but an industrial city; and yet the protectionist appeals of Mr. Spencer, the government candidate, fell upon deaf ears, and his opponent, Mr. Gardner, secured a majority in favor of lower tariffs.

HOPED FOR DISSENSION.

The government had hoped that the grain inquiry and the alleged disclosures connected with it would have the effect of creating suspicion and dissension among the Progressive ranks. During the session government members from the west boasted openly that there would be a hide on the fence ere all was done and that the farmers' political movement would collapse when the operation of their commercial organizations were made known. As a matter of fact nobody had any delusion regarding the purpose of the enquiry from the first and any doubts which might have been entertained regarding the purely political motives of an extensive investigation were set at rest by the notorious hearing held in Fort William. Judging by the result in Medicine Hat county, the government's plans and so called strategy had exactly the opposite effect to that expected.

CABINET RECONSTRUCTION.

Not the least of the difficulties of the government, which the result of Medicine Hat and Ontario by-elections portend, is that connected with cabinet reconstruction, which is long overdue. The premier would appear to be stopped from securing new cabinet timber anywhere else than in the Maritime Provinces, and west of the Rockies, and these provinces have already their full quota of ministers. Two western ministers have dropped out since 1917, and their places still remain unfilled.

LIBERALS IN MEDICINE HAT REFRAINED FROM PLACING A CANDIDATE IN THE FIELD.

The result of the contest would indicate that they gave heavy support to the Progressive candidate. Here again the government has suffered disappointment; for it was predicted that especially in the urban centers Mr. Spencer would secure Liberal support.

GOVERNMENT HOPES SMALL.

The government has held that there should be no general election until after a redistribution. Western government members have contended that by such redistribution there would be larger urban representation and that therefore the government would stand to gain. But the result in Medicine Hat together with the results in East Elgin and West Peterboro indicate plainly that the government's hopes even in the urban centers are small. So that the desirability of redistribution so far as the government is concerned, need be no deterrent for the holding of a general election at a comparatively early date, in the event of evil fortune dogging the government's footsteps in the by-elections still pending.

EIGHT SEATS LOST.

Since 1917 when the last general election was held, there have been 19 by-elections. Out of these the Union and Meighen governments have succeeded in holding six, four of which elected ministers; has lost eight seats; and has gained none. Liberals have held five seats (several by acclamation); gained one, namely, West Peterboro, and lost none. Progressives have had a net gain of seven. The success of the Meighen government has been confined to British Columbia and the Maritime Provinces. The new

GRAND TRUNK STOCK ALMOST WORTH NOTHING

Says W. N. Tilley, Counsel for Government, Before Arbitration Board.

MONTREAL, July 8.—W. N. Tilley, government counsel, yesterday declared before the arbitration board that the common stock of the Grand Trunk Railway was not worth a dollar. The Grand Trunk Pacific occupied a good deal of Mr. Tilley's argument. He claimed that a part of the growing deficits of the subsidiary, the Grand Trunk Railway would eventually, itself, be liquidated.

The hearing of the case is expected to close with the verdict by the counsel for the railway company.

THE DAILY MISERY OF ILL-HEALTH

Three Years of Suffering Quickly Relieved by "FRUIT-A-LIVES"

MR. GASPARD DUBORD
 159 Avenue Pius IX, Montreal.

"For three years, I was a terrible sufferer from Dyspepsia and my general health was very bad. I consulted a physician and took his medicine and faithfully carried out his instructions; but I did not improve and finally the doctor told me I could not be cured.

At this time, a friend advised me to try 'Fruit-a-lives' and I did so. After taking two boxes of 'Fruit-a-lives', I was greatly relieved; and gradually this marvelous fruit medicine made me completely well. My digestion and general health are splendid—all of which I owe to 'Fruit-a-lives'.

POLICE REPORT OF LAST MONTH

Bootlegging Was Discussed by Commission—Difficult to Apprehend Taxicabs.

According to the monthly report of the chief of police which was submitted at last night's police commission meeting there was a decided decrease in the cases in the police court during the month of June. There were but 33 cases resulting in 31 convictions as against 56 cases and 52 convictions in May. The total collection of fines amounted to \$756. There were 19 cases of drunkenness, 3 breaches of the B. C. Prohibition Act, one case of supplying liquor to Indians and one case of vagrancy. There were several reports of burglaries during the month of June, one of these being the alleged theft of furs valued at \$1650 from a house on Comox Avenue. None of the thieves had so far been apprehended. The weights of bread and coal had been tested and were found satisfactory.

Discipline.
 Following the report being made by Chief Vickers that a man named McGinn, under sentence to serve 60 days for drunkenness, had escaped from jail, there was some criticism of the looseness of discipline about the station. Commissioner Macdonald stated that the orders should go from the mayor to the chief and thence to the various officers. Any who disobeyed the orders and allowed slackness would be dealt with. Both this escape and the Michelson escape could have been avoided and they were directly traceable to negligence.

Blind Piggling.
 Speaking of blind-piggling, Commissioner Macdonald ventured the statement that there was more going on in the city now than ever. People had told him that they could buy liquor cheaper from the blind piggers than they could at the liquor vendor's store and had laughed at the police force. Taxicabs were very likely engaged in the traffic. Chief Vickers pointed out to the commissioner that it was a very difficult matter to apprehend the business as far as taxicabs were concerned. Upon the liquor being discovered, the driver could state that it had come from an exporting house outside of the province and was being delivered to a customer in the city and the police were thus powerless under the Act to take any action.

GOING BACK TO THE OLD HOME TOWN IS THEME OF RAY FILM

Youthful Favorite Gives a New Touch to "Native Son" Idea in Picture.

Coming back to the old home town has a sentimental interest for the man who has come out and made a name and fortune for himself in the big city. Rolling up in a limousine to the little house where he was born is, perhaps, a scene he's often pictured in his mind. But when a young fellow who has gone out from the little town and become just one of a hundred clerks in a big city establishment decides to come back to the home village and startle the natives with his clothes and sang-froid and apparent wealth, what happens next?

Charles Ray furnishes the answer most delightfully in his latest screen comedy, "Home Comes Home," which will be on view at the Westholme Theatre tonight. As is well known, Mr. Ray is thoroughly at home in small town roles and this time he has a story that fits him like a glove.

"THE IRON HEART" TO BE SHOWN HERE

"The Iron Heart," a new Wm. Fox photoplay starring Madeline Travers, will be at the Empress Theatre tonight. The action of the play is said to be intensely dramatic. The story revolves about the courage of a young woman who undertakes management of a big steel plant left to her by her father, a philanthropist, who had built up a wonderful morale among his employees.

In "The Iron Heart," according to report, the most modern ideas as to industrial institutions have been worked out, the story thereby carrying a great message to humanity.

Handicap of Being Married.
 In Edmonton there is a teacher who is married and his wife has been doing temporary work also as a teacher. She is now applying for a permanent position and some of the trustees object. They think the positions should be given to those who are unmarried.

Immediately the question arises whether a woman does not eat and drink and wear as much after marriage as before. Can a woman live for half or quarter the sum it cost her when single? If she can do so, should she? These are questions which are vital.

If it was true that a man was always paid double the salary of a woman, there might be justice in the attitude of the trustees, but if the cost of living for married people is just as high as for single, then there should be no discrimination against a woman because she happens to have followed the course of nature and married a man.

The whole trend of modern development is against marriage. Everything is easy for the single person and difficult for those who are married. There is nothing to encourage matrimony. The reasonable attitude would seem to be for the unmarried and the childless to share up their salaries with those who are raising families. That would equalize matters. At present the person who performs the natural duty to the state of raising children is handicapped, not only in the matter of restraint of liberty but also in having to feed at least two and sometimes ten on the salary of one person.

Organize Play And Proper Grounds.

In speaking to the Rotary Club yesterday, principal Brady again drew attention to the need of playgrounds here. The city has already done considerably toward this end, but the need is still here. There must be a good playground at the new school and there should be others. Something along that line will be needed soon at Seal Cove and another large game ground is a real necessity if sports are to be developed in the city. Naturally the amount of work done has to be gauged by the amount of money available, but this work is among the most important in the city.

City Slow in Enforcing Law.

During the plebiscite campaign it was commonly mentioned that once prohibition was repealed every effort would be made to enforce the law in regard to liquor selling. There has been a laxity, however, especially in the large cities that has encouraged the belief that it was not necessary to live up to the law. Vancouver city was very slow in regard to raiding the clubs, yet it was openly stated that they were selling liquor.

It is useless to pass laws if they are not to be enforced. The law is that only the Government store shall sell liquor in the province. Some of the people who have been evading the law are the ones who were loudest in their support of the measure before it was passed.

Take Advantage of Group Government.

Democratic government is always carried on by way of organized groups, sometimes called parties. If the groups are all independent of each other they have little influence, but as a result of experience they have formed themselves into related groups known as parties. Tonight the local branch of one of these groups will hold a meeting preparatory to a convention which has been called. In order that the meeting be quite representative, all who are in sympathy with the aims and objects of the Liberal party should be present.

Sometimes it is said that the same old crowd are in charge. If that is true it is because the rank and file have confidence in the same people. Among Liberals there is no such thing as choosing officers or representatives or delegates just because they have earned it. They are chosen because they stand for Liberal principles and because the other members of the party have confidence in them. Discussions are free and often incisive. The necessity of change in policy of any party is evident. What is true today may not be true tomorrow. The light of experience is a good and sufficient cause for making changes, as long as the same big principles are in mind. The greatest good to the greatest number with justice to none is a principle that is borne in mind. The greatest possible freedom without resort to license is another. Equal opportunities to all, with privileges to none, these are general principles. They are not always carried out as some would wish, for the human element comes in just as it does in all walks of life.

The Man in the Moon SAYS—

THE heat gives an excuse for Ontario people to become prostrate. There is no such excuse here. The police interfere when a man acts that way in this city.

SMUTS suggests "give and take" as the policy to settle the Irish trouble. Most people thought that was what was going on there now. Mostly give, with the concession taking the form of blows.

IT came out at the meeting of the police commission last night that another prisoner had escaped from the city lockup. According to local authority a can opener is all that is needed to get away from there.

NOW you are in and now you are not is the game played by local prisoners. Just now it is "Now I am out."

PEOPLE are really not as thirsty as they thought they were, judging by the patronage at the government liquor stores throughout the province.

SCALE ARRANGED FOR INCREASE IN PAY OF OFFICERS

The police commission at its meeting last night decided that in future permanently appointed constables would serve for the first three months after their appointment at a salary of \$110 per month, on the expiry of which time the stipend would be raised to \$150 per month. This policy was decided upon an application from Constable George Logan for an increase from \$110 to \$150 being received. This officer's raise will thus come into effect on July 1. The next officer to have his salary thus increased will be Constable Poustie, whose first three months' service will be up next month.

In the case of special officers on the force it was suggested that overtime be so divided up that these men get a good share of it.

MANY TOURISTS COMING HERE

Travel Over Line by This Route Is Steadily Increasing, Says Ticket Agent.

Several car loads of through passengers arrived here last evening and went south on the Prince Rupert. The travel on the line has been steadily increasing with last evening as a climax in the way of numbers. Every through train carries a lot of tourists who take this route to enjoy the change of scenery, the fame of the mountain scenes and the Skeena Gorge having spread far and wide on the prairies, and the service of the local railway having become known. Arrivals are all pleased with the trip and say they will advise their friends to come this way. Most of them are looking forward to the run south on the steamer.

G. F. Johnson, the local ticket agent, says the through travel so far this year is larger than any former occasion but the local business is not as heavy.

MACDONALD WOULD GET AFTER CLUBS

Those Operating for Sale of Liquor or Card Sharppers Should Be Closed at Once.

"We have been successful in closing down one club in the city and now I want the police to see that all others are living up to the purposes for which they were established," said Police Commissioner Macdonald at last night's meeting of the commission. "Clubs that are merely operated for selling liquor or the benefit of card sharppers should be closed at once. If they are running to provide comforts in the way of reading and writing materials for the workmen or others then they should be encouraged. A few raids on Comox Avenue at the present time also might not come amiss."

FORMER ENGINEER NOW HORSE DEALER

Len Bell Arrived in City Last Night After Selling Car Load at Hazelton.

Len Bell, formerly an engineer on the G. T. P., arrived in last night after selling a car load of horses at Hazelton. He tells some weird tales about the handling of the horses and the difficulties attendant thereon. He also says he now knows more about Indians and their ways than he ever knew before. The Indians buy most of the horses. Mr. Bell, who at present lives at Edmonton, was welcomed by his old friends.

WEE TOT'S BAGGAGE JUST TWO LETTERS

PORT ARTHUR, July 7.—Her baggage consisting of two letters, dealing with her father's war record, three-year-old Winifred Josephine McKinley passed through here recently on the C.P.R. transcontinental train en route to her uncle's home in Swift Current, Sask. From her far away home in Glasgow, Scotland, to the Canadian West, over 1,000 miles, the little orphan has only the kindly directions of train and steamship officials to guide her.

USK LADY PASSED AWAY ON MONDAY

Mrs. Betcher Succumbed at Home of Sons' After Long Illness.

The sad death occurred at Usk on Monday of Mrs. Betcher, at the age of about fifty years. Mrs. Betcher has been in poor health for some time. The body was brought to Terrace on Tuesday and the funeral held here, Rev. M. Marsh officiating. J. Wells and Mr. Wenmiller accompanied the remains here.

She leaves to mourn her loss, two sons, Benny Woodward and Ralph Myrick. Mrs. Betcher having been twice a widow.

Mrs. Betcher came to this country some five years ago and at one time lived in Terrace, just beyond the park. She sold the place and moved to Usk where she kept house for her two sons.

PAT DALY IS AGAIN IN THE LIMELIGHT

An article on Pat Daly in the current number of Resources, just issued says: Now and then, a miner, especially if he has the knack of being picturesque and comes up to the New York City specifications of what a miner from the west should be—makes quite a splash in Gotham. "Scotty" from the deserts of Nevada and Arizona, captured the big town some seven or eight years ago. And now, our own Pat Daly seems to have struck the fancy of Manhattan. Pat was one of the earliest of Prince Rupert's citizens. From Idaho and the Kootenay, he drifted north, taking on station work in railway construction under Foley, Welsh & Stewart.

One can see him yet, sauntering along Rupert Road, in the old Knoxville days, exchanging salutations with "the boys," or talking it over in a primitive fire hall that stood a few yards from the leading third emporium. Pat, when discussing western problems, showed that he knew what he was talking about. A genuine miner, he possessed the faith and optimism which distinguish all trail-blazers, and men of courage and conviction. May he make the greatest stake yet, in prospecting the hills and creeks of "little old New York."

PAINTINGS ARE STOLEN AND LATER RECOVERED

NAPLES, July 8.—Six masterpiece of Italian painting were recently stolen from the church of Jesus and Mary. They included works of Bernardino Sicilian, Paul Di Mato and Sannino. The thieves entered the church at night and opened four heavy barred and bolted doors before reaching the canvases. Police were put on the trail of the pictures which were found, but the thieves left no trace.

BIG NEW HOTEL FOR THE CITY OF MEXICO

MEXICO CITY, July 8.—The department of national property has asked for bids on a new hotel here to cost no less than \$4,000,000 (pesos); "modern in construction and decoration and to be compared with the best in the world." The work is to be finished within two years. The site selected is on a prominent down-town corner and one of the stipulations of the contract is that the second floor of the building is to be used for exhibits of national products.

MANY CHANGES AT SALT LAKES

Place Transformed by Work Done By Swimming Club, Government and Capt. Swanson.

Quite a transformation has taken place in the vicinity of the Salt Lakes, the popular swimming place, in the past few weeks. The Swimming Club, the provincial government and Captain A. Swanson have been largely responsible for the changes and improvements and the facilities are now in better shape than they have been any season since the place has been used for bathing purposes.
A new and permanent float has been put in by Captain Swanson about 200 yards to the right of the location of the old float. A pileriver was taken over and two dolphins were driven and the float put in between them. A runway has been constructed to the shore. There is little likelihood of this landing meeting with the same fate as others have in drifting out or being dashed against the shore for it is safely secured.
Walk Finished.
The Swimming Club has completed the new landing with the old sidewalk with a new board walk about 200 yards in length. The entire walk leading around the lagoon from the landing has been completed by the provincial government to the lake. Seats have also been put in near the swimming ground where spectators may now comfortably seat themselves to watch the swimmers. A tea room and refreshment stand has also been established at the lake by R. C. Morrison and has been named "The Ark."

Dressing Rooms.
Both the ladies' and men's dressing rooms have been put in better shape. The former has been painted and a new roof put on while general repairs have been completed about the latter. All told the free work done by the members of the Swimming Club and others since the season commenced has amounted to about \$700 in value, in addition to the money spent by the government and in wages.

Sport Chat

Sportsmanship does not consist in the venomous rebuking of a fellow player who makes an error that may lose a point or even a game for his side. This might be well remembered by some of the players who take part in various games in Prince Rupert. It is all very well to point out a mistake when it is made but it avails little for one to lose his temper over it and become personal or profane in his correction. It does no good to the person at whom the criticism is levelled and it certainly does not look well on the part of the person who so forgets himself. Even the best of players make mistakes at times and it is safe to say that even the most critical of Prince Rupert's players makes his. The real sport when he notices a player make a mistake naturally regrets it but there is no reason in the world for some of the abusive remarks that are often heard in local games.

There have been fist fights and perhaps friendly sparring bouts ever since man discovered that he had fists, but the Greeks are credited with having been the originators of boxing as a sport. Before 600 B. C. they had made an art of boxing and when they were conquered by the Romans their new masters learned the art and developed it into a bloody gladiatorial combat in which often one or both of the antagonists were killed. Since everything depended on a man avoiding a blow, the science of ancient boxing was devoted solely to defence. With the fall of Rome, boxing disappeared for a thousand years until it was revived in England. Tom Figg, who flourished two hundred years ago, is considered to have been the first professional pugilist.

The Prince Rupert Swimming Club is asking that all those who use the Salt Lakes and the facilities there for bathing purposes help the club along by paying their dollar for the annual membership fee. They are certainly asking little for the long summer's enjoyment and their request ought to meet with the approval and action of all local swimmers. It certainly would seem that everyone should do this little bit towards supporting the worthy efforts of the society and it ought to be a lot more satisfying for the swimmers who use the lake to know that they have fulfilled this small requirement and have as much right there as any one else.

JUMPED OFF PLANE AND ASKED FOR BED IN BEDFORD, ENGLAND

BEDFORD, England, July 8.—A night watchman at the royal airship hanger at Cardington near here got the surprise of his life when he saw a parachutist dropping from the sky early in the morning a few days ago.
"Can I get a bed here?" asked a calm voice.
The parachutist was Air Commander E. N. Maitland, on his way home to Howden air station from Epsom aboard the dirigible R-33 which had acted as official traffic controller and air wireless station at the Derby races.
Commander Maitland explained that he had suddenly remembered that he had to attend an important meeting at the Cardington station in the early morning.
"The only way to get there in time was to jump right off," he said.
