### LIVING COSTS ARE DISCUSSED

Rotary Club Deals with Facts and Figures Concerning Prince Rupert.

At the Rotary Club today the subject for discussion was the cost of living in Prince Rupert. Two members opened up the discussion with some figures which seemed to show that there was a margin of cost against this city. The figures were contested by other members and it was stated that all small cities were somewhat handicapped in the matter of costs but on the other hand there were no car fares to pay, amusements were generally cheaper and many other things made it less difficult to live in the smaller place.

All the members took part in the discussion and many varied views were the points brought out pro and con.

### DATES SET TRIAL RUN NEW VESSEL

H. J. F. Turner, superintendent of the Wallace Shipyards, speaking to a Daily News representative this morning, announced that it is now proposed to have the dock trials of the Canadian Scottish on August 20 and the trial runs at the entrance of the harbor on August 22. The dock trials, which are held by the builders, consists in turning the engines of the vessel over at the dock for about four hours to ascertain that they are in good running order for the trial run. It is expected to have steam on the boilers for the first time next Wednesday.

Two of the officers of the Canadian Scottish have already reached the city. They are Chief Officer C. C. Halliday and Chief Engineer James McIntosh. Both were formerly on the ill-fated Canadian Exporter which was wrecked off the coast of Oregon only a fortnight ago. They held similar posts on that vessel, having left her shortly before the disaster.

### Seven Hundred Lose Homes As Result of Lissastrous Fire Devastating Aylmer

OTTAWA, August 10 (p.m.)—A disastrous fire is raging at Aylmer, Quebec. It broke out in the Holts Hotel, spreading rapidly to adjoining buildings. The loss will probably total a million dollars. The origin of the blaze is unknown.

OTTAWA, August 11.—Aylmer, Quebec, is totally destroyed by fire. Seven hundred people are homeless and one old man is known to be dead. The damage is estimated at \$730,000.

Farms as far away as two or three miles were caught in bush fires and the countryside was razed for five miles. Army tents and bedding were rushed to the scene and food sent from Ottawa and Hull was rationed under police supervision.

The fire spread so rapidly that the town was gutted in ninety minutes. Not a complete building was left.

The little town is made up chiefly of residences, many civil servants from Ottawa living there.

### POLICE CHIEF AND BACKERS TO BE TRIED

John Fry, Dr. Ernest Hall and Joe North Charged with Failure to Suppress Lottery.

VICTORIA, Aug. 11.—Arising out of the charge against Charlie Bo, a prominent Chinese merchant of trying to bribe the chief of police to allow the opening of lotteries in Victoria's Chinatown, for which he is alleged to have paid a sum of money to Commissioner North, a counter charge has been laid. The informant is Albert Tisdale, who charges that the police commissioners, Dr. Ernest Hall and Joseph North and Chief of Police John Fry failed to suppress a lottery game when they knew it to be operating contrary to law. The summons is returnable on Friday and has created a mild sensation here.

At the time of the preliminary trial of Charlie Bo on the bribery charge it was admitted that the houses had been allowed to operate for a short time until evidence was complete and in order to allow other lotteries to start before a raid was made. Comment was made on this at the time by the solicitor defending the Chinese; the statement being made that it was the duty of the police to suppress crime immediately and if possible to prevent it.

### Unanimous on Water Proposal.

It is satisfactory to know that the Mayor and City Council, after securing the fullest possible information, technical and otherwise, are unanimously in favor of granting the Prince Rupert Pulp and Paper Company the surplus water which the city is unable to use for its own purposes. As a matter of form the people will have to vote on the bylaw, but it is not at all likely they will reverse the action of their Mayor and Council, especially on such a clear-cut proposal as that which is to come before them.

Most people in this city feel that we should do everything possible to encourage any big concern to come here and establish industries, especially such a suitable basic industry as that of pulp-making. The hope of everybody will be that before very long the pulp may be converted into paper right here and that in undertaking the addition to the mill the water-power at one of the big sources of supply may be developed and power be made available both for the paper mill and for other industries that may possible locate here.

### Securing Orders for Work at Local Shops.

No doubt it may seem difficult to secure orders to keep the shops running at the local shipyard. No doubt, too, the present management will secure orders if they can do so with a margin of profit. The Canadian Car and Foundry Company Limited has recently secured an order from the Soviet Government of Russia to construct 500, fifty-ton tank cars at a cost of approximately \$2,000,000. The order was secured in Berlin and in competition with German manufacturers. That gives us hope. If a Canadian firm can go to Germany and lift an order for a two million dollar contract from the midst of the manufacturers of that country, there seems a hope that orders for ether cars or ships may be secured here. At any rate, Prince Rupert people may be sure that if the Wallace Company can get the right kind of lease from the railway company and are given a chance to compete they will make a strenuous effort to bring the business here.

### Lloyd George and Irish Situation.

We all have our individual opinions about a great man, and we look at Premier Lloyd George from differing angles and with varying emotions. The average citizen thinks of him as the greatest Briton of them all. Some of the members of labor union think he is a traitor, and even the moderate Liberals of Great Britain hardly know what to think of him. Here is what the Manchester Guardian leader writes:

"Obviously, if you are to get the best out of Mr. Lloyd George you must take him as you find him. You must not bother about his consistency or inconsistency any more than he does himself, and you must rejoice if you can be with him instead of against him. In his speech at the McCurdy banquet he bitterly complained of the non-co-operation with him of the Independent Liberals. At the moment he is on the road for peace—wholeheartedly, it would seem, on that good road. He is for industrial peace, for peace with Ireland, and for that great world-peace which lies through disarmament and the all-important understandings which must precede disarmament. What can be better? And why should we trouble our heads to remember that but yesterday he was for uniting all the other political parties to fight the Labor party, which he denounced as a party of revolution? Who concerns himself in summer about the winter's snows? Or why, when Mr. Lloyd George is laboring, as we do not doubt, with all the energy of his resourceful brain to come to terms with an Ireland which his own violent and unprincipled policy has exasperated to a point when hatred and loathing of this country and the desire to be utterly free of it have become a passion among the vast majority of her people, should we seek to recall these ghastly and discreditable errors instead of passing, as he finds it so easy to pass, the sponge of oblivion over them?"

"Why, again, when he has instantly recognized and grasped the possibility of a better order for the world which may be built on the initiative of the President of the United States for a new accord among the great powers bordering on the danger zone of the Pacific, should we pause for an instant to remember his tragic failure to support the great initiative of another American President, who sought with all his strength, but vainly, to give happiness to Europe by a wise and righteous peace? Let the past, then, bury its dead past if so we can by any means attain to something better. Let Mr. Lloyd George even continue to reproach his old friends, as he did at the McCurdy banquet, as though his aspirations of today had been the facts of yesterday, as though he had always been the pacifier and they the people who had opposed and thwarted him. Let him appeal to us to "help the Prince of Peace" as though his recent record had not in glaring instances outrageously violated that divine example. We shall not mind. We need not even dream of retaliation. We shall only be too glad to strengthen, support, applaud him so long as he will continue in this course. He is in the seat of power. Our sole concern is that he should use that power rightly and that his effort should succeed."

## OVER CANADIAN NATIONAL LINE

Victoria Lawyer Who Recently Visited Here Writes of Trip to Edmonton.

A Victoria lawyer who was visiting here recently writes from Edmonton of the trip. To my mind there are three supremely fine things on the trip. The mountains at Meamskinisht on the Skeena called Weenskinisht Mountains, the Bulkley Canyon and its wonderful gate of rock, and the Mt. Robson and Jasper Park combination of mountains.

The Weenskinisht mountains one sees for a hundred miles different faces of it. It is beyond my powers of description, particularly when writing in a hotel lobby.

Meamskinisht so I am told means among the Jack pines, and Weenskinisht, above the Jack pines.

### Bulkley Gate.

The Bulkley gate is made of two large pieces of rock wedge shaped. The gate is about 15 or 20 feet thick and is very regular in its formation, our interest in it was enhanced by the sight there of two large black bear, to which we added the sight of a porcupine and a fine buck at Jasper, as well as some beaver.

Jasper is a beautiful valley in the midst of a circle of most delightful mountains which are an ever changing blaze of color, overlooked always by the stately mount, snow covered, named after Edith Cavell.

### Parliament Buildings.

At Edmonton we were highly pleased with the Parliament buildings, which though not so attractive outside as our majestic pile of stone at Victoria, are certainly extremely beautiful and well arranged inside.

The Sergeant at Arms meeting us by chance gave us a most enjoyable visit there. The chamber is a marvel of taste, white with bluish purple hangings against a light fawn tapestried wall, the ceiling gilded, and a mass of electric light. It is a little larger than the chamber at Victoria as is the legislature itself having 58 members.

### Political Mix-up.

The political situation here is most interesting and has made it pleasant for me as nearly all the boys I knew at college are involved in it one way or other, one of whom, now prominent, worked under me at college on the college magazine.

### CHOLERA INFANTUM The Fatal Disease of Children

Mothers should look well after their young ones during the hot summer months as this is the time of year when this summer complaint is most prevalent. It begins with a profuse diarrhoea, the stomach becoming irritated, vomiting and purging set in, and the matter ejected from the stomach has a bilious appearance; the child rapidly loses flesh and is soon reduced to great languor and prostration which in a great many cases terminates fatally.

To quickly offset the vomiting, purging and diarrhoea

**DR. FOWLER'S  
EXTRACT OF

should be administered.

Mrs. Charles Kretlow, Wideview, Sask., writes:—I have used Dr. Fowler's Extract of Wild Strawberry for summer complaint. I think it saved my little girl's life one time as she was so bad I thought she was going to die. A friend advised me to get "Dr. Fowler's," so I got a bottle and it helped her right away.

Don't endanger your child's health by accepting a substitute, but get the genuine "Dr. Fowler's," price 50c. a bottle; put up only by the T. Milburn Co., Limited, Toronto, Ont.

### NORMAN McLEAN GOT BATH AT ESSINGTON

Popular Purser Plunged into the Skeena River and Found It Cold.

Norman McLean, the popular purser of the G.T.P. steamer Prince Albert, had a sudden and icy bath at Port Essington on Tuesday while the steamer was there loading salmon. Just before the vessel pulled out, Norman was attempting to board her up the steep incline of the gangplank caused by the high tide when he slipped backward and plunged into the Skeena River between dock and boat. He swam to the piling of the nearby wharf and was rescued by means of a life line from the steamer. He was not injured and his main difficulty in tow yesterday was getting his wet clothes dried and neatly creased again.

### ELKS HAVE BIG CELEBRATION

Grand Lodge Officer and Other Visitors Entertained Last Evening.

**INTERESTING ADDRESS ON MEANING OF ELKDOM**

There was a great celebration last evening in the forest where the Elks dispersed themselves. The good time commenced at the regular meeting of the local lodge at which Alexander Peden of Victoria, district deputy grand exalted ruler, D. D. Spence, past exalted ruler of Victoria lodge and E. L. Stock of Victoria Lodge were the guests of honor. They came on an official visit and are passing through to the big Elks' Convention at Calgary. Accompanying them are Mrs. Peden, grand secretary of the Ladies of the Royal Purple, and Mrs. Spence.

Addresses were given by two of the visitors during the sitting of the lodge and later adjournment was made to the private dining room of the St. Regis cafe where a light supper was enjoyed and a very enjoyable program of music and speeches was supplied, with Exalted Ruler W. J. Cash, presiding.

Addresses were given by each of the visitors and the Elks' orchestra consisting of Charles and William Balagano, and Messrs Reid, and Greenfield played a number of selections and songs were sung by Ed. Craggs, and J. Fletcher. There was a jolly throng of merry-makers and the fun was kept up until rather a late hour.

**Duty to City.**

In addressing the members Mr. Peden complimented them on the growth and progress of the city and emphasized the duty of every Elk to be loyal to his city and to try to improve it in every way, materially and morally. The duty of each member was first to his family, then to his city and his country.

"Elkdom was founded many years ago with certain principles and ideals for its foundation," said the speaker. "The highest morality and virtue was inculcated and they taught both by precept and example. When a candidate is received he is called upon to take a solemn obligation, but this conflicts in no way with the duty to his country, his family or himself, but affords him a greater opportunity for service in the interests of all."

**Three Emblems.**

"Three of the most important emblems of our fraternity are the Flag, Holy Bible, and Stately Elk and a member's obligation demands from that time on, his loyalty to king and country and to uphold and preserve law and order and to abide by all constitutional law in the interest of society and to defend this institution against wrongful intent by any one and to assist whenever possible any object in the best interests of the lodge with the view of maintaining freedom justice and equality.

"He takes this obligation of the volume of the sacred law or word of truth, truth being one of the cardinal principals of this order and it is expected that this obligation shall guide him through life in the paths of honesty and justice and his personal actions and deeds shall at all times and circumstances be such, as to put beyond any question of doubt his personal integrity.

**Three Initials.**

"The emblem of the stately

Elk from which our name is taken has given us the initials of three golden links. E stands for Equality; L for Love and K for Kindness and I would like to ask if there are any words in the English language that convey any better sentiment, and if practiced could bring more happiness into the lives of the people.

"In our 11 o'clock ceremony it says: 'The Elk unlike the more ferocious animals of the forest, while ready to fight in defence of its weaker members is naturally docile and lives in peace with all mankind' and here is a wonderful example for us to follow.

**Duty to Fight.**

"It is our duty to fight in defence of our weaker members by rendering assistance in time of need, comfort in time of sorrow, help the sick, respect old age and love the child, protect him or her good name whenever necessary and eliminate all selfishness from the heart and mind and replace it with the desire for service, extend the grip of fellowship with a smile, besetting at all times to assist in any just cause in the interests of humanity and avoid unkind words and deeds, for in many instances they are expressions of misunderstanding and not to receive them in a spirit of revenge that may lead to serious regrets in the future. This gives an opportunity to teach by precept and example those nobler sentiments in life.

**Forget Faults.**

"The fault of our brothers we write upon the sands of the seas where they can be quickly effaced and forgotten while their virtues we appreciate, and if you will exercise that honesty of purpose and fair play the time must come when even those that misunderstand you will learn to admire and respect you, then it can be truly said that your desire is to make life sweeter, men better and the world happier."

"Every member of this order is privileged to wear an Elk pin which is his right, after being accepted into this order, this emblem not only carries the responsibility of himself and his local lodge but he is representing thousands of Elks in this great Dominion and any lawful or dishonest act on his part is a reflection on every member of this order and his obligation demands good behavior and honesty at all times. In most Elk lodges homes are established for the benefit of its members, where rules and regulations are laid down as a matter of business and where all matters between members should always be beyond reproach. In my opinion this obligation extends to the private home of every member as well, where he should be an example of good citizenship, where harmony and good will, should prevail.

**A Real Home.**

"A home is where harmony and good will fill the atmosphere where your children love and respect you, enjoy the pleasure of your company, filled with joy at your coming, and regret your absence, where they love to play as children should and choose you as their best friend and companion, where equality love and kindness should be your greatest desire and practice it by your own conduct to your wife and family. The duty of an Elk is to make men better, life sweeter and the world happier."

F. W. Dowling, Inspector for the Mainland Fire Underwriters' Association, Vancouver, returns tonight from Anyox and will spend some days in the city on official duties looking into the local water pressure, fire protection and buildings generally.

**SONS OF CANADA WON GOOD GAME**

Were Evenly Matched With Elks Last Night in One of Season's Best Matches.

The baseball game between the Elks and the Sons of Canada last night, which resulted in victory for the latter team by a score of 5 to 4, was one of the best of the entire City League series. There was a large crowd of fans in attendance and gate receipts were the highest yet.

There was little to pick between the two teams and all the way through until the seventh and last innings it was "anybody's old ball game." Although the Elks were on the short end of the scoring, they lead the edge in batting and secured five hits to the Sons' three.

The scoring started in the second inning when the Sons of Canada made two runs. In this frame Jimmie Shakespeare made a home run with no runners on the bases, but he might not have made the round trip of the bases had it not been for Howard

**THOSE SILVER TONES.**

The main diversion of several of the fans last night was kicking at Empire Stubbs.

Frizzell, centre fielder, fumbling the ball badly while the runner made his speedy way around the diamond. The Sons of Canada made another in the third and the Elks started their score in the fourth with one run. One for the Sons and two for the Elks in the fifth, one for the Sons of Canada in the sixth and one in the seventh for the Elks completed the scoring.

Stubbs was umpire of bases and balls and Laporte was on the base lines. Several close decisions by the former caused a good deal of heated comment from the players and fans.

The box score was as follows:

**YORK RANGERS GOOD SHOOTING AT RANGES CITY OF TORONTO**

Sergt. H. Carey won the gold medal for high score.

**DEMPESEY SAYS HE WILL NOT FIGHT WITH COLORED MEN**

CHICAGO, Aug. 11.—Jack Dempsey has emphatically declared that there is no chance of his meeting Jack Johnson in the ring. In fact, he does not expect to meet any colored boxers. He knows nothing yet of a match with Jess Willard, the Kansas giant and exchampion.

**WRESTLING MATCH Ad. Santel Wrestles to Draw at Bakersfield, Cal.—No Falls.**

BAKERSFIELD, Cal., Aug. 11.—Ad. Santel, the San Francisco claimant to the light heavyweight wrestling championship of the Pacific Coast, wrestled to a draw last night. Neither he nor his opponent got a fall in two hours.

**Sport Chat**

It is quite a coincidence that Harry Rochester, mayor-elect and George Meekerson, his unsuccessful opponent, of the municipal election held last January, should be the donors of the two latest trophies in local sporting circles, both of which would be more fitting than that these two governmental enemies should now become sporting friends and arrangements made to have each get on the same platform to present their gifts personally to the respective winners at the end of the season?

The idea of inviting the star Vancouver Japanese baseball team, the Asahis, to come here for a series of baseball games before they leave on their tour of Japan is being mooted in local baseball circles. Such a game should be a great drawing card and staged about the close of the salmon fishing season, would attract a large number of patriots of the visitors besides all the local baseball fans, who would also be in attendance. The Centrals, the Vancouver Commercial League, are also mentioned as possible visitors. The Commercial League has not yet replied to either of the telegrams sent by the local association regarding a visit of the locals to Vancouver.

If arrangements are to be made to have the Asahis come here they will have to be looked after in a hurry, for the Japs plan to leave Vancouver on August 20. It is doubtful if it can be done at this late date, but there is every possibility that some other Vancouver team may be brought here at or before Fair time. The Baseball Association will likely take the matter up with the Fair Board at an early date. Such baseball games would almost certainly pay for themselves from gate receipts and would be a great attraction for visitors to the city.

Accompanying the Asahis on their trip to Japan will be two native British Columbia baseball players—Ernie Papke and "Tat" Larsen, pitcher for the same team. The latter will be remembered here for he pitched for Wallace on their visit to Prince Rupert two years ago. Dr. T. W. Fletcher, a baseball enthusiast from Powell River, will also make the trip and Dr. Nomura, a Vancouver Japanese dentist, will go as manager.

## YOUNG VANDERBILT WAS CADDIE TO LORD NORTHCLIFFE AT GOLF

Cornelius Vanderbilt, the young millionaire reporter, who is holidaying on Vancouver Island and incidentally writing articles for the New York Times, on which he is employed, acted as caddie for Lord Northcliffe in the golf game in which the visitor was defeated by Chief Justice Macdonald.

Within a few days there should appear in the New York paper a story of the game and the impressions of the visitor as well as some excellent free advertising for the Oak Bay links at Victoria.

### SUNDAY SPORTS.

Editor, Daily News—

May we convey the following message to the public through your valued medium?

Last May His Excellency the Lieut.-Governor of British Columbia issued a Proclamation through the newspapers, urging people to attend Sunday School on a certain Sunday. The hope was that they would continue to do so through the entire year. Many then asked why His Excellency made such a proclamation. The reason briefly is, that following a period of years of Sabbath breaking and lax attendance at church and Sunday School, the United States has experienced an alarming epidemic of crime and particularly juvenile crime.

Quoting Roger W. Babson, who is America's foremost financial expert and whose book you favorably quoted in a recent editorial, it was found that out of 3000 convictions in juvenile court cases, only three of those convicted were regular attendants at Sunday School. Facts like this forced the authorities to emphasize the worth of Sunday Schools and to urge more general attendance.

**Church Responsible.**

Since that time, however, there has continued to be in Prince Rupert an effort to draw people away from Sunday schools and churches by a series of organized sports programs on Sunday. The churches are held responsible for public morals and multitudes stand ready to criticize the church if public morals reach a low level.

The ministers did not rush into print criticizing the swimming gala committee but wrote a courteous letter, to that committee, asking that the sports be held on any day but Sunday, and suggested a friendly interview, stating that they were ready to give assistance to the enterprise if their request met with approval. If the committee of a dozen has not had hearty support from those who have attended past galas, here was a chance to have added at least six more including Mrs. Robertson and Mr. Linzey.

**Not Unreasonable.**

Organized sports are not featured in Vancouver, Victoria, New Westminster and many other places in British Columbia, hence we are not unreasonable in our suggestion. We do not deny that a large percentage of the public are ready to run to anything called sport, even on Sunday but we do protest that either from a religious or patriotic standpoint it is not the best way to spend Sunday and so far as the church going public is concerned we can only urge them to stay away from such things as Sunday swimming galas. We thank you for the space we have taken in your valued paper.
