POLICE COURT ROBBERY CASE

Fred Aurio and Ernest H. Pearce Charged With Taking Clothes.

Fred Aurio and Ernest H. Pearce appeared in the police court this morning charged with theft and were remanded until next Monday after the evidence had been all taken. The witnesses were Alfred and Peter Brown, whom it is alleged, were robbed, Lee Wong, waiter in the Dominion Cafe where the Browns reside, and Sergeant Adams, who made the arrest.

In giving evidence Sergeant Adams told that at 5:30 yesterday afternoon, Alfred Adams had come into the police station complaining of having lost a grip and clothes. He told that an Indian named Aurio had taken them and was about to leave on the Princess Mary.

Went to Boat.

Together with Alfred Brown the officer went to the wharf where the Princess Mary was lying and there they met Aurio. Asked if he knew anything about the grip, Aurio denied any knowledge of it. On being asked where he was sleeping, the officer was taken to the second class cabin. No grip could be located except one which Pearce had. Both Pearce and Aurio were then taken to the station.

Returning to the vessel the officer asked the captain to hold the boat till a further search could be made for the suitcase. It was found underneath one of the berths and as soon as Brown saw it he identified it as his own.

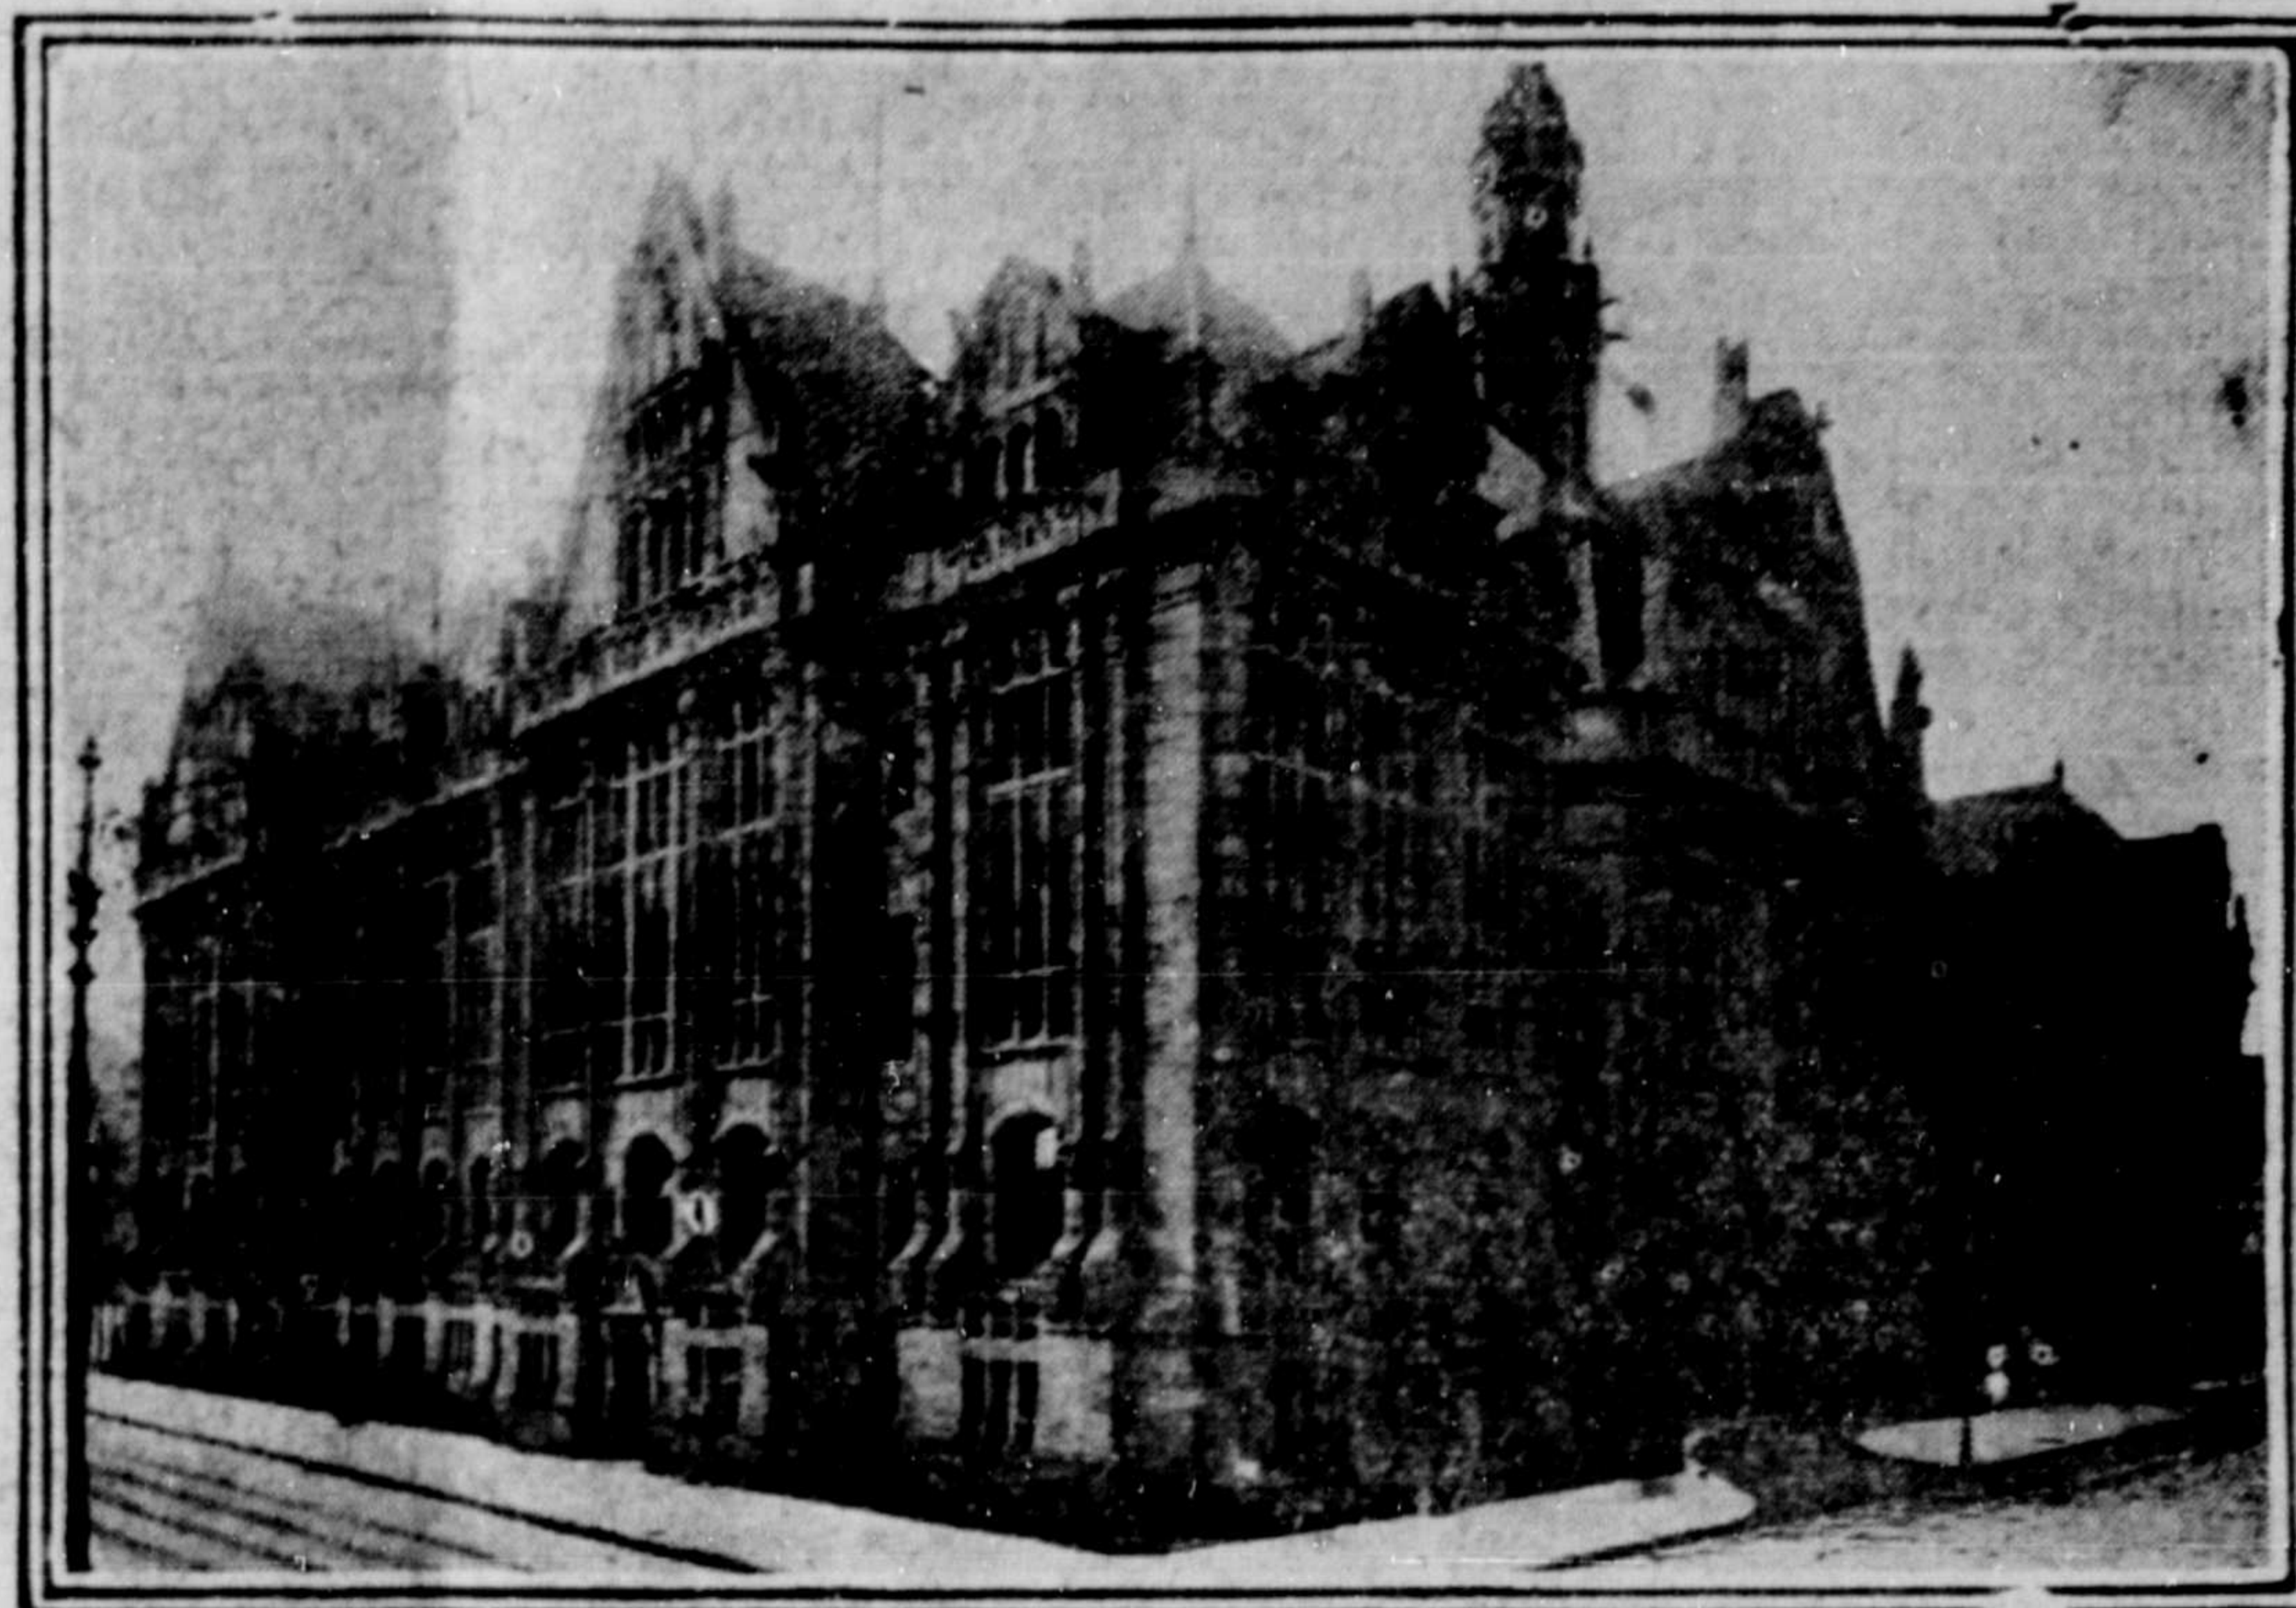

Identified Goods

Coming back to the station with Alfred and Peter Brown the grip was opened in the presence of Constable Leck. Alfred Brown identified as his property two flashlights, a pair of boots, one blue suit, one suitcase and shirts, collars and ties. Peter Brown identified a red overcoat, one flash light, an overcoat and a suit. The exhibits were produced and marked in court.

Asked by W. E. Williams, counsel for the defence, if he could tell under whose bunk the suitcase was found, Sergeant Adams replied that he was unable to.

Baggage, Cartage and Parcels delivered. Phone Blue 91 or Red 228. Harry Astoria.

THE STATE HOUSE IN DUESSELDORF, ENTERED BY FRENCH.

For the failure to meet the Allied reparations demands, French troops have taken possession of the city of Dusseldorf. Essen, the home of the famous iron works, where all the large guns and most of the munitions were manufactured by the Germans in the great world war, may also be entered by the Allies. The city is situated a short distance away from Dusseldorf. The picture shows the State House in Dusseldorf.

SIX CARLOADS OF FISH GO EAST

Nine More Cars Reported for Arrival Tonight—30,000 Pounds Waiting.

The six carloads of halibut bought up at yesterday's fish exchange for eastern shipment were dispatched by special train this morning for Chicago where they will be distributed to the different cities of the middle states and the Atlantic. Thirty thousand pounds of fish yesterday was not touched but is holding over against the arrival of nine cars tonight. The President, with 16,600 pounds, cleared for Ketchikan.

Following were yesterday's sales:

Kodiak, 28,000 pounds, to the Royal Fish Co. at 14.4c and 6c. Fortuna, 20,000 pounds, and Reliance, 5,000 pounds, to the Pacific Fisheries at 14.3c and 6.5c. Augusta, 22,000 pounds, and Westener, 4,000 pounds, to the Pacific Sea Products Association at 13.8c and 6.1c.

Water Craft which Also Flies Latest Thing in Aviation

LONDON, March 29.—Experiments are being carried out here with an absolutely new type of air and water craft. The first of these has been built by the Fairey Aviation Company and is an absolute departure from anything ever before used. Two more are in course of construction.

The chief point about these craft is that they will be capable of maintaining themselves at sea without the need of a parent ship. They will be, in fact, small ships that can also fly, which is a very different thing from an aeroplane that can at need ride on the water. When not in the air the craft will be able to taxi along the water, driven by their propellers, for long distances. They will operate from a sea base like the submarines, and, with a range of about 1,500 miles, are designed to be able to live an independent existence at sea for fairly long periods. The weight is about 15 tons and the span of the wings 149 feet. The cruising speed is 110 miles an hour. They are provided with a hull of great strength and resistance, and it is claimed that they will be able to ride out rough seas like any other ship. There are four Rolls-Royce engines giving a total horsepower of 2,400. A crew of about seven will be carried. The flying boats will go out with the fleet and remain out on manoeuvres, and when not operating in the air will keep with the big ships like the destroyers.

If all that is claimed for them proves to be sound it is expected that these boats will become the standard type for patrol work with the fleet. They are, of course, very much cheaper than airships, which are now apparently obsolete for this purpose, and they will also make obsolete the carrying of seaplanes on specially constructed mother ships.

This is the third match in the series to decide the professional championship of the world. Vancouver won the first and Ottawa the second. Three wins out of five is decisive.

OTTAWA WINS HOCKEY GAME

Beats Vancouver in the Third Match of Series for the Championship.

VANCOUVER, March 28.—The Ottawa Senators were victorious over the Vancouver Millionaires in the third game of the Stanley Cup hockey series played here last night. The match was another evenly contested one, the score being three to two.

This is the third match in the series to decide the professional championship of the world. Vancouver won the first and Ottawa the second. Three wins out of five is decisive.

VANCOUVER, March 29.—Word received here tells of serious injuries to J. Eckert, engineer on the gasoline fishing boat Inskip of Smith Inlet, Queen Charlotte Sound, Eske. It was taken to hospital at Alert Bay. The Inskip is being towed to port.

The boat is the property of Canadian Fish Co. Ltd., of Vancouver, and is 52 feet long and 14-ft. beam.

RELIEF WORK STOPS SOON

Government Withdraws Its Grants at End of Month—Need Diminishing

The government will withdraw its allowance for relief work in the municipality on March 31 and the work will then automatically cease. Fortunately the need is becoming less at the present time and the number of those applying at the city engineer's office for the past few weeks has been steadily decreasing.

So far this week but 55 have made application and these have been granted the relief work. For the week ending March 5 there were 162 applications, March 12, 131 applications, March 19, 112 applications, March 26, 71 applications and the record this Saturday, it is likely, will be smaller still. With the starting of various industries and building at the first of April there will be little need for the work at all, it is anticipated.

DAILY EDITION. Tuesday, March 29, 1921.

Russia in Ruin

Says H. G. Wells.

"Ruin; that is the primary Russian fact at the present time," says H. G. Wells in his book "Russia in the Shadows." Mr. Wells spent only about two weeks in Russia and he does not deal exhaustively with conditions. He saw enough, however, to return home and write a small book about it. He says: "The harsh and terrible realities of the situation in Russia cannot be camouflaged."

Telling further of conditions as he found them Wells says: "A buoyant, healthy person is very rare in this atmosphere of discomforts and petty deficiencies." If anyone falls into a real illness, the outlook is grim. My son paid a visit to the big Obukhovskaya hospital and he tells me things were very miserable there indeed. There was an appalling lack of every sort of material and half the beds were not in use through sheer impossibility of dealing with more patients if they came in. Strengthening and stimulating food is out of the question unless the patient's family can by some miracle procure it outside and send it in. Operations are performed only one day in the week. Dr. Federoff told me, when the necessary preparations can be made. On other days they are impossible and the patient must wait.

"Hardly anyone in Petersburg has much more than a change of raiment, and in a great city in which there remains no means of communicating but a few overcrowded trams, old, leaky, and ill-fitting boots are the only footwear. At times one sees astonishing makeshifts by way of costume. The master of a school to which we paid a surprise visit struck me as unusually dapper. He was wearing a dinner suit with a blue serge waistcoat. Several of the scientific and literary men I met had no collars and wore neck wraps. Gorky possesses only one suit of clothes."

Communists Few

But Full Control.

Wells tries to be fair in viewing conditions. He says "The communist party has taken control. It has, at the price of much shooting, suppressed brigandage and established a sort of order and security in the exhausted towns and set up a crude rationing system. It is, I would say at once, the only possible Government in Russia. It is the only ideal, supplies the only solidarity, left in Russia. But it is a secondary fact. The dominant fact for the western reader, the threatening and disconcerting fact, is that a social and economic system very like our own and intimately connected with our own has crashed."

Mr. Wells says the reason why the communists were able to take control was simply because they were the only group left with a common idea, a common faith and common will. All others were apathetic or given over to fear and violence. The other leaders he describes as adventurers without fixed purpose. At the present time not one per cent of the population are communists, yet it was and is the only sort of administrative solidarity in Russia. He sees them firmly established in the government of the country.

Not Socialists

In Russia.

As a result of his short investigations, the author of the book says the leaders in Russia now have a dull suspicion of the fact that what they have in Russia is not the promised Marxist social revolution. That in truth they have not captured a state but got aboard a derelict. However the re-civilizing of Russia, he thinks, must be done with the Soviet Government as the starting phase. The great mass of the people are an entirely illiterate peasantry, grossly materialistic and politically indifferent. They are superstitious, they are forever crossing themselves and kissing images." Mr. Wells believes the only thing to do is to give them a chance to work out their ideas and to bring a more stable government in the country. To interfere is to draw another trail of bloodshed across the country.

RHEUMATISM FOR OVER 16 YEARS

No Return Of The Trouble Since Taking "Fruit-a-lives"

108 Church St., MONTREAL.

"I was a great sufferer from Rheumatism for over 16 years. I consulted specialists; took medicine; used lotions; but nothing did me good."

Then I began to use "Fruit-a-lives", and in 15 days the pain was easier and the Rheumatism much better. Gradually, "Fruit-a-lives" overcame my Rheumatism; and now, for five years, I have had no return of the trouble. I cordially recommend this fruit medicine to all sufferers."

Tuesday, March 29.

High, 4:56 a.m., 19.4 feet.
17:59 p.m., 16.7 feet.
Low, 11:31 a.m., 6.1 feet.
23:32 p.m., 9.4 feet.

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

The height is in feet and tenths of feet above the average level of lower low water.

MODERN HERCULES ON MONTREAL FORCE

MONTREAL, March 29. — A modern Hercules has applied for admission to Montreal constabulary force, and lawbreakers crossing his path are likely to have a strenuous time. Joachim Dion, of Cape Maria, Baie de Chaleur, whose exploits have been widely noted in the press, gave before an admiring group which included Chief of Police Pierre Belanger, assistant chief Leggett, Captain Arthur Maranda, police instructor, and several other officers, a demonstration of his prowess.

He broke with ease a pair of solid handcuffs with which they manacled his wrists and tore in pieces with his fingers and teeth 2 cent pieces as easily as ordinary mortals tear paper. One of his favorite pastimes is to climb a telegraph post with a 900 pound "horse" bound on his shoulders, and other little pleasantries are to bear packs of playing cards and raise two men seated on an iron bar.

Dion is 28 years old and is six feet one inch in height. He is fond of exhibiting an American dollar piece which he has torn in several directions and which he wears on his watch chain. He has given many public demonstrations of his prowess.

COOKE IN CHARGE

British Columbian to Manage Traffic End of Transportation to Oil Fields

EDMONTON, Mar. 29.—W. F. Cooke, old timer of the Cariboo country and one of the first men to locate in Prince George before the advent of the steel, has arrived in Edmonton to manage the northern traffic end of the Alberta & Arctic Transportation Company's systems.

Mr. Cooke will have charge of the getting out of cordwood for the company's fleet, the moving of freight from the end of the steel and on the portage, as well as the mess supplies for the various camps and posts of the company. He has had a great deal of experience in this line of work and has handled transportation problems on the had waters of the Fraser, in the early days, prior to the advent of the northern railways in the coast province. He was formerly in charge of the supplies and transportation for the surveyors engaged in cutting the G.T.P. through the mountain section and was also president of the Northern Lumber and Mercantile Company, who owned the pioneer sawmill in the Fort George district, and conducted transport operations before the steel came through the Yellowhead Pass.

Invitations are being extended for a function to be held next week at Seal Cove marking the laying of the foundation for the Canadian Fish and Cold Storage Company's plant foundation.

FISH HOUSES ARE ON MOVE

Atlin Fisheries Nearly Ready at Government Wharf—Booth Will Go Next.

The Atlin Fisheries are nearly finished moving from the Grand Trunk Pacific wharf to the new quarters provided by the provincial government at the government wharf, and tomorrow the Booth Fisheries plant intends to start moving. The Pacific Fisheries will be the last to go from the old place near the new ocean dock and it will start as soon as the Booth Fisheries is finished. The three companies are co-operating in the work of removal and two plants remain operating while the third is tied up. For instance, while the Atlin Fisheries plant has been moving the fish bought by that company has been passing through the warehouse of either the Pacific or the Booth Fisheries.

ELKS HAVE GOOD TEAM

Ready to Take Sons of Canada On in Indoor Baseball Game.

The Elks' indoor baseball team presents a splendid line-up of players and an aggregation that is very apt to give the challenging Sons of Canada something to consider with. Besides the Elks' line-up being a promising bunch of athletes generally, it has some of the old players of ten years ago who showed great style at that time. The first game of the series is hoped will be played next week. The Elks are to have another practice tonight.

Following is the list of players who will defend the honor of the Elks at the indoor game: Charles Emberton, Fred Henning, Ralph Le Pine, W. Sherman, E. A. Donohue, R. Frizzell, Vic Menzies, J. Batchford, George Shaw, W. D. Vance and Ed. Craggs.

PREPARING TO SEND WOMEN TO CANADA

Thousands Will Cross Atlantic During Coming Summer to Settle in West.

LONDON, March 29.—Preparations are being made to send a large number of women to Canada this coming summer. Already the work has commenced and several thousands will cross the pond before the season is over.

Word has been received here that in far western British Columbia there is room for a great many women, particularly in the farming districts of the north along the line of the Grand Trunk Pacific Railway. Arrangements are being made to supply the need. Women here are advised to go west with the desire to learn and with the idea of accepting any honest occupation.

Like a Tidal Wave Heart Disease and Nerve Troubles Sweep the Country.

Probably at no period in the world's history have heart and nerve troubles been so prevalent as they are today. The heart can't stand the stress and strain of this busy, bustling age, and the care and worry, the anxiety and activity of business life constitute a serious drain on the nervous system. The business of this work-a-day world goes with such a rush that the stoutest hearts and strongest nerves break down under the strain. On the first approach of any breakdown of the system Milburn's Heart and Nerve Pills should be taken. The reconstructive power of these pills on the heart and nerve system is simply marvellous. Mr. W. A. Wright, Hopewell Avenue, Ottawa, Ont., writes: "After suffering for some time with my heart, I consulted a number of doctors, but got no relief. However, I read what Milburn's Heart and Nerve Pills had done for others, who had the same symptoms and thought I would give them a trial. Believe me, six boxes relieved me. I am feeling fine now, and can attend to my work every day. I can recommend your pills to any one suffering as I did." Price 50c, a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont. Adv.

NAVAL CONSTRUCTION GIVES WAY BEFORE NEED FOR ECONOMY

LONDON, Mar. 29.—There is less naval construction going on in Britain than at any time since when in 1890 Germany threw down her reckless challenge to Britannia for the trident of the seas. Not a single capital ship is on the stocks—not a battleship nor an armored cruiser. All private yards, which for many years have been fostered by the Admiralty in order that all the ship-building resources of the nation might be mobilized in time of need—as indeed was done in the Great War—are now engaged solely on mercantile construction, with but a single exception. Great as may have been post-war extravagance in other directions, the Admiralty certainly has exercised absolute economy in new construction.

Many supporters of a strong navy see danger in this, especially in view of ambitious American construction programs. But there are two reasons. Chief is that no money is available, and that the new fleet created by the war is capable for some years at least of taking care of the naval defence of the British Empire; but hardly less important is that the expert advisers of the Admiralty are not yet decided as to whether the great surface capital ship, in view of air and underwater perils, has a practical future.

LADIES OF ROYAL PURPLE TO ORGANIZE

Ladies Meet Tonight and Tomorrow Visitor Will Be Here to Institute Order.

An organization meeting of the Order of the Royal Purple will take place tonight at the home of Mrs. George Frizzell, Seventh St., preparatory to the arrival of Mrs. E. Carlow tomorrow from Victoria who will institute the order here. It is expected that between thirty and forty ladies will become charter members of the Royal Purple here. They will be auxiliary to the Elks and will work along similar lines. In one respect they differ from all other fraternal organizations and that is in the unselfish aspect of their work. It is the aim of the order, while carrying out the fraternal obligations, to also reach out and undertake public spirited work for the benefit of the whole community.

To Be Dyspeptic Is to be Miserable

The poor dyspeptic suffers untold agony after every meal, and any one who has dyspepsia knows what joy it would give to eat three square meals a day and not be punished for it after. Nearly everything that enters the weak stomach acts as an irritant, and even the little that is eaten causes such torture and is digested so imperfectly that it does little good.

Before you can eat heartily, and not pick and choose your food, you must put your stomach into such a condition that it will manufacture its own digestive ferments.

For over forty years Burdock Blood Bitters has been tuning up and restoring weak stomachs to a normal healthy condition so that the food no longer causes distress, but is thoroughly digested and assimilated, and enables one to partake of all the wholesome food required without fear of any unpleasant after effects.

Mrs. Alice Beckwith, Fesserton, Ont., writes: "I have been a great sufferer from indigestion and dyspepsia for several years. I could not eat anything without almost dying from the pain in the pit of my stomach. Seeing Burdock Blood Bitters highly recommended I tried a bottle, and can gladly say it relieved me. I can eat anything now, and am in perfect health."

B. B. B. is manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

PRINCE GEORGE

The Railway Commission has fixed the date for the completion of the new station here as August 1.

A meeting has been called for tomorrow night here when the Peck resolution calling for the formation of the new northern province will be discussed.

Work will be commenced this spring on the building of a cannery at Mud River and Mr. Hughes, secretary of the Farmers Institute, has been sent to the coast to purchase two carloads of dairy cattle.

The Prince George Liberal Association held its annual meeting last week and the following officers were elected: Hon. President, Hon. John Oliver and H. C. Perry, M.L.A.; president, J. M. McLean; 1st vice president, H. Guest; 2nd vice president, A. J. Rogers; 3rd vice president, J. McKenzie; secretary treasurer, D. McLeod; executive, W. Blair, G. Williams, A. Whittles, P. Moran, R.
