LOOKING BACKWARD

The National City Bank of New York in its monthly elements, high anti-knock road perletter discusses the recent Ottawa conference and says formance. that it failed to realize the hopes of its promoters. It says the result of the conference vindicated the judgment of the result of the conference vindicated the judgment of Catholic Women's that the moral and political unity of the Empire would be more surely maintained by a policy allowing Great Britain and her scattered Dominions to manage their business affairs independently and with sole reference to the Enjoyable Affair Held at Home of particular circumstances of each, than to attempt to have a common and exclusive economic policy.

The letter throws doubt on the value of the wheat preference but admits that a certain amount of inter-Empire trade may result. After discussing the various phases of weather, a very successful tea and Anglican Church. The service was the conference the article concludes:

E. Moore, Mrs. George Arseneau, in trade relations elsewhere in the near future."

Canadian banks are strangely silent in regard to the result of the conference. The monthly letter of the Royal Bank while discussing the wheat situation does not mention the Conference as a factor in the marketing of Canadian crops.

Canadian newspapers have viewed the conference with ticket No. 24 by Miss Alvina Turoptimism which is probably best summed up in the words geon. of one of the smaller eastern dailies:

"One may criticize some of the details, but this is a minor matter, for no one can gainsay the fact that the Twenty Years Ago dation for the building of Empire trade."

The Classified Ads.

Many people have something in the house they would like to sell which could be turned into money if they knew of a customer. Try a classified advertisement. Most people read the classifieds. For about fifty cents you can let them know about it and it may prove a profitable transaction.

Renting the House

There are a number of houses in the city not rented yet and many people make little effort to secure a tenant. Others who are wise to their opoprtunities try a classified advertisement in the "For Rent" column and often get results. As one satisfied customer said recently: "Those little ads certainly do bring results."

Some Like Reader Ads.

Some people after trying other kinds of advertising decide to try a reader among the locals and personals. Then they have got results. The cost is a little higher but they have been well satisfied. When conditions are like they are today the newspapers can often help. The price is not very high. Do not lie down and bemoan your hard fate. Try a different kind of advertisement and if that is not successful try again.

When You CANT

Fatigue is the signal to rest. Obey it if you can. When you can't, keep cool and carry-on in comfort.

Aspirin was meant for just such times, for it insures your comfort. Freedom from those pains that nag at nerves and wear you down. One tablet will block that threatening headache while it is still just a threat. Take two or three tablets when you've caught a cold, and that's usually the end of it.

Carry Aspirin tablets when you travel. Have some at home and keep some at the office. Like an efficient secretary, they will often "save the day" and spare you many uncomfortable, unproductive hours. Aspirin is harmless, so keep it handy, keep it in mind, and use it. No man of affairs can afford to ignore the score and more of uses explained in the proven directions. From a grumbling tooth to those rheumatic pains which seem almost to bend the bones, Aspirin tablets are ready with quick relief—and always work. Neuralgia. Neuritis.

Any nagging, needless pain.

Get the genuine tablets, stamped with the Bayer cross. They are of perfect purity, absolute uniformity, and have the same action every time. Why experiment with imitations costing a few cents less? The saving is too little. There is too much at stake. But there is economy in the purchase of genuine Aspirin tablets in the large bottles.

"Bring 'Em Back Alive" is Great Animal Picture Taken in Malayan Straits Jungle

"Bring 'Em Back Alive," which is of the Capitol Theatre here this is saying a good deal for there have

In this picture, which was made on a Van Buren expedition to the Federated Malay States, are animal episodes which are said to have no parallel either in still or motion picture photography. These episodes include a battle between an enraged water buffalo and a tiger, the capture of a rare monitor lizard and the battle between a crocodile and a black panther. Then, as a major episode of this most unusual film, comes the attack of a tiger] upon a 30-foot regal python, a battle which lasts many minutes and which is declared to be the most thrilling of its kind that has ever been photographed.

Every foot of "Bring 'Em Back Alive" was made in the Malayan jungle country and every foot is, genuine. Many rare animals crossed the path of the camera and were recorded.

The expedition on which the picture was made was led by Frank Buck, the celebrated animal catcher who has made a life work of goof ing into the jungles of Asia and Africa and bringing back, alive, ani-'Em Back Alive" was a best seller for months and directed much atten-
