## Local Pulp Company Partly Financed

### BRITISH CONSERVATIVE LEADER DROPS FROM THE COALITION GOVERNMENT

#### ough Bonds Sold of Prince Rupert Pulp and Paper Co. to Warrant Start Construction

DOVER, March 17.—A telegram received here from a broker marketing the bonds of the Prince Rupert Pulp and Paper Company says he has been successful in placing bonds to warrant commencing operations on construction of the plant at an early date. The plant will require a million and a half dollars and eastern investors are said to be much interested in the deal.

and of this has been received by the local office of the company. E. F. Duly is at the Queen Charlotte Islands. Mr. Atkinson is in charge here just now. Speaking of the success of the proposition was one that would be of benefit to the company. It was one of the soundest business proposals he had for some time, and he hoped it would succeed.

#### ARMAMENT DISCUSSED

Says British Government Will Not Stand on Ceremony in Matter.

March 17.—Baron Balfour of Burghley, Lord of the Admiralty, speaking on naval affairs, said the only question should be the question of disarmament. He said the British government would not stand on

#### RUSH INTO OIL FIELDS

Machinery Already Being Shipped to Mackenzie River From Edmonton.

EDMONTON, March 17.—More than half a dozen development projects are afoot and machinery is already moving to the end of steel on route to the Mackenzie River oil field. Four drilling rigs are on the way.

It is expected all available steamboat accommodation to the north will be overtaxed. The Pouce Coupe oil fields are sharing with the Mackenzie in the oil rush and there will be much development there this year.

#### INDICTMENTS AGAINST BASEBALL PLAYERS ARE ALL WITHDRAWN

CHICAGO, March 17.—The state today dropped the cases against all former Chicago White Sox baseballers indicted for the alleged throwing of the 1919 world series except Chick Gandil. New indictments, however, will be sought.

#### BRIAND SUSTAINED

PARIS, March 17.—The Chamber of Deputies yesterday voted confidence in the Briand Government by a huge majority, the vote standing 489 to 67. The division was taken following a debate on the reparations decision.

#### No Improvement Since War Says Sir Philip Gibbs in Chicago Speech Yesterday

CHICAGO, March 17.—Sir Philip Gibbs, the English war correspondent, in a speech here said it would be only a matter of time before there would be another great European war. He said the world had not moved forward as the result of the recent conflict. It was exactly where it was in the year 1914. Sir Philip pointed to the Franco-Polish and other alliances and said the European countries were concerning themselves as much today with the balance of power as they did before the world war.

#### VETERANS BUSY MEMORIAL PLAN

Proposed to Launch Drive for Funds to Build Handsome Concrete Structure.

The Great War Veterans Association has decided to commence another drive for funds to build the memorial building on the Third Avenue site that was granted them by the vote of the ratepayers at the municipal election in January and a ways and means committee was delegated at the meeting of the association last night to frame up a scheme to submit at the next regular meeting. This committee consists of Captain C. B. Fournby, Jack Cargill, S. L. Warrior, J. Bird and A. Stevenson. When this committee has reported, another permanent committee will be named to go through with the plans.

The Association now has a definite idea of what it is going to build for the memorial. The structure will be a substantial two-story concrete building and will cost between \$20,000 and \$30,000. Such, it is felt, will be a fitting memorial to the many from Prince Rupert who gave their lives in the great struggle. It will prove both a credit to the city and a comfortable place of assembly for the association.

It is proposed to raise the funds by a campaign of the city which will commence as soon as possible and will conclude by Empire Day, May 24.

#### BRANDON AND VARSITY IN ALLAN CUP FINALS

PRINCE RUPERT, Mar. 17.—Brandon defeated the Port Arthur hockey team in the final game of the Allan Cup elimination contest last night, winning 11 to 7, completing the play off at the long end of a 33 to 44 aggregate. Brandon will now play Toronto Varsity for the cup.

#### KRONSTADT REPORTED TAKEN BY BOLSHIEVIKI

RIGA, March 17.—The Russian mission here asserts that the Bolshieviki have captured Kronstadt from the revolutionaries.

THE NEW FRENCH AMBASSADOR TO ENGLAND.

M. de Saint-Aulaire, who bears an old British name and the name English ancestry is the new French Ambassador to England. He is a noted statesman and received the appointment shortly after the new French cabinet took office.

#### Beer Clause is the Subject of Very Much Speculation in Legislative Circles

VICTORIA, March 17.—The famous beer clause, further debate on which was expected to come up in the Legislature today, is conspicuous by its absence. There are divided opinions on the question of a more liberal sale of beer so the Government is giving further consideration to the matter. The Ian Mackenzie amendment which was designed to raise the maximum limit provided under the bill as now drafted from one per cent of alcohol by weight to two per cent or five per cent proof spirit, was subject to keen debate, it is said, at a Government caucus last night. It is believed that Mackenzie's amendment will be approved. The supporters of the Mackenzie amendment claim that the majority of the Government members support it and the independents split even and the Conservatives do likewise.

#### WORK ON HUDSON BAY RAILWAY IS NOW SHUT DOWN

OTTAWA, March 17.—There will be no further work on the Hudson Bay Railway this year, Dr. Reid, minister of railways, stated in the House of Commons yesterday. Financial stringency is the reason given for the work being held up.

#### SPRIG OF ORANGE WINS SPRING CUP

LONDON, March 17.—The Liverpool spring cup was won by Sprig of Orange, a 100 to 7 bet, yesterday. The second horse was Trespasser, 6 to 1; third, Money Class, 7 to 3.

#### LEAVES FOR DUNDAS

The "Billy Boy" leaves today for Dundas Island with a crew to overhaul the scows there preparatory to the opening of the salmon trolling season. It is expected to open the camp on Dundas Island about April 25, when the run of trout fish is usually started.

A great deal of interest has been taken in the competition for the best decorated show window in the local stores for the \$25 prize in connection with the St. Patrick's Day concert. Many of the merchants have gone to considerable pains in adorning their windows and some very pleasing results have been attained. The judging will take place this afternoon and the announcement of the winner will be made from the stage tonight.

#### Bonar Law Resigns from British Cabinet and House Leader

LONDON, March 17.—Right Hon. Andrew Bonar Law, Lord Privy Seal, has resigned from the cabinet because of ill health. He is also retiring from the leadership of the Government forces in the House of Commons. His resignation will be a distinct loss to the Lloyd George Government because of the fact that he is leader of the Conservative Unionists which is the strongest faction of the Government supporters.

Mr. Bonar Law has been in Parliament since 1900 with short intermissions and in 1902 to 1905 was parliamentary secretary to the Board of Trade. In November, 1911, he succeeded Mr. Balfour as leader of the Unionist party. He was a compromise candidate at a time when the Conservatives felt that they must reorganize along more popular lines and adopt a forward policy. Being the son of a retired Scotch iron merchant and having no relationships with any of the aristocratic families of the country, he was looked on with suspicion, but he held firmly to his position and carried out the work with dignity and energy.

Had it not been for the war, it is possible that ere this Mr. Law would have been Prime Minister. As it was he was willing to subordinate his ambitions for the good of the country. Mr. Law became secretary to the colonies in the coalition government of 1915 and in the Lloyd George ministry became chancellor of the exchequer and leader of the House of Commons.

#### FEW CARS; MUCH FISH

Seven Cars Needed Immediately—None Here, Only Three Coming.

Six halibut schooners with 165,000 pounds of fish arrived this morning from the banks to sell here. Seven cars will be required. None are in today and only three are reported for arrival tonight. None others are reported. The boats are holding over for sale until tomorrow.

The following are the arrivals: Panama, 62,000 lbs.; Polaris, 55,000, Norland, 22,000; Johanna, 15,000, Nornen, 5,000, and Minnie V., 6,000 pounds.

#### CHANGE YEAR FOR MUNICIPALITIES

New Mayors and Councils to Take Office on January 1, it is Proposed.

VICTORIA, March 17.—It is proposed to amend the Municipal Act to change the date of municipal elections throughout the province, having them in time so that the new mayor and council may take office on January 1. This would make the municipal year conform with the calendar year. In a private bill before the Legislature, Victoria aldermen are to get a two-year term.

About fifty couples attended the Gallies' Football Club Ginterella dance in the St. Andrew's hall last night. Arthur's Orchestra provided the music, James Simpson was master of ceremonies and W. G. Dennis was on the door.

#### MORE MEN ARE NOW PUT ON AT WALLACE PLANT

Placing of 250 Workers there Helps Local Employment Situation Considerably

Government Employment Agent James M. Campbell reports that although there has been a considerable demand for men from the dry dock during the past week or so and the local situation is easing off, the demand from the outside has not yet commenced. It is expected, however, that by April 1 the office will be sending men to the outside especially to the logging camps which will reopen about then. There were 165 applications for work last week and a good number of these were sent to the dry dock where 250 men are now working.

Last week 131 men were provided with two days' work each by the city in its relief measures. Up till tomorrow night 97 will have been given work by the city. This relief work by the city at McLymont Park and Sixth Ave. playground will be kept up until the situation is improved in other lines. It is found that some men are taking advantage of the city work and appear to be quite satisfied to take the two days per week and remain idle the other five days if permitted to do so. Apparently they would rather do this than take steady jobs. Measures are being taken to prevent this condition. Returned men are being given the preference by the Wallace shipyards.

#### MILLIONAIRES ARE CHAMPIONS

Defeated Seattle Last Night and Won Pacific Coast Championship Ship

WILL PLAY OTTAWA FOR WORLD TITLE ON MONDAY

SEATTLE, Mar. 17.—Vancouver won the right to play Ottawa for the Stanley Cup last night when the Millionaires defeated the Seattle Metropolitans by a score of 6 to 2 and won the Pacific Coast hockey championship play off by a total of 13 to 2.

The first world's championship game between the Capitals and the Millionaires will take place in Vancouver on Monday night. W. H. J. Norris, of the Provincial Government civil service, arrived in the city yesterday and is engaged in the office of the provincial assessor.

DAILY EDITION. Thursday, March 17, 1921.

Canada Should Cultivate States.

Visitors to the United States bring back word of a feeling of irritation that seems to exist in some quarters against the British. This has been faithfully fanned by the enemy countries during the war and by the still more insidious Hearst press.

War Unthinkable Between Countries.

War between the United States and Great Britain is unthinkable. We are very largely of the same blood, have the same aims, the same civilization pervades the two countries and we should be able to carry on side by side without any trouble.

There is no danger of war between the countries today. There should be no friction and no ill-feeling between the countries. We have no cause to be irritated at the people of the United States and we know of no reason why they should be irritated at us.

It may be some day, when we get big enough that we may annex the United States to Canada, but that will be many years hence, but in the meantime the Yankees need not fear any onslaught from this side of the line.

Pattullo is Under Serious Charge.

Hon. T. D. Pattullo is under a shadow. He is the object of a serious charge in the Legislature. The leader of the opposition makes the allegation that the member for Prince Rupert is trying to obtain special favors for his constituency.

We have no intention of coming to the assistance of the local member for he can fight his own battles. Honestly we fear he is guilty and that he may have to admit it.

Sense of Humor Very Valuable.

Have you a sense of humor? If you have not, you miss a great deal out of life. Humor rounds off the jagged corners that are apt to hurt. It disarms an enemy and binds closer a friend.

Without any irreverence we can quite easily imagine the Great Ruler of the Universe chucking at some of the antics of the human family in their efforts to be serious.

Life may not be a joke, but if we are able to see the funny side of serious matters it takes off much of the poignancy of what might otherwise be poisoned arrow thrusts.

HEARS VOICES LONG DISTANCE

A. L. Hawkins of Winnipeg Claims to Have Wonderful Telepathic Powers

WINNIPEG, Man., Mar. 17.—Through the use of telepathy and concentration, A. L. Hawkins, of this city, claims it is possible not only to speak to, but to see persons, objects and places, regardless of distance.

Mr. Hawkins is a returned soldier and the strange influences which beset him, and by turns oppress, uplift or worry him, have been felt most strongly since his return from the war, where he served three years. The most definite manifestation of this development is the ability to hear, and, Mr. Hawkins firmly believes, to transmit the human voice over interminable distances, even interplanetary distances, without mechanical aid.

"This is not a theory with me," Mr. Hawkins stated recently, "it is an actual experience. I have distinctly heard people talking together at a distance—a distance far beyond earshot. I mean—as distinctly as though I had my ear to a telephone. I can receive voices, and I can transmit them, not in the manner of ordinary telepathic impressions which the recipient himself translates into words, but as definite sounds in the ear. I claim more—I can transmit the music of specific instrument so that the person or persons with whom I have made arrangements will be able not only to hear the tune, but to discern and to say what instrument is playing."

FEED SUNFLOWERS TO ALBERTA CATTLE

C.P.R. Experimental Farm Use Weed with Good Results

CALGARY, Alta., Mar. 17.—If the forecast of several dairymen and stockgrowers is realized, Alberta in the near future will be known as the "Sunflower" province. The dairymen and stockgrowers who visited the Canadian Pacific Railway experimental farm at Strathmore are of the unanimous opinion that after seeing the manner in which the cattle there have come through the winter on this particular feed, that an enormous impetus will be given to the cultivation of this plant.

In the opinion of those who have used this silage it only requires the publicity of facts already achieved to induce every stock grower in the province, and indeed through the west, to make it his principal winter feed for cattle, more especially in those sections which are subject to drought.

"It will undoubtedly go a long way towards solving the feed problem of the west," stated E. S. McRory, manager of the western division of the United Grain Growers' Company, in commenting upon this matter. "It is certainly well worth the while of every farmer giving it his most earnest attention."

MANY TELEPHONE AND TELEGRAPH WIRES WERE CUT

DUBLIN, March 16. (p.m.)—The telephone and telegraph wires have been cut on an extensive scale during the last 24 hours, causing a suggestion that some movement on a large scale is being arranged.

A constable was shot dead in North Kerry and a woman, into whose house the body was taken, died of shock.

Ten Years Ago in Prince Rupert

March 17, 1911 Good progress is being made with the work on the Canadian Fish & Cold Storage Co.'s plant at Seal Cove.

Replying to a request that the telegrams sent to Acting Mayor Smith for the assistance of the Rainbow in connection with the strike of the street workers be produced, Mayor Manson last night told Ald. Pattullo that it was his own private business and not a public matter.

**Dentistry of Quality.**

**Pyorrhoea and the Remedy**

Pyorrhoea, like anything else, cannot be overcome without the removal of the cause. Mouth washes, tooth brushes, etc., are all of no avail unless the cause be removed. Those troubled by this disease should see their dentist and have all deposits removed; ill-fitting fillings extracted and the mouth put into a sweet and wholesome condition by scientific methods. This will (if the disease is not progressed too far) eliminate all vestige of pyorrhoea.

**After the "Flu"**  
Four Children Had Whooping Cough

Whooping Cough, although specially a disease of childhood is by no means confined to that period, but may occur at any time of life. It is one of the most dangerous diseases of infancy, and yearly causes more deaths than scarlet fever, typhoid or diphtheria, and is more common in female than male children.

Whooping cough starts with sneezing, watering of the eyes, irritation of the throat, feverishness and cough.

Dr. Wood's Norway Pine Syrup is highly recommended by mothers everywhere for the relief of this trouble as it helps to clear the clogged-up air passages of the mucous and phlegm that has collected, and in this way bring on the "whoop" which brings the so-much-sought-for relief and heals and soothes the lungs.

Mrs. J. M. Bouse, Imperial, Sask., writes:—"After the flu, last fall, my four children took whooping cough and one of them developed bronchitis. After using two or three bottles of Dr. Wood's Norway Pine Syrup they were greatly relieved of their nasty coughs. It is an especially good remedy for children, and is so nice they take it readily, and ask for more."

Dr. Wood's Norway Pine Syrup is 25c and 60c a bottle at all dealers. Put up only by The T. M. Bourn Co., Limited, Toronto, Ont.

**PRESENTATION LAST NIGHT TO T. HOOPER**

Appreciation Shown of Generous Hospitality of Boat Owner.

Thomas Hooper was last night the recipient of a fine gold watch and chain and a pair of gold cuff links from the members of the Inlander mess on the occasion of his leaving the city to reside in Vancouver.

The presentation was made on behalf of the members by H. F. Pullen who spoke of the good fellowship the members had enjoyed with the one who was leaving and of the hospitable way in which Tommy had always used his boats in taking them for picnics or elsewhere.

Mr. Hooper in replying thanked the members of the mess for their kindness and said he regretted exceedingly having to leave the city. He did not know what his future would be or whether he would be returning here in the future.

Mr. Hooper was intending to have gone south last week but he made a trip to Stewart instead.

1871. Dance in McIntyre Hall, Friday 18th. Refreshments. Arthur's Orchestra. Auspices S. P. of C. 50c and 75c. 65

Mrs. Captain C. H. Nicholson, accompanied by her niece, Miss Neilson, left Vancouver last week for Colours, Ont., the home of the latter. Miss Neilson has been visiting with Mrs. Nicholson some months and last fall visited Prince Rupert.

A letter from Hon. J. D. Pattullo, read at the hospital board meeting last night stated that it was impossible to promise a grant to the hospital this year. The legislature is going into the entire system of hospitals at this session.

The first step towards reducing the high cost of living, 810,000 stock of ladies', gents' and boys' clothing at prices that will appeal to you. We invite your inspection. Wonderful patterns in gingham. 3 yards for \$1.00. Universal Trading Company. If

A number of friends surprised Mr. and Mrs. H. C. Peyton last evening in honor of Mrs. Peyton's birthday. An enjoyable evening was spent in games and at midnight a delightful luncheon was served, after which taxis were called for the departing friends.

Last night's hospital board meeting was a brief session, there being little business on the agenda paper. There were present President D. G. Stewart, Col. S. P. McMorde, J. C. McLennan, P. I. Palmer, E. H. Mortimer, W. E. Collison, Major G. E. Gibson, Dr. J. A. West and Dr. H. E. Tremayne.

There are still some reserved seats left for the St. Patrick's Day concert this evening. Those holding tickets should exchange them without delay at Orme's Drug Store for a reserved seat. Contrary to a mistaken impression that seems to exist, there is no extra charge for the privilege of reserving a seat for this entertainment. Do not wait for a rush seat, as these are limited.

For afternoon tea, St. Regis Cafe. If

Wanted—Raw furs. Pat Phillipson. If

List your boats for sale with M. M. Stephens. If

Do not miss Jabour's \$ Sale, 17th, 18th and 19th. 65

Mrs. John Hoodland of Hyder reached the city yesterday afternoon.

W. S. Harris, of Hazelton, is registered at the Hotel Prince Rupert.

J. O. Williamson of Ocean Falls is registered at the Hotel Prince Rupert.

Mr. and Mrs. W. Dann of Stewart were arrivals in the city yesterday afternoon.

C. P. Baker arrived yesterday afternoon from the south and sails on the Prince Albert today for Stewart.

The St. Patrick's Day concert tonight starts sharp at 8.15 o'clock and those holding seats should arrange to be at the theatre before the curtain goes up, as no one will be permitted to enter to take a seat before the particular number then under way is completed. This is to avoid interrupting the audience.

William Donald, who took part in the work of the construction of the local dry dock, returned to the city yesterday to take the post of foreman carpenter for Wallace's here. Mr. Donald has been with the firm at North Vancouver for some time past. A. L. Ronald also arrived from the southern yard yesterday to become foreman joiner here.

**BILLIARD LEAGUE**

Sons of Eng.	9 9120	1013
Elks	9 8745	972

**WATER NOTICE.**

TAKE NOTICE that Granby Consolidated Mining, Smelting & Power Co. Ltd., whose address is Ansox, B. C., will apply for a licence for the storage of five million gallons of water out of the east branch of Hidden Creek which flows southerly and drains into Hidden Creek, about two-thirds of a mile from Granby Bay.

The storage-dam will be located 300 feet from the east boundary of lot 2224. The capacity of the reservoir to be created is about five million gallons, and it will flood several acres of land. The water will be diverted from the stream at the dam and will be used for mining and domestic purposes upon the mine described as lots 489, 481, 482, 483, 484 and 485, 1513, 1675 and 1677, 2219, 2221, 2222, 2223, 2224, 2225, 2226, 2227, 2229, 2230 and 2231. The licence applied for is to supplement an application to take and use water as per water notice posted on 1st June, 1920 (see water branch file 922030).

This notice was posted on the ground on the 23rd day of February, 1921. A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Prince Rupert.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper.

GRANBY CONS. MINING, SMELTING & POWER CO. LTD., Applicant.  
By William Young, agent.

The date of the first publication of this notice is the 26th day of February, 1921.

### BRINGING UP FATHER

**SPORT**

There does not seem to be much enthusiasm displayed in athletic circles in connection with the series of indoor baseball games that it has been proposed to hold before the outdoor ball season actually commences. It looks like indoor baseball has progressed little beyond the proposing stage, which is regrettable for it will be a month yet before the outdoor season is under way and considerable interest would probably be taken if the games were put on. It is true that a few of the boys have been practising in the Exhibition Hall, but what everybody wants to see is a few real games while the hall is idle now with no regular games of any kind scheduled. The Sons of Canada and Elks could easily field teams and it is possible the Gallies and "Old Timers" might also enter.

**DEATH YESTERDAY OF CARL ZIEMANN**

Well Known Citizen Passed Away Last Evening at Home of Daughter.

The death occurred last evening at the home of Mr. and Mrs. W. D. Moxley, Fraser Street, of Carl Ziemann of Cedarvale. Mr. Ziemann was taken ill at his home and was brought here by his daughter, Mrs. Moxley, on the last incoming train and died last night about ten o'clock.

The late Mr. Ziemann has lived in this province about three years, having come here from Ottawa. He was 74 years of age and leaves five children, three sons and two daughters. William and Hermann live at Ottawa, and Frank makes his home here. Both daughters are married. They are Mrs. W. D. Moxley of this city and Mrs. Baby of Smithers.

Funeral arrangements are in the hands of the R.C. Undertakers.

**The Man in the Moon SAYS—**

ONE of the most annoying creatures is the girl who would like to sing, but forgot to bring her music.

WHEN the people who are keen on being class conscious succeed in socializing industries, what will they do with the bootleggers?

**ARCHERY** is a lost art in the west, but people still like to shoot a shaft at the press. It is the more modern type of sport.

AT some of the homes you visit, you wish they would cut the pie into two pieces only and at some social events you wish it had been cut into twenty.

THE men who do things usually do it quietly, unless it is playing in a brass band.

MOST men are chivalrous, but they hate to give way to their wives when it is a question of reading the paper first.

WHAT law is it that a man breaks who goes around all the time with an empty flask on his hip?

EVEN Brownups would like to go to school if they were given gold marks for good conduct.

A. M. Manson, M.P.P., had to leave the speaker's chair in order to speak. That seems similar to leaving the dining table in order to eat.

## CANNERIES ON NAAS GETTING READY TO OPEN

Indian Agent W. E. Collison Back From Inspection of Lower Points in District.

W. E. Collison, Indian agent for the Naas River division, returned from the Venture Tuesday night from an inspection of the points in the lower part of his district where he found everything running smoothly and well. Mr. Collison was unable to get up the river to Aiyansh and other points to the east and will go there later in the year after the ice has gone.

Mr. Collison made his headquarters for his ten-day visit at Kincolith where his father, Rev. Archdeacon W. H. Collison, resides.

Mr. Collison visited the Naas canneries and reports that all of them will operate this season with the possible exception of Kamson. Actual preparations are being made at Naas Harbor, Armandale, Mill Bay and Sagemerville and it is understood Wales Island cannery is also getting ready.

The oolachan run in the Naas river has not yet commenced this season but just before Mr. Collison left the Indians captured a seal and found an oolachan in the animal. This is an indication that the oolachan are in the straits and the run will commence next week on the high tides. Oolachan are a delicacy among the Indians of the Naas and in the early days provided a great portion of their food.

## GENERAL HOSPITAL WILL BE SHINGLED

Question of Painting Building Brings up Advisability of Shingling and Staining.

A committee consisting of Col. McMordie, E. H. Mortimer and P. L. Palmer was named by President D. G. Stewart at last night's hospital board meeting to make plans for shingling and staining the hospital.

Speaking on the matter last night, Col. McMordie stated that the probable cost of shingling the building would be \$300. Doing this would reduce the coal consumption, make the building as nearly waterproof as possible and would add considerably to the comfort of the patients and nurses. An architect should be engaged to draw up plans for the artistic putting on of the shingles. In the long run it would prove a saving investment. To put paper between the present siding and the shingles would cost \$200 additional but this, Col. McMordie felt, was unnecessary.

In answer to a question by E. H. Mortimer as to the advisability of leaving the matter for a couple of months before having the work done, Col. McMordie stated that lumber and shingles were now as low in price as they would be this season, but labor would likely go down in a short time. It might be advisable to leave the matter stand for a couple of months. President Stewart pointed out that the work would have to be done this year.

## RUPERT MENTIONED AT ARBITRATION

Engineer Says Location is Excellent One With Plenty of Room for Expansion.

In discussing the value of the Grand Trunk property, J. B. Berry, consulting engineer for the railway, gave evidence at a recent sitting of the arbitrators. He told of the ports on the Pacific coast, mentioning particularly Prince Rupert, where he said the G. T. P. possessed 618 acres of land with 10 miles of sidings and good waterside facilities.

In answer to W. H. Taft, one of the arbitrators, Mr. Berry said he considered Prince Rupert was an excellent location. It had been carefully chosen by a body of experts and he thought it was a good terminal port. The G. T. P. had ample space for further expansion.

H. J. F. Turney will be general manager of the local plant of the Wallace Shipbuilding Co., according to the Vancouver Province. Mr. Turney is also secretary-treasurer of the company.

## PATTULLO ON TIMBER BILL

Explains Changes to Legislature and Assures House Growth Much Exceeds Consumption

WILL ENDEAVOR TO ELIMINATE WASTAGE

There is no cause for alarm about the depletion of British Columbia forests, as progressive legislation will put the timber industry on a really permanent basis, the Hon. T. D. Pattullo, Minister of Lands, assured the Legislature when explaining his Forest Act amendments, says the Victoria Times.

"There has been a good deal of misconception in the public mind with regard to the timber situation in British Columbia," Mr. Pattullo declared. "Unnecessarily alarming reports have been circulated about the depletion of our timber. There is no doubt that there have been what I might almost call 'shocking' methods used in logging in the Province, it is true. Last year this was particularly so on account of the boom in the industry. But there is no need for alarm."

### Alarmist Reports-Ridiculous

"I have seen reports in the press that in twenty years lumbering will be a thing of the past in this province. Such ideas are ridiculous. It is perfectly true that some of the great forest giants 250 to 300 years old which are being cut today will not be replaced and will not exist except in preserved areas such as along public highways. We must remember, however, that such trees have reached and passed maturity and should be cut as they are decaying. They will never be replaced again. In the next generation the timber cut will be among trees from seventy-five years up. We don't need to be alarmed at all."

Mr. Pattullo assured the House that at present the annual growth of timber in British Columbia far exceeded the annual cut and destruction combined. The annual growth he said, was approximately six billion feet while the annual cut and destruction amounted to only two billion feet.

"There is no doubt," the Minister proceeded, "that in places about centres of population we have been mining our timber and the waste that has prevailed in the past must not be allowed in the future."

### To Ration Pulp Resources

"At the present time," Mr. Pattullo said as he went on to

### WATER NOTICE

DIVERSION AND USE.  
TAKE NOTICE that The W. Y. McCarter Burr Co., Ltd., whose address is 646 Hillside Avenue, Victoria, B. C., will apply for a license to take and use 50 cubic feet of water out of Marmot Creek, which flows westerly and drains into Portland Canal about three (3) miles from Stewart, B. C.

The water will be diverted from the stream at a point about one mile from mouth of stream and will be used for industrial, sawmill and mining purposes upon the land adjoining, described as T. L. 3817. The applicant will exercise its powers as a Class 'C' applicant upon the adjacent territory.

This notice was posted on the ground on the 24th day of January, 1921. A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Prince Rupert, B. C.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, within thirty days after the first appearance of this notice in a local newspaper.

THE W. Y. MCCARTER BURR CO., LTD.,  
By Luis Rueschel, agent.  
The date of the first publication of this notice is Saturday, February 19, 1921.

### NATURAL GAS AND PETROLEUM NOTICE

DISTRICT OF QUEEN CHARLOTTE ISLANDS.

I, Carolus D. Emmons, of Victoria, B. C., intend to apply to the Minister of Lands for a license to prospect for natural gas and petroleum over the following described lands: Commencing at a post planted at the N.E. corner of Sec. 32, Township 9, Graham Island, B. C., thence south 80 chains; west 80 chains; north 80 chains; east 80 chains to point of beginning. Located January 28th, 1921.

CAROLUS D. EMMONS, Locator.

explain provisions to encourage pulp and paper manufacture. "The pulp and paper companies have only a thirty years' supply of timber. No one would say that it was advisable that the operations of these great companies should cease after thirty years. Not only would the country be robbed of vast industries, but these companies, knowing that they had only thirty years in which to operate, would have to charge more for their output in the meantime."

The Minister explains that it was proposed to create areas of satisfactory timber at various suitable points in the province. These would be put up for public competition and companies would be able to secure them on condition that they would establish on them pulp and paper mills of a certain size, and under conditions which would ensure the continuance of operations in perpetuity.

"It was proposed also to make available for the use of pulp and paper companies Crown timber lying about the 'areas' created so that these concerns would have sufficient raw material to make possible the continuance of their operations. The price of this timber would be fixed by the Lieutenant-Governor in Council. These provisions, Mr. Pattullo felt, would help in a very large measure to encourage the establishment of pulp and paper mills in British Columbia.

Speaking of clauses in his amendment governing forest protection, Mr. Pattullo said that timber holders had come to realize the necessity of eliminating wastage and of protecting young timber. Forest protection, the Minister asserted, was essential if the lumber industry was to be preserved.

"We look upon this as a most important measure and one of the most forward-looking pieces of legislation introduced," the Minister concluded.

"It is undoubtedly one of the most important bills introduced this session."

### STEAMER MISSING.

LONDON, March 17.—The American freight steamer Hewitt which left Sabine for Boston on January 20 with a crew of 54 has been posted as missing.

### WOULD TAX COAL FOR EDUCATION

Edmonton School Board Wants New Method of Raising Funds

EDMONTON, Mar. 17.—Advocating the opening of entirely new avenues of taxation in the province for educational purposes, a delegation from the school boards of Calgary and Edmonton conferred with Hon. George P. Smith, minister of education.

One of the suggestions put forward by the delegation was that a tax for educational requirements be placed on the output of coal, it being proposed that there might easily be imposed a tax of five cents a ton without injuring the industry in the least. Hon. Mr. Smith pointed out that the province already taxes coal this amount per ton, in addition to the federal royalty. Trustee Simmott, of Calgary, held the opinion that the province could add ten cents per ton to the coal production and not affect the industry injuriously.

What the delegation did impress upon the government was that in the cities especially there must be discovered some new method of taxation other than higher mill rates on property, because, it was declared, property owners in cities already are bearing a heavier load than it will be possible to maintain. They advocated using the natural resources of the province to a great degree as possible for taking care of the paramount needs of education.

### PILES Are Generally Caused By CONSTIPATION.

There are few, if any, complaints more common than hemorrhoids, or piles, as they are commonly called, and scarcely any which cause more trouble, annoyance and misery.

Ninety per cent. are troubled with them at some time or other, owing to allowing the bowels to become in a constipated condition.

Piles are classed under three headings, i.e. internal, external and prolapsing, and the excruciating pains which accompany them cause misery which is beyond description.

Milburn's Laxa-Liver Pills regulate the flow of bile to act properly on the liver and bowels, thus removing the constipation and all its allied troubles. They contain no alcohol or drastic mineral ingredients, being purely vegetable. They are small and easy to take, and do not grip, weaken or sicken.

Milburn's Laxa-Liver Pills are 25c a vial at all druggists or dealers, or mailed direct to receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

### TERRACE

D. A. Buchanan and M. Currie, mining men, were here last week making preparations to go into the Copper River country to make an examination of the John Gabriel silver mine which was bonded last year. The result of the investigation will have a great bearing on the opening up of other properties in the Copper River country.

P. M. Moneton, land surveyor, is completing a comprehensive map of Terrace and the surrounding country for three miles for which he has been gathering data for several months past.

The Terrace News reports that a refrigerator car has been standing on the Terrace siding for some time and suggests that the Prince Rupert fishermen get a team of horses and pull it down there.

Terrence had a cold snap last week which sent the thermometer reading nearly down to zero. All snow is gone around the town and several land clearing firms have been noticed.

Joe Spitzel is considering the starting of a shingle mill on the Lakelse side of the river.

### LAND ACT.

Notice of Intention to Apply to Purchase Land.

In Skeena Land District, Recording District of Coast, Range 5, and situate at head of Union Bay, adjoining lot 199.

### AMERICANS COMING TO SETTLE IN CANADA

About End of the Present Month There Will be First Movement into Country.

WINNIPEG, March 17.—With the passing of the snow a large party from the United States will come to western Canada in search of desirable land, according to information received by private interests and railway immigration officials. The first definite movement of settlers from across the line, so far as the prairie provinces are affected, will be about the end of the present month, when two trainloads of settlers and their effects will arrive. These trains will be concentrated at the Minneapolis transfer, and will be composed of farmers from the western states.

The greater part of their effects will be run through North Portal and from there to Moose Jaw for distribution, while the balance of effects and at least two coaches of settlers will come into Winnipeg and from here be distributed to various points throughout the province.

These settlers have been obtained through the efforts of three or four large land agencies operating in the United States and Canada.

A Winnipeg firm has just completed the sale of 5,000 acres in the Swan River district, the balance of 25,000 acres which has been available for purchase in that district.

In connection with the two trainloads of settlers, a Minneapolis firm is bringing in one party of 22 families who will settle in the northwesterly part of the province. These people are going in for mixed farming and dairying, and are understood to be mostly residents of the state of Wisconsin.

John Wardrop, general agent of the Canadian National railways resources department, who has just returned from the United States, said today that enquiries for the past three months were double those of any similar period for the last seven years.

John Maitland arrived yesterday from Vancouver to take charge of the engineering department of the Wallace shipyards here. Mr. Maitland is classed among the best marine engineers in the British Empire and after a long experience in old country yards came to the Coughlan yard at Vancouver when it was established. He severed his connection with that company to take the new post here.
