DEFINITE PROGRESS REPORTED AT WASHINGTON

NO HOSTILE DEMONSTRATIONS TO MAR PEACEFUL DISCUSSIONS

Union Jack Flies Everywhere in Washington While Sessions of Conference are in Progress

WASHINGTON, Nov. 28.—(By Canadian Press.)—To Canadians who are residents of United States cities a pleasing incident incidental to the conference on the limitation of armaments is the promiscuous display of the British flag in Washington. With the flags of the other powers represented at the big international meeting, it hangs from all of the public buildings. A prominent feature of the decoration scheme of hundreds of stores and private houses.

"It was worth coming down here just to see the old Union Jack flying," said a member of the New York Canadian Club the other day. He had run down to Washington to get a close-up view of the conference. The free display of the British flag and the sentiment of friendliness toward the British Empire which was revealed in this hanging out of the Union Jacks appeared to be a feature of the gathering which impressed him most. "Back in New York," he added, "I have seen the flag for several days, except at the Canadian Consulate."

LADY COPS ON DUTY IN NEW YORK TODAY

NEW YORK, Nov. 28.—Women traffic officers made their bow to the New York public today. At all intersections and in the vicinity of public schools, the women police reserves are on duty. They have been called out to replace 2,500 patrolmen who are on duty protecting milk wagons during the milk handlers' strike. "Whiskers" are the sobriquet of the volunteer force.

PATTULLO TELLS OF INQUIRIES

Urges Spirit of Optimism in View of Impending Development.

In connection with the announcement last week that the minister of Lands had stated the construction of iron and steel works in this province was imminent and that a representative of British interests were on the way to discuss the matter with the British Columbia Government, Mr. Pattullo spoke of the matter to a newspaper man at the capital. He said: "There are many people who consider the establishment of an iron and steel industry in this province to be visionary and ethimological, nevertheless, sane and reliable facts are giving it serious consideration. 'We are gradually going to become a great manufacturing province. Each year conditions more and more favor us. 'At this moment we are in a line of progress that too few people realize. 'The public mind should preserve a sane balance of optimism. British Columbia has no reason to be afraid. 'The war gave the world generally a very black eye but British Columbia's eye is hardly discolored. 'Stuart Lake Lands. Mr. Pattullo further observed that he had received a cable from authorities in London asking information respecting the Stuart Lake lands, such as soil conditions, cost of clearing, etc. The minister states the information will be forwarded at once. In discussing the proposal Mr. Pattullo said: "It has been suggested that care should be taken that only the right class of settlers should be encouraged to locate on these lands. The public may be assured that the Government is thoroughly seized of all phases of the issues involved. The fact that land settlement is one of the most difficult, though at once the most essential of undertakings for the Province, is no reason for becoming faint hearted. One should not be afraid to tackle the problem, which must sooner or later be solved, merely because it is difficult. I think I know something of conditions in the old country, and I have no doubt whatever that the Stuart Lake area can be used with great advantage to the placing of settlers from the British Isles and that plans can be arranged with the British authorities upon a basis which will ensure the success of the undertaking. 'Deprecates Pessimism. 'I deprecate so much pessimistic talk. British Columbia comparatively, and having in view its great area of undeveloped resources of mineral, timber, fisheries, agricultural lands and water powers, has little to worry about. As far as the financial position of the province is concerned, we have passed the peak of our borrowing, while the money which has been put

LEADERS DENY POLITICAL PLOT

Presidents of Bank of Montreal and C. P. R. Have Not Yet Replied Soldier's Query.

TORONTO, Nov. 28.—Secretary McNeill of the Great War Veterans has received denials from Premier Meighen, T. A. Crerar and Mackenzie King of charges that there was a conspiracy on foot to form a coalition of Quebec Liberals with the Meighen group under the leadership of Sir Lomer Gouin for the purpose of manipulating the Canadian railway system.

Each leader denies the knowledge of such a plot, but Premier Meighen says he agrees that the Liberals have shown intentions to disintegrate the railway system if they get a chance. The veterans demanded replies from the leaders to these charges, which they claimed were presented by a non-partisan authority. Up to yesterday the presidents of the Bank of Montreal and Canadian Pacific Railway had not replied.

Real Issue, Says Interior News.

The Interior News says: "From the standpoint of the people of Central and Northern British Columbia, what is the issue in the election? Premier Meighen is trying to worm his way into the good graces of the electorate by singing a tariff solo, while everyone who has studied tariffs and governments in Canada knows full well that neither party is master of the tariff policy of Canada, and they are corroborated by Canadian history since the time of the National Policy. The tariff is not an issue in the final sense, but the railway situation is a real issue in the North, and it is a particular issue upon which we cannot afford to take a chance with Colonel Peck's independent stand forced upon him by the unpopularity of the government he supported, and who are responsible for the railway being the real issue.

Name Stinks in Nostrils B. C. People.

"To explain why the name of Meighen stinks in the nostrils of the people of Central B. C. it is only necessary to go back a brief ten years and see the joy of the old timers who had pioneered the North in the hope realized through the completion of the National Transcontinental Railway, conceived in the mind of Sir Wilfrid Laurier and carried out with a vision of a greater Canada. It was the railway which brought new settlement and better social conditions; we saw that railway being completed on the best grade of any on the continent and with terminal works being established for the line of ocean-going steamers out of Prince Rupert. The north country was fast filling up with contented people and the railway was reaching that point where a start was to be made on the branch lines which formed a main condition of the railway contract, and we had reasons to expect branch lines tapping the Groundhog coal deposits, the Copper River iron deposits, and it is not unreasonable to predict that spur lines to the Telkwa coal fields, the Francois country, the Babines and the Kitsumkalum Valley would by now have been revenue-producing actualities, when the Liberal government was succeeded by the Conservative organization in 1911. This change in government had an electrical effect on this country and everything of a development nature was immediately throttled, while the work of discrediting the Liberals was started by placing every obstacle in the way of making the road an asset. The C. N. R. guarantees for a parallel road, changing of route and altering of grades were among these obstacles.

Death Blow by Meighen Government.

"But it remained for the Meighen Government to deal the death blow to the railway—this same Meighen Government that Peck now asks us to return him to the support of—this same Peck who never lifted a voice against his leader when the progress of years was turned to nothing by a single act, and by which the development of this country was set back a dozen years through the amalgamation of government lines, which put this district on a spur line and added one more through service for Vancouver at the expense of Central B. C. We saw hundreds of men thrown out of employment, maintenance reduced to the danger point; nothing was left undone that might place the G. T. P. in a less favorable light. Industry was blighted, settlement discouraged and hardships increased, and it is in this condition that Central B. C. has a picture of our despoiler asking for an endorsement of his acts by asking us to support Peck as an independent.

Faithful Representative.

"Peck has represented Meighen faithfully, but in the big crisis he did not raise a restraining hand against a policy that meant economic ruin to this country. Between his constituency and Meighen, Colonel Peck stood fast to his leader, and as such he must stand judgment.
 "The policy of Mackenzie King is to return this end of the railway to the status it enjoyed under Laurier, to make Prince Rupert the terminal instead of Vancouver, to carry out the Laurier policy in respect to branch lines. Fred Stork is supporting Mackenzie King on that policy.
 "Can Central and Northern British Columbia afford to vote for any other candidate but Fred Stork?"

BRONCHIAL ASTHMA

Choking and Gasping for Breath Relieved by "FRUIT-A-TIVES"

MRS. PENNINGTON, NEW ROCKLAND, P. Q.

"In 1919, I was taken with Bronchial Asthma and no one knows what I suffered with it during the winter. I began having Choking Spells—gasping for breath and could not speak. I would have one of these bad spells in the evening, one during the night, and one in the morning. The doctor said he could do nothing for me.
 "In the spring of 1920, I started taking 'Fruit-a-tives' and in a few days, the choking spells stopped, and I have had none since May 7th, 1920. I have so wanted to tell other sufferers who have the same trouble about 'Fruit-a-tives' for I know how they must suffer.

Some thought the Asthma would come back on me as winter came on but it has not, thanks to 'Fruit-a-tives' Mrs. J. M. PENNINGTON, 50c a box, 6 for \$2.50, trial size, 25c. At dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

A GREAT many Prince Rupert men will have sympathy with the prisoner who, on finding he had to be tried by a jury of women at once pleaded guilty. He said he could not fool his own wife and what hope had he before a dozen women.

CRIMINALS ARE ROUNDED UP

Thirty Arrested in Montreal, Some With International Reputations as Crooks.

MONTREAL, Nov. 28.—Thirty men, many of them said to be criminals with international reputations, were arrested here by the Montreal police during an extensive raid of underworld resorts. Sixteen are being held for extradition across the border into the United States. Most of those detained are Americans. The round-up was singularly successful, those caught including Nathan Katz, alias "The Turk," with an international reputation as a pickpocket; William F. Dodson, alias "Washington Bill," wanted in Boston for larceny; Joe Earle Corey, also wanted for larceny in Providence, R. I., and a number of others.

The raid was carried out on instructions from Chief of Detectives LePage in an effort to rid the city of a large number of criminals who have flocked here from all parts of the continent and whose presence is regarded by the police as a menace to life and property.

Low Dives.
 Dance halls, all-night restaurants, the red light district, and crowded street cars were the settings for the arrest of the prisoners, whose number includes men involved in all kinds of crime.

The arrest of Nathan Katz, more commonly known as "The Turk," is regarded as a coup in local police circles. Katz was picked up on a St. Catherine car between Bleury and Amherst streets during the six o'clock homeward rush of commuters by Detectives O'Donnell and Isale Savard on suspicion of being a pickpocket.

Katz is 31 years old and has spent 25 years in America. His home is now in New York, and he has a police record in Buffalo, Philadelphia, Cleveland, Toledo, Chicago and Detroit. He is also well-known in London, where his specialty was to "work" the crowds attending the opera. A respectable-looking elderly man, Katz always works alone.

Another important capture was that of William F. Dodson, who has seven aliases and who is wanted in several parts of the United States. His arrest was effected by Detectives Belanger and Martin and Sergeant Forget, of the automobile squad. He is being held for extradition to Boston, where he is wanted, for larceny and automobile theft on October 27, 1920.

Waived Extradition.
 Joseph Earle Corey, who was arrested by Detectives Lajoie and Morin, is also wanted for larceny and automobile theft, committed in Providence, R. I., and for jumping bail there. This morning he waived extradition proceedings and will be taken back to Providence as soon as an officer arrives from that city.

Although the round-up proved successful many other strange criminals remain in the city and Chief LePage issues a warning to merchants to be very careful when they notice strangers in their stores, and also to automobile owners not to leave rugs or baggage unprotected in their cars. Women on shopping expeditions are advised to carry their purses securely. Men are warned not to carry pocketbooks in outside pockets.

BRINGING UP FATHER

BOOST FOR ME

A Political Rhyme Dealing with Local Topics.

Mr. Prince Rupert, to famous old Peck:
Why stand in the way, my progress to check?
Independent? Oh yes, it is all very well;
It's the same old odor of Tory I smell.

A stench in my nostrils I wish to avoid,
Its fumes are so bad to rid them I tried.
Oh, let me recover from the dreaded affair,
Give me Liberal treatment, and a breath of fresh air.

Good enough, gallant Colonel, stand out of my way,
For good old Prince Rupert I ask but fair play.
I am tired of the past, under Tory regime,
Of G. P. R. potion and pill of foul scheme.

As Prince Rupert, Prince Rupert, I cannot withstand
The sidetracking plots at the Tory hand,
You gave me no railroad, the Liberals did;
Of my presence always you tried to get rid.

The Grit gave me the railway and he will next rule;
To vote for you, Peck, would I not be a fool?
If you were elected you nothing could do
Though you danced and kicked up a hullabaloo.

The lesson I've learned as Prince Rupert, you see,
With Tories as bedfellows I cannot agree.
'Tis simple the reason as stated or told:
I was treated as alien by the Tory fold.

And now Prince Rupert will gallantly stand
To make the Stork fly to the Liberal hand.
A bird in the hand is worth two in the bush—
Then make Stork a member of the Liberal push.

If I vote for the Colonel I stand all alone;
I would stand then unaided and get but a bone.
A member I must be of the government then—
Vote for Prince Rupert, vote all ye brave men.

I stand as Prince Rupert on tiptoe of hope,
Don't injure my cause by the Tory dope.
It's the object desired, not the man in the fray;
It's the Liberal cause that is coming my way.

A man in the government, this is my plea;
It is the bird in the hand and not in the tree—
And Stork is that bird in the hand at this time,
So vote for Prince Rupert and the Grand Trunk Line.

—PRINCE RUPERT.

MUCH CRIME IN WINNIPEG

WINNIPEG, Nov. 28.—Never before in the history of the Winnipeg police department have there been so many criminals in custody, Chief Constable Chris H. Newton, said today in response to an inquiry as to the progress police are making in rounding up numerous gangs which have operated here, particularly in the past few weeks.

Thirty men and women are waiting trial on serious criminal offenses, said the chief.

Apprehensions of criminals specializing in housebreaking, have been particularly numerous in the past few days, and this activity has enabled police to solve some other offences, including the theft of several automobiles.

Eighteen Arrests Made.

Eighteen arrests have been made in the clean-up which is now in progress.

A large quantity of the goods stolen in the past few days has been recovered, police say.

Acting Chief of Detectives George Smith has turned loose on the trail of the law breakers every member of the detective squad who can be spared from other duties. Good work has been done by the many detectives at work on the clean-up, it is stated.

Support of police in the campaign to rid Winnipeg of undesirable is being received from the courts. This was in evidence when Magistrate Sir Hugh John Macdonald sent Charles Carson, alias Shannon, to jail for three months because he was found in the lounge of a Winnipeg hotel in the possession of a .45 revolver.

RALLY OF COLONEL PECK'S SUPPORTERS SATURDAY EVENING

There was a rally of Col. Peck's supporters in the committee rooms on Saturday evening. There were about forty or fifty persons present. The candidate made an enthusiastic address, telling of his trip in the interior. Other speakers were T. Ross McKay, W. W. Wright, O. H. Nelson, C. O. Rowe, A. W. Edge, Geo. Frizzell and J. H. Hilditch.

D. G. Stewart, campaign manager, presided.

POLITICS AND WAR.

Editor Daily News: Might I ask the hospitality of your columns to put before the public the following letter, which I handed, personally, to Mr. Newton, editor of the "Empire" in answer to his editorial of the 25th inst., a letter which he has apparently refused to publish, showing once more his fairness in attacking me in his paper and refusing me the right to answer. I suppose he will call that "British fair play."

Nov. 25, 1921. "To the Editor of the Empire: "Mr. Newton in his editorial of yesterday's issue of the Empire is trying to drag me into the political fray in my official capacity as Belgian Consul. Might I tell Mr. Newton that I represent Belgium here as a Canadian and as any Canadian might represent that country. "Mr. Newton says Mr. Gillart, Belgium Consul ought to be the very last to take political issue against Colonel Peck, for was it not men of the Peck calibre that saved his country from subjugation, etc., etc." And then goes on to say: "But it all shows the ingratitude which still exists in the world."

Peck Calibre. "Well, I agree with you Mr. Newton, the war was won and Belgium made free through men of the Peck calibre and surely not through men of the Newton calibre. It is not necessary to dwell on that. Everybody will admit it and so will Mr. Newton. "Now, Mr. Newton, I was one of the men of the Peck calibre and I did not wait for the "call" either. I paid my own fare across to get there in time and was there over four years. I can assure you Mr. Newton that my war record is one anyone might be proud of and I am justly proud myself of the distinctions I won at the front although I don't deem it necessary to make "capital" out of it. "I cannot see what "ingratitude" has to do with the political issue of the day. Because Colonel Peck went overseas like a good many others, should I forego my political belief when I know that it stands for the best ideals of democracy, and fall into the Conservative arms?"

Belgium's Stand. "Perhaps Mr. Newton is not aware of the opinion of such men as Lloyd George and Clemenceau of course he does not, having kept safely at home! that the brave stand taken by little Belgium at the outbreak of the war in stopping the German hordes ten against one, was the salvation of humanity, and if it had not been for that, Canada might be today a German possession, and there would be no need for an "Empire" in Prince Rupert nor editorials of the kind of which its editor is so fond. "I did not attack Colonel Peck in my letter and have nothing to withdraw from it. I have as much respect and admiration for the Colonel as you might have, but mine is going to last, whereas I would not be a bit surprised to see you coming out some day full of abuse of the Colonel, when you might be in one of your "sulky moods." It would be like the usual consistency of the Editor of the Empire."

Thanking you for your valuable space, I am, Mr. Editor, TH. COLLART.

ROB MANNA'S VIEWS.

Editor Daily News: Seeing that you are trying to give a square deal to both sides during this campaign, by the letters in your News, I would like to express my feelings towards the candidates in this election. I have known Col. Peck for over 20 years, when he and the late Donald Moore run the Gassiar Cannery. He was one of the best friends to the white fishermen. In the Skeena district my poor fisherman in need was always welcome at the Gassiar Cannery. I know at that he had a hard fight to get that cannery built, just the same fight I had to put myself to fish my own gear at the river for the independent licenses. Now things are changed. Now I have not seen Colonel Peck since the morning he left for the front. I shook hands with him that morning he left. Although I have been in Rupert all the time I never came across him. Although I have been reading

about him and his doings at Ottawa, I know he as an Independent at Ottawa without any party strings on him. He will do his utmost for Prince Rupert, no matter what government is in power. We have made some great blunders in Prince Rupert since it started as a city. It would be the greatest blunder we ever made if we would not return to Ottawa Colonel Peck. I know all the old time fishermen will go solid for Peck. He is the man to represent the fishing industry. He knows all the ins and outs of the industry. He has lived so long here and been in the business. Some of the remarks in letters in the News about how he voted for the Meighen Government at times at Ottawa, well it does not pay to be Irish all the time, fighting the Government at Ottawa. Sometimes you can get things for the district easier the other way. I have always been Liberal myself but studying the political situation I'm with Colonel Peck as an Independent fisherman. All fishermen realize that Peck is for the Fishing Industry. We know what he has done at Ottawa since he went there. You can lift any Eastern paper and can always see his name speaking on the floor of the House. No matter what Government is at Ottawa, we can always depend on Colonel Peck to get us a square deal for Prince Rupert.

All ye old timers you all know Cy Peck. River fishermen friends send him back to Ottawa with a majority on Dec. 6, 1921.

ROBERT BANNA, Fisherman pioneer of Prince Rupert, since June, 1906.

LOUIS COMES BACK. Editor Daily News: Resorting to personalities I know is not a proper way to conduct a political discussion but Mr. Salter has started to ball roll and if the editor will bear with me this time I promise to be good in the future. I would be pleased indeed if Mr. Salter would show where I assumed a superior attitude or intimated that I alone am competent to air my political views in print. I also ask him, as a gentleman, to prove his assertion that I have made scurrilous attacks upon the Colonel.

When Mr. Peck entered the field as candidate for Federal representative, he laid himself open to criticism as to his qualification and past record and I have confined my arguments strictly to those subjects. Mr. Salter's insinuation that my hand is the hand of Esau and my voice the voice of Jacob, is unworthy a gentleman. His suspicions are no doubt fostered and fed by his own inclinations and reveal his present state of mind. Mr. Salter should remember that when he launches himself into a political campaign he invites criticism from anyone who wishes to challenge his views.

Mud Slinging. When Mr. Salter made his attack on the Daily News, said attack was also aimed at those who had previously appeared in its columns. Mr. Salter took upon himself the task of correcting the Daily News for what he termed mud slinging and insidious propaganda, which he said was carried on by this publication, but did Mr. Salter ever lodge a complaint against the foul language that pollutes the pages of our other local sheets. The Daily News has conducted a gentlemanly campaign, while its contemporaries have resorted to a language which is suitable for circulation only among elements typical of the slums.

Mr. Salter says further that I "with that shadow" meaning Fred Stork will go down to political oblivion on Dec. 6. If it will tend to light up the density of his mind I will explain to Mr. Salter that I have never been conspicuous on the political arena. As an elector I have simply aired my views on the candidates and the political situation and have tried to guard against an attitude like Mr. Salter's whose language runs to vituperation when arguments fail.

No Longer Dear. I notice with regret that Mr. Salter has ceased to call me his Dear Louis, he evidently thinks I am getting to be a bad boy. However if Mr. Salter will forgive me this time I will whisper a secret in his ear, which I am sure will start him off on a gallop towards fame and fortune. This secret which was re-

vealed to me while perusing Mr. Salter's latest epistle is that, judging from the language and general tone of said epistle the writer of same should be able to fill a position of trust on the editorial staff of our local publication the Plaindealer; said publication by the way is known to fame in every nook and cranny of our fair city and neighboring vales and dales.

LOUIS FORKRED.

BETTER HERDS

Some of the finest dairy cattle in Canada are in the Fraser Valley. This is a well-known fact.

Pacific Milk, as you know, is the only milk put up in this province and we feel that it is the most healthful due to the strategic locations of our factories that so many fine herds are being developed between Chilliwack and the Delta.

The high quality of Pacific Milk has made it the biggest milkman in the West.

HEARTBURN A SEVERE CASE

Many people are troubled with heartburn who really do not realize just what it is.

In cases of this trouble there is a burning and burning pain in the stomach attended by disturbed appetite. It is generally caused by great acidity of the stomach, and whenever too much food is taken, is liable to ferment, and become extremely sour, causing heartburn. In such cases vomiting often occurs, and what is thrown up is sour and sometimes bitter.

The one way to get rid of heartburn is to keep your liver active by using
MILBURN'S LAXA-LIVER PILLS
and you will have no heartburn or other liver troubles such as constipation, jaundice, water brash, hoarse speech, before the eyes, coated tongue, foul breath, etc.

Miss Edith Collins, Shallow Lake, Ont., writes:—I have had heartburn for a long time. There were gnawing and burning pains in my stomach, and then when I used two vials of Milburn's Laxa-Liver Pills, and they have cleared me of my heartburn. I don't think they can be beaten by any other medicine.

of the flood and move their wives and families to the city were Messrs. Wilson, Garlelén, Geop, Allan, Cameron, Kemp, McKenzie, Gagne, Watt and Booth.

Before leaving hurried salvage operations were conducted at the Cache. Pianos were set up on boxes or logs, and everything possible was moved off the floors.

Four cows, the property of J. Coyle, were drowned in the flood.

The refugees from the Cache are scattered about the city in the homes of their friends, waiting for the water to recede and hoping that it will not rise high enough to move their homes about. Some of the houses at the Cache are charming and spacious residences, and the damage and inconvenience which the flood is causing the people who reside there is most distressing.

Engineers state that the Nechaco river, freezing later than the Fraser, which usually jams at the Fort George canyon, fifteen miles south of Prince George, is always liable to cause this trouble, although in normal years this does not occur. The only solution in sight is the possibility of the projected pulp company building the dam at the Isle d'Pierre for power development. This dam would form a lake above the site and the heavy ice which now drifts down from the upper river would be arrested there. The ice forming between the mouth of the Nechaco and the dam at Isle d'Pierre would not be a menace.

Properly damaged by the flood up to the present time is not large, but there is some danger of the big Foley, Welch & Stewart boats "Operator" and "Conveyor" being swept off their cheeks and down river.

Yesterday afternoon the water at the western end of the railway yards had flooded the tracks in the yards, and had formed large bays in the low ground between the tracks. Towards evening the wild flood in the railway yards threatened the existence of the main line and engineers of the railway company laid plans for the blowing out of portions of the grade on the northern tracks just west of the round-house in order that the water in the yards might drain out into the turbulent slough channel. Blasting commenced about five o'clock and the heavy shots necessary to move the frozen grades, were heard far into the night.

The houses affected belong to people connected with the railway company or with its construction. These are located on the portion of the townsite reserved for railway purposes north of the tracks, where, during construction, the great warehouses and wharves were located at which the Foley, Welch & Stewart boats delivered their freight from the end of steel, 300 miles up the Fraser.

CONSERVATIVE PAPER SAYS RAILWAY HERE IS ONLY "STUB" LINE

In an open letter to Hon. T. D. Pattullo, asking for his co-operation to get the pulp mill going at Prince George, the Conservative paper, says:

"Today the Grand Trunk Pacific, under the direction of the Canadian Railways, hurries three trains a week to and from your home town of Prince Rupert, connecting with the main line of the national transcontinental at a junction in the mountains. The great artery of commerce, planned to shorten the journey between the Orient and the Occident, has degenerated into a 'stub' line. The country contiguous to the G. T. P. between the mountains and Prince Rupert is in a state of suspended animation. Its development, under present conditions, promises to be a slow and laborious process."

TAKE NO CHANCES ON GOVERNMENT'S RETURN

Constituency Ready for Change, Says Fred Stork on Return From Surf Inlet.

Fred Stork returned last night from Surf Inlet—completing a stormy passage which took him seventeen hours, but he was in fine condition this morning and left on the train for Terrace, where he is to address the electors this evening. He will also visit other interior points.

Mr. Stork had a good meeting at Surf Inlet and says he expects to get a large support from the miners and others at Princess Royal Island.

The Liberal candidate says the more he travels around the constituency the more convinced he is that the country is ready for a change. The people want to take no chances on a continuation of the present government, which has always shown itself hostile to this section of the country.

THE FLOOR HELD.

"Did your watch stop when it dropped on the floor?" asked the man of his friend.

"Sure," was the answer. "Did you think it would go through?"

Sport Chat

In the first fortnight's games of the Trail Club Cup billiard competition three players have won two games and lost none. They are Jowa Howe, W. J. Nelson and Fred Stephens. W. D. Smith, Joe Brown and A. Kinghorn have each lost two games. The Wanderers' Club, to whom the winners belong and the St. Andrew's, with whom the losers play, are the only two teams to have played in two games so far. By the end of this week all the clubs in the league will have played two matches and then the individual records may be computed on even terms. Tonight the Trail and the Elks play and a good interesting match is expected for both teams have already shown considerable class. There is little likelihood of the Trail making a clean sweep of the Elks as they did with the St. Andrew's in the first game of the season.

Willie Mitchell, of the Colts Intermediate basketball team, heads all the scorers in all the league games so far this season. In two games played he has scored a total of 25 points. C. G. Clementson, of the Elks senior team, has scored 26 points but both games he played in have now been declared exhibition matches. Miss S. Calderone is the leader of the Ladies' League scorers she having made 22 points in two games. G. Hythe, with 12 points to his credit, is the head of the Boys' Juniors.

Roy Priest, who played basketball with the Elks team in the Senior League game against the Sons of Canada on Friday night, is one of Vancouver's star basketball players. He spent the past summer in Stewart and was passing through at the week-end on his return home by the steamer Prince Rupert so the Elks signed him on for the game. Priest was a member of the Y.M.C.A. select basketball team which went from Vancouver last season to play with the University of Washington. He was working at Stewart with L. A. Behnson, a brother-in-law of C. C. Clementson, the local player. Mr. Behnson also went south on the same steamer.

DOGS CARRY BALLOT BOXES TO FAR NORTH

EDMONTON, Nov. 28.—Ballot boxes for the northernmost edge of the province left Edmonton this morning via the Alberta and Great Waterways, and will be carried as far north as Fitzgerald by dog team. A. W. Mackie is in charge at will be met at Waterways by Emil Shott's team of huskies, the party immediately setting out for the down river party, delivering the boxes to Mackay, Chipewyan and Fitzgerald.

About ten days will be consumed in making the trip, a start being made just as soon as Mr. Mackie arrives at Waterways. Below Mackay it is likely that Shott's dogs will have to break the trail, as there is yet but little traffic on the Athabasca, and the heavily laden mail teams will not leave for some time after the government party. Approximately there are 100 voters at Mackay, 200 at Chipewyan and 175 at Fitzgerald.

LIQUOR SEIZURES MADE AT REGINA BY CUSTOMS OFFICIALS

REGINA, Nov. 28.—Excise-men made here a few weeks ago by a local weekly paper has resulted in the Dominion police seizing the stock of the Regina Wine and Spirit Company and the Prairie Drug Company. Police are now in charge of these two warehouses and are holding liquor stocks for analysis and determination of the right of such companies to blend or compound liquors. Goods to the value of millions of dollars are being held by the police. Seizure was made by D. W. Taylor, assistant commissioner of excise and customs.

Mr. Taylor came from Ottawa expressly to make the raid. Accompanying him were several other high officials of the Dominion customs, among whom were A. M. Code, customs collector, Winnipeg.

"The raid on the premises designated," said one official, "was made in response to certain charges which have been circulated regarding the compounding of liquors in Regina by means of dyes and extracts.

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours, from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than at Port Simpson.

Backache

Backache is the outstanding symptom of kidney disease. It is often made the mistake of attributing other causes and overlooking the derangement of the kidney until serious developments have made it difficult to obtain relief.

This letter points to a treatment which has been so thoroughly proven and so effective in the majority of cases that you need afford to overlook it when it arises for its use.

Mr. Albert Brunet, R.R. No. 10, Ottawa, Ont., writes:

I have used Dr. Chase's Kidney Pills for the past two months. I have suffered with kidney trouble. I have taken various medicines previous to without any good results. A friend has advised me to use Dr. Chase's Kidney-Liver Pills and the second box made me feel all right. I have now used six or eight boxes, and am completely relieved.

SPEND XMAS AT CALCUTTA

Prince of Wales Will Attend Big Race Meet and Other Festivities.

LONDON, Nov. 28.—(By Canadian Press)—Christmas week is always the big week of the year in Calcutta, with the race for the Viceroy's Cup and other festivities and the climate is at its best then. The Prince will arrive at Calcutta on the morning of Christmas eve, and will remain there until the afternoon of December 30. The outstanding ceremonial there will be the opening of His Royal Highness of the Victoria Memorial Hall—some twenty years after its conception by Lord Curzon. One cause of the delay has been the development of the Mskrana quarries in order that only Indian marble might be used in the construction of the memorial, and another cause has been the preoccupation of the war. Calcutta has long been known as the City of Palaces, but it has no building which can compare in magnificence with this wonderful memorial to the great grandmother of the Prince of Wales, and which is to be, in its contents, a mirror of Indian history under British rule.

On to Burma.
 The Prince is in the Prince of Wales, and he will arrive at Rangoon on board a Royal Indian Marine steamer on January 2 for a eight day's stay. New Year's Day being Sunday he will be in Rangoon in time for the Proclamation Parade in celebration of Queen Victoria's Proclamation as Empress of India on January 1, 1875. This will be the first occasion of which any member of the Royal House of the King-Emperor's representative, the Viceroy, has been in Burma for the parade.
 In no part of India is the Prince of Wales assured of a more enthusiastic welcome than in the south, where the Madras Legislature has made arrangements for a fitting reception for him.

Popular and Reliable

10c CIGAR
 Union Made in Vancouver Since 1908

In Lord Wellington, the heir to the throne will have a host who has the distinction of having spent nearly eight years consecutively as Governor of two of the Provinces. A special feature of the Madras program will be the assembly of many thousands of school children to greet the Prince, Boy Scouts and Girl Guides will be in evidence at most of the large stations which the Prince will pass on his way to Madras, where he will arrive on January 13 and remain four days.

Southern Army.
 Two great States of the South Mysore and Hyderabad, will be visited. At British entombments there the Prince will see a large portion of the Southern Army, which is under the command of General Sir William Marshall of Mesopotamian fame.

At Nagpur, the headquarters of the Central Provinces Government, there will be a durbar for the Prince to receive representative notabilities. From Nagpur the Prince will pass into Central India, and will arrive at Indore on February 1st.

Thence His Royal Highness will proceed to Bhopal as the guest of the thirteenth female ruler in succession. There is a fitting feminine touch in many of the arrangements made by her highness the Begum, whose Imperial Service troops bear the title of Queen Victoria's Own Lancers. The only woman ruler in India, she will have the assistance of her three sons in making the Prince's sojourn pleasant and interesting. The Begum may not eat in public, but at the state banquet she will appear and make a speech welcoming the Prince. She has a good command of English, Tiger and bear shooting in camp some miles from the capital will be part of the program for His Royal Highness.

Tiger Shooting.
 A splendid reception will await the Prince at Gwalior, which he will reach on February 8. The Maharaja Sindhia, who rendered great service to the Allies during the war, is a many sided man, and will be at the Prince's side when tiger-shooting in the Gwalior preserves, which are famed as being one of the most certain haunts of the tiger in India. The last distinguished visitor from Western Europe to have personal experience of the delights of the Gwalior jung in this respect was M. Clemenceau.

RIDICULE VICTORIA

New Westminster Replies That It Is Not Indulging in Politics.

VICTORIA, Nov. 28.—The municipal council of New Westminster has refused to endorse the action taken by Mayor Porter and members of the Victoria city council to censure the Provincial Government for alleged extravagance and sending the province "into bankruptcy," according to word which has reached the Parliament Buildings.

The New Westminster aldermen at their meeting discussed the proposal of the Victoria aldermen contained in a communication from Mayor Porter. The aldermen said that the Porter missive "seemed rather a violent tirade against the Provincial Government."

On the motion of Alderman Keary, passed unanimously by the council, it was decided to notify Mayor Porter that "the city council of the Royal City does not indulge in politics."
 The Nanaimo city council, which also received a communication from Mayor Porter, passed a motion approving of the proposal that the Government should be asked to give the municipalities financial assistance, but "any talk of asking the Government to resign" was ridiculed as foolish by Alderman McQuinn and other members of the council, who suggested that a committee of three each from the Union of R. C. Municipalities and the Legislative municipal committee might be appointed to break the existing deadlock.

Last fall I contracted a severe cold, the like I never had, my head and nostrils were so clogged up I could get no vent, and could scarcely get my breath. I tried remedy after remedy until at last I thought I would try 'Dr. Wood's.' After the first dose I felt relief, and by the time the bottle was finished I was all better. A GREAT LIGHT.

The skipper was examining an ambitious gob who wanted to be a gunner's mate.
 "How much does a six-pound shell weigh?" he asked.
 "I don't know," the gob confessed.
 "Well what time does the 12 o'clock train leave?"
 "Twelve o'clock."
 "All right, then, how much does a six-pound shell weigh?"
 "Ah," said the youthful mariner, a great light dawning on him; "twelve pounds."—The American Legion Weekly.
