Cloudburst Struck Britannia Beach Last Night and Swept Away Half; Relief Rushed

(Special to The Daily News.)
VANCOUVER, Oct. 29.—There has been a terrible cloudburst at Britannia Beach which has spelled catastrophe for the community at that place, with probably considerable loss of life.
Following an emergency call, five doctors and eight nurses rushed there this morning as fast as a steamer can get. These will care for the injured.
The cloudburst struck the little town below the mines during the night and swept away half the houses. Scanty reports indicate that eight people are missing and a large number of others are injured.
Communication is almost cut off.
(By Canadian Press.)
VANCOUVER, Oct. 29 (Noon).—Several persons are drowned and many are injured on the beach by a cloudburst and flood and the extent of the damage by wire, is the report that came over last night from Britannia Beach, according to a brief received by the Government Telegraph through its Vancouver office.
The cloudburst washed out the fill at the mining town at 9 o'clock last night. A great rush of water came down, carrying houses and people on the beach and killing it there. It cut through the town, separating it into two sections.
This morning it is reported that two separate parts of the town are still cut off from communication with each other, and therefore it is impossible to arrive at any definite figures as to the loss of life. It is, however, reported that there have been a number of victims of the cloudburst.
A man of the Government Telegraphs sent a message from the beach where he had gone by motor to report, and then went back to the town to mend the break, which is a wide one. The line with Squamish direct and then back to Britannia Beach by the line with Squamish and the Beach are cut off.
Communication with the place will be by the Union Pacific boat Capilano. This vessel left here this morning with a full load of mail and will go through at full speed to Britannia Beach. It should arrive there at 11:30 this morning.
A message received this morning by Walter Owen, chief of Provincial Police, from Mr. Mees, justice of the peace at Britannia Beach, stated that following the cloudburst during the night half of the town of Britannia were washed down to the beach and the remainder of residents were reported missing. In accordance with a request, five doctors and eight nurses were sent back to the beach by the steamer Capilano, and they were accompanied by constables.

SHIPPING TIED UP BY STORM

Spokane, Thiepvai and Kindarsley Anchored—Prince John Delayed.
The storm which is raging today appears to be centered pretty well in the north although according to reports, it extends as far as Ketchikan and to the Queen Charlottes. The heavy seas in the harbor brought boat owners out in a hurry to see if their craft were safely moored. There is no damage reported although a number of the larger steamers are delayed and some of them have sought shelter.
The Admiral Line steamer Spokane, southbound, has been anchored since last night at Mary Island near Ketchikan. The Dominion government fisheries patrol steamer Thiepvai has taken shelter in Port Simpson harbor where she is anchored.
The Prince John, which left for Massett and other northern Queen Charlotte Island points yesterday morning early, is delayed in returning and will not be back till 7 o'clock this evening. Col. Peck is aboard her, having gone on a campaign trip.
The Hudson Bay schooner Lady Kindersley is remaining in port till the blow lets up. She cleared the customs last night but this afternoon is still anchored in the stream here. Being light now she cannot buck the gales very well.
The trawler New England which arrived this morning from Ketchikan reports having met heavy and stormy weather. She was all night and the most of this morning making the passage from Ketchikan here.

ST. ELOI IS TOTAL WRECK

Engineer Robert Goodlad Burned Result Explosion on Shore—Is in Hospital.
The two-man halibut fishing boat St. Eloi is a total loss and the engineer, Robert Goodlad, is in the hospital suffering from burns about the face and hands as the result of an explosion which occurred following the wreck of the boat when she struck a rock near Minktrap Bay last Thursday afternoon at 2 o'clock. Gilbert Dursey, the skipper and owner, and Goodlad were brought to the city last night by Captain Alfred Swanson on his launch Provincial. Dursey is injured although he, like his partner, suffered from exposure following the wreck.
It was on Thursday afternoon when the St. Eloi struck the rock. It was on ebb tide and with the flood she heeled over and sank and is a total loss. The captain and the engineer left in the scuff and made for shore. Here they started to light a fire with desolate and an explosion of the can followed which resulted in Goodlad receiving his burns.
Burns Not Severe.
Capt. Swanson, on a hunting trip in the Provincial, happened to be passing by about twenty-four hours later and he noticed the scuff on the shore. He proceeded to investigate and finding the plight of the two men he immediately set out for home with them on board. He arrived last evening and Goodlad was taken to the hospital. His burns it is understood, are not very severe and he will recover shortly. Suffering from shock and exposure, neither man was able to eat coming up the coast on the Provincial.
The St. Eloi is a well known craft in the local mosquito fleet. She was one of the smaller halibut vessels and was about 38 feet in length.

VETERAN CUT THROAT OWING TO FINANCES

Herbert Page of Pritchard Was Worried Over Government Loan.
KAMLOOPS, Oct. 29.—Herbert D. Page, 42 years of age, a war veteran, was found dead with his throat cut. He ran a ranch near Pritchard and it is believed he was worried over a \$5,000 loan from the Government, secured under the Soldiers' Settlement Board.
NEW ENGLAND HERE WITH HALIBUT FOR SHIPMENT TO EAST
The New England Fish Company's trawler, New England, Captain Scott, reached port this morning at 11 o'clock from the coast with 90,000 pounds of halibut, between 10,000 and 50,000 pounds of which will be unloaded here and packed for shipment to the Eastern market over the Canadian National Railway. After these fish has been unloaded the balance of the catch will be taken to Ketchikan.

Labor Leader Gets After Government Support Liberals

STOUFFVILLE, Ont., Oct. 29.—James Murdoch, former commissioner of the Board of Commerce and at present vice-chairman of the Brotherhood of Railroad Trainmen, spoke in support of W. L. Mackenzie King last night for the first time since his nomination on the Liberal Ticket in South Toronto.
Mr. Murdoch charged the Government with putting obstacles in the way of the Board of Commerce efforts to reduce the cost of living, until the board resigned in protest against the contemptible force. He also claimed that the Winnipeg strike of 1919 was not a revolution against constitutional government but an expression of dissatisfaction with the present Government.

EMPLOYMENT OUTLOOK AT PRESENT NOT SO BAD

J. M. Campbell, Agent Reports Little Local Unemployment and More Work Will Keep Conditions Fair.
J. M. Campbell, provincial government employment agent, reports that at present time there is very little unemployment locally and the outlook from present appearances is not too bad. Between 60 and 70 men are registered but these are mostly outsiders, having come from Anyox, Stewart and up river points.
Present work in sight includes the building of the road and level crossing at Gow Bay, which will take quite a few bricklayers and rock men, the dock superstructure contract, the station and the court house. If these jobs are completed they will assist materially in keeping down unemployment. Much of the work offering is, of course, of a temporary nature. The uncertainty of the extent of the continuation of work at the dry dock makes that rather difficult to figure on. It is hard to say what the situation will be in a month's time. The large amount of local building that is going on is also helping matters.
A lot of the smaller fishing boats are lying up and that means that still more men will be looking for jobs.

SHIPS TO PLY TO MANY PORTS FROM CANADA

Canadian Merchant Marine to Have Regular Sailings of 26 Freighters.
MONTREAL, Oct. 29.—Canadian Merchant Marine sailings have been arranged for Halifax and St. John for the winter months and will maintain regular freight services throughout the winter to the West Indies, United Kingdom, Australia and New Zealand and South America. From Vancouver there will be sailings to the Orient and to Australia and New Zealand and also to India.
In all, there are 26 sailings scheduled in addition to special charters. These vessels carry the Canadian flag and the name of Canada to the ports of the countries mentioned and the tramps go to the more remote ports with occasional cargoes.

SAILOR FRIEDMAN MADE RICE QUIT IN THE SEVENTH ROUND

NEW YORK, Oct. 29.—Sailor Friedman of Chicago last night defeated Ernie Rice, English lightweight champion, in the seventh of a fifteen round bout last night. A damaged eye compelled Rice to quit.
"Madam," said the maid, "the lady's hair brought your silk dress back, and says it is impossible to dye it to match your hair, as you requested."
"Well," said the lady, "ask what he would charge to dye my hair to match the silk. The colors clash as they are now."

Train Traffic In And Out Of Vancouver Tied Up By Heavy Rains For Four or Five Days

VANCOUVER, Oct. 29.—Never in the history of this section of the Pacific Coast have flood conditions been so serious as they are today.
Railway bridges and tracks have been washed out on the Canadian Pacific Railway and it will be impossible to get a train in or out of Vancouver for four or five days on this line. A section of the town of Port Coquitlam is under water due to the overflow of the Coquitlam River over its banks as a result of the incessant rains during the past few days. The Canadian Pacific Railway bridge and the traffic bridge over the river have been carried away. Other bridges have also gone out. Damage has been done by the rain as far east as Lytton. Mudslides have occurred on the Canadian National line at Boston Bar in the Fraser Valley. The rain has now ceased and it is expected that the waters will commence to recede. Among the big washouts on the Canadian Pacific is one at Mile 121, Thompson division, which is 100 feet long and from 40 to 60 feet deep.

Majority for Government On First Division of Session Shows No Sign Weakening

VICTORIA, Oct. 29.—The Oliver Government was yesterday sustained by a vote of 24 to 18 in the first division of the session. Previous to the vote Premier Oliver and Attorney-General Farris denounced the Bowser charges in regard to the Liquor Control Board and characterized the insinuations as grand stand play.
The Premier brought in an amendment to the Bowser motion for an investigation, demanding that the Bowser "insinuations be put in the form of definite charges" before any investigation take place. The amendment carried, Thomas Menzies, independent member for Comox, voting with the Government.
In their speeches both Premier Oliver and Mr. Farris welcomed an investigation of any specific charge. Previous to the putting of the vote, J. McRae of Yale, R. H. Neelands of South Vancouver and G. E. Henniger of Grand Forks had participated in the debate on the address, Henniger stoutly defending the Government.

OLDEST PEER IN ENGLAND DIES AT AGE OF NINETY-FOUR

FALFIELD, Gloucestershire, England, Oct. 29.—Earl Ducis, the oldest peer in England, died here at the age of 94. He lived in an immense house in the midst of one of the most beautiful parks in the country. Visitors were always allowed to use the park for picnics in summer and the lakes for skating in winter. He also kept up an experimental farm as an example for the tenants on the estate.

HARTLEY DEWART DECLARES FARMERS VERY EXTRAVAGANT

In a statement issued by Hartley Dewart, leader of the Liberals of Ontario in resigning his position a few days ago said:
"It has been constantly urged upon me that I should give the agrarian outfit a chance. Heaven knows I want the limit. Despite all our criticism and help the financial condition of the province is in a sad way, which is not due to hydro obligations, but to gross mismanagement, absolute incompetency and extravagance, or worse.
"Now the same outfit wants to try their pretence hand on the Dominion. God forbid! There should be no alliance or understanding, expressed or implied, between Liberalism and Crerarism."

ARBITRATION IS CONCLUDED

Decision Next Week in Wage Dispute on Canadian National Railway.
OTTAWA, Oct. 29.—The submission of evidence before the Canadian National arbitration board concluded yesterday. The board will give its ruling next week.
President Mosher, on behalf of the men, admitted that some reduction might be justified, but the company was asking too much.
Mr. Brady, for the company, said the company must get the full amount of the proposed reduction.

GRAND TRUNK TRAIN THROWN FROM TRACK; RAIL WAS REMOVED

FLINT, Mich., Oct. 29.—The Grand Trunk passenger train westbound was derailed when persons for whom the sheriff is searching, removed a rail. Three people were seriously injured. The entire train but one car was thrown into a ditch.
Alex S. Munro, who has been second engineer on the Prince John for some months, left for Vancouver on Thursday night having been transferred to the company shops at that port.

AT COW TO START IN TEN DAYS

16 and 20 Men Will Be Employed and Job Will Take About Two Months.
provincial government starting actual operation of the building of the level at Gow Bay and the bridge to it from Third Street about ten days. About 16 and 20 men will be engaged in work and there will be 16 and 20 employed on altogether. The work will take about two months to complete and it is expected will cost the neighborhood of \$7,000,000.

DAUGHTERS ENGLAND ENTERTAINED PYTHIAN SISTERS LAST NIGHT

Last night the Daughters of England entertained the Pythian Sisters and their friends at a whist drive and supper in the Knights of Pythias Hall. There were 14 tables of whist and the first prize winners were Mrs. W. G. Hughes and S. J. Rowe. Consolation awards went to Mrs. J. Howe, who cut for the honor with Mrs. A. Iverson, and D. McCulloch.
On behalf of the Daughters of England, Mrs. Woods welcomed the guests and pointed out that this was to be but the first of a series of similar events through which it was hoped to strengthen the fraternal and social relations of the ladies' orders in the city. After the supper Mrs. G. W. Johnston and G. O. Rowe spoke, thanking the hostesses and expressing the opinions that the idea was a good one.
The affair was in charge of the social committee of the Daughters of England.

PROMOTE UNITY AND HARMONY

That is the Plea of Sir Lomer Gouin, M.C.M.G., in Address to University.
"God has destined us to form links of the same chain and to weld together into a new nation the best qualities of England, Scotland, Ireland and France," said Sir Lomer in an address at Queen's University. "The past teaches us that we have much in common, that the rivalries of old between England and France do not require the offspring of our two races to consider each other as hereditary enemies. We must retain from the past only its lessons of devotion and courage. To whatever race we belong, to whatever faith, party or class we must try with all our heart and soul to realize in fact the national unity of our country more than its constitutional unity, to make it actually one and indivisible."
On Equal Terms.
"Any man in Canada who does not treat upon equal terms, the French-Canadians because they descend from another race, and man who does not grant all his fellow-countrymen the fullest measure of fair play is not a good citizen because he does not work towards that harmonious development."
Through the universities, he pointed out, this harmony could be promoted for education destroyed prejudice and fanaticism and taught the necessity of toleration. In this regard he praised Queen's for its teaching of an enlightened patriotism, justice and moderation.

CENSUS TAKING IS COMPLETED

John Flewin, census enumerator for this district, is spending a few days in town and expects to return to his home in Port Simpson tomorrow night.
Mr. Flewin reports that he has made all his census returns to Ottawa and is now cleaning up accounts. The last return, that from the Stikine district, went in last week. The reports have not been tabulated and there will be no official announcement until it comes from Ottawa. Therefore, there are no totals for the district to be given out, although Mr. Flewin stated that the return for Prince Rupert had been placed about 6,500.

BUILDINGS COUNTY WATERFORD

Threatened Penalties Being Given Information.
LAST, Oct. 29.—The police at Passage, County Waterford, which were wrecked yesterday, were burned to ashes and the villagers were then deliberately threatened with penalties for giving information.

YOU INTERESTED IN SALE PROPERTY?

DAILY EDITION

Saturday, October 29, 1921

Macdonald and Oriental Question.

The Oriental question is one we shall have always with us for we are next door neighbor to the Orient and we are looking to the Orient for business and the people of the Orient are looking to us for business. Our interests to a large extent are mutual. We cannot erect a Chinese stone wall between the Orient and the Occident. It is impossible, and if erected would soon be scaled.

The average man looks with distrust on the Oriental because he cuts wages. The farmer objects to him because he is a serious competitor in business, and of late the merchants have been rising a howl because the Orientals are capturing the retail business. Those are the chief objections given.

The real objection, as M. A. Macdonald points out, is that of race assimilation. The races do not mix. A race of hybrids is not a desirable thing. The hybrid inherits all the bad qualities of either race and few of the virtues of either. Hybridization in this case makes for deterioration.

Hybrid Is Handicapped.

Possibly some may argue that the hybrid is not necessarily a degenerate. That may be true, but all the chances are against the mixing. The Oriental looks with contempt on the man who marries a white woman, and on the offspring. Similarly the white man who marries an Oriental loses social standing and is likely to be thrown in the company of those who are not looked upon as the best element in the community. The result is that not only the influence of heredity is against the hybrid but the influence of environment.

For this reason it should be to the advantage of the Oriental as well as the Occidental that there should be no mixing of the race. But there is bound to be mixing of the race when there is social intercourse, for one leads to the other as naturally as night follows day. The only way to ensure the perpetuation of a white race in this country is to make it impossible for the Oriental to come here to settle. There must be provision made for travellers and students, for to stop them coming would be to stop the progress of the world. Against settlers or laborers or prospective merchants, however, the bars should be put up and nailed up. We do not wish that our people should settle in China or Japan or India to make it a permanent home. So we should insist that the Orientals make their homes in the Orient.

What is said here has nothing to do with those who are already living in this country. The number is not sufficiently large to be a menace, and to a great extent they live as a separate people. Many of them are worthy of the highest respect. Many are well educated and their knowledge, skill, perseverance, patience and industry put us to shame.

We have much to learn from the Oriental and it is well to cease pretending to despise him. We must respect him, but we believe it is better that his development shall proceed on the other side of the ocean and that ours shall proceed on this side.

Must Remember Oriental Development.

One important thing which we on this side of the ocean must not for one moment forget, and that is that the Oriental is developing very rapidly along modern lines. Not only the Japanese but the Chinese are changing fast, and the people of India are joining the march of progress. If we do not wish to be left behind we must keep moving. If we think to shut the door of immigration on the west and keep it shut, it must be by keeping ahead in the race of progress and by filling up our vacant hands and all the waste spaces of this country with white people. We have no moral right to keep the vacant lands idle while there are people wanting to use them. If we wish to have a white Canada we must see that it is populated with whites, and possibly the best way of doing this is to start right at home and let a considerable part of the population be young Canadians, native-born.

THREE HUNDRED USE GYMNASIUM

The Methodist Church Institution is Much in Demand by Young People.

So successful is the effort to utilize the gymnasium in connection with the Methodist church that it is with the greatest difficulty the pastor, Rev. G. G. Hacker can accommodate all who wish to practice there. Every day from four o'clock until half past nine or ten there is baseball or other recreation exercises going on there. It is hardly possible to provide time for all the classes. The Baptists use it two nights a week and the supervising principal of the schools uses it afternoons except Friday. During this week no less than 300 have taken advantage of the opportunities afforded there and in order to accommodate them classes have been put in from 6 to 7 in the evening.

The gymnasium is filling a most useful purpose.

The Man in the Moon SAYS

It is reported that the girls are all saving up to get things for the hospital ball. Why save for the amount they wear?

IN these days of speech making young men should beware of making them long on the most important occasions. I know of cases where a man made a long speech, and after the girl said "yes" or its equivalent she kept him up to his promises.

THE only thing in the world really worth keeping are your temper and your virtue.

There is a chill coming in the air and the coal dealers are smiling because they know they have us where they want us.

PERHAPS when they send their collector around later we shall have them where we want them.

ONCE again the affairs of the country are critical and it requires the very wisest statesmanship, to bring them safely through. Therefore vote for me.

What makes Peck Cy? Is it the thought of what is coming on December 6?

MICHAEL CLARK finds it impossible to keep out of the fray and also he finds it impossible to desert his old friends and co-workers, the Liberals.

FRANCE also is helping to feed the people who stabbed her in the back.

THE price of brooms has dropped. That bodes well for a clean sweep on election day.

WHAT about an overflow dance for the hospital on Monday night? Possibly Peter Black would loan the hall downstairs for the occasion.

TORTURED BY KIDNEY TROUBLE

Quickly Relieved By Short Treatment With "FRUIT-A-TIVES"

MADAM LALONDE

170 CHAMPLAIN ST., MONTREAL, P.Q.

"I am writing to tell you that I owe my life to 'Fruit-a-tives'. This fruit medicine relieved me when I had given up all hope of recovering my health.

"I suffered terribly from Kidney Trouble, Dyspepsia and Weakness. I had these troubles for years and all the medicine I took did not do me any good.

"I read about 'Fruit-a-tives' and I tried them. After I had taken a few boxes, I was entirely relieved of the Kidney Trouble, and Dyspepsia, and had gained in strength.

"I hope those who suffer with Kidney Trouble, Dyspepsia and Weakness will take 'Fruit-a-tives' to recover their health."

JEANNETTE LALONDE.

50c a box, 6 for \$2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

GOOD HALIBUT HAUL SO FAR FOR OCTOBER

Despite Adverse Weather Conditions, Total of 1,400,000 Pounds Landed.

Although extremely unfavorable weather has hampered the halibut fishermen ever since the first of the month, reports obtained at the waterfront this morning place the catch landed at this port from October 1st up to yesterday at 1,400,000 pounds. This compares favorably with October of last year when a total of 1,511,000 pounds was brought in and handled here. With the week-end to go before this month is out it is very likely that this month's total will be around the figure last year. All conditions being taken into consideration, this seems satisfactory.

Many of the small halibut boats have now tied up and the larger boats are moving northwards to the Yakutat and Behring Sea banks again.

METHODISTS WERE AT HOME TO FRIENDS

Enjoyable Entertainment at Church Last Night—Debate Was Interesting.

There was a large attendance at the congregational at home at the Methodist Church last night when a most enjoyable social time was spent by the members of the congregation and visitors. Games and gymnasium turns were part of the entertainment of the younger people and those more advanced in years took part in games in the Sunday School room.

The feature of the evening was the debate on the subject "Resolved that Thomas Edison has done more for the uplift of mankind than Henry Ford." Roth Gordon and Mr. Weistenholme spoke in the affirmative and Fred Mallett and Rev. G. G. Hacker in the negative, and honors were about even.

Refreshment were served by the Canadian Girls in Training, one of the Church clubs, and they certainly proved their ability as admirable hostesses.

COUGHLAN FISHED ON SALMON RIVER ROAD

Last Tuesday J. J. Coughlan, Jr., and friend from Seattle, rode up to Fish Creek to enjoy a few hours fishing, says the Portland Canal News. And did they prove they knew anything about hoisting the finny tribe? We should say they did. After two hours angling they returned to town with a basketful of trout, weighing 22 3/4 pounds, the smallest being not less than half a pound.

BROOMS DROPPED.

MONTREAL, Oct. 29.—In line with the downward trend of prices in other commodities the price of brooms has dropped \$1.20 per dozen.

The reduced selling price is due to current conditions. Carpet brooms are now selling at \$8.40, the price having come down from \$9.60 per dozen, or ten cents each. A reduction of sixty cents per dozen is announced in the price of the heavier quality of brooms used for warehouses, today's price being \$10.20.

TAGGERS COLLECTING TODAY FOR MEMORIAL

Strong Army of Ladies and Girls on the Streets Today.

Taggers are busy today at the various street corners collecting money for the Booth Memorial Fund. The committee in charge comprises Miss Alice Moneour, Mrs. A. H. Bayne, Mrs. S. L. Warrior, Mrs. T. M. Spencer and Mrs. E. A. Woods. E. A. Woods, as secretary of the committee, is taking charge of the collections. Good success so far has been reported and the boxes will be collected at 5 o'clock this evening.

The taggers are as follows: Miss Pete Tremayne, Miss Lorna Tite, Miss Violet Taylor, Miss Alice Spencer, Mrs. S. Alexander, Miss Darreen Woods, Mrs. D. J. Cook, Miss Edna Vickers, Mrs. S. V. Cox, Miss Alberta Hill, Miss Ethel Leek, Miss Alberta Richmond, Mrs. D. McCulloch, Mrs. Pillings, Miss Winnie White, Mrs. E. A. Woods, Miss Lita Corral, Miss Annie Kelly, Miss Winnie Dibb, Miss Lizzie Currie, Miss Mitsu Hara and Miss Gertrude McKay.

The committee is in receipt, through F. J. Fuller, of a donation of \$1 from friends and relatives of the late Sergeant William Booth in the Old Country. This also goes towards the tablet fund.

DISTRICT ENGINEER GONE TO BUCKLEY ON TRIP OF INSPECTION

A. L. Garruthers, district engineer for the provincial government public works department, left on this morning's train on a week's inspection. He will visit Quick, Burns Lake, Houston and Francois Lake.

At Quick, work is proceeding rapidly on the big bridge across the Buckley River and there is also a small road gang at work. The steam shovel is still in operation at Francois Lake and at Houston a big gang of men is busy on the main road between Houston and North Buckley which will ultimately be the Fraser Lake road.

--just like new!!

How often have we heard such an exclamation from our customers when they see the result of the Dry Cleaning and Pressing we give their garments.

You'll say it too, when you see the work you ask us to do for you.

Sport Chat

The site of the new skating rink at Smithers has been cleared and levelled and all that is wanted now is sufficient frost and it will be in operation. The people of Prince George have secured permission from the provincial government to buy a site and a campaign will shortly be started seeking the support of the general public. Both Smithers and Prince George will have good skating rinks this winter and the people will be enabled to enjoy the popular winter pastime. It is high time Prince Rupert people were thinking along similar lines and preparing Morse Creek. What are they doing?

Now that it has been announced that government relief money for unemployment this winter are to be granted to the municipalities for permanent work, it is being suggested here that some of this money might be spent on the establishing of new recreation grounds and the improving of the old ones. Everybody knows about the rock pile at the Acropolis Ground which ought to be removed and the bad condition of the field where gravel and small stones endanger players. Something could be well done at the Acropolis—indeed something ought to be done. Then the establishment of another ground somewhere else in the city where it would be more central and where the surface would be more suitable is also worthy of attention. Playgrounds have been promised and it can hardly be said that those promises have been entirely fulfilled although some work has been done. It is true.

The personnel of the Sons of Canada and the Elks' teams that will be entered in the Senior Basketball League this winter will guarantee that there are going to be some mighty keen and well contested matches as soon as the schedule gets under way. On these two teams will be found some of the oldest and most formidable players of the city who have shown on many occasions are this. They will prove as great rivals in basketball as they did last summer at baseball. The third team is the Great War Veterans of whom not quite so much is known. Their players will be more or less new to local fans and somewhat of unknown quantities. How they will size up against the other two teams remains to be seen. Everyone hopes that they too will be able to offer stiff resistance to their opponents and thus doubly increase the interest that will be attached to the winter sport.

BANK STAFF MAKES PRESENTATION TO MANAGER WHO LEAVES

The staff of the Canadian Bank of Commerce this morning presented L. M. De Gex, their manager for the past eight years, with a beautiful case of pipes as a token of their esteem on the occasion of his leaving the local bank to take up his new duties on the staff of relieving managers at Vancouver. The presentation was made by G. Whitehead, the accountant.

Mr. De Gex expects to leave the city next Thursday night. C. M. Short of Victoria will arrive in the city on Wednesday.

Mr. De Gex has proved himself a most efficient manager and has built up a good business here along conservative lines.

FUR FARMING ON ISLANDS

Marten Being Raised Near Ketchikan as Commercial Venture.

The question of utilizing some of the islands on this coast for raising fur-bearing animals has often been considered. While the furs in this mild climate are not of the first quality, they command a ready market and their production might well prove profitable.

E. C. Howard has an island near Ketchikan on which he is raising marten for the skins. In writing about his experiment he says: "I have been very successful in getting fifteen as fine specimens as I have ever seen and I have men out now getting more and expect to have my ranch all stocked in the course of the next year."

Plenty of Food. The island has an acreage of about 6,440 acres with high hills and heavy timber, and I turn the marten loose on it. Up to date they are certainly doing fine, some of them are quite tame and come to the house to get their food, but there is an abundance of food on the island for the number I now have, and I find the most serious mistake that can be made is to over feed them. It is necessary to make them rustle for their living, and compel them to live in their natural state as much as possible.

In order to make it interesting for them it is well to catch squirrels and mice and put them on the island alive. These the marten will catch, which I assure you they are capable of doing. They are very fond of cabbage and carrots cooked with a little butter, which is given them occasionally. During the berry season they feed almost exclusively on this diet, and it agrees with them. They eat most anything that is put in their enclosure and eventually worry themselves to death if an understand how one can be made a pet and raised, but when you breed them commercially it is quite a different matter, and I am of the impression that the only way there can be any big money made out of the raising of marten is on the island in their native country, where they can be turned loose and live in their natural state. I look for a great many of the islands along the Alaska coast to be used for this purpose, and I sincerely believe that whoever undertakes the raising of marten in this manner, and is willing to give the business the necessary attention will meet with decided success.

BISHOP WOULD MAKE CHANGE PRAYER BOOK

LONDON, Oct. 29.—The question of the Anglican prayer book was discussed by the Lambeth Conference here. The Bishop of Chelmsford led the attack on the prayer book, asserting that the ancient liturgies were not wholly suited to modern needs. "The independencies of the marriage service ought to be eradicated," he said. "The burial service ought to be entirely rewritten because it is a hopeless pagan thing."

Cries of "No," "No," greeted this. He then suggested that new items of liturgy ought to be inserted to provide for new phases of life such as democratic governments, international relationships, school teachers and newspapermen. He made a strong plea for training preachers to be real preachers instead of "mere chatterers or deliverers of inconsequentialities."

Lawyer—So you want divorce from your wife. Aren't your relations pleasant? Client—Mine are, but her's are the most unpleasant I ever met.

INCOME TAX TO REPLACE THE POLL TAX

Proposal of Provincial Government Would Collect From Every Employee.

VICTORIA, Oct. 29.—New income taxes of one per cent on all incomes and done away with exemption of all incomes under a certain minimum, which are now being discussed by the Provincial Government in connection with revision of the taxation act, will tap the income of many persons who now escape paying anything to the Province, it was explained.

At present, it has been pointed out to members, casual workers, some of them earning big money can go through the year without paying any income tax although they may earn between \$2,000 and \$3,000. Proposals being considered by the Government would make it compulsory for employers to collect one per cent from the salaries of all employees, just as deductions are now made for the Workmen's Compensation Board in the case of industries.

All Will Pay. This would enable the Government to tap the income of every employee in the Province, it is explained. Many now escape as they wander from job to job and the Government has no means of holding them to an income tax even if they earn over the exemption limit. Under these latest proposals the Government would get its money at the same time the employee gets his money.

People who come in from outside the Province for casual work and who do not pay anything, would have to contribute from their earnings under this new scheme. Along with the one per cent tax on all incomes if it is proposed to do away with the poll tax, it was explained today, as the poll tax is considered unfair in its incidence and cannot be collected from everybody, no matter how many collectors are sent out.

According to Earnings. The new tax will mean that the worker on small wages will contribute proportionately to his earnings and not a flat sum, as under the poll tax. Small landholders, some of whom do not make enough to pay income tax under present law and are exempt from poll tax as they pay small taxes on land to the Government, will have to pay income tax on whatever income they earn under the new proposals. This, it is hoped, will tax a new source of income that has escaped so far.

PARIS GIRLS WILL STILL CUT DRESSES AS SHORT AS EVER

PARIS, Oct. 29.—"Cut them longer? Never!" is the decision of the laughing midnettes to the ultimatum of the Paris dressmakers that more cloth must be used in French style creations for the next few years.

As a result there is a merry row in several Paris ateliers, for the mannequins who exhibit the gowns on their slender figures to customers have sided with the style fixers, under the threat of losing their jobs, while the bobbed haired, low bloused blondes who are a source of joy to visitors at Paris, still show at least eighteen inches of shapely leg—between their shoe tops and knees—perhaps even a trifle more.

Of course this tendency is likely to arouse a profuse criticism of French modistes if the girls insist on showing their legs while the rest of the world covers them, but the midnettes laughingly pick up their bundles and declare: "Why worry? We know it's easier to walk with short skirts, and if the men we meet like us that way it is our business and not that of the big dressmakers."

Pastor—You seem a bright and dutiful child. I presume your dear mother attends to your spiritual training. Little Oliver—You said it; She spans me with her onion board.

Sale of Crown-Granted Mineral Claims for Delinquent Taxes in the Prince Rupert Assessment District

I HEREBY GIVE NOTICE that on Tuesday, the 8th day of November, 1921, at the hour of 10 a.m., at the office of the Provincial Assessor and Collector in the City of Prince Rupert, B. C., I shall offer for sale at public auction the Crown-Granted Mineral Claims hereinafter set out, of the persons in the said list hereinafter set out, for delinquent taxes unpaid by the said persons on the 30th June, 1921, and for costs and expenses, including the cost of advertising said sale, if the total amount due is not sooner paid.

The collector will be pleased to receive any information respecting the following list where the owner is a member of the Allied Forces and entitled to the benefits of Section 29 of the Taxation Amendment Act, 1918.

Table with columns: OWNER, CLAIM AND LOT NO., TAX, COSTS, TOTAL. Lists various mineral claims and owners, including names like E. J. Smith, J. H. Brandon, H. Irving, C. Warford, B. Halhead, R. Donaldson, etc.

Waterfront Whiffs

Doings of the Mosquito Fleet Which Is the Chief Source of Prince Rupert's Prosperity

In the absence of the Admiral of the Mosquito Fleet, who is away from port on his flagship, his genial staff gave out the following information as to the doings of the fleet during the past week. Very dirty weather is still reported from the deep sea fisheries and catches have consequently been light. However the crews of the fleet are in excellent condition and though perhaps a little poor in pocket, at the moment, they are wealthy in optimism, and on all hands one hears expressions of better times ahead in view of the forthcoming election, the consensus of opinion being that there is bound to be a change in Government after the polling on December 6.

John Peterson is treating himself to a new boat, and has placed an order with N. M. McLean Boatshop for a 48 ft. fishing boat, which will be fitted with a 25 hp. Standard engine, and will be completed around December 15.

The Westerner, Capt. T. Wilson, has returned to port with a broken shaft, and is now lying at Cow Bay. A new shaft is being made at the imperial Machine Shops, and it is anticipated that the repair work will be completed early next week. The Westerner has been out on the deep sea fishing grounds for twenty-four days. Capt. Wilson has made fourteen trips this season.

The Wigwam, Capt. Claud Ketchum, arrived on Wednesday from Georgetown, towing a scow of boxes and a scow of lumber. The boxes were for the Canadian-Fish and Cold Storage Co., Ltd., and the lumber for Eastern shipment. Capt. Ketchum reports that the Georgetown sawmill is running full blast, employing about sixty men. The Wigwam is a snappy craft, 50 ft. long by 12 ft. beam, fitted with a 60 h. p. heavy duty engine.

The Narbethong, Capt. Freeman, is in port at Cow Bay, with her newly approved life boat aboard, and has everything in good shape to handle forthcoming business.

The Ingrid B. proceeded on Thursday to the Cold Storage for ice and bait preparatory to leaving for the deep sea fisheries.

Capt. Pete Rovvick broke a coupling on his boat while over at the Queen Charlotte Islands and ingeniously improvised a coupling to enable him to make port. He is having the necessary repairs executed, and will proceed on his regular jaunt when they are completed.

The following boats are in Cow Bay: Laura E., Glaran, Dolphin, Debora, Lewis Island H., Monty, Beula, Odin, Viren, Bob, Chatham, Glide, Kerran, Marvin, Annie May, White Lilly, Violet, Carl, Mary M., Silver Spray, Ohio, Tseekwa, Viola, Lillian M., Wanderer, Todd, Sadie.

The Lady Ellen, Capt. J. E. Purcell, is busy refitting and will leave for the fishing grounds in the near future, weather permitting.

The Billy Boy, Capt. O. P. Smith in company with Benny Crossell and George Wilkinson, has just returned from a shooting trip. They had a good time and managed to bring in two deer and four geese.

The repairs on the Molly May as far as the new pilot house is concerned, are nearly completed. She is now waiting on a new crankshaft which is to come from Seattle. It will be some three or four weeks yet before the Molly May will be in shape to ply her trade.

The Cape Spencer, Capt. Dan Larson, came into port last Monday and unloaded a light catch of halibut. Bad weather experienced was responsible for a light catch.

After an absence of two weeks

the Ha, Capt. Jimmy Goodlad, made port on Thursday morning with 1800 pounds of halibut aboard. The worst kind of weather was encountered and Capt. Goodlad is not very elated over the catch.

The Joe Baker, Captains Fred Blondin and Joe Penny, is preparing to leave on an extensive hunting and fishing trip. They intend to go as far as Queen Charlotte Sound. Capt. Penny is one of the well known crack shots on the Pacific Coast and promises trouble for any game that crosses his sight. He uses a .303 Savage and can shoot equally as well either right or left handed.

The Deborah, Capt. T. Miller, which has been laid up all summer, has just completed refitting for the halibut fishing, and left for the deep sea fisheries last Thursday.

Capt. Gordon Brown of the Dolphin is in a jubilant humor these days. It is said that coming events cast their shadows before and it is quite within the realms of possibility that some very interesting domestic news will be heard about Cap. Brown in the near future.

Bill Vincent of the Molly May is one of the old timers in the fishing game here. He has been fishing from this port for the past ten years and came from Vancouver to Prince Rupert in 1911. Bill has fished all up and down the Pacific Coast for the past twenty-five years.

The Prince George came off the Government Dry Dock on Thursday morning and is now lying at the Pier Head.

The Fisher, Capt. H. Miller, came into port Thursday morning with about 7000 pounds of halibut aboard. Capt. Miller reports a very heavy sea running, consequently the fish are scarce.

Albert & McCaffery, Ltd., are expecting the Prince Albert to dock at their wharf in the near future with a cargo of lath and shingles from Vancouver.

The Imperieuse, Capt. Teddy DeBeare, is refitting for the deep sea fishing grounds and will be pulling out of port in the near future.

Capt. A. Swanson left on the Pachena for a trip down the coast last Friday. It is expected he will return in about a week's time.

W. J. Cash, manager, Booth Fisheries, Ltd., is expected to return to the City from his vacation on Sunday night.

C. E. Starr, manager, Pacific Fisheries Ltd. has been across the Bay with a chum on a little hunting expedition.

JAPANESE BUY LUMBER IN LARGE QUANTITIES

Purchase Cargoes in State of Washington for Use in the Orient.

ABERDEEN, Oct. 24.—Indicative of the proportions of the Japanese lumber trade at present, five Japanese steamers are due here in the next three weeks to take approximately 5,000,000 feet of lumber, practically all of which is cedar, from Harbor mills. In addition to the unprecedented trade with the island empire, three large vessels are due in the same period of time to take approximately 6,000,000 feet to China, Australia and South America.

The five Japanese vessels are Oregon Maru, from Norfolk; Ohio Maru, from Cardiff; Pacific Maru, from Norfolk; Meigan Maru from Kobe. Freighters destined for other ports are: Western Islip, from San Francisco to load for Australia; Romulus from British Columbia; and West O'Hawa, from San Pedro to take cargo to Callao, Peru.

DR. CHASE

Has Taught the People How to Keep Well

The Dr. Chase Plan of Health

Confidence in Dr. Chase

TIME was when the family physician was the most prominent character in the community.

A man of intelligence and ability, he commanded confidence and respect, and sacrificed his time, strength and pleasure for those who needed his care and skill.

These were the conditions when, after graduating from the University of Michigan, at Ann Arbor, Dr. A. W. Chase settled down to practise his profession in that well-known college town.

To reach patients at a distance, the doctor had his most successful prescriptions put up in handy form for mailing. In time the demand became so great that the doctor decided to give these great medicines to the public, and arranged for their sale through the drug trade throughout Canada and the United States.

In this way Dr. Chase's Kidney-Liver Pills, Nerve Food, Ointment, Linseed and Turpentine, Catarrh Powder, and other medicines found their way into general use, until now one or more of them is found in almost every home in the land.

Founded on His Integrity of Character and the Usual Merits of His Medicines

If there was ever a physician who commanded the confidence of his patients the physician was DR. CHASE.

No one could meet him and not be struck by him without realizing that he was a man of skill, who was in love with his profession and only anxious to relieve the suffering and the ease of his fellowmen.

You cannot read the famous Dr. Chase's Receipt Book without appreciating the winning zeal of its author in searching out the best receipts and prescriptions which were known to the medical profession.

When his attention was turned to selecting medicines to be placed on the market for public sale it was with whole-souled effort that he tested out the prescriptions which he considered most suitable for the purpose.

And so it is that the integrity of Dr. Chase's medicines is indelibly stamped on every medicine which bears his portrait and signature, and people have learned to have the most confidence in them because of the splendid results which they have accomplished.

Every Man His Own Physician

But the doctor soon got the idea that people should know how to look after their own common ills, and set about in a large way to supply them with the necessary information.

By means of his Receipt Book, the circulation of which has since run into millions and his well-known Almanac and booklets of many kinds, Dr. Chase has spread throughout the civilized world the gospel of "Every Man His Own Physician."

This plan enabled the doctor to devote his attention to more serious cases, and he soon became known far and wide as a specialist in the treatment of diseases of the kidneys, the liver, the heart and other vital organs of the human system.

Home Medicines

With these time-tested medicines at hand, you can feel that you are protected against the common ills of life by the most effective treatment, which Dr. Chase was able to discover during a long life of diligent study and research.

Free Samples

After long experience with Dr. Chase's Medicines, we have found that people who try them are soon convinced of their medicinal merits.

We have published thousands of letters give you an idea of the benefits obtained by their use, but if you wish exceptional we shall be glad to send you a Free Combination Package.

FREE COMBINATION PACKAGE. EDWARDS, BARNES & CO., LTD. Dr. Chase's Kidney-Liver Pills, Catarrh Powder, Dr. Chase's Ointment, Dr. Chase's Recipes. Name, Address, Name of this Paper.

SMITHERS

The first snowfall of the season greeted Smithers citizens on Sunday morning when about one inch covered the ground. It quickly melted and has entirely disappeared.

A new rooming house named the Hotel Evelyn has been put up here by Mr. Conway.

The citizens of Smithers have contracted with Olof Hansen for the supplying of poles for the proposed electric line system here.

B. A. Smith, of Palling, marketed the biggest shipment of sheep ever made by a rancher in the Interior when he sold a carload to Sealey & Doodson this week.

There was a successful dance here on Thursday night in benefit of the hospital. There was special music, bounteous and tasty refreshments and everyone had an exceptionally good time.

The four rooms of the Smithers' school are now running. The fourth teacher is Mrs. Walls, who has had considerable experience in the Old Country.

Mrs. J. M. Alexander has arrived from Vancouver to visit her son, W. J. O'Neill.

Mr. and Mrs. A. J. McIntyre left on Monday night's train for Eastern Canada where they will visit for two months. A. H. Forde is appointed chief dispatcher here while Mr. McIntyre is away.

INDIANS OF LABRADOR STARVING

Dr. Living Came Out for Aid and Is Returning.

GENEROUS RESPONSE

OTTAWA, Oct. 29.—(By Canadian Press)—Capt. Alfred Living, in charge of the Dominion Government reindeer herd, situated at Lobster Bay, Labrador, has completed his mission here, and is returning bearing supplies of food and clothes to tide the destitute natives over the winter.

An epidemic of influenza and pneumonia last spring, which has left the people in a weakened condition, has been followed by a season in which both fish and fur have failed them. Thus there are 400 to 500 families in Canadian Labrador who are without the absolute essentials of life. Even where a fair catch has been secured, the price of only \$2.00 per barrel was obtained where normally \$8.00 is paid by the traders. Thus the native has been unable to lay in his winter store of provisions from the outside. Many families which he has visited, says Capt. Living, are in a state of actual starvation. Indians, half-Eskimos and a sprinkling of white men married to natives constitute the population.

Influenza Epidemic.

During the influenza epidemic, says Capt. Living, he covered 150 miles of coast line, having to

visit each family. Practically every family was affected, and in some cases he found every member prostrated and unable to do anything for each other.

The result of all this is that the colony is now utterly dependent upon some outside relief. Though Capt. Living would ordinarily not have left his station until next June or July, he felt it imperative to come out and lay the state of affairs before the authorities. After 120 miles travel down to Harrington, he caught a steamer for Quebec. Here he interviewed Premier L. A. Taschereau and other members of the provincial government. Realizing the emergency of the case, Premier Taschereau has placed at Capt. Living's disposal such quantities of flour, lard, molasses and tea as will keep the natives alive until the spring.

Suitable Clothes.

The co-operation of Quebec was also secured through whose mediation a general appeal for clothes was made throughout the province, a large number of the people being without warm things to cover them during the long, rigorous winter. A generous response has been made with the result that Capt. Living is assured of taking back with him a large quantity of clothing suitable for men, women and children.

In addition to the supplies of food that have been forthcoming from Quebec, the federal government on its side, has provided Capt. Living with a steamer to transport him and his supplies back to the Labrador coast. During many weeks after his arrival, he will be entirely occupied in making the

distribution of food and clothing by means of the reindeer.

Live on Reindeer.

The reindeer, says Capt. Living, constitute the sustaining source of milk, transportation and animal food. Although his work is that of reindeer expert, he acts often enough as a selector and even in emergency a practicing physician. In remote scenes of his life he has often found it necessary to perform surgical operations will return with a generous first aid medicine and a number of emergency medicines.

Capt. Living reports his natives as sincere in their sacrifices for them. Last year he says a party of 100 bodies of an Indian of 500 miles inland where they died to the Christian faith of St. Augustine's, so that might be buried there. He made the final step of the made and hazardous trip, tired without food.

Silver Cross.

The Indian in that case says Capt. Living, a silver cross wears a silver cross about his neck and has sometimes been put to a use, where one was not before. The man was bound and taken from him. The melted into a silver ball, which the unfortunate man shot to death. This is a story, however, which the natives have stamped out. Professor—Every man breathes oxygen. Now what do we breathe at Willie—Nitrogen!

You Keep

a close tab on your digestion? This is important. It will pay you well to do so. Digestion is complicated and its processes often become disordered. This brings immediate discomfort—often severe pain. Use

BEECHAM'S PILLS

This valuable preparation has for years been found to relieve indigestion, biliousness, sick headache and constipation. Thousands of careful folks have learned to use Beecham's Pills, which have proved both corrective and preventive. Experience has taught them to always have a box handy. Profit by their example—always have Beecham's Pills

ing Experiences of Bob Hanna During Life of Adventure in Many Seas

Bob Hanna, a man of many adventures, has given the world a story of his life which would fill a book which would be some of the works of fiction. Although barely sixty years of age, he has had over forty years of roughing it in many ways by settling down in Prince Rupert.

Bob Hanna was born in Rothesay on the Island of Bute, Firth of Clyde, Scotland, in 1862, and went to sea at the age of seven. He was on the sailing ship of the name of the Alliance for New York. This was in the year 1879 when the ship was wrecked on the coast of the United States. On his first voyage of an untried voyager, he was on the ship of the name of the Alliance, and in Bob's words, "I look to the sea like a duck to water."

Bob Hanna's adventures in the South Seas, gun running in Mexico, service on United States revenue cutters, with some of the Spanish-American war, has given Bob Hanna, a local story of "Keyhole Hanna," the right to the title. The story of his life would fill a book which would be some of the works of fiction. Although barely sixty years of age, he has had over forty years of roughing it in many ways by settling down in Prince Rupert.

The story of his life would fill a book which would be some of the works of fiction. Although barely sixty years of age, he has had over forty years of roughing it in many ways by settling down in Prince Rupert.

tween that Lieut. Hammond, one of the officers aboard the American Dixie, wishing to destroy a particular blackhouse some thousand yards on the port bow, called Bob and pointing to the offending stronghold asked Bob if he could hit it. Bob replied: "I'll hit the blackhouse, Sir, why I can hit the damned keyhole," to which the Lieutenant replied, "Say Bob, you must be a hell roarer," and ordered him to do the necessary. Ever after this episode Bob was nicknamed "Keyhole" Hanna.

After various wanderings "Keyhole" Hanna came to Canada in 1900, and was for some time mate on a sealing schooner out of Victoria. In 1905 he came to Prince Rupert and was mate on the Chieftain, belonging to George Cunningham of Port Essington, afterwards working with J. Y. Rochester when the old saw mill was built at Seal Cove and which was burned down about 1908.

Gun Running to Mexico.
Things being a bit slow for Bob in Rupert in 1913 we find him yearning to get into the mix-up then raging in Mexico, and after little thought he struck out for the far south and helped Villa with his armory end of the revolution business by smuggling arms and ammunition into Mexico. Unfortunately some one spilled the beans and the Federal Government of Mexico got wise to Villa's helping hand with the consequence that "Keyhole" Hanna's boat was confiscated and the owner was obliged to do a few odd jobs, under protest, for the Mexican Government.

After these stirring times Prince Rupert looked good to Bob and he again returned to the fold in March, 1914, and during the war was fishing for the troops at Oceanic Campery situated at the mouth of the Skeena. Since that time Bob has been engaged on all kinds of nautical business, and at the present moment is the whole works on board the G. T. P. Tug Lorne now lying in close proximity to the new salmon dock, where he is contemplating fresh fields to conquer.

WARNED OFF.

"Why have I never married?" the old bachelor said in reply to a leading question. "Well, once upon a time, in a crowd I trod on a lady's gown. She turned furiously, beginning, 'You clumsy brute!' 'Oh, I beg pardon! I thought you were my husband! No; it really doesn't matter in the least! And when I came to think it over, I decided that maybe I'd just as well let marriage alone.'—Life

LAND ACT.

Notice of Intention to Lease Land. In Coast Land District, Recording District of Prince Rupert, and situate at Captain Cove, Pitt Island. Take notice that Ray Macdonald, of Prince Rupert, B. C., occupation fisherman, intends to apply for permission to lease the following described lands:— Commencing at a post planted at the S.E. corner, five chains north of White Rock, thence 40 chains north, thence one chain west, thence 40 chains south, thence one chain east, and containing four acres more or less. R. MACDONALD, Applicant. Agent for N. M. & B. Fish Co. Dated September 12, 1921.

STEWART

Work on the Premier tram line is now nearing completion and all the towers have been finished. A gang of 25 men is now working on the ore bunkers at the dock.

The Stewart hospital is to remain open this winter with Mrs. William McIntomney in charge. She will conduct it until the first of May.

Alex Gallagher was taken to the hospital at Prince Rupert last week suffering from severe compound fractures of the right leg and ribs. He fell from a house.

Clay Porter and George Mehl-feld expect to ship 20 tons from the Idaho group up the Marmot River before spring.

The steamer Anyox called here last week and took 200 tons of concentrates to the Tacoma smelter.

Abie—Key, can you give the correct definition for the word bargain?

Key—A bargain is where you get the best of the other fellow.

TIMBER SALE X3580.

Sealed tenders will be received by the District Forester, Prince Rupert, not later than noon on the 10th day of November, 1921, for the purchase of License X3580, near Lot 1123, Coombs Inlet, C. B. 2, to cut 400 M. B. M. feet of Spruce, Hemlock, Balsam and Cedar. One year will be allowed for removal of timber. Further particulars of the Chief Forester, Victoria; the District Forester, Prince Rupert, B. C.

HARRY LAUDER IN NEW YORK

Famous Scottish Comedian Captures Lexington Theatre on Opening Night.

By BEN DEACON, Canadian Press Correspondent. NEW YORK, Oct. 28.—It was a wonderful welcome that was given Sir Harry Lauder by his "ain folk". The opening of the famous Scotch comedian's latest tour of this continent was something more than a "first night" as New York knows them. For many in the audience which crowded every available inch of space in the big Lexington Theatre it was obviously an "only night." It was as different from the ordinary New York theatre audience as could possibly be imagined. The great majority were Scots; many, it was quite apparent, were not regular theatregoers. For some it was the one big night of the year. These people were not there to see the show so much as to see and hear Sir Harry Lauder, to greet him as an old friend and to pay tribute to him as an artist and a man.

Same Old Lauder. He is the same old Lauder with the same old songs and some new ones, and he takes complete possession of the house and everybody in it in his same old happy-go-lucky, non-chalant way.

His first appearance on the stage Monday night was the signal for a spontaneous ovation such as is seldom heard in a New York theatre, where applause, if not supplied by the claque, is generally of the indolent and grudging sort. From the moment he took complete charge of everybody's affairs, and made it everybody's affair to join in the singing and have a thoroughly good time. As he wheedled them into helping him out with the choruses, he won added favor with every appeal to those in the "shelves" to come to the vocal rescue of the voiceless three-dollar-per-seat plutocrats on the ground floor.

Among Lauder's new songs, "There is Somebody Waiting for Me" seems to be the favorite. At least, the amateur chorists in the audience appeared to enjoy singing it the most. "When I Was Twenty-One" also made a decided hit, particularly when Lauder confided that he is seventy-one and had a very bad cough, adding hastily, "there is no such thing as a good cough."

Lauder has added considerable to his wardrobe as well as to his repertoire. One new costume, and a new drop curtain to each song. Some of the stage pictures which served as backgrounds for the comedian won an outburst of applause that would make many a Broadway star envious.

There was a demand for some of the old favorites. Lauder obliged with "Roamin' in the Gloamin'" and at its conclusion the ushers started a procession down the aisles bearing floral offerings. There was almost enough of these to cover the stage. Then Lauder made a neat little speech in which he declared he had never met a stranger in New York.

Lauder's tour of the continent is not to be so leisurely as in past years. He is rather in a hurry this time, consequently western Canada will not see him. According to his present plans as announced by his manager, William Morris, he will be in Toronto for the week of November 21. Montreal will have him for three nights, November 28, 29 and 30. On December 1 he will be in Kingston; December 2 in London, and December 3 in Hamilton. This will end the Canadian section of his tour.

POLITE INDEED.

A wealthy man had engaged a new coachman, who was advised to be very polite if he wished to keep his place.

Accordingly, when the master visited the stable this dialogue ensued:—

Master—Well, John, how are the horses?

Coachman—They are quite well sir, thank you, and how are you?

Pezzi Mystic—The dollar bill doesn't go half as far as it used to.

Opzy Mystic—But, it goes twice as fast.
