New Plans for Station Are Discussed

J. BOWSER ATTACKS GOVERNMENT FOR EXTRAVAGANCE IN SALARIES

New Station to be Handsome Brick Building on City Side of Track with Approaches

Council of the Board of Trade was called together yesterday in response to a request from President Hanna of the National Railways who wanted to know which side of the track they would like to have the station built. President Orme brought in a plan of the yards and explained the difficulties of putting the station on the wharf side, and it would be more convenient there for the steamships. After some discussion it was decided to recommend to Mr. Hanna that the building go on the side opposite from the wharf. A telegram was sent advising the National Railways of the decision of the railway of the

Government Refuses to Produce Documents in Regard to C. N. Railways

OTTAWA, March 23.—A motion submitted by W. L. Mackenzie King asking for the production of all reports, correspondence and accounts in connection with the administration of the Canadian National Railways was defeated in the House of Commons by a vote of 117 to 79.

Premier Meighen objected to the production of the documents, arguing that their publication would place the government railways under a handicap with competitors who continue to handle the business secretly.

The opposition motion was technically a motion of no-confidence in the Government.

TELEGRAPH WIRES ARE CUT IN IRELAND AND SHOOTINGS CONTINUE

BELFAST, March 23.—Telegraph wires between Belfast and Dublin have been cut, the authorities believe in preparation for possible Sinn Fein activity during Easter week.

Two brothers named Skelton, both ex-soldiers, were taken from their homes near Enniscorthy and shot. Their bodies were labelled "spies."

Ruination Picture Drawn by Bowser Criticizing Finances

VICTORIA, March 23.—Criticism of the Provincial Government for what he charged was its failure to come to the aid of the municipalities was voiced by W. J. Bowser in the Legislature yesterday, as his contribution to the budget debate.

Mr. Bowser declared that nothing in the way of real relief had been granted. He condemned the system of introducing lump sum votes into the budget thereby, he charged, concealing the intention of the Government regarding expenditures. About one quarter of the total expenditure for the coming year figured in lump sums, he said.

Mr. Bowser claimed that the Government had been spending money recklessly and said that there was a two million dollar increase in the salary list this year which was unnecessary. He declared that municipal assistance was demanded by 90 per cent of the people of the province.

Referring to the increasing cost of education, Mr. Bowser said the Government was still keeping to the old rate of a \$10 grant to teachers per capita. He closed his speech by saying that unless something was done to curb expenditures, the province would naturally drift into financial chaos with increasing taxation in sight next year and a dark outlook for the future.

ASK TIME TO SUBMIT TENDER

Board of Trade Request Extension
on Court House Until
May 1.

The council of the Board of Trade last night wired the minister of public works asking for an extension of time for the submission of tenders for the new court house until May 1. It was stated at the meeting that there were several firms that would wish to tender but only one set of plans was available. These were already out. Accordingly the minister is being asked for additional sets of plans.

The building is an elaborate one and the work of tendering, it was pointed out, is quite heavy and expensive. It is estimated that it would take a month to submit a complete tender.

The resolution asking for delay was moved by John Dybbavn and seconded by D. G. Stewart and carried unanimously.

Must Prepare Soon For Season of Sport.

It is now time to begin preparations for the summer sports. Yesterday's warm sunshine brought out many ball players with their gloves and balls hardening their hands a little in preparation for the early games. Announcement has been made of a football match for Friday and from now on, whenever the weather is suitable, there will be young people enjoying outdoor sports and games.

With the shipbuilding proceeding apace and with the opening up of other work in the early spring, there should be no difficulty in getting a number of teams in every line of sport and the summer games should, as a result, be just as successful as those of the past winter.

Austen Chamberlain Leader of Commons.

The appointment of Right Hon. Austen Chamberlain as leader of the House of Commons in Great Britain is significant of the trend of the times. Chamberlain is a commoner without any signs of blue blood in his veins. His father made his money from manufacturing screws at Birmingham and for many years had strong radical tendencies. His son Austen is 58 years of age and has for many years been one of the leaders of the Unionist party. Lately he has held the position of Chancellor of the exchequer under Lloyd George, a position he held also from 1903 to 1905. He has held other important cabinet positions such as civil lord of the admiralty, financial secretary to the treasury, postmaster general and secretary of state for India.

Austen Chamberlain resembles his father in personal appearance and he also affects a monocle, a habit which rather sets him apart from the common people and tends to harm him in his political career. He is, however, an able man and should make a mark in his present position, which is acknowledged to be the most difficult in the Government of the day.

All Anxious for Work to Proceed.

All are anxious for work on the new government buildings to proceed as quickly as possible, but time must be given for the contractors to make up their figures. Undoubtedly the rushing of the contract was a departmental error, for it is evident to everyone that tenders could not be made up in ten days on a building as large and complex as that to be erected here. Some opponents of the present administration fancy they see in it an attempt to do sleight of hand work but in this they are undoubtedly mistaken. The Board of Trade has taken the matter up and it will certainly be righted as soon as attention is drawn to it.

The work on the court house will be most important and will give quite a flip to building here this year. It, along with the new school building, will make for stability, and will show those who may have been hanging back, that this is really to be an important centre and that it will be in order to build for the future.

Daylight Saving Being Adopted.

Daylight saving is being adopted by many of the cities of Canada in order to get in line with the railways which have decided to adopt the scheme. In Prince Rupert those who are interested in sport would like to have the clocks put forward an hour in order that matches might be played in the evening. Others argue that in this northern latitude there is enough daylight anyway and if the clocks are put forward, the children lose much of the sleep which should be theirs.

We are inclined to favor daylight saving, but it is a debatable point and is worthy of careful consideration before being adopted.

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours, from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

The height is in feet and tenths of feet above the average level of lower low water.

LIQUOR QUESTION.

Editor Daily News:—

In respect to the use of liquor, the world seems to swing from one extreme to another, consequently those who wish the enactment of a so-called bone dry law could employ no better method for attaining this end than by advocating the free use of liquor and without proper restrictions.

In the recent plebiscite the alternative to prohibition contained what seemed to be two distinct conditions—government control and sale in sealed packages. Government control now seems to mean anything that suits the purpose of the party interested, and it looks as though this time it did not find its way into the proposals inadvertently. The sealed package was an unknown quantity and the sale of liquor for profit was not hinted at before the election.

Outside Pale.

There is no doubt many took it for granted that the sale of intoxicants would be by the government only, in sealed packages, and without profit, except that sufficient to carry on the operation and enforcement of the act. Along such lines it might be considered a temperance measure, but when the element of profit is added, which virtually means a lack of proper restrictions and pushing the sale thereof, it can then be placed outside the pale of moderation.

The sale of liquor in sealed packages only, containing a quart or more, must fail because such practices disregard the most essential principle of temperance, namely, placing in the hands of the individual at any one time a quantity not in excess of that which he can properly control, and it is a well understood fact that many persons could not come into possession of a quart of liquor without becoming the victim of an uncontrollable appetite. Yet this is exactly what sale in sealed packages only, means. The vote against prohibition cannot be construed to mean a repudiation of the principles of temperance, yet many proceed on this theory.

Source of Misery.

The bottle has in the past been the most fruitful source of misery—is today, and nothing better can be expected in the future. It has broken the back of prohibition and is likely to destroy the Liquor Control Act, and perhaps its sponsors.

Knowing, then, that the bottle contains a greater amount of liquor than many persons should be in possession of at any one time, there is only one practical method to pursue, that is, to limit the quantity to one glass at a time, and to require that the person be free from the influence of liquor and alone, in order to obtain it.

One Glass at Time.

The advantage of this plan can be easily seen as it could be practically applied, without the aid of freakish and unjust enforcement clauses, which have only one effect—that of disgusting the people and thereby rendering the act inoperative, because of no voluntary evidence being forthcoming. A government could at once exercise the exclusive right of sale irrespective of the importation problem and, from the standpoint of profit, would be more successful than by selling in sealed packages; and, as a comparison, it might be asked whether it would be more conducive to the cause of temperance to sell one glass at a time, than twenty or perhaps thirty enclosed in packages.

Discriminate.

But even in bone dry communities the sale of liquor in packages is resorted to, as it would have to be here in a limited sense for there are also many persons who are perfectly safe with the package, and such should not be denied this privilege, but the discrimination should be by reason of habit and ability to control the appetite, yet this method of sale should be discouraged as much as possible and no profit should be extracted therefrom, so as to make it possible to undersell the imported goods, thereby solving the problem of importation to a great extent. The amount sold under this plan should not exceed ten per cent of that under the scheme for exclusive sale in sealed packages, and the advantage of properly supervising such should be apparent, from the proportional amounts disposed of.

HEADACHES

Make Life Miserable

Headaches are one of the most aggra-

vating troubles one can have, and it is

hard to struggle along with a head that

aches and pains all the time.

Headaches seem to be habitual with

many people; some are seldom, if ever,

free from them, suffering continually from

the dull throbbings, the intense pains;

sometimes in one part, sometimes in an-

other, and then again over the whole

head.

There is only one way to get relief

from these persistent headaches, and that

is by going direct to the seat of the

trouble, for unless the cause is removed,

the headaches will still continue to exist.

The fact that Burdock Blood Bitters

keep the stomach, liver and bowels toned

up is proof enough to show that it will

eliminate the cause of the headaches.

Mrs. Harold Laitan, Owen Sound, Ont.,

writes:—"My system was run down and

my blood out of order. I suffered a great

deal from severe pains in my head, which

made me feel very miserable. After having

tried other remedies I purchased a bottle

of Burdock Blood Bitters, and was very

glad to notice a decided improvement in

my health, so I took another and am glad

to say that it has done me an enormous

amount of good. I have recommended it

to my friends, who were in a similar con-

dition, and they all say it is a wonderful

remedy."

The Man in the Moon SAYS—

A MAN may be head of the household but he is often nothing but a blockhead.

SOUND advice is the kind given in a high pitched voice.

THERE was a woman once who lost all power of speech. But why tell the story? It is only a fairy tale.

ANTICIPATION is always preferable to realization. We anticipated a settlement of the Irish question on St. Patrick's Day, securing new fish cars on March 30, using the new railway station ten years ago, making our fortune a hundred times, getting a real smoke from a cigarette, eating a tender steak at a restaurant, and having the rock removed from the ball grounds. Happily we are still anticipating.

WHITE SHEEP are said to eat more than black sheep because there are more of them but that was in the sunny south or the effete east.

A DOG attacked a man the other day and bit him on the public street. What a discerning dog!

MORE time is wasted in this office trying to decipher signatures than banking our checks. Why not have a law to make it a criminal offense to write illegibly? There is more sense to that than to many of the laws they pass at the capital.

WHICH capital? Oh never mind. AMONG the things that don't get you anywhere is trying to settle an argument.

IT was a Prince Rupert man who went into a store and asked the price of an incubator. Being asked what breed of poultry he was about to raise, he replied: "Poultry to Heligoland. I have the germ of an idea and I want to try to hatch it."

WHEN you look at some of the lovers around town it is as plain as newspaper headlines that love is blind.

WHAT a lot of lunatic asylums we should need if every blithering idiot in the country was locked up in one.

G.W.V.A. WAR MEMORIAL

To the people of Prince Rupert—
The returned men are going to build a Memorial of the greatest war in history and to those who fought and lost their lives for the great ideals of Freedom. The G.W.V.A. will shortly start a campaign to raise as much money as our citizens can spare and feel inclined to devote to this noble purpose. So be ready! Reserve a donation that will help to raise a Memorial that will honor the memory of those that fell, and be a lasting honor to Prince Rupert and her citizens.

SPORT

Hockey is the one all interesting sport these days with the contest for the Allan Cup just finished given Toronto University the coveted amateur trophy for the year in defeating Brandon and the Stanley Cup professional series now on in Vancouver between the Millionaires and the Ottawa Senators.

The Stanley Cup was donated to the Amateur Hockey Association of Canada in 1893 by the late Lord Stanley of Preston, then governor general of Canada, as a challenge trophy to be competed for and held by champions of recognized senior leagues; at that time, one match only being necessary to win it then. In 1899 the idea originated of playing the best two out of three for the cup by the hockey associations. The next year it was raised to three out of five which is still the winning requirement. In 1914 the trophy became emblematic of the world's hockey championship.

Since 1893 the cup has been held as follows: 1893, Montreal; 1894, Montreal; 1895, Montreal; 1896, Winnipeg; 1897, Montreal; 1898, no matches; 1899, Montreal; 1900, Montreal; 1901, Winnipeg; 1902, Montreal; 1903, Ottawa; 1904, Ottawa; 1905, Ottawa; 1906, Montreal; 1907, Montreal; 1908, Montreal; 1909, Ottawa; 1910, Montreal; 1911, Ottawa; 1912, Quebec; 1913, Quebec; 1914, Toronto; 1915, Vancouver; 1916, Portland; 1917, Seattle; 1918, Seattle played no decision on account influenza; 1920, Ottawa.

The Allan Cup was presented in 1909 to the Cliffside of Ottawa by Sir Montague Allen. Its history follows: 1910, St. Michael's, Toronto; 1911, Winnipeg Victorias; 1912, Winnipeg Victorias; 1913, Winnipeg; 1914, Regina; 1915, Winnipeg Monarchs; 1916, Winnipeg 61st Battalion; 1917, Toronto Dentials; 1918, Kitchener; 1919, Toronto Tilers; 1920, Winnipeg Falcons; 1921, Toronto Varsity. The Allan Cup is played for in play-off games, the total number of goals deciding the winners.

"The Tobacco of Quality"

BOWSER VERSUS T. D. PATTULLO

Charge of Favoring Prince Rupert Dealt with by Minister of Lands

In connection with the brief report of charge made by W. J. Bowser against Hon. T. D. Pattullo of favoritism in the treatment of Prince Rupert, the Victoria Times report of the incident is as follows:

Mr. Bowser detected the proverbial dusky gentleman in the woodpile when clause 8 of Mr. Pattullo's Forest Act amendments came up for discussion in committee. The clause provides that the Minister of Lands may enter into an agreement with any corporation which has power to operate a pulp mill by which all moneys in arrears for annual fees, taxes and other sums in respect of timber licenses held by the company may be aggregated and made payable in installments with interest at six per cent. Last night the Minister presented an amendment to this clause which makes no mention of any interest.

What was the reason of this? Mr. Bowser demanded. The clause, he held, would favor new pulp licensees over older concerns which were in arrears on tax payments.

Mr. Pattullo said that he was glad to explain that the amendment, though Province-wide in its application, was framed particularly to cover the case of the Emmerson interests of Prince Rupert. This concern, he stated, had spent \$600,000 in installing a lumber mill and now proposed, with a capital of \$1,000,000 to establish a big pulp mill. The provision made to help the Emmerson people, Mr. Pattullo explained, also would assist other concerns under similar circumstances.

Charges Favoritism
"It is a bad law to legislate for a special section of interest, but it is particularly bad law when a Minister takes advantage of his position to legislate for an industry in his own constituency," Mr. Bowser exclaimed. "We are legislating for the whole Province, not for a single concern which has some particular pull with the Minister."

GIRL CROOK TONIGHT AT THE WESTHOLME

Enid Bennett Takes that Part in "The False Road"

Enid Bennett is about to realize a life-long ambition. She recently completed "The False Road," in which she will star at the Westholme tonight. As soon as her next photoplay is finished, the pretty star will pack her belongings and embark on a trip around the world. Fred Niblo, her husband and director, will accompany her.

Miss Bennett will first visit New York. Her itinerary then includes in order Brazil, England, Russia, China, Japan and finally Australia, which is the star's native land. Here she will remain for some time, becoming acquainted all over again with relatives whom she will like all the more and, renewing old friendships.

The knowledge that Miss Bennett is to depart soon creates more than usual interest in "The False Road." In the story she is cast as a girl-crook who finally reforms when the man whom she loves goes straight. It is a Thomas H. Ince production and a Paramount Artcraft release.

'THE LITTLE WANDERER' TONIGHT AT EMPRESS

Petite, charming Shirley Mason is on her way to visit us again. She will be seen at the Empress Theatre tonight in a new production, "The Little Wanderer," the work of Denison Clift, well known as a scenario writer. The story shows a star role of extraordinary appeal—a role that should fit Miss Mason like a glove. She appears as a friendless girl who flees from a hard taskmaster and, disguised as a boy, makes her way to the big city as a tramp on a coal train.

Forced by circumstances to reveal her sex, the love romance of the story begins, and is carried to a final climax that is forceful, logical and in every way delightful.

OLD HAT IS ON LONG JOURNEY

"New York to Hell" and a Few Days in Prince Rupert.

"New York to Hell" is the strange way in which a "hobo" hat which arrived on the Prince George today is billed. The hat was thrown on the express car of a train in New York some months ago and has since been travelling hither and thither throughout the United States and Canada over devious routes and remote places. It is now on its way back to New York, and will be in Prince Rupert a few days.

The hat, which is just a plain old black felt slouch one, bears no less than 37 souvenir cards of various places it has visited, among them being Marshfield, Wis., Chicago, Kankakee, Edmon-ton, Vancouver, Philadelphia, Westside, N. Y., Saskatoon, Regina, Ocean Falls, Brandon, Winnipeg, Ont., Fort Francis, Ont., Hope, B. C., Denver, Kansas City, San Francisco and Duluth.

Faint and Dizzy Spells Weakness and Shortness of Breath

You can generally tell when the heart is affected by the faint and dizzy spells, the shortness of breath, palpitation, throbbing, irregular beating, smothering sensations, weak, sinking, all gone feeling, shaking sensation, etc.

Many men and women become run-down and worn out when otherwise they could be strong and healthy if they would only pay some attention to the first sign of heart weakness.

No remedy will do so much to make the heart regain strength and vigor, regulate its beat and restore it to a healthy and normal condition as Milburn's Heart and Nerve Pills.

Mrs. C. A. S. Drake, Paris, Ont., writes: "I have used on towards the second box of Milburn's Heart and Nerve Pills and find they have done me good. I had those fainting, dizzy spells, once in a while, and also weakness and shortness of breath, and would become so choked up at times I could hardly stand without sitting up in bed. When walking too fast I would have to stop and try to catch my breath. I feel a lot better since I have used your pills and know that they have helped me wonderfully as I have improved very much."

Price 50c, a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont. Adv.

M. P. P. PARSON MAY NOT RESIGN

Rev. Thomas Menzies Will Probably Continue to Have Charge of Church.

VICTORIA, March 22.—Rev. Thomas Menzies, M. P. P., Comox, will probably not resign from the Presbyterian Presbytery if the wishes of the district in which he has been serving are taken into consideration.

At the meeting of the Presbytery here Monday night a letter from Mr. Menzies was read offering to resign his charge if a union of his district with Courtenay could be effected. Dr. Campbell reported on his visit to the district when a congregational meeting was held, and by a substantial majority a resolution was carried to the effect that the Presbytery be requested to refuse to accept Mr. Menzies' resignation. After a lengthy discussion it was decided to leave the matter as at present, and it will be dealt with at the Synod meeting in May.
