Big Airship Exploded During Trials

VERY RICH SILVER ORE STRIKE AT ALICE ARM IS REPORTED

Discovery of Very Rich Silver Ore in Toric Group, Alice Arm District, Close to Famous Dolly Varden Mine

ALICE ARM, August 24.—A wonderful discovery of rich silver ore has been made here by J. Strombeck in No. 2 ledge on the Toric group in the Kitsault River. It is the richest ore found near the surface in the whole district and has caused a great deal of optimism in town in regard to the future of the mining industry. The ore resembles that found in the glory hole at the Dolly Varden mine in 1919, where 55,000 ounces of silver were produced from forty tons of ore.

The Toric group is right on the railroad grade and adjoins the North Star property, in which Jim Zarelli is interested, and is owned by John and Gus Strombeck and Al Miner. It was located in 1914 and consists of four claims. The high grade which has just been found lies about 3000 feet northeast of the Dolly Varden glory hole on the Kitsault River, but at about 350 feet lower elevation.

Speaking of the new find, the Alice Arm and Anyox Herald says: "This discovery proves beyond doubt that ore bodies similar to that found in the Dolly Varden Glory Hole will be discovered on other properties in the district as soon as vigorous development work is undertaken on the properties that warrant the expenditure of the necessary capital to carry out the work."

Found in Cross-cut.
The No. 2 ledge on the Toric has been traced on the surface for a distance of 300 feet, having an average width of 4 feet. Several open cuts made last year exposed the ore in which considerable native silver and sulphides were visible. At the point where the latest discovery was made, a short tunnel has been driven, cross-cutting the ledge and showing a width of 3 feet between the walls. The high grade lies in the foot-wall and has an average width of 22 inches, the balance of the ledge matter being of a lower grade.

High Average.
A general sampling of this 22 inch ledge, from which all native silver was excluded, gave returns of 209 ozs.; 59.5 ozs.; and 40.5 ozs. silver per ton. This gives an average of 163 ozs. silver per ton. A sample taken across the entire 3 feet of the ledge gives 167.4 ozs. per ton.

J. Strombeck has started a cross-cut tunnel which will encounter the ledge at a depth of 40 feet directly under the high grade exposure, and at an elevation of 150 feet above the railroad grade.

"Parallel to No. 2 ledge 100 feet to the north, is No. 1 ledge. This has been explored on the surface for a distance of 500 feet, showing a width of over 5 feet of ore. Two tunnels have been driven on this ledge, and the ore found gives an average of 24 ozs. silver per ton for a width of 4 feet. This is a very promising looking showing.

Encouraging Returns.
"No. 3 ledge, which lies at an elevation of 1200 higher than No. 1 ledge has also been exposed. Eight open cuts have been made, showing that the ore body is 8 feet in width and 800 feet in length. A cross-cut tunnel has been driven 75 feet, but has not encountered the ledge as yet. Assays from this showing gave very encouraging returns and warrant considerable development work being carried out.

The Toric property is ideally located, No. 1 and No. 2 ledges being practically on the railroad grade, and assuming that this latest find proves up when depth is obtained there is no doubt that the production from this property will equal or surpass the record of the Dolly Varden, which has shipped to date 1,593,952 ozs. of silver.

DEATH OCCURS OF MAJOR-GEN. SIR SAM HUGHES

Former Minister of Militia Was
Outstanding Figure in
Canadian Life.

LINDSAY, Ont., Aug. 24.—Major-general Sir Sam Hughes, K.C.B., died at 4 o'clock this morning of pernicious anaemia after a long and lingering illness. He was one of the outstanding figures in Canadian national life and had many admirers, especially among the Orange section of the Conservative party in Canada.

Funeral Friday.
The remains of the late statesman will be buried with full military honors on Friday. The town here is in deep mourning.

LONDON, Aug. 24.—News of the death of Sir Sam Hughes is given considerable sympathetic notice in the newspapers here, and full admission is made of the good work done by him in directing mobilization of the earlier Canadian contingents in the great war.

Major General Sir Sam Hughes was born in Barrington, Ont., January 8, 1853. He went to the public schools of his home town and latter attended the Toronto Model and Normal schools, Toronto University and the Military School. He was the editor and proprietor of the Lindsay Warder from 1885 to 1897.

He was elected to the House of Commons for North Victoria and Haliburton in 1892, 1896, 1900, 1904, 1908, 1909 and 1911, becoming Minister of Militia and Defence with the Borden administration in 1914, resigning in 1916 after having encountered difficulties owing to the conduct of the affairs of the department.

In Fenian Raid.
Early in life he took up military work when he entered the Volunteer Militia and served in 1870 in the Fenian Raids. In 1873 he was gazetted as a lieutenant and quickly rose in military service until 1897, when as brigade major, he offered the Imperial Government the services of the 45th regiment for service anywhere in the globe.

He visited New Zealand, Australia and the Fiji Islands in the work of colonial assistance and was on active service in high command in the Boer War. After taking an active part as minister of militia in the organization of the Canadian Expeditionary Forces he was knighted at Buckingham Palace, August 24, 1915.

Married Twice.
He married Miss Caroline J. Preston, daughter of Major Isaac Preston, Vancouver, in 1872, and after her death again was married to Miss Mary E. Burk, daughter of H. W. Burk, ex-M. P. in 1875. His permanent home was in Lindsay, Ontario.

POPULATION RETURNS IN
India has 319,000,000, South Africa 1,500,000, Australia 5,600,000.
LONDON, Aug. 24.—The population of the British Isles adjacent to the United Kingdom number 300,000. No census is available for Ireland.
The Indian Empire has a population of 319,000,000, an increase of less than 2 per cent. since the last census.
The Union of South Africa has 1,500,000, an increase of 19 per cent. in twelve years.
Australia, including the aborigines, has 5,600,000, an increase of 21 per cent., and New Zealand, including the Maoris, has a population of 1,200,000, an increase of 20 per cent.

**THREE CANDIDATES
CAERPHILLY ELECTION**
Polling Takes Place Today in
Welsh Constituency to Fill
Labor Vacancy.

LONDON, Aug. 24.—Polling is taking place today in the riding of Caerphilly in Wales to fill the vacancy caused by the death of Alfred O'Brien, a labor member. The candidates today are Edmonds, coalition-Liberal; Morgan Jones, Labor; and Robert Stewart, Communist.

**RAILWAYS ARE DOING
BETTER THIS YEAR**
OTTAWA, Aug. 24.—Reduced expenses have resulted in increased net revenue on Canadian railroads since March, despite a steadily falling gross revenue, the Dominion department of statistics announce.
The average receipts per ton per mile has increased 26 per cent in May over May 1920. The passenger traffic decreased 11 per cent and the freight traffic 26 per cent.

Immense Airship Wrecked at City of Hull on Trial Trip; Plunged into River Humber

LONDON, August 24.—The giant airship ZR-2, purchased by the United States from Great Britain, exploded over the city of Hull today and the wreck is in the River Humber.

The ship was passing over the city in fine style when she was seen suddenly to break in two. Instantly there were terrific explosions and the ship burst into flames and commenced to descend. Three parachutes were seen to leave the airship.

The disaster occurred at 5:40 p.m., the craft having been continuously in the air since early yesterday morning on her trial flight with British and American crews.

Two dead and a number of injured have been landed from the river. A message received at 7 o'clock said the ship's captain had been rescued and some bodies had been recovered. It is believed about a dozen Americans were aboard.

The airship was to have flown across the Atlantic at the conclusion of the test flight.

Size of Ship.
The ZR-2 was 41 feet longer than the R-34 and seven feet greater in diameter. It also had a gas capacity of 2,700,000 cubic feet as against the R-34's 2,000,000, a total horsepower of 2,100 as compared with the R-34's 1,250 and a cruising endurance of 6,000 miles at 60 miles an hour.

The following were her dimensions: Length 695 feet; diameter, 85 feet; capacity, 2,700,000 cubic feet; total lift, 83 tons; Engines, 6; "ceiling" or maximum altitude, 25,000 feet; cruising radius at 60 miles per hour, 6,000 miles; officers and crew, 42 men; gasoline supply, 8,000 gallons.

Seen in flight the ZR-2 closely resembled her sister ship, the R-34, but her improvements were concealed amid a bewildering confusion of aluminum girders, rows of gasoline and water tanks, acres of fabric gas bags and a miscellany of guy wires, control valves pipes, swivels and hinges.

A telephone system connected up the entire ship so that Commander Maxfield, standing at the wheel in his cabin, had every part under his direct and immediate control. Comfortable bunks were provided for the off-duty of the 30 officers and men, instead of hammocks, as provided on the R-34. Warm meals were also made possible by a system of cooking over engine exhaust heat.

Electric lights were freely provided and the ZR-2 had been equipped with a device that would enable her to "anchor" at a mooring mast and replenish her gas, oil, water and fuel containers through huge feed pipes. In addition to the foregoing equipment, the ZR-2 was built to carry the biggest armament of a dreadnaught of the air, 14 Lewis guns, a one-pound automatic gun, four bombs of 520 pounds each and eight bombs of 230 pounds each. The ZR-2 and its hangar at Lakehurst, N. J., cost \$4,000,000.

**PEACE TREATY
SIGNED TODAY**
BERLIN, Aug. 24.—The peace treaty between United States and Germany was signed today, this formally ending the war, which really closed nearly three years ago.

The participants in the war negotiated a peace with Germany at Versailles and President Wilson took part in the proceedings but the United States Senate refused to ratify it. The present peace treaty is a separate affair and of no particular importance.

**CANADIAN SCOTTISH
MAKES FIRST RUNS**
Handsome Big Vessel Running
Trials This Afternoon—
Interesting Sight.
After lying in the stream for some time this morning while adjustments were being made, the new Canadian Government Merchant Marine steamer, Canadian Scottish, just completed at the Wallace Shipyards here, left the harbor at 10:30 o'clock to make her trial runs between Holland and Georgian Rocks at the entrance to the harbor.

Many interested spectators, from various points of vantage, watched the big vessel steam out, and as she passed the wharves she was saluted by steamers moored alongside. Riding high out of the water, the Canadian Scottish showed to advantage and, from an outside appearance, is indeed a handsome vessel. She will return to the Wallace Shipyards late this afternoon.

SCOTTISH MAKES GOOD SPEED DURING TRIAL HERE TODAY

At 1:50 the Doby Island wireless station spoke with the Canadian Scottish. At that time she had made three trials and had shown a speed of 12.5 knots. In the fourth trial at 2:15 she made 11.8. The fifth mile was done at a rate of 16.1.

SERIOUS RIOTS BRITISH INDIA

Troops Fired on Riots Causing
Many Casualties—Mob Hold
Villages.

Bombay, Aug. 24.—Serious rioting with bloodshed and destruction of property took place today in Malabar district on the west coast of British India, caused by seditious agitators. The military forces fired upon the rioters, causing many casualties. The railway lines have been cut and the postoffices robbed. The villages are in possession of the mobs.

POLAR BEAR CANNOT COME

No Ground Here Large Enough
for Aeroplane to Land
This City.

The aeroplane Polar Bear would have come here if she could have found a landing place. Last night the pilot was in communication with Leo Waugh, manager of the G. T. P. telegraph office, asking for particulars of a landing place, but it was found the Acropolis Hill grounds were not large enough.

The flight to Hazelton is delayed until tomorrow morning.

BIRTH
There was born this morning to Mr. and Mrs. Skogmo of Ambrose Avenue at the General Hospital this morning, a son.

Attempt to Expel Railwaymen from Trades and Labor Congress

WINNIPEG, August 24.—A resolution ordering the Trades and Labor Council to revoke the charter of the Brotherhood of Railway Employees was introduced into the Trades and Labor Congress yesterday and was much discussed. Voting on the resolution was postponed until this afternoon.

P. M. Draper, secretary-treasurer, said the question involved was whether the Labor Congress had the right to revoke as well as grant a charter.

SUPERINTENDENT OF A. B. C. PACKING CO. DIES AT VANCOUVER

VANCOUVER, Aug. 24.—R. J. Woods, an old timer who went to Manitoba in 1870 and came here in 1886, died here this morning.

Prior to an illness eight months ago, he was superintendent of the A. B. C. Packing Co. and is well known among the canning fraternity along the northern coast.

**RAILWAYMEN WILL
TAKE STRIKE VOTE**
CLEVELAND, Aug. 24.—Organized railway workers to the number of 400,000 will receive strike ballots within the next few days on the western railroads as the result of a labor conference, in protest at reduction of wages.

POACHER WAS BROUGHT IN BY MALASPINA

Boat Caught Fishing
in Three Mile Limit Off
Pachena Point.

BRIA, Aug. 24.—Seized the three mile limit, the power fishing boat was conveyed into port by the Fisheries Protection Officer. She will be taken to Westminster pending an order and disposition by the court of jurisdiction.

Boat was seized off Pachena Point and was fishing at sea.

It makes the third poacher caught by the Malaspina in the waters within the past six months.

LABOR CONTRACTS GOOD BUSINESS

Dejection of Trades and
Council is Lack of
Anti-Oriental Clause.

attended meeting of the Labor Council last evening to Aid, George Kerr proposed agreements of the city and the Prince Rupert Pulp and Paper Co. for the of electrical energy and of the company. Following dress, general discussion and agreement, although the expressed the opinion of agreements were both business propositions, a motion was passed opposing unless clauses regarding limitation of the employment of Asiatic labor were included.

SEWER BOYCOTT HAS BEEN LIFTED SAILORS AND FIREMEN

VANCOUVER, Aug. 24.—The of Dominion Government of Marine on the Pacific organized sailors and firemen following the announcement of a reduction in wages, has been lifted.

STEWARTS MEET VANCOUVER TODAY

VANCOUVER, Aug. 24.—The convention of the Dominion Association of chartered accountants here today with delegates in attendance from all parts of Canada.

DAILY EDITION

Wednesday, Aug. 24, 1921.

Great Advantage Of Terminal Point.

It is a great advantage to do business at a terminal point. That is one reason why Prince Rupert is bound to be an important city. Industries located at a terminal point get all the advantage of terminal rates, and in a large centre can purchase such goods as may be needed in the conduct of the business.

It is usually cheaper to carry the raw material to the terminal point than to place the factory or mill at a distant site. It is noticeable that industries tend to concentrate at certain centres. That is not a haphazard happening. There is a reason for it, and the reason is very largely one of transportation. Special rates are given to a terminal point by the railways for coal and almost all material.

Need of Coal Bunkers Here.

The government in Alberta that proposed to erect coal bunkers at this port is gone. The people of Alberta gave them a walking ticket and there is another set of politicians in power in that province. We do not know whether or not they will be interested in providing an outlet for the Alberta coal. They are more interested in providing an outlet for the grain and livestock, for they are farmers.

The need is just as great as ever, but our interests will not be considered in the least by the Alberta Government, because we are outside their province. The proper authority to put in the bunkers is the railway company. Possibly, now that there is an election in sight, we might be able to get the government to erect bunkers here. They were going to put in fish wharves and all sorts of things not long ago. Then everything was dropped when it was decided to postpone the election. It cannot be postponed much longer, so now is the time to get busy. It would mean business for the railroad and for the Alberta coal mines.

Getting Good Deal Already Here.

We must admit that the railway company is doing good work in erecting the fine new wharf, tenders for the superstructure of which are now being invited. They need it for their business, and it was the business that forced them to build it, not our interests. At the same time we are glad they have done it, and we are ready to give them every praise for doing the work well. The contract for the dock has been completed and it is a fine structure. It gives us a standing as a port where ships can load or discharge. With bunkers for coal we should be pretty well set up.

A ship's captain, speaking of this need within the last few days, said it would be a great inducement for vessels to call here for even a few tons of merchandise if they could get coal here and get it quickly and cheap. If there were bunkers here we could get cheap and good coal and it could be supplied rapidly. The business would have to be worked up, but there is no reason why it could not be done. A beginning has to be made some time.

People Are Slow To Change Habits.

People are slow to change their habits. They get the habit of reading a newspaper and they like to continue doing so. The lady gets the habit of buying from a butcher and she likes to continue and probably will do so until something jars her out of her usual routine. This conservatism in people tends to stabilize business. It makes the good will of a business worth something. Anyone who would break in on an established business has to hammer away for a long time before people are convinced he has something better than they have been buying elsewhere.

SUFFERED DAY AND NIGHT

The Tortures of Dyspepsia Relieved By "Fruit-a-lives"

LITTLE BRAS D'ON, C. B.
"I was a terrible sufferer from Dyspepsia and Constipation for years. I had pain after eating, belching gas, constant headaches and did not sleep well at night. Finally, a friend told me to try 'Fruit-a-lives'. In a week, the Constipation was corrected and soon I was free of pain, headaches and that miserable feeling that accompanies Dyspepsia. I continued to take this splendid fruit medicine and now I am well, strong and vigorous". ROBERT KEWTON.

LEPINE BACK FROM CALGARY

Attended Bin Convention of Elks Lodge—Brings Visitors Here.

R. V. G. Lepine, who, with Fred Gilhuly, attended the big Elks' convention at Calgary last week as a delegate from Prince Rupert, returned to the city on last night's train.
Mr. Lepine reports having had a great time at the convention. Every minute of it was filled with work of the lodge or pleasure. All the delegates stayed at the Palliser Hotel and many of the proceedings took place there. Throughout the convention, the Fox Motion Picture Corporation recorded the events with their cameras and these pictures will later appear in all the cities of Canada where there are Elks' Lodges.
The Grand Lodge opened on Tuesday morning, August 16, and after a few minutes in session there was a luncheon for the delegates in the Palliser Hotel. Tuesday afternoon they had to themselves and in the evening there was a banquet in the hotel given by the Grand Lodge to the visiting delegates.
Monster Parade.
On Wednesday morning there were sessions of the Grand Lodge again and at 1 o'clock there was a monster parade of Elks from all parts of Canada. This parade numbered 2000 and was the biggest ever held in the city of Calgary. Traffic was suspended during its passing through the main streets from the Court House to the Exhibition Grounds. It was headed by the Vancouver Elks band of thirty pieces and the Calgary band also took part. After the parade 100 cars took the delegates to P. Burns ranch, ten miles out, where there was a barbecue and stampee. In the latter some world champion riders, men and women, took part in the broncho-busting and rough riding. In the evening of this day there was a ball game between Calgary and Saskatoon and the boxing match between Freddie Welch and Forbes, which were attended by the delegates in force.

Grand Ball.
Thursday, the last day of the convention, was largely taken up with Grand Lodge sessions. The convention was brought formally to a close with a grand ball in the Palliser Hotel on Thursday evening. This was a beautiful and pleasant affair.
Accompanying Mr. Lepine to Prince Rupert last night were two North Vancouver delegates, V. V. Vinsgn and Charles Cartwright. Mr. Vinsgn was formerly reeve of West Vancouver and is a past exalted ruler of the lodge here. Mr. Cartwright is treasurer of the North Vancouver lodge. They are out on the trial runs of the Canadian Scottish today, being personal friends of the Wallace company management. They will attend lodge tonight and will go south on the Prince Rupert tomorrow night.

Ten Years Ago in Prince Rupert

August 24, 1911.
Delegates to the Liberal nominating convention held at Nanaimo last week returned to the city yesterday afternoon. Duncan Ross, the nominee, has commenced his campaign in the south.
The Kaien Island Club is making arrangements with a view to having Oscar Nelson, of Vancouver, and Joe Bailey, of Victoria meet here next month in a contest for the lightweight boxing championship of the province.
Captain Barney Johnson was unable to make the trip north on the Prince Rupert this week and in his place Captain Duncan Makenzie, master of the Rupert City, was in charge.

Give the Boy a Chance.

"What have you named your boy, Rastus?"
"Sam Pro Tem Johnson, sah."
"What's the Pro Tem for?"
"To show that the name is only temporary, sah. We kinder thought Sam might like to choose his own name when he grewed up, so we put in de Pro Tem as a warning to de public."

AGENCY FOR MARINE MOTORS, BURNS LAKE

Claim "Liberty Drive" is Better and Cheaper Outboard Than Others.

BURNS LAKE, Aug. 24.—The Burns Lake Garage has secured the agency for the Gaille Perfection Marine Motors, inboard and outboard, making a specialty of their famous two horse power outboard engine called the "Liberty Drive" which it is claimed is far superior to all others, and can be delivered at a lower price.
The first shipment of these engines is at Prince George awaiting customs clearance.

AIR SQUADRON FOR THE NATIONAL GUARD

NEW YORK, Aug. 24.—New York state has the first air squadron to be organized by the national guard of the country.
The 102nd Observation Squadron of the New York National Guard Air Service, with headquarters at Mitchel Field, Long Island, was inspected recently by state and federal officers.
The personnel comprises veteran aviators, many of whom are aces. It is expected that the government will furnish the squadron with the standard De Haviland machines.

PRINCE RUPERT TIDES

Wednesday, August 22.
High— 4:43 a. m., 17.3 feet.
16:57 p. m., 18.8 feet.
Low— 10:36 a. m., 6.7 feet.
23:18 p. m., 6.2 feet.

Thursday, August 23.
High— 5:33 a. m., 16.4 feet.
17:42 p. m., 18.5 feet.
Low— 11:22 a. m., 7.5 feet.

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours, from midnight to midnight.
The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.
The height is in feet and tenths of feet above the average level of lower low water.

MUCH FISH FROM LAKES

Lake La Biche and Lesser Slave Are Shipping Quantity of White Fish.

EDMONTON, Aug. 24.—Fish in large quantities are being taken in the northern lakes, especially from Lac La Biche and Lesser Slave. At the former 80,000 pounds of white fish have been shipped besides quantities of pickerel, pike and coarser fish.

The quality of the fish is excellent, and everyone in the Lac La Biche fishing industry is wearing a broad smile. Over 25 fishermen, holding commercial licenses, are employed in removing the finny inhabitants from the depths.

Lesser Slave. Fish are plentiful on the Lesser Slave also, and up to August 14 over fifteen cars left the lake ports for outside points. Taken all round, the fishing is better this year, and in addition to the whitefish a very heavy catch of pickerel is reported up to the end of last week, from the east end of the lake.

Last year the total pickerel catch for the entire season amounted to 56,000 pounds, but in the present year the catch has already totalled 46,000 pounds, and there is still a clear month and a half of fishing. The catch in the eastern end of the lake is the best for many years, but the western section is apparently devoid of fish. More pickerel than usual have been caught.

Many Employed. Well over 150 fishermen are employed on the Lesser Slave in commercial fishing, the catch up to August 14th being approximately 350,000 pounds of all varieties, 300,000 pounds of fish from the Lesser Slave is being shipped out in excellent condition the majority of the product finding a market in Chicago where Alberta whitefish is exceedingly popular.

In Lac Saint Anne, the whitefish have disappeared from human ken, and so far the fishermen have been unable to locate the feeding grounds to which they have moved. As a consequence the usual big run is non-existent this year, and but little fish from this lake is reaching the market.

PREBENDARY GOUGH ARRIVES IN CITY

Will Spend Time Fishing and Sightseeing—Canadian Club Luncheon.

Prebendary A. W. Gough, of St. Paul's, London, England, accompanied by his son, arrived today from Vancouver on the Grand Trunk steamer to spend a few days in the city. They are registered at the Hotel Prince Rupert.

Though a prominent churchman and one of the leading clergymen in the Anglican Church in the Old Country, Prebendary Gough is a man who is fond of the outdoors and intends to spend the next day or so here fishing and sightseeing. On Friday he will address a Canadian Club luncheon, taking as his topic "Britain Since the War."

He expects to make the round trip to Stewart on the Prince George on Saturday night, and on Monday will leave for Edmonton.

Miss Hazel Morency returned this morning to the city after having spent holidays in Vancouver.

Do not suffer another day with itching, bleeding, or protruding PILES. No surgical operation required. Dr. Chase's Ointment will relieve you at once and afford lasting relief. See a box at J. G. & Co., Ltd., 200 St. George Street, Toronto. Sample box free if you mail in this paper and enclose 2c. stamp to pay postage.

BRINGING UP FATHER

OIL DRILLING HAS COMMENCED AT BURNS LAKE

Gasoline Engine Taken on the Ground Saturday and Actual Work This Week.

BURNS LAKE, Aug. 24.—Drilling has actually commenced on the land adjoining the lake covered by licenses recently issued by the Provincial Government. A gasoline engine was taken to the spot Saturday last and the drill has been on the ground some time.

The concern is not selling any stock but the members of the syndicate are putting in their own money with a view to testing the property.

Curious phenomena have been seen in the lake at different times such as sudden spurts of water being thrown into the air, probably from gas explosions. This leads to the probability of there being oil or at any rate natural gas at that point.

BUILDING GOING ON BURNS LAKE DISTRICT

E. H. Shockley Just Completing the New Royal Bank Building There.

BURNS LAKE, Aug. 24.—A lot of building is going on here. E. H. Shockley's carpenters are just putting the finishing touches to the new Royal Bank, and C. H. Elkins of the Prince Rupert firm of Smith & Mallett is here installing the plumbing.

A number of private houses are going up and everything looks prosperous.

WIRELESSED WHOLE OF BURIAL SERVICE

LIVERPOOL, Aug. 24.—During a recent voyage of the Carmania from America, a request was received in the ship's wireless room from another vessel asking for the transmission to her by wireless of the words of the burial service.

The reason for this unusual request was that a fireman on board the Canadian Government steamer, Canadian Trapper, had been taken ill on the voyage and had died and the captain discovered that there was no copy of the Prayer Book on board. The Carmania operator telegraphed by wireless the whole of the burial service.

THUNDER STORM

Unusual Occurrence Here Attracted Much Attention.

The thunderstorm over the Tsimpsan peninsula yesterday was an interesting event for Prince Rupert. The flashes of lightning and distant rumbles of thunder were something new to most residents here.

Shortly after five o'clock the first rumbles were heard over Mount Morse and the storm came up against the wind, as is customary with thunderstorms, and very soon there was a heavy downfall of rain which soon passed. Later in the evening thunder was heard and even after the rumbling had become too distant to be detected, the periodic flashes over the mountains indicated that the electric storm was still raging in that direction.

The Man in the Moon SAYS—

NEVER to reach notoriety by the scandal route.

ONE of the great questions to be decided is, what should we all do in our leisure hours if we had nothing to kick about?

A GIRL may have cold hands and ask someone to hold them, but when it comes to making her way to the altar she seldom gets cold feet.

If the Eyeopener becomes the organ of the farmers of Alberta, it will have to play an entirely new tune, for the farmers as a class are said to be extremely religious.

THERE will be an election before Christmas says Senator Bradbury and there will not be an election until after the spring session say a good many members of the House of Commons. Bradbury does not have to be re-elected but the members of the Commons would like to be.

SOME of the people who roared against a level crossing at Cow Bay now find they need a level crossing. Also they are finding that other Provincial Government suggestions are all right.

EVEN at a dollar a bushel that quarter of a billion bushels of wheat grown on the prairies this year will be worth a nice little sum.

NOW that the price of wheat has dropped, some of the prairie farmers will have to wash and polish their own automobiles this year. That will be a great hardship.

SHIRLEY MASON HERE PHOTOPLAY TONIGHT WESTHOLME THEATRE

Shirley Mason, the vivacious star, is to be seen tonight at the Westholme Theatre in "The Flame of Youth." Her pictures are enjoyed by old and young—always clean and bright and filled with good uplifting human emotion.

In "Flame of Youth" she has a role very different from all those she has played before, yet having this dainty freshness in common. Shirley Mason is the incarnation of youth and high spirits, and she may be expected to do wonders with such a part as that of the little Belgian founding who is the heroine of "Flame of Youth." The scenes are laid in the Belgian countryside and in the artists' quarter of Paris. The theme is love and romance and art. The combination arouses interest, and the name of Howard M. Mitchell as director adds assurance that the production is well done, for Mr. Mitchell is celebrated for his exactness in matters of detail and his almost uncanny knack of building up dramatic moments to a climax—in other words, of telling a story in the most dramatic way.

ALBERTA EXPECTS 20,000 UNEMPLOYED DURING THE WINTER

EDMONTON, Aug. 24.—The unemployment conference presided over by Premier Greenfield was informed last night that 20,000 men would be unemployed this winter in the province of Alberta, half of them in the rural districts.

Tentative plans have been made for unemployment relief.

New Fall Underwear

A well dressed man is more particular about his underwear than any other part of his wearing apparel. Most of better dressers like to wear a flat knit full fashioned garment.

Considering quality and price we are showing unusual values in some of the better makes in light, medium, heavy weight underwear for fall at

- \$3.50, \$5.00,
- \$10.00 a suit

MARTIN O'REILLY

Our prices are all Lower Prices.

Cash Prices are always Lower Prices.

WORK FOR ALL DOCKS IN EAST VERY SOON

So Says Shipping and Exporting Register of Montreal in Recent Issue.

There will be a busy time in the drydocks of the East according to the Shipping and Exporting Register of Montreal. It says in an editorial article:

"We have good reason to predict that every drydock and every repair plant for ships in Eastern Canada will be taxed to capacity this fall and winter. There are today many ships on the seas that should have a thorough overhauling. There is an effort on the part of shipping companies, government officials of the merchant marine and other shipowners at the present time to avoid all possible repairs because they are almost forced to make a financial showing with their ships. This condition has existed for some time now. Every dollar in repairs means less profits in the financial statement that the people and the shareholders are bound and determined to see. This is why we think that repair work is accumulating. This is why we say that there will be work for every repair plant and drydock in Eastern Canada. No one realizes this situation more than the shipowners themselves, and while many of them would be adverse to admitting it, nevertheless they know it, and it is our advice to them to start looking now for accommodation."

SYNOPSIS OF LAND ACT AMENDMENTS

Minimum price of first-class and second-class to be \$250 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering any land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emption abolished but parties of not more than four may arrange for adjacent pre-emption with joint records, but each making necessary improvements on respective claims.

Pre-emptors must make improvements to value of \$10 per acre, including clearing and cultivation of at least 1/2 acre.

Where pre-emptor in occupation less than 2 years, and has made improvements, he may be granted a 1/2-acre certificate of an improvement and transfer his claim to another person, but such certificate may be issued, provided applicant makes improvements to extent of 1/2 acre within one year of date of issue. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained more than 2 years after date of issue of certificate.

For grazing and industrial purposes areas exceeding 400 acres may be reserved by the government.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased on conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased on condition of construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, to be made.

PRE-EMPTORS' FREE GRANTS ACT:
The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under the Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the great war. This privilege is also made retrospective.

No fees relating to pre-emption are due or payable by settlers on pre-emptions recorded after June 25, 1914. Fees are required for five years.

Provision for return of money accrued, due and been paid since August 1, 1914, on account of payments, or of taxes on wood-land pre-emption.

Interest on agreements to purchase town or city lots held by members of United Empire Loyalists, or their direct or indirect, remitted from an instalment to March 31, 1920.

SUB-PURCHASES OF CROWN LANDS:
Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, inasmuch as they may fulfilment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING:
Grazing Act, 1915, for systematic development of livestock industry provided for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged, priority for established owners. State-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

CAUGHT TWO SHARKS.
CAPE MAY, N. J., Aug. 23.—When thirteen-year-old Emory Eyesman, son of Julian Eyesman, general traffic manager of the Pennsylvania Railway, went fishing the other day friends were obliged to charter an express wagon to carry his catch home. Emory caught two sharks that measured eight feet and eight feet four inches long and weighed 450 and 490 pounds each. He battled with them for more than two hours before landing them.

ELECTROCUTED SWORDFISH

MATTAPOISETT, Mass., Aug. 24.—A scheme for capturing swordfish by electrocution is being worked out here by Joseph Hammond of Brooklyn, N. Y., a summer visitor. In a recent experiment off No Man's Land, Mr. Hammond says he killed a 75-pound swordfish by sending an electric current along the steel harpoon. Adoption of electrical fishing Hammond asserts would combine humanity to the fish with less exertion to the fisherman.

SENATOR JONES' SHIPPING BILL

Matter of Discriminatory Duty of Five Per Cent to Be Pressed.

WASHINGTON, Aug. 24.—(By Canadian Press)—Proposed legislation for the granting of discriminatory duties to imports on United States vessels will be one of the big issues in connection with the consideration of the tariff bill in the Senate, according to present indications. Senator Jones of Washington, who has introduced an amendment to the tariff bill which would impose a 5 per cent higher rate of duty on goods imported on vessels other than the vessels of the United States is preparing not only to press the amendment before the finance committee but also on the floor of the Senate. He hopes to get a favorable report from the committee and in that event he believes the outlook will be good for the action which he proposes. Never Enforced.

While there is a provision for discriminating duties in the existing tariff law, it has never been enforced for the reason the executive department never took any steps toward the abrogation of treaties which stand in the way of the plan. But it is noteworthy that the Jones amendment is not dependent on the executive department. It declares that all treaties standing in the way of discriminating duties are to be regarded as abrogated in one year, unless sooner abrogated through notice given by the President.

Undoubtedly, opposition exists to the idea of discriminating duties but on the other hand there is powerful support for the belief the republican national committee organization backs the plan for discriminating duties. The Republican Publicity Association, which is headed by former Senator Jonathan Bourne, of Oregon, is out strongly in favor of the Jones principle. Far Reaching Effect.

If the idea of discriminating duties is carried out, as it now seems very likely to be, it is certain to have far-reaching effects on U. S. commerce. In the first place, it would give U. S. shipping a great advantage over its competitors. The purpose of it, in fact, is to build up U. S. shipping and it is really based on the fact that in the early days of the republic U. S. shipping prospered under the discriminating duty policy.

The Jones amendment would operate to give U. S. vessels handling Canadian goods for importation into the United States an advantage over Canadian vessels. It would affect, obviously a considerable proportion of the trade between the two countries, though, of course, the great bulk of the commerce between the United States and Canada is done by rail. Its effects unquestionably would be adverse to Canadian shipping as compared with the shipping of the United States. Not Unfriendly.

The object of Senator Jones in urging the discriminatory duty is not one of unfriendliness to the shipping of other countries. But it is in realization of the fact that the United States never can maintain a merchant marine in the face of foreign competition unless some form of advantage, such as subsidy, is given the U. S. vessels. Now a direct subsidy is out of the question. The public won't stand for it. It has been sought many times and refused by Congress. That being the case, the discriminating duty seems about the only practicable way, in the view of Senator Jones, to build up U. S. shipping. This is his real purpose and if it were not for the fact that nothing but rigorous remedies will prevent the U. S. merchant marine from going down, he declares, he would prefer to have commerce conducted on an even basis.

An Accident.

Jane—Please, ma'am, I've broken something.
Miss—Well Jane, what is it?
Jane (crying)—I'm very sorry I couldn't help it.
Miss—Don't be silly, Jane, tell me what it is.
Jane—Oh, ma'am, the cucumber was crooked and seeing you had company I tried to bend it straight.
