Action on Unemployment Question HEAVY FINE FOR SELLING LIQUOR CONTRARY MODERATION LAW

Labor Party in England Demands That Government Be Responsible For and Deal With Unemployment

LONDON, Sept. 23.—The Labor Party has issued a manifesto demanding a national policy to deal with unemployment. The government is condemned for placing the responsibility on local authorities and a demand is made for work or unemployment insurance for all who are out of work. A call is made upon the government to place orders for staple commodities, and the government is made that employers cannot expect to get normal wages but should be satisfied with the bare cost of production. It is also demanded that the Government export surplus articles to needy European countries on credit. Premier Lloyd George met the Labor members at Gairloch and promised early consideration of the unemployment problem, but emphasized that the Government could not bear the burden alone. The Birmingham City Council has instructed the lord mayor to call meetings of mayors of all boroughs to take concerted action demanding that the Government assume the responsibility of unemployment.

CAT SKINS ARE SOLD GERMANY

Pelts Numbering 20,000 Go at Very Low Price at New York.

NEW YORK, Sept. 23.—Marten, both Canadian and Japanese, started at the fourth day of the fur auction when a sales total of \$360,000 was realized. The grand total to date is \$2,175,000. Among yesterday's offerings were more than 20,000 house cat skins most of which were bought for export to Germany. The prices obtained for these skins were not high, as measured by those paid a couple of years ago, and the best pelts brought nearly a dollar less than the record figure of \$1.24 that was established here at the winter sale in 1920. American opossum was also bought for export to Germany where it is very popular when dyed to imitate skunk. Today's average prices showed these percentage advances over those of the April sale: Canadian marten, 10; Japanese marten 60; and Japanese mink 30; American opossum and marmot each dropped 10 percent, house cat and ring tail cat showed no change.

MORE TAXES UNTIL THE RATES ARE EQUALIZED

Green Borough Council Votes Sixteen to Ten For Proposal.

MOX, Sept. 23.—The borough council of Bethnal Green voted to ten not to levy more local taxes except required for borough needs. The London rates had been reduced. The borough council of Poplar borough have released from jail for contempt of court.

KING TO RUN IN ONTARIO

Will Contest North York in Forthcoming Election—Immense Gathering.

MONTREAL, Sept. 23.—W. L. Mackenzie King has announced his intention of contesting North York, Ontario, again in the forthcoming election, believing it to be in the best interest of the Liberal party that it be served by his candidature in Ontario. He made the announcement at a banquet in his honor on the 25th anniversary of the entry of Rudolph Lemieux into Parliament. Two thousand guests were present and addresses were given by Mr. Lemieux and Sir Lomer Gouin, formerly premier of Quebec, both of whom urged the necessity for continued protection in Canada.

REGULATE STATUS OF EASTERN GALICIA

Recommendation of Hon. C. J. Doherty Has Been Adopted.

LONDON, Sept. 23.—The League of Nations commission has adopted, with some modification, the proposal of Hon. C. J. Doherty of Canada that the council be invited to direct attention of the ambassadors at the conference to the need of regulating the status of eastern Galicia.

LOCAL LADY WAS WEDDED

Marriage of Miss M. V. McLennaghan and H. L. Midforth in Vancouver Last Night.

VANCOUVER, Sept. 23.—The wedding of Miss Myrtle Victoria McLennaghan, daughter of Mr. and Mrs. John A. McLennaghan, 2708 Alberta Street, Vancouver, sister of Mrs. Thomas McClymont, of Prince Rupert and formerly assistant in the High School of the northern city to H. L. Midforth, of Winnipeg, took place at 5 o'clock last evening at the home of the bride's parents here, Rev. E. A. Mitchell officiating. There were present many of the relatives, including Mr. and Mrs. McClymont, as well as intimate friends. The bride wore a travelling suit of navy gabardine over a blouse of sand georgette trimmed with iridescent beads. Her hat was of dove-tail, sand and blue with a Spanish veil. She wore a diamond pendant, the gift of the groom.

Following the wedding, Mr. and Mrs. Midforth left by Canadian National train for Winnipeg where they will reside. They are the recipients of congratulations and best wishes from their many friends both here and in Prince Rupert.

PROPOSED CHANGE IN TRAIN SERVICE HAS BEEN CANCELLED

Word was received this morning by G. H. McNicholl, assistant general passenger agent, that the proposed change in the train schedule allowing a longer stop-off here has been cancelled, and there will be no change in the train service this year.

Gold Seal Liquor Company Is Fined \$5,000 for Selling

VANCOUVER, Sept. 23.—Deciding that the Gold Seal Liquor Company had violated the provisions of the Government Liquor Act by selling liquor in British Columbia, Magistrate Shaw yesterday found the company guilty and imposed a fine of \$5000. The charge was that the company took orders here and delivered the goods from the Vancouver warehouse. The defence was that the orders were taken here and forwarded to Calgary, and the office at the Alberta city having accepted them, telegraphed them back to the Western Canada Liquor Co., which is a subsidiary company.

LABOR WILL SHOW POWER

SEND SETTLERS INTO CENTRAL B. C. VALLEYS

Officials on Way Through to Investigate Conditions With View to Settlement.

With a view to sending American settlers in Central British Columbia valleys, DeWitt Foster, superintendent of National Resources of the Canadian National Railways, H. M. Williams, also of Chicago; W. F. Anderson, general agent for the Canadian National at Seattle, are travelling through the Nechaco and Bulkley valleys in company with R. C. W. Lett of the colonization department of the railway and will arrive here on Sunday night and go south on the steamer.

Co-operation. The main object of the trip is to arrange for co-operation in the settling of the territory along the line of the Canadian National Railways, and especially in Central British Columbia. United States farmers, who are anxious to move, will be guided to the prairies of Alberta or to the mixed farming lands of the Bulkley and Nechaco or to the newly opened lands of Stuart Lake.

Mr. Lett has worked hard for many years to bring the districts to the notice of the outside world and his work has been one of the factors in securing the rapid settlement which has been going on. Now the scope of the work is to be extended and more determined efforts will be made by the railway company it is understood to populate the country through which the railways runs.

WILL REPEAL INDIA ACT

Trouble at Amritsar said to be Due to Provisions of Statute.

LONDON, Sept. 23.—The committee on Indian Legislation appointed to investigate the representative laws, has recommended the repeal of the Defense of India Act and also the Rowlett Act, which gives the Government the right of summary and secret trial or detention without trial. This act is said to be the cause of Indian unrest including the Amritsar incident.

EXPLOSION CAUSED MORE DAMAGE THAN FOUR YEARS OF WAR

MANNHEIM, GERMANY, Sept. 23.—Eleven hundred people are dead and 4000 wounded, it is estimated, as a result of the explosion at the Oppau Chemical Works. Oppau was quite demolished and the damage and casualties in the Mannheim-Ludwigshafen district is greater than from four years of war.

How British Are Governed.

The method by which the people of Canada, like practically all British people are governed, proved an intensely interesting subject to the members of the Rotary Club yesterday as outlined by Hon. A. M. Manson, Speaker of the Legislature. He clearly showed that there is no attempt at government by outside authority, but that the people of Canada manage their own affairs absolutely. There are certain laws and traditions which we have inherited from our fathers and which are improved from time to time. No restrictions are placed on our powers so far as our own affairs are concerned. He might even have said that we are a republic in fact although not in name, with the added advantage of belonging to a powerful empire which protects us against possible enemies and whose wonderful prestige we share.

Wonderful Heritage To Be British.

It is a wonderful heritage to be British. In saying this there is no attempt to speak slightly of any other nationality. Most men are proud of the nation that gave them birth. They take a pride in her great men and great deeds. They like to see that country prosper, even though they have left her shores.

Many people who were not born under the British Empire have come to Canada and have accepted citizenship in the country. They have become British in doing that, for this is a British country. The forefathers of most of us came to Great Britain or Ireland and accepted citizenship in those countries, so there is little real difference between us on that score. The moment we swear allegiance to the King we become Britishers. It is not necessary in doing so to give up all love and admiration for the land of our birth, but the first place must be given to the land in which we live and which we have chosen for our future home.

There is a small section of people who on becoming citizens do not quite realize that in becoming Canadians they become British, and in doing so get the advantage of all the prestige that goes with the flag. There are a few people who profess to scoff at the idea of there being any advantage in living in a British country. Such people should go elsewhere. There is no room for them here. Canadians generally are jealous of their citizenship. They are proud to know that they are Canadians and proud also to know that Canada is part of the great British Empire.

Do Our Part to Enhance Its Glory.

In speaking of the greatness of the Empire, it is not necessary to forget that there has been much in it of which we do not approve and that even yet there are a great many reforms necessary. We are still working out a better form of government which will give more equal opportunity for every citizen. No one can be blind to these things. As we see the imperfections, it is perhaps just as well to glance at the imperfections of our neighbors, without dwelling on them, in order to see that with all our imperfections there is no heritage in the world we would exchange our own for. If there is a better place, that is where we should be.

If we are to do our part in the British Empire, it is for us to make the part in which we live a credit to the rest. Right here in Prince Rupert is the place for us to begin. We can every one help to make the best possible city in the best possible province in the best possible country.

It is a custom to sneer at reformers, yet we must all be reformers if we are to have improvement. Every socialist is a reformer because he would like to have what he considers a better form of government. Every man with ideals which are higher than the actualities of the day is a reformer.

Far Away Fields Are Often Green.

We all know that far away fields look green. We all know the opposite side of a muddy road always looks cleaner than the side on which we are walking. So it is with governments and countries. We see the other kind and it looks good to us, whereas in actual experience probably it may not be anything like as good. There are in Prince Rupert people who point to Russia as an ideal, yet what one of these people would exchange their positions here for anything Russia could offer? Some hold up Switzerland as a model republic, yet we hear of no emigration from this country to Switzerland.

There are many who leave Canada for the United States, but it is not because they have a better government in the United States but because in the larger centres of population there are more opportunities for the man with big ideas or with abundant energy. The warmer climate of the south calls to many. In every case it is not the idealistic urge which takes him away, but the urge of individual opportunity, of sensual gratification or the spirit of wanderlust. There is nothing anywhere so good as we have here in opportunity or in liberty. People who have gone away all speak as if they would be glad to be back. The far away fields are not as green as they looked when viewed from a distance.

SPEAKER WILL MAKE CHANGES

Hon. A. M. Manson Expresses Intention of Taking Action at Forthcoming Session.

In his address to the Rotary Club yesterday Speaker Manson mentioned the danger of wholesale deleting of old customs all of which had grown up for some specific reason. At the same time it was his intention at the next sitting of the House to make further changes in the detail of procedure. It was wonderful how much some members talked with little to say.

In discussing the independent members he said he was not listened to with any authority for he had neither leader or following. It was in the caucus that many of the most important questions were thrashed out.

"The very essence of Government is compromise," declared Mr. Manson. When there are two absolutely divergent opinions the only thing is for each to give way until they agree. Compromise is absolutely necessary in the best interests of the whole country. Government by a class for a class is never for the good of the country.

BROUGHT EXHIBITS IN BY HORSEBACK

Lasqueti Island Fair held last Friday was a success despite the great handicap of having to bring the exhibits in by stone-boats, launch, or on horseback, says the Comox Argus. The roads are so poor that it is practically impossible to get a wheeled vehicle over them and so the transportation of exhibits to the fair ground presented unique difficulties. There was a keen rivalry in the many exhibits which were confined exclusively to grain, fruit, butter, cooking and vegetables. In quality the exhibits which were were equal to those shown in much larger fairs and with the opening up of the island by roads Lasqueti is bound to be a rival of Denman and other islands of the Gulf.

MANY TRAPPERS HAVE GONE OUT FOR FURS

Poor Fishing and Other Causes Drive Many to Woods to Seek Living.

Frank Dowling, telegraph operator from Second Cabin, arrived in the city last evening. He reports that a great many people both Indians and white people have gone north this fall for the hunting and trapping. The poor fishing season and the lack of other opportunities of making a living have made an unusually large number go out after furs.

Mr. Dowling says there are a lot of fur-bearing animals in the north, especially beaver. He tells about beaver stealing sticks which he has left around and of their being a nuisance in some sections of the country owing to the large numbers there.

WILD GOOSE NEVER DESERTS ITS MATE

That is Why Photoplay at Westholme Tonight Is Named "The Wild Goose."

Was it a good omen when, during the filming of "The Wild Goose" at the Cosmopolitan studio in New York, a flock of wild geese passed over the studio on their flight south, honking merrily? Albert Capellani, the director, says yes, and the result it seems, was the Paramount picture which will be shown at the Westholme theatre tonight.

There is an old saying among ornithologists that a wild goose never was known to desert its mate and that there devotion endures until death. This theory has been made the basis of a powerful story by Gouverneur Morris, the author, which was further strengthened in the picture. The theme deals with the marital troubles of a wealthy architect because of his romantic minded wife's infatuation with another man.

The development of the story is rapid and there are numerous dramatic moments that thrill the spectator. Mary McLaren, is the wife of Holmes E. Herbert the husband. The cast is excellent and it includes such players as Dorothy Bernard, Joseph Smiley, Norman Kerry and Rita Rogan, the remarkable child actress.

Ten Years Ago in Prince Rupert

September 23, 1911.

Tenders have just been called for by General Superintendent Mehan, of the G. T. P., for the excavation work for the new station site, round house site, yard clearing, dry dock and ship building yards in line with the big developments promised by the company after the settling with the city of the assessment matter.

George Anderson, of Seventh Avenue, fell under a freight car in the railway yards yesterday and his leg was so badly crushed that amputation above the knee was necessary. The operation was performed in the General Hospital by Dr. Eggert.

The Man in the Moon SAYS—

SAYS the Cleveland News, the proper length for a skirt is just above reproach.

"DEAR me this is so sudden!" exclaimed the girl when the little man asked "Will you have a little shrimp?"

AMONG the things that don't get you anywhere is buying cheap chocolates for your girl.

ANOTHER thing that does not get you very far is worrying about the bogey of a hard winter.

THE only hunting story that has not been brought in this year so far is that one about shooting so many geese and losing them in the swamp.

ANOTHER thing that does not get you anywhere is arguing about production for use instead of for profit.

WHY ask some people what they are living on? It is better to ask why they are living on?

THE little girl who could not wake her mother asked if she was really asleep or just pretending she was a telephone.

WHY not a Church auction where the price of a halo would be so much, the price of a crown a little higher and a harp with a pure white gown be sold at a million?

A correspondent wishes to know if a poem can be beautiful when there is something wrong with its feet.

DRAMATIC RECITAL BY IONA ROBERTSON

Miss Iona Robertson gave another of her delightful recitals last night at the Empress Theatre, but the attendance was not very good. The feature of the evening was Ben Hur's Chariot Race, which was the best thing of its kind ever given here.

A letter from the Canadian Steam Laundry protesting the method of awarding the contract for the hospital laundry was read at the meeting of the hospital board last night. As the contract had been awarded already the board felt that the matter had been closed so the letter was filed.

On behalf of the Ladies' Auxiliary of the Hospital Board, Mrs. D. W. Morrissey last night asked that the payment of the \$500 loan for laboratory purposes by the board be made. Major Gibson, secretary, stated that the money was available and the check would be made out immediately.

The nurses' home is to be equipped with a 1000-watt electric water heating system according to the report of D. C. McRae, of the Finance Committee, at the meeting of the hospital board last night. Estimates are to be secured on the work which will be proceeded with immediately.

We have another shipment of White Leghorns arriving on Saturday's Boat, similar to the last. Owing to shipper's mistake these chickens were shipped to us and must be sold regardless of price. While they last \$1.25 apiece; by taking six or more, \$1 each. Come early Saturday, Rupert Table Supply.

GERMANY BUYS SHIPS

Complications are expected to arise in the United Kingdom over the decision of the British Government to permit foreign countries, including ex-enemy, to bid for ex-German tonnage. Sale of secondhand British ships to foreigners is restricted to vessels not less than 15 years old, while five years must elapse before shipowners are allowed to have their acquired ex-enemy vessels transferred to a foreign flag.

Opinion in England is divided on the wisdom of letting down the bars. Some contend that as British buyers have absorbed all the enemy tonnage they can, or will, there is no logic in refusing foreigners the privilege of bidding. Others regard the change in policy as an aid to Germany in restoring her maritime trade.

MEIGHEN JUST WITHIN LAW

Must Have Given Redistribution If He Held Office Much Longer.

HOW THE WEST IS ROBBED OF MEMBERS

OTTAWA, Sept. 23.—(Canadian Press).—Discussion on the coming general elections are replete with references to redistribution, the Quebec "unit of representation" and points relating thereto. How is distribution in the House of Commons brought about? What is the so-called Quebec unit of representation, and how does it affect representation from the other provinces?

First, let it be explained that representation in the House of Commons is based, under the British North America Act, on the population of the Province of Quebec. It is provided that Quebec shall have an unchanging representation of 65 members, and that the other provinces shall have a membership in the house which will bear the same proportion as do their population to that of the province of Quebec. With the taking of each decennial census, the law requires that there be a distribution of seats, and had the forthcoming general election been delayed that course would have been followed.

Quebec Is Basis.

The unit of representation in the last parliament, based on the Quebec 1911 population of 2,003,232, was roughly 30,000. Estimates made thus far as to the 1921 census have indicated that the unit of representation will be nearer the 10,000 mark. The redistribution Act based on the 1911 census was passed in 1914. Previous to that time the House of Commons consisted of 221 members. The 1914 act brought the number up to 235, distributed by provinces as follows: Alberta, 12; British Columbia, 13; Manitoba, 15; New Brunswick, 11; Nova Scotia, 16; Ontario, 82; Prince Edward Island, 1; Quebec, 65; Saskatchewan, 16; and Yukon, 1.

The effect of the next Redistribution Bill, whenever it is passed, will be, it is expected, to decrease the Ontario and Maritime Province representation, and add seats in the Western provinces. No accurate forecast of the effect of redistribution can be made, however, until the census returns are officially completed and the population by provinces issued by the Census Commissioner.

Former Changes.

Changes made by the 1914 Redistribution Act were: Nova Scotia; Antigonish absorbed into Guysboro; Richmond by Cape Breton and Digby by Antigonish.

Manitoba—Neepawa, Nelson and Springfield, new seats were created and Winnipeg was given three seats instead of one.

Saskatchewan—New seats known as Kindersley, Last Mountain, Maple Creek, North Battleford, Swift Current and Weyburn were created.

Alberta—Calgary and Edmonton each given two members instead of one. Two new divisions known as Bow River and Battle River created.

British Columbia—New seats created known as Burrard, Skeena, Alberni and East Kootenay. Vancouver given two members instead of one.

Senate at Present.
The Senate at present consists of 96 members, appointed for life by the Governor General. Representation in the Senate is provided by provinces as follows: Prince Edward Island, 4; Nova Scotia, 10; New Brunswick, 10; Quebec, 24; Ontario, 24; Manitoba, 6; Saskatchewan, 6; Alberta, 6 and British Columbia, 6.

Under the present laws, the Senate is the only house of the Parliament of Canada where women are not eligible for membership, but an appeal for the admission of women has already been made to the Meighen government, and a promise has already been given by Mr. Hon. Arthur Meighen that if his government is returned it will seek amendment of the B.N.A. Act to admit the appointment of women to the Red Chamber.

THE TORTURE OF INDIGESTION

Thousands Made Miserable By This Trouble

"FRUIT-A-TIVES" Relieves It

What is indigestion and what causes it? As you know, solid food must be changed into a liquid by the stomach before it can be taken up as nourishment by the blood.

The stomach acts as a churn. It is covered by a strong, muscular coat and lined with a soft, delicate membrane which secretes the Gastric Juice which digests or dissolves solid food.

When food enters the stomach, the muscular coat squeezes and presses the food from end to end, or churns it, with the gastric juice to dissolve or digest it.

But—if the stomach muscles are weak—or if the dissolving fluid is poor or insufficient—then food cannot be digested properly and you have indigestion.

"FRUIT-A-TIVES" is the most wonderful medicine in the world for strengthening the stomach muscles and providing an abundance of pure, full-strength dissolving fluid to completely digest every meal.

"FRUIT-A-TIVES" does this because it keeps the kidneys active, the bowels regular and the blood pure, which insures pure Gastric Juice.

"FRUIT-A-TIVES" will correct your indigestion or dyspepsia and enable you to enjoy every meal. Try it.

napolis.

New Brunswick—Restigouche and Madawaska united; Victoria, previously with Madawaska, joined to Carleton; Sunbury, which used to be with Queen's, joined to York; King's and Queen's united to form a new constituency known as Royal; Albert, which had been united with King's was united to St. John County. There is one member for St. John City and one for "The City and Counties of St. John and Albert."

Quebec—Three new constituencies: Carlier, Outremont and St. Denis; created in Montreal district. Hull, Matane and Quebec South created separate constituencies. Charlevoix absorbed Montmorency; Montcalm absorbed L'Assomption; Two Mountains absorbed Laval; St. Hyacinthe absorbed Rouville; Val-d'Aulieu absorbed Rouleau; and Chateaugay and Huntingdon were united.

Ontario—East Grey, West Huron, East Kent, North Lanark, North Middlesex and Brockville disappeared. The two Northumberland were united. New constituencies were created known as Parrydale, West York and East York (in Toronto district). Temiskaming and Port Arthur and Kenora.

Manitoba—Neepawa, Nelson and Springfield, new seats were created and Winnipeg was given three seats instead of one.

Saskatchewan—New seats known as Kindersley, Last Mountain, Maple Creek, North Battleford, Swift Current and Weyburn were created.

POLAR BEAR FLIES AWAY BUT RETURNS

Aviator C. O. Prest Hopped Off at 8:23 This Morning for Wrangell en route to Siberia.

RAN INTO RAINSTORM AND BACK HERE AT 11:45

After a stop of twenty-three days here, the bi-plane Polar Bear, piloted by C. O. Prest, of Las Vegas, Mexico, hopped off from the Aeropolis Grounds at 8:23 this morning for the next lap of the northern flight—Prince Rupert to Wrangell, 240 miles. On leaving here the motor was apparently working in good condition and the machine lifted as prettily off the field as in any of the exhibition flights last week. When last seen, the Polar Bear was heading north-west over the hills across the harbor. By the time this appears the plane should have arrived at Farm Island, Wrangell.

Forced Back by Rain.

The Polar Bear did not reach Wrangell, however, and was back at the Aeropolis Grounds at 11:45, Mr. Prest making another fine landing at which he has shown such skill while in Prince Rupert. After leaving here, the plane made splendid progress and inside of an hour was five miles south of Ketchikan. There was a strong southeast wind behind the machine all the way up the coast but an evening Ketchikan it ran into a heavy rain-storm and navigation was almost impossible. The aviator circled around for three quarters of an hour attempting to outflank it but this was found to be impossible. It was raining everywhere to the north. Finally Mr. Prest turned his machine southward again and soon came out of the rain. Bucking the wind all the way he made the return trip here in two hours time landing cold and disappointed, but otherwise none the worse.

There were quite a number of people at the grounds to see the intrepid aviator off and to wish him good luck in completing his flight to Siberia. Among them were President George H. Munro, of the Agricultural Association, Directors Bryant, W. E. Thompson, Secretary D. McDi. Hunter, J. F. Smith, manager of the Prince Rupert Hotel and others.

SCHOOL TEACHERS TO LECTURE NURSES IN TRAINING HERE

The Hospital Board is to request the School Board to allow the assistance of J. C. Brady, High School principal, and Miss A. B. Marcellus, domestic science teacher, in giving lectures at the training school. Mr. Brady will instruct the girls in chemistry and Miss Marcellus, in domestic science. President Stewart and Col. S. P. McMorris have been delegated to meet the school board in this regard.

COLONEL PECK NOT BLAMED FOR DELAY PAYMENT ACCOUNTS

In correction of a rumor that is about town M. P. Gaffrey makes the following statement: "In conversation with Colonel Peck I understood from him that he was undertaking to get another order-in-council passed which would cover all accounts in connection with the drydock. My understanding was that the first order-in-council was not satisfactory to him. I wish to state positively that I took no exception to his efforts in connection with securing payment of the accounts, but on the contrary I believe he has done everything possible at all times. I also believe that if we get payment from the present government it will be largely through his efforts."

W. G. Fearnside, the Sheffield geologist, returned last night from Anyox where he inspected the smelter and mines of the Granby Consolidated Mining, Smelting and Power Co. He leaves for the East on tomorrow morning's train.

PRINCE RUPERT TIDES

Friday, September 23.
High—5:13 a.m., 17.0 feet.
17:12 p.m., 19.0 feet.
Low—11:04 a.m., 8.1 feet.
23:54 p.m., 5.9 feet.
Saturday, September 24.
High—6:18 a.m., 16.3 feet.
18:15 p.m., 18.3 feet.
Low—11:56 a.m., 8.9 feet.

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours, from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

HOUSTON

Rev. S. J. Bayfield held services last Sunday at the mission house at 3 p.m. These services are held at the same hour on the third Sunday of each month. Rev. Mr. Deans of Telkwa holds services on the second Sunday of each month at 7 p.m. at the schoolhouse.

The fine field of Marquette wheat on H. Silverthorn's farm is attracting a good deal of notice. It is an indication of what can be done in the Bulkley Valley. Fine potatoes may be seen on the same farm.

People here are much pleased at the progress on the road work between North Bulkley and Houston, which is a credit to the road engineer. Mr. McLean is doing good work on it and the men working on it are looked after well.

Most of the miners of the district have gone to do their assessment work on their claims.

THEIR DESSERT.

BAD CONDITIONS SOUTH ALBERTA

Farmers to Be Given Work on Irrigation Ditch Construction.

EDMONTON, Sept. 23.—Premier Greenfield has just returned after a 300 mile drive through the southern part of the province, where the seriousness of the situation following the summer drought was impressed upon him. He states that government action will be taken to relieve the farmers who had no crops.

The growth that it was possible to get in the country where irrigation was feasible was amazing, said the premier, and also its limitless possibilities as a cattle country.

"I saw better steers there than any place in Alberta, and they were being fed in small feed lots on alfalfa in racks," said the premier. He considers it a wonderful place for the finishing of cattle, but the problem at present is not the ultimate use of the country, but what can be done in the meantime to tide the people over this year.

Pitiful Condition.

Conditions are pitiful, states the premier, and while it may be necessary to give some relief this year, the government is going to try as far as possible to give this in the way of work. They will endeavor if possible to speed up the work on the irrigation districts, so as to give employment to as many of the settlers as need assistance. Already a good many are working on the Lettbridge and Great Northern ditch.

MOPLAH RIOTS NOTHING NEW

Trouble Been Brewing in District for Some Time Past.

LONDON, Sept. 21.—(The Associated Press).—Three factors in connection with the present disturbed conditions in India, factors about which little is known abroad, make it difficult to set forth the causes which have led to the declaration of martial law by the British in six districts—Calicut, Walaabad, Ponnani, Ernad, Wynaad and Kurambanad—all within 500 miles of Madras.

These factors are, first, the Gandhi or non-co-operation movement, led by a supposedly non-resistant native messiah; the operation of the new Government for India Act which went into effect in January, 1921, and the administration of the new viceroy, the Earl of Reading. Each of these elements have some bearing, directly or indirectly, upon the most recent trouble which has resulted in the killing of Europeans and Hindus by fanatical tribesmen.

Narrow Territory.

The disaffected area, Malabar, which figures in the most recent despatches from India, is a narrow strip of land on the west coast along the Arabian Sea, south of Bombay. In this region are upwards of 1,000,000 Mohammedans of Arab descent known as Moplahs who, for years have resisted British authority. In this same territory are a number of European and many Dravidians, including Hindus, against whom the ferocity of the Moplahs is said to be directed.

The trouble originated, according to the reports of a Malabar magistrate to the India office, when the British authorities began to confiscate war knives possessed by the natives of Tirunagadi. Arming of the Moplahs was said to be in violation of the Malabar Offensive Weapons Act of 1851. Sikhs and other native Indian police, as well as agitators sympathizing with the Gandhi anti-British boycott, have been charged with supplying the Moplahs with weapons and inciting them to rebellion.

Double Faced.

Mohandas Karamchand Gandhi the Nationalist leader, at a congress held late in 1920 in Nagpur, made a plea against violence but called for the destruction of British rule in India and was quoted as saying that the success of the non-co-operation movement—the refusal of Indians to pay taxes, send their children to school or buy British products—might involve swathing through oceans of blood.

Gandhi was invited by the Kerala Provisional Congress committee on August 28 to visit Malabar and try to pacify the Moplahs, who at that time were killing Europeans and Hindus, destroying property and proclaiming "home rule" in all disturbed areas.

On August 1, Gandhi with many of his adherents made a public bonfire of British goods in the streets of Bombay. He was not molested but a few weeks later it was reported that the government of India with the concurrence of Edward S. Montagu, Secretary of State for India, and decided to take action "against the prominent personages" held responsible for the greater part of the recent troubles in India.
