Fierce Gale Sweeps South Coasts

PREMIER MEIGHEN APPEALED TO REGARDING REFRIGERATOR CAR SHORTAGE

Terrific Wind Storm Rages Down Coast Saturday Night

Vancouver, Victoria, Seattle and San Francisco Suffer Damage from Gale; Few Deaths result but Telegraph Wires Seriously Disarranged.

Tree Falls Across Car Killing One of Occupants

Victoria Street Cars Held Up and Light Off for an hour; Chimneys suffer at Seattle and One Man Killed; In mense velocity

VANGOUVER, January 31.—One of the worst storms in years Saturday dislocated traffic, smashed windows, blew down telegraph wires and generally played havoc with everything. No life here has been reported as a result.

VICTORIA, January 31.—Frank Smith, an employee of the Van River Logging Company, was instantly killed and the house of Vancouver Island was isolated as a result of the wind which commenced about 6 p. m. on Saturday and continued Sunday evening. Telephone and telegraph wires were blown down, and the street cars were out of commission for several hours, while the lighting system closed down for an hour. Trees everywhere were blown down.

Frank Smith, who was killed, was returning home from the city with friends in an auto, when at Cole Creek a tree was blown down by the gale, smashing across the automobile and crushing Smith to death and injuring the other occupants of the car.

The velocity of the wind is given officially as sixty miles an hour. At Tatoosh, near Cape Flattery, it is reported as blowing 110 miles an hour. So far as cars are concerned there was no serious damage to shipping.

Seattle Also Suffered. SEATTLE, January 31.—A. A. Brown, engineer, was instantly killed and Jesse McMann, his assistant, was badly injured in the storm on Saturday evening when a sudden gale blew down four smoke stacks at the Anderson & Middleton lumber mill, plunging them through the engine-room roof.

The storm was the most violent in years, all wire communication being cut off and much damage done.

San Francisco. SAN FRANCISCO, January 31.—Saturday's storm was the worst ever experienced here. The wind velocity at the mouth of the Columbia River was 150 miles an hour.

SEIZED LIQUOR FROM STEAMER

American Craft Fined and Captain Charged with Failing to Report.

NANAIMO, Jan. 31.—Canadian customs officers at Ladysmith made a seizure of whiskey on Saturday. The liquor was stowed away on the American steamer Latouche in from Seattle.

The vessel was fined and the master was charged with failing to report the presence of liquor aboard. The captain denied any knowledge of the liquor being there.

A donation of \$50 was made by the local Elks towards the relief of the teachers who suffered so heavily in the Crosby Girls' Home fire at Port Simpson.

OTHER AND SONS BURNED TO DEATH

INGSTON, Jan. 30.—Patrick, aged 55, and two young sons were burned to death here when their home was destroyed.

MARINES BROKE INTO JAIL AND RELEASED MAN

Serious Action of Men from the Bremerton Naval Yard on Saturday Night.

BREMERTON, Jan. 31.—A hundred marines from the Puget Sound Naval Yard, a good number of them being armed with forty-fives late Saturday night stormed the city jail, broke down the doors after backing two patrolmen to the wall at the point of their guns, and released their fellow marine who was locked in jail and two women, all of whom are still at large.

The Alex. Manson School, at Ootsa Lake, was opened recently with fourteen pupils in attendance.

\$1,000,000 OF WHISKEY

That is Amount Being Smuggled into San Francisco Every Month.

SAN FRANCISCO, Jan. 31. Customs officials are watching for the launch Marie, which it is stated left Victoria for this port with 500 cases of whiskey aboard. It is estimated by the customs department that over a million dollars' worth of whiskey is being smuggled into San Francisco monthly from the northern point.

YACHT RACE ON ATLANTIC

King Albert of Belgium Offers Prize from Sandy Hook to Ostend.

NEW YORK, Jan. 31.—King Albert of Belgium offered a cup as a prize for an ocean race from Sandy Hook, New York, to Ostend, Belgium, for open sailing yachts. The race is to start on July 4. There will be no handicaps in this event as the king wishes to make it an open event for championship of the high seas.

CAPT. IAN MACKENZIE

LLOYD GEORGE RETURNS HOME

LONDON, January 31.—Lloyd George returned last night from Paris where he participated in the work of the Supreme Council of the Allies. He was accompanied by Sir Auckland Geddes, British ambassador to the United States, who was recently called home to confer with Lloyd George and Earl Curzon, foreign minister.

Premier Meighen Urged to Provide Fish Cars for Port

Joint Committee of the City Council, Board of Trade and Fisheries Association Sends Urgent Message Asking for Relief from Present Situation

Following the reading of telegrams from Hon. J. D. Reid, minister of railways; John Pullen, head of the Canadian Express Co., and D. B. Hanna, of the Canadian National Railways, the following night lettergram was despatched to Premier Meighen by a joint committee of the City Council, Board of Trade, and Fisheries Association on Saturday:

"The express refrigerator car shortage situation reported to government and railway officials is so acute that immediate steps must be taken by the Government to relieve it. The deep seas fishing season is now open with a fishing fleet twenty per cent larger than in former years. A tremendous demand is now on for Lent. This traffic will be diverted to Seattle for shipment to eastern markets of the United States and Canada.

"We appeal to you for cars. Conserve our fishing industry by immediately securing express refrigerator cars. Millions of pounds of fish that would be shipped by rail from this port has been compelled to go to Seattle, Schooner Commonwealth called yesterday with 90,000 lbs. halibut but no cars here so forced to go to Seattle. This is a daily occurrence.

"We need eighty additional express refrigerator cars. Thirty were promised for last August, but are not manufactured yet, we are advised. They will not commence to deliver them until March 15. This means ruin. Can you not help?"

Prince Rupert Board of Trade Corporation of the City of Prince Rupert.

Prince Rupert Branch Canadian Fisheries Association.

Telegrams Received.

Telegrams were received prior to the wire being sent to Mr. Meighen as follows:

"Board of Trade, Prince Rupert, B. C.

Telegram received and matter is being taken up at once with the management.

"J. D. REID."

"Board of Trade, Prince Rupert, B. C.

"Message received. Refrigerator cars have been on order for some time and builders confidently expect will commence deliveries in March. We understand urgency of this important matter and every thing possible will be done to hurry deliveries of the new equipment.

"D. B. HANNA."

A wire from John Pullen of the Canadian Express Co. says:

"Latest advice cars expected in March."

The most definite and important of the telegrams was that from A. E. Warren, general manager of western lines of the C. N. R., as follows:

"Your wire 28th, latest information from builders of thirty

new express refrigerator cars estimated first one will be completed March 15 and entire thirty by March 31. These will be put into service fast as received and have instructed our car service department to assign all other cars possible for prospective business.

"A. E. WARREN."

The opinion of the joint committee was that the officials were side-stepping and that there was nothing for it but to take the matter up with Premier Meighen. Should that fail the matter will be ventilated in Parliament and nothing be left undone to secure the necessary cars for the local service.

The meeting was held on Saturday afternoon with W. E. Williams presiding.

Vancouver Report.

James L. Lee, secretary of the local branch of the Canadian Fisheries Association, wired A. L. Hagar, president of the Association at Vancouver, asking for his co-operation in regard to securing fish cars. A reply was received yesterday as follows: "Please inform Prince Rupert members I have wired President Pullen at length today and will relay his reply at earliest time possible after receipt. Am requesting Secretary Wallace today to make an appointment with Pullen Monday for a personal interview and to wire me the result. This information will also be passed on to you promptly. I am thoroughly in sympathy with your position and will support same fully."

Chinaman Burned to Death at Hazelton

Fire Destroys Ingenica Hotel and Residence of J. C. K. Sealy; Three Chinese Have Narrow Escape

HAZELTON, January 31.—Sam Lee, a Chinaman, was burned to death and three other Chinese had narrow escapes when fire destroyed the old Ingenica Hotel at Hazelton and the residence of J. C. K. Sealy which adjoined it. The fire broke out about four o'clock Sunday morning and had made such headway before being discovered that everything was destroyed. Sam Lee was proprietor of the Royal Cafe in the hotel building and everything in it was destroyed but part of the furniture in Sealy's house was saved. It is estimated that the total loss will be not less than \$8,000.

This is the second fire at Hazelton within the month. Both buildings and furniture were partly covered by insurance.

Two Fish Boats Cleared For Seattle Last Night

Car Shortage Continues and General Feeling of Disgust Prevails in Waterfront Fishing Circles

Four fish boats are waiting till tomorrow for sale and two with 33,000 pounds cleared for Seattle last night on account of the continuing car shortage. There was but one car available for the week-end arrivals and this was despatched east by the Canadian Fish and Cold Storage Co. Fifteen cars are reported to have left for the west but there are none this side of Prince George. It is likely some days before the fifteen will reach here. In the meantime fish is being turned away.

The following are the arrivals and sales for the week-end:

Carolyn, 16,000 pounds, and Yellowstone, 8,000 pounds, sold to the Cold Storage yesterday morning for shipment east at 18.1c and 7c.

Lincoln sold to the Cold Storage for freezing at 11c and 7c.

Defence, 14,000 pounds; Spencer, 15,000; Ali, 7,000, and Tramp, 10,000, are awaiting sale.

Agnes, 16,000 pounds, and Pelican, 17,000 pounds, cleared for Seattle.

A general feeling of disgust among both fish companies and fishermen prevails along the waterfront. One fisherman remarked this morning: "This is a hell of a port; we'll get out of here this time and never come back."

WOUNDED IN IRISH AMBUSH

Collingwood House Wrecked by Black and Tans Who Were Searching for Rebel.

BELFAST, Jan. 31.—An officer and one man were seriously wounded and five others slightly wounded when a lorry was ambushed on Saturday night in the vicinity of Tarenare on the south side of Dublin. A bomb was exploded and shots were fired at the lorry, to which the soldiers replied vigorously. The assailants escaped.

Collingwood House in Ranelagh, a Dublin suburb, was wrecked on Saturday night by the military. It was owned by the mother of Patrick H. Pears, once provisional president of Ireland, who was executed after the 1916 rebellion. The military were seeking Richard Mulcahy, a member of the Daile Eireann and rumored chief of staff of the republican army. According to Mrs. Pears, the place was wrecked by the Black and Tans.

ALEX. MANSON ORDERED OUT POLICE COURT

Magistrate Objects to Remarks of Counsel Resenting Insinuation.

Alex. Manson, M.P.P., was this morning ordered from the police court by Police Magistrate McMordie for making remarks considered derogatory to the dignity of the bench.

In the case of Rex vs. Rutland the member for Omineca had been cross-examining a witness at some length and apologized to the magistrate for taking so much time. He said the peculiar case demanded it. The magistrate interjected "and the size of the gallery."

Mr. Manson resented the remark and said: "Your Worship, a man of your brains and education should not be guilty of making an insinuation that my cross-examination was dictated by the size of the gallery. It is quite immaterial to me if your worship clears the court room."

Magistrate McMordie requested Mr. Manson to apologize, which the latter refused to do.

The magistrate then requested Mr. Manson to leave the court room.

Mr. Manson did not do so but said that he had sent for his partner to take over the brief and without waiting further the magistrate adjourned the court.

DAILY EDITION. Monday, January 31, 1921.

Urgent Need of Government Action.

There is urgent need of Government action in regard to the supply of fish cars for this port. There is every indication that this will be a big fish year. The catches made so far have been good and there will be at least a twenty per cent larger fleet operating from this port than last year, if only cars can be obtained to handle the product. Unfortunately the railway officials and Government do not seem to realize the gravity of the situation. They have not taken action as they should, knowing the conditions that exist here.

Must Be Fair To the Railway.

There is every desire to be fair to the railway company. There is nothing to be gained by hounding them, but we must have their co-operation in our legitimate endeavors to expand. The Daily News has been careful not to exaggerate in giving the news of the car shortages and in other matters in which they are concerned. We gave the cargo of the Commonwealth, which had to go south, as 80,000 lbs. whereas the general opinion is that she carried 90,000 lbs. We put the express charges on the 80,000 lbs. of fish as \$2,400 whereas we have been since informed that the express charges on most of the fish shipped from here would amount to a thousand dollars more than that for the same amount. The rate on fish to points west of Detroit is \$3.93 per cwt. and for points east of Detroit \$4.28. Most of the cars go to points east of Detroit. The railway company therefore loses immensely by every car load of fish that goes south. It seems as if it should be in their own interests for the railway to handle the business we offer instead of consistently turning it down for years.

Campbell Resignation Much Regretted.

The resignation of E. E. Campbell, manager of the Anyox mine, will be regretted, especially by those interested in sport in this part of the country. No one was keener than Mr. Campbell to see that a ball team was sent here for the fair or that a racing boat was on hand to make an effort to carry off the speed boat cup. He was always a good sport, and while he tried to win, did not mind losing. He will be much missed in the north.

Settlement With Germany Satisfactory.

It is satisfactory to know that there has been a settlement with Germany over the matter of reparations. Had there been serious disagreement among the powers, Germany might have escaped to some extent the duty of restoring the damage which she caused in Europe. While other countries were suffering Germany escaped. None of the fighting was on her territory. None of her homes were destroyed. Now she must pay for the restoration of the places which she has laid waste. It is inevitable. It may be hard on the people but they must know what it is to suffer for the wrong they did, just as the people of the other countries suffered only in immensely less degree.

Interest in Girl Who Was Drowned.

Everyone seemed interested in the death of the hobo girl, who jumped from the Fraser bridge Saturday afternoon and was drowned. The Daily News published the story of her trip south on the Prince George and within little more than an hour of her death this paper was being sold on the street telling the story. Few of us saw the girl but all sympathized with her and deeply regretted her death.

OWES HER LIFE TO "FRUIT-A-TIVES"

After Years of Suffering with Dyspepsia, this Fruit Medicine Gave Relief

Mlle ANTOINETTE BOUCHER
917 Dorion St., Montreal.

"I am writing to tell you that I owe my life to 'Fruit-a-tives' for this remedy relieved me when I had abandoned all hope of ever recovering my health.

I suffered terribly with Dyspepsia. I had it for years and all the medicines I took did not do me any good.

I read something about 'Fruit-a-tives' being good for all Stomach Troubles and Disorders of Digestion so I tried them. After finishing a few boxes, I was entirely relieved of the Dyspepsia and my general health was restored.

I thank the great fruit medicine, 'Fruit-a-tives', for this wonderful relief."

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

The height is in feet and tenths of feet above the average level of lower low water.

PROGRESSIVE MINING YEAR

Production Much Greater in North Account Granby and Dolly Varden

LARGE OUTPUT OF DOLLY VARDEN MINE

"This year has been, in the northeastern mineral district, without a doubt a most progressive one for the mining industry," says George A. Clothier, resident mining engineer, in his report to the government. "Increase in the number and activities of prospectors has been apparent, and the number of field engineers in the district throughout the year is evidence that the larger mining companies are alive to the possibilities of this portion of the province."

A greatly increased amount of development work has been done by the owners of claims, the small mining operators and the large companies and there has been an encouraging percentage of favorable results. The "broken" mining operator has not been active to a great extent and the public are wisely preferring to back up the properties investigated and reported upon by competent engineers and being developed by reputable mining men.

The tonnage mined in the year has increased by 200,000 tons in this district due to the Granby and Dolly Varden mines. Granby's gold production has nearly doubled and silver has increased by 500,000 ounces on account of the splendid output of Granby and the Dolly Varden. Copper production is greater by about 5,750,000 pounds, the Granby Company again being responsible, while the smaller shippers were about the same as last year.

The Atlin, Strains and Liard placers produced 6,300 ounces of gold during the year. The Granby Consolidated had an output of 9,160 ounces of gold, 439,238 ounces of silver and 25,304,400 pounds of copper. From the Golskeish mines, at Anyox, came 585 ounces of gold and 1,025 ounces of silver and from the Esperanza at Alice Arm, 4 ounces of gold and 3,788 ounces of silver. The Dolly Varden made an output of 870,000 ounces of silver. The Premier, at Stewart, mined 2,701 ounces of gold and 92,183 ounces of silver, while the production at Surf Inlet is placed at 50,000 ounces of gold, 30,000 ounces of silver and 800,000 pounds of copper. Other small producers were: Patterson Group, Porcher Island, 50 ounces of gold and 30 ounces of silver; Ikeda Mines, 26 ounces of gold, 290 ounces of silver and 21,098 pounds of copper; Drum Lummon, 31 ounces of gold, 510 ounces of silver and 39,000 pounds of copper.

Ten Years Ago in Prince Rupert

January 31, 1911

The biggest and most dangerous fire which has ever visited Prince Rupert occurred yesterday morning when the boarding house of Mrs. Handenschild, on Third Avenue, east of McBride, was destroyed.

On Sunday night Mah Ling, a Chinaman, was beaten up by a couple of thugs on Comox Avenue and his purse containing \$45 taken.

Pat Phillipson has been appointed sergeant on the city police force and began his duties last night.

There were a number of skaters out at Shawatans Lake yesterday and in spite of the snow in the morning the ice was in first rate condition, much better than on Saturday when several parties visited the spot. The Oh Baby and the Dixie Rupert both made several trips, as well as several private launches.

To Be Dyspeptic Is to be Miserable

The poor dyspeptic suffers untold agony after every meal, and any one who has dyspepsia knows what joy it would give to eat three square meals a day and not be punished for it after. Nearly everything that enters the weak stomach acts as an irritant, and even the little that is eaten causes such torture and is digested so imperfectly that it does little good.

Before you can eat heartily, and not pick and choose your food, you must put your stomach into such a condition that it will manufacture its own digestive ferments.

For over forty years Burdock Blood Bitters has been toning up and restoring weak stomachs to a normal healthy condition so that the food no longer causes distress, but is thoroughly digested and assimilated, and enables one to partake of all the wholesome food required without fear of any unpleasant after effects.

Mrs. Alice Beckwith, Fesserton, Ont., writes: "I have been a great sufferer from indigestion and dyspepsia for several years. I could not eat anything without almost dying from the pain in the pit of my stomach. Seeing Burdock Blood Bitters highly recommended I tried a bottle, and can gladly say it relieved me. I can eat anything now, and am in perfect health."

BIG BUSINESS CO-OPERATIVE

Annual Meeting at Smithers Last Week Chose Officers for the Year.

MEETING IN TELKWA IN MARCH TO HEAR REPORTS

At the annual general meeting of the Northern Interior Co-operative Association held in Smithers last week officers for the ensuing year were elected. R. McGregor, of Telkwa, succeeding A. J. Prudhomme, was unanimously chosen president. Votes of thanks were tendered to Mr. Prudhomme and H. A. Beck, the general manager, who was retained in that position. Approval of the conditions of the company's business was also expressed.

The financial statement was not submitted as it has not yet been signed by the auditors and another general meeting will be held in Telkwa on March 1 to receive it. The total business of the company in the eight and a half months since its inception was \$57,016.26 and the business is generally increasing.

The new officers elected were: President, R. McGregor, Telkwa; Vice-president, H. Davis, Hous-ton; General manager H. A. Beck.

Directors—R. Buzzer, Telkwa; B. L. Frank, Terrace; A. Keller, Francois Lake; G. L. Murray, Telkwa; R. May, Moricetown; Frank Gilbert, Smithers; A. Sheldford, Wistaria; Frank Madigan, Hous-ton, and W. J. Carroll, Palling.

Jam Factory.

The association is considering the establishment of a retail and wholesale grocery business and also the putting in of a jam factory at Terrace. The location of the store has not yet been decided. Tomorrow evening H. L. Frank and J. Kirkaldy, president of the Terrace branch of the association, will arrive in the city to confer with Mr. Beck in regard to the Terrace jam factory.

Mr. Beck returned last night from the interior where he attended the general meeting and visited various points including Telkwa, Smithers, Robert, Round Lake, Hazelton and Terrace. He had a busy time making connections between the various places.

Fortunately We Had Zam-Buk in the House

THINK of the pain and dollars saved by always having handy a box of this magic herbal healer. Zam-Buk has such a wide range of usefulness. It is a real purifying and healing agent. It conquers eczema, ulcers, piles, and ringworm as surely as it grows new skin over a scald or cut, or place chapped with cold. It is also splendid to rub in for rheumatism and muscular pains.

Zam-Buk is healing, soothing, and antiseptic, and it draws all germ poison from the tissues. All these wonderful properties come from certain rare and costly herbal extracts, which are prepared in a unique scientific way. Free from animal fat, Zam-Buk is the most wonderful healing balm ever discovered.

SCALDS & POISONED WOUNDS

Mrs. A. Sawyer, Midland, Ont. — "My little son was badly scalded by pulling over a pan of boiling water. I found Zam-Buk wonderful. It brought ease as soon as applied and it took out all pain and soreness. Perseverance grew new skin over all the scalds."

Miss Pearl River, R.R. No. 1 Tidnish River, N.S. — "Through a splinter my mother's hand turned festered and poisoned. After a week's treatment with Zam-Buk the hand was wonderfully improved. All pain was taken out and the sore healed completely."

ECZEMA BURNS

Mrs. L. Bonin, West Arichat, N.S. — "My baby and I suffered awfully with eczema. Through winter I scarcely dare put my hands in water. Zam-Buk proved simply splendid. It soon thoroughly rid us both of every trace of eczema."

Miss A. Bottrel, East Barnaby, P.O. B.C. — "Zam-Buk is simply splendid for burns. One day I slipped and fell with my hand across the stove. Zam-Buk relieved the pain and healed my severe burns without leaving a scar."

CHILBLAINS GASHED THUMB

Miss A. Lepard, Beaverdale, Ont. — "For a long time I suffered agonies from chilblains. Nothing brought ease until I used Zam-Buk. Perseverance with this fine healer speedily ended my painful ailment."

Mr. N. Carroll, 928, Clark St. Montreal. — "When opening tins across the can-opener slipped and gashed my thumb. Fortunately a friend told me of Zam-Buk. Soon after applying it the pain ceased and the wound healed perfectly."

A LESSON THE GOVERNMENT PAID FOR.

Before 1914, Bond Brokers and Bankers were indifferent advertisers. Many who advertised regarded their expenditures as "sop," and thought they were doing publishers a favor.

Then came the Call for War Loans. On the advice of this Association, yet contrary to some Brokers' and Bankers' views, the advertising of these loans was made humanly interesting.

The same thing is true of some manufacturers, who, noting the results of the Imperial Munitions Board newspaper advertising, have commenced to use the same force to introduce post-war products.

The results you are aware of.

The Government paid for this lesson.

But—here is the real point. Nearly every Bond House and Bank in Canada is, today, aggressively advertising, and using all the interest and ingenuity at their command to attract business. They observed the power of newspaper advertising, when properly used, and have profited by the lesson.

Have you considered profiting by it? Advertising is not a matter of guesswork. It requires skill and knowledge and experience. It is not something to be lightly undertaken, but it can be undertaken with assurance of success if it is done properly.

If you have ever thought you would like to advertise if you could get proper advice on how to go about it, write to this Association. We will give you the benefit of our experience in starting you on the road to successful publicity

FIRE DEPARTMENT IS ALWAYS READY

Its Motto of Preparedness Should Be Applied to Protection of Public Health.

"There hasn't been a fire in the city for weeks," said a citizen the other day. "It seems a waste of money to keep up a fire department that does nothing."

"We don't disband the fire department because we have a run of luck," replied a ratepayer. "It pays to have those firemen ready, whether they are doing anything or not." And the ratepayer spoke wisely.

Just as the fire department stands ready to protect your property, so does Grip-Fix stand ready to protect your health, being an unequalled remedy for colds. This preparation of drugs such as your physician would use is supplied in capsule form; it gives relief to a cold in a night and works quickly in the case of grippe.

Get a box of Grip-Fix today. Sold by all druggists at 35c a box.

"TEETH OF TIGER" IS A FINE PICTURE

Screen fans are well acquainted with the work of Chet Withey. He is a veteran director of Paramount-Actarcraft pictures, first establishing a reputation by the extraordinary ability he showed in handling the monster spectacle "The Man Within," Bilie Burke, in "In Pursuit of Polly," and "On the Quiet," featuring John Barrymore, are also his products. He is an Englishman, a pupil of the Griffith school, and not only commenced his dramatic career with Sir Beerbohm Tree, but also had the pleasure of directing the distinguished Englishman in the picture he made in this country several years ago. By his ingenuity and understanding of his profession Mr. Withey has been able to introduce some startling effects in "Teeth of the Tiger," which is showing at the Empress tonight, heightening the thrills with which the picture abounds and adding considerably to the spectators' interest.

BUILD CARS HERE

Editor Daily News:— One way out of the difficulty of the fish car shortage would be to build cars right here in Prince Rupert.

One man with experience in the lumber business remarked recently that cars could easily be built here by good carpenters.

No doubt iron needed could be procured from the nearest foundry.

This project of car building would give our city due prominence and much needed employment for men. As there would be other work in connection with car building as well as that of carpentry.

And if it is some expense to start a car factory here, it is still a greater expense to have an inadequate number of fish cars or at times none.

KETCHIKAN MAN OPPOSES TREATY

Would Have Legislation Enacted to Kill Fish Business at Prince Rupert

That the American-Canadian Fisheries Treaty which grew out of the American-Canadian Fisheries Conference two years ago is inimical to the interests of Alaska and that its ratification by the Senate should be prevented if possible is the opinion of H. G. Strong, Ketchikan business man who has been spending two or three days in Juneau, and who, with Mrs. Strong, left for their home at Ketchikan last night, says the Juneau Empire.

"Canada's interest in this treaty lies in the fact that it would bar the United States for at least seventeen years from enacting tariff or other legislation governing these fisheries. It would give her control of the fish taken from Alaskan banks through the vessels operating from her ports, and American markets would remain to pay Canada for this catch. Will our statesmen be so blind as to permit the ratification of such a treaty?"

On Fresh Fish

"On account of the geographical position of Canada, lying between Alaska and our States, and possessing conditions fostered by her government, it has become absolutely necessary for our government to enact legislation if the Pacific fisheries supported by the American markets are to be an American resource. Let us consider what the following measure would mean for Alaska and America as a whole—either a reasonable tariff measure affecting fish prepared for shipment at a foreign port or a legislative act as follows:

"On and after ninety days after the passage of this act, no fresh or frozen fish taken from the North Pacific Ocean or tributary waters shall be admitted to the United States through any foreign country except when the same shall be admitted in bond from an American port."

"This in effect would automatically move across the line from British Columbia to Alaska the buyers representing our Eastern wholesale fish houses. Alaskan ports would become the home and base of supply for the fishing fleet. American markets would remit to Alaska payment for this supply of fish instead of to British Columbia as they now do."

Would Give Population

"This effective legislation will do more to give the coast towns of Alaska a permanent population than any act within the power of our government and it can be brought about without doing injustice to Canada or even Canadian fishermen, for we are only regulating our own supply and our ports would be open to free entry of fish to either Canadian or American vessels when discharging at an American port by the vessel catching the same, and the Canadian railway system which has the shortest and quickest route between Alaska and our Eastern markets would, to get this great volume of business, cooperate in the establishment of a ferry service from its terminus at Prince Rupert across to Alaska, permitting our products to move in refrigerator cars direct

from Alaska to our Eastern centres of distribution as freely as shipments now move from the State of Michigan through Southern Ontario, via Canadian railroads into the State of New York.

Still Unratified.

"The treaty now in the hands of our Department of State, but as yet unratified by the United States Senate, would strike a terrific blow to the existing and future development of the fisheries of the North Pacific, from an American standpoint," said Mr. Strong.

Continuing, Mr. Strong said: "American harbors in Alaska are the refuge for the vessels operating on the most extensive fishing banks in the world which are tributary to the Alaska coast. The American consuming public is the logical and only existing profitable market for the product, yet the treaty which has been drafted prohibits our Government from enacting any legislation affecting these fisheries or their products for a period of fifteen years, and then only upon giving Canada two years' notice."

Prince Rupert Would Benefit.

"This in effect gives the Canadian port of Prince Rupert every advantage, it being the closest port to the Alaska fisheries possessing direct connections with eastern markets of the United States, and with the support of the Canadian Government, Alaska and our American ports would forever lose the opportunity of becoming the home port, and of obtaining the benefits derived from this industry and the operation of the principal fleet catching the fish."

The Man in the Moon SAYS:

TOM Lawson once declared the Standard Oil could do anything they wished. The latest seems to have been the mesmerism of the Canadian Government over the oil situation in the north.

AN Irishman and a Scotchman went into a blind pig to have a drink together. The Irishman found he had left his purse at home so they came out without the drink.

THE people who think most seriously about marriage are the young couples who find themselves in a position where they are guessing whether after next week they will have a family of four or five.

THERE always seems to be plenty of money in the world until you go to borrow some.

IF you are an Irishman there is no glory in going into a fight. It is impossible to keep out.

IF you are an Englishman and can see a Yankee joke in a moment, congratulate yourself, old thing.

IT is unfortunate that the question of collecting that bill from the G.T.P. should have come up just at a time when prices are falling and money is tight. It might have been easier to realize on the account at any other time.

AS long as the Hon. Govt. is keeping that oil for the people of Canada no one will howl much, but if it is for the Standard Oil or any other big friends of theirs, they will be likely to hear about it.

CELEBRATE FISH DAY IN GOOD STYLE

Luncheon to be held March 9—Prince Rupert's Product to be Featured.

At a joint meeting of the fisheries committees of the City Council and Board of Trade and the Fisheries Association held on Saturday afternoon it was decided to celebrate Fish Day in this city by holding a fish luncheon. That will be on Ash Wednesday, February 9. It is expected to have a speaker to handle the question of fish and the fisheries and to make it an important event.

In the course of discussion it was pointed out that if there was any place in the Dominion where Fish Day should be celebrated it was here, where the bread and butter of the people was purchased from money secured from the sale of fish.

It was also decided to ask the restaurants and hotels to feature fish on that day. The importance of using fish will be advertised and everything done to forward the idea.

Committees were appointed in regard to the matter, J. A. Sinclair to have charge of the luncheon arrangements and George Frizzell of the advertising.

UNEMPLOYMENT TIDE FLOWING

More than Million in United Kingdom and Situation Getting Worse

LONDON, Jan. 30.—The tide of unemployment is still flowing. A million were out of work on January 21 and the number is increased by 60,000 in the week just past. These figures are exclusive of those who are working for short periods. As many South Wales mines are closing down, owing to a virtual cessation of coal exports to France and elsewhere, the situation is all round becoming worse.

THE TRAGEDY OF AUSTRIA

Terrible Privations Suffered by Inhabitants of Vienna

VIENNA, Jan. 30.—An American business man who has just revisited this city was so surprised at the changes that had taken place in the once gay Austrian capital that he declared the "panorama of misery" he witnessed here was the greatest shock of his life.

Henry Barna, of St. Paul, Minn., last visited Vienna ten years ago when, as he said, there was "great fun" here. Now he has returned and spent about two weeks, long enough, he says, to know what he is talking about.

"I never dreamed," said Mr. Barna to an American Red Cross representative here, "that Vienna would show such tragic effects of the war. I have been in nearly every capital of Europe since the armistice, but nowhere have I seen such wholesale misery. Everything is out of joint. Everything is uncertain. Food is scarce, and fuel still more difficult to obtain. I don't suppose anyone can be happy in a sea of misery like this."

Not a Smile

"Why," he went on, "there isn't a smile, much less a laugh, in that crowd," referring to the people passing the hotel in the Ringstrasse. "They seem so sad and dull-eyed, these Viennese, who were so gay when I was here before."

"Everybody seems to be carrying something. These little bundles are scraps of food which they have been given by some more fortunate neighbor or the relief agencies. There's a man in a fur coat carrying a handkerchief full of food. He wouldn't be seen doing that when I was here last. He would be too proud."

Carrying Wood

Mr. Barna told of a visit he had made a few days before to the Wienerwald, a great forest, an hour's street car ride from the centre of Vienna where he saw a sight which he likened to a nightmare. The people were allowed to go there for wood, were emerging from the forest, their backs heavily laden with the packs of fuel.

"There were hundreds of men, women and children," he said, "their clothing soaked with the cold rain, and they were filing along the roadside in an almost unbroken line, all headed for Vienna, stooped from the weight of 60 or 70 pounds of wet wood. Sixty pounds was their allowance, but I was told that many slipped by the inspectors with more than that."

Hear Water Ooze

"There were many soris of people in that line which has been stretched along that road for more than a year. I saw a woman of evident gentle birth, in a fur coat, probably the last vestige of her wealth, bent over under the weight of her pack, trudging along beside a former officer in the Austrian army who still wore his great grey coat and cap. Then came children of the very poor with their little feet protruding from their worn shoes. It was very wet underfoot and at their every step one could hear the water oozing from their shoes."

Like a Tidal Wave Heart Disease and Nerve Troubles Sweep the Country.

Property at its period in the world's history have heart and nerve troubles been so prevalent as they are today.

The heart can't stand the stress and strain of this busy, bustling age, and the care and worry, the anxiety and activity of business life constitute a serious strain on the nervous system.

The business of this work-a-day world goes with such a rush that the stoutest hearts and stoutest nerves break down under the strain.

In the first approach of any breakdown of the system Milburn's Heart and Nerve Pills should be taken. The reconstructive power of these pills on the heart and nerve system is simply marvellous.

Mr. W. C. Wright, Hopewell Avenue, Ottawa, Ont., writes: "After suffering for some time with my heart, I consulted a number of doctors, but got no relief. However, I read what Milburn's Heart and Nerve Pills had done for others, who had the same symptoms and thought I would give them a trial. Believe me, six boxes relieved me. I am feeling fine now, and can attend to my work every day. I can recommend your pills to any one suffering as I did."
