Premier Speaks In His Home Town

NEW YORK MAY LOSE IN EITHER OR BOTH BASEBALL LEAGUES

Highen Hedges on Tariff Question at Portage la Prairie

PORTAGE LA PRAIRIE, Sept. 28.—Hon. Arthur Meighen, minister of Canada, addressed two meetings here last night in the town, the centre of the seat which he will contest in the coming federal election. In the two speeches he outlined the main lines of the Government program.

Protection the Issue.
Mr. Meighen declared that the protection question would be the issue. He did not believe in high tariff which would hurt the west and would remove the healthy spur of competition. He was in favour of protection which would develop with which United States was offering competition. The whole world was protective, said the premier, Great Britain having adopted laws which continued protection of the most effective kind. Any country which thought it could compete with a protective country, while its own barriers were down, was spurning the lessons of the past two centuries.

The subdivided opposition, declared Mr. Meighen, was bereft of cause. There could be no complaint against the government which had carried on through war time an actually lower basis of tariff than before 1911 and with only a two percent increase in the cost of administration through the years when every provincial and municipal government had been found to cost enormously greater percentages.

What Do You Want?
"For what kind of a government will you vote?" concluded the premier. "You do not imagine, if you vote against this government, that the Wood-Creer party would be alone? You do not imagine that Mackenzie King and his dupes would be in power alone? I do not think you imagine either. Then nobody knows what kind of a government you would have if you voted against this one. It would be a discordant reprecussion of a log rolling group in which each group would have to betray the electors who supported it and out of which no policy could be evolved. It would mean only a temporary triumph for chicanery, infidelity and prostitution of trust."

Another Grain Board.
Speaking at an overflow meeting later, Premier Meighen told the farmers that he proposed the establishment, before next session, of a grain marketing board similar to that which functioned during the war. This board would not interfere unnecessarily with existing grain regulating boards but would furnish an alternative method of handling crops. The farmers could bring their grains to it voluntarily, secure in the knowledge that the management by competent and reputable men would get for them the best prices and marketing conditions. The farmers would be guaranteed the values of averages where such existed.

Grain Inquiry.
Mr. Meighen announced the intention of the government to press for a continuation of the grain inquiry which had been stopped by an injunction. If the board was found to lack federal powers under its constitution then its constitution would be changed to meet the requirements of the hour.

Start the day right with breakfast at the Good Eats. Seven combinations ranging from 20c to 50c to choose from.

FARMER WILL OPPOSE FULTON

Thomas G. McBride to Run for Cariboo in Federal Election.

KAMLOOPS, Sept. 28.—Thomas G. McBride of Duck Lake has been nominated by the Farmers' party to contest the Cariboo Federal riding in opposition to F. J. Fulton who has announced his intention of again being a candidate. Mr. Fulton was formerly a member of the McBride administration and left it as a protest against the ruinous C.N.R. bonus policy of that government.

MANY KILLED IN TYPHOON

Tidal Wave Destroys Crops and Houses and Sinks Steamers.

TOKIO, Sept. 28.—Several hundred persons were killed by a typhoon in Central Japan centering upon Nagasaki yesterday on the island of Honshu, where a tidal wave destroyed the crops and houses and several steamers were sunk and many fishermen missing.

BUNCO MAN GOT A LITTLE PILE

Savings of a Lifetime Loaned to Suave Stranger Who Disappeared.

VANCOUVER, Sept. 28.—Joe Spaducini, elderly railroad laborer, had a neat little sum of money ready to take him back to the Old Country. He had been saving it for years. One night this week, he met a suave compatriot who unfolded a fine plan by which they would each make \$10,000 with an outlay of only \$1800. The details are difficult to understand, as Joe was incoherent with excitement and grief in making the complaint, and he cannot speak very good English at best. However, it seems that he entrusted the stranger with \$1500 of the \$1800 with the understanding that they were to meet at a downtown office to close the deal. But that was the end of it. Now Joe has gone back to work on the section gang. The stranger is believed to be in Seattle where the police are seeking him. J. B. Lambert, Dominion Government public works engineer, returned today from a brief trip south.

HUGHES BACK IN AUSTRALIA

Premier Says Glory of Empire is Greater Than Ever Before—Solid Enduring Fact.

LONDON, Sept. 28.—According to a despatch, Premier Hughes of Australia, has reached home in Melbourne after having attended the Imperial Conference. He was given a civic welcome and, speaking, said that the full story of the conference of Imperial prime ministers would never be told in this generation. Nothing which had been accomplished had diminished the glory of the Empire which was now more united than ever. The British Empire, he declared, was a solid enduring fact.

REPLY NOT READY FOR PUBLICATION

LONDON, Sept. 28.—(noon).—Lloyd George's reply to De Valera was not issued today and there is doubt whether it will be available tomorrow, it was announced officially this morning.

S. O. BOY IS INVENTOR

VANCOUVER, Sept. 28.—A High School boy here is a successful inventor and is now directing a new factory on Industrial Island. He is Harry Tupper, nephew of William Tupper of Tupper & Steele, Limited. He devised an automobile shock absorber that makes riding easy over the roughest roads. A company was formed. No stock is for sale. The factory is open and orders are coming in from all parts, including the United States.

New York Yankees Losing Ground American League: Pittsburg May Possibly Win

NEW YORK, Sept. 28.—The New York Yankees' lead over Cleveland in the championship for the American League baseball has been reduced a game and a half by the defeat administered them yesterday by St. Louis.

Both teams are idle today and tomorrow they begin the final four games which decide the issue of the American League. Chicago White Sox are Cleveland's opponents in the four games, while New York meets Philadelphia in three games and Boston one.

Pittsburg continued to be a pennant possibility in the National League by winning from Philadelphia, while New York Giants were not scheduled.

GIRLS ARE HERE AFTER HUSBANDS NEW WHARF AT SANDSPIT IS BEING BUILT

Many Arrive in Vancouver From Old Country and Some Find Mates.

VANCOUVER, Sept. 28.—Within the past few weeks a large number of buxom English, Irish and Scottish lassies have arrived from the Old Country to settle in British Columbia. Most of them seek jobs in the city and few seem to care about domestic service or farm life, although some frankly admit they would like to meet some farmers and—a sniggering blush mutely concludes the sentence. The girls say they had no chance in the Old Country, where there are often two or three young women for every one eligible man in their home towns. A girl hasn't a chance to get married there, they say.

Several of the girls have already found mates in Vancouver, New Westminster and other spots. Three Irish girls left this week to wed Victoria men whom they met here. It is whispered that Vancouver girls do not take kindly to the invasion of the fair immigrants, who are regarded as poachers in the matrimonial field of these parts. It is expected that at least fifty more girls will cross the Atlantic for this region next month. The young women comply with the immigration laws in every way, and some are provided with a little money to tide them over until they secure work or some other eventualities happen.

MIKE NOT DEAD; NO SUCH LUCK

So Says Wife of Man Who Says He Has Committed Suicide.

NEW WESTMINSTER, Sept. 28.—Unmoved by a sad note in which he bade farewell to the world and his wife, and said his lifeless corpse was at the bottom of the sea midway between Victoria and Seattle, Mrs. Michael B. McCauley says her husband never had the nerve to end himself and believes he is only faking. She says: "Mike married me for my money. He has spent it all and is trying to get rid of me now by pretending he has ended his life. No such good luck!" Mr. McCauley's body has not been found.

Vote for Men Or for Parties?

At the beginning of a political campaign the question naturally arises whether a person should vote for the candidate or the party. It is argued that if we send good men to Parliament we do not need to worry to what party they belong. That sounds all right, but it is a fallacy.

A man is known by the company he keeps. If he is a Liberal he votes on all vital matters with the Liberals and perpetuates their policy and helps to keep the Liberal party in power, or if out to get them in. If he belongs to the Conservative party he votes with them on all vital matters. He helps to keep his party in power, or if they are not in power he tries to vote the others out of power in order to put them in. This is part of the political system and no better has yet been found and proved good.

Example Seen In Victoria.

Take as an example the constituency of Victoria. It is represented by Hon. S. F. Tolmie, minister of agriculture in the Conservative Government. Note here that the name "National Liberal and Conservative Party of Canada" is simply a camouflage.

Dr. Tolmie is a Conservative. He is a fine type of man such as anyone would like to support. Until the last few years he has not been actively identified with either of the political parties and both parties claimed him as one of them when he was chosen as a Unionist. If it were a question of choosing the man, we would say to the people of Victoria, choose Tolmie.

Fallacy of Pinning Faith to One Man.

The fallacy of pinning the faith to the man and ignoring the party is clearly seen in the case just mentioned. If Dr. Tolmie is returned to Ottawa he will be one of the chief factors in perpetuating the rule of Canada by the big interests for the big interests. He will perpetuate the Government which has played skittles with our railways, which has lavishly squandered our money, piled high our taxes, and now threatens to double the burdens by raising the tariff still higher so that the manufacturers of the East may thrive at our expense. That is what is meant by voting for Tolmie or for any other supporter of the Meighen Government. Tolmie is a good man and he probably believes he is doing the right thing, but the policy he supports is inimical to the best interests of Canada, and especially to us who live in the West.

Many Independents Will Be Offering.

There will be many so-called independents offering their services to the electorate and asking for support. They clothe themselves about with a cloak of righteousness and declare they are neither for high tariff nor low. They do not quite know what they want, but of one thing they are sure, and that is they want to go to Ottawa on a free trip at our expense.

No matter what a man's opinions or policy they cannot well be as bad as the opinionless man who asks to be sent to Ottawa to carry out no policy, to represent no shade of opinion, to do nothing in particular but simply to have a holiday jaunt. No one ever knows where to place such a man.

The inference in running as an independent is, of course, that the man who does not so label himself is not independent. That is a fallacy. The man who is sent to Ottawa to support a line of policy but shows independence of action is a man to be reckoned with. He has with him all the prestige of a big political force, and anything he says is listened to with respect.

From present appearances it seems likely that there will be four groups in the next Parliament: Liberal, Conservative, Farmer and Labor. Everything points to the Liberals having by far the largest group and undoubtedly Mackenzie King will be the head of the next Government. For that reason it will be a question of either supporting the Liberal policy or opposing it.

THE HORRORS OF INDIGESTION

Relieved by "Fruit-a-tives" the Fruit Medicine

Indigestion, Weak Digestion or partial digestion of food, is one of the most serious of present-day complaints—because it is responsible for many serious troubles.

Those who suffer with Indigestion, almost invariably are troubled with Rheumatism, Palpitation of the Heart, Sleeplessness and excessive Nervousness. "Fruit-a-tives" will always relieve Indigestion because these tablets strengthen the stomach muscles, increase the flow of the digestive juices and correct Constipation, which usually accompanies Indigestion.

VERA GORDON AGAIN "THE GREATEST LOVE"

Much Discussed Picture to Be Seen Here Tonight at Westholme.

Vera Gordon, who created such a sensational success in "Bumoresque," is to be seen tonight in the new Select Picture, "The Greatest Love," at the Westholme Theatre, where it will remain until tomorrow night.

This is a dramatic story of mother love, sacrifice and family honor. Intense interest is sustained throughout by means of complications surrounding the death of a theatrical producer known to have been one of the most hated men in the city. There were dozens who might have had a motive for slaying him, but Lantini was found bending over the dead man, and as he also had a motive for revenge, he was arrested and sentenced to death. It is not until the final reel that the startling denouement is made.

Superb Heights. As the mother fighting undauntedly against heart-rending odds, pitting her mother love and trust against the opinion of learned counsel and unbelieving governor, Vera Gordon rises to superb heights. Not for a moment does she hesitate in her determined efforts to deliver her son.

The supporting cast works in perfect harmony, the nicest attention being given to details that go to make "The Greatest Love" a picture which will make parents think, and children appreciate the sacrifices they so easily take for granted. The photography is exceptionally good, and the settings realistic.

DOLLY VARDEN MINE REOPENS

Work Has Already Commenced and Ore Will Be Shipped This Fall.

GANG TO GO ON WOLF

Hydro Electric Plant Will Supply Power to Both Mines.

The Taylor Mining Company has decided to commence operations at the Dolly Varden Mine and work will commence at once, says the Alice Arm Herald.

Major C. B. North, is in charge of operations and states that the present plans of the company are to employ between 20 and 30 men at the Dolly Varden mine doing development work and a shipment of about 4000 tons of ore will be made in November. Also at Wolf.

About 15 men will be employed at the Wolf mine early in December. A spare compressor plant which is now at the Dolly Varden will be installed and about 500 feet of tunnel will be driven on the Wolf property the coming winter, and it is hoped that it will be possible to commence operations on both properties indefinitely.

Previous development work done on the Wolf property consists of one short tunnel 89 feet in length, open cuts and diamond drilling. Several thousand feet of diamond drilling was done by the old company with extremely satisfactory results.

It will be welcome news for everyone that at last there is a probability of the Wolf mine being opened up and it is hoped that development work will prove up the diamond drilling and place another mine on the shipping list of Alice Arm mining properties.

Trains Soon. Trains will not be run on the railroad until about three weeks, on account of having a new set of trucks installed under the Climax engine, but enough food supplies and material of all kinds are at the mine to carry over that period.

The Hydro-electric power plant which was installed last summer at the Wolf mine is in perfect running order and will supply all power needed both at the Dolly Varden and the Wolf. The power plant consists of 500-k.w.h. capacity, power being obtained by diverting a portion of Trout Creek to Wolf Creek, from which a head of about 100 feet is obtained.

Several men left on Thursday, to work at the Dolly Varden. The operation of the mine will help relieve the unemployed problem in Alice Arm this coming winter.

The Man in the Moon SAYS—

ABOUT the most useless occupation in the world is grumbling about the weather.

WHEN a man smells strong of onions you know he is not on his way to see his girl.

MOST girls would like to be artist's models with nothing to do but pose.

YOU are a very commonplace person, I am one of the elect.

THE woman who has nothing on her mind often has no mind to put it on even if she had anything.

I KNOW a woman who has nothing on her mind and very little more on her body.

IN discovering the amount of intelligence some people have, the difficulty is to make a magnifying glass powerful enough so you can discover it.

"HOW do you treat your wife," inquired my neighbor. "I don't," I replied.

THE difficulty about chickens is getting them fresh enough.

IF a fellow tries to kiss a girl and gets away with it, he is a man. If he tries and doesn't get away with it, he is a brute. If he doesn't try but would get away with it if he did try he is a coward. If he doesn't try and wouldn't get away with it if he did try, he is a wise man.

NORTHERN LAKE TROUT SHIPPED TO MARKET

EDMONTON, Sept. 28.—The first shipment of northern lake trout has reached McMurray for shipment to the markets of Canada and the United States; and thus one of the most northerly commercial fishery undertakings in the world is demonstrating the unbounded resources of the untapped regions which lie beyond the Athabasca.

A scow load of trout reached McMurray last week from the Mackenzie Basin Fisheries plant at Black Bay on Lake Athabasca, and further shipments will be made before the close of navigation on the big river.

The plant at Black Bay is now in full swing; a large number of buildings have been erected, the company possesses the most modern machinery, and in addition to being unique in the annals of the north, the Mackenzie Basin Fisheries operations point to the developments possible when capital and energy are combined with vision.

UTILIZE TAR SANDS McMURRAY OIL AREA

EDMONTON, Sept. 28.—The first modern machinery for the extraction of the tar sand—content in the McMurray oil area is now in operation in the vicinity of the northern town, and for the past month H. Draper, and a number of employees have been engaged in operating a special process, from which big yields are looked for in the immediate future by the residents of the northern town.

Mr. Draper is actively engaged at Horse Creek, and on the Clearwater, has camp building erected and all the necessary paraphernalia to hand for giving his process a thorough try out.

RAISE CATTLE PORCHER ISLAND

John Murray Brings Beef to Town Produced Under Adverse Conditions.

John Murray of Porcher Island is in the city with some fine fat beef which he has raised on Porcher Island. He says there are great opportunities for beef raising there and the place is so near the market that there is no difficulty in disposing of the product. He lives at Jap Inlet.

Speaking of the possibilities on the island, Mr. Murray says the cattle he has never been under cover in the winter. They did not know what a roof means. While he does not advocate keeping cattle under those conditions it just shows how cattle may be kept on the island. There is splendid feed on the hills throughout the summer, but of course the difficulty is in raising hay for winter feed. Some winters are milder than others and usually cattle should be fed when snow is on the ground and if there is frost. Last year there was a little snow on the ground, but for less than two weeks.

Mr. Murray says deer are scarce on the island and there are not many grouse.

PRINCE JOHN HAD STORMY PASSAGE IN CROSSING STRAITS

The G. T. P. steamer Prince John arrived last night at midnight from Vancouver and lower Queen Charlotte Island points. She had a very stormy passage across Hecate Straits. Thomas Deary, the Massett Indian agent, was among the passengers from Skidegate. He will continue his voyage to Massett on the vessel which leaves for Graham Island points today.

SUCCESSFUL CHURCH TEA HELD YESTERDAY

Ladies' Auxiliary of Anglican Church Gave Affair at Home of Mrs. J. C. McLennan.

A successful and thoroughly delightful tea and sale of home cooking was given yesterday afternoon at the home of Mrs. J. C. McLennan, Borden Street, by the Ladies' Auxiliary of St. Andrew's Anglican Church. Many ladies called and over \$50 was cleared. Mrs. J. H. Pillsbury poured and was assisted by Mrs. F. S. Clements, Mrs. H. E. Tremayne, Mrs. G. A. McNicholl and Mrs. G. E. Gibson. Mrs. P. G. Groves and Mrs. C. F. Kemp were in charge of the home cooking table. Mrs. H. T. Willett told fortunes with tea cups and Mrs. H. A. Phillipot was cashier. The residence was prettily decorated, the drawing room with pink flowers and the other rooms with red and yellow.

BODY OF HUNTER WHO DIED NEAR NAAS HARBOR HERE

Donald Emile Lecaille Was Native of Glasgow, Scotland, and Was 51 Years of Age.

The body of the late Donald Emile Lecaille, the Naas Harbor gasboat engineer who lost his life when on a hunting trip last week, was brought to the city yesterday by the fisheries patrol boat Linnett and is in the hands of Hayner Bros., undertakers. Coroner J. H. McMullin conducted an enquiry, examining the witnesses and found that an inquest was unnecessary. Deceased had suffered from heart trouble as a result of war service and he had expired from this cause.

Mr. Lecaille was a native of Glasgow, Scotland, and was 51 years of age. He is survived by a wife and daughter in London and a daughter in Los Angeles.

FORMER DEPUTY MINISTER ALBERTA GOVERNMENT HERE

N. L. Harvey, who was deputy minister of railways and telephones in the late Stewart government of Alberta, arrived today from Vancouver on the Prince Rupert and continued his journey to Edmonton. He was accompanied by P. G. Andrews and Mr. Ketcham, of Edmonton. The former went East with Mr. Harvey and the latter will return south tomorrow night.

AFTER MANY YEARS.

Herbert H. McLean, of Letite, was in St. Stephen on Tuesday accompanied by his brothers, Russell from Boston and Andrew from Prince Rupert, B.C. the former being enroute home to Boston. The two visitors had been guests of Herbert McLean at Letite, the first time the brothers had been together in twenty-nine years. Things have changed in that time and the use of the automobile made it possible to visit scenes and childhood friends widely separated. Monday was spent with friends in St. Andrew, their native town. The reunion has been greatly enjoyed by these three worthy sons of Charlotte county and their visit by friends they have met—St. Croix Courier, St. Stephen, N.B.

IT IS SAID THAT
"The Recollection of Quality Remains Long After Price Is Forgotten"

That is true of many articles in daily use. Some utensil, some article of wearing apparel, gives out—goes to pieces—quickly. We forget that we bought a "cheap" thing and we "kick" at the poor value we received.

On the other hand, we may have done our "kicking" at the time we purchased something, believing that we paid too dearly, and later on boast of what a good buy we made because the article wears so well. In both instances we have forgotten the price.

Nowadays "PRICE" is very much in the public mind. People are trying to be as thrifty as possible—and a good thing, too—but it frequently happens that "Quality" is lost sight of, and "a poor thing is dear at any price."

Our recent revision of our prices downwards, to conform to the falling market on the lines we handle, makes it an absolute truth that we are today selling many things below what they cost us. This is notably the case in our Dress Goods Section—in Woolens, Silks and Novelty Fabrics, and many other lines. BUT—we still go in, as we always have, for QUALITY, and QUALITY considered—our prices are as low as any.

Note Special Prices This Week:

- Penman's Cashmere Hose—This quality sold for \$1.95 last year. Now, per pair.....\$1.00
- Silk Hose—Best quality "Winsome Maid" 12-thread Silk Hose in black, grey, white, green, gold, silver, blue, etc. For this week, per pair.....\$1.95

RACIAL PROBLEM SERMON SUBJECT

Rev. James Evans of Smithers Comes Out Straight on Live Question.

SMITHERS, Sept. 28.—A very able and interesting lecture on "The Racial Problem" was delivered in the Union Church on Sunday evening last by Rev. James Evans.

Pointing out that all such questions have a close bearing on the fundamental principles of the Christian faith, the speaker drew attention to the fact that since the year 1901, when Japan defeated Russia in her designs on Manchuria, there had been a remarkable change in the perspective of the White races concerning China and Japan.

Prior to that time, Europe had adopted a "laissez faire" policy, but now realized the necessity of ever being on the alert.

"The teeming millions of the Orient are as a giant awakening from slumber, and unless the Western races take steps to guard their own interests, Japan with her fifty millions of people allied with China with her 400 millions, will, within the next 50 years, dominate the world," said the speaker. "Japanese Imperialists do not hesitate to declare their ability to capture and control much of our

choicest territory, and it is imperative that we, western and Christian peoples, give less time to minor concerns and pleasures and more deep consideration to the problems that menace the future well-being of the world."

Protect Working Class.

Reference was made to the peculiar bearing of this question as affecting British Columbia and the states to the south, and the speaker recommended a rigid immigration policy of exclusion of Orientals, in the general interests of the working classes, stating that it was utterly impossible to compete against the low standard of living introduced by the Eastern races.

A large congregation was present, and general agreement was expressed with the views expounded.

It is felt that Mr. Evans is doing good service to the community by his lucid and fearless addresses from time to time on the various vital problems of the day.

MORE HENS NEEDED TO SUPPLY EGGS

LONDON, Sept. 28.—England needs 8,500,000 more hens in order to get back to the estimated consumption for 1913 of 120 eggs per person, asserts Edward Brown, secretary of the national poultry council.

Mr. Brown says that in the United States and Canada it is stated that the average consumption is nearly 200 eggs per unit annually. Basing his estimates on the recent census figures for Great Britain, he computes that each person in England last year ate 93 eggs.

FINE EXAMPLE OF HEROISM

Colonel Nazim Bay of Turkish Nationalists Died with "Kismet" Last Words.

HEADQUARTERS TURKISH NATIONAL ARMY, Sept. 28.—Colonel Nazim Bey, with his Fourth Division, lost his life and saved the main body of General Ismet Pasha's forces from being taken in the rear and possibly routed during the frontal attack made with superior forces and equipment by Greeks in the Kutahia zone.

In recognition of his services, General Ismet Pasha published a note to the army stating that in his entire military career, including also his knowledge of military history, he knew of no finer example of heroism and intelligent valor. He also paid high tribute to the remnants of Colonel Nazim's division remaining after standing for two days against three Greek divisions, any one of which was stated to be superior in numbers to that of Nazim.

Greek Plans.
The Greeks had planned, in addition to the frontal attack on Kutahia, a surprise raid on the Turk rear with three flying divisions, and the surprise appears to have been complete.

So soon as their presence in force was discovered Nazim Bey was detached from the main army to stop them, or halt their progress until the retreat from Kutahia could be effected. He did so, and during these 18 hours of constant fighting and re-creating, he was wounded by a rifle bullet but kept on his horse until struck by a second bullet, toward the end of the fight. He died but with the knowledge that he had saved the main body of the army, "Kismet" ("his fate) were his last words.

Middle Aged.
Colonel Nazim Bey was a short thin man of 45 years, quiet and gentlemanly in his deportment, speaking but rarely, with a large head and thoughtful, melancholy grey eyes. A soldier by profession, he served during the general war on several of the fronts, but mostly on the Russian. He would have borne the title of general as division commander under the old imperial army but the Nationalists have suppressed that title except for officers commanding more than an army corps.

OLD DOLLAR WILL COME BACK SOON, SAYS BANKING MAN

WINNIPEG, Sept. 28.—The Canadian gold dollar will come back to its gold par value when monetary conditions in London and New York are favorable once more; when loans for the development of Canada are being floated in those markets and when immigration once more approaches normal.

This will not happen in a day, but each day sees an advance in the direction of pre-war conditions. Europe is clearing away the commercial debris of war, immigration into Canada is gradually increasing and will continue to increase more sharply later on. The proceeds of loans floated abroad and the funds brought in by new settlers and new industries will offset, in the future, as in the past, our adverse balance of trade in merchandise, making feasible the replacement of the Canadian dollar on a gold basis.

That briefly sums up an address on "Foreign Exchange" given before members of the Canadian Club at luncheon in the Royal Alexandra hotel by G. T. Towers, superintendent of the foreign trade department of the Royal Bank of Canada.

RINK SKATING.

There was a big time at the skating rink last night for the opening of the roller skating season. The G. W. V. A. Band was present and the crowd was large.

DIFFICULT MUSIC.

"Your daughter plays some very difficult music," said the visitor.
"I should say she does," answered Newrich serenely. "Her teacher says she plays things that nobody ever thought of attempting to write."—Boston
