John Anderson of *Hyder* Was Well Known on Coast.

REVENUE CUTTER IS BACK AT NOME FROM VISIT TO FAR NORTH

NOME, Aug. 30.—The United States Revenue Cutter *Bear* returned to Nome after a voyage which took the boat to Demarcation Bay. This is the first time since 1888 that the Government ship has reached that point which marks the end of Alaska on the border line of Canadian territory.

SINN FEIN'S REPLY EXPECTED TONIGHT

DUBLIN, Aug. 30.—The reply of Dail Eireann to the latest letter of Lloyd George dealing with the Irish peace proposals is expected to be sent to London this evening.

CHILDREN DYING OF CHOLERA, SAYS MESSAGE

NEW YORK, Aug. 30.—Thousands of famine sufferers are in Trans-Caucasia, among them many children who are dying of cholera, says a cable message.

SCOTTISH WILL SAIL SATURDAY

The new Canadian Government Merchant Marine steamer, *Canadian*, will likely be loaded and away on her maiden trip by Saturday according to present plans. It is expected that she will be turned over by the Wallace Shipyards to the government owners on Thursday and the longshoremen have been sent for to be here ready to load lumber and salmon at the material wharf by Thursday noon. Before that time the crew of the steamer will have been signed on.

CONSUL HILL GOES TO ENGLAND; WAS FORMERLY THIS CITY

VANCOUVER, Aug. 30.—James Hill, formerly United States Consul at Prince Rupert, now at Kingston, Ontario, has been appointed United States Consul at Manchester, England. He leaves New York on Monday to assume the duties of the post.

NOME, Aug. 30.—The United States Revenue Cutter *Bear* returned to Nome after a voyage which took the boat to Demarcation Bay. This is the first time since 1888 that the Government ship has reached that point which marks the end of Alaska on the border line of Canadian territory.

NO SEDITION IN GERMANY IS ALLOWED

Country Under Restrictions Closely Approaching Martial Law.

BERLIN, Aug. 30.—Germany is today under restrictions closely approaching martial law as a result of a decree of President Ebert. Meetings, processions, demonstrations and the issuance of publications likely to encourage seditious movements is forbidden and warning is given that any and every insurrection will be suppressed with relentless severity.

PRINCESS LOUISE WAS LAUNCHED YESTERDAY WALLACE SHIPYARDS

VANCOUVER, Aug. 30.—The passenger steamer *Princess Louise* built for the C. P. R. by the Wallace Shipyards, was successfully launched yesterday. This is a steel vessel which will be used in the passenger business of the coast and is said to be the last word in modern ship construction in providing for the comfort of the public.

Serious Rioting Takes Place at Belfast and Strike on the Great Northern Irish Railway

BELFAST, August 30.—Street fighting has been in progress since yesterday, and was particularly violent this afternoon. One laborer was shot and killed and several others wounded, including an army sergeant.

Civilians placed sandbags in the streets and maintained a heavy fire against the police and military.

BELFAST, August 30.—Rioting, which broke out at noon yesterday and continued until after midnight, began again at 7 this morning. One hour later three persons were wounded. During last night's fighting two persons were killed and six wounded.

For the first time in its history, the Great Northern Irish Railway was completely tied up by a strike of engineers and firemen, who quit at midnight. This was a sequel to the government turning the control of the railroad back into the hands of its owners.

BELFAST, August 29.—Rioting was renewed this afternoon. A visitor to the city was shot and died on reaching the hospital. Another was wounded.

BELFAST, August 30.—The engineers and firemen of the Great Northern Railway, who struck following a dispute with the management, have returned to their posts.

Efforts Being Made To Line Up People.

Efforts are being made to line up the people in readiness for the Dominion election, whenever it may happen to be held. Every group would like to be in power, and some of them are willing to do almost anything to get control.

This is a period of change. A few years ago we found the farmers of this province asking to have indentured labor introduced from the Orient because it would give them an opportunity to make money easier.

Much Speculation Regarding Future.

If the Liberals do not control the next parliament, it seems quite sure they will be the dominant party and that after the next election Mackenzie King will be called on by the Governor-General to form a government.

In the Letter Box

NOT AGAINST MILL.

Editor Daily News: In an editorial in the News of Friday last the unfortunate suggestion is made that there is some opposition to the establishment of a pulp plant here.

The statement that the water it is proposed to use is now going to waste is not sufficient reason. I or any other citizen might by use of this argument ask for free water for a new house.

During the early years of the war Canada and later the United States made the sad discovery that with our 'Open Door Immigration Policy' we had induced to our country many who in the emergency proved to be undesirable.

We in this province were and are particularly alive to the Oriental danger. We remember the prosperous community of white fishermen lining the banks of the Fraser River from Steveston to Chilliwack.

The pulp and paper industry in this Province is in its infancy and it will soon be a tremendously important item commercially and industrially.

It is sometimes claimed that Orientals must be employed to make an industry a commercial success. In other words we are asked to admit the superiority of the yellow races.

There are many in British Columbia who two and three years ago proclaimed with much display what they intended to do for the 'returned man'.

Returned Men. There are many in British Columbia who two and three years ago proclaimed with much display what they intended to do for the 'returned man'.

have not been kept, and doors of opportunity have not been opened as they might have been. So today we hear much of radicals, reds and unrest.

Oriental exclusion is not the howl of a disinterested labor element. It is the demand of merchants, farmers and everyone who sincerely desires this to remain a white land.

We are not opposed to industries entering our city because we wish them to operate under certain restrictions any more than we are opposed to a man owning an automobile because we insist on certain regulations to govern its use.

LOST 29 POUNDS DYSENTERY was the cause.

Dysentery is one of the worst forms of bowel complaint, and hardly any other disease so quickly undermines the strength and brings about a condition of prostration and utter collapse that often terminates fatally.
To check the unnatural discharge without bringing on constipation you should use that grand old remedy with a reputation extending of 30 years.

DR. FOWLER'S EXTRACT OF WILD STRAWBERRY
Mr. G. H. McVagh, Mawer, Sask., writes—"About eight years ago I had a severe attack of dysentery. I was sick for three weeks. I weighed 154 lbs. when I took sick and 125 when I got it stopped. I think I tried every medicine on the market, but did not find relief until I used Dr. Fowler's Extract of Wild Strawberry, and one bottle did it. I think there is nothing like it for diarrhoea or dysentery. I always keep some on hand as a person does not know when he will need it."
Price, 50c. a bottle; put up only by The T. Midura Co., Limited, Toronto, Ont.

WOMAN WORKED AS MINER IN KLONDIKE

Mrs. Clara Reigate Returns to Dawson and Will Mingle at Mayo.

DAWSON, Aug. 30.—Mrs. Clara Reigate, one of the pioneer women of Dawson, returned here last month from the coast, where she had been living for years, and, after a short visit here proceeded to the Mayo district, the centre of the promising silver developments in the Yukon. Mrs. Reigate mushed many miles over the camp, and staked some claims, and is enthusiastic over the outlook of the camp from a mining standpoint and its scenic and climatic charms.

Mrs. Reigate is a woman of exceptional energy and capabilities, as proved in the early days here. She participated in the activities of Dawson and the mining camp in business and mining circles in '97 and '98, and until 1903, when she closed out her Klondike interests and retired, and made her home on the coast. She is a native Oregonian, and spent her summers, as a rule, in the Oregon metropolis and her winters in California.

Husband Drowned.
In 1901 Mrs. Reigate's husband, Fred Reigate, who was the owner of one of the richest placer gold claims on Cheechako Hill, in the famous Bonanza Valley, near Dawson, was lost on the ill-fated steamer Islander, and with him went down a heavy shipment of gold which he was taking to the coast. Mrs. Reigate immediately took hold of the mining property, which was located near the rich property of the late Senator Lynch, and donning the overalls, worked in the drift as a miner in charge of a large crew of men in her employ. In 1903 she closed out the interests there after having recovered from the property a competence and having had all the experience of a real miner in the darling underground work.

She was known in the boom days as one of the few successful women miners of the great gold camp. After years of absence from the Klondike she has returned with a glowing interest in the old camp, and is equally enthusiastic over the prospects of the new silver region in the Mayo district.

Crow Sing, Chinese, charged with having drugs in his possession, was sentenced to six months imprisonment at Okalla by Magistrate McMordeie this morning. The arrest was made by Constable Logan.

A letter from the Pacific Coast Fire Chiefs' Association, inviting the local fire chief and a member of the council to attend the annual convention of the association at Victoria on September 28, 29 and 30, was referred last night by the council to the Utilities Committee.

An invitation to this city to have its representative in attendance at the dedication of the Peace Portal at the International boundary line at Blaine on September 6 was received and filed by the city council last night. Acting Mayor Dybbavn stated that when this ceremony between the United States and Canada, marking 100 years of peace between the two countries takes place the mayor will be there.

The city council, on recommendation of the Board of Works, last night decided to allow Captain H. B. Babington to borrow 400 feet of the city's 20-pound rails for use at the Smith Island quarry and also to purchase some powder from the city there at cost if required in the work. tf

A building permit has been issued to John Sunberg for the erection of a one and a half storey frame dwelling on Sixth Avenue West, value \$1500. Mitchell & Currie have taken out a permit for \$500 repairs and alterations, including a cement basement, to A. M. Manson's residence on Fifth Avenue. McCaffery & Gibbons have been issued a permit for \$150 repairs to a house on Second Avenue West. tf

The question of a name for the new school at Hays Cove Circle was brought up at the council meeting last night when Ald. Kelly and Ald. Perry moved and seconded a resolution endorsing the name, William Booth. Acting Mayor Dybbavn and others pointed out that this end might be better accomplished if the council did not pass such a resolution but left it to the school board itself so the resolution was withdrawn. tf

BRITANNIA BEER

CAN'T BE BEAT
Beer, the traditional beverage of the British people, is not only a refreshing drink, but at its best, a stimulating and nourishing food. Best among beers, because of its distinctive flavor and sparkling, appetizing appearance, is the splendid home product, Britannia is distinguished by a delicious "tang," and a most satisfying strength and "body." It is carefully brewed under ideal conditions and, as suggested by its name, is always reliable. There are no "bad bottles" of Britannia. Every glass alike refreshing, delicious, satisfying.

ARTIST TRIO AT CHAUTAUQUA

Provide Delights Both Individually and in Company.

The Artist Trio, consisting of Miss Patricia Eiler, violinist; Miss Memkovski, pianist; and H. Horace Smithy, baritone, which is starring on the first two days' program of Chautauqua here, is indeed truly and fittingly named. Individually each of three performers are peculiarly gifted and in solo roles, excel themselves. Collectively, in the trios, they provide delights in harmony. Mr. Smithy has a clear, rich baritone voice with a splendid articulation which makes his singing as intelligible as it is appealing; Miss Eiler is an adept violinist and her repertoire is of high, difficult class; Miss Memkovski has a distinct charm at the piano and a true technique and touch as an accompanist.

Weather Incident.

Yesterday afternoon, on account of the inclement weather, the program of the Artist Trio was necessarily short. Despite the chill of the wind and rain which penetrated the big marquee in which the recital was given, the listeners were delighted and appreciative realizing that they were hearing something that it is not often their privilege to hear in Prince Rupert.

Mr. Smithy sang "Mother O' Mine," and "The Top of the Morning"; Miss Eiler played selections from Kreisler and Brahms, these names speaking enough for the class of her music, and the trio rendered "My Fiddle and I" and "On the Road to Mandalay." Miss Memkovski played all the accompaniments.

Again Today.

The Artist Trio took part also in the evening program with as much effect and will again play this afternoon and evening.

CAPT. DANCEY AT CHAUTAUQUA

Gives Interesting Lecture in Empire Theatre Last Night on "The Invisible Frontier."

"I can understand a man who would rob or steal but I cannot understand a man who will take everything a community or country has to offer and then stab that community or country in the back," declared the lecturer at the Chautauqua last night, Capt. Stanley N. Dancey.

Capt. Dancey is a wonderfully fluent speaker. He speaks very fast, so fast that sometimes it is difficult to follow him. He has a wealth of incident and a fund of humor which he draws upon constantly and he keeps his audience interested all the time. An Irishman by parentage and a Canadian by birth he still has a little of the Irish brogue, just sufficient to make his voice pleasant. His subject, "The Invisible Frontier," has to do with the invisible line between Canada and the United States but even in the lecture it is seldom seen. In order to illustrate his points the speaker draws on his experiences as a lecturer in the United States where he says he has spoken to upwards of two million people, having addressed 1200 meetings.

Loyal to Community. Captain Dancey urged loyalty to the country and also loyalty to the community in which we lived. In this way a community spirit could be built up. In every community there were people who passed the buck and refused to think of anything but the almighty dollar. These people were not of much use to the community. There had to be a spirit of unselfishness, a spirit of loyalty and of self sacrifice in order to get the best out of life. Canada asked that the people who live here shall be good Canadians who would not try to destroy Canadian institutions.

Captain Dancey said he believed in the people. He always had done so and always would. If they had things explained to them they could be depended on to do the right thing. His work had consisted in trying to remove misunderstandings between different members of the English speaking world and he found the people of the United States very sympathetic and in perfect accord with himself in wishing for world peace. He had spoken to clubs and societies and schools. He found that the feeling toward Great Britain was wonderfully changed since the war, and from the school histories the objectionable statements in regard to the British had been expunged. The difficulty there as here was that so many of the children left school before entering high school and they went out into the world under a handicap. It was the almighty dollar that took them away. In the period from twelve to sixteen years a boy or girl could learn more than in all the rest of the school period, yet many were denied that privilege. What was wanted was an educated people on both sides of the line. If citizenship meant bleeding all you could from people, it was time to close up. There should be nothing less than 100 per cent Canadianism and then Bolshevism would be destroyed. Canada needed patriotism today more than ever before in her history. There was a bigger battle to win in peace than in war.

Morale of Community. Captain Dancey told of cases of neglect for returned men, both in United States and Canada. The morale of the nation was not good. It was necessary to build up that morale and the way to do it was to start right in Prince Rupert. There was nothing to worry about, but it was necessary to have confidence in ourselves and in the future. It was desirable to have confidence in the leaders of the community, in the churches and schools and other institutions.

Efficiency was necessary in order to secure success, said the speaker. There must be an honest day's labor for an honest day's pay.

Co-operation was essential in any undertaking. Lack of proper co-operation had prolonged the war two years and cost millions of lives. Even in Prince Rupert there could be no success without co-operation. Co-operation between the United States and Canada was desirable. In order that co-operation might be brought about we should know more of each other. The both countries were made up of people of many nationalities but they were all learning to be good Canadians or good Americans. He could not understand a person who took advantage of our free institutions and yet was in sympathy with the enemies of the country. A person living here must accept the responsibilities of citizenship as well as the privileges. There was nothing wrong with British or Canadian ideals, it was only with the people who were trying to put those ideals into practice. If the invisible frontier were carried into other phases of life it would be better for the world.

CANCELLATION OF RESERVE.

Notice is hereby given that the reserve against the acquisition of Coal under the "British Columbia Act" established by notice dated 11th of February, 1920, and published in the British Columbia Gazette on the 12th of February, 1920, is cancelled, except so far as the same relates to the following areas:

1. All the lands lying within the boundaries of the drainage areas of the Skeena River and including Oost Creek, the East Fork of the Nany River, the Little Skeena River, and the Skeena River, above and including Klaxvay and Indian Creeks.

2. All the portion of Vancouver Island lying within the following described boundaries:

Commencing at a point on the West Coast of the Island at the mouth of Murr Creek, thence following the western boundary of the Esquimalt and Nanaimo Railway Belt to the southeastern corner of the Strathcona Park Reserve, thence west following the south boundary of the said reserve to its southern corner, thence north following the west boundary of the said reserve to its northern corner, thence west along the south boundary of Hayward and Rupert Districts to the western boundary of the watershed of Nimpkish River, thence north westerly along the westerly boundary of the watershed of said Nimpkish River to the south boundary of Township 3, Rupert District, thence north along the said boundary of Township 3, 4 and 10 to Marble Bay, thence northwesterly along the centre line of Marble Bay and the West Arm of Quatsino Sound to the north boundary of Quatsino Sound, thence along Spruce Creek to the east boundary of Township 37, Rupert District, thence north along the east boundary of said Township 37 to the northeast corner thereof, thence west along the north boundary of said Township 37, 41 and 44 to the Pacific Ocean, and including all the foreshore and lands covered by water adjacent to the East Coast of Vancouver Island, together with all islands lying between the Mainland of the Province south of the 51st parallel of north latitude and Vancouver Island, and all islands within the boundaries of the Districts of Oyster, Goldstream, Metchem, Esquimalt, Victoria, Lake and North and South Saanich, Sooke and Highland.

The cancellation of this reserve shall not take effect and striking for coal shall not be lawful until notice of such cancellation is published for sixty (60) days in the British Columbia Gazette and in a newspaper published and circulating in each of the Land Registration Districts of the Province of B. C.

This notice shall in no wise affect the reserve against the acquisition of Coal, Petroleum and Natural Gas in the Peace River District, established by notice in the British Columbia Gazette on the 27th of March, 1919, which reserve is still in force and effect.

Tonight the Sons of England and the Sons of Canada will meet in the semi-final for the Gihuly Cup to play for the privilege of contesting with the Dry Docks next Monday at the Trades and Labor Council Labor Day celebration for the final for the cup. This will be the last Sen- toy League game before the play for the Exhibition medals takes place and as such should prove an interesting one to the fans who are now praying for fine weather. Both teams seem to have an equal measure of confidence for success. The Eng- lishmen, it must be admitted, have a bunch of stellar rollers who should be able to give the ever victorious Canadians all they can handle.

George Hill, who made such a good record Sunday at the swim- ming gala, winning two firsts and swimming close in the long distance, learned to swim some years ago in Newport, Mon- mouthshire when on a visit to the old country. Later he was coached in the Australian crawl by Steve King and it was with that stroke he won his victories, beating his erstwhile instructor. He used the crawl all the time in the long distance.

George Gorkle swam wonder- fully well in the thousand yard swim at the Lake on Sunday. Four men were even until about at the far side of the lake and then Gorkle began to move for- ward. On the return he used the breast stroke, almost ex- clusively and made it clear that the old time frog swim is just as effective as any other when used by a man who is skilled at it. Gorkle is in good physical condition having trained hard recently.

Rumor has it that Jack Demp- sey will soon leave on a Europ- ean trip. Whether he is to merely give exhibitions or whether he will meet foreign op- ponents is not stated. It will not make much difference, any- way, for he is pretty sure to be a big drawing card anyway on account of the respect he knock- ed into Georges Carpentier and all the rest of Europe on July 2 last. There is not anybody in sight with whom he could have a real fight in Europe since that, and it is suggested that to make it interesting he might gather about ten Europeans including Carpentier, Joe Becket and Bom- bardier Wells all in one evening and guarantee to knock each out

Len Halliday, the Vancouver lightweight, who is also known as Prince Rupert and who spent some time here last summer, and Joe Harraban, of Seattle, met in Vancouver last Friday night in a snappy ten-round scrap to a fifty-fifty decision. The Van- couver World says that Halliday had all the best of the early rounds but was not in as good shape as the Seattle boy who finished as fresh as a daisy and evened up the score by fast, ag- gressive work towards the end of the fray and was entitled to the draw verdict. Harraban, while not nearly so clever as Halliday, uncovered a corking good left which raised a big bump over Halliday's right eye. The bout was marked by con- tinual infighting and Halliday had the best of the close range exchanges but could make no impression on the rugged little Irishman.

PACIFIC COASTER TO MEET ORLEANS FEATHERWEIGHT

MAKE MONEY FROM SHARKS

New Company Being Formed to Engage in New Industry off Vancouver Island.

VICTORIA, Aug. 30.—Sharks in the waters along the British Columbia coast are to be turned into leather, liver oil, jewelry fertilizer and, finally dollars, according to plans of a Victoria company now being organized. A private company is about to launch the new coast industry on a large scale. "Sharking has got whaling beaten far beyond what the whaling industry along the Vancouver Island coast ever had to offer in its most promising days," said one of the promoters. "Tests of the possibilities of the industry have been made. They have proved to be so successful that we are launching the industry on a large scale. The reducing plant is to be situated on Barkley Sound, Sharks plentiful. Shark fishing, like the whal- ing, is to be carried on along the West Coast of Vancouver Island; where examination has shown that the huge Basking sharks, some of them weighing 2,000 pounds, abound in large schools. Fishing for the big sharks will be carried on after the fashion of whaling with harpoons shot from guns. Big Oil Producers. Livers of some of the big Basking sharks, which are 60 to 65 per cent oil, yield up to 30 gallons of the finest shark oil. It is used for oiling delicate mechanisms and in medicine. Livers of the smaller mud sharks found in the waters between the Island and the Mainland and in the Gulf of Georgia, yield up to 10 gallons of oil. Teeth of sharks are in great demand from jewelers, who make necklaces of them since Norma Talmadge and other theatrical stars and society women set the fashion. The fins are almost pure gelatine. They are cured and sold to Chinese for around \$3 each. The Chinese use them in the preparation of delicacies for their tables. Membranes and intestines are turned into gloves, glue and gut. Blood and flesh are turned into chicken food and fertilizers. The head is a solid mass of cartilage glue. Valuable Skins. The best paying part of the fish is the skin, which has the toughness of vulcanized rubber. The outer surface is rough like sandpaper. This rough surface is taken off by the acid treat- ment. The skin is then tanned. Inauguration of the shark fishing industry on a commercial scale along the coast comes as a result of preliminary work done by the Provincial Department of Industries under Premier John Oliver as Minister and Major Donald Martin as Deputy Min- ister. Experiments were carried out under the Department which have now proved the feasibility of the industry.

Director, 14,000 pounds; D.G.E. 8,000 pounds, and Ha, 5,000 pounds, sold to the Pacific Fish- eries at 9c and 4c. Selma, 7,000 pounds; Iris, 7,000 pounds, and Unimak, 11,000 sold to the Booth Fisheries Cana- dian Co. at 9c and 4c. Volunteer, 4,000 pounds, sold to the Canadian Fish and Cold Storage Co. at 8c and 4c. Azores, 8,000 pounds, sold to the Atlin Fisheries at 8.6c and 4c.

MADE MUCH MONEY BY CHEATING MOTORISTS

CHICAGO, Aug. 29.—Mrs. Lil- lian LeBelle, recently granted a divorce from Anthony LeBelle, employe of a gasoline filling sta- tion, will receive \$75 a month by cheating motorists. "How can you expect your husband to pay \$75 a month alimony when his salary is only \$165 a month?" Judge Samuel Slough asked Mrs. LeBelle. "Oh, he makes about \$200 a month extra," the witness an- swered. "Motorists pay for the amount of gasoline they order, not for the amount the filler puts in their tanks. In this dif- ference is where my husband makes his extra money."

B. 3, to cut 250 ac- res of spruce, hemlock, balsam and cedar. Time year will be allowed for the removal of timber. Further particulars of the Chief Forester, Victoria, the District Forester, Prince Rupert, B. C.

Valuable Skins. The best paying part of the fish is the skin, which has the toughness of vulcanized rubber. The outer surface is rough like sandpaper. This rough surface is taken off by the acid treat- ment. The skin is then tanned. Inauguration of the shark fishing industry on a commercial scale along the coast comes as a result of preliminary work done by the Provincial Department of Industries under Premier John Oliver as Minister and Major Donald Martin as Deputy Min- ister. Experiments were carried out under the Department which have now proved the feasibility of the industry.

BULLOCK-WEBSTER IS PRESENTED WITH FINE LEATHER LETTER CASE

Major L. Bullock-Webster, who organized and directed "Danae" the Greek pastoral play which was presented at "Gonzales" toward the end of June, and which won such applause from the members of the five audiences which were fortunate enough to see the unique production, yesterday received from the east a token of their wholehearted appreciation and gratitude for the courtesy and enthusiasm which he exhibited throughout the rehearsals and final staging of the work, says the Victoria Colonist. The presentation was made through Mrs. Charles Wilson, on behalf of the big company of actors, the gift taking the form of a handsome leather letter-case, accompanied by a cheque, also by a charming letter of appreciation of his tireless efforts in preparing the players for their parts. The generous gift is much appreciated by the producer, who wishes through the press to thank all who so liberally contributed. The recipient states that it is his intention to convert the cheque into a silver rose bowl, on which are to be engraved all the names of the "Danae" cast, grouped round a small inscription about "The Birth of Perseus."

LABOR CLAUSE NOT GOING IN

Would Delay Water Agreement and Considered No Matter for Civic Legislation.

After considerable discussion had taken place at the council meeting last night regarding the advisability of having an anti-Oriental labor clause inserted in the water agreement between the Prince Rupert Pulp and Paper Co. and the city, a vote was taken and the resolution to this effect brought in by Ald. Kelly and Ald. McNeill was negatived on the following division: For the clause—Ald. Kelly, Ald. McNeill, Ald. Kerr and Ald. Perry. Against the clause—Ald. Parker, Ald. Silversides, Ald. Frizzell and Acting Mayor Dybhavn.

The matter arose on the reading of a letter from the Trades and Labor Council which stated that the organization would protest any agreement which did not have embodied in it an anti-Asiatic clause and would wage a campaign against it.

The Resolution.

Ald. Kelly moved a resolution that the City Council communicate with the Prince Rupert Pulp and Paper Co. pointing out the agitation that was going on in favor of an anti-Oriental clause, reminding it of the statement made by Mr. Bell, an official of the company, that the payroll of the plant would not exceed 20 per cent for Oriental labor and asking if the company was prepared to have such a clause embodied in the water agreement. The bylaw had not yet gone through its third reading and this could still be inserted.

This was seconded by Ald. McNeill, who stated that it had been the company's own proposition.

A Touchy Subject.

Acting Mayor Dybhavn pointed out that this was a very touchy subject and hardly a matter on which municipalities could legislate.

Ald. Kelly replied that if the pulp mill was going to be an Asiatic proposition it would do no good to the city anyway and the people would rather do without it.

Ald. Parker thought that the City Council did not need to go into the matter again. He was as much opposed to Oriental labor as anyone but he did not think this was a matter for municipalities to take a stand in.

Ald. McNeill considered that the company should be held to its promise.

Giving Nothing Away.

Ald. Silversides felt like Ald. Parker. The company was receiving from the city only its surplus water which it could not use itself and he saw no reason why this should be used as a means to dictate to it in the matter of labor.

Ald. Parker was of the opinion that the citizens were more afraid of Oriental labor in this connection than was necessary. In Ocean Falls and Swanson Bay, where the companies were absolutely in control of everything, he would venture to state that not more than twenty-five per cent of the payroll was for Oriental labor.

Ald. Kerr stated that both the city council and the company wanted this agreement to pass the ratepayers and if no anti-Oriental clause was inserted there would be a lot of opposition to it, even outside the Trades and Labor Council. The first council had legislated along these lines when it had refused to give liquor licenses to any one employing Orientals or city street work to Orientals.

Would Make Delay.

City Solicitor Hooper suggested that the clause be inserted in the power agreement instead of avoid holding up the water agreement which had not been signed both by the city and the company. This would have the same effect for the company had said that it did not want one agreement without the other. To insert this clause in the water agreement now would probably delay it for three or four weeks.

Ald. Perry stated that he was in sympathy with the inclusion of an anti-Oriental clause.

City Clerk Woods pointed out that the agreement would have to be passed at the next meeting of the council if it were to come before the people on September 21.

Acting Mayor Dybhavn then called the discussion to a close and asked for the taking of the vote.
