DOMINION COMMAND CONDEMNS AMALGAMATION VARICUS SOLDIER BODIES

Terrible Floods Swept Over Colorado State Last Night; Thousands Lose Their Lives

PUEBLO, June 4.—The loss of life from the great flood which came rushing upon this city last night from the overflowing of the Arkansas and Fontaine Rivers, was this afternoon variously estimated at from fifteen hundred to three thousand persons. The property loss exceeded ten million dollars, according to estimates at this hour.

COLORADO HAS GREAT FLOODS

Casualties Result in Devastation of Thousands Acres result Cloudbursts.

DENVER, Colo., June 4.—Six persons are known to be dead, three towns have been inundated, thousands of acres of farms flooded, mines ruined and two days threatened from flood pressure as a result of cloudbursts from hours of torrential rains in Eastern and Central Colorado last night. Dead cattle and buildings are seen to be floating all over the country.

In the town of Pueblo alone, the property damaged passed the four million dollar mark.

STEWART EDWARD WHITE IS NOW ON WAY NORTH

Famous American Author Will Obtain Local Color for Stories.

VANCOUVER, June 4.—Stewart Edward White, the noted American author, accompanied by Mrs. White, have left here for a cruise up the coast in their launch "The Dawn." They expect to spend several months among the islands and inlets of Northern British Columbia waters. The real object of the trip is to enjoy a real holiday and get local color for stories by visiting quaint little towns and settlements of the north.

RUSSIAN HAS BEEN EXECUTED TREASON

Alleged to Have Stolen Military Papers for British Agents.

WARSAW, June 4.—Lieut. Ivanyuk, the Polish Flying Corps, has been arrested for treason. The accused was charged with stealing mobilization and military plans for British agents.

DAUGHTERS OF EMPIRE ELECT HEAD OFFICERS

TORONTO, June 4.—Miss Joan Arnoldi, of Toronto, has been re-elected president of the National Chapter, Imperial Order Daughters of the Empire. Mrs. O. L. Boynton, of Vancouver, has been elected to the council.

Serious Charge Laid Against Committee House of Commons

OTTAWA, June 4.—A report from Judge Snyder charges the Editorial Committee of the House of Commons with responsibility for the destruction of valuable documents and records, some of them predating the Confederation of Canada. A further report on the destruction of machinery and materials is due and will shortly be brought in, it is expected.

Voting Money Fast

OTTAWA, June 4.—After an all night session, the House of Commons adjourned at 5:30 this morning with the work of the session practically cleaned up but no definite announcement as to prorogation made. It was stated, however, in the lobbies that it would take place between 4 and 5 this afternoon.

During the last two hours of the sessions this morning the house passed estimates almost as fast as Deputy Speaker Bovin could call them off. Approximately \$112,000,000 was voted between 3:30 and 5:30.

HOLMES MURDER TRIAL STARTED

Evidence of Wife of Accused and Log Scaler was Heard This Morning.

Two witnesses, Walter Barr, government log scaler, and Irene Holmes, wife of the accused were heard in the Holmes murder trial which commenced this morning before Mr. Justice Gregory at the assize court sittings. The evidence of these two witnesses took up the time of the court this morning and adjournment was made at noon until 2:30 this afternoon when the continuation of the case was commenced.

Upon the opening of the case the crown prosecutor, W. E. Fisher, after stating that the case was the most serious that came under the criminal code, called the first witness for the crown, Walter Barr, provincial government log scaler of Thurston Harbor.

The witness described in one case and straightforward manner what he knew of the tragedy that took place on January 3, 1916, in company with W. Anderson, arrived at Cumshewa Inlet to scale a boom of logs that were lying on the beach a stone's throw from the shacks occupied by the three people connected with the case. He was not able to scale the logs on account of them being covered with snow. Shortly after arriving he heard several gunshot reports and saw smoke issuing from one of the shacks, and a figure appear at the back of the building and enter. Holmes, the accused, almost immediately came out of the front entrance and called to him to come up as he wished to speak to him.

The witness left the boom and went up as requested, reaching Holmes, who was with his wife, in a few minutes. Holmes said, "I have shot Joe, he did me a dirty, mean trick." His recollection of the appearance of the husband and wife was that the former was quite cool but the latter terribly excited and on the verge of hysterics.

Taking precaution against being mistaken by Booth, the deceased, for Holmes, the witness entered the cabin warily to see if he could do anything for the man who had been shot. He found him lying dead on his face with his hands doubled up underneath him on a bench wedged between a pile of wood and the cook stove. There were three separate wounds—on the right temple, the right side of his chest and the right forearm, he could not tell whether the deceased was standing or sitting when he was shot, but from his experience of seeing gunshot wounds at the front, he would say that they were received slightly from an angle.

There were four empty 12-gauge shotgun shells lying on the floor near the bed and a shotgun of the same calibre still warm standing in the gun rack. The deceased had been apparently changing his socks and boots as

ALLEGED BOMB WAGON DRIVER.

Giuseppe De Pilpis and United States Marshal Louis G. Beckman arriving at Federal Building in Jersey City, where prisoner was formally charged with complicity in Wall Street explosion that cost thirty-nine lives.

Provincial War Veterans Convention is Now On in Fraser Valley Farm Town

CHILLIWACK, B. C., June 4.—Condemning the proposals to amalgamate the returned soldier bodies, David Loughnan, of Ottawa, representing the Dominion command, yesterday addressed the provincial convention of the Great War Veterans Association which is meeting here.

The editor of the Veteran said that amalgamation was unnecessary and impracticable. He charged the United Veterans with originating the idea of amalgamation to take control of the Great War Veterans' Association.

The speaker asked the provincial convention to support the scheme for the expenditure of \$2,000,000 from the Canadian Expeditionary Forces' canteen fund. Of this the Great War Veterans would receive \$250,000 to carry on, \$750,000 should be set aside for the education of children of ex-service men and \$1,000,000 would be devoted to the relief of needy veterans according to his proposals.

REASON GIVEN FOR SUNSHINE

Sir Oliver Lodge Says There Will Be Plenty of It This Year.

LONDON, June 3.—The recent solar eruptions which caused brilliant auroras and disorganized the telegraphic services throughout the world may result in the earth receiving an increased amount of sunshine during the remainder of the year, says Sir Oliver Lodge, the noted scientist.

WINNIPEG OFFICER SHOOT THIEF DEAD

Arrested Two Men for Robbing Store—One Made Escape.

WINNIPEG, June 4.—An unknown man was shot and killed by Constable Hamlin when he attempted to get away after having been arrested together with another man for robbing a store. One pulled a gun on the officer and the latter fired killing him. The other man escaped with \$65.

GREAT WEATHER IN MONTH JUST PAST

The weather report for the month of May issued by F. W. Dowling, Dominion Government meteorologist, shows that the month was an exceptionally dry one, better in fact than the same month in most years preceding.

There was but 3.06 inches of rain as against over 5 inches last year. The snowfall of one evening during the month registered 35 inches, making a total precipitation of 3.41 inches. The highest temperature for the month was 76 on May 16 and the lowest, 34, on May 7 and 12. The mean temperature for the month was 56.

AIRPLANE GARAGE STARTS IN LONDON

LONDON, June 4.—The first airplane garage for the use of the air tourist has made its debut in a London suburb. It is equipped with a staff of skilled mechanics under qualified ground engineers and advertises to make repairs "while you wait."

Half Million More Are Thrown Out of Work Cotton Trade

LONDON, June 4.—The collapse of the cotton trade negotiations will throw half a million people out of employment in the north of the country today. Two million people are already receiving unemployment insurance in England at a cost of one million, eight hundred thousand pounds weekly.

The situation is gradually becoming worse and will be critical in a very short time if there is not a settlement of the coal strike very soon. There were probably never so many out of work in Great Britain as there are today.

ATTEMPT DELIVERY PRISONERS FAILED

Woman at Dublin Cricket Match Was Fired Upon and Killed.

BELFAST, June 4.—Republicans disguised as officers attempted to unlock a jail and deliver prisoners here. Their efforts were frustrated by the timely arrival of the police.

TRULIN, June 4.—A crowd at a cricket match was fired upon and a woman spectator was killed.

DUBLIN, June 4.—The residence of BLAIR, 84, in the 20th arrondissement, in County Monaghan, was destroyed by the Republicans. The National Shell Factory, used for making British munitions during the war and now used for storing purposes, was fired by Republicans but was saved by the prompt action of the police.

SLAUGHTER OF CHRISTIANS ON

Terrific Reports Reach Athens From Constantinople of Massacres.

LONDON, June 3.—The Athens correspondent of the Exchange Telegraph says that it is reported from Constantinople that frightful massacres of Christians have occurred at Samsun and Trebizond on the Black Sea coast or Armenia. The streets are strewn with the bodies and heads of Greeks.

RICH SILVER STRIKE KENO

Winter Output Valued at More Than Half Million Dollars

DAWSON, June 4.—The new strike at Keno Hill shows the richest silver ore ever found in the Yukon. Many claims have been staked and many companies are filing. The value of the winter output at Keno exceeds half a million dollars.

CONFIRMATION THAT STEWART STRIKE OVER

Received by Provincial Labor Bureau in City.

Definite word has been received in the city by Provincial Government Employment Agent J. M. Campbell that the strike at the Premier mine is over and the men have returned to work. A vote was taken among the men to decide whether they accept the company's terms or not, resulting in favor of acceptance by a vote of 79 to 35.

GOVERNOR-GENERAL TO LEAVE IN TWO WEEKS

QUEBEC, June 3.—The Duke of Devonshire and his vice-regal household is expected to arrive here about the middle of June, and will spend a few days here previous to their departure for England.

DAILY EDITION. Saturday, June 4, 1921.

Germany is Making Economic Progress.
 Notwithstanding the loss of a proportion of her minerals, Germany, at the present time, is making great progress econom- ically, says the monthly letter of the Royal Bank of Canada. The coming generation exceeds by more than a million men the generation that has gone. While undoubtedly stocks of all kinds were depleted to a drastic extent during the war years, the funda- mental commercial and industrial resources were unimpaired. Unlike the other enemy countries of Central Europe, Germany is unique in this respect. Hardly a building was destroyed during the war. Manufacturing, too, was practically uninterrupted, and since the Armistice industrial companies have prospered, having paid average dividends of 16 per cent in 1919, and 20 per cent in 1920. Her external debt is a negligible one, amounting to forty marks (paper) per capita. The national debt to her own people has risen until in 1920 the interest alone amounted to twelve and a half billion marks, and this has been paid regularly and fully—no doubt in paper marks, but paper marks provide the means to live in Germany.

Guarantee of Reparation Payments.
 As an indication of the extent of the recovery of her foreign commerce in 1920, the value of her total trade with the United Kingdom amounted to approximately seventy million pounds; that with France to about two and a half billion francs, and that with the United States to four hundred million dollars. Yet in spite of this economic activity, the public finances of the country show a gigantic deficit, and the charge of extravagance on the part of the new rulers cannot be denied. Receipts have been reduced and expenditure increased; the number of em- ployees in the imperial administrative departments in 1914 was 5,500; today there are 80,000, all receiving salaries, and the number of employees in the postal service has quadrupled. How- ever, by the exercise of ordinary economy the deficit could be converted into a surplus, and, in any case, the fundamental wealth of any country consists of its natural resources and the productive power of its industries. These are practically undiminished in Germany today, and are the real guarantee of reparation pay- ments.

Prince Rupert and The Bulkley Valley.
 The business men of Prince Rupert have been holding an annual picnic to some point in order that they may become better acquainted with their field, and with their announced intention of continuing the custom this year, it is reasonable that we suggest the Bulkley Valley as the point for their outing. The business men on the coast have shown very little interest in the interior apart from that represented in the periodical visits of their sales- men, but if we are a good field for business it is important to them that the business should grow. Prince Rupert should show a willingness to assist that growth and their visit here would put them in a position to know our needs and to act intelligently in developing their natural market.—Interior News.

IMPORTANT ROAD ON VANCOUVER ISLAND
Tenders Being Called for Highway to Connect Hardy Bay with Quatsino Sound.
 VICTORIA, June 4.—The provincial public works department is calling for tenders for the construction of a road between Hardy Bay and Coal Harbor, on the north end of the Island. The comple- tion of this project will mean a great deal to the development of the natural resources, mineral and otherwise, around Quatsino

BECAME SO THIN SHE WAS AFRAID

"FRUIT-A-TIVES" Made Her Well, Strong and Vigorous

MADAME ARTHUR BEAUCHER
 805 Cartier St., Montreal.

"I suffered terribly from Constipation and Dyspepsia for many years. Left pains after eating and had gas, constant headache, and was unable to sleep at night. I was getting so thin that I was frightened and saw several physicians who, however, did not seem able to help me.

At last a friend advised me to take 'Fruit-a-tives'. I did so and soon I felt some relief. I continued with 'Fruit-a-tives' and in a short time, the Constipation was banished. I felt no more pains or headache or the disagreeable sensations that follow dyspepsia. Now I am well, strong and vigorous."

Madame ARTHUR BEAUCHER.

 ALFRED E. WRIGHT.
 Dated this 1st day of April A. D. 1921.

BUILDING ON P.G.E. SOUTH

Steel to Quesnel By July 10, It is Expected

PRINCE GEORGE, June 4.—The laying of steel on the P.G.E. from this point south will probably commence within the next two weeks and should be well under way before the close of the month. J. M. Mercer, vice- president of the Northern Con- struction company, which has the contract for the completion of the line, arrived in the city from the east at the first of the week. On Sunday he had a confer- ence with A. W. Vassar, F. G. Flesher and A. C. Mackenzie, and later in the day left for a trip over the grade on his way to the coast.

Building South.
 Mr. Mercer gave confirmation to the report that work will be commenced on this end of the line within the next couple of weeks. He said his reports indicate satisfactory progress on the southern end of the line, but his schedule appears to be about two weeks behind that of A. F. Proctor, chief engineer of the department of railways. Mr. Mercer was of the opinion that it would be about July 10 before the steel is laid into Quesnel, and the summer will be spent by the time it has reached the crossing at Cottonwood Can- yon, where the big steel bridge is to be put in.

Between Cottonwood Canyon and Prince George the timber bridges are all being put into shape so that there will be no delay when the laying of steel from this end is commenced, and he was of the opinion the crossing would be reached from this end before the close of the year.

A. F. Proctor, the chief en- gineer of the provincial railway department has just completed a trip over the line from New- port to the end of steel and has issued a statement in Victoria as to the progress of the work. He states that the steam shovel gang and work-train crew which has been engaged for the last month in clearing out slides be- tween Deep Creek and Austral- ian Creek, covering a distance of about twenty-five miles, will be taken off shortly and ballasting operations will start on that section of the line. It is expected that next week the line will cross Australian Creek bridge and track laying will be con- tinued from that point to Ques- nel, which will be reached about July 1. While this work is progressing grading and bridge work crews are putting the grade in shape so that steel can be laid to Cottonwood Can- yon crossing, seventeen miles north of Quesnel, by the begin- ning of August, to enable the Canadian Bridge Company to start erection of the big steel viaduct across the canyon. The viaduct will be about 300 feet in height, and about 600 feet in length, and some 1,000 tons of steel will be used in construc- tion. Erection of the viaduct will take between 60 and 70 days, and while in course of progress ballasting operations will be carried on to that point, and track laid from Prince George southerly to Cottonwood a distance of about sixty-three miles.

Ten Years Ago
 in Prince Rupert
 June 4th, 1911.
 Hugh Campbell, a fireman on the customs steamer Lilloet, fractured two ribs on Saturday night by falling on the sidewalk near Orme's Drug store. Dr. Tremayne attended to the man's injuries, and had him hurried to the Hospital.
 There were almost two trag- edies over the week-end, G. W. Frase, a young machinist from Vancouver, tried to kill himself in a fit of despondency, and Mrs. Emanuel Sproule of Cow Bay, drank carbolic acid in mis- take for medicine. Both will recover.
 J. Gibson, the driver of the "Red Devil" auto fire truck has sent in his resignation, as he considers \$100 a month insuffi- cient wages, as compared with that received for similar work in Vancouver. The matter will come up at this evening's coun- cil meeting.

PRINCE RUPERT TIDES

Sunday, June 6:
 High, 0:16 a. m., 21.7 feet.
 13:17 p. m., 19.3 feet.
 Low, 6:55 a. m., 2.3 feet.
 18:54 p. m., 6.3 feet.
 Monday, June 6:
 High, 0:57 a. m., 22.4 feet.
 13:51 p. m., 19.0 feet.
 Low, 7:30 a. m., 1.4 feet.
 9:38 p. m., 6.7 feet.

The time used is Pacific Stan- dard, for the 120th Meridian west. It is counted from 0 to 24 hours from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

The height is in feet and tenths of feet above the average level of lower low water.

GETTING READY TO CELEBRATE

Sons of Canada on Job and Want to Keep People in Town Dominion Day.

The Sons of Canada Society has chosen its committees for the big celebration which it intends to pull off in this city on Dominion day. There is to be a great day's entertainment and already organization is well under way. The Sons intend to centre the attractions for sports and holiday seekers right in town and are already energetically on the job with this end in view.

Following are the chairmen of the various committees which have been struck.

General - Harry Love; Finance, J. R. Beatty; Sports, G. Blythe; Music and Dance, W. E. Thompson; Advertising, George W. Robertson; Children's Sports, Jack Knight; Refreshments, P. Exporter.

TOOK PICTURES OF NEW REFRIGERATOR CARS ON ARRIVAL

On the arrival of the first of the new Canadian National refrigerator cars for the export of fish from this port last week, the local fish interests had W. H. Melliar, the photographer from Melroe Bros., go to the yards to take some pictures. As a result there are now on view some excellent pictures of the three cars surrounded by groups which include Mayor Rochester, the fisheries committees of the Board of Trade and the City Council, and the local fish buyers. The occasion was deemed a memorable one so its memory is to be perpetuated by the photographic art.

SINGS IN CHURCH ON SUNDAYS BUT SHOULD BE CHOKED BY GOD

TORONTO, June 4. - "You sing in a church choir and yet come to the court and tell so many lies that I wonder Al mightly God does not choke you," said County Magistrate Brunton to a man who was before him on a charge of not supporting his wife. The accused was let off with a warning that if he did not support his wife he would be sent to jail.

INDIAN AGENT HAD UNPLEASANT VOYAGE

Indian Agent C. C. Perry who was at Metlakatla on Thursday in connection with the taking of the census of the Indians, had rather an unpleasant experience, being forced to drift around in an open gas boat most of the night in the heavy fog that came on that evening. Leaving the Indian village at eight o'clock he did not reach the city until ten next morning.

Lumbago

like rheumatism is caused by poisons left in the blood by defective kidney action. Correct this condition by using Dr. Chase's Kidney-Liver Pills. One pill a dose. 25c. a box, all dealers.

FISH BUYING ON SUNDAYS MAY DISCONTINUE

Fish Buyers Feel They Do Not Want to Work 365 Days Per Year.

There are plenty of fish cars on hand today for arrivals coming in over the week-end, but there will be no fish sale tomorrow at the Exchange, the buyers agreed to hold bidding until Monday to allow them Sunday off. There is now a movement on foot to discontinue buying fish on Sundays and the sales regularly set for that day may eventually be moved over till the following day each week. The fish buyers are getting tired of working 365 days a year.

Following were the sales yesterday: 12,000 pounds; Impetuous, 11,000 pounds; and Tulip, 1,000 pounds, sold to the Booth Fisheries Canadian Co., at 15.1c and 5c.

Blyn, 11,000 pounds; Viking, 1,000 pounds; and P. C. P. No. 1, 9,000 pounds, sold to the Canadian Fish and Cold Storage Co. at 12.7c and 5c.

Verna, 2,000 pounds; and Nikko, 2,000 pounds, sold to the Atlin Fisheries at 10.0c and 5c.

Shizu, 8,000 pounds, sold to the Canadian Fish and Cold Storage Co., at 10.6c and 5c.

Tako, 1,000 pounds, sold to the Canadian Fish and Cold Storage Co., at 10.1c and 5c.

O Bill, 2,000 pounds, sold to the Pacific Sea Products Association at 10.7c and 5c.

There are now eleven cars on hand for Eastern shipment.

FUNERAL OF REUBEN JOHNSON HELD TODAY

Number Attended to Pay Last Respects to Victim of Tragic Accident.

The funeral of the late Reuben Johnson, who lost his life under such tragic circumstances recently, took place at 10:30 this morning from the B. C. Undertakers' parlors, interment being made in Fairview Cemetery. Canon Rix officiated and A. Akerberg, Olof Hanson, J. Bergman, G. Axelson, O. A. Johnson and Louis Lockhart were the pallbearers. There were a number of friends at the funeral to pay their last respects to the deceased.

There were many floral tributes adorning the casket, among them being those from Mr. and Mrs. K. Hallberg, Mr. and Mrs. A. Akerberg, Mr. and Mrs. O. A. Johnson, Mrs. M. Millard, Mr. and Mrs. Steve Johnson, Mrs. Christiansen, Mr. and Mrs. W. Anderson, Mrs. Christiansen, Mr. and Mrs. A. R. Phillips, Mr. and Mrs. Olof Hanson, Mr. and Mrs. K. Rood, Mrs. Wicks, Mr. and Mrs. A. Iverson, C. J. Johnson, Mr. and Mrs. M. Jacobsen, Mr. and Mrs. J. Bergman and C. J. Johnson.

MIRAGE OBSERVED ON LAKE ONTARIO

Rochester People Saw Canadian Coast Opposite Side Lake.

ROCHESTER, N. Y., June 3. - Rochesterians who gazed lake-ward were surprised to observe a remarkably clear mirage off the shores of Lake Ontario on the Canadian side. The weather was very clear, and the mirage rested high in the northern sky. The colors were a deep blue and near black, the uneven shore line being distinctly depicted against the cloudless sky.

Sealed tenders will be received by the District Forester not later than noon on the 15th day of June, 1921, for the purchase of Licence X 3273 near Sprounce Bay, Q. C., to cut 425 M. feet of spruce, Hemlock and Cedar.

One year will be allowed for removal of timber.

Further particulars of the Chief Forester, Victoria, B. C., or the District Forester, Prince Rupert, B. C.

TIMBER SALE X 2643.

Sealed tenders will be received by the District Forester not later than noon on the 14th day of June, 1921, for the purchase of Licence X 2643, to cut 4,200,000 feet of spruce, Balsam and Hemlock, on an area situated at the head of Link Lake, Range 3, Coast District.

Three (3) years will be allowed for removal of timber.

Further particulars of the Chief Forester, Victoria, B. C., or District Forester, Prince Rupert, B. C.

NOTICE

IN THE MATTER OF Sections 134 and 150 of the Land Registry Act and in the matter of Lot Four (1), Block Thirty (30), Section One (1), City of Prince Rupert, (Map 924).

Proof of the breach of Covenants, and re-entry and recovery of possession, by Edna Waldron, the registered owner of the above lot, under a lease granted by Charles E. Burgess to you, George Grey, dated the 29th June, 1916, and registered in the Land Registry Office at Prince Rupert, as Number 1943-B, having been furnished, it is my intention after the expiration of thirty days from the service of this notice, to cause the registration of the said lease upon the Register unless in the meantime a good and valid objection thereto is made and unless you take and prosecute the proper proceedings to establish your claim or to prevent such proposed action on my part.

Land Registry Office, Prince Rupert, B. C., 3rd March, A. D. 1921.

H. F. MACLEOD,
District Registrar of Titles.

To George Grey,
Prince Rupert, B. C.

Faint and Dizzy Spells Weakness and Shortness of Breath

You can generally tell when the heart is affected by the faint and dizzy spells, the shortness of breath, palpitation, throbbing, irregular beating, smothering sensations, weak, sinking, all-gone feeling, choking sensation, etc.

Many men and women become run-down and worn out when otherwise they could be strong and healthy if they would only pay some attention to the first sign of heart weakness.

No remedy will do so much to make the heart regain strength and vigor, regulate its beat and restore it to a healthy and normal condition as Milburn's Heart and Nerve Pills.

Mrs. E. A. S. Drake, Paris, Ont., writes: "I have used on towards the second box of Milburn's Heart and Nerve Pills and find they have done me good. I had those fainting, dizzy spells, once in a while, and also weakness and shortness of breath, and would become so choked up at times I could hardly sleep without sitting up in bed. When waking too fast I would have to stop and try to catch my breath. I feel a lot better since I have used your pills and know that they have helped me wonderfully as I have improved very much."

Price 50c, a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont. Advtd.

FRANK DOWLING SHOT BIG GRIZZLY BEAR ON YUKON TELEGRAPH LINE

F. W. Dowling, superintendent of Dominion Telegraphs, recently received from his son, Frank, of Second Cabin Yukon Trail, a large grizzly bear skin, he recently captured. Frank was going along the line in the course of his work and met Mr. Bruin who appeared to be in an offensive and threatening mood showing plain signs of being on the attack. Frank took no chances but pegged the shaggy monster with one shot from his high powered rifle which ended Bruin's hostile career. Now Mr. Dowling has a trophy of which he is very proud for it is, indeed a handsome one.

PACHENA WILL MAKE FIRST TRIP NORTH ON TUESDAY MORNING

The fine new boat, Pachena, recently acquired by Captain A. Swanson for general transportation business to outlying points from Prince Rupert, will make her first trip to Stewart on Tuesday morning next. The owner has just had the registry of the boat changed to Prince Rupert and all is now in readiness for her to go into service.

On the initial trip next week, Captain Swanson will himself be skipper of the boat. Among the passengers will be W. J. Crawford, the transfer man from the mining town, who will return North, after having spent a few days in the city on a business trip.

DAYLIGHT SAVING PROBLEM IN VIENNA

VIENNA, June 4.—The daylight saving tangle is becoming embarrassing in Vienna. Yielding to the farmers, the law was rescinded but the workmen of Vienna are taking it into their own hands and simply serving notice on employers that they will work on summer time.

The movement has spread from factory to factory until it is virtually a law in its effect. The men say they cannot work on clock time and cultivate their gardens around the city.

ALICE ARM

There was born on May 24 to Mr. and Mrs. Elmer Ness, a daughter, at the home.

Miss Dumas, of Edmonton, is visiting with her brother Steve Dumas, proprietor of the Kitsault House.

Mr. and Mrs. G. W. Gray and family have moved to the logging camp near Way Point.

SHARK FISHING NEW INDUSTRY

Flourishing Plant Has Been Established Not Far from Victoria

VICTORIA, June 4.—With the supply of raw material unlimited, an industry new to this country is flourishing at Parker Island, between Galiano and Mayne Islands on the Gulf of Georgia. It is the business of catching sharks, and a week's catch at the beginning of May ran to eighty, with an average weight of over a ton each. The work is being carried on by the Anglo-British Canadian Company, Nelson Macdonald, of this city, who operated the first shark-catching machinery on island, declares there will never be a shortage as there are millions in the waters surrounding the island. "In fact the further north you go the more sharks you will find and from here to Alaska are their feeding grounds," Mr. Macdonald said. "Taking them from the bottom of the sea is automatic. Norway has a hundred of such industries. The only real hook for catching them, which works on a swivel, comes from there and the so-called cod-liver oil, which is made from the shark's liver, is really shark-liver oil, manufactured in Norway."

Nothing is wasted in a shark plant. There is no finer fish-bone than that made from the bodies of the sharks. As a fertilizer it is superior to dog fish. The head of the shark is full of glue of a highly valuable quality and the fins are a much prized Chinese food delicacy, orientals here paying as much as \$3 a pound for it. The liver content runs from 60 to 70 percent of finest oil of which about 19 percent is glycerine. Shark's teeth are in demand in many parts of the world and fetch a high price for the manufacture of ornaments. What bones there are, and they are few, go into the fertilizer part of the industry.

Shark Leather
The greatest interest in this new industry is being manifested in the manufacture of hides. Several American companies have been formed and much excellent research work is being done at present. A Seattle company is making very rapid progress, although they have not yet arrived at a commercial paying basis. The shark hides run from an inch in thickness to the consistency of paper in the baby

shark. Samples recently exhibited here to a number of local business men included soles for boots and leather for the finest "suede" shoes for women's wear. There was also a black "pigmented" product which would make a club bag that would last a lifetime. In Seattle they are manufacturing hip-boots from shark hides and they are declared to be completely waterproof. It takes fifteen days of specialized process to turn out these leathers and some six months' treatment to prepare sole leather for the market.

Mr. Macdonald predicts that the time will come when British Columbia will have as many shark-catching and manufacturing plants as Norway now has. "There are millions in it," he asserted, "and it is right at our back door."

PROSPECTORS BUSY AT ARM

Snow Leaving Higher Ground—Assessment and Development Work.

ALICE ARM, June 3.—Snow is leaving the higher ground in the hills and mountains about this place and prospectors are already busy on their claims, each day seeing more go out to carry on the season's work. In the town it is rather quiet and the only work going on nearly is the construction of the government road from dock to town by local contractors.

Tom McCoskie is working on the McPhee property on the northeast fork of the Kitsault River and Walter McDonald is doing assessment work on the "Mother-in-Law" group. John Rowber is working on the "Black Diamond" property on the upper Kitsault and John and Gus Strombeck are now busy at the Toric group. James Galvin is developing his property on Haystack Mountain and Fred Matson is doing assessment work for James Peacock, of Anyot, on the Eagle Bay property. Near town, Archie McPhail is continuing the driving of a tunnel on the Independent group that was considerably tunneled by D. J. Hancock a couple of years ago.

There is nothing doing at the Dolly Varden at present although Major North, the manager for the Taylor Mining Co., went up to the mine on Friday last to spend a few days' making surveys of the Dolly and the Wolf.

Hazleton the Place for Good Roads and Scenery

By the Editor.

Hazleton is a picturesque town at the junction of the Skeena and Bulkley rivers. It is the centre of a district which has many sights that would appeal particularly to the tourist. The piece de resistance is the Rocher de Boule Mountain, but there are several Indian villages which are very interesting and the roads are better than at any other place in the northern interior. It is not uncommon there to see a car spinning along at from thirty to forty miles an hour, the only place I know where such speed can be attained without grave discomfort to the occupants of the car.

The main objection to Hazleton is the fact that the Indian village and the white town is so closely connected that a stranger cannot see any dividing line. The condition is good for neither whites nor Indians. The Indian villages of Kispiox and Hazwilgaet are both very interesting and picturesque. The latter only a few miles distant is close to the famous narrows, once bridged by the Indians but now having a fine suspension bridge. It is possible also to drive to the foot of the big mountain and to other points.

Drive From Smithers.

We drove to Hazleton from Smithers by motor car and returned the same way, and some of the road is very poor, but it is not very bad going, compared with other parts of the valley. It is possible to average about ten miles an hour. The chief point of interest is Moricetown where the Bulkley rushes through a very narrow canyon. To see it is well worth the whole trip. The Indian village there is marked by the number of peculiar fish drying sheds, each on stilts several feet from the ground.

Everyone knows of the Hazleton hospital and the splendid work done there by Dr. Wrinch. It is open to Indians and whites and is conducted under the general supervision of the Methodist Church. Owing to its healthy climate and ideal situation, Hazleton has been recommended as a site for a tuberculosis sanatorium for the north country.

Big Game Hunting.

One of the new industries of Hazleton is the outfitting of parties for the big game hunting grounds on the northern interior. In this respect it is already rivalling the Skeena River. Last year three parties were sent in by G. M. Byrnes, the well-known owner of pack horses and contractor for the Dominion Government telegraph lines. He has between 70 and 80 horses which go as far as four hundred miles north, right into the heart of the big game country. It is expected this industry will develop.

Expect Scientist.

While at Hazleton we met H. S. Swarth of the museum of vertebrate zoology at the University of California and I found he had a letter of introduction to me from Allan Brooks, the artist and naturalist who was in Prince Rupert last year and who spent the summer on Queen Charlotte Islands. Mr. Swarth is making a complete study of the birds of the district, dealing more particularly with the matter of distribution. He is working with Allan Brooks on a list of British Columbia birds which will be the most official publication of its kind yet issued. In the autumn Mr. Swarth will visit Porcher Island to follow up some of the work done there recently by Mr. Brooks.

It would not be right to leave the subject of Hazleton without mentioning that excellent little weekly, the Omicra Herald,

edited by C. H. Sawle. It is located at the new town, which is at present rather a deserted place, but it gives the news of much of the valley. Mr. Sawle is a great believer in the future of Hazleton.

Hazleton will be remembered as the place of good roads and fine scenery. It is the oldest settled part of the whole valley and was at one time the head of navigation on the Skeena River.

ADMINISTER ETHER AND GET THE TRUTH

Toronto Doctor Makes Startling Chemical Discovery.

TORONTO, June 3.—Another to compel truth-telling has been discovered by Dr. James Cotton, of this city, according to an interview in a local evening paper. Dr. Cotton's new ether, called Ethylene Ether, has been used in numerous demonstrations and is calculated to eliminate post-operative sickness. The preparation to compel a person to tell the truth, let the chips fly where they may, is being kept a secret, Dr. Cotton says, because the revelation, in the long run, might do more harm than good.

A POPULAR "APRON DRESS"

Pattern 3561 was used to make this style. It is cut in 4 sizes: Small, 31-36; Medium, 38-40; Large, 42-44; Extra Large, 46-48 inches bust measure. A Medium size will require 5 1/2 yards of 27 inch material.

Striped seersucker, figured percale, checked gingham, also lawn, saten, drill and crash could be used for this model.

READ THE ADVERTISEMENTS

The publishers of this paper draw your attention to the advertising columns, and particularly to the advertisements of the local merchants.

These merchants have invested their money in goods to satisfy the needs and desires of us all.

Their enterprise is a distinct service to our community. For this reason we should buy from them to the best of our ability and in so far as our needs and judgment of value dictates.

Then, too, the general commodities advertised in our columns are worthy of consideration. It is desirable that readers should ask merchants to supply advertised goods wherever possible. By doing so the cycle of trade is kept alive and inter-community commerce stimulated. We repeat—read the advertisements.

SONS OF CANADA WON EASILY

Game Last Night With War Veterans Resulted in 3 to 1 Victory.

The Sons of Canada defeated the Great War Veterans at foot ball last evening by a score of 3 to 1, thus scoring the first win in the senior league football series this season. Despite the unfavorable weather there was a good crowd of spectators.

The teams lined up as follows: Sons of Canada—Corkle, V. Menzies, and H. Menzies; Anderson, Shakespeare and Mitchell; Robinson, Swan, Dobbie, Clark and Lane.

Great War Veterans—Youngman; Stewart and Ferte; Lamden, Ross and Harding; Kitch, Roberts, Hardy, Schaffield and Nicklin.

The Sons started their game towards the city goal and Dobbie from the opening worked his way through the opposing defence only to shoot just. The Sons' forwards hovered about the Vets' goal and after ten minutes play, Swan made the first score for the Sons by a close range shot that glanced off Stewart and past Youngman into goal.

Except for spasmodic rushes little combined play was shown by the Vets in attack and Hardy had little opportunity to show his dash. Following some loose-midfield play, the Sons again renewed the attack on Youngman and, from close range, Swan again registered a goal for his team. Swan, at this stage, was the life of the Sons' attack and gave plenty of opportunities to his partner which were not always taken to advantage.

The Vets now entered into the game a little more and Roberts and Hardy both made creditable attempts to open the score but notwithstanding good backing by Ross, their efforts failed to bring results. At the other end the Sons were more successful and after some nice play by Shakespeare, Dobbie and Swan, the latter again put one past Youngman. The Vets now were making desperate attempts to score and finally, through the combined efforts of Hardy and Lamden, they managed to get the ball past Corkle for their first goal.

Second Half

With the incline in their favor, the prospects for the Vets were brighter in the second half and they opened with a good deal of dash but they always just failed to carry things through. Play was certainly more even in this period and both teams had numerous attacks foiled by good defence work. Following a good screw shot from Swan, Ross let Kirby away and after making good progress he shot wide of Corkle and lost one of the best opportunities of the game but the same player almost made amends by a clever header on a cross from Nicklin, the ball just going by the post. A little later the Sons were fortunate in saving a good attempt by Hardy, when Corkle in saving seemed to carry the ball over the line but play was allowed to continue by the referee.

The Sons now had a spell of attack and it was well for the Vets that Stewart and Ferte were playing a tight game for they were kept continually on

THREE NOTED THREE-YEAR-OLDS IN TRAINING AT GRAVESEND AND SEXTET OF JOCKEYS IN QUINCY STABLE.

KNOBBIE

SUNNY JIM

M. ROWAN, R. LANCASTER, C. TURNER, S. LOWE, P. WALLS AND J. WESSLER.

In Sunny Jim Playfellow and Knobbie Jim Fitzsimmons has a powerful hand in the three-year-old division. These three colts are highly bred and all of them can run. Sunny Jim, which is by Friar Rock out of Lucy M., has never started in a race, but in his recent work at Gravesend his speed startled his trainer, and it is likely he will travel a route.

Knobbie, a stake winner last year is going along nicely and Fitz believes he will improve as the season progresses. Playfellow, the full brother of Man o' War, was a disappointment last season, but he is running more kindly this year, and his trainer is confident he will not disgrace his illustrious brother.

While Joe Mooney, the star jockey in the stable, handles them in all their first trials, there are half a dozen other jockeys piloting them. Fitzsimmons is blessed with good riders. Besides Mooney he has six, any of whom could win with any good horse. They are Rob Lancaster, who was one of the stars in 1923; Maurice Rowan, the veteran, who was an apprentice in the Fitzsimmons

barn; J. Wessler, another "vet," and Pete Walls, Seth Lowe and C. Turner.

Walls is a tiny fellow, weighing sixty-five pounds. As soon as he takes on more weight he will get all the mounts he wants, for he

is a good rider and a fearless one. Lowe rode and won at Havana and Turner had several mounts at New Orleans last winter.

Fitz says he is going to give all of them a chance to ride this season.

PLAYFELLOW

JOHN BIRD

PARIS WILL BE SCENE 1924 OLYMPIC GAMES

GENEVA, June 1.—The International Olympic committee in convention at Lucerne has selected Paris as the scene of the next Olympic Games in 1924. Amsterdam, Holland, has been awarded the 1928 Olympiad.

There were arguments advanced for the holding of the games in North America, but these were not acted upon, it being felt by the majority that Europe is still the most popular continent for the events and, in many ways, the most central.

SMITHERS WILL HAVE NEW RECREATION PARK

Grounds Located at Agricultural Park on Lake Kathlyn Road.

The necessity of playing all ball games at Telkwa has at last awakened interest of ball fans in the proposed new ball grounds at Agricultural Park and after an examination this week it was decided to make a strong effort to have the diamond put in shape at once. Quickly the property was laid out and a fine ball ground selected and it was decided to ask for tenders for putting it in shape. Tenders were asked for the work Tuesday, the contract going to Tom Herlihy. The grounds are on the Lake Kathlyn road and the property to be cleared will be five hundred feet on the road by three hundred feet deep. Half of the cost is to be paid by the baseball boys and the other half by the association.

Poor Old Paw!

Willie—Paw?
Paw—What is it, my son?
Willie—Does a seaside resort have a floating population in summer?
Paw—You get to bed, young man! You are getting too smart.

Sport Chat

The Dempsey management cannot think that the big fight on July 2 is going to last very long for Jack Kearns, the "man killer's" manager, has offered to sell the quarter interest that he and the big fellow hold in the moving picture rights of the battle. This is taken as an indication that the present champion intends to win as quickly as possible. Even if the fight does not last very long there will be lots of action while it does. Carpentier is just as determined as Dempsey that the fight is going to be all his way.

At least four Prince Rupert sport fans are going to be in Jersey City for the world's championship battle on July 2. Reservations in the arena have already been made for Ben Self, Fred Stephens, Gillis Royer and Joe Garon. Fred left yesterday on the Princess Mary but he will visit Montreal before he goes south to the States. Ben Self plans to leave here on June 19 and will make a rush trip, being away altogether only about three weeks.

Considering that the Olympiad is an international event and one in which the whole world takes an intense interest it seems rather one-sided that these events for four-times hand running should be held in cities within a few hundred miles of each other. The 1908 was held in Stockholm, 1920 in Antwerp, and Paris and Amsterdam are named as the cities for the next two. It would only seem fitting that America should prepare to entertain the 1932 Olympiad but that is a long time to look ahead. Berlin may be in better favor by that time, even.

Madame Carpentier, the wife of the French challenger for the heavyweight championship of the world, will get returns on the contest by a special news service in Paris. Georges has arranged to send his wife a special message after the bout also. Madame Carpentier does not like to discuss the forthcoming match, she feeling nervous, but she is confident of her husband winning in three rounds.

SAILOR WINNER OF SWEEPSTAKE

Captain Jones Won \$300,000 Premium on 5 Rupee Ticket.

LONDON, June 1.—Captain A. Jones, D.S.O., of the Union Castle Co., won the Calcutta sweepstakes first premium of \$300,000 on an eight rupee ticket which he says he bought for fun. Capt. Jones said that this was the first gambling venture of his life. He has been a sailor for twenty years and is a retired naval officer. He will now retire from active seafaring and proposes to buy his wife a two-seater car.

MIDGETS WON AGAIN IN JUVENILE LEAGUE

The Midgets were again successful in the Juvenile League series by defeating the Falcons in the league fixture on Seventh Street last night by a score of 17 to 11. W. Wrathall was the pitcher for the Falcons and E. Yager, the catcher. Bert Kelly and N. Chenowski pitched for the Midgets with S. Garvich behind the bat. H. Fritzell was umpire, the umpire.

The Juvenile League standing follows:

| | W. | L. | Per. |
|---------|----|----|------|
| Midgets | 3 | 0 | 1000 |
| Falcons | 1 | 2 | 333 |
| Cubs | 0 | 2 | 000 |

PLANNING NOW NEXT OLYMPIAD

Meetings Being Held for Three Weeks in Switzerland

LAUSANNE, Switzerland, June 1.—Probable selection of Paris as the place for holding the 1924 Olympic Games is only one of many questions to be decided at the June meetings of the International Olympic Committee and other Olympic organizations. These sessions have already commenced here.

Delegates are being entertained in the buildings and gardens of Montbenon. A sort of club life has been planned for the delegates and their families. Parts of the buildings are reserved for their convenience and when the day's work is finished musical and sporting programs are presented in the gardens.

Five principal topics are being discussed at conferences of the international delegates. These subjects are: The possible addition of a regular winter sports week, preceding the games. These would be held in turn in the winter sports countries, Sweden, Norway, Switzerland and Canada. Decision upon the best way of choosing, and of crowning each year at the games, the person credited with the most remarkable performance in mountain climbing.

Adoption of a permanent program of equestrian sports.

Methods for obtaining better cooperation of writers and artists for the literary and artistic competitions of the Olympiads.

Formulation of a program that municipalities should adopt to encourage sports and to provide public grounds.

Revival of the Greek public gymnasium open to all, is one of the subjects to be considered at a conference called by the Olympic Institute of Lausanne, an organization founded by Baron Pierre de Coubertin, the chairman of the International Olympic Committee. The results of all these conferences will be submitted to the governing body of games.

the International Olympic Committee. During the three weeks of conferences there will be a Congress of Olympic committees, representing all participating countries. This congress will be called upon to make final decisions on questions concerning the games—such as the proposed suppression of walking and tug-of-war contests; formulation of definitions of amateurism; limitation of entries; composition of juries and a number of pending questions on fencing, rowing, yachting, football, tennis, cycling as well as the proposed revision of the gymnastic program. This congress will consider only matters submitted by the International Olympic Committee.

LORD BYNG IS REAL SOLDIER

Vimy Ridge and Cambrai Greatest Battles in Career.

TORONTO, Ont., June 4.—The name of General Byng, newly appointed Governor General of Canada, will ever be associated in Canadian history with the great battle of Vimy Ridge when for the first time the Canadian Corps fought together as a Corps d'elite, owing much of its success to his leadership. After that victory he was promoted to command of the Third Army and was succeeded in command of the Canadian Corps by General Sir Arthur Currie, who had the satisfaction of directing the Corps during its triumphal progress through the last stage of the war until on Armistice Day it found itself in historic Mons.

General Lord Byng of Vimy, G.C.B., G.C.M.G., M.V.O., was created 1st Baron of Vimy in 1919, and his title will forever link his name with that of the Canadian Corps. Born on September 11, 1862, the seventh son of the 2nd earl of Stafford, he comes of an old English family possessed of a notable record both by sea and land. In 1902 he married Marie Evelyn, daughter of the Hon. Sir Richard Morley, K.C.V.O., a younger brother of the 3rd Earl of Ducie.

Military Career
Joining the Tenth Royal Hussars in 1882, his first experience of war was with the Sudan Expedition in 1884, when he was present at the actions of El Tep and Tamai. He served in the South African War, 1899-1902, being promoted Brevet Lieutenant-Colonel, commanding the South African Light Horse in 1901. From 1901 to 1905 he had charge of the Royal School of Cavalry at Netheveron, afterwards taking command of the Second Cavalry Brigade; in 1906 he was promoted Major-General and given the East Anglian Territorial Division.

On the outbreak of war in 1914, he was recalled from Egypt, where he had been G.O.C. for two years, to take command of the Third Cavalry Division. Landing in Belgium in October, 1914, he, along with the Seventh Cavalry Division, under General Rawlinson, covered the retreat from Antwerp to Ypres. During the first battle of Ypres, Byng's Third Division was part of Allenby's Cavalry that held the right of the salient, and at the Second Battle of Ypres the Cavalry Corps now under Byng, as General Allenby had been transferred to command the Third Army, was in close support ready to cover a retreat on St. Omer if the line should break.

Leader Canadians.
In August, 1915, he was given IX Corps at the Dardanelles and remained at Suvla Bay until the expedition was withdrawn four months later. Returning to France in February, 1916, he succeeded General Alderson in May in command of the Canadian Corps, which then consisted of the First, Second and Third Canadian Divisions.

General Byng lost no time in entering upon the duties of his important charge; possessed of all the qualities which go to form a great military character—intrepidity bounded only by soundness of judgment, skill in taking advantage of every contingency, and a genius for contriving, as well as perseverance in preparing and dexterity in executing, the most brilliant enterprises—he could not have had a more favorable medium for the display of his military talents.

Personal Method
Byng's greatest asset lay in the men he led, here were 100,000 of Canada's best volunteers to a man, each of them ready to put forth every effort for the cause. Thoroughly appreciating this the Corps Commander adopted an entirely new method of handling his troops prior to the attack, he took the man in the ranks into his confidence; instructions were issued to all units that by means of lectures, demonstrations, examination of photographs and most important of all, discussions over large scale maps, each man should thoroughly understand his part in the attack and how best to carry it out. The extent of this policy may be better realized from the fact that over 40,000 specially drawn large scale maps were issued to units of the Canadian Corps, and when zero hour at last came, it is no exaggeration to say that every N.C.O. taking part in the attack had a general idea of the Corps scheme and could, with aid of his map, give a clear and detailed explanation of how his battalion intended to reach and retain its objective.

Battle of Arras
Vimy, or the Battle of Arras as it is officially termed, marks an epoch in the history of modern warfare. It proved that a fortified position, no matter how strong its defences, was still capable of being pierced provided that every arm of the service was given a fitting role and that every ounce of energy was skillfully directed in carrying it out. After the line had again become stable in June, 1917, Byng was given the Third Army. His successor in the Canadian Corps was Sir Arthur Currie, who had commanded the 1st Canadian Division since September, 1915. As an army commander his exploits were closely followed by his old Corps, but none of the Canadian Division ever again fought a major action under him, although they held part of the line on the Third Army front in the summer of 1918 and for one day only in October, 1917, the Corps was under orders to join him southwest of Cambrai, where he staged, on November 20, the most ambitious and spectacular attack of his career.

MANY UNEMPLOYED IN EMERALD ISLE
Belfast, Cork and Dublin Are Badly Off.
DUBLIN, June 4.—A great increase in unemployment in Ireland is shown by official reports. The number of people registered at the labor exchanges, which does not include workers on short time, has risen to 116,285.
Belfast is worst off with 28,434 unemployed as against 15,291 in Dublin, and 10,922 in Cork. Over 100,000 are drawing unemployment benefit. The hardest hit industry is linen in Belfast. In Dublin the trouble is mostly due to a dispute in the building trades.
Thomas Johnston, secretary of the Irish labor party, estimates that there are not less than 15,000 agricultural workers and road-menders out of work as a result of the military situation.

Miss Winifred Williams, aged 5, who passed the Toronto Conservatory of Music examinations with honors. Miss Way, her teacher, regrets that such a promising student has left Canada for California.

MUSIC EXAM RESULTS OUT

Both Classes of Miss Way and the St. Joseph's Academy Good Showings.

Results of the Toronto Conservatory of Music examinations held in the city recently by Dr. Vogt have been just announced and show that Prince Rupert pupils have done exceedingly well in the tests. Among the successful students were the Misses Claire and Enid Williams, the daughters of Mr. and Mrs. W.F. Williams, Borden Street, who made splendid showings under the tutelage of their mother. Miss Enid passed the whole introductory examination with first class honors and Miss Claire, with second class honors. Both these children did the examination work in three months, little Miss Claire only beginning the study of music in February when it was known that Dr. Vogt was to be the examiner.

Detailed results received are as follows:
Miss Way's Class.
Intermediate pass—Marjorie Lancaster.
Junior passes—Aileen Stephens, Leona Parker, Mary Dowther, Eileen Carruthers and Mary Walters.
Primary passes—Netta Clark, May Clark and Florence McNeil.
Elementary passes—Barbara Peyton, Dorreen Woods, Gordon Parkin, Clifford Cameron, Sheila Conway and May Martin.

St. Joseph's Academy.
Sixty-five per cent of the candidates in the convent classes took honors.
Those successful were:
Junior, piano—Mary Gilmore (honors), and Dorothy Thompson (honors).
Primary school piano—Alice Nelson (honors), Mary Comadina, Verna Thompson and Norma Rogers.
Elementary piano—Dorothy Forse (honors), Luey O'Brien (honors), Jean Grieve (honors), Rhoda Lamb and Eramonde La Trace.
Elementary school piano—Jean Stalker (honors), Alice Spence (honors), and Florence Smith.

Talks incessantly.
"Millions are involved in this divorce suit."
"Well, what about it?"
"Oh, nothing, except that when money gets mixed up in a scandal it's more garrulous than ever."—Birmingham Age-Herald.

SNOW AND SLEET HAVE NOT DONE ANY CROP INJURY

Sudden Change in the Weather Takes Place Thursday, Continuing Throughout Friday.

Edmonton was visited by a snow and sleet storm Thursday night and Friday morning during which time there was a lowering of the temperature till 6:30 in the morning when sleet came and gradually turned into a fine rain which ceased about eleven o'clock when the sun again put in its appearance.

Green and white was therefore the color scheme which met the eyes of the citizens as they looked out upon their lawns and the trees and the grass that surrounded their homes and they beheld the tender shoots of spring battling with the rigors of winter. This only lasted for a short while and soon the white mantle which covered the flat surfaces to the depth of an inch and a half disappeared under the warmth of the sun's rays. Gardeners and florists heaved a sigh of relief when they discovered that no damage had been done to the plants or flowers.

The precipitation of snow, sleet and rain together amounted to a quarter of an inch and this had an altogether beneficial effect on the growing garden stuffs.

Little or no injury to the crops it is stated, has resulted from the snowfall. None of the grain crops show injury while some of the more tender vegetables, such as tomatoes have not been tipped. D. W. Warner, farmer,

Was Suffering from INDIGESTION

No Fear of Pains Now

Indigestion is one of the worst forms of stomach trouble, and many people suffer terribly after every meal they eat. The rising and souring of the food, pains in the stomach, heartburn, water brash, belching of wind, vomiting shortly after eating, etc., are some of the symptoms.

There is no need for any person to be troubled with indigestion, dyspepsia or any other stomach trouble if they would only take Burdock Blood Bitters, which contains a combination of nature's roots, herbs, barks and berries; a combination that cannot help but put the stomach right.

Mr. H. H. Collins, Norton, N. B., writes: "I was with the overseas forces for four years and two months, and in October, 1916, I was unfortunate enough to be wounded and taken prisoner. I was a prisoner for 2 1/2 years, and the food they gave us was not good at times, and after a few months I found I was suffering from indigestion. When I came home in July, 1919, I was nearly a wreck. I was told to use Burdock Blood Bitters. I did so and found great relief, and can now eat without fear of pains and sickness. I would recommend B. B. B. to all who suffer from indigestion."

Burdock Blood Bitters has been on the market for over forty years, and during that time has made a reputation second to none for relieving all stomach troubles. Manufactured only by The T. Millburn Co., Limited, Toronto, Ont. Advt.

Glover Bar, reports that his corn was not injured by the frost. In some of the low places, he believes, some of the vegetables would be touched by the frost.

The frost did not come until early in the morning and by that time there was a blanket of snow over the sprouting grains. The fact that most of the crops escaped frost is attributed to this.

SMITHERS

The past few weeks has seen many intending settlers looking over the land in the Bulkley valley, and the next few months will see a noticeable addition to the population from this source. The newcomers are mostly from the Canadian prairies and Montana.

J. D. Galloway, resident engineer for the department of mines in this district was in Smithers yesterday, after having spent a few days inspecting the Betty coal property under lease to Mr. Gillespie, and located about six miles from Telkwa. Mr. Galloway expressed both surprise and satisfaction over the coal showing opened up so far at the Betty property. The great need at present is a road to the mine and it was in regard to this that he had been visiting the property. Until the road is made fit for traffic no shipping can be done.

Miss West who has been living with her father at Rose Lake, died on Monday. Deceased had been an invalid practically all her life.

KLIM Powdered Whole MILK

See this line which is now being demonstrated in our store. At last we have got a milk which will solve your milk troubles for ever more.

No more waste through souring.

No more fear of impurities or infection.

It will keep perfectly for months in the powder form.

This is a product that will enable every home to have Pure Fresh Milk day or night and is quickly made, so that it is equal to the finest milk a few hours fresh from the cow.

We are sole distributors for Prince Rupert.

We buy American Currency, Silver, Gold or Bills

HOLMES MURDER TRIAL STARTED

(Continued from Page One.)

one foot was bare. The shot in the head, in the witness' opinion, was enough to cause instant death.

Upon going out of the cabin Holmes said, "I surrender myself to you for this thing." Witness replied that he did not know whether he had authority to put him under arrest as he was not a police officer, however upon the accused saying that he put himself entirely in his hands witness took the prisoner, together with Mrs. Holmes, to Thurston Harbor and handed him over to the provincial police authorities. Holmes remarked to the witness in conversation that the man Booth had been bothering his wife and that he was a Southerner, and you know what that means.

Returned to Scene.

Witness returned on January 5 to the scene of the shooting together with the prisoner, the coroner and police authorities. He took part in the examination of the shacks, when the revolver and the two papers were found, one of the latter purporting to be a will made out by the deceased in which he said he bequeathed all his worldly belongings to the prisoner and his wife. The other was a note to the prisoner's wife from Booth in which he said he was tired of being the goat, and that he was leaving this world for no particular reason, and requested that his dead body be thrown to the waves of Gushwa Inlet.

W. Fairbairn, of Queen Charlotte City, who was sworn in a special constable and accompanied the provincial police and coroner to the scene of the shooting on the day but one following, gave evidence of a corroborative nature as to the finding of the body and the discovery of letters, shot gun and shells. This closed the crown's case.

Wife's Evidence

Mrs. Irene Holmes, wife of the prisoner, then went into the stand and described plainly and lucidly the entire happenings to her husband and herself from their leaving Vancouver the latter part of last August to the day of the tragedy. Holmes and herself obtained work at a Whalen camp on the Islands, he in the woods and herself waiting on table at the mess house. It was here they met the deceased, Joe Booth, and after a short time became friendly, the latter being fond of music and playing the mandolin with the witness. Everything went well until the first of November when the deceased began to show familiarity towards the witness and from then made her life a misery, persecuting her with his attentions. The reason she did not tell her husband was on account of the fact that the deceased threatened to kill him if she did so.

A. M. Manson is conducting the case for the defence.

PRINCE GEORGE

A fine bunch of cattle numbering 65 head arrived on Sunday morning last, from the Lower Fraser valley for the dairy herds of Beverly and Mud River farmers. The railway car presented an animated scene as the cattle, mostly milch cows with their udders heavy with milk, were being milked by an army of volunteers, who had received a hurry up call that anyone who could milk a cow would be received with acclaim and could have the milk resulting from his labors gratis. These are the cattle purchased by Trevor H. Bagot, of the farming firm of Seymour and Bagot of the old Miller ranch on Mud River, acting on behalf of the Mud River Farmers' Institute.

It is expected that the Mud River Creamery will open in about two weeks time.

An enjoyable tea was held in the Hills-Keifer hall on Sunday afternoon last, by the girls' auxiliary of St. Michael's Church.

Old timers will regret to hear of the death in Seattle of Mr. J. C. Hutson, which occurred last month. Deceased was a brother of Trafford Hutson of the Canadian Land and Securities Corporation, Ltd., owners of large property interests in this district.

Many people read newspapers as much for their advertising columns as they do for news.
