## Another Jury Hears Murder Evidence LAST NIGHTS GALE DID CONSIDERABLE HARM ON WATERFRONT

### Waterfront Swept By a Fierce Gale

A gale of great velocity struck the waterfront between 11 o'clock last night and 2:30 this morning, with the result that several boats have been damaged, one boat, the Kelpie, belonging to Bill Shelton, having sunk in 60 feet of water. Captain G. H. Selig of the Eagle is the hero of the hour, and rendered very valuable assistance with his boat in salvaging distressed craft.

Captain Selig has been in Prince Rupert since 1911, and says that last night's was the worst southwesterly gale he has ever seen out in. The wind blew at the rate of between 30 and 40 miles per hour and swept the wharves. When the gale started the Eagle went out to patrol the waterfront, Captain Selig in command with six men, who did great work, at very considerable risk to life, in making boats fast which had broken from their moorings.

### GONE TO CONSULT GRANBY DIRECTORS AT NEW YORK CITY

VANCOUVER, Dec. 13.—H. S. Munro, general manager of the Anxox mine and smelter states that while things are going full blast at Anxox and the rising price of copper is encouraging, he is not yet in a position to make any announcement in regard to future plans. He is on his way to New York to consult with the directors of the company.

### BANDITS HELD UP BANK AND ESCAPED

Got \$25,000 From Bank and Held Up Seven Men in Poolroom.  
 GREENVILLE, Ill., Dec. 13.—Four bandits entered Panama near here yesterday and robbed the bank of Panama of \$25,000 and held up seven men in a poolroom next door and wounded a motorist whom the bandits believed was pursuing them. They escaped.

### NEW CABINET PROPHECIES

Suggestion of Coalition is Received Now That Returns Are In.

OTTAWA, Dec. 13.—Everyone here is cabinet making today. The most important consideration is whether Mackenzie King will call in the Progressives and form a coalition cabinet or make an effort to carry on alone by securing the aid of such unattached Liberal Progressives as he may be able to entice to his banner.

There were a number of Progressives who were elected through receiving the solid support of the Liberal organizations in their constituencies. Whether these will support the Liberal government or line up under Crear is not certain. Nothing is certain today. Possibly overtures will be made by Mr. Meighen to the Crearites, but there is little expectation of that. The Premier has admitted defeat and all the parties except the National Liberal and Conservative party were against the government.

### CHANGE RULE OF THE ROAD

Vancouver and Victoria to Keep to Right Commencing New Year's Day.

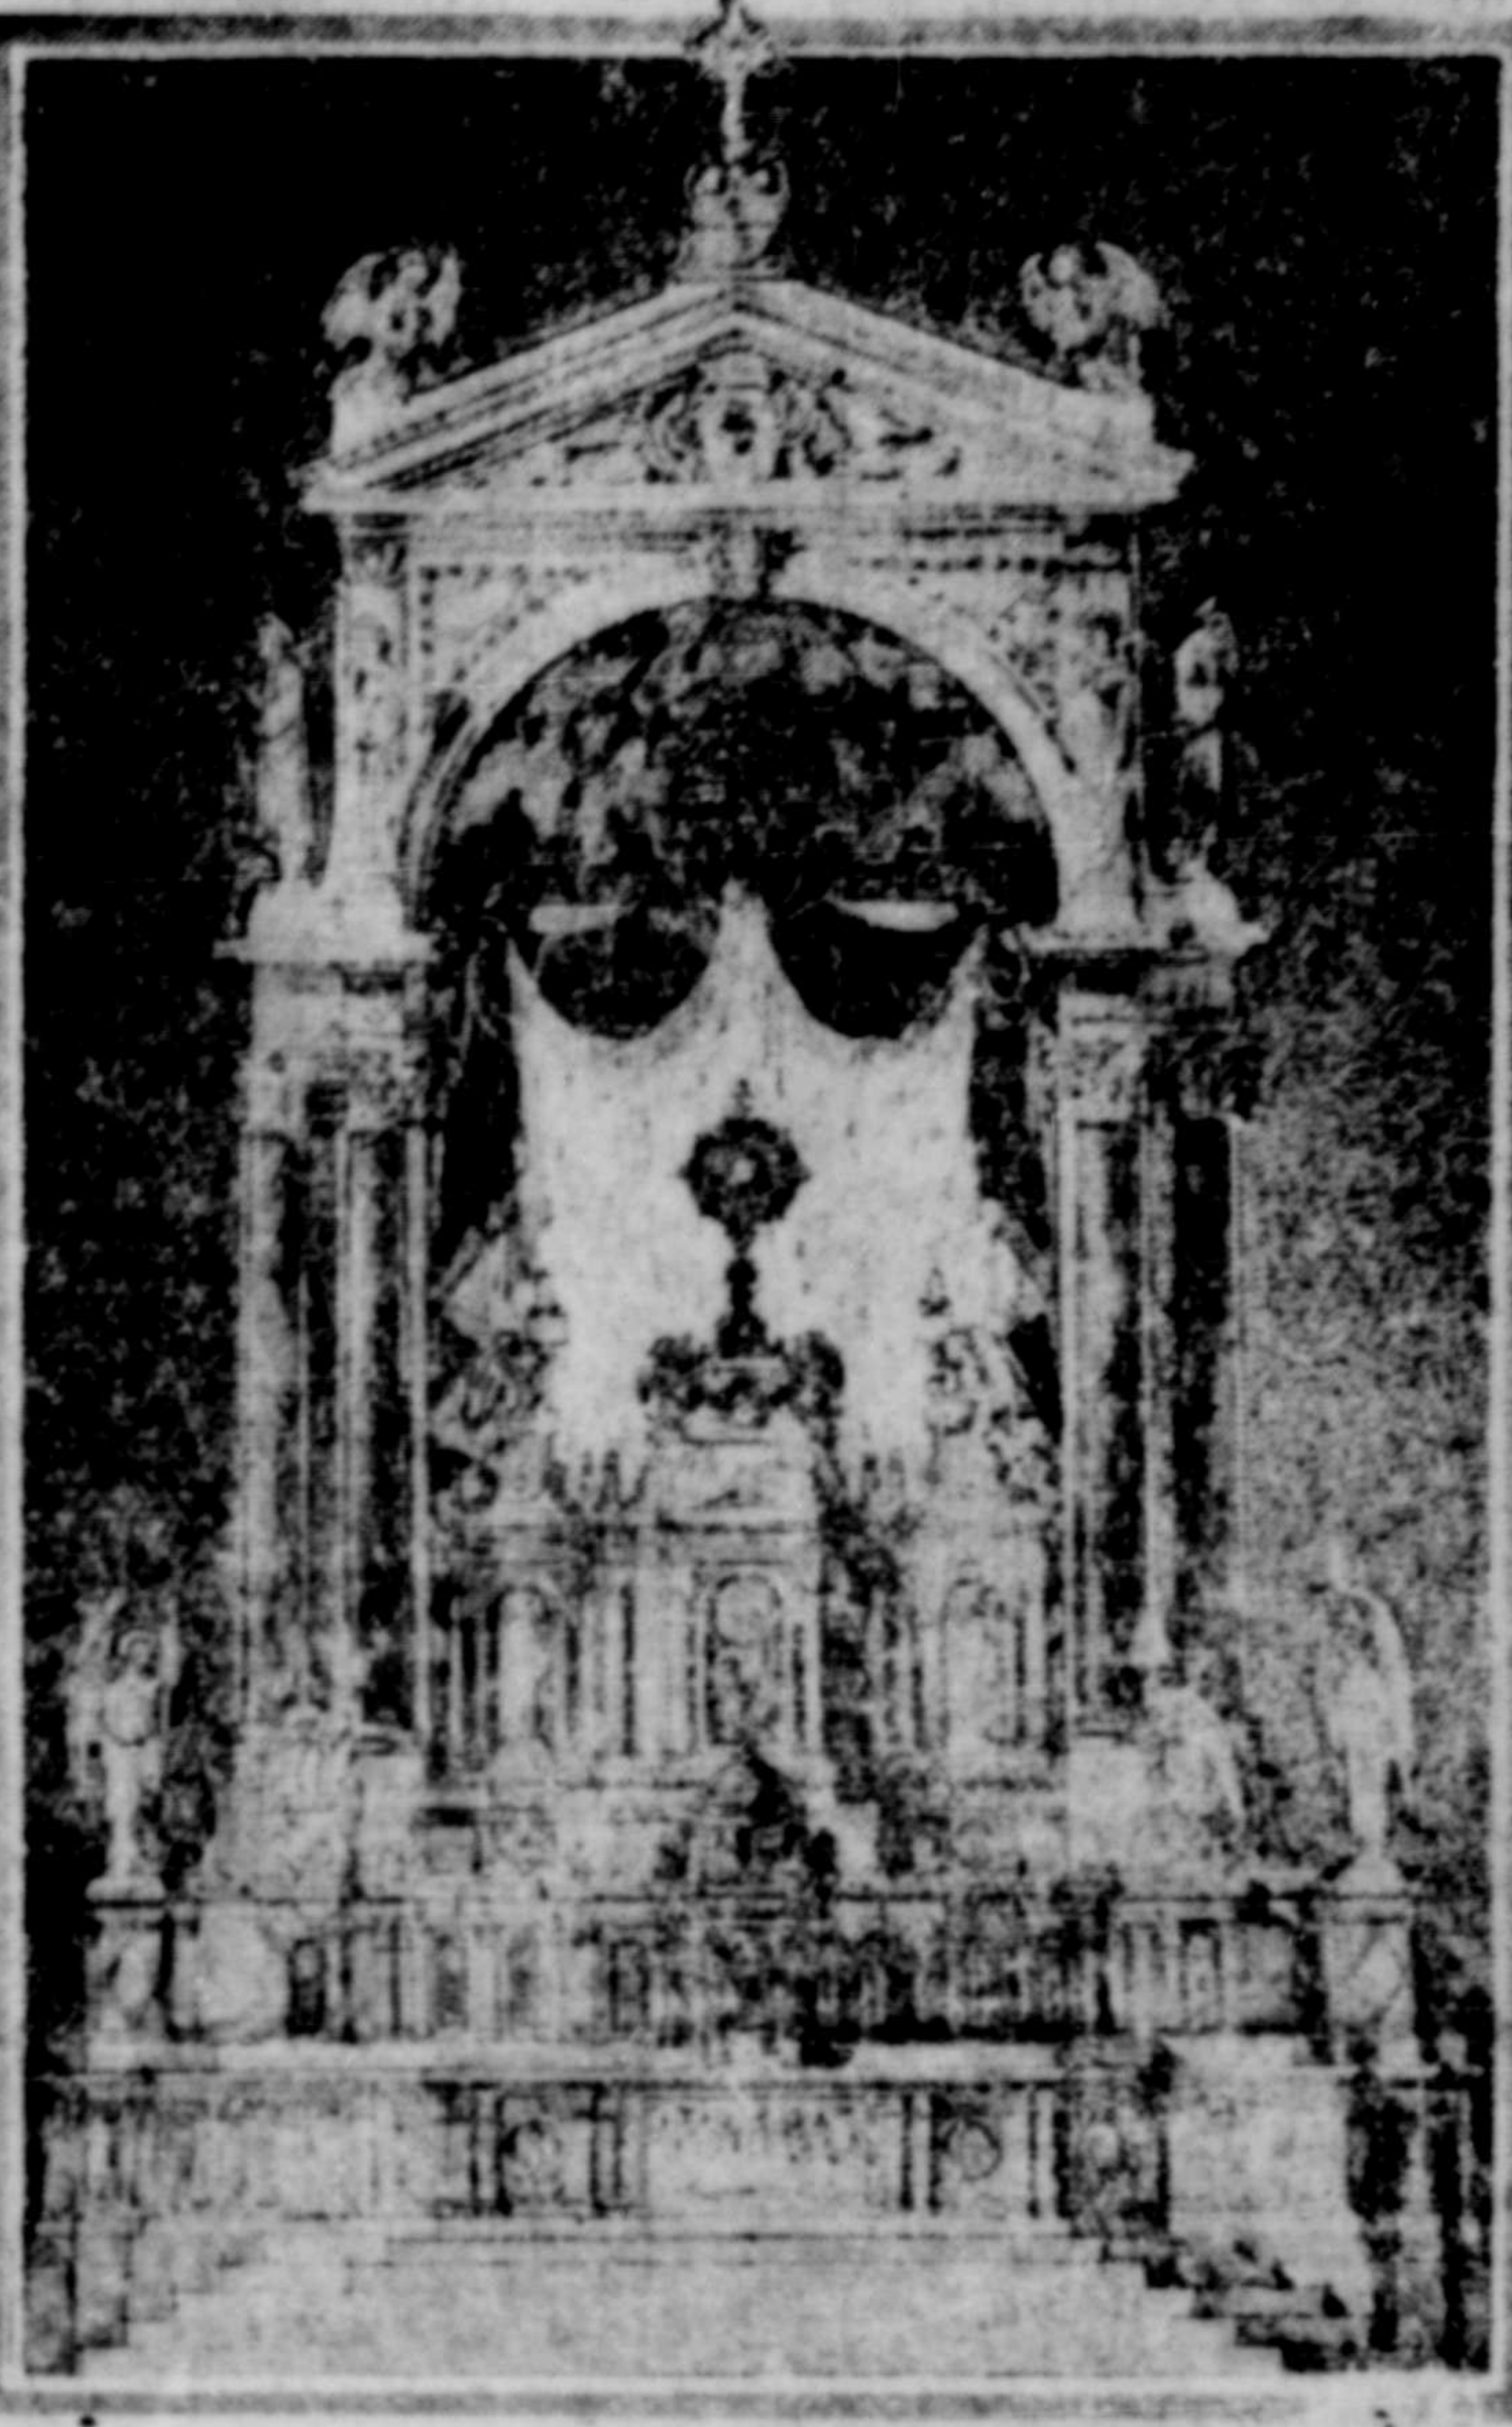

VANCOUVER, Dec. 13.—All arrangements are complete for the change of the rule of the road in the southern coast district of British Columbia. On the first morning of the new year everyone will keep to the right here and in Victoria and in the other parts of the district, thus completing the change, which has already gone into effect in other parts of the province, and bringing the province in line with other parts of the continent.

### FAREWELL DINNER TO COLONEL PECK

Returned Men Held Impromptu Affair at St. Regis Club Room Last Night.

Some of the returned men of the city last night gave an impromptu dinner to Lieut.-Colonel Peck, who with Mrs. Peck is going south tonight to spend Christmas in Vancouver. It was strictly for returned men and of a non-political nature. There were no speeches but the evening was spent in song and story. The affair was got up hurriedly as a mark of appreciation of the Colonel by the soldiers and had nothing whatever to do with politics. Major Gibson was in the chair and the party broke up about midnight.

### MASTERPIECE OF ART IN FORM OF NEW ALTAR.

This beautiful new altar will be erected in St. Jean Baptiste Church, in New York city, and is a masterpiece of solemn beauty. Marble, precious stones, bronzes and mosaics will be utilized in the building, and it will be the most costly in the world.

### Sleepy Victoria Stirred By Police Commissioners: Great Campaign Meeting

VICTORIA, Dec. 13.—Hurling varied charges and innuendoes at the civic administration, from Mayor Porter to the detective department, warmly defending their own policies and urging the electors to vote for William Marchant and W. E. Staneland, Police Commissioners J. C. North and Dr. Ernest Hall told 1600 people packed in the Royal Victoria Theatre the "inside story" of their year's work.

It was the most extraordinary meeting in the history of the city. It probably was unique in the history of Canada. The packed theatre was in a continual state of noisy applause as the speakers pressed each thrust home. For three hours the two commissioners continued their verbal fight against "the alcoholized forces of iniquity," and for three hours the big audience remained to applaud and cheer. Several hundred people were turned away at the theatre doors and others crowded the sides of the stage. And after it was all over it was found that local charities would benefit to the extent of \$640 from admission fees, after expenses were defrayed.

### Dr. Hall.

"It looks as if things were going North again," Dr. Hall remarked in commencement. "One year ago Mr. North was unknown in civic life—for a year now he has been the civic storm centre, and probably will remain so for another year. I've only played second fiddle to him—he has been the leader. Arrangements are to be made for this man North to go to speak in Vancouver to tell the people here how we have wakened up sleepy Victoria."

"Next Wednesday night Mr. Walker and Mayor Porter will sing a duet, and the strain will be: 'We accept the verdict of the people.'"

### Murder Case Being Tried Today Before Mr. Justice Macdonald in Assize Court: Jury of Twelve

The Holmes murder trial, traversed from last assizes when the jury disagreed, is proceeding today before Mr. Justice Macdonald at the Fall Assizes being held in the city. Evidence for the prosecution was taken this morning and this afternoon the evidence for the defense is being submitted. The case may be finished this evening. A. Donaghy of Terrace is acting as crown prosecutor, and A. M. Manson and Milton Gonzales of the firm of Williams, Manson & Gonzales appear for the defense. The jury comprises: D. W. Morrissey, John Day Bell, John L. McIntosh, John J. Judge, A. W. Healy, Michael Burke, B. H. Crossott, J. R. Stewart, J. A. Edwards, A. W. McLean, Alex. Strachan and V. F. Roberge. When the jury was being impanelled this morning A. P. McGorkindale, Robert Jordan, Frank Salter, W. H. W. Murray, L. C. Eby, C. H. Thomas, Charles Blythe, Sr., John M. Buckley, W. E. Denning, H. A. Green, W. Longwill and James Turrie were challenged.

Harry McLeod, who is acting court registrar, read the charge of unlawfully killing and murdering Joseph Eugene Booth at Cumshewa Inlet, Moresby Island, on January 3, 1921, preferred against Robert W. Holmes. The plea of not guilty had been made at the last assizes.

A. Donaghy, crown prosecutor, reviewed the case and its circumstances. The first witness was W. Barr, the fog sealer, who testified to having heard the gun shots in the cabin nearby where he and Edward Anderson were attempting to seal a boom of logs. Hearing them, they approached the cabin and met Holmes who said that he had shot Booth for "doing him a dirty trick." He had asked that he be taken in charge and the police informed. This was done.

In the course of Mr. Manson's cross examination, Mr. Justice Macdonald asked Mr. Donaghy where his copy of the evidence in the former trial was. Mr. Donaghy replied that he did not have one.

"That just shows you didn't read the evidence," replied the judge tartly. "Trusting to the defence for the evidence is not the way to conduct the prosecution."

Edward Anderson, fisherman, who accompanied Barr to the scene of the affair was then heard. On being cross-examined by Mr. Manson, he testified to having seen Mrs. Holmes, wife of the accused, going from the direction of Booth's cabin to the Holmes cabin after the shots had been fired. When they reached the scene Mrs. Holmes was hysterical, crying and nervous, Holmes appeared pale and strained.

The evidence of Constable Fairbairn, who arrested Holmes after the occurrence, was then read, completing the case for the prosecution.

Mr. Manson then addressed the jury giving an outline of the defence. Holmes and his wife had come North from Vancouver last year shortly after their marriage. Reaching the Queen Charlotte Islands in August they had come to Kelly's camp where the accused was employed as a digger and his wife as a waitress. Holmes had met Booth and they had agreed to go hand logging together at Cumshewa Inlet. All had gone well for two weeks until Booth had attempted to force his attentions on Mrs. Holmes. He had become objectionable and vulgar and Mrs. Holmes had finally threatened to tell her husband. Booth said if she did he would kill him. For

### NEW OIL DOCK AT ESQUIMALT

Union Oil Company Has Commenced Construction Near Silver Foam Factory.

ESQUIMALT, Dec. 13.—A commencement has been made with the erection of the plant for the Union Oil Company in Esquimalt, just east of the Silver Foam Soap Company's premises on the Esquimalt & Nanaimo Railway tracks.

The plant will represent an investment of \$35,000, and will be located on a site of about two acres.

The work will employ a considerable number of Esquimalt men, and local material will, as far as possible be used.

### INDEPENDENTS TO GET BEHIND FRED STORK FOR GOOD OF DISTRICT

There was a good attendance at the meeting of the Prince Rupert Independent Political Association which was held last night in A. W. Edge's store. It was generally expressed at the meeting that the members would get behind Fred Stork, member-elect for the federal parliament, and assist him in all good work for Prince Rupert and the Skeena

### U. S. EXCHANGE IS AGAIN RATHER LOW

Today United States exchange is down to 8 1/2, which is as low as it has been for a long time. On November 29 it was standing at 10 and has slowly moved downward with variations back and forth. On Wednesday it was 8, Thursday and Friday about 9 1/2, and Saturday 9 13/32.

**Asked to Support a Christmas Fund.**

The Elks are asking the people of Prince Rupert to support a Christmas Cheer Fund for those families that cannot secure ordinary Christmas pleasures in the ordinary way. The work is not in any way confined to the Elks order, but all families in the city that are needing it will be assisted. None will be overlooked because of their nationality, religious belief, or for any other reason.

Christmas is a season of joy and all should share in that joy. Most of us are not in a position to go out after those who are not so well to do as ourselves and help them. Because we do not see such people we come to the conclusion that there are none. There we are mistaken. There is more need for a Christmas Cheer Fund this year than for years past, for there are men out of employment and these can not find the usual spending money.

Tomorrow night the Elks are giving a big minstrel show at the theatre, the proceeds of which goes toward the Christmas Cheer Fund. In addition to attending the entertainment, those who are able are asked to co-operate with the committee in charge and contribute to the fund. The Elks guarantee that it will be used to advantage.

**Think About Remembering Friends.**

The Christmas present or other remembrance that arrives on time is worth much more than a belated present. No one likes to feel that he was an afterthought. The time to send a present is so that it will arrive at Christmas time.

For a day or two before Christmas there is a rush to secure such Christmas articles as it is thought will be welcomed by the recipients. There has to be something purchased and many of the articles intended to be purchased have already been sold. That is part of the tragedy of Christmas, not to be able to give what we want to those who would appreciate it. Having this in view we suggest making purchases at once so as to avoid the rush during the day or two preceding Christmas.

Many people looking for Christmas presents are glad to have lists of Christmas goods from the stores to assist them in making a choice. Suggestions for Christmas are a convenience to the community. This is the time to think about it. Why not make purchases this week so that others may be able to do their shopping later who are unable to do it now? No merchant can give good service when the rush is on.

**Get Ourselves Into The Christmas Spirit.**

The Christmas spirit is the great thing. We have to cultivate it for we miss much of the enjoyment of the festive season. We cannot celebrate with the unselfish if we ourselves are selfish. We cannot join with the young if we are old in spirit as well as in bodily infirmities. Christmas embodies the spirit of eternal youth, of lasting joy and happiness. If we get ourselves into the proper frame of mind to associate with those who have become imbued with the Christmas spirit we shall have the best celebration yet. To enter into the Christmas spirit we have to get rid of the desire to accumulate wealth or to wish ill to our neighbor. We must, in fact, banish every note of discord from the chorus. By thinking kind thoughts and passing on joy vibrations we become part of the happiness of the world, which is the only kind of happiness we need worry about just now.

**Get a Bit of Holly or a Christmas Tree.**

Get a bit of holly or a Christmas tree and brighten up the house for the season. To most people it is superfluous to mention such a thing. To others a suggestion does not always come agniss. The brightening up of the house for the holiday is one of the important things about Christmas. It is wise to make the place different. A movement of furniture and general changing of the whole lay-out of the living rooms aids in cultivating the Christmas idea. To get away from the humdrum existence of the rest of the year and to acquire a new outlook on life is important, and the surroundings do a lot to cheer us up and make us alive to the occasion. The little things of Christmas make the season worth while more than the big things.

**Mr. Justice Macdonald Runs Over List of Cases With a View-Set Hearings.**

The Assize Court opened here yesterday afternoon before Mr. Justice Macdonald. The judge in opening went over some of the cases with a view to setting them for hearing.

The Holmes murder trial is proceeding today. The Peacock vs. Peacock separation case was called but there was no answer.

In the Norman and Vig vs. Anglo-British Columbia Packing Co. case, L. W. Patmore, counsel for the plaintiff, asked for time to inspect the documents. They had just arrived yesterday.

The Moore vs. Lapadat case was called and A. M. Manson explained that L. McGill, of Smithers, counsel for the defence would not be in town until tonight.

The Ketchum vs. Babington case over an alleged breach of a towing contract will come up soon. R. O. Oughton, of Fisher & Oughton, appears for the plaintiff and T. R. Hooper for the defendant.

The case of Rex vs. Michelson, in which defendant is charged with kidnapping, was traversed until next assizes, A. Donaghy, crown prosecutor, stating that the accused had broken jail here and was now in Alaska. The judge suggested that the United States Government be requisitioned for him.

The case of Porter vs. Porter, over a fishing boat business, was reported by Mr. Patmore to have been struck off the list and he asked that it be allowed to stand over until next assizes. The request was granted.

The divorce action of Gurvich vs. Gurvich was called and Mr. Manson reported that, although two of the members of his firm were in court, they did not know whether it was possible for the two parties to get together to allow the hearing to proceed. "Your business must be very large when you cannot attend to it all," remarked the judge. "I congratulate you."

After the hearing of the Cecil vs. Cecil divorce action, court adjourned until ten o'clock this morning.

**The Man in the Moon SAYS--**

THE more you think of it the more you feel that Paul had a lot of courage when he wrote to those women and told them to keep quiet and not be always shooting off their gobs in the meeting.

HOW different the world would have been if the voters had only viewed things from a different angle.

AND what is wrong with the Prince Rupert people getting busy after awhile on the civic elections?

THERE have been a number of trains and autos dropped into rivers and other waters but not one did it as neatly as Olier Besner without anybody being any the worse for the fun.

PERHAPS the right way is to go in backwards.

THE difficulty about people reading the advertisements in the Daily News is that they usually want to go right down town and buy something.

LOST, strayed or stolen one Tory Party, aged and somewhat worn out. Finder kindly return to Premier Meighen and receive posthumous reward in heaven.

ONE thing that does not get you anywhere is thinking about buying Christmas presents if you have no money to pay for them.

ONE advantage in living in Prince Rupert is that nobody here will give you a present purchased at the ten cent store.

ANOTHER advantage in living here is that Prince Rupert people do not usually give men ties for Christmas presents.

ONCE upon a time there was a man who had a dozen Christmas presents and he said they were all lovely and in doing so expressed his real thoughts. But that was a long, long time ago.

THE queerest person in the world is the one who comes in with a big head in the morning and says "he had a wonderful time last night."

THE most disappointing thing about the last election was the lack of free cigars.

THE most popular person during the next two weeks will be Santa Claus.

THE reason the people did not support the Government was because the manufacturers were doing it so nicely.

**CAUGHT IN TREE AND WAS TORTURED**

NORTH SYDNEY, N. S., Dec. 13.—While a boy named Win Stanley of Milville was out alone in the forest gathering beechnuts, a breaking branch caught and pinned him in the fork of a tree. A high wind was blowing and every movement of the tree caused the little fellow great agony. His cries were heard by two young girls who on their way to school had wandered into the woods in search of nuts. Alarmed, they ran to the nearest house, that of Mrs. Robert Jessome, who soon located the source of the cries and managed to extricate the frightened boy from the trap of the beech tree. If the little girls had not wandered away from their usual course to school young Stanley might have perished from exposure or starved to death.

ST. PIERRE IS HEADQUARTERS FOR SMUGGLING

Remnant of Former French Possessions is Assuming Increased Importance.

HALIFAX, N. S., Dec. 13.—St. Pierre and Miquelon, the French islands in the Gulf of St. Lawrence, ten miles off the coast of Newfoundland, have figured rather frequently in press despatches of late, as the alleged source of the liquor supply of smugglers who have been operating during the past summer on the coasts of the Maritime provinces and New England. These two islands the remnant of the once extensive dominions of France in the new world, have an area of 91 square miles. They are rough and hilly with extensive out-croppings of barren rock, and the population of something over 4,000 is mainly centered in the town of St. Pierre on the smaller island. St. Pierre has a good harbor and for generations has been the headquarters of the Atlantic fisheries of France. Twenty years ago 500 sail of vessels, including those from old France fitted out for the fisheries at St. Pierre and by 1912 the fleet had increased to 800 sail, but since the local fleet of sailing vessels, schooners, brigs, brigantines and barques, has dwindled, and now most of the inhabitants use motor boats in the fishing. The Metropolitan fleet from France has also been reduced, and the old sailing vessels have been largely replaced by steam trawlers.

Stormy History. St. Pierre has had a stormy history. Occupied by the French in 1660; was captured by the British in 1702 and held by them until 1763, when it was restored to France as a fishing station. In 1778 it was again destroyed by the British, and in 1783 again restored to France. Ten years later it was again captured and depopulated by the British, and in 1802 it was recovered by the French, only to be recaptured by the British in the following year. In 1811 it was recovered by France, and since then has been a French possession.

For years St. Pierre has been a resort for the fishing vessels of New England, Nova Scotia, Spain and Portugal. In the old days most American and Canadian deep sea fishermen, after filling up with fish on the banks, called into St. Pierre to secure a supply of liquor for a carousal on the passage home. Not a few vessels leaving St. Pierre with full fares and full crews, failed to reach their home ports.

Liquor Smugglers. As a source of supply for liquor smugglers, St. Pierre has long worried the revenue officers of Canada and the Atlantic seaboard of the United States. All types of craft from steam yachts to fishing lugger have been engaged in smuggling operations from St. Pierre, though the natives have confined their enterprise to supplying the booze. Some years ago the French authorities by drastic measures had managed to restrict the supply of liquors available to a very small quantity, but since the advent of prohibition in eastern Canada and the United States, new methods of evading the stringent export regulations of the colony have been discovered and the activities of smugglers have caused revenue officers in neighboring countries much loss of sleep.

Since the war the Government of France has formulated some rather grandiose projects for the development of its fisheries, and has constructed a huge cold storage plant at St. Pierre and established a refrigerator steamship service with the colony. A few weeks ago the French Government sent out a "governor," a functionary of importance in the French colonial system, to take the place of the "administrator" who has been head of the colony since 1896. This change in the political establishment is regarded as significant as an indication of the French government's new interest in the development of the fisheries and of its determination to make the most of the strategic position of the islands, which are in proximity to Banqueduard and St. Pierre banks, and within forty-eight hours sail of the Grand

# KILMARTIN OF TERRACE GETS OFF ASSAULT

**Informant and Crown Witness Refused Give Incriminating Evidence Yesterday at Assizes.**

P. Kilmartin, of Terrace, charged on four counts of assaulting, beating and inflicting grievous bodily harm on Mrs. Clara Pickering, was found not guilty and discharged yesterday afternoon on appearing at the Supreme Court Assizes before Mr. Justice Macdonald. The informant and the main witness for the crown was Mrs. Pickering but no evidence as to actual assault was brought in so the jury, on the suggestion of the judge, returned a verdict of not guilty without leaving the court room. W. E. Fisher, of Fisher & Gughton, acted as crown prosecutor in the case and L. W. Patmore, of Patmore & Fulton, appeared for the defence. The jury comprised Charles Blythe, Sr., B. H. Crossen, C. R. Stewart, James Hampton, Harry W. Birch, W. E. Deming, W. Longwill, John Sunberg, Lindsay C. Eby, John Lambie, Michael Burke and J. Portantone.

**Was Intoxicated.**  
 Clara Pickering, the informant and the woman who was alleged to have been assaulted, was the first witness. On being questioned by Mr. Fisher, she testified to having lived with Kilmartin and having been in partnership with him. She could remember nothing of the alleged occurrence or the preliminary trial which followed it. She was so drunk that she had no idea of what had happened at the preliminary trial. She denied that she had been lying to get away from the present trial. When the subpoena to appear was served on her she was merely making a trip to Sudbush. She had given her word to Constable Baker to appear in Prince Rupert and she had meant to keep it. She did not remember ever having had any trouble with Kilmartin. She had been so drunk at the preliminary trial that she had to sit down.

"She said in the evidence that she was tapering off," interjected Mr. Justice Macdonald. Questioned by the judge she said that the bruises on her body had been caused when she fell down stairs in the Belmont rooms and the cuts on her finger had been caused by a broken

# Heart Would Beat like a TRIP HAMMER

Heart trouble has of late years become very prevalent. Sometimes a pain catches you in the region of the heart, now and then your heart skips beats, palpitates, throbs, or beats with such rapidity and violence you think it is going to burst.  
 You have weak and dizzy spells, sticking sensations, are nervous, irritable and depressed, and if you attempt to walk upstairs or any distance you get all out of breath.  
 We know of no remedy that will do so much to make the heart regain strength and vigor, regulate its beat and restore it to a healthy normal condition as will

**MILBURN'S HEART AND NERVE PILLS**  
 Mrs. Chadwick, Delhi, Ont., writes: "I had palpitation of the heart, and the least exercise, such as going upstairs or up a hill, my heart would beat like a trip-hammer, and at times I was dizzy-headed and had a sinking sensation as if my time were near."  
 "A friend suggested I try Milburn's Heart and Nerve Pills, so I procured three boxes, and by the time the first one was used I began to improve. In all I took six boxes, and now although in my 60th year I feel like a young girl; no dizziness or heart-thumping, and can walk miles without fatigue. At time of my sickness, I weighed 120 pounds, now I weigh 150."

beer bottle she thought. She did not remember a quarrel with Kilmartin or even sending for the doctor. All that occurred was a blank to her and she did not even know why she had been in the magistrate's court at Terrace. She had lived with Kilmartin since the argument. All she remembered was that there had been an argument and that she had been drunk and raising Cain.

**Doctor Testifies.**  
 Dr. Bleecker, of Terrace, testified that Clara Pickering had called on him on the evening in question. She had come alone to his office apparently from her home. She was in rather a hysterical condition and was half-crying and nervous. He had found small cuts and scratches on her fingers, a confusion on her high and red marks on her chest and neck. They had evidently been caused by rough handling. She did not appear to be drunk and was able to answer all questions clearly and reasonably. He had no doubt but that she knew what she was saying. She was clothed rather lightly in a house dress and slippers and her hair was disheveled. The doctor said he was at the preliminary trial and would say that she was in the same condition then as she was at the present trial.

"Isn't it a fact that she said she wanted to go back to Kilmartin right after the trial?" asked Mr. Patmore.  
 "I did not hear it."  
 "Couldn't the cuts on her fingers have been caused by a beer bottle?"  
 "They might have been."  
 In answer to a question by Mr. Fisher, Dr. Bleecker said that he had dressed her finger at 4 o'clock on the day of the trial and she did not appear to be drunk then.

**Officer's Evidence.**  
 W. Baker, special constable at Terrace, testified to having gone to Dr. Bleecker's office on the evening in question. He had found Mrs. Pickering and Dr. Bleecker there. The woman might have been drinking but she was not drunk. He had had a look at the bruises and had then got out a summons for Kilmartin. Going to Kilmartin's house with Mrs. Pickering, defendant had refused to admit her; to allow her to get her clothes. She had later gone to the hotel.

"Isn't the woman's normal condition one of drunkenness?" asked Mr. Patmore.  
 "She is drunk a good deal of the time."  
 He had not heard her say that she wanted to go back to Kilmartin.

"It was she who pressed the charge, was it not?" asked Mr. Justice Macdonald.  
 "Yes."  
 In answer to a question by Mr. Patmore, witness said that nothing had been said to him by the magistrate about arresting her for drunkenness.

The policeman's testimony completed the evidence in the case and the jury immediately brought in a verdict of not guilty.  
 "You're discharged," said Mr. Justice Macdonald, addressing the prisoner. "I was going to say something else but I won't."  
 The judge ordered that the notes of both trials be extended so that they might be sent to the attorney-general's department.

# LUMBER MILLS ARE FOR SALE

Also Two Planing Mills and a Shingle Mill Right in Prince Rupert.

With lumber moving up in price and with several lumber mills and planing mills to be sold at low prices this seems an unusually favorable time for any person to open up in business in this north country. It is stated that hemlock has advanced in price five dollars a thousand and that Japanese firms are purchasing it. There is a good demand for cedar in the Orient and spruce always will be saleable. In view of this there should be some business doing in the north before very long.

In addition to a number of lumber mills that can be purchased at very reasonable prices, there is a new planing mill at the Dry Dock as well as a recut saw and shingle mill with drying kilns. This mill can be purchased at well below cost.

There is another planing mill at Cow Bay belonging to the Kilers Brothers, which can be purchased at a very low price, and which has been used very little.

In view of the extreme probability of big developments here in the near future, the firm that goes into lumber manufacturing is likely to make good if the business is well managed.

Opportunities there are in plenty but there must be experienced men connected with the business.

Liver Pains

Pain under the shoulder blades tell of liver derangements. Other indications are salivation, indigestion, constipation, biliousness and bilious headaches. The quickest way to arouse the liver to healthy action is by use of Dr. Chase's Kidney-Liver Pills. Continued use will insure lasting relief, correct the whole digestive system and purify the blood. Mr. Wm. Barten, Hanover, Ont., writes: 'For some time I suffered from liver trouble. There was a hard, bearing feeling in my back which I could not get rid of. Some one advised me to use Dr. Chase's Kidney-Liver Pills. I had found them excellent. The dragging feeling in my back disappeared and I felt much benefited. I have great confidence in Dr. Chase's Kidney-Liver Pills, and they keep them on hand for general use. Dr. Chase's Kidney-Liver Pills, one pill a dose, 25c a box, all sizes, or Edmansons, Bates & Co. CIVIC RELIEF WORK STARTING

Matter of Unemployment Given Full Discussion Council Meeting Last Night.

Relief work for unemployment will be provided in the city within the next few days according to the statement of Ald. Kerr, chairman of the Board of Works, and other members of the city council at the meeting last evening. A report from the Board of Works recommending that a scheme be put into effect was adopted by the meeting. There was also a delegation representing the unemployed of the city in attendance. They urged the immediate putting into effect of relief work. The delegation comprised W. E. Dickens, W. Ormslow, O. White, B. Webster, E. Maynard and A. Morse. W. Ormslow, spokesman of the delegation, said that there were about 300 unemployed in the city now and there was nothing in sight for them. Unless something was done immediately there would be serious distress. In fact there were names of 58 presented at the meeting who needed immediate relief. He asked that four days a week be provided by the city at its regular rate of pay. W. E. Dickens asked that the committee be recognized as the only official one representing the unemployed so that the condition of last year when friends and acquaintances of the city staff were favored in giving work would be avoided.

Mayor's Announcement. Mayor Rochester explained that the Board of Works had been working on the matter for six or seven weeks but the ways and means provided by the government of assisting in permanent work means nothing here as they only offered to meet one third of the extra cost of doing the work in winter as against the summer. As the estimates had been exhausted and there was no money for permanent work, relief at the present would have to be confined to relief or temporary work. He thought that the findings of the board of works would be satisfactory to the committee.

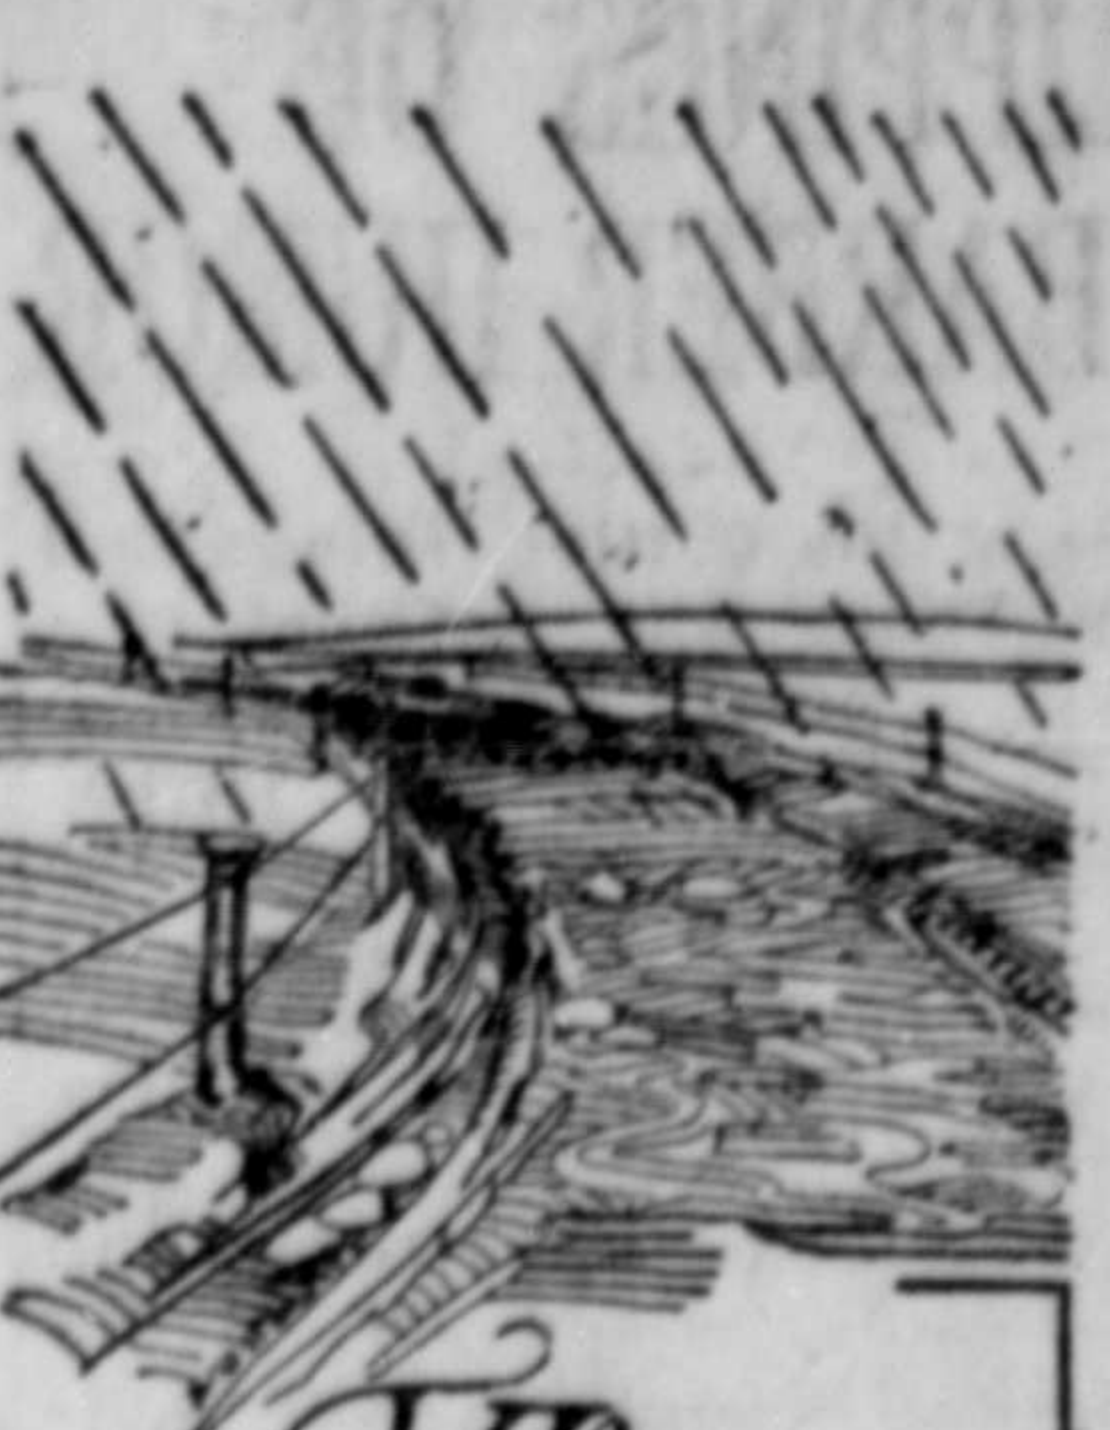

There is an erroneous idea held by many that it is up to the city council to find work for the unemployed but that is not the case. True it is the duty to take care of its destitute but it is not bound to function in the other way. At the same time we are going to try to alleviate the unemployment to the best of our ability although we cannot bind ourselves to provide a certain number of days' work per week as the delegation asks.

Three Days a Week. The report of the Board of Works went fully into the offer of the governments. There were two alternate courses; providing permanent work in which the participation of the governments as far as this place was concerned meant nothing, or a continuation of last year's scheme for temporary work in which the federal, municipal and civic governments each bore one-third of the cost.

Ald. Kerr said that it was proposed to adopt last year's scheme and that three six-hour days a week would be provided. The work would be under way in the course of a day or so and, although it would not be permanent, it would be good for the city. The Board of Works proposed to manage things so that a dollar's worth of work would be received for every dollar given out. The first places to be worked on would be Acropolis Hill and the Cemetery road. Married men would be given the preference and work would be given as the cases warranted it.

Ernest Maynard interjected with considerable heat and asked why men with two or three sons were given permanent work in the city when pioneer rate-payers were helpless. Mayor Rochester ruled him out of order, stating that if he had a personal matter to bring up, the committee was the proper place for it. "All right, I'll see you later then," said Mr. Maynard, reluctantly sitting down.

Over Optimistic. Ald. Parker, in moving the adoption of the report, said that the council should not be over optimistic about getting the work started so soon. The city engineer would not be here until

on your shoes

Be sure you get the genuine Phillips Military Soles and Heels—the kind the soldiers wore—avoid substitutes.

Only these wonderful rubber pads of comfort, lightness and perfect fit protect your shoes at every point of wear—make them last two to three times longer.

They give walking that buoyancy which comes from shock completely absorbed, firm, spring-like pacing, every step secure.

In all shoe sizes at your dealer or representative—fitted for you.

SWIMMING TANK PROJECT IS LAID OVER NEXT YEAR

Letter From School Board and Delegation from Rotary Club at Council Meeting.

The matter of the city making a grant of \$2,500 towards the installation of a swimming tank at the William Booth School was referred by the council last night to the incoming council. A letter from the School Board and a delegation comprising J. W. Nicholls, Col. S. P. McMordeie and F. G. Dawson supporting the grant being made, were received.

The letter of the School Board explained that the Rotary Club proposed to raise \$2,500 for the purpose if the city would put up the other \$2,500.

J. W. Nicholls was the first speaker of the delegation and he pointed out generally the desirability of the installation of the tank.

Ald. Parker said he viewed the matter with favor but felt as there was nothing available in the present estimates, it would be better to refer it to the incoming council. He moved to this effect.

Ald. McNeill said that there was no doubt of the need of the tank, but he would like to have the estimate of a hearing engineer on it. He doubted if the \$5000 would cover the cost of installation.

Already Swimming. Ald. Kelly seconded Ald. Parker's motion and favored the project. It hardly seemed necessary in the Booth School, however. He understood the children were already swimming there. He had it on good authority that the children were leaving on account of leaks in the building. Still they were proposing putting in a swimming tank there. Personally, he did not want to see a single dollar spent now unless it was for relief work.

Col. McMordeie stated that if the aldermen had studied the heating system of the school they would see that \$5,000 would cover the cost of installation of the tank. The present heating system there was fully capable of heating the water in the tank without undue strain.

"Regarding the alderman who commented on the condition of the school," concluded Col. McMordeie, "I think he would be well advised to investigate the facts before he gets up and makes statements in a public meeting which are untruthful."

F. G. Dawson spoke briefly urging a favorable decision by the council.

All in Favor. Mayor Rochester said that he thought each and every alderman favored the installation of the swimming tank but he did not think any of them would like to create a precedent by telling the next council what it should do. All they could do now was to give the matter their moral support.

The motion referring it to the incoming council was then put and carried unanimously.

**Why it is Good**  
  
 Quite often we are asked why Pacific Milk has a flavor so much like fresh, sweet cream. Pacific, it is because of our improved processes, but much is due to the milk itself which comes from the famous dairy herds of the Fraser Valley. The quality of Pacific Milk remains high, because the dairying standards are high, and under no conditions would we try to change this quality.

**SLEEPY VICTORIA STIRRED BY POLICE COMMISSIONERS; GREAT CAMPAIGN MEETING.**

(Continued from Page One.)  
 activities are in reverse gear."  
 The speaker read a report of Chief Fry, who said that gambling at present was closely restricted, that Victoria was freer than any other B. C. city from illicit liquor sales, and that the general standard of police work now was excellent.

First of all their enemies had tried to ridicule the police commissioners, Dr. Hall proceeded. Then they tried to frighten them; then bribe them and finally flatter them. He said that the Payne investigation has shown that apparently there was some collusion between bootleggers and the city detectives.

Paid informers worked against the police chief and the commissioners, said Dr. Hall. One of these informers found himself in jail one morning.  
 "Then they lobbied for a change in the act to make the police commission non-elective—the meanest thing of all."

Dr. Hall warmly praised Mr. Stanland, who he said was strict.

ly independent, pledged to nothing, and more conservative than himself. "With Mr. Stanland in my place and Mr. Marchant in the place of the man who does his very best to obstruct us in every movement forward we will have an efficient board next year," he predicted.

**Balked by Mayor.**  
 He said that his efforts to expand Miss Wark's valuable work among the boys and girls of the city had been continually balked by the mayor—"the balkiest mayor I have ever seen in my life." He declared that Mr. Porter had "no reason under heaven to exist as chief magistrate of a city like this."

**The Dismissal Charge.**  
 "You elected us to attend to certain duties; we swore to administer that office faithfully and to the best of our ability. Have we not done so? Have we grown wealthy from the spoils of office?" asked Dr. Hall. Mr. North and I could have had from \$1000 to \$1500 per month, had we said so, for the office is worth that when the favors are discreetly farmed out. Our hands are clean; not only have we made nothing, but we are out of pocket many hundreds of dollars in our attempt to serve you."

**"The Den of Iniquity."**  
 "And now the question has become a larger one. With the gambling, liquor and the sporting element arrayed with the men whom we have considered best to remove from the city's employ, it now becomes a contest between the progressives and the stand-patters—between those who desire to see a city safe for boys and girls, or a den of iniquity whose human life is bartered for Chinese gold—a fight between those who would make Victoria a city of homes and those who would fill it with hell holes and make it unsafe."

**CHEAP PHILANTHROPY.**  
 A greengrocer on issuing from the house of a talkative customer was surprised to see his pony in charge of a well-dressed little boy who was feeding the animal with apples. Pleased at the idea of the horse getting an excellent meal at no cost to himself, the man patted the boy on the head. "That's right," he said, "always be good to animals. Now, where did you buy them apples?"  
 "I didn't buy them," the boy answered; "I took them out of our cat!"

**HEADS That Ache and Pain**

It is hard to drag along with a head that aches and pains all the time.  
 In nine cases out of ten, persistent headaches are due to poisoned blood, the blood being rendered impure through some derangement of the stomach, liver or bowels, but no matter which organ is to blame the cause must be removed before permanent relief can be obtained.  
**BURDOCK BLOOD BITTERS** which has been on the market for the past forty-five years, removes the cause of the headache by starting the organs of elimination acting freely, and when the impurities are carried off from the system, purified blood circulates in the brain cells, and the aches and pains vanish.

Miss Clara Murphy, Centre Butcher, Ont., writes:—"My system was greatly run down and my blood out of order. I suffered a great deal from severe pains in my head which made me feel very miserable. After having tried other remedies I purchased a bottle of Burdock Blood Bitters, and was very glad to notice a decided improvement in my health. I took another bottle and it has done me an enormous amount of good. I have recommended it to some of my friends who were in a similar condition and they all say it is a wonderful remedy."

**CLIPPINGS OF BARBER HUMOR**

Some of the Cutting Things Said by Those who Respond to order "Next."

Wielders of the scissors and the keen-edged razor blade are acquaintances if not the close friends of all the men folk. The feeling of friendship is not emphasized too strongly because of the talking proclivities of the white-coated workers which often prove victims. And, it may be necessary to refrain from limiting the domain of the barber to men in deference to the craze, or of love, or whatever you may call it, that women of today have for bobbed hair. With women customers the barbers have more competition in their talk-fests, usually rendered without request during the cutting process. Cutting is used rather advisably, for it sometimes happens that the razor slips with results quite cutting. Since barbers are joke-tellers it's only fair that they should be joked about in return. Such funnisms created fun for all. To give our readers a few barber shop laughs here are some specimens from the current press.

**Cutting Remarks.**

**This is Hair-able.**  
 "Why do you insist upon telling horrible stories of ghosts and robbers while cutting my hair?" said a long-suffering customer to a talkative barber.  
 "I'm sorry sir," replied the barber, "but you see, when I tell stories like that to my customers their hair stands up on end and makes it ever so much easier to cut."—Grandford Spark.
