PRINCE RUPERT
SPECIAL MINING EDITION

PRINCE RUPERT, B. C., FRIDAY, SEPTEMBER 16, 1921. Yesterday's Circulation 1,805. Street Sales 428. PRICE FIVE CENTS

Progress and Prospects of Mining LOYD GEORGE BACKED BY BRITISH NEWSPAPERS IN HIS STAND

East Mines Are Shipping Steadily Several Centres

South, east and west of Prince Rupert lie vast mineral fields which are slowly but surely being explored and developed, and some day will be operating producing mines as great as the world has ever known. The mining industry as far as the Central British Columbia is concerned is as yet in its infancy. The infant, however, is a mighty large one and only a matter of time when the work of development has been carried out and the untold wealth is uncovered.

GENERAL LEONARD WOOD PHILIPPINES

President of New Governor
is Soon—Smart Work
of Reporter.

VICTORIA, Sept. 16.—At a direct from a per-
ference with President
of the White House,
Queen of the Philip-
pines made an impor-
tant announcement of international
importance. He stated that
harding had not yet
this mind on the ques-
tion of Philippine indepen-
dence announced that Major-
General Leonard Wood would
be Governor of the
Philippines and that Washington
is a formal announce-
ment of the opening of Con-
gress on October 10.
He was interviewed by a
World reporter
before her sailing yes-
terday. After eluding the news-
man from Washington to
the Queen congratulated
her on his enterprise.

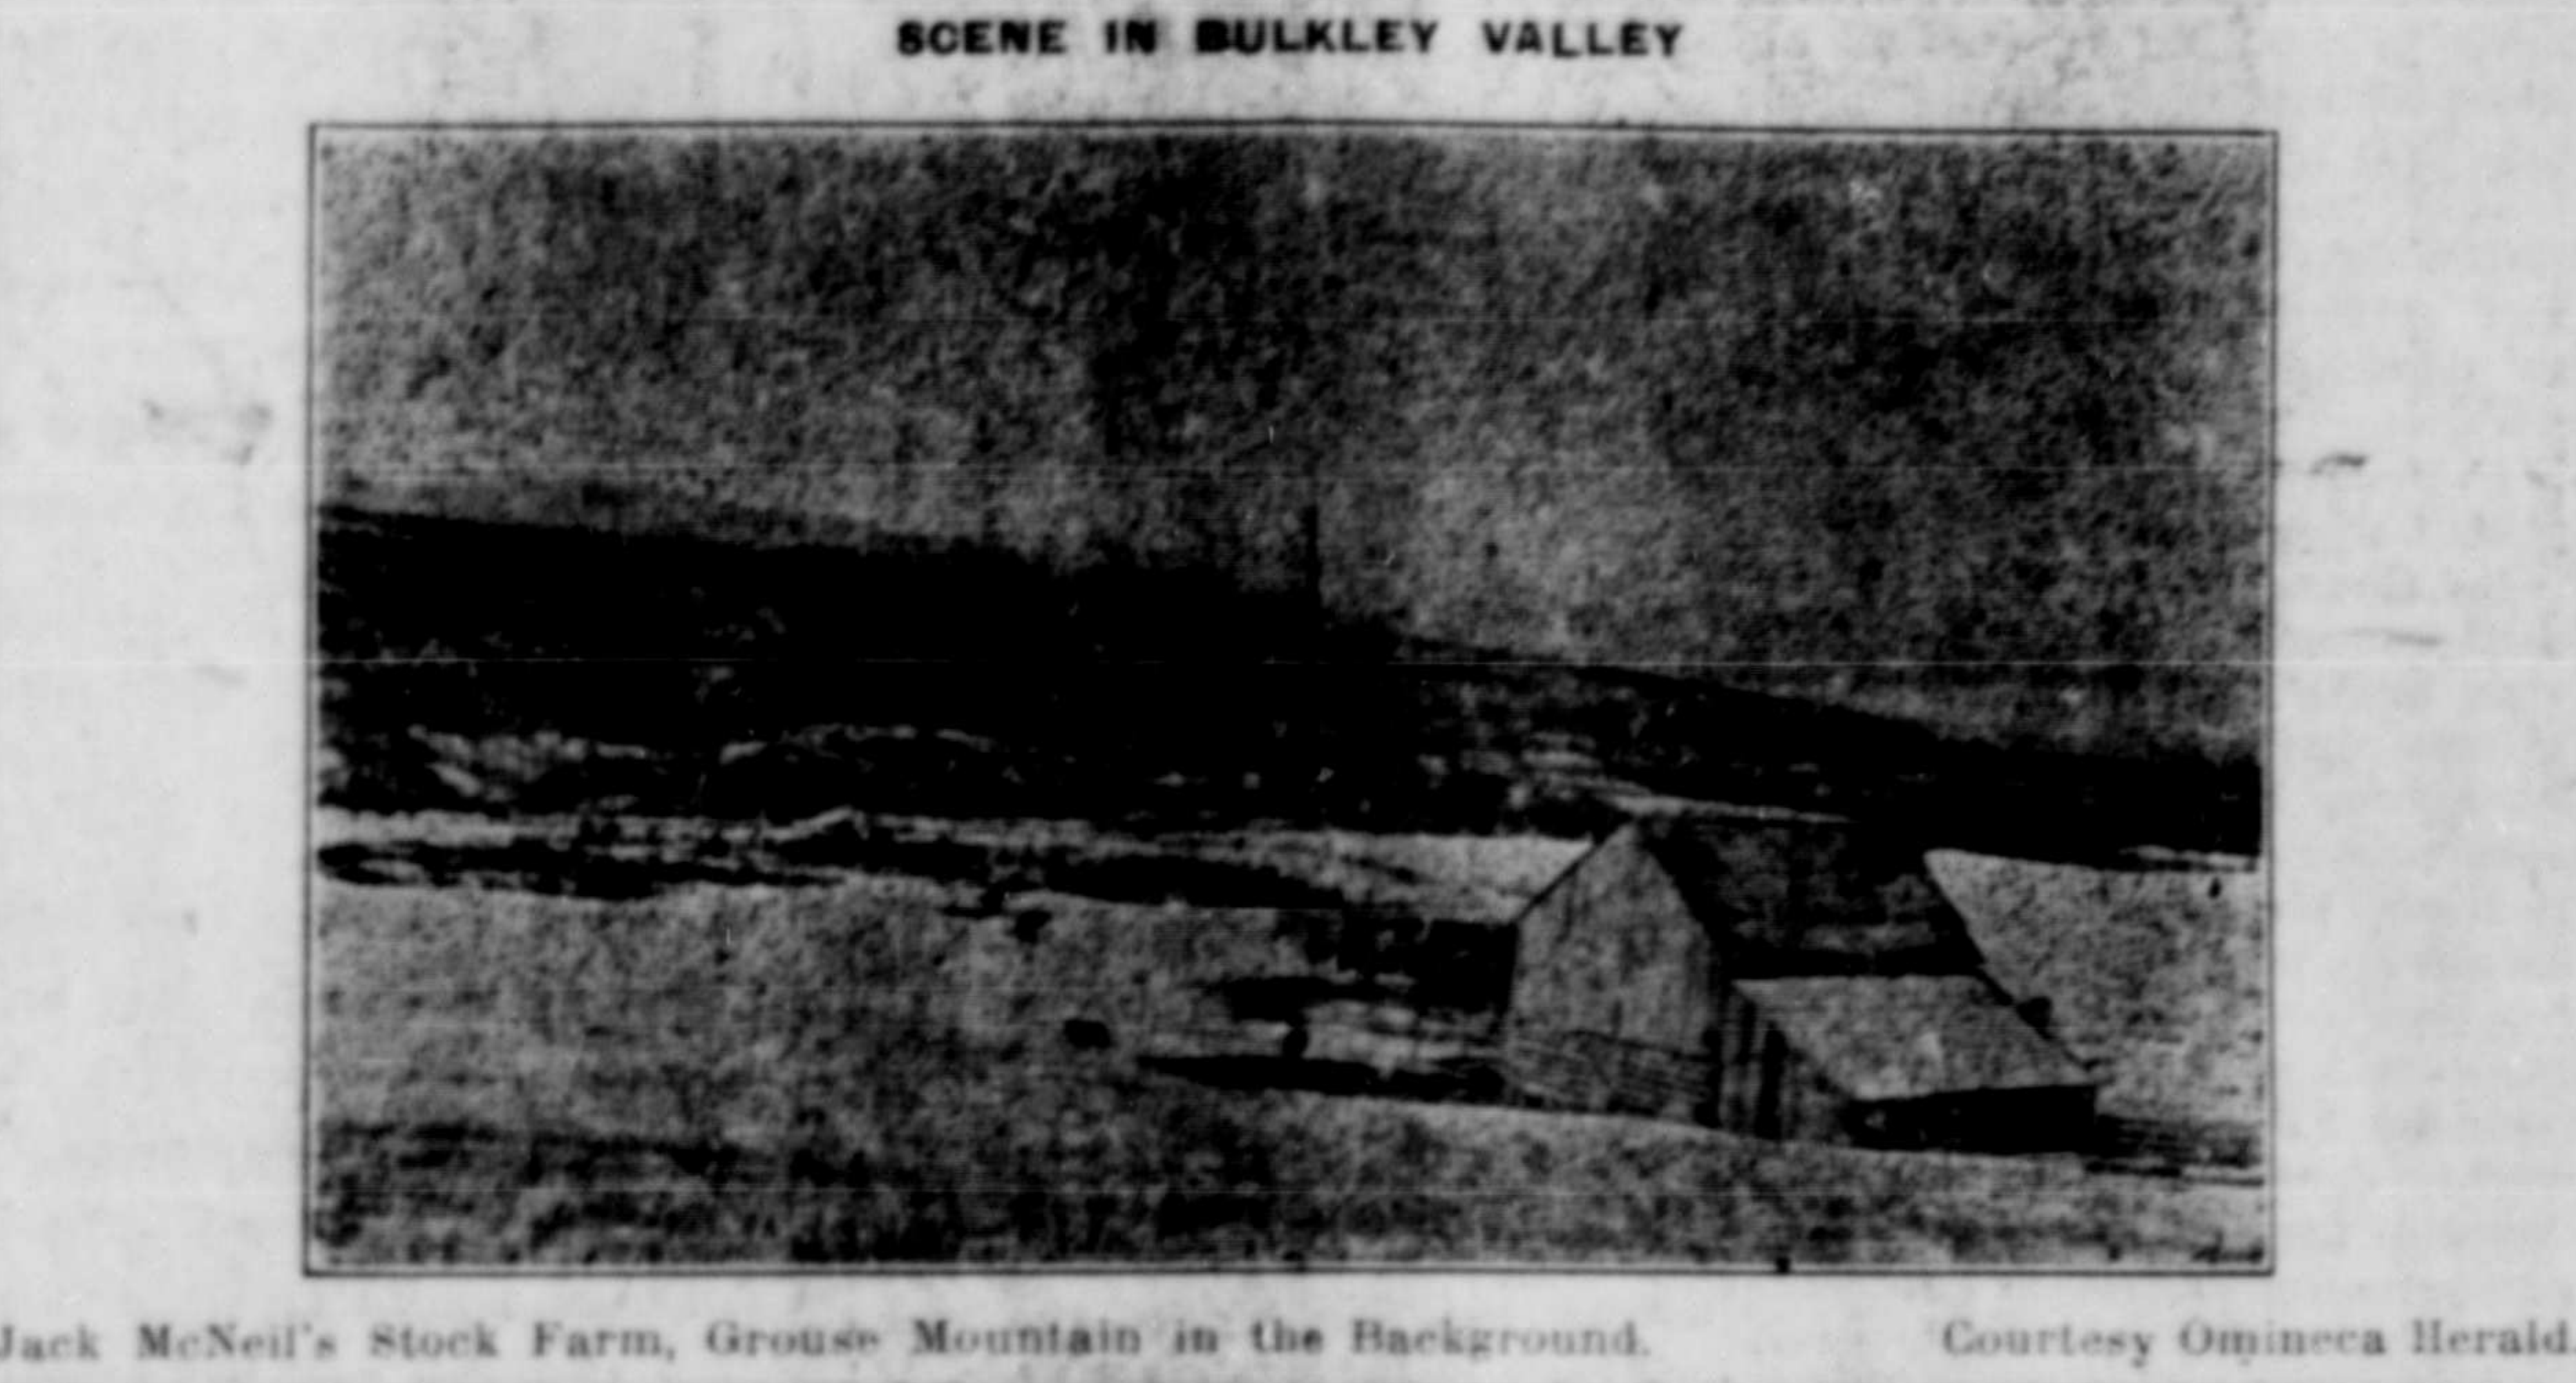

ROSE ROUND WORLD FLIGHT

Smith to Make First
Stop at Prince
George.

PRINCE GEORGE, Sept. 16.—The first
world airplane trip is
being made by Sir Ross Smith, a
man who last summer suc-
cessfully negotiated a flight from
Australia. It is under-
stood that the first flight
will be made before
the end of the month.
Sir Ross takes with
him a crew of four, includ-
ing a Canadian, and to Cape
Horn, starting from England
by way of Europe, Mesopotamia,
India, Japan, across Beh-
ring Sea, Alaska, thence down
the coast to British Columbia,
making the first Canadian
stop at Prince George.

SCHOONER IS BURNED ON WATER'S EDGE

PRINCE GEORGE, Sept. 16.—Wire-
less messages were broadcasted
by United States wire-
less stations that the power
boat Lotus had been burn-
ed on the water's edge and was
a menace to shipping
on the coast.

Jack McNeil's Stock Farm, Grouse Mountain in the Background. Courtesy Omineca Herald.

TONIGHT AT THE EXHIBITION

- 7 p.m.—Grand Concert in
Carnival Grounds by
band until dance starts.
- 9 p.m.—Grand Carnival
Dance in Exhibition
Building. Prizes for the

for best comic cos-
tumes, ladies and gen-
tlemen. All booth
holders and concession
holders will be in cos-
tume. Admission, gen-
tlemen 50c, ladies 25c,
children free.
- Saturday.
- 2 p.m.—Basketball, don-
key, head, Prince Rupert-
Prince George Amv.
- 5 p.m.—Speed boat race,
four entries, Campbell
Cup.
- 7:30 p.m.—Band Contest,
Exhibition Building.
Presentation of cups
and dancing.

SHANTUNG STILL IS CONTENTION

Japan intimates May Refuse to
Discuss Matter at Washing-
ton Conference.

TOKYO, Sept. 16.—It is in-
timated in responsible circles that
if China declines the recent pro-
posal of Japan in regard to
turning over to China of Shan-
tung, which the Government
considers reasonable, Japan may
refuse to discuss the Shantung
question at the Washington con-
ference.

BENNETT TO BE AN INDEPENDENT

Former C.P.R. Counsel Deserts
Meighen Party and Refuses
Nomination.

CALGARY, Sept. 16.—It is an-
nounced here that W. B. Ben-
nett, K.C., will not accept the
nomination of the Liberal Con-
servative party in West Calgary
federal election, but will run as
an independent. This is ac-
cepted as definite evidence that Mr.
Bennett has refused a place in the
Meighen cabinet.

RIOTING RENEWED BELFAST YESTERDAY

BELFAST, Sept. 16.—Rioting
was renewed in North Queen
Street yesterday afternoon. Two
women were wounded. Troops
were called out and swarmed
through the district.

Irish Make No Concessions Hence the Cancellation of Arrangements for Meeting

LONDON, Sept. 16.—In the reply sent yesterday to De Valera
Premier Lloyd George said despite his repeated warnings that
reiteration of the Irish claim to negotiate as representatives of an
independent and sovereign state would make the conference
impossible, De Valera's letter repeating this claim had been pub-
lished in its original form. The new situation thus created had
rendered it necessary to cancel arrangements for the Inverness
conference.

The Premier will consult with his colleagues on a course of
action and will communicate this to De Valera at as early a date
as possible.

Continuing Lloyd George said: "The great concessions His
Majesty's Government made to the feeling of your people in order
to secure a lasting settlement deserved in my opinion a more
generous response, but so far every advance has been made by us.
You have not come to meet us by a single step, but merely
reiterated in phrases of emphatic challenge the letter and spirit
of your original claim."

LIST OF PRODUCING MINES IN PRINCE RUPERT MINING DISTRICT, 1920

The following is a list of the producing mines in Prince
Rupert Mining District in 1920 and their output:

Name	Ore Mined Tons	Gold Ounces	Silver Ounces	Copper Pounds
Granby	838,453	9,330	439,806	25,104,950
Golskeish	3,454	475	1,960	
Dolly Varden	28,937		831,638	
Esperanza	18	4	3,778	
Premier	799	2,283	77,180	
Patterson	9	11	17	
Ikedo	141	27	305	21,088
Drum Lumber	1,000	35	928	42,109
Surf Inlet	108,082	44,051	20,104	685,259
1920 totals	979,993	56,246	1,375,726	26,153,406
1919 totals	758,857	60,076	920,413	20,411,421
Increase	221,136		455,313	5,741,985
Decrease		3,820		

ORE BUNKERS AT ALICE ARM

This is the port through which the Dolly Varden Mine ships its ore,
and in the future there will be a dozen, possibly a hundred, shipping
mines adjacent to the town. The Provincial Government has recently
built a road to connect the town with the wharf which is about to
be built by the Dominion.

Vancouver Man Becomes Baron Does Not Want It

VANCOUVER, Sept. 16.—"I don't want the title unless the
estate comes with it," said Alan T. Galbraith, Burrard Street, this
city, when his attention was drawn this morning to a private
telegram from Toronto declaring that his claim to the Barony of
Oliphant at Fask, Perthshire, Scotland, had been officially
acknowledged by King George.

Galbraith, who is well known in the province as the former
sheriff of Ashcroft, said he had never entered a claim, but that
his mother, Mrs. Ella Cummings Oliphant, had been working on
the matter for several years,
having changed her own name
from Mrs. Galbraith for the
purpose of strengthening her
claim. Her two other sons fol-
lowed suit, but Mr. Galbraith,
although he will be chief bene-
ficiary, refused to do so, and
still refuses unless the estate
goes with the title.

Direct Descendant. Mrs. Oliphant was able to produce for the perusal of the House of Lords records proving that she was the direct lineal descendant of William, a Scot- tish noble, who was created first Baron of Oliphant of Fask by Robert the Bruce. The barony was later declared vacant and the title advertised for. The estate passed into the hands of George Buchanan, a well known jam manufacturer.

"A title is only a handicap for
a man not able to support it,"
said Galbraith. "It looks foolish
for a man to go around with a
handle on his name like that."
He himself has never had any
official correspondence on the
subject.

GIANTS HAD EIGHT STRAIGHT GAMES; AHEAD PITTSBURG

NEW YORK, Sept. 16.—
The New York Giants yes-
terday completed a run of
winning eight straight
games, thus gaining one
full game on Pittsburgh in
the National race.

The crucial series of
three games is scheduled
to open at Pittsburgh today
between the two leading
teams. To take the lead
from New York Pittsburgh
must win all three.

The Cleveland Ameri-
cans kept at the heels of
the Yankees by twice win-
ning from Philadelphia,
while the Yankees dupli-
cated the feat of taking a
double header from St.
Louis.

ARBUCKLE CASE IS SET OVER

Will Be Heard on Thursday of
Next Week Court Decides.

SAN FRANCISCO, Sept. 16.—
District Attorney Brady an-
nounced in the police court that
"The people are ready to pro-
ceed on the murder charge"
against Roscoe Arbuckle, who is
held responsible for the death
of Miss Virginia Rappe.

The case was continued un-
til next Thursday. Arbuckle's
counsel asked ten days contin-
uance but Brady objected, saying
five days was sufficient.

A crowd of men tried to rush
the court room door just before
the hearing started but were
headed off by the police.

BOLSHEVIKI DECLARE WAS FRENCH PLOT

France Was to Back Poland and
Roumania in Demands on
Russia.

RIGA, Sept. 16.—The Bolsh-
eviki foreign office announces it
has information that the French
ambassador at Warsaw on Sep-
tember 3 submitted a note to the
Polish Government proposing
that Poland and Roumania seize
the opportunity of the famine
to present maximum demands on
Soviet Russia and in the event
of refusal threatening war in
which France would co-operate
if the demands were refused.

Poland and Roumania refused
to go as far as incurring danger
of war, although both were in
line with the French policy
generally.

REUNION OF COQUALEETZA PUPILS HELD

Affair in Methodist Church Last
Night Accompanied by Usual
Enthusiasm.

The annual reunion banquet of
the graduates and ex-pupils of
Coqualeetza Institute and other
native industrial schools in the
province took place last night in
the basement of the Methodist
Church. There were about forty-
five persons in attendance, includ-
ing, for the first time, some of the
girl graduates of the Crosby Girls'
Home at Port Simpson. On ac-
count of the failure of the Queen
Charlotte Island boat service this
week and for other reasons, there
was not such a large attendance
as usual. The affair was none
the less enthusiastic and success-
ful, however, and went off with
the usual enjoyment and soci-
ability.

Rev. George H. Raley, principal
of the Coqualeetza Institute, who
comes here every year especially
to be present at the reunion, was
in charge as toastmaster. The
beautiful floral decorations of the
hall were commented on by all.
Some of the flowers came from
Coqualeetza, but most of them
were supplied locally. The Ladies'
Aid of the Methodist Church had
charge of the tables and the
spread was a credit to them.
Among the guests of honor were
Miss Miles, superintendent of the
school at Port Simpson; Mrs. Mc-
Leod, of New York city, and Dr.
and Mrs. Knight, of Victoria.

Musical numbers were rendered
by Mrs. Stanley Bennett, Miss
Davies, Rev. E. A. Coulter, H.
Higgins and A. J. Lancaster.

The toast list was as follows:
"To Coqualeetza," proposed by
(Continued on Page Six.)

DAILY EDITION

Friday, September 16, 1921

Mining Will Be Industry of Future.

Mining will be the big industry of the future, not only on the coast at Alice Arm and Anyox and Stewart, but also in the interior at Kitsumkalum Lake, Terrace, Usk, Smithers and other places in the neighborhood. That is the opinion of a great many people who interest themselves in that line of activity. The day is undoubtedly coming when the whole of the North country will be humming with the activity caused by the development of mining properties and by shipping of ore to the smelters.

Will Prince Rupert Have a Smelter?

Will Prince Rupert have a smelter? The question is often asked by mining men who recognize that this place is more favorably situated than any other to handle ores from any part of the country, either interior or coast. The smelter has to be on the railway and on tidewater, and where the two meet is Prince Rupert. It is the place for the industry to be located.

Claim Prince Rupert Is Not Interested.

The farmers of the interior often claim that Prince Rupert is not interested in them, and the miners also make the same claim. As a matter of fact Prince Rupert is trying to serve everybody in the best way it knows. Each individual in the city is a worker and trying to make a living by serving the public either of the city or country. They have not perhaps that leisure for travel which is desirable nor can they invest money in the various development schemes of the district. They need it all in their own business. To say they are not interested in the outside is, however, to give a false impression. Hardly any meeting of the Board of Trade or of any other public body is without evidences that the whole district is being carefully considered all the time by the majority of the residents of the city.

Centre for Many Industries.

One of the great features about Prince Rupert is that it is the centre for many industries. Not only has it fishing, mining and shipbuilding, but not far away is the largest area of farming land in British Columbia. In that country extending from Kitsumkalum to Prince George farms are being taken up, land is being cleared and everything points to a large, permanent and prosperous settlement. It is a country flowing with milk and honey, especially milk, and in future the milk business will be developed to such an extent that it will be known throughout the country. While there is at present only one creamery, others will spring up. In fact more than one is already planned, Francois and Ootsa Lakes particularly being mentioned as points where creameries should be established soon.

The survey of the farming country written by Mr. Manson in yesterday's number of The Daily News is very complete and is deserving of a larger circulation than the few thousands we can give.

Lands Near by Should Be Productive.

While it is customary to look only to Kitsumkalum and beyond for good agricultural and garden land, in the Skeena Valley there are a number of smaller tracts this side of Terrace, and there are also Smith Island, Porcher Island and a number of other islands that may prove valuable in future for agricultural purposes. Were it not for the reserve placed on the best spots for Indian purposes the city would be provided with garden stuff from the lands of the immediate neighborhood.

GRIFFITH PICTURE WESTHOLME TONIGHT

The master screen craftsman, David Wark Griffith, producer of the screen's greatest sensations, creator of the most advanced innovations in motion picture productions, finder and developer of the world's greatest screen stars, has produced another wonderful production, "The Love Flower," which is being heralded everywhere as a creation of exquisite beauty, haunting charm and spirited drama. It will be shown at the Westholme tonight.

Words of the most superlative degree and descriptions of the most laudatory nature have not been found to express in adequate terms this wonderful picture play of love and adventure such as only a Griffith, a master, may reveal in all its beauty, strength and excitement. Critics have pronounced it one of the most remarkable productions that has ever come from this master hand and fans everywhere have revelled in its beauty and excitement and heralded it as a production comparable only with the most wonderful that has come to the screen in the past few years.

Its theme primarily is of unusual interest, interwoven with side lights of intricate complications that, add materially to its action, its heart interest, its suspense and its ultimate justification, for it is an unusually dramatic story of the wonderful love of a daughter for her heart-broken father, who being hounded to the very end of the world, dares to plan the undoing of the man who is desirous of bringing ultimate disgrace upon the very light of her heart and soul and unhappiness to her every thought.

Not one woman in ten thousand would do what this daughter dared to do to save her father. Not one person of her sex in many times that number would have clung to the heart strings of her parents, through their many trials and tribulations, with every atom of the strength of her frail body, as did this girl of nature, this child of all that was good and true and wholesome. Gratitude is the rosemary of the heart, but greater love has no one than they that would willingly give their life to save another. Yet this girl, without the knowledge of her father, plotted to give away all that was near and dear to her even to the extent of her own life, to save for him a few more happy days on earth.

AUSTRALIANS ARE REFUSING TO PAY TAXES IN NORTH

ADELAIDE, Sept. 16.—Many residents of Northern Australia have been imprisoned for refusal to pay their taxes. Government officials say a state of terrorism prevails there. The Government is adopting a stringent method of dealing with defaulters and is deporting those who refuse to pay.

TERRACE CENTRE MUCH MINING

Rich Ores Are Being Found at Kitsumkalum and Staking of Oil Proceeds.

TERRACE, Sept. 16.—The district of which Terrace is the centre is coming well to the fore as a mineralized region that will very soon have a number of producing mines, according to latest advices. Especially is that true of the region around Kitsumkalum, where much prospecting has been conducted quietly for a number of years and where of late some fine ore has been taken out that assays so high that the results are almost unbelievable.

There is an air of mystery about the latest finds. Mining men whisper together, but they refuse to give details, yet there is leaking out the news that rich ores have been recently found. There are large quantities of it and a stamp mill is to be taken in there very soon to work the prospects and show that they are really mines.

On the Copper Mountain there is still a good deal of interest taken in the showings. Each year when the men retire from doing their assessment work they bring new tales of the richness of the ore and its large extent, but little has been done there so far owing to the lack of transportation.

Staking Oil.

Oil is of course the one subject of conversation where men congregate. There has been a great deal of staking recently in the Kitsumkalum Valley, and the district is pretty well blanketed following the floating of the first company in the early summer.

VITAL PARTS NOT SURFACE

Dr. Grant Urges Support of Church Because of Its Fundamental Value.

"What the world needs is something that touches the vital parts," declared Dr. Grant in a short address to the Rotary Club at its luncheon yesterday. Most people were trying to cure the symptoms, whereas the only method of improvement was to strike at the causes. Some conditions in the world were appalling. He illustrated this by references to social life and to the relations between capital and labor.

The speaker claimed that the strength which made for the power of the Anglo Saxon world was being sapped. Germany before the war was worshipping the god of war hence their ruthlessness. They forgot the God of fifty years ago.

Integrity Is Strength.

The British in all their muddling got through because they were backed by the power of every nation believing in justice and right. He claimed that the integrity of its men was the strength of the nation.

Dr. Grant then made a plea for support of the church, not his own church but the church generally. He urged that the best product that went into society came from the church and there was no institution on earth that should be supported like it.

VANDERHOOF

H. L. McKenny, one of our local baseball players, left Thursday morning with the Prince George baseball boys, for Prince Rupert, to cheer them on in the battle for the baseball championship of Northern B. C.

R. Moore, J. M. Johnstone and S. Calkin motored to Prince George on Monday afternoon, to attend the Prince George exhibition.

Thomas Smithers, Lem Hay and H. Stangebye of Vanderhoof, are at Endako building a house for W. J. Kyle, the Grand Trunk Pacific station agent.

Mrs. W. M. Blackstock, wife of the manager of the Canadian Bank of Commerce, arrived on Sunday morning, with her small daughter, from Vancouver.

Miss M. Thompson is expected to return some time this week, from Napinka, Manitoba.

Auctioneers

When you sell goods by private sale you eliminate competition. It is human nature for an individual to bid a higher price against competition.

If you wish to dispose of any article, send it to us. Sales held at private residences or at our Auction Rooms, Pattullo Block, Second Avenue.

Coal

The Mountain Park Steam and Furnace Coal has been tested by the largest local firms and business houses, and the opinion is unanimous that it is a first-class steam and furnace coal. We only ask you to give it a fair trial. We know that this coal has great heating and lasting power, and the price compares favorably with any other coal in town.

It is not our business or our policy to "boost" a coal which is not satisfactory.

Insurance

of all kinds
It is useless to "cry over spilt milk." The city has been exceptionally free from serious outbreak of fire, but don't let it lull you into a false sense of security. Fires happen at the most unexpected times and places. You cannot be too careful for the people "next door" insurance companies will be. Ask us for rates.

Steel Wire Ropes

Stocks Carried
You cannot beat the price and quality of our "STERWEB" brand wire ropes. Purchase direct from the manufacturer. We are "out" to get the business. Price our ropes accordingly.

We also sell

Finest Quality Manilla Ropes

Galvanized Materials of All Descriptions; Steel, Cast and Wrought Iron Piping; Asphalt Roofing.

WE HAVE ONE POLICY
IN OUR BUSINESS—
STRAIGHTFORWARDNESS

RUTH BROKE RECORD.

NEW YORK, Sept. 16.—Babe Ruth broke his home run record when he hit his 55th in the first game against St. Louis yesterday.

ganese and molybdenite.

The establishment of an iron smelter on Kaien Island is becoming a live question. Prince Rupert is not the only place that is going after it but its advantages, about which Mr. Garde is telling, make it one of the most likely places to get it. Mr. Garde is particularly working on the establishment of a pig iron smelter. Steel production, he says, would take care of itself. The industry would be one of the greatest the city could have and one for which it has every advantage to offer. It would behoove all to go and hear Mr. Garde tell about it and then get behind him and advertise it at every hand.

LAND ACT.

NOTICE OF INTENTION TO APPLY TO PURCHASE LAND.
In the Range V. Coast Land District, Recording District of Prince Rupert, and situated on Lakelse Lake.
Take notice that Frederick Davison Mulholland, of Prince Rupert, occupation for ester, intends to apply for permission to purchase the following described lands:
Commencing at a post planted at the southeast corner of L. 5159, thence east about 40 chains to shore of lake, thence westerly along shore and across mouth of Clearwater Creek to point of commencement and containing six acres, more or less.
July 20th, 1921. F. D. MULHOLLAND.

CANCELLATION OF RESERVE.

Notice is hereby given that the reserve against the acquisition of Coal under the "Coal and Petroleum Act" established by notice dated 15th of February, 1920, and published in the British Columbia Gazette on the 19th of February, 1920, is cancelled, except in so far as the same relates to the following areas:

1. All the lands lying within the boundaries of the drainage areas of the Skeena River above and including Ouzi Creek, the East Fork of the Nass River, the Little Klappen River, and the Spatsizi River, above and including Klappet and Indian Creeks.

2. All the lands lying within the boundaries of the said reserve to its southwest corner, thence north following the west boundary of the said reserve to its northeast corner, thence east along the south boundary of the said reserve to the south boundary of Township 37, 41 and 44 to the Pacific Ocean, and including all the lands and interests therein.

3. The cancellation of this reserve shall not take effect until notice of such cancellation is published in the British Columbia Gazette and in a newspaper published or circulating in each of the Land Registration Districts of the Province of B. C.

This notice shall in no wise affect the reserve against the acquisition of Coal, Petroleum and Natural Gas in the Peace River District, established by notice in the British Columbia Gazette on the 27th of March, 1919, which reserve is still in force and effect.

G. R. NADEN,
Deputy Minister of Lands,
Victoria, B. C.,
July 20th, 1921.

THE BANKRUPTCY ACT.

IN THE ESTATE OF TUCKS INLET BY-PRODUCTS LIMITED, BANKRUPT.

NOTICE is hereby given that TUCKS INLET BY-PRODUCTS LIMITED of Prince Rupert, B. C., was adjudged bankrupt and a Receiver Order made in favor of the undersigned on the 17th day of August, 1921.

Notice is further given that the first meeting of Creditors in the above Estate will be held in the Office of Messrs. Bore & Small, Chartered Accountants, Federal Building, Prince Rupert, B. C., on the 21st day of September, 1921, at 2:30 p.m.

To entitle you to vote thereat, proof of your claim must be lodged with me before March 19th is held.

Proxies to be used at the meeting must be lodged with me prior thereto.

And further take notice that if you have any claim against the debtor for which you are entitled to rank, proof of such claim must be filed with me within thirty days from the date of this notice, for from and after the expiration of the time fixed by Subsection 8 of Section 37 of the said Act, I shall distribute the proceeds of the debtor's estate among the parties entitled thereto, having regard only to the claims of which I have then notice.

DATED at Prince Rupert, B. C., this Seventh day of September, 1921.

GEORGE BORE, Authorized Trustee.

Federal Building, Prince Rupert, B. C.

LAND ACT.

NOTICE OF INTENTION TO APPLY TO LEASE LAND.
In Range 5, Coast Land District, Recording District of Prince Rupert, and situated on Dennis Arm.

Take notice that I, Claud C. Ketchum, of Prince Rupert, B. C., occupation master mariner, intend to apply for permission to lease the following described lands:

Commencing at a post planted about 2000 feet from head of Dennis Arm Inlet, thence 20 chains north, thence 20 chains west, thence 30 chains south, thence 20 chains east, and containing 40 acres, more or less.

C. C. KETCHUM.

Garde Explains at Exhibition Natural and Economic Reasons For Iron Smelter Nearby City

There is no department of this year's exhibition that is more important to Prince Rupert and the district generally than the corner occupied by A. G. Garde, M.E., where he is explaining to all and sundry the possibilities and reasons for an iron and steel smelter on Kaien Island. He is urging that the people of Prince Rupert get behind the project with their moral support. They are not asked to invest any money. They have nothing to lose, but they have to gain an industry that might make out of Prince Rupert a second Pittsburgh.

Mr. Garde has been actively studying the project for months and has been devoting much of his time and expert knowledge towards compiling lengthy reports that he has forwarded to investors in the Old Country who are known to be interested in the establishing of the iron and steel industry in the province. He was delegated by the Prince Rupert Board of Trade a year ago to investigate and report and he has compiled material that most certainly will be convincing. The Northern B. C. Agricultural and Industrial Association could not have called upon a better man to interest and explain to the people of the city and the visitors about mineral matters, and the establishment of a Prince Rupert steel industry is the point that he is emphasizing.

Illustrates Points.

To illustrate his talks, Mr. Garde has a sheaf of maps and blue prints which give general and minute particulars. He also has samples of iron ores, coal and coke, limestone and other minerals which enter into iron and steel manufacturing. In fact he has assembled beside him authentic papers and materials regarding every feature of the industry and all of them dealing with conditions and attributes in the immediate vicinity of Prince Rupert.

In proposing the establishment of a steel and iron smelter, one takes into consideration several items which come under two heads, natural and economic. Under the first head comes the location and extent of iron ores, fuel which includes coal and coke, fluxes, fire clay and ferro alloys. Under the economic head comes transportation, smelter site, labor market, hydro-electric development, climatic conditions and government assistance. Mr. Garde has covered these each in detail on his reports regarding the feasibility of establishing at Prince Rupert.

Why on This Island.

Taking the economic headings first, it is pointed out that the seaport of Prince Rupert and the Canadian National Railways offer everything that is necessary in transportation. Raw materials can be brought from coastal points and places in the interior alike with ease either by water or by rail. Likewise, shipping of the finished products of the smelter to all parts of the world is an easy matter.

The site for the plant would be on the lagoon at the south end of Kaien Island which the railway crosses for a distance of about a mile. This site is located on government land reserved especially for such purposes. Prevailing winds are suitable for the carrying of any smoke away from the city and leaved.

Hydro-Electric

There are many sources of hydro-electric development in the immediate vicinity and lists of the distances from the site, length of the streams and estimated horse power have been

compiled. The one which Mr. Garde has recommended is the Thulme River, and he suggests arrangements between the city and the proposed plant.

Climatic conditions are entirely suitable here. It is admitted that there is plenty of rain but it is pointed out that there is no cold weather and operations could be carried out all the year around. Long days in the summer would be of further advantage.

The same conditions as to labor market apply here as elsewhere in the province. The Government has already signified its intention of getting behind the iron and steel industry in the province and has even gone so far as to state that it might go into the business itself.

Ores and Fluxes.

Then turning to natural heads Mr. Garde goes to his samples of ores and fluxes. These speak for themselves as to quality if a person knows anything at all about minerals. All that has to be explained is location and extent. The district possesses these in illimitable quantities.

First comes the supply of iron which is divided into two classes—magnetite and brown hematite or limonite. The first, magnetite, enters largely into the iron and steel production and the latter is not really necessary for it merely facilitates smelting, acting as a flux and thus saving on fuel.

There are large fields of magnetite on nearby coastal islands, Pitt Island, Porcher Islands and the Queen Charlottes. These could be brought in scows and ships to the smelter.

Limonite and Coal.

The North Pacific Iron Mine, some fifty miles up the Copper River from Copper City on the C.N.R., one hundred miles from Prince Rupert, has all the limonite that would be required.

Not so far up the Copper River as the iron mine lie the coal fields which would supply the coal for the Prince Rupert iron smelter. This coal is 38 miles up the river from Copper City. It is of high coking quality and would be turned into coke at the smelter where it would be necessary to install a coke plant.

To bring this limonite and coal out of the Copper River country it would be necessary to build a railway of some fifty miles in length. This would be easily feasible for it would but have to follow the bed of the Copper River. With the immense mineral assets in this valley a railway would sooner or later be built anyway.

Fluxes in Point.

Limestone and quartz fluxes are to be found at easy access. There is an abundance of quartz almost everywhere and there is suitable lime at Mile 86 on the railway. Fire clay for making refractories is also to be obtained readily.

The production of ferro-alloys which means iron alloys, would also be profitable at a Prince Rupert iron plant. These include tungsten, chrome, man-

WINNERS IN PHOTOGRAPHY

Local Amateurs and Professionals Made Good Showing at Exhibition.

Local photographers, professional and amateur, made great showings in the exhibits at the Fair this year. There are some pictures on view that are artistic indeed and are well worth seeing.

Following is the list of prize winners:

Photography, Amateur.
Landscape—1. H. Russell Hamilton; 2. George G. Hacker. Marine—David Eastman; George G. Hacker.

Industrial Life—Cecil Rose; David Eastman.

Prince Rupert Flowers—C. E. Bloomfield.

Architecture—David Eastman; Cecil Rose.

Portrait—W. Ross Thompson; W. E. Williams.

Animal Picture—Cecil Rose; George G. Hacker.

Enlargement—George G. Hacker; David Eastman.

Collection—Cecil Rose; W. Ross Thompson.

Professional.
Collection, other than portraits—W. W. Wrathall.

Water Color—W. Brooks.

Pastel or Crayon—D. Howe.

USK MINERAL EXHIBIT CREATES INTEREST

District Retains Cup for Best Display of Ores in Exhibition.

A very interesting display at the Prince Rupert Fair is the ore and placer exhibit from the Usk District, which was of such a nature to be awarded the cup. It is the second year that this district has been successful.

The exhibit comprises, gold and gold-copper ore and free gold ore from the Kitselas Mountain Copper Company, gold and copper ore from the Kleanza Mountain; copper ore from the Peerless Group (Gold Creek); copper gold ore from the Hazel group; copper gold ore from the Emma group; copper gold ore from the Avon and Lucky Luke; grey copper and silver lead ore from the recent strike made by Andrew Peterson near the summit of Bornite Mountain. The Kleanza Company has also displayed a sample of placer gold recently washed from the Gold Creek.

AIYANSH BAND WAS ON PARADE TODAY

Stopped and Played Selections Down Town on Way to General Hospital.

The Aiyansh Harmonie Silver band paraded the main city streets this morning on the way to the General Hospital and stopped at various important points, including Sixth Street and Third Avenue. Wallace's corner, the postoffice and the News office, where selections were played. The band consists of 26 pieces and tomorrow will contest with Greenville for the Fair awards.

Hands WERE on FIRE

A Remarkable Case of Eczema.

"My hands broke out," says Mrs. Hector McDonald, of Oyster Ponds, N.S., "into a fiery, irritable rash which the doctor called eczema. When his treatment failed to check the trouble I tried various salves and so-called blood-purifiers. But I got steadily worse and what were just isolated sores at first became one large mass of eczema. For over a year this went on, and you can imagine my suffering."

"Then I got Zam-Buk and I shall never forget how it soothed the dreadful fiery pain and itching. Even the first box of Zam-Buk effected wonderful improvement. Day by day the sores lessened and died away until, in time, the last sore healed. Zam-Buk banished every trace of disease."

SCHOLARSHIP PRESENTATION

Formal Event at High School
Last Night When Cedric
Duncan is Honored.

GOOD ADVICE GIVEN
BY SEVERAL SPEAKERS

At the King Edward High School last evening, before a large audience of interested parents and friends, Cedric Duncan was presented by Dr. W. T. Kergin, chairman of the school board, with the Halsey Scholarship, (\$50) donated from the estate of the late Major J. C. Halsey by Mrs. J. F. Brandt, of Vancouver.

The proceedings opened with the singing of "O, Canada," after which Principal J. C. Brady as chairman, gave a short address in which he congratulated the young city of Prince Rupert on having made such strides in the last eight or nine years as to be able to have such an interesting function as the one they were taking part in that night. He spoke of the Rhodes Scholarships and of the splendid results attendant on them, not only to the students who won them, but to the Empire at large, and urged the business people of the city to remember that the measure of their success in all branches of trade and commerce will be in proportion to the interest and practical help they give to forward education in their midst.

A short musical program was then presented which was high-

AVIATOR HAD AN ACCIDENT

Broke Propeller and Damaged Wing Landing Yesterday—To Siberia Next Week.

After having made the prettiest and most spectacular of his flights this week, Aviator C. O. Prest, in the airplane Polar Bear, had an accident when landing at the Aeropolis Grounds yesterday afternoon and smashed his propeller beside slightly damaging a wing. The flyer was longer in the air and he had made more stunts closer down than he had on previous days. One of these was a nose dive which brought him within 100 feet of the grounds.

The accident was caused when Mr. Prest, on account of backing no wind as he had on the other two days, came down too quickly with the result that he hit the seine net at the far end of the field and went through it. To avoid running over the bank, the flyer swerved into the rocks below the reservoir and this was where his propeller caught and broke and the wing also was damaged. The total damage will amount to about \$150. Fortunately he himself was uninjured.

Voiced Appreciation.

Last evening there was a special meeting of the Northern B. C. Agricultural and Industrial Association with Aviator Prest in the Fair Building. It was pointed out that, through the instructions of the Air Board, Mr. Prest had cancelled his contract with the Association and as the matter then stood, the flights had been made gratis, it being against the rules for him to accept pay. It was moved then and there that a presentation be made and this was carried with enthusiasm. Besides a collection was got up to cover the cost of damage to the machine. Fred Dawson, R. Paterson and W. S. Thompson made short speeches voicing their appreciation of the sportsmanlike manner in which Mr. Prest had taken several reverses and the accident to his plane. The presentation was made by George Bryant, on behalf of the board. Mr. Prest replied suitably stating that he had seen in many different places in all parts of America but in Prince Rupert he had met "real fellows" as he had never anywhere else. He will leave the city with a warm spot in his heart for the people and a good word for it everywhere he went.

Leaves for Siberia.

Mr. Prest is still determined to follow out his plans and reach Siberia this fall. The repairing of the plane will take a few days but he hopes to take off some time at the first of the week for Wrangell, his next stop, it having been found impossible to make a landing at Ketchikan as had been originally intended. Mechanician Bach will go by steamer to Whitehorse and then will fly overland with Mr. Prest to the Behring Sea. Reaching there Mr. Prest will again set out alone on the last lap to Siberia, a distance of 300 miles one way. Returning to Nome the plane will be shipped by steamer to Seattle, the flyers accompanying it.

At the meeting of the Exhibition directors last night, Harry Beck extended an invitation to Mr. Prest to return here next year.

Mrs. Frizzell

Come and look them over.

MINE MANAGER DESCRIBES USK

J. Wilman Says Two New Mills Going in Next Season.

John Wilman, manager of the Kleanza Mining Co. at Usk, says there will be two new concentrating mills installed in the Usk district next year. His company will instal one and the Portus Company, a Portland company, will put in the second. Both companies have enough ore in sight to justify mills. There is already one mill at Usk, that of the Kilselas Copper Co.

"There really has not been a mine found around Usk yet," says Mr. Wilman, "but there will be mines there some time for the country is well mineralized and the showings are good. The Kilselas Mountain Co. had enough ore in sight to start one and so have the companies who are now proposing mills. There has not been enough done yet to really prove the district thoroughly."

Kilselas Copper Co.

Mr. Wilman reports that the Kilselas Mountain Copper Co. is the only company that has done much extensive work in the Usk district yet. This season the mill has not been running on account of the depression of the copper market. However, the driving has been carried on and there are three shifts working, employing ten or twelve men. The property is on the Usk townsite and is rich in copper and gold.

The Kleanza Mining Co., of which Mr. Wilman is manager, has many copper and gold claims in the district, these being located from three to five miles up Kleanza Mountain. Some development work was done this summer.

Patmore's Mine.

The Emma Group, copper and gold, belonging to L. W. Patmore, of this city, has also had some development work this season but is now closed. It is also close to Usk.

The Peerless and Montana Groups, twenty miles up Kleanza Creek, have been working three or four men all summer. Development work is still going on and the property was presently inspected by a Granby engineer. It belongs to J. D. Wells, Lindland and others.

The Four Aces property, belonging to A. J. Kelch, is under bond to the Portus Mining Co. a Portland syndicate. It has also been developed this season.

There is an endless number of groups and claims on all sides of Usk. Many of them are very promising.

SONS OF CANADA
WIN SWEATERS

Successful Over Callies Yesterday Afternoon 1 to 0, Retaining Season's Unbeaten Record.

The Sons of Canada successfully vanquished the Callies in the final game of the Exhibition sweaters yesterday afternoon and won, in a well-contested match, by a score of 1 to 0. The game was evenly played but the Sons of Canada were fully deserving of victory as they had the most scoring chances. Their combination work was up to their usual all-season style. This game marks the last league schedule for the season and completes the Sons of Canada record of an unbeaten year.

The S. O. C. had the down grade in their favor in the opening half but were unable to tally. Shakespeare, for the Sons, came close to scoring when he hit the cross bar. Clarke also grazed the goal. The one and only score came for the Sons of Canada in the second half when Moffat scored after the ball had been brought up the field by Lane. In this half Clarke of the Sons of Canada was ordered off the field and hard feelings then commenced which marred the rest of an otherwise splendid contest. Martin's splendid goal keeping was a stellar feature of the match.

R. Mercer was referee and the linesmen were A. Clapperton and Malcolm Lamb. The teams lined up as follows:

Sons of Canada—Thompson; V. Menzies and H. Menzies; Anderson, Shakespeare and Mitchell; Robinson, Clarke, Moffat, Warren and Lane.

Callies—Martin; S. Stewart and Willisroff; Abbott, Murray and Campbell; McGreish, R. Stewart, Macintosh, Campbell and Sellers.

PRINCE GEORGE BASE
BALL PLAYERS HERE

J. C. Pidgeon and Fifteen Promising and Confident Players Arrived Last Evening

J. C. Pidgeon, manager of the Prince George baseball team, heading fifteen promising players who are confident of their ability to handle Anyox in the second of the Northern B. C. championship series this afternoon, arrived on last evening's train from the interior town. This morning they spent at the Aeropolis Grounds in practice and by this time are engaged in the championship battle. The names on the Prince George roster are as follows: Watson, Stuart, Johnson, Garrison, McLeod, O'Neill, White, MacKinney, Smith, Olsen, Masson, Serman, Ruggles, Tarber and Henninger.

LONDON, ONTARIO,
WON LEAGUE PENNANT

LONDON, Ont., Sept. 15.—By winning yesterday's game in the pennant series between London and the Bay City, the London club won the Michigan-Ontario League pennant for 1938.

BASEBALL SCORES

National League
Boston, 6; Pittsburgh, 3.
Brooklyn, 1; St. Louis, 2.
New York, 9; Cincinnati, 6.
Philadelphia, 6; Chicago, 3.
American League
Cleveland, 17-6; Philadelphia, 3-0.
St. Louis, 6-5; New York, 10-13.
Detroit, 5; Boston, 1.

Anyox and Prince George play this afternoon for the championship of Northern B. C. Which ever side wins will have the title as far as this week's series is concerned. Ocean Falls will likely come through with another challenge, however, and then they will have to meet the winners or else the title will be a disputed one. Prince Rupert is due to meet Prince George tomorrow and if the latter team is defeated this afternoon, it will then be a contest for second place. If the interior boys win, they will be the best team with Anyox, second, and Prince Rupert's championship ambitions blighted in third place.

BIG ARRIVALS
FISH TODAY

Three hundred and fifty thousand pounds of halibut was marketed at the Fish Exchange this morning. On account of the great quantity of fish offering the price went away down and in some cases 6c was paid for first class catches. The highest was 9c. Ice and ear supply is good.

Following were the arrivals and sales today:

Commonwealth, 50,000 pounds sold to the Booth Fisheries Canadian Co. at 6.5c and 4c.

Moringen, 18,000 pounds; Lillian M., 4,000 pounds; Director, 6,000 pounds; Vivian, 5,000 lbs. H. and R., 8,000 pounds and Agnes, 6,000 pounds, sold to the Canadian Fish and Cold Storage Co. at 6.6c and 4c.

Wave, 14,000 pounds; J. P. Todd, 8,000 pounds; Bartolome, 5,000 pounds; Unimak, 10,000 pounds; Cedric, 7,000 pounds and Senator, 25,000 pounds, sold to the Canadian Fish and Cold Storage Co. at 6.5c and 4c.

Flattery, 4,000 pounds; Clara, 7,000 pounds and Tahoma, 12,000 pounds, sold to the Royal Fish Co. at 7c and 4c.

Sherman, 16,000 pounds and Theima, 9,000 pounds, sold to the Pacific Fisheries at 7.2c and 4c.

Dolphin, 14,000 pounds, and Volunteer, 8,000 pounds, sold to Atlin Fisheries at 8.4c and 4c.

N. and S., 3,000 pounds, and Livingston, 20,000 pounds, sold to the Canadian Fish and Cold Storage Co. at 8.6c and 4c.

Sherman, 8,000 pounds and Malamute, 14,000 pounds, sold to the Sinclair Fisheries at 8.4c and 4c.

W. T., 10,000 pounds, M. and L., 5,000 pounds, and D.C. F., 8,000 pounds, sold to the Sinclair Fisheries at 8.2c and 4c.

Shizu 500 pounds, sold to Royal at 7.2c and 4c.

Guilford, 5,000 to Cold Storage at 7c and 4c.

Pauline, 9,000, sold to Cold Storage at 8c and 4c.

Margalice, 4,000 sold to Cold Storage at 9.3c and 4c.

Sunrise, 3,000 sold to Sinclair at 9.3 and 4c.

Leonore, 13,000 sold to Pacific, at 7c and 4c.

EMBARK ON VOYAGE
ALL AROUND WORLD

NEW YORK, Sept. 16.—Arthur James, former commodore of the New York Yacht Club, embarked with a party of five yesterday on the 218 foot yacht Aloha for a 33,000 miles cruise around the world. The trip is to last until next May.

TILDEN AGAIN WINS
TENNIS CUP MATCH

PHILADELPHIA, Sept. 15.—For the second time within two years William Tilden destroyed all chances of William Johnston of San Francisco securing possession of the championship singles tennis cup defeating him in three out four sets.

KITIMAAT WINS BACK
CUP LOST LAST YEAR

By defeating Port Simpson in the native football game this morning by a score of 6 to 1, Kitimaat takes home this year the Exhibition silver cup which was held last year by the team which lost. The defence work of Kitimaat was decidedly superior to that of Port Simpson. A. Clapperton was the referee.

The Kitimaat held the Exhibition Cup in 1919 but lost it to Port Simpson last year. To win it outright it is necessary that a team win two years in succession.

REUNION OF COQUA-
LEETZA PUPIL SHELDS

(Continued from Page one).

Dr. J. G. Spencer and responded to by Miss Hudson.

"Native Graduates," proposed by E. C. Perry and responded to by Ed Gray.

ONE CENT SALE

At Sixth Street Store Only

Sale - Thursday, Friday and Saturday
SEPTEMBER 15, 16, 17

This ONE CENT SALE was originated by the United Drug Company for the Rexall Drug Stores. The United Drug Company are the largest manufacturers and buyers of Toilet Articles, Remedies, Chocolates, Perfumes, Rubber Goods, Stationery and Drug Sundries in the world, and this is an advertising plan pure and simple, of which they bear most of the expense. Instead of spending money in the regular way, such as Free Samples, etc., it is their desire that we place full size packages of articles, in your hands, giving you an opportunity to judge the real value of these goods, the cost of which they charge to advertising. We will only be permitted to run this sale occasionally. Beware of imitations in other stores, and take advantage of this exceptional opportunity. We cannot afford to charge or deliver goods during this sale. Come in and see the display of all New Merchandise.

High Average Mileage

Sometimes you find a tire that gives extraordinary mileage—one in a dozen perhaps. Whereas the average of mileage given by a dozen—or a hundred—Ames Holden "Auto-Shoes" will be as high as that given by the exceptional ordinary tire.

It's the high average that counts—that cuts the cost of miles—that makes it worth while to get Ames Holden "Auto-Shoes" instead of ordinary tires.

MINE EXHIBIT PRIZE WINNERS

Uk District Displays Most Prominent in This Section of Exhibition.

A. C. Garde's smelter samples and the exhibits of various ores from Uk district stand out most prominently at the Exhibition this year. The class, though small is very interesting and nobody who goes into the building misses it.

The prize winners were as follows:

Minerals.

Copper Ore—Granby Consolidated Mining, Smelting and Power Co., Anyox.

Gold Ore—Tonopah Belmont Mines, Surf Inlet.

District Collection of Ores—Challenge Cup, second year—Uk District.

Collection of Gold Ores—Kitselas Mountain Copper Co., Uk.

Collection of Copper Ores—Peerless Group, Wells, Lindland & Hamblet, Uk.

Collection of Copper Gold Ore—Kitselas Mountain Copper Co., Uk.

Collection of Placer Gold—Kleanza Company Limited, Uk.

Collection of Silver Ores—Premier Mine, Stewart.

Collection of Silver Lead Ore—Borinite King Mine, Andrew Pete, Uk.

Collection of Copper Silver Ores—Dardanelles Group, Copper River, George Kerr.

Collection of Zinc Ores—Whitesail Lake, Mrs. G. Frizzell.

Collection, other than above—Kleanza Company, Dakota claim, Uk.

Individual Prospector's Collection—second, Howard Frizzell.

Commercial Coal—Copper River Coal Field.

Recommended.

Extra—Iron Ore, magnetite from Royal Group, Pitt Island.

Reid & Kratz, Prince Rupert.

Extra—Building Material.

Extra—Building Material—Terrace brick.

Many people read newspapers as much for their advertising columns as they do for news.

STANWOOD ON COPPER RIVER

Says Wealth of Valley Will Force Construction of Railway to Bring Out Waiting Ores.

"Things look good for the future of copper, iron and gold mining up Copper River," says "Doc" B. F. Stanwood, the pioneer prospector and holder of several good properties in that section, as he pulls out of his pocket samples of ore which run from 80 to 90% pure copper. "It is a splendid mineral belt and all that is holding it back is the lack of transportation. It seems to be slow in coming but it will come for the wealth of the valley will force it. At the present time the Guggenheims have two experts in there looking over various properties."

In speaking of the building of a railroad into the Copper River valley, Mr. Stanwood explains that there are two feasible routes branching off the Canadian Northern Railway. One is from Copper River station and the other from Smithers. Present development and indications would point to the route from Copper City being the best and the one that would reach the district more conveniently and would have closest access to the great tonnage.

Would Have Shipped.

"The coal and iron there is 'bang-up' stuff," declares Mr. Stanwood. "There are a great many small—no, big properties out the only way to get at them now is by pack train. Some of them, including my own, could have been shipping ten years ago had their been a railroad."

Speaking to a News representative yesterday, Mr. Stanwood went into detail as to the various properties. He has two good mines himself, the North-western and the Sultana. The former is a copper, gold and silver property and is 23 miles up the Copper River from Copper City. The Sultana, copper and silver, is eleven miles from the railroad. He has been continuing development work on these this summer.

George Kerr's Property.

The Dardanelles Group, which belongs to George Kerr of this city, and Messrs. Carmichael and Crocker, is another promising property. It is eleven miles up the river and has excellent showings of lead, silver and gold. Three splendid veins are bound to make a mine of it. Four men have been busy at development work this summer and will continue during the winter.

The Gabriel Group, eleven miles up Kitikwa Creek which flows into the Copper River, 28 miles up, is leased to Mr. Buchanan, of Montana. A trail is now being put up and it is intended to drive 100 feet of tunnel this winter. "This mine is just loaded with native silver," says Mr. Stanwood: "If it proves up, as present indications promise, it will make the creek and nothing will hold it."

Michaud Brothers.

Michaud Bros., of Terrace have good showings of copper, gold, silver and also molybdenite on the Centre Range close to Copper City. Dan Mason and Walter Bell have a lead and silver property in the vicinity which is looking especially good. Tony Brunings has a good showing of copper and gold within four miles of Copper City.

Mr. Stanwood is an enthusiast about Copper River as will be seen. His talks are really convincing.

GENERAL GRIESBACH GOES TO SENATE; TWEEDIE IS JUDGE

OTTAWA, Sept. 16.—General Griesbach, M.P. of West Edmonton has been appointed to the Senate. T. M. Tweedie, M.P. of Calgary West has been appointed a judge of the supreme court.

PRIZE LIST IN SCHOOL SECTION

In Spite of Fact School Opened Only Week Ago There Are Many Good Exhibits.

In spite of the fact that school opening this year was but one week before the Fair there was a good lot of exhibits and they were creditable indeed. All classes were entered and especially were the domestic science and manual training sections noticeable.

Following are the prize winners:

Schools.

Writing, under 16—Lucille O'Brien; Roy Brunzell; Verne Thompson.

Writing, under 15—Julia Calderone; Evelyn Johnson; Rhoda Lamb.

Writing, under 13—Mary O'Brien; Mac Brown; Clarence Thompson.

Writing, under 11—Mabel Iverson; Harold Hilliard; Jack Hennink.

Writing, under 9—Harry Blake; Annie Ashbridge; Ruby Krievsky.

Business Letter—Dorothy Brown.

Drawing.

Colored freehand design, under 16—Catherine McCormick.

Brushwork, under 9—second prize, Clementine Portet; third, Edward Portelance.

Map of B. C. Colored, all ages—Lucy O'Brien; Virginia Riel; Catherine McCormick.

Map of B. C., under 12—second prize, Jean Bloomfield; third prize, Rosario Soriano.

Manual Training.

High School Woodwork—Clarence Insulander; Gordon Kerr; H. Frizzell.

Fourth Reader wood work—George Edgar; George Brochu.

Fourth Reader Drawing—field McLennan; Richmond Mortimer.

Third Reader Woodwork—Arthur Kerr; Cecil Morrison.

Third Reader Drawing—Frank McMullin; George Hard.

Bank of Montreal Special—Howard Frizzell.

Domestic Science.

White Bread, under 17—Grace Grate; Gladys Nicholson.

Tea Biscuits—Netta Clarke; Mary McRae.

Muffins—Netta Clarke, Eileen Patmore.

Plain Cookies—Grace Grate; Eileen Patmore.

Iced Cake—Eileen Patmore; Helen McRae.

LAND ACT.

COAL MINES ARE SHIPPING STEADILY SEVERAL CENTRES

(Continued from Page 1)

ing mine in Northern B. C. at the present time is the Hidden Creek mine. The Granby Consolidated Mining, Smelting and Power Co. have built beside this great mountain of copper one of the largest smelters in Canada. Here in the various operations that are required in the preparing of the copper for market are employed over 1000 men. They turn the product out in large slabs that go to the United States for the final process of refining.

Premier Is Second.

The Premier gold mine at Stewart is the second in importance of the mines that lie north of Prince Rupert. A sixteen mile tram-line, the second longest in America, is about completed and will soon commence to bring the concentrated ore to the sea at Stewart in large quantities. Recently the concentrating mill sent out its first shipment. When the Premier mine starts on its new scheme of production a new town will have been established. Premier. It is at the mine and the head of the tramline. Stewart is the seaport.

Dolly Varden.

The Dolly Varden and Wolf mines at Alice Arm, according to many authorities, will in time become a great producing group. Its history has been a checkered one with many reverses and misfortunes. Difficulty after difficulty have come upon it. In 1919 an eighteen mile railroad from the mine to the beach at Alice Arm was finally finished and a year of shipping of high grade silver ore followed. Again misfortune came and for the past nine months there has been practically nothing done. It is said by some that the Dolly Varden will never be a successful shipper until a concentrating mill is put in.

The Engineer mine in Atlin district is one that has been tested and has been proven. Its wealth of gold is known but the property has been tied up by litigation ever since its owner, Captain Alexander, was drowned in the wreck of the Princess Sophia nearly three years ago. The series of lawsuits now appear to be coming to an end and the mine may shortly take its place as a producer.

Splendid Prospects.

The Atlin, Alice Arm, and Stewart sections do not depend on one mine or group of mines for the future. The best of present indications might fail and it would have little effect on the general situation and prospects although it would certainly be disappointing. Daily, prospects with bright indications are being uncovered and any one of them might become a second Comstock.

Besides these three districts there are great indications of mineral wealth in the Stikine and Naas River belts. All the districts heretofore mentioned lie to the North of Prince Rupert but minerals are not confined by any means to that country alone. There is one great producer to the south that is going strong. That is the Belmont mine at Surf Inlet. Here there is another railroad which is hauling large quantities of ore to tidewater. The Drum Lummon mine near Bella Coola is another mine down the coast that bears great promise.

Central Interior.

In the central interior mining will also some day become a great business. The Babine country has been especially drawing attention during the past season. Many new claims have been discovered there and older properties are undergoing development. Transportation also is proving a problem. Hazelton expects some day to see great things from Rocher de Boule as does Smithers from Copper River and Hudson Bay Mountain. The hills about Pacific also hold their deposits of mineral wealth. Coal is being produced in commercial quantities at various points in the interior.

North of all in the interior is the Groundhog coal areas. Here is located the world's next great coal field. A railroad several hundred miles long will have to be built but this is under consideration by big interests.

The Grouse Hog is rumored, will be open next year. At any rate it is certain to be developed in the very near future.
