SEVEN YEARS PENITENTIARY IMPOSED ON KING'S COUNSEL

John Machray Pleads Guilty In Winnipeg To Charges of Theft

Touching Scene as Former Respected University and Church Man is Sentenced Today For Stealing Funds of College and Firm

WINNIPEG, Sept. 22.—John A. Machray K.C., former bursar of the University of Manitoba and chancellor of the Anglican diocese of Rupert's Land, was sentenced to seven years' imprisonment in penitentiary each on two charges of theft, the sentences to run concurrently, when he appeared today before Magistrate R. M. Noble in provincial police court, elected for summary trial and pleaded guilty to charges of stealing \$500,000 from the University of Manitoba and \$60,000 from his former law partner, Heber Archibald.

WHITEWATER IS DROPPED

Business Interests Move Equipment From Tulsequah to Porcher Island

The Timmins interests of Ontario have dropped their option on the Whitewater property in the Tulsequah River district, it was learned with the arrival here last night on board the steamer Princess Louise of R. E. Legg of Montreal, who has been engineer in charge of operations on this property during the past year or so. The owners of the property are stated to have refused to meet overtures of the Timmins people to waive a large cash payment which was about to fall due.

Mr. Legg brought with him from Tulsequah his concern's camp equipment which will be moved from here to the Surf Point property on Porcher Island on which prospecting will be continued during the coming winter with a small crew of men employed. Mr. Legg will be in charge at Porcher Island.

Hunter Comes Out Safely

Max Sievert Little the Worse For Having Been Lost Between Tucks Inlet and Shawatlans

After having been missing since Tuesday morning while on a deer hunting trip from Tucks Inlet, Max Sievert came out safely at 4 o'clock yesterday afternoon to the Shawatlans lake power plant, weary, wet and cold but, otherwise, apparently none the worse for having spent two days and a night in the bush after having become lost on Tuesday night. Mr. Sievert had travelled so far in quest of game and lost his way after dark fell Tuesday night. He had been able to light no fire.

Yesterday morning, following Mr. Sievert's failure to come out to the shore Tuesday night, a search was instituted with assistance of the police.

 Burnaby Lake—Rain, calm, 42.

Whenever thou seest corruption by the side, and does not strive against it, thou betrayest thy duty. —Joseph Mazzini.

PROPERTY INSPECTED

Consulting Engineer Satisfied with Progress of Operations On Jessie Mine

SMITHERS, Sept. 22.—Consulting Engineer W. G. Norrie-Loewenthal of Vancouver paid another visit to the Jessie Mine on Hudson Bay Mountain last week to further inspect the work being carried out there. After his inspection he expressed his approval of the work done to date and stated that the vein system was opening up underground as anticipated by him from the surface showings. The tunnel on the property is now being continued, he announced, as a drift on the No. 3 Vein, which is in accordance with the original plans of the company. He further stated that the mineralization underground was more extensive than that on the surface though more of the ore is galena and zinc and less of it is arsenopyrite than is the upper workings.

Mr. Norrie-Loewenthal also paid a visit to the Glacier Gulch gold-bismuth deposit while in Smithers and he left Friday night on his return to Vancouver. He did not minimize the difficulties being encountered in financing in Vancouver under the present conditions, more particularly in regard to mining properties carrying silver, lead and zinc values.

The manager of the company, L. S. McGill, left last night for Vancouver and to take part in the campaign for finances being conducted there.

WEDDING BY BISHOP RIX

Miss Hendrica Riepsamen Becomes Bride of Rev. B. S. Prockter at Vanderhoof

VANDERHOOF, Sept. 22.—The marriage took place at 8:30 yesterday morning in Holy Trinity Anglican Church here of Miss Hendrica Christina Riepsamen B.A. and Rev. Basil Sidney Prockter B.A., L. Th., rector of the church. The ceremony was conducted by Rt. Rev. George A. Rix, Bishop of Caledonia, who was assisted by Rev. Rural Dean William V. Sweetnam of Endako. Immediately following the wedding, there was celebration of Holy Communion.

Mr. and Mrs. Jennings left on last night's train for Prince Rupert and will spend a honeymoon as guests of Rev. and Mrs. W. B. Jennings on the mission boat Northern Cross. They will arrive in Prince Rupert tonight.

Senator Borah Cancels Dates

Suspends Speaking Activities For Immediate Future Owing to Wife's Illness

BOISE, Idaho, Sept. 22.—It is announced that Senator William E. Borah has cancelled all speaking engagements for the near future owing to the serious illness of his wife with influenza. Mrs. Borah's condition was reported yesterday to be considerably improved.

NO FISH IN TODAY

No boats being in with catches, there was no sale of halibut on the local fish exchange this morning.

Professor Makes Trial Trip

Going up! Professor Auguste Piccard takes a last long look at terra firma before he makes a trial trip in his record-breaking balloon.

DISTRICT DEFAULTS

Commissioner Asked For Municipality of North Vancouver By Bond Official

VANCOUVER, Sept. 22.—Alleging default in payment of interest on a debenture issue, Philip Whitehead, president of the British Columbia Bond Dealers' Association, Vancouver, has filed a petition in Supreme Court asking for an order authorizing the appointment of a commissioner for the District of North Vancouver. The case will be heard on September 26.

Mr. Whitehead alleges specific default of payment of a \$30 interest coupon on a \$1000 debenture.

Grain Vessel to Sail on Friday

Loading of Danwood With Wheat For Orient Proceeding Steadily at Local Elevator

Loading of the Norwegian motorship Danwood with a cargo of grain for the Orient is proceeding steadily at the Alberta Wheat Pool's local elevator and it is expected the vessel will be ready to sail about Friday night.

Colleen Moore Is Being Sued

Sixty-Three Year Old Woman Seeks \$100,000 Damages From Screen Actress

LOS ANGELES, Sept. 22.—Colleen Moore, screen actress, is made the defendant in a \$100,000 damage action launched on behalf of a 63-year old woman who claims that she was knocked down by Miss Moore's limousine in the streets of Los Angeles. Careless driving by the chauffeur is alleged. The claim is for \$100,000 damages and \$300 hospital costs.

EXPEDITION BY FRENCH

Jean Allouche, French Journalist, Again in Canada

MONTREAL, Sept. 22.—French explorers, who made a "black expedition" into Africa and a "yellow expedition" into Central Asia by caterpillar automobiles, may soon undertake a "white expedition" across Canada into the Arctic circle. Jean Allouche, Parisian journalist, who describes such explorations, left here yesterday for Ottawa to discuss the possibilities with General McEwen, commissioner of the Royal Canadian Mounted Police, and to map out for himself an advance trip into the north country. The journalist reached here this week from France by the Gunarder "Aurania."

Allouche will proceed by Canadian National train to Vancouver and thence by Canadian National steamer to northern ports of the Pacific. He will visit outposts of the Royal Canadian Mounted Police and missions of the Oblate fathers in the land of Eskimos. From Dawson City, which he knows well and has visited before, he will travel by airplane to Akla-vik.

The versatile Parisian will stay for a time at Jasper Park, both on his way north and on the return trip, for the purpose of studying Canadian animal life, a subject on which he has written much for the French press.

Mr. Allouche spent some time in Prince Rupert two years ago during a previous northern trip.

Wheat Prices in Chicago Bound up

Quotations in Yesterday's Trading Three Cents Above Those of Day Previous

CHICAGO, Sept. 22.—Wheat prices bounded up here yesterday to three cents above the quotations for the day previous.

Toronto Paper Spreads News of British Columbia's Disgrace to The People of Eastern Canada

A special despatch to the Toronto Star in regard to the McGeough revelations follows:

British Columbia has been shocked by sensational revelations of reckless extravagance, wastage and diversion of unemployment relief funds, contained in charges against the provincial government made to Lieut.-Gov. J. W. Fordham Johnson by Michael H. McGeough, who for some months represented the Dominion government as director of unemployment relief in this province.

Mr. McGeough told of having checked accounts of the provincial government over a long period. In scores of instances he found the amounts excessive. He discovered that the government had been over-charged repeatedly, apparently for the benefit of intermediaries, and that goods had been purchased in large volume that were not necessary at all.

Not Entitled to It

In many instances, according to Mr. McGeough, it was found that relief pay was granted to people who were not entitled to it. The staff of Allico camp, owned by the Abernethy-Lougheed Logging Company, at one time headed by a former minister of public works, was completely manned by those not entitled to relief and who were on the permanent payroll of that company, some of the salaries paid out of relief money running as high as \$7.50 a day, while at another camp the foreman had his family working with him, all salaries being charged to unemployment relief funds and amounting to over \$400 a month for the family.

Engineers, according to Mr. McGeough, were allowed up to \$200 a month for their own automobiles going from home to their work.

Extravagant Expenditure

After reviewing the history of the plans for unemployment relief, Mr. McGeough devotes a paragraph to what he calls examples of "extravagant and unnecessary" expenditures, and adds:

"Items for lumber purchased through commission agents at \$12.50 per thousand retail back to the government at from \$18 to \$21 per thousand; heavy roadmaking machinery to displace labor and considered defeating the ends for which we were endeavoring to create employment opportunities; typewriters and adding machines by the score for camps when skilled office men were on direct relief; groceries purchased from selected merchants scattered throughout the province with no check on prices; small merchants receiving orders for groceries by the carload; camp equipment prices were of such a character that it was impossible to accept—three second hand stoves for \$700; camp cots at \$6 when the regular price should be \$2.50, and these purchased in Edmonton; tents purchased in Ottawa while we were trying to relieve idle factories in British Columbia. The situation was so critical that I deemed it necessary to present the actual invoices for inspection at Ottawa, and proceeded there with invoices covering several million dollars. Experts examined same and the federal government refused to pay them or to be a party to having unemployment funds used in such a manner."

BIRTH NOTICE

Born to Mr. and Mrs. Homer Clay, a son, on Sept. 21, at the Prince Rupert General Hospital.

BARRISTER LOST LIFE

Eustace Claude Savile of Salmon Arm Drowned While on Fishing Trip Monday

SALMON ARM, Sept. 22.—Eustace Claude Savile B.A., barrister and solicitor here for more than twenty years, was drowned while fishing in Adams River here Monday.

Born at Clifton, Bristol, Eng., April 26, 1879; the late Mr. Savile was educated at Clifton College and Cambridge University. In 1900-01 he was captain of the Queen's College Cambridge rugby football team. Co. in Brighton, Eng., in 1903, he acted as a clerk with Fitzhugh & was admitted as a solicitor in 1906.

Coming to British Columbia in 1910, Mr. Savile was admitted as a solicitor in this province in 1912 and began practice at Salmon Arm in 1912.

In 1910 the late Mr. Savile was married to Elizabeth Catherine Anderson, daughter of a British Army officer in India.

Mr. Savile was a Conservative and an Anglican. His recreations were cricket, skating, shooting and fishing.

OFFICIAL ARRESTED

Senior Clerk of Provincial Treasurer's Department in Toronto Charged With Theft

TORONTO, Sept. 22.—H. L. Austin, senior clerk of the provincial treasurer's department, was arrested yesterday and charged with theft of monies placed by preliminary investigation at \$2400.

CHILDREN LIKE AIR

SAINT JOHN, N.B. Sept. 22 — "Kathryn likes to stay places, while I like to hurry off to the next city. It's heaps of fun seeing new places, and meeting people. Most everywhere we look for the children first."

The speaker was six-year-old Janet Lee of the "Flying Hutchinson" family who recently made Saint John their first stop in a proposed flight to London, England, via Anticosti, Labrador, Greenland, Iceland and the Faroe Islands. Kathryn, two years her senior, had voiced the opinion she was having a gorgeous time and would be reluctant to continue on the next leg of their journey to Anticosti so soon.

"Since we arrived," Kathryn remarked, "we have seen such wonderful beaches and I dearly love swimming. But in three hours after taking off, we hope to reach Anticosti, that is, of course, if we have luck. With good tail winds, we'll get there in two and one-half hours, but if we run into cross winds we may get lost and never reach there—so there you are!"

Kathryn was very nonchalant about her experiences in the air. "I often take the wheel," she said, "but of course it is very simple to steer a ship and keep her steady on her course. All one has to do is to watch the board and drift indicator. I haven't handled this new boat (Sikorsky amphibian plane) yet, but I think perhaps Daddy will explain her controls to me when he has time."

The daughters of Mr. and Mrs. George R. Hutchinson have been flying the last five years and neither flying, nor being greeted by crowds, is at all out of the way to them. They generally sleep when flying, their mother said.

"We enjoy flying ever so much, but Mumsy says we must soon settle down to school, where we can mingle with other children," confided Janet Lee. "I guess she thinks we're too grown up."

7 MAJOR ENGINEERING ADVANCES

ADVANCES

New General Electric Radio beats even the famous Tone-Test Winners!

GENERAL Electric Radio has already earned a continent-wide reputation for realistic tone. During the past twelve months, in a series of unbiased tone-tests with other famous makes, G-E Radios have won again and again.

But now General Electric has bettered its best! A magnificent 12 tube Super-Heterodyne model—the J-125—introduces the amazing new high-power "Twin-Push" Amplification which greatly improves tone at any volume.

This new radio set is re-engineered from end to end. It uses new type tubes, of a higher efficiency than has ever been achieved before.

It has power so boundless that even the "peaks"—the spoken exclamations, the musical crescendos—come through without a trace of distortion.

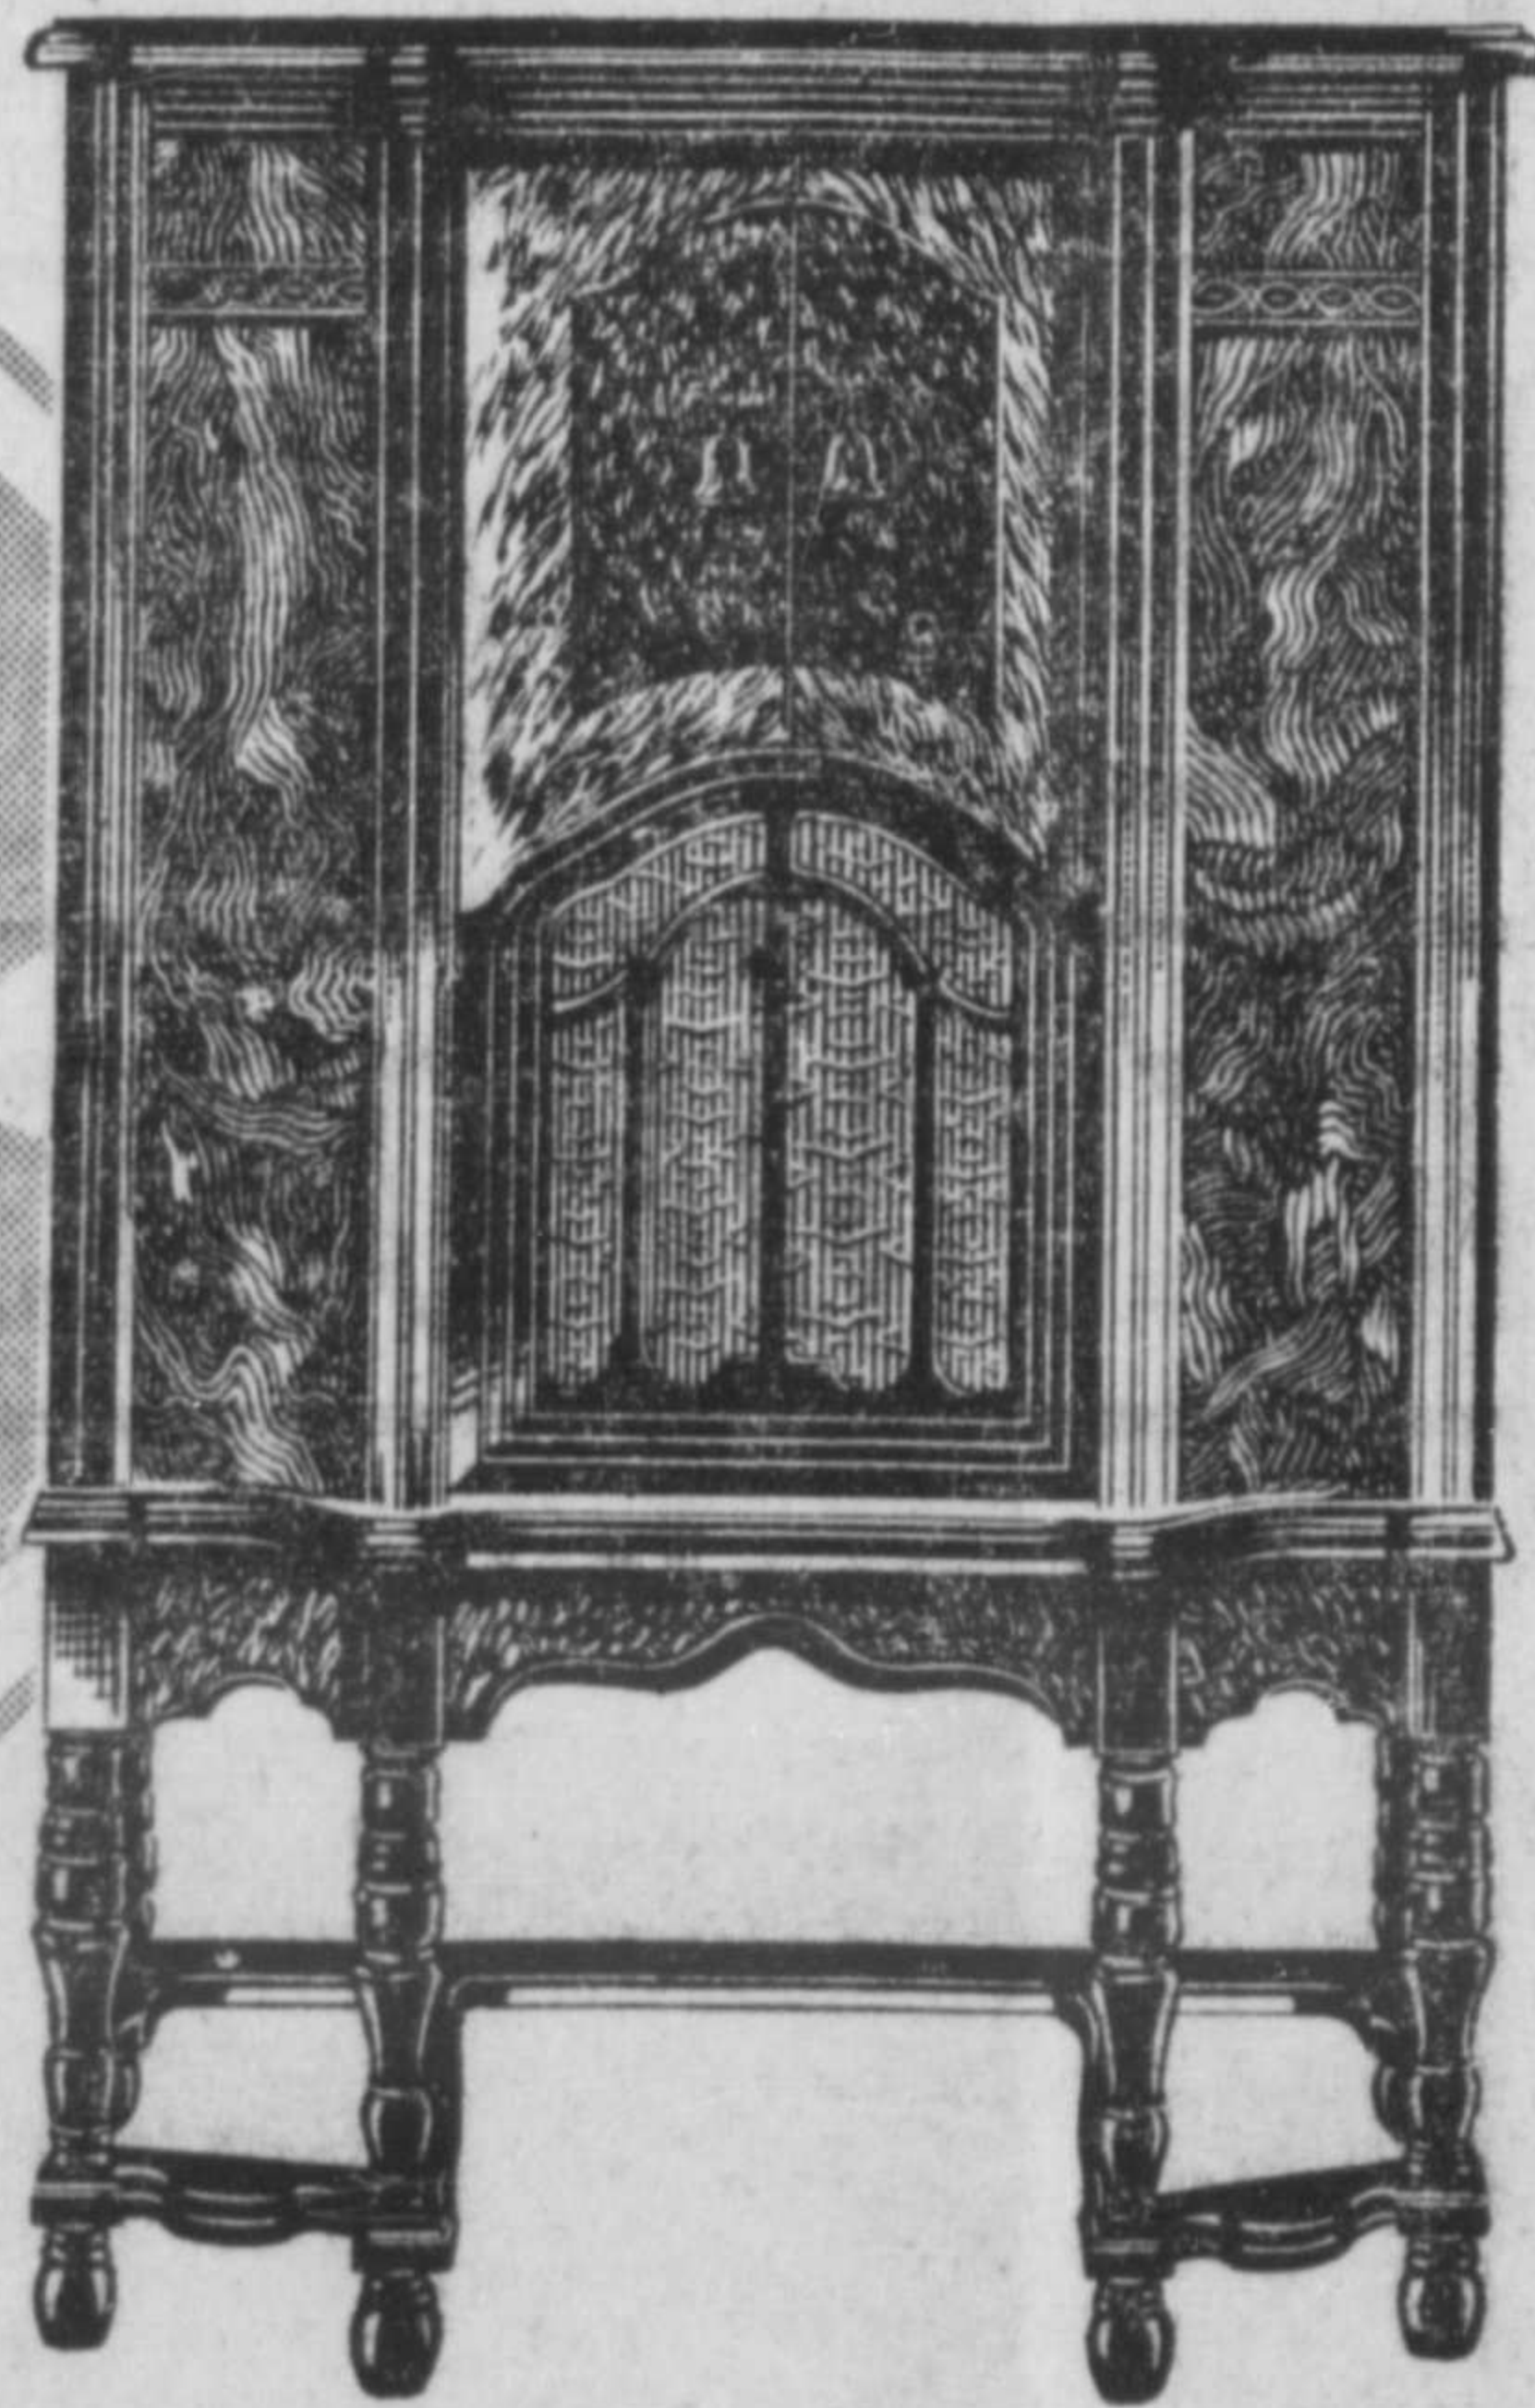

Read over the radical new features of this great General Electric Radio. Then by all means hear it.

G-E Table Model J-72 (7 Tubes) \$69.50 Complete with New Type G-E Radiotrons

G-E Console Model J-86 (8 Tubes) \$109 Complete with New Type G-E Radiotrons

G-E De Luxe Console \$189 Complete with 12 New Type G-E Radiotrons

Believe your Own Ears.

1. "TWIN-PUSH" AMPLIFICATION, produces tone of extraordinary power and fidelity.
2. TWELVE NEW TYPE G-E RADIOTRONS, giving purest tone quality and quieter operation.
3. DUAL AUTOMATIC VOLUME CONTROL, acts instantaneously in reducing the effects of fading, and holds all stations to the desired volume.
4. AUTOMATIC LO-TONE COMPENSATOR, giving full rich tone, automatically, at any volume.
5. NEW DYNAMIC SPEAKER.
6. SPECIAL HAND-OPERATED TONE CONTROL, to give any desired shading of tone without loss of essential notes.
7. GREATLY IMPROVED G-E TONE EQUALIZER, with acoustic orifices of G-E design which eliminates cabinet "boom."

DAILY EDITION Thursday, Sept. 22, 1932

BEGIN ECONOMY AT ONCE

People of the province have been led to understand that the Tolmie Government is in favor of the general principle of economy as recommended in the Kidd report. The Premier has already said it will not apply to the farmer and the heads of several departments have mentioned that recommendations in regard to them will not apply but, as a general principle, without detailed application, Tolmie is in favor of economy just as every person in this fair province favors the same thing as long as it does not apply personally.

Here is a hint to the genial doctor. He has full control of the cabinet and no legal quibble stands in his way of its reorganization as long as new blood outside the Legislature is not introduced. We suggest to him that he show himself in earnest in his economy principles by cutting the cabinet and cutting it hard. Judging by the long absences from duty of its members, the work of the present eleven ministers could be carried out by half a dozen or fewer. If he only reduced it to eight, as mentioned in a Victoria despatch to a Vancouver newspaper, that would indicate that he really meant business. If he is to wait a year and have those salaries continued for that time, there will be a needless waste of public money. This little gesture toward economy would be a great help in holding some of his wavering followers who may have to give him up after pinning their faith to him only a brief four years ago.

PRODUCERS OF BEAUTY

It is pointed out by the florists, recently in convention in Toronto, that more money is invested in the florist industry in Canada and United States than in the steel industry of the two countries. During the past twelve months the people purchased eighty million dollars worth of flowers. The figures are rather astounding. We beg to refer this extravagance to the Kidd committee.

Toc H Bridge Party Enjoyed

Twelve Tables of Cards Last Night at Delightful Affair in Hall on Fulton Street

A delightful bridge party was held last evening by Toc H in the hall of the organization on Fulton Street.

There were twelve tables of bridge and prize-winners were: ladies' first, Miss Winnie Tucker; second, Mrs. W. C. Aspinall; men's first, Ian Fraser; second, Dr. W. C. Aspinall.

After cards, delicious refreshments were served. The proceedings were in charge of a committee of which Reg Hodgson was the convener.

MALADY NOT CONTAGIOUS

Japanese Scientist Safe After 17 Years of Work Among Lepers

MONTREAL, Sept. 22.—Seventeen years among the lepers of Taiwan, Formosa, Japan, have left Dr. Makimoto Iwaga in perfect health and confident he will never contract the dreaded disease.

Stopping at Montreal on his way to Berlin, where he will deliver a paper on his experiments with ultra-violet rays and leproic bacilli before a convention of scientists, the eminent Japanese physician told interviewers he was "neither courageous nor foolhardy" in believing it unlikely he should become a victim of leprosy. "And that simply because leprosy is not contagious, a fact not generally known by laymen but widely recognized among specialists in the matter," said Dr. Iwaga.

After years of laboratory experiments, Dr. Iwaga said he had recently killed leproic bacilli by the special use of ultra-violet rays. "But that is only a beginning," he added. "We have yet to negate the bacilli in the human organism—and that is a difficult step."

Condition of lepers in Formosa was described as follows by Dr. Iwaga: "Our lepers live in comfortable sanatoria, equipped with the very latest in scientific apparatus, and receive the careful attention of physicians who keep posted on every development of science as it affects their specialty. There is almost the life of a normal human being. Marriages between lepers are not infrequent and are sanctioned by the Japanese government. Missionaries and nuns are usually attached to these sanatoria and it is a curious fact that sooner or later nearly all lepers become Christians."

All Canada Applauds VICTOR Bi-acoustic Radio

Listeners throughout the country are amazed by its startling improvement in

TONE

—richer by two full octaves of music—
music that no previous radio ever reproduced!

EVERYWHERE, from coast to coast, it has won the praise of musicians—music lovers—radio fans! Opened the eyes of thousands who thought that radio had reached its peak of perfection!

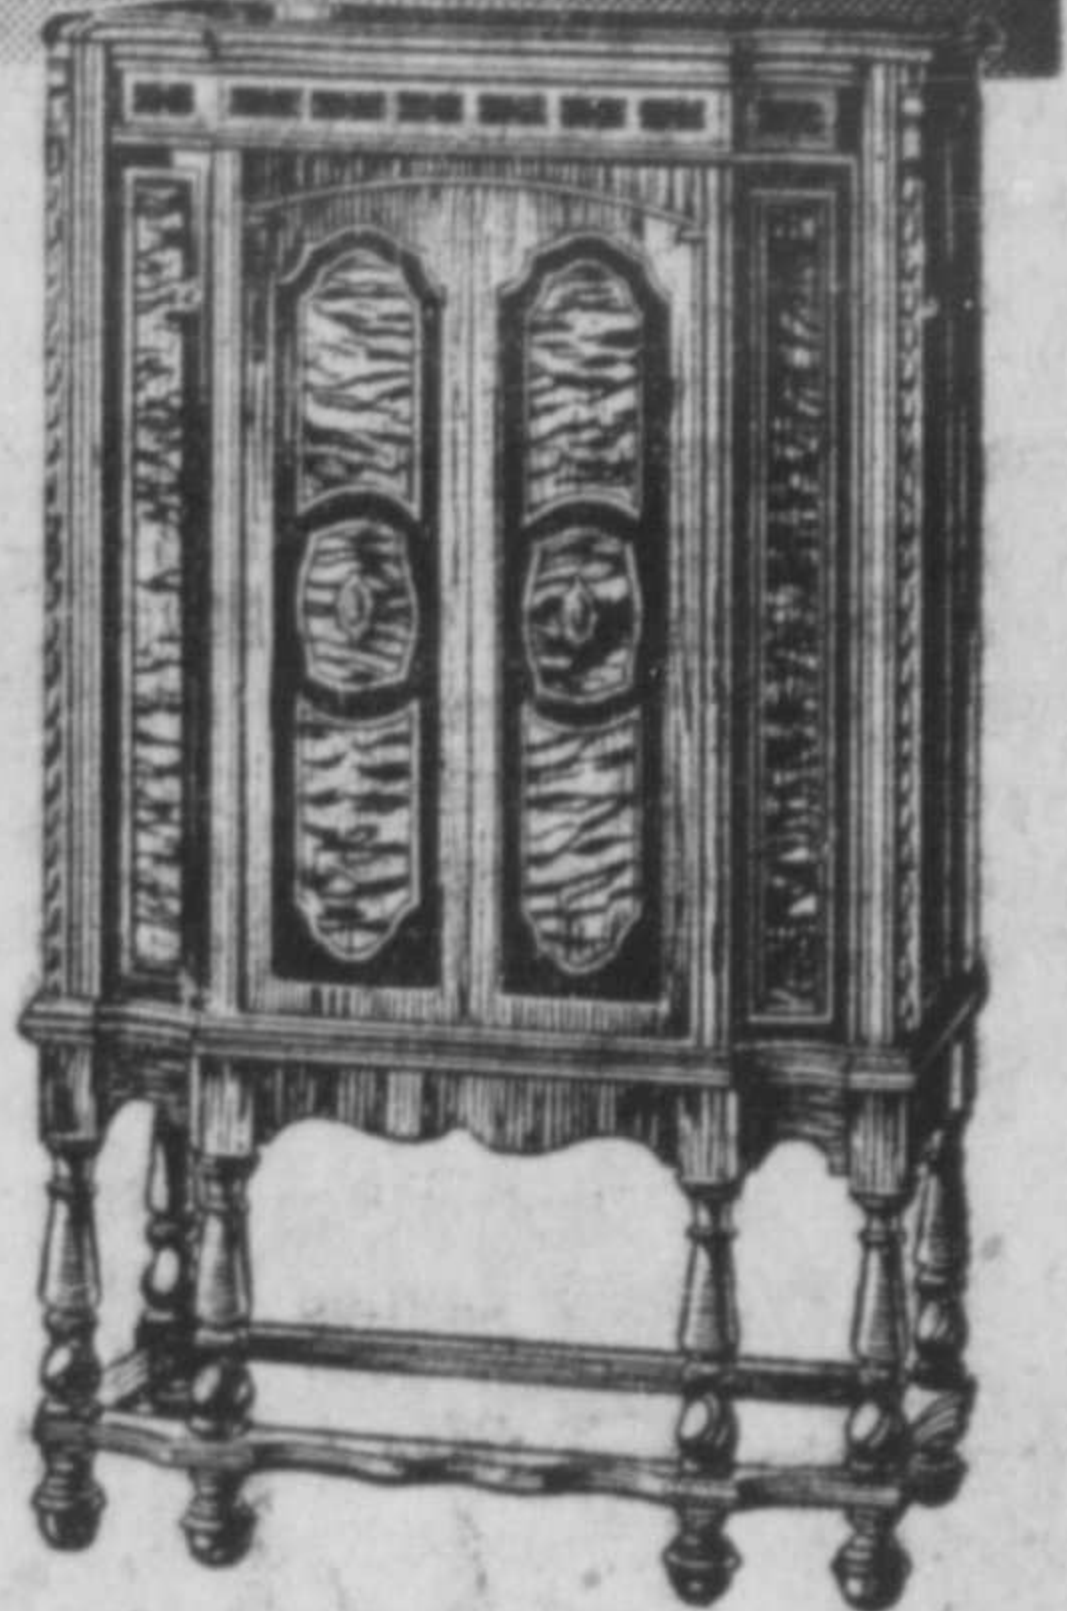

Victor Bi-acoustic Radio actually gets two more octaves of music than ordinary radios. Catches the feeling of the artist as well as the song! Puts a completely new thrill into orchestral pieces—dance bands—vocal programs—mystery dramas—sport broadcasts!

Victor Bi-acoustic Radio is a completely new circuit with eight great advances. "B" amplification doubles the power without distortion at any volume. Extended musical range reproduces all instruments from lowest to highest tones. Automatic tone compensators take out "tininess." Tone equalizers remove cabinet "boom."

Dual automatic volume control counteracts fading and ends between-station noises. Ten new-type tubes make possible more power, greater fidelity, smoother performance. New dynamic speaker handles all frequencies at all volumes. New cabinets are acoustically-tuned for finer, truer tone.

All these extra features give twice the power, twice the range, twice the tone quality to the most advanced basic circuit known—the famous Victor Super-Heterodyne.

Hear it. Judge it for yourself. Spend only five minutes in front of the new Victor Bi-acoustic Radio and realize how really wonderful radio can be. Victor dealers are now showing the 10-tube model illustrated at only \$149.00 complete. Easy terms.

VICTOR Bi-acoustic RADIO, Model R-56, complete with 10 tubes \$149.00
Other Victor models range in price from \$69.50 up

STILL MORE VIGILANCE STILL MORE CARE for your Protection

YOU will notice Carnation advertising frequently carries this message: "Protected at the Source." Please realize how tremendously Carnation has increased this service for your protection. It fosters better dairy stock through Carnation's world-famous herds of Holstein-Friesian cattle. It employs trained men to constantly visit dairy farms selected to produce Carnation Milk, checking and re-checking methods . . . inspecting, testing, instructing. And after the milk has reached Carnation condenseries there is still more vigilance, still more rigid, scientific testing until the can is finally hermetically sealed.

Makes Favorite Recipes Better
Domestic Science experts have learned that the "homogenized" butter-

fat in Carnation makes it super smooth. You will be delighted with the results when you use it in cream soups, sauces, puddings, ice cream, cocoa and candy. And you will enjoy its creamy double-richness with coffee, fruits, and cereals, as well as saving considerable money on your milk bill.

Approved for Baby Feeding

The highest medical authorities recommend Carnation Milk as an excellent milk for babies—because of its purity, uniformity, nutritiousness, richness in vitamins and minerals, and super-digestibility.

That's How Good It Is!

Send for Two Free Booklets

There are two very interesting new booklets about this modern milk—Carnation Cook Book and "Contented Babies". They are yours, free, by writing Carnation Co., Limited, 134 Abbott St., Vancouver, B.C.

UNEMPLOYED IN SESSION

Questions Affecting Married Men Taken up Last Night at N. U. W. A. Meeting

Ways and means for bringing about an increase in the relief allowance for married men with families were discussed at a meeting last night of the National Unemployed Workers' Association in the Canadian Labor Defence League Hall. The meeting was attended by about one hundred men, most of whom were married and concerned with the proposal of the authorities that back relief should be worked out.

Speakers from the floor declared that, if they could not work continuously on such a meagre allowance as that now in effect, all food would be eaten up in a few days. The fuel question took more work of the relief workers while they were not engaged in actual relief work.

The opinion was general that, if work were necessary, an adequate allowance should be made for rent, light, fuel, clothing and the necessary equipment for school children.

Complaints were received that many parents on relief were unable to supply their children with the necessary school books. The Women's Labor League is co-operating in connection with this problem.

Under school age children have not as yet received clothing although it had been promised to them.

Several speakers declared that much favoritism was shown by the city engineer in connection with relief work. The opinion was expressed that all workers should receive the same allowance for the same number of days worked.

Complaint was made in a letter received from an ex-service man that he had had to use his relief ticket to purchase medicine. The committee was asked to look into this.

The committee recently interviewed the government agent who has been notified by Victoria that no medical attention will be given the unemployed. This notification has come despite the fact that Hon. R. W. Bruhn, minister of public works, advised the committee in the presence of Mayor Orme that he was surprised the unemployed had not received medical attention months ago. The committee was instructed to take the whole matter up with the city council at its next meeting.

W. H. Montgomery acted as chairman of the meeting.

LOCAL ITEMS

A charge against Nelson Brew of Haysport of theft from a dwelling was dismissed by Stipendiary Magistrate H. F. McLeod in provincial police court yesterday afternoon.

Mrs. E. P. Jenner, mailager, of Demers ladieswear store, returned Tuesday night on the train from Calgary where her mother is in the hospital. She reports her mother's condition as being slightly improved.

District office of the provincial police here has received inquiries as to the whereabouts of a man named Robert Kirkpatrick who has not been heard of since about two years ago when he took out a free miners' certificate here.

Mr. and Mrs. N. R. Redman of Anyox, who have been paying a visit at Hazelton with Mr. Redman's brother and sister-in-law, Rev. and Mrs. S. V. H. Redman, sailed by the Prince Rupert yesterday afternoon on their return to the smelter town.

Motorship Vanguard, Capt. H. Brindle, arrived in port at 11 o'clock yesterday morning from Ketchikan and, after discharging one carload of canned salmon for transshipment East over the Canadian National Railways, sailed on her return north.

John Mainstrom arrived in the city on the Princess Louise this morning from Juneau and will proceed by train from here tomorrow morning to Halifax where he will sail October 6 aboard the Swedish-American steamer Gripholm for his native home in Sweden.

Rev. W. D. G. Hollingworth, pastor of First Presbyterian Church, was the speaker today at the regular weekly luncheon of the Prince Rupert Rotary Club in the Commodore Cafe, his subject being "Canadianization of the Immigrant." President G. A. Woodland was in the chair.

Sons of Norway Hold Dance For Grain Ship Men

In honor of officers and crew of the Norwegian motorship Danwood, which is here to load a cargo of grain from the local elevator, a very enjoyable dance was held last night in the Metropole Hall by the local Sons of Norway Lodge. There were about eighty persons present at the affair.

At the opening of the proceedings John Dybhave gave an address of welcome to officers and members of the crew of the ship. The chief officer of the vessel replied briefly.

Music for dancing was furnished on the accordion by Julius Welle. Dancing started at 9 p.m. and concluded at 2:30 a.m. At midnight delicious refreshments were served. The committee in charge consisted of Mrs. Chris Jensen, Mrs. Hans Underdahl and Gunnar Selvig.

Alex L. McConnell, travelling auditor for the Canadian Pacific Railway, who is on a tour of the north on official duties, arrived in the city on the Princess Louise last night from Skagway and will proceed to Vancouver on the Princess Adelaide tomorrow night.

BULKLEY VALLEY COAL

IS A HIGH CARBON, NON-COKING, BITUMINOUS COAL. That can be used to economical advantage in all styles of fire boxes. In your kitchen range try the nut-egg size and simply shake the bottom grate when a hot fire is desired. For heaters use single screened lump. In furnaces use single screened lump with a generous portion of fines added to hold a slow fire or banking over night. You will use no other fuel after becoming accustomed to—
