Germany Tries Escape from Making Reparation; Appeal Direct to the United States

LONDON, April 5.—Although the British Government has not received the full text of the note sent by the United States to Germany regarding reparations, the official British opinion is that Germany has failed finally in an attempt of a new appeal of solving the reparations problem by approaching the United States direct for assistance. It is believed that Germany's next move will be a direct appeal to the allies.

FIRST BIDDING NEW EXCHANGE

Fish Buyers Moved to Government Wharf This Morning and 82,000 lbs. Handled.

The Fish Exchange was moved this morning from its old location on the G.P. dock near No. 3 street to the Government wharf and this morning the fish buyers bought 86,000 pounds of halibut constituting the first day's business in the new quarters.

The new exchange, which was originally the harbor master's office, and latterly the office of the National Independent Fisheries, is a much more commodious place than the old exchange. It is about double the size and instead of the old benches around the walls a long desk has been provided for the fish buyers, who were busy measuring it off this morning with the result that each buyer has 23 inches of desk space.

The Allied Fisheries have finished the work of moving their plant to the Government wharf and the Booth Fisheries Canadian Co. are now going. The Pacific Fisheries will be the last to leave the G.P. dock.

Four refrigerators in the yards are being filled today with the fish bought up at the sale this morning. More are reported for arrival by tonight's passenger train.

Following were this morning's arrivals and sales:
Corona, 15,000 pounds and Chanseffor, 6,000 pounds to the Canadian Fish & Cold Storage Co. at 14.5c and 5c.

Teddy J., 10,000 pounds; Molly May, 8,000 pounds, and Rose Point, 3,000 pounds sold to the Pacific Sea Products Association at 14.1c and 5c.

Reliance, 13,000 pounds, and Sceptent, 8,000 pounds sold to the Pacific Fisheries at 14c and 5c.

Director, 12,000 pounds; Glacier, 9,000 pounds, and Arthur, 1,000 pounds sold to the Booth Fisheries Canadian Co. at 15.1c and 5c.

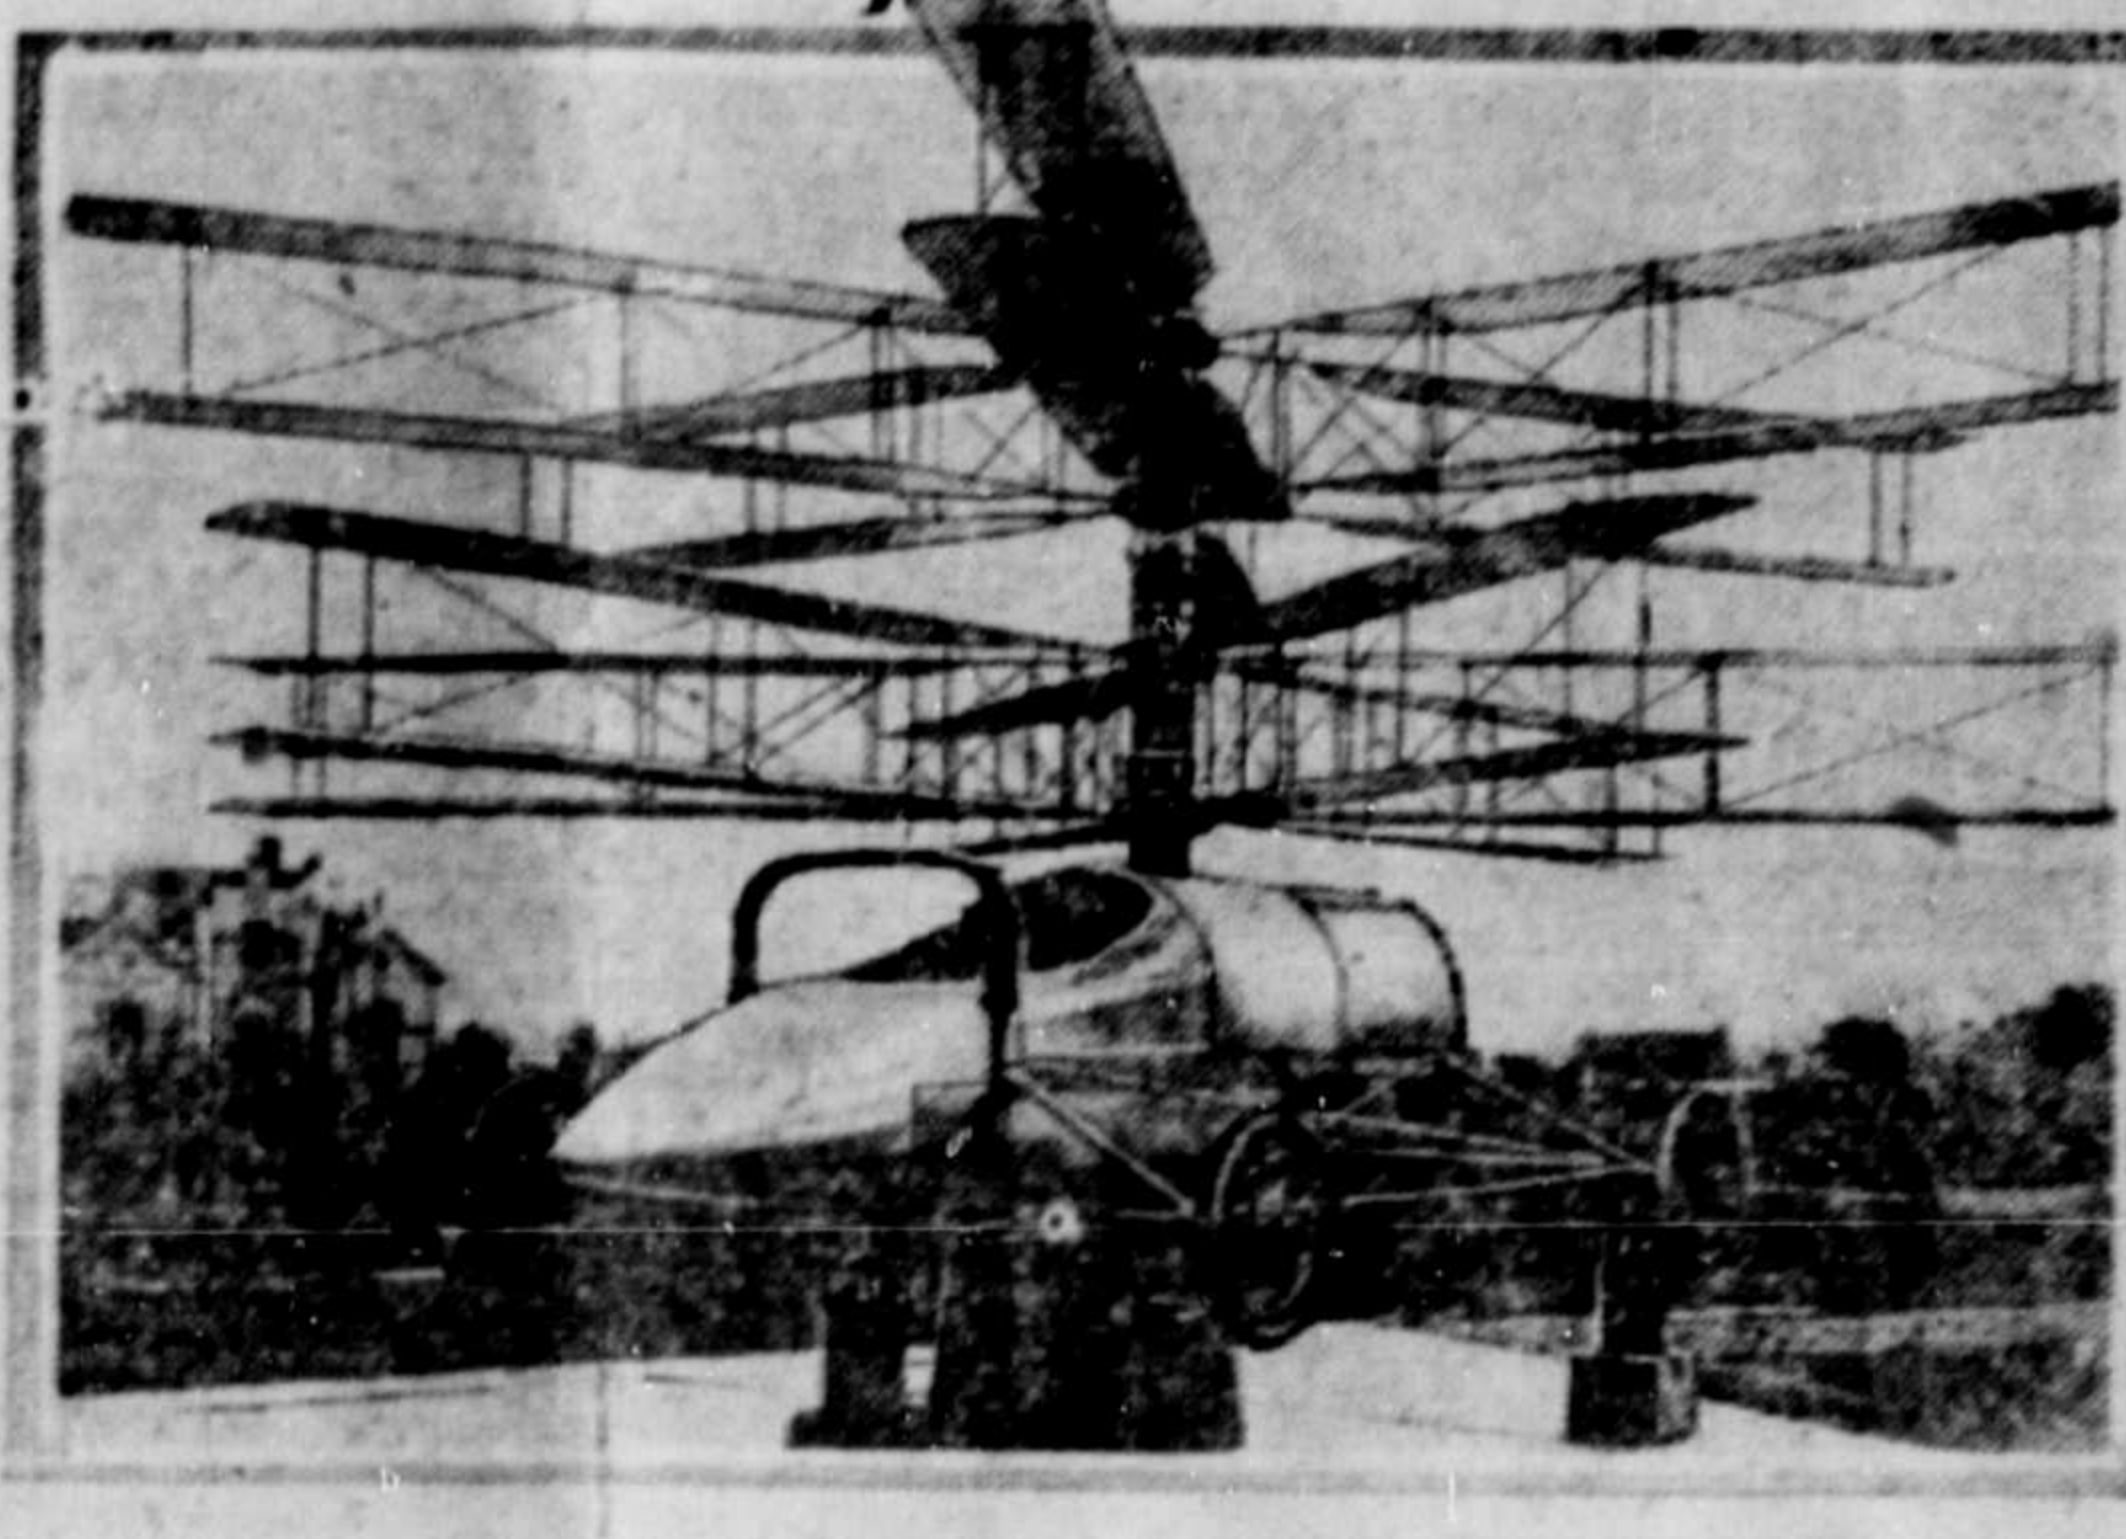

Ring sold 450 pounds to the Canadian Fish & Cold Storage Co. at 15.2c and 7.8c.

Negotiating Settlement of British Coal Strike; Transport Men May Join.

LONDON, April 4.—The coal strike is serious tonight. The railwaymen seem to favor joining the miners.

Lloyd George told the House of Commons today the Government was doing its utmost to relieve the situation.

It is rumored that the Government has decided on certain military steps which has inflamed the labor men. The House of Commons will discuss the situation.

The vote of the railway transport workers will be taken on Wednesday.

NEW YORK, April 5.—John L. Jones, representative of the British labor triple alliance, asks the support of American labor for the British miners, who are striking, he says, to nationalize the mines. He suggests a boycott of British shipping.

LONDON, April 5.—For three hours this morning delegates of the National Transport Workers considered the attitude they would take in regard to the strike of British miners. They did not reach a decision.

Informal and private negotiations between the Government and leaders of the Miners Union regarding a settlement of the coal strike began last night, it is reported.

Ottawa Hockey Team is Champion; Retains Trophy

VANCOUVER, April 5.—Ottawa Senators retain possession of the Stanley Cup, emblematic of the world's hockey championship, as a result of having defeated Vancouver last night in the fifth and deciding game of the series. The score was Ottawa 2, Vancouver 1.

It was a wonderful scene. Twelve thousand people watched the play in the great arena. They expected to see a good exhibition of the great ice game and they were not disappointed. It was fast all the time.

Vancouver scored the first goal at 16:26, the first period ending in a lead for the local team 1-0. Vancouver fans were wild with excitement and cheer followed cheer at every goal made. The visitors and their supporters and the audience was not niggardly in its recognition of exceptional skill.

In the second period Ottawa scored the two goals which placed them in the lead and kept them there until the end. The first goal was at 1:27 and the second at 2:51. There was no scoring in the third period.

The Vancouver men did their best playing in the first period, but when it dawned on the visitors that they were to lose the championship of the world and all the honors that go with it, they made a wonderful comeback. No such hockey has been played here for many a day.

A good deal of money changed hands on the result.

N. M. & R. Co. Impounded Two Hundred Tons in Two Days at Jap Inlet.

One of the finest runs of herring in years is reported by the N. M. & R. Fish Co. from their ponds at Captain's Cove and Jap Inlet. At the latter place, which is 18 miles from this port, there were 200 tons of live herring impounded on Friday and Saturday. At Captain's Cove there is already a reserve of 300 tons and about 700 tons has already been taken by the company between its two ponds. The herring that is being taken by the N. M. & R. Co. is caught practically at the ponds. The run of high quality herring still continues and two boats are busily engaged seining the fish. Jap Inlet is practically on the course of halibut boats leaving this port for the banks.

DAILY EDITION. Tuesday, April 3, 1924.

Physical Prowess Excites Attention.
 Almost anyone likes to see any feat of skill or physical prowess. The development of the brain and body both are desirable and for that reason anyone excelling in either form of development becomes more or less of a national figure.
 Sometimes we think that brain is much greater than muscle, and yet we find a hundred thousand people willing to pay large sums to watch the physical prowess of a negro and millions crazy for news as to the outcome of the struggle for mastery in the fishing ring.
 Most people are interested in watching gymnastic stunts. On the variety theatre platform, seldom a week passes without a gymnastic exhibition of some kind. Sometimes it is purely an exhibition of strength, but more often of muscular control and skill in physical exercise. We are interested in the development of the human body but most of us prefer it to be the development of some other human body than our own. We take our sport by proxy and while we admire physical excellence few of us think of practising on ourselves.

Sport by Proxy Few Advantages.
 There are few advantages to be gained in getting our sport by proxy. The larger our own waist becomes the more we admire the man who has a small one. At last we die from fatty heart while waiting for news of the winner of a "big fight." It is a curious anomaly.
 There are not many opportunities for sport in Prince Rupert. Our playgrounds are few. Yet it is noticed that the few open spaces there are usually lack players. Few athletes nowadays care to enjoy a game unless there is an audience. Everything is done for the gallery. And the gallery pays for its fun.

Whole City Watches Hockey.
 Practically the whole of Prince Rupert watched the hockey game between Ottawa and Vancouver. It has been for days one of the chief topics of conversation. Newspaper telephones have been busy from those wishing to know the result. Newspapers have been carefully scanned for particulars of the game. Although most people here have never seen any of the players and some have never even watched a hockey match, they are keen over the outcome. It is an odd condition. Physically we are deteriorating and yet we take more interest than ever before was taken in the physical prowess of our teams and individual players.

Days When All Would Get Away.
 These are the days when everyone would like to get beyond the city limits. The outdoors is calling. Getting away is difficult. It brings once more to notice the fact that there is no road leading out of the city, not even a trail except the railway track. The only method of getting away is to take to the water.
 The local public works department of the provincial government have been making reconnaissances but it is hoped there will be further action taken this year so that construction may start early next season if not before. Without making our action political and yet with firmness and emphasis we should press upon the authorities at Victoria that Prince Rupert needs a road leading out of the city and needs it badly.

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours from midnight to midnight.
 The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.
 The height is in feet and tenths of feet above the average level of lower low water.

No Fear of Pains Now

Indigestion is one of the worst forms of stomach trouble, and many people suffer terribly after every meal they eat. The rising and souring of the food, pains in the stomach, heartburn, water brash, belching, etc., are some of the symptoms. There is no need for any person to be troubled with indigestion, dyspepsia or any other stomach trouble if they would only take Burdock Blood Bitters, which contains a combination of nature's roots, herbs, oils and berries; a combination that can not help but put the stomach right. Mr. H. H. Collins, Norton, N. B., writes: "I was with the overseas forces for four years and two months, and in October, 1916, I was unfortunate enough to be wounded and taken prisoner. I was a prisoner for 7 1/2 years, and the food they gave me was not good, at times, and after a few months I found I was suffering from indigestion. When I came home in July, 1919, I was nearly a wreck. I was told to use Burdock Blood Bitters. I did so and found great relief, and can now eat without fear of pains and sickness. I would recommend B. B. B. to all who suffer from indigestion." Burdock Blood Bitters has been on the market for over forty years, and during that time has made a reputation second to none for relieving all stomach troubles. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont. Advt.

The petition from residents of the west end of Section 1 asking for a sewer outlet in Morse Creek has been referred back to them that they may make the request more definite.
The city council has decided to pay the claim of \$75 made by J. H. Shedden for damages to his car resulting from hitting the overhead sewer in the lane near the Prince Rupert Club. The club is also to be notified to have the sewer removed for it is only 7 feet above the grade of the lane and is an obstruction to traffic.

"I Am So Tired, Dearie"

IN the recent Advertising Contest the question was asked, "For what is Dr. Chase's Nerve Food most frequently used?"
And the answer in the great majority of cases was: "I have found on inquiry among my friends that Dr. Chase's Nerve Food is most used by women who have their own housework to do and small children to look after."
"When tired and worn out by the continuous monotony of household duties and the care of small children the nerves in time play out and then it is that Dr. Chase's Nerve Food provides the good friend in time of need."
Mrs. W. German, 213 Park street, Brockville, Ont., writes: "After the birth of my boy I became so weak and gradually lost weight. I was unable to do my work and was in misery because I could not sleep. My nerves would twitch and jump and I would get up in the mornings with tired, aching limbs and aching head. My heart was so weak that it would palpitate at times, and I became greatly discouraged."
"Following personal advice from friends, I began the use of Dr. Chase's Nerve Food and took altogether 12 boxes. I wish you could see how well I am now and how I am enjoying life."

Sport Chat

The football eleven from Scotland which will tour Canada this summer includes some of the best men in their respective positions in Auld Scotia today and the Canadian clubs will have to rustle up a great array of material to provide close games for the visitors. The Scottish line-up will likely be as follows: goalkeeper, Brownlie, of Third Lanark; full backs, Alick McNair (Geltie) and Dodds (Cowdenheath) or Dave Taylor (Burnley); half backs, Willie Cringan (Geltie) and Jimmy Gordon (Dunfermline); forwards, Duncan (formerly Newcastle and Rangers), Alick Bennett (Geltie) and Rangers), Andy Wilson (Dunfermline), Jimmy McMenamy (Partick Thistle) and Alan Morton (Rangers).

It's what an athlete does over a period of years that counts in sport rather than what one does in a single performance or in a single year. Consistent and continual good playing will make stars where spasmodic and periodical flashes of brilliance cause but temporary sensationalism. Ty Cobb, through his twelve years of leadership in the American League, has taken a place that cannot be usurped even by Babe Ruth, last year's hero, unless he keeps going for many more years the way he did last.

Sir Auckland Geddes, British ambassador to the United States, will be the guest of honor at the dinner to be given in New York on April 22 for the victorious U.S. Davis Cup tennis team, according to an announcement made by Julian S. Myrick, President of the United States Lawn Tennis Association. Inasmuch as the team which won the cup played both in England and Australia and journeyed to the latter country via Canada, it was considered peculiarly appropriate that the British ambassador should be present. Said Mr. Myrick: "The fact that the British ambassador has done us the honor of accepting our invitation shows clearly the position which tennis has attained internationally, and promises to make this dinner the most important event of the kind that has ever been held." The dinner will take place in the grand ballroom of the Biltmore Hotel. In addition to the Davis Cup team, members of former U.S. teams and men active in tennis throughout the United States are expected to be in attendance.

PRINCE GEORGE NOT IN FAVOR PROVINCE CUT

Generally Felt that the North is Neglected but Few See Remedy in Secession.

TWO HUNDRED ATTEND MEETING LAST WEEK

There will be no secession movement in British Columbia long the line of Colonel Peck's resolution in the House of Commons, if the public meeting held in the Rex Theatre on Wednesday evening is any index of public feeling, says The Prince George Citizen. There were upwards of two hundred persons in attendance, including a number of ladies, but there were no fire works. All of the speakers were in accord that the district has never received justice at the hands of the various governments at Victoria, but there was not one of three who was prepared to take the hazard of the die, and win or lose it all. This was the line of Clement P. Deykin. He was for cutting loose from the south and taking a chance. He argued the north would get nothing the way it was hunted, and it could scarcely get less under any other arrangement.

John Melnis and Hiram A. Carney divided the rest of the talking between them. They were in agreement in the view that the electors in Fort George riding were shabbily treated, and while a change might be desirable, neither of them was prepared to subscribe to the separation idea of the Colonel Peck resolution. There would be difficulties in the way, and the independence to be secured might cost more than it would ultimately be found to be worth, and taken all in all they would sooner hang on and continue to receive a scanty hand-out for the district than take the chance of striking out for themselves.

Among those on the platform when J. H. Johnson, president of the Board of Trade, took the chair, were: Acting Mayor Barclay Keegan, H. A. Carney, Geo. Fenwick, A. McE. Young and Frank Whitmore.

Pattullo's Success.
Clement P. Deykin was the first to speak to the resolution. He said he had lived in the district for the past eight years, and there had been boards of trade, chambers of commerce, Liberal and Conservative, and workmen's organizations. They had all passed resolutions or sent delegates to the coast, but when they reached Victoria their various expressions of opinion had fallen on deaf ears and thick skins. Only recently the people of this community had elected Mr. Perry to represent them in Victoria. He was sure he was working hard for them. He had been trying hard to get the assessor's office moved to Prince George, but he had been refused. He had also tried to get a court house which would be in keeping with the dignity of the city, but he had been again refused. On the other hand they all know that Mr. Pattullo was able to go back to Prince Rupert with a cool \$200,000 for a court house in his city, and this in spite of the fact that the people of his constituency had previously received very substantial grants for various public undertakings. Prince George could count upon receiving its usual grant of nothing. It was plain to him that the north country was looked upon simply as an appendage, a convenient place in which to collect taxes and nothing more.

Would be Expensive.
John Melnis, while agreeing that the north was not getting all it should, said the cost of administering so large a territory with so small a population would be very great. It had potential wealth but that was all. It was not developed. To build a railway into the Peace River country would require all the resources of the country back of it. If a new province was created it could safely be assumed the taxation would be higher than it is today. If they decided on a change they must assure themselves first that they would better their condition by making it. He was not apologizing for Premier Oliver and was not an adherent of his but he thought they should take

CITY ORDERS FIR LUMBER FROM FIRM IN VANCOUVER CITY

The city is to accept a tender from the Vancouver Lumber Co. for the supply of 25,000 feet of fir lumber for street work at \$28 per thousand. The decision to accept the tender was made by the council last night, Ald. Silversides being the only one voting against it, he feeling that a local tender might be accepted.

Ald. Dybbavn stated that he would always favor giving a local tender the benefit of the doubt but the difference in prices here was too great to warrant it. There were tenders on spruce, hemlock and fir but the latter was considered the best buy on account of its greater durability and the little difference there was between its price and the lowest tender on spruce submitted.

Following were the tenders received, all L.O.B. Prince Rupert: George Little (Terrace) spruce and hemlock, \$27 per M. G. W. Nickerson Co., Ltd., spruce \$30 per M., scrambling lengths and widths, \$25. E. H. Shoekley, fir, \$36 per M. Albert & McCaffery, fir, \$33 per M. Big Bay Lumber Co., spruce, \$34 per M. J. Hanbury & Co. (Vancouver), fir, \$30 per M. Vancouver Lumber Co. (Vancouver), fir, \$28 per M.

AGREEMENT WITH ELECTRICAL MEN

No Raises of Pay Being Considered This Year by Committee.

An agreement between the city council and the International Brotherhood of Electrical Workers, Local No. 314, was adopted by the city last night. It provides for 8 consecutive hours out of 24 to make a day except in the case of change of shift.

Ald. Perry, chairman of the utilities committee, informed the council that the workers at Shawatlans had asked for a raise in pay but had withdrawn the request when told that no raises were being entertained at the present time.

John Melnis, while agreeing that the north was not getting all it should, said the cost of administering so large a territory with so small a population would be very great. It had potential wealth but that was all. It was not developed. To build a railway into the Peace River country would require all the resources of the country back of it. If a new province was created it could safely be assumed the taxation would be higher than it is today. If they decided on a change they must assure themselves first that they would better their condition by making it. He was not apologizing for Premier Oliver and was not an adherent of his but he thought they should take

facts as they found them. More Members.

Hiram A. Carney, who had seconded the motion for the sake of getting it before the meeting was not in favor of it. If all the dissatisfied parts were to break away there might be five provinces instead of one. Under the next redistribution the north would get more members, and they would then control the Legislature. The creation of a new province could be passed on only after all the statistics were available. He was not sure those who favored separation were willing to assume the financial responsibility that went with it.

The Board of Trade is to be asked to investigate and report to a future meeting.

Another Epidemic of the Spanish Influenza

A great many authorities have predicted a return of that terrible plague which swept Canada from one end to the other not long ago and left so many deaths in its wake, and those who did survive were left in a great many cases with some serious after effect such as weak heart, shattered nerves, impoverished blood and a general weakened and exhausted condition of the system.

If you are run down, heart not just right, nerves a little shaky, take a few boxes of Milburn's Heart and Nerve Pills and fortify your system against this terrible plague.

If you had the "flu" before and it left you with any bad after effect Milburn's Heart and Nerve Pills will bring you back to health and strength.

Mrs. C. C. Palmer, Keppel, Sask., writes: "I wish to inform you of the great good Milburn's Heart and Nerve Pills did for me. After a bad attack of the Spanish influenza my heart and nerves were left in a very bad condition. I got two boxes of your pills and must say they are the best I ever used, and I have taken a great many different kinds. I will always keep Heart and Nerve Pills in the house.

HERB REMEDY DOES WONDERFUL WORK

Private Prescription of Scotch Herbalist Has Brought Relief to Thousands.

A wonderful testimony of the merit of Wonder Health Restorer, the great herb remedy sold by the Prince Rupert Drug Co., has just been received.

On the advice of a Vancouver physician Mr. Golding, now residing in Calgary, took Wonder Health Restorer for a case of Asthma from which he had been suffering for years and for which the best physicians on two continents could give him nothing that would give permanent relief. He writes that after brief treatment he is free from the trouble and has gained 17 lbs. "This," he says "is the only time I have been absolutely free from the distressing disease since June, 1915.

Wonder Health Restorer is a herb remedy, acting on the blood. It does work just as in the case of Mr. Golding on any case of Asthma, Rheumatism, Stomach trouble, Nervous disease, Kidney complaint, Piles, Skin disease, etc. It comes in liquid or capsule form. Call at the Prince Rupert Drug Co. and learn all about the record of this wonderful remedy which has brought relief to thousands.

YOUNG MAN WENT BLIND

Otto Rosenholme Stricken on Southbound Steamer—Penniless in Vancouver

Otto Rosenholme, a young returned soldier from this city who last summer was employed as cook on the trawler, Andrew Kelly, and later was employed in a similar capacity at the cold storage plant, became totally blind while on his way south a fortnight ago en route to the home of his parents at Bellingham. Having been refused entry at the United States border line he is now in Vancouver, blind and penniless.

For some time before Mr. Rosenholme left here, it was seen that his sight was failing and just before he left it became particularly bad, so bad, in fact, that he could not see to pick up change from a counter or to walk down steps. He had included having treatment by specialists in Washington.

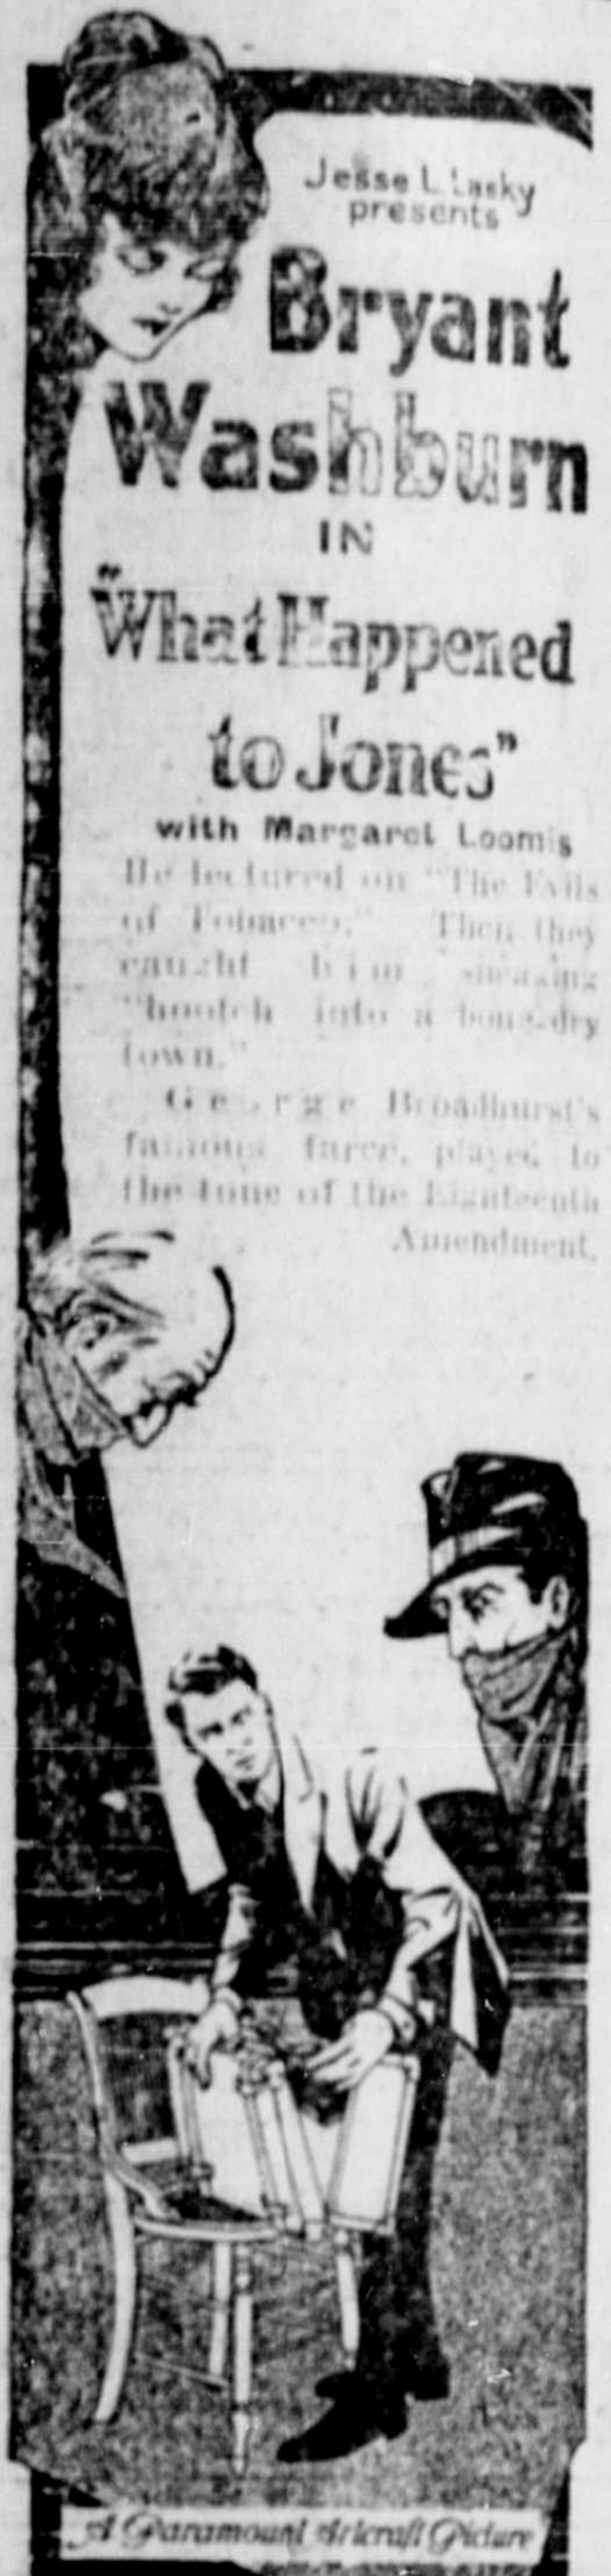

Arriving at the border after having been stricken blind, Rosenholme was refused entry to the United States on the grounds that he would be a ward of the state being blind and without money. His parents are reported to be well off.

Rosenholme is but 33 years of age and was well known here, being a big, good hearted and popular man. There are a number of persons in town who owe him money, which he had loaned, but in the time of need, none of these would pay back. The case is being looked after in the meantime by the Rebekah and Odd-fellows' lodges here and in Vancouver.
