THIS CROW CARRIES \$100,000 INSURANCE.

Josko, the performing crow who catches everything but colds in "Get Together," at the Hippodrome, in New York, is now in a class with Paderewski, Miesha Elman and other musical celebrities who have insured their fingers for fabulous amounts against rheumatism, nicotine stains and other misfortunes. This crow catface is due about to sign his own ticket. He can do everything but sing.

### Hon. T. D. Pattullo Defends Land Settlement Policy in Debate in the Legislature

VICTORIA, Oct. 22.—Hon. T. D. Pattullo, Minister of Lands, in addressing the Legislature in the debate on the address in reply to the speech from the throne, outlined the work the Provincial Government had done in the development of the natural resources of the province. He spoke of the substantial results which had been obtained in the lumber trade, which exported 80,000,000 feet during the first six months of the year.

Mr. Pattullo defended the land settlement policy of the Government, which he claimed had brought good results, and declared that large expenditures by the Government to aid settlers was not necessary.

Two speakers during the debate were critical of the Government. W. K. Esland, of Rossland, accused the Government of extravagance in the matter of P. G. E. expenditures and Thomas Pearson, member for Richmond, declared the Government had reached the breaking point in the matter of its taxation policy.

W. J. Bowser's motion for a committee to investigate the Government administration was modified to meet the rules of the House and will come up for discussion on Wednesday.

Good Roads in This Province.

When H. F. Kergin, M.L.A., stated in the Legislature that what Alin wanted was roads he expressed what was also true of every other constituency in the province, including that of the district of Prince Rupert. Roads and more roads is our need. In this city we all know how much we need a road to give us an outlet to the Interior. A few thousand dollars would give us the beginning of such an outlet, making it possible to get as far as the Galloway Narrows, a neck of water easily bridged, and giving connection a little later with the canneries on the Skeena River. It is a very modest request that this road should be built. The country through which it passes is comparatively level and there are no serious obstructions that would need either bridging or excavating.

Early in the year the proposal was made to have the Government do the work immediately. It was said that the Provincial Government would do its part if the city would build the necessary approach. Neither the approach nor the road outside the city has yet been started, and we are still waiting patiently.

In Alaska roads are being built to open up the country. The Government seems to recognize that it is their greatest need. It is also our greatest need here.

There is a program being laid down just now to build roads with a special unemployment relief fund. This district should have a part of that sum and doubtless will, and part of the allotment for this district should be spent in the district immediately contiguous to Prince Rupert.

Once More the Terrace Bridge.

One of the greatest assets to this northern district will be the development of the Lakelse Hot Springs. It is true that great things have been promised by the present owners and little done so far, but the place is bound to be a prominent feature of the attractions of this part of the country before very long. To get to it there must be a bridge across the Skeena River.

There are many settlers going into the rapidly developing valley across the river from Terrace. Much of the soil is rich and already the work of development has commenced. The great handicap is the matter of transportation. There are roads, but no bridge to connect with Terrace and the railway station and post-office. The vital need of Terrace district today is a bridge.

Road Through From Terrace Northward.

A road that is very badly needed just at present is one leading to Kitsumkalum Lake. It is built part of the way and there is a poor wagon trail for the rest of the distance, so the cost of improving this road would not be very great. If it is made so that an automobile can get through to the lake it will be a great advantage to the miners and especially to those who are about to test the oil possibilities of the valley.

There is a small mill recently taken in to the Kitsumkalum Lake district to work on one of the mines of that valley. The great handicap is the difficulty of getting in supplies and getting out the ore. Roads again are the plea of the people of Terrace. We all realize that we cannot get them all at once, but this road to the lake and the bridge to connect with the section across the river are vital needs just at present.

Other Roads Farther Along the Valley.

All along the railway right up to and beyond Prince George there is a similar need for more roads and better roads. There is not a community in the north that is not complaining. Much has already been done in some places and this year improvements have been made and new roads constructed, but the need is very great. Anything the Legislature can do to remedy the situation and to make transportation easy will be welcomed by the people.

Alin has its own peculiar difficulties. Communities there are much like Prince Rupert, wholly cut off from the neighbors except by the water route. We all need consideration just now, and of course we all think our own needs are the greatest. The Provincial Government has a big job on its hands to satisfy the people of the north. The work has to be done gradually. All we ask here in Prince Rupert just now is that a start shall be made this winter. Then we will pester the life out of the Government until it is carried on farther.

UNABLE TO WALK FOR A YEAR

Paralysis Entirely Relieved by "Fruit-a-lives"

The Wonderful Fruit Medicine Paralysis is a break-down of the Nervous System and affects the victim in various ways. Sometimes, nervousness makes itself known by hysteria, insomnia, constant headaches, or it may be so bad that one is partially or completely helpless in some part of the body, just as Mrs. Heacock was.

"When I was twenty-eight years of age, my doctor advised me to have an operation, which I did and it proved very serious, leaving me weak and unable to walk for a year. Seeing your 'Fruit-a-lives' advertised in the papers, I decided to try them. I continued to use them regularly and today I am able to go about my home duties and care for my family."

MRS. J. W. HEACOCK. Any form of Nervousness is often caused by, and is always aggravated by, Constipation, which poisons the blood, irritates the kidneys and inflames the nerves. "Fruit-a-lives" stimulates the action of liver and bowels, kidneys and skin—tones and sweetens the stomach—keeps the blood pure, and builds up the entire nervous system. In a word, "Fruit-a-lives" has proved that it is the most scientific and effective remedy in the world for Nervousness or a disordered condition of the nervous system. 50c a box, 6 for \$2.50, trial size, 25c. GOVERNMENT CASTS BLIGHT

Reflection Caused by Condition of British Railways Today.

MOTOR TRAFFIC IS KEEN COMPETITION

A letter just received from England has a scathing reference to Government ownership as practiced in that country. It says:

"Last month the railways passed out of Government control and the service is again approaching pre-war conditions. It is surprising what a blight the Government seems to cast on everything it touches. The railways will have to brighten up or much of their pleasure traffic will depart from them. The motor cars-a-bance, each holding from 14 to 30 people, have got such a grip on the community that they are making a big inroad into the railway traffic. The way in which they have increased is amazing. It is nothing for one to do 130 miles a day and the cost is not unreasonable. Experts say that if the railways begin cutting fares the motor vehicles can bring down their prices and still pay dividends. Our roads are now so good that their wear and tear is much reduced while the dust is eliminated by treating the surface with a mixture of tar and pitch."

Ten Years Ago in Prince Rupert

October 22, 1911. Sir William White, British naval architect, Lady White and Miss White reached the city yesterday in the course of a tour of Canada. They went up the line by special train. He blames the press of England and Germany for fanning the flames of war but is of the opinion that such a conflict will never occur. He says that British Columbia has nothing to fear of foes.

The crew of the trawler Kingway refused to put to sea this morning claiming that the vessel is in unseaworthy condition with a big load of coal on her decks. She has only two inches of free board.

SONS OF CANADA ANNUAL DANCE

There was a lively and enjoyable dance in the St. Andrew's Hall last night under the auspices of the Sons of Canada. There was plenty of movement all the time and most of the more than two hundred people present remained until two o'clock and after, held by the pure enjoyment of the occasion. The Westholme Orchestra provided the music, with a prelude during which D. Panthorpe at the piano and Jack Beattie at the drums kept things moving.

The committee responsible for the event was a small one but it produced results. It was made up of Jack Beattie, W. Hlyth and Geo. Johnston. Mr. Beattie made an excellent master of ceremonies.

Some of the sports leaders did the waiting on table. These included such men as Messrs. Shakespeare, Menzies, Stephen, Robinson and Laporte. The supper was excellent and the service everything that could be desired.

The Man in the Moon SAYS--

WITH Colonel Peck addressing a meeting on Monday night and M. A. Macdonald and Fred Stork on Wednesday, we might label next week "political week."

IT is a dull campaign without a newspaper editor in it.

WINTER is coming on and I predict a rather deep snowfall on or about December 6, deep enough to cover all trace of all Independent Liberal and Conservative National Candidates.

BUT why peek on me says the stork.

JOHNNY said he knew what they raised in Poland but he did not want to be paddled on the notice for saying such a word.

THESE are the times that try men's souls. It behooves every citizen who has the good of the country at heart to get a job for himself if he can, probably a political job.

THE Meighen party is making a million dollar frantic appeal to the country. It expects the people to pay the cost over to the manufacturers after the raising of the tariff.

### BRINGING UP FATHER

## Bolsheviki Are Not so Very Red in Southern Russian Ports Today

BATUM, Oct. 19.—(By a Staff Correspondent of The Associated Press.)—Entrance into Russia through the Black Sea may be compared to a visit to a dreaded battlefield. There's lots of fear of death and destruction, but somehow one does not find them. These elements to uneasy sleep seem to lurk always just a little farther along.

The traveller has himself rammed full of vaccines—vaccines against cholera, pest, smallpox and typhoid—is made properly ill in advance, only to find that these diseases are just now out of season. The only thing he needs is quinine, not for himself but for malaria patients about the seaports.

Fear of Russia should not be based on fear of violence, of bodily hurt, so much as to the discomfort of living in a land where social and economic conditions are very hard. Money is hard to earn. Dock laborers at Batum, when they work, may earn 8,000 rubles, or eight cents per day, and this is the price of two pounds of bread.

After all the stories of revolutions and counter revolutions, the murders and whatnot, one is distinctly surprised to find people going about as usual. There seem to be more people than ever before. One wonders where they come from. They swarm about the cities, the train stations in the country, thick as ants.

Yet rich and poor seem alike engaged in the process of getting out of Russia. Many of the rich have done so. Their old life has been broken up, their social life, their life of educating and rearing families. Their manner of living and thinking doesn't fit in to the new chaos, and they prefer to get to Constantinople—so much so that it has become almost a Russian city—and thence filter through to Europe and there live on charity and their wits. Some manage to retain wrecks of their fortunes, for old Russia was rich beyond the dreams of western Europe. Everybody seems to have had gold and jewels in abundance. Those with property are still slipping away, and without too much difficulty or hindrance from the Soviet.

**Melkov's Poolabness.**  
Only they must use caution. A certain Melkov, the Russian-Armenian owner of the newspaper Horizon, in Tiflis, had his home requisitioned, so he got leave to depart to Constantinople. On the way his baggage was searched, a diary was found telling his inmost reflections about the Bolsheviki and the new order of life, a diary that he possibly was intending to publish. The foolish man was hauled before the "Cheka," the secret police with extraordinary powers, from whose decision there is no recourse, and he was executed.

Landing from one of the various passenger and freight vessels that run weekly in and out of Batum, to and from Constantinople, the traveller finds that the Bolsheviki are not such dreadful people after all. It is far easier than getting to or from ship in Constantinople, where the Allies reign.

**Red Guard.**  
There are a lot of guards at the gangplank, to steer departing travellers through the customs, but most anyone passes back and forth who wishes. There is first the formality of telling the port control who you are. He is a good-humored, patient, glorified Red Guard who knows no language but Russian and that indifferently, there are so many dialects of Russian.

He wears a peaked cap pushed on the back of his head, with its red star and the spade and shovel of labor.

The passengers, who have carefully collected all sorts of credentials in Constantinople from Soviet commercial missions, crowd about him, and he takes their names and looks casually at their visas. The Americans, who have only a bit of typewritten paper, a receipt from the United States Consul, for their passports, generally have a Soviet letter in addition. The control officer doesn't stamp their papers at all, but merely indicates with a wave of the hand that passengers may disembark, and they do, full of surprise that they have not been disturbed. Travellers in Europe are so in the habit of being bothered that they think something is wrong here, that they haven't been.

Ashore, in the sunshine, amid the tree-lined streets, sitting in a carriage with rubber tires, driving to a good restaurant, the traveller is still wondering why something hasn't happened to him, but it probably will not so long as he has money to pay his way and especially if he is an American, thanks to American charity influence and the general good standing of Americans in the hearts of the people.

**In The Swim.**  
In Batum, now controlled by the Moscow Soviet, affairs seem to slip along in a certain loose groove. Nobody worries much about the political changes, but they do fear the "Cheka."

The most notable social change in the people of this little San Francisco, set by the seashore amid palms and flowers at the foot of a fertile hill country, is that on the beach. In the old days the girls and women of the city used to bathe often without bathing suits in a space set aside for them where no men were allowed. During the past two years the wire fence shutting off this space has been stolen, and the place for the women may be encroached upon; but many of the women continue the old custom of bathing without suits.

**May Have Good Time.**  
While there is less and less furniture in the fine houses behind the park, at the leading restaurant may be had as good a meal as in Paris or London at one-third Paris or London prices. The strict morale of the early Soviet days has gone everywhere. Nobody resents or prevents anybody else from having a good time, if they have the money. The poor, who live in requisitioned villas or who sleep in the empty warehouse sheds along the waterfront, according to their luck, do not resent any longer the good fortune of others. Those who have better clothes or better quarters are merely more fortunate, that's all.

### MEMORIAL COMMITTEE MET LAST EVENING

Arrangements being made for placing of Tablet at Sergeant William Booth School.

The committee in charge of the erecting of a memorial tablet for Sergeant William Booth at the new school which bears his name met last night in the city clerk's office. There were present: Mrs. E. V. Ling, representing the School Board; E. A. Woods, Loyal Orange Lodge; B. Blake, Knights of Pythias; A. L. Silversides, Sons of England; V. G. Dennis, St. Andrews' Society, and Theo. Collart, Great War Veterans' Association. Mrs. Ling was appointed permanent chairman of the committee and A. Woods, secretary.

It was decided to obtain price quotations for the tablet which will be 36 by 28 inches and will be suitably inscribed with a text which Principal J. C. Brady is to be asked to write. The estimated cost is \$100.

In order to raise funds to pay for the tablet, the city council is to be asked for permission to hold a Tag Day next Saturday. The ladies' organizations connected with the interested societies will be asked to take charge of the Tag Day and E. A. Woods will be cashier.

The committee is to ask the school board to change the name of the school from "Sergeant William Booth" to "Booth Memorial." It was pointed out that the tablet will give full explanation of the name so that it is not necessary for the building to bear the name which is both unwieldy and lengthy.

# THE MODERATION LEAGUE'S attitude on the public demand for beer by the glass

The Moderation League has been asked to endorse several petitions which are at present being circulated asking for the sale of beer by the glass. The consensus of opinion of the League, taken from its organizations throughout the province, has been and is in favor of the sale of beer by the glass under reasonable restrictions as being conducive to moderation. Prior to the passage of the present Act the League forwarded to the Legislature a resolution asking:

"That the commission be given power to provide for the serving of beer by the glass during limited hours in approved establishments where meals are served. Such privilege to be subject to cancellation in any locality at the discretion of the commission. No beer to be sold over a bar."

Since the passage of the Act public opinion has strongly substantiated the League's resolution, and it has been suggested that the League should urge the matter on the members of the Legislature at the present session. This the executive of the League is prepared to do. It invites the co-operation of all in favor of a moderate law and holds itself ready to assist in the presentation to the Government of petitions and the resolutions of organizations which have the above object in view.

All communications should be addressed to the Secretary

## KING SURE SUCCESS

Writes to Premier Oliver Telling of Liberal Sentiment in East.

W. L. Mackenzie King has written a letter to Premier Oliver in regard to the political situation concluding as follows:

"Throughout the maritime provinces my colleagues and I have been meeting with the most gratifying success. There is no question about the strength of Liberal sentiment in the past construction, with Vancouver as its natural western gateway. Over the incomparable railway through the Yellowhead Pass and across the boundless waters of the great Pacific there will be borne to and from Prince Rupert, 'the wealth of nations' and the sons of men' in ever-increasing volume, and which shall set a boundary to its growth."

Doings of the Mosquito Fleet Which Is the Chief Source of Prince Rupert's Prosperity

The Admiral of the Mosquito Fleet reports that the severe weather experienced during the past week has held up the halibut fishing to a great degree and what boats have made port recently brought very light catches. However, the fleet is in good shape and the morale of the crews is excellent.

The Kouyasu, Capt. "Curly" Skogmo, is in port having her engines overhauled by the Reliable Machine Shop. On completion of this overhaul she will leave for sea again.

The Speculator, is in dry dock at Cow Bay, being cleaned and her hull is being fixed up. It is expected she will be back in the water on the next tide.

The Claran, Captain Johnson, made port Wednesday after being out on a hunting and fishing trip.

The Scrub, Captain A. Prince, left for the deep sea fishing grounds last Thursday.

The W. & T., Capt. A. Jacobson, is down at the drydock, having unloaded 7000 pounds of first class halibut for the Atlin Fisheries. She is leaving for Ketchikan for ice and bait, after a few minor repairs.

The Cedric, Captain Seleg, left port for Ketchikan early in the week, but owing to the stormy weather encountered outside the bay, the skipper was obliged to put back to port.

The Volunteer, Capt. C. Siverzen, has just made port with a thousand pound catch of halibut. Stormy weather was experienced on the deep sea grounds, the catch consequently being very small.

Captain Ed. Skogmo has been fishing from the Port of Prince Rupert for the past five years. He was engaged in the cod and herring fishing off the Norwegian coast for ten years before coming to this part of the world. For a time he tried his luck fishing salmon on the Pacific Coast around Columbia River, Oregon, but states that since he has hit Rupert he has decided there is no other place like it for the fishing game and has finally decided to make his permanent residence here.

The Maud, Captain Piers, has arrived in port with 500 pounds of halibut, and reports that it was impossible to stay out and make the fishing worth while owing to the dirty weather.

The Molly May, Captained by Bob Thompson formerly skipper of the Lillian M., is in Cow Bay fixing up for the winter fishing season. The pilot house is being entirely rebuilt. When this work is completed she will start out for the winter fishing on the deep sea fisheries.

The California, an American fishing boat, Capt. John Peterson, went out from dry dock last Thursday, she proceeded to Ketchikan to get ice and bait. The California will be fishing on this coast until Christmas when she will leave for Seattle, her home port.

The Forward, Capt. Magnus Jacobson, is going up to Ketchikan for ice and bait and will proceed from there to the deep sea fishing grounds.

The Hanaco, Capt. Ross Ivarson, is undergoing a few minor repairs at Cow Bay, upon completion of which she will leave port for the winter fishing.

MESSRS. J. & C. Currie are rebuilding the Ruby May at the N. M. McLean boathouse, Cow Bay. She is 40 ft. long by 9 ft. 6 in. beam and will be fitted with a 14 h.p. Frispy engine, and upon completion will be used for logging purposes. It is expected the work will be completed in about a week's time. Upon her first trip it is the intention of the owners to go on a little hunting and cruising trip.

Bill Shrubbsall, of smoked

black cod fame, has put through the smoke house this week 7000 pounds of black cod, halibut fillets and kippered salmon, of which a large amount has been shipped east. The plant is going full blast and Bill is one of the most optimistic men in the fish game today.

The late Martin Hansen, skipper of the ill-fated Nora, which was wrecked off Dundas Island last Sunday morning, came to Canada from Grimaby, England, in 1910, to the Doughty Fish Company, operating on the Queen Charlotte Islands, where he worked for two years. He came to Prince Rupert in 1912 and was employed by the Canadian Fish Gold Storage Co. Ltd. for a number of years.

Last winter he acted as mate on the McCullough, owned by the Cassiar Cannery Company. About a month ago he took over the Nora as skipper. Hansen was a Dane, aged 35.

The Pachena, Capt. Ed Westlund, has gone to Ocean Falls with a bunch of local longshoremen for the Pacific Stevedoring and Contracting Company for the purpose of loading a tramp steamer with pulp and paper for the Ocean Falls Pulp and Paper Company.

Local hunters brought in seven buck deer from across the bay during the week. They state there are more deer this year than ever before and that they had the time of their lives.

A "hoboe" baseball bat, which has been travelling through Canada and the States, originally consigned to Babe Ruth, and which finally landed at the Canadian National Express Co. office here, has again been consigned to Babe Ruth direct in a car of halibut recently shipped by the Sinclair Fisheries, Ltd. to New York.

W. J. Gash, manager of the Booth Fisheries is away on a month's vacation. He is expected to return in about two week's time.

Capt. A. Swanson is giving the Provincial a general clean-up at his own dock.

Captain "Jud" Thurber is not in good humor these days. He sailed his good ship "Mayflower" to Wark Island for the purpose of getting bait, but on arrival found that the other fellow had been there first with the consequence that he had to return to port disappointed. However, being in fighting trim on his return he raided the local Gold Storage and obtained the neces-

**Strength**

Strength of muscle does not indicate strength of nerves. On this account many people who look healthy enough suffer from nervous troubles and cannot understand what is ailing them. Sleeplessness and irritability are among the early symptoms. Indigestion and tired feelings soon follow.

Read this letter from an Ontario man:

Mr. W. L. Gregory, Charles St. E., Ingersoll, Ont., writes: "I had been troubled for quite a while with indigestion. At times there would be a twitching of the nerves of my stomach; and I also found it difficult to get a good night's sleep. I am a moulder, and owing to the nature of my work my system became run-down. I took a treatment of Dr. Chase's Nerve Food, and found great benefit from this medicine. They did me a great deal of good. I have not been bothered at all with indigestion since, and can sleep much better. I have recommended Dr. Chase's Nerve Food to many of my friends, as I think it splendid for anyone run-down and needing a tonic."

sary bait. He is now trying to vent his spite on the halibut in the deep sea fishing waters.

The Topic of Vancouver recently unloaded a cargo of coal brick and tile from two scows for Albert & McCaffery, Ltd. at the Company dock. She is returning to Vancouver for another two scow loads of brick, lumber and coal.

The following boats of the Mosquito Fleet are lying in port: Viola, Tseequa, Plop, Violet, Carl, Debora, Beaver Cove, White Lilly, Ethel June, Sherman and Laura.

**Sport Chat**

The Braves Field, in Boston, is the biggest ball park in America. It seats close to 40,000, having biggest space and stands in the big leagues. However when the New York Giants add 20,000 more seats to the Polo Grounds, then it will be the largest.

Brothers have often taken part in World Series baseball games. This year it was the Meusel brothers and last year Jimmy Johnson, Brooklyn, and Wheeler Johnson, Cleveland, played. Going back into history there were George and Harry Wright of the Cincinnati Reds, in 1859. Later there were "Kid" and Harry Kleason, all stars of the very first water.

Mike and John O'Neill were famous and George Wiltze outshone his brother Lou. There were the Coveleskies, the Maissels, the Russells and numerous others. Jim O'Rourke and his son both played ball at the same time. Baseball does seem to run in a family.

The heaviest bat in the majors. Not the Babe's unless he has lately switched to a heavier model. Eddie Rousch, of the Cincinnati Reds uses a 35 inch bat that weighs 50 ounces while Ruth swings a club that is an inch longer and weighs 47 ounces. Steve O'Neill, of the Cleveland Indians, uses the largest but not the heaviest bat. It is 34 inches long and 2 11-16 inches in diameter. The longest bat is that swung by Yip Owens, who was in Joe Cambillion's Minneapolis team for years.

Bill Brennan has stayed longer with Jack Dempsey than any other boxer. That was in Madison Square Garden on De-

ember 14, 1920. It went twelve rounds. No other boxer has remained in the ring more than ten rounds with Dempsey.

**Exhibition Building.**

It was decided to take over the Exhibition Building for the playing of the games and for practice. A committee is to be appointed to prepare four of the booths in the hall for dressing room purposes. A schedule for practices will be drawn up at an early date. The committee is to work in conjunction with the Exhibition Association to see that proper care is taken of the premises. The captain of each team will be provided with a key to the building for which he or she will have to sign. Such persons will be held responsible for the proper care of the hall while the teams are practicing or playing.

The date for the closing of entries has been advanced to November 1 in the hope that more teams will enter. The league schedule will be opened on November 15 when there will be a Senior League fixture as a feature. After November 1, the time tables for the various leagues will be drafted.

### SMITHERS TO INCORPORATE

Vote Taken Gives 169 For and 54 Against Important Change.

SMITHERS, Oct. 22.—Smithers is to be incorporated. The citizens so decided at a vote taken yesterday when there were 169 ballots cast in favor and only 54 against. Those who voted against the move were afraid that when the management of their affairs was placed in their own hands the tax rate would be raised.

The matter of incorporation was discussed recently in public meeting and there was some persistent opposition. Now it seems as if this important step is to be taken immediately so that the taxes of next year will be paid to the municipality instead of to the provincial collector.

### NEW DINING ROOM FORMALLY OPENED

Mr. and Mrs. George Richmond Entertained Friends at Party Last Night.

Mr. and Mrs. George Richmond entertained a number of their friends at a delightful whist party in the St. Regis club rooms last night. The affair was a formal housewarming of the new quarters which, although used on many occasions previously we not formally opened.

There were five tables of whist and the first prize winners were Miss Vickers and E. A. Woods, the latter having won on a cut with G. Cook. A special prize for the highest individual ladies' score was won by Mrs. H. H. Hemmings. Consolation awards were won by Mrs. G. Cook and S. M. Newton. Delightful refreshments were served and the affair broke up at an early hour this morning.

A surprise in political circles comes in the announcement of the nomination of William Lyles, a C.P.R. conductor, of Kamloops, as a labor candidate. The labor convention was called in Kamloops after the disagreement in the farmers' convention.
