Legislature Adjourns for Easter Recess After Tilt Over Slaughter of Cattle

VICTORIA, March 26.—Adjournment over the Easter recess
has been taken by the Legislature until Tuesday. Few bills re-
main for consideration and the session should not last much
longer.

On Thursday consideration of the estimates was proceeded
with. An item of \$33,000 for inspection of an compensation for
cattle affected with tuberculosis caused a tilt between Premier
Oliver and Y. J. Bowser. The former explained that in dealing
with the matter the province was hampered by the Dominion.

The Legislation forbidding the
sale of any part of the carcass of
an animal that died from dis-
ease has been altered to the effect
that these restrictions should not
apply to cattle slaughtered because
they were infected with tubercu-
losis.

Mr. Bowser held that there
would be little interference from
Ottawa should the province de-
sire to slaughter infected cattle
and prevent the use of the meat
for food. He suggested that the
Government was not trying to
stop the sale of such meat for
food as they would thereby save
in the amount of compensation
they would have to pay to the
cattle owner, the amount secured
again the \$50 compensation al-
lowed for each animal.

The Spirit Of Easter.

A great annual festival which has been celebrated with unbroken continuity for over eighteen hundred years is something which cannot be ignored. Observed by people living on every continent, not only in crowded cities but also in remote corners, its psychological effect in producing a wave of inspiring thought which sweeps the world is very great.

The spirit of Easter is the spirit of the fulness of life and the brightness of hope, which rises triumphantly over every obstacle. This spirit is exemplified by analogy in the springtime of nature. The buried seed passes through the gloom of death and bursts forth into the brilliant flower.

The Historic Example.

This spirit of hopeful life received its highest historic revelation in the Person of Christ, whose material body was once crucified on the cross and buried in the tomb, but whose living personality could not be crushed or destroyed by death, but rose triumphantly above every physical limitation, as the influence of His Spirit over the minds of millions today abundantly testifies.

The Practical Meaning.

This spirit of hopeful life is now being manifested in various practical ways by many ordinary men and women, who through the spirit of their personality are rising successfully above their cramping circumstances in their achievement of a noble purpose, organizing victory out of apparent defeat.

The Spiritual Body.

This spirit of hopeful life will find a fuller expression when we make the thrilling discovery that while our body of flesh and blood cannot pass into the kingdom of the spiritual, our soul when united to God through the Living Christ has the power of clothing itself with a new body more ethereal in its nature and therefore better adapted for the environment of a more spiritual sphere.

Personal identity does not lie in material particles but in spiritual personality which thinks and remembers, loves and chooses. The spirit of the fulness of life and the brightness of hope rises victoriously above the decay of the transient flesh and the limitations of the grossly material. The joy of Easter is the joy of a progressive life ever adapting itself to its new environment in a more spiritual body. St. Paul distinctly tells us that "our body which shall be" will not be the same as "our body which now is," though our identity of personality will continue.

"Leaving thine outgrown shell by life's unresting sea."
F. H. DU VERNET,
Archbishop of Caledonia.

Hon. Mary Ellen Smith in Cabinet.

The Daily News takes pleasure in congratulating Hon. Mary Ellen Smith on her appointment to a cabinet position. She is the first woman to receive such recognition in this country and it is generally expected she will do it honor. Her influence in the Government of the country should be a powerful one.

Much Interest in New Province Proposal.

Much interest was taken in the announcement of the proposal from Ottawa to form a new province of northern B. C. and the Yukon. Most of the comments heard in connection with it were favorable.

A similar move was made not very long ago to partition Ontario, the newer section to the northwest wishing to break away from the rest. No success was attained although it is stated that as a result of the movement, the new section received better treatment than formerly. Those who favor the move usually seem to assume that in case of a change Prince Rupert would become the capital. Other places, however, would have claims.

"FRUIT-A-LIVES" Made Her Well, Strong and Vigorous

MADAME ARTHUR BEAUCHER
805 Cartier St., Montreal.

"I suffered terribly from Constipation and Dyspepsia for many years. I felt pains after eating and had gas, constant headache, and was unable to sleep at night. I was getting so thin that I was frightened and saw several physicians who, however, did not seem able to help me.

At last a friend advised me to take 'Fruit-a-lives'. I did so and soon I felt some relief. I continued with 'Fruit-a-lives' and in a short time, the Constipation was banished, I felt no more pains or headache or the disagreeable sensations that follow dyspepsia. Now I am well, strong and vigorous."

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

The height is in feet and tenths of feet above the average level of lower low water.

SALVATION ARMY ATTACKED NIGHT LIFE OF OLD LONDON TOWN

LONDON, Mar. 26.—Two hundred "picked troops" of the Salvation Army, headed by a brass band, made an attack on London night life recently. The forces gathered in Regent Street shortly before midnight and appeared suddenly in Piccadilly Circus, surprising the crowd in the cafes and other places of amusement.

Without warning the strains of "Shall We Gather at the River" burst up on the ears of the revelers and the cafe devotees. Pedestrian traffic practically stopped while the marchers passed up Shaftesbury Avenue into Leicester Square, thence to Charing Cross.

When the battalion reached Leicester Square, four young women in furs, silk stockings and Piccadilly complexions brought up the rear of the column.

"Things have been in a bad way here for some time past," said Commissioner Cox, who led the attack. "An outcry has gone up that nobody is doing anything on behalf of the young women and girls who are found on the streets nightly in greater numbers.

"Why there should be so many mere children on the streets it is difficult to say, but probably the war has had a great deal to do with it. It gave them a taste, not for wickedness, but for 'life' as they understand it. They want too much dancing and pleasure and that very often leads to sorrow."

WAR WIDOWS MARRY AND LOSE PENSIONS

Budget to be reduced by £10,000,000 This Year Result Pension Reduction

LONDON, Mar. 26.—British war widows are re-marrying so rapidly that the Chancellor, of the Exchequer, Austen Chamberlain, expects to be able to reduce pensions appropriations in this year's budget by £10,000,000 sterling. This, however, is only one of the factors contributed to the anticipated reduction, but it is stated that thousands of women made widows by the war have again become wives and thus automatically taken their names off the pension list. The pensions granted to widows of soldiers who died in active service are withdrawn when the widows re-marry.

FINED FOR KEEPING DOG TIED TO KENNEL

LONDON, Mar. 26.—A banjo manufacturer, of Southwark, was fined at the Tower Bridge police court for cruelty to a dog by keeping it on a chain. He was said to have admitted that the animal had been chained up for 16 years, and had been out only once during that period. Afterwards it was found to be aging and was destroyed with the owner's consent. The magistrate described the offence as sentencing a dog to canine penal servitude.

Ten Years Ago in Prince Rupert

March 26, 1911
The choral society had a grand concert in the Empress Theatre last night in aid of the hospital funds. J. E. Davey was the conductor, Miss E. A. Froud the accompanist and the soloists were Miss Laura Holby, J. E. Davey, R. W. Froud and W. H. Melliar. A quartette made up of Messrs. Davey, Scott, Melliar and Froud was very entertaining and Frank Ellis gave recitations. The concert was opened with an address by Mayor Manson.

M. R. P. McLennan and J. C. McLennan have been appointed to the Customs Service here and A. W. McLean has been named as assistant to Engineer Jennings at the construction of the marine depot on Digby Island.

The license commission has again to deal with the Savoy license application last night. The commissioners object that it is too near a place of worship, the Baptist Church, to be given a license. Charges of illegal selling on Sunday against the Knox Hotel were also heard. Oliver Besner stated that he had instructed his men explicitly not to sell against the law.

Those Nasty Little Pimples That come on the Face Are Caused by Bad Blood

Many an otherwise beautiful and attractive face is sadly marred by the unsightly pimples and various other skin troubles, caused wholly by bad blood.

Many a cheek and brow cast in the mould of beauty have been sadly defaced, their attractiveness lost, and the possessor of the "pimpley face" rendered unhappy for years.

Their presence is a source of embarrassment to those afflicted as well as pain and regret to their friends.

There is an effective remedy for these facial defects and that is Burdock Blood Bitters, the old reliable medicine that has been on the market for over 40 years.

It drives out all the impurities from the blood, and leaves the complexion clear and healthy.

Mrs. James Williams, Waterford, Ont., writes:—"My face was covered with pimples for nearly a year. I used different kinds of remedies to get rid of them and finally thought there was no relief. A friend dropped in one day and told me I should try Burdock Blood Bitters. I did so and used three bottles and found the pimples were all disappearing from my face, and now I have a clear complexion again."

"BELOW THE SURFACE" STIRRING STORY OF DEEP SEA DIVING

In "Below the Surface" at the Westholme tonight, the story centers around Martin Flint and his son, Luther, deep-sea divers living in a small New England village. Martin's rescue of the crew of a navy submarine by means of a record dive brings him to the attention of an unscrupulous promoter, James Arnold, who approaches the diver with a proposition to salvage the treasure in an old wreck.

Luther collapses in his attempt to reach the treasure. Edna deserts him. Martin traces the girl to Boston, bundles her onto the steamer, and starts back with her. Arnold secretly follows on the same boat. The steamer is wrecked and Arnold and Edna are drowned together. Martin escapes. Luther insists upon diving for his wife's body, and, doing so, discovers evidence of her perdition. The boy's air-line becoming fouled, Martin rescues him from sure death.

Complications over a mix-up in names, a jealous husband, and other mirth-provoking details involves Billings into a mess, from which he extricates himself by a clever trick.

GERMANS TRADE IN MARRIAGE LICENSES

Immense Increase in Weddings Induced by Cheaper Living Conditions

BERLIN, Mar. 26.—Marriage licenses are being utilized for profiteering by Germans. The marriage "profiteer" developed out of the situation which has made necessary the strict "rationing" of housing space. A married couple or a pair about to be married may obtain permission to occupy certain rooms by presentation of the marriage license to the Housing Office.

It has been discovered that many marriage licenses have been issued to men and women who have intention to marry, but, having secured the license, and the permission to occupy the number of rooms allotted to married persons, sell the "permission" to married folks or others who need rooms and cannot find them.

The officials say some profitable business has been done, but that the practice is being stopped by keeping a watch on those to whom marriage licenses are granted and withdrawing permission to occupy rooms unless the marriage is performed.

Marriages, however, eclipsed all previous records in the last year. The number has increased two-fold over pre-war years, and many fled over the marriages during the war, which fell to less than half the normal number.

"Many young folks today are getting married here simply to get a room cheaply," said a Berlin official. "The cost of the dwelling is cut in half by the marriage of a man and woman both of whom are working. They also feel they can cooperate to some advantage in the matter of food, which is a serious problem."

One Great Essential To a Woman's Health Is Her Nerves

Nature intended women to be strong, healthy and happy as the day is long, instead of being sick and wretched. But how can any woman be healthy and happy when the whole nervous system is unstrung? The trouble is they pay more attention to their social and household duties than they do to their health. As it any woman then that they become irritable and nervous, have hot flushes, faint and dizzy spells, smothering and sinking spells, become weak and nervous, and everything in life becomes dark and gloomy.

Milburn's Heart and Nerve Pills are the very remedy that nervous, tired-out, weary women need to restore them to the blessings of good health.

Mrs. P. H. Ryan, Sand Point, N. S., writes:—"I have been a great sufferer from nerve troubles. I was so weak and nervous I could not sleep at night and my appetite was very poor. I could not walk across the floor without trembling. I had hot flushes and fainting spells. When I was on my second box of Milburn's Heart and Nerve Pills I began to feel better and kept on until I had used six boxes when I felt like a different person. I am never without them in the house and recommend them to all who suffer with their nerves."

WILD BOY OF INDIA

Was Suckled by She-Wolf and Became Leader Like Mowgli

LONDON, Mar. 26.—A wild boy resembling in some respects Kipling's character, "Mowgli," who was suckled by a she-wolf and grew up to be leader of the pack, has been found in a remote section of India, according to a story told in the Times. In this case, however, the boy is reputed to have been kidnapped by a leopard. He has been recaptured and his father is now keeping a sharp eye on him to see that he does not run away to the woods.

The Times credits the tale to Stewart Baker, who was recently in the undeveloped country round the Cachar hills on the Northeast frontier of India, where he was in charge of road-mending. It is customary in that region for the villagers to mend roads instead of paying taxes. Mr. Baker asked a villager why he did not go his share of road-mending.

Had Wild Son

The man replied that he was afraid to leave his village. His wife having died a short time previously he had no one to take care of his little "wild son" who, in his absence, might run into the jungle and get lost. Mr. Baker paid the villager a visit and found a child about seven years of age, with innumerable white scars of tiny cuts and scratches all over its body.

The child's father told him that five years before, the villagers of Cachari had killed two leopard cubs. The mother leopard had prowled about the jungle bordering on the village. A few days later the mother of the child left it lying on a cloth while she went away to reap rice. In her absence the mother leopard carried the child off. The villagers searched for it, but could find no trace of it.

Missing Child

Some three years later a sportsman killed a leopard in the jungle. He told the villagers that the leopard had two cubs. They searched the jungle and found the two cubs and with them the missing child.

It ran on all fours quite fast, dodged and hid in bushes with great agility and skill and bit and fought with everyone who tried to lay hold of it. It tore to pieces and ate with extraordinary quickness any village fowl that came its way.
