Conference Today Between Labor Board and Railway Chiefs May Avert Strike

NEW YORK, Oct. 20.—Proceeding as if they expected that the efforts of the Railway Labor Board to prevent a strike by conference with the chiefs of the railway brotherhoods in Chicago would fail, railway presidents met here today to lay plans for coping with the strike.

Advertisements calling for men to take the place of possible strikers were published in today's papers by the railroad companies.

CHICAGO, Oct. 20.—The prospective railroad strike cannot be postponed but it may be settled, according to the opinions of brotherhood chiefs after conferring this morning. They considered all phases of the situation as they may be presented this afternoon at the meeting with the United States Labor Board. The union men are optimistic as to the possibility of there being no strike unless the unexpected occurs to disrupt the conference. The result of the conference is looked forward to with hope, generally.

Clearhue, member for Victoria, in moving the address in reply to the speech from the throne, dealt with the necessity of relieving the municipalities of the burden of taxes on land and advocated a revision of taxation which would reach all incomes and secure to the public treasury part of every dollar earned in the province.

Mr. Clearhue advocated the construction of a link to connect the Pacific Great Eastern Railway with the Canadian Pacific at Ashcroft, and intimated that the officials of the Liquor Board had told him the board would pay a handsome dividend this year.

Urge Utilization Port of Vancouver and Prince Rupert

VANGOUVER, Oct. 20.—That the time has come to utilize the ports of Vancouver and Prince Rupert for the movement of grain and grain products to Europe and the Orient and that if ever the deficit on the operation of the Canadian National Railways was to be reduced a great deal more business must be developed, was the statement made by G. G. McGeer, counsel for the British Columbia Government, and Robert Mackenzie, chairman of the foreign trade section of the Vancouver Board of Trade and manager of the Vancouver Milling Company, before the Railway Commission. They urged that only through the setting of fair and equitable rates such as would induce the movement of grain to the coast could the development of necessary business be encouraged.

The claim was made that a rate not higher than 25 cents a hundred pounds would be equitable, whereas the present rate was now about double that amount.

GROUNDHOG AND UNEMPLOYMENT PRINCE RUPERT MEASURES ARE WELL RECEIVED

Vancouver Paper Discusses Matter Editorially in Recent Issue.

The Vancouver Sun of recent date has a leading editorial on the development of the Ground Hog Valley. It says in part: The Ground Hog Valley in British Columbia contains immense bodies of smokeless coal. None of it is mined because there is no railway to ship coal out on. The Grand Trunk Pacific Railway has no substantial earnings on its division down the Skeena River into Prince Rupert because there is no permanent heavy freight traffic.

The Port of Prince Rupert is held back from business progress because it has no convenient coal supply.

"At one point the Grand Trunk Pacific Railway is only ninety miles distant from the Ground Hog Valley; a one-hundred-mile branch would carry the railway well into the coal field; give the railway a steady and profitable business; and give Prince Rupert its much-needed coal supply for manufacturing and export."

The smokeless coal from Alberta will naturally come into Vancouver over the level grades of the main line of the Canadian National Railway but will not invade the Prince Rupert market once the smokeless coal from Ground Hog Valley is available.

Profitable Asset.

"A field of smokeless coal is one of the most profitable assets to a trunk line railway because it gives traffic all the year round. The Lehigh Valley Railway owes its great wealth to control of such a coal field."

"This is one of the certainties for the National Railway system to make some real money and to give employment to several thousand people."

"The cost of the branch line would be repaid in a very short time out of entirely new traffic created by construction of the branch. Access would also be given to the agricultural areas situated near the headwaters of the Naas River."

URGE REPEAL PERSONAL TAX

VICTORIA, Oct. 20.—Representatives of the Manufacturers' Association and of the Vancouver and Victoria Boards of Trade will meet Premier John Oliver and Hon. John Hart, minister of finance, on Thursday to urge the repeal of the Personal Property Tax.

SLUMP IN GERMAN MARK AFFECTS THE BUSINESS HOUSES

BERLIN, Oct. 19.—The accelerated slump in the price of the German mark caused a run on German stores by foreign buyers, who, notwithstanding the enhanced prices are able to buy advantageously.

BANDIT STILL AT LARGE WITH HAUL MANY THOUSANDS

Two Candidates Now in the Field.

There are two candidates now in the field in readiness for the election on December 6.

Fred Stork is the nominee of the Liberal party at a regularly called convention with delegates present either in person or by proxy from all sections of the riding. He is a straight supporter of W. L. Mackenzie King, and if elected everyone will know exactly where to find him.

Lieutenant-Colonel C. W. Peck, V.C., the retiring Unionist member, comes out as an independent. He is being supported by the Conservatives, who, it is understood, were chiefly responsible for advising him to become a candidate.

Voice Crying in Wilderness.

If elected Colonel Peck will go to Ottawa as a voice crying in the wilderness, and unless he allies himself to some group will have little influence and very little say in the government of the country. Until the dissolution of Parliament the Colonel voted consistently with the Government and against any proposals made by Mackenzie King or Mr. Fielding, his chief lieutenant.

Esteemed as Brave Officer.

As a brave officer and war leader and citizen The Daily News esteems Colonel Peck and cannot speak too highly of his prowess. As a legislator, a maker of laws and a framer of policies, we think he has missed his calling. Within the last few weeks he toured the country with a member of the Meighen administration and it is common report in the city that until the last few days his followers expected that he would get a reward for faithfulness from Mr. Meighen in the form of a safe seat in the Senate.

That is the position as we see it. We were expecting to have to combat the high tariff monstrosity, a representative of the big interests, but the local Conservatives have not the courage of their opinions. They have chosen as their standard bearer a man who has always professed to be a free trader or low tariff man but who has consistently supported the party of protection since his return from the war.

Can He Explain His Position?

We expect to hear Colonel Peck explain his position. Doubtless he thinks he can do so to the satisfaction of himself and his particular followers. Whether he can do it to the satisfaction of the people of the riding, who have the say on election day, only time will tell. We are inclined to think he cannot.

ELKS TO OPEN NEW HOME IN CLAPP BLOCK

W. G. Barrie's Fine New Store to Be Used For Benefit Dance Next Week.

The grand opening of the new Elks' Home will take place on Thursday of next week with a grand ball under the joint auspices of the Elks' Club and W. G. Barrie, the latter of whom is providing the ball downstairs for the occasion, and also the seats dancing will be downstairs in Mr. Barrie's fine new store.

The arrangements for the big event are being made by the Christmas Cheer Committee and the proceeds will be devoted to the fund being raised to send a bereaved local family back to France.

The fittings of the new Elks Home are now almost complete. There is not only a fine lodge and dance hall with dressing rooms, but also a billiard room, reading room, buffet and bar rooms. The layout of the place is of a permanent character in the upper story of the new Clapp Building on Third Avenue.

MANY BEARS ON SALMON RIVER

Henry Benson Tells Victorians of Way They Visited Camp on Fish Creek.

"We were right up in the midst of bears, brown ones and black ones, full-grown ones and cubs," said Henry Benson on his return to Victoria from his mine at Fish Creek, Salmon River.

"To the rear of the store was the camp of the Premier Tramway Company. Some sixty men were eating and sleeping there regularly. Every morning early from three to five bears came into this camp and went to the grub box for food."

"At first the men were annoyed and alarmed as they were very big bears, but the black bear did not molest them any, and finally the men had the bears so tamed that they were taking food out of their hands. Often there would be three or four brown bears in front of the store in the day and evening. There were three black bears in the Government roasting camp, all looking for scraps of food. There was no trouble, only for the big brown bears at times in ill temper when they would not give the right of the road to a man. Two big fellows were shot, and I shot a very fat one in front of the store, from which we secured two pint bottles of bear oil. I could go on and tell of the

ales of our experiences with the bears, but I could tell you something interesting about the route in our creek, and seagulls and salmon and eagles, if I had time, but will let it go for the present."

TOO LOW A PRICE FOR MANITOBA BONDS

Province May Refuse to Sell at 97 1-3 Which Was Highest Bid.

WINNIPEG, Oct. 26.—The provincial government may reject all bids received today for the \$3,000,000, 20-year, six per cent bond issue. After receiving 16 bids, Hon. Edward Brown, provincial treasurer said the offers were extremely disappointing and announced it was possible the province may decide to wait until the market is in a more favorable condition before selling the issue. Bidders called for payable in Canada and payable in New York as well as Canada. The highest Canadian bid was 97.341, and the highest American bid was 105.4306.

A meeting of the provincial cabinet will take place this afternoon to decide whether any of the bids shall be accepted. The provincial treasurer declared himself not at all satisfied with the bids for American funds payments, in view of sales which were made recently. Winnipeg had sold bonds at \$106.5 or thereabouts, for American funds, and he did not think that Winnipeg bonds were worth more than those of the province.

Anaemia

Thin, watery blood is no more nourishing than thin, watery milk—skim milk.

But you can soon enrich thin blood, overcome the anemic condition and build up the whole system by using Dr. Chase's Nerve Food.

Mrs. F. C. Simmons, 42 Curtis St., Brantford, Ont., writes:

"For about eight years I suffered from anaemia. My circulation was poor, my gums and lips were pale, and my hands and feet were always cold. I was nervous and unable to sleep well. I had frequent headaches, seemed restless and was generally worried or irritated. There was a buzzing sound in my ears. Indigestion was also one of my complaints, and I often was attacked by weak spells. I went to a doctor, who told me I was anemic, but as I did not get any better I decided to try Dr. Chase's Nerve Food, and after the first box I felt brighter and my headaches completely disappeared. I continued using the Nerve Food for quite a while. I am quite well now, and cheerfully and gratefully recommend Dr. Chase's Nerve Food to people suffering as I did before I used this splendid medicine."

Shoes are Unnatural

NATURE never intended us to wear shoes—she intended us to go barefoot. But because it is necessary to disregard nature in this respect, it is not necessary to cripple ourselves.

From early childhood some feet are deformed—bent out of shape by narrow shoes—crippled. Why let your child's feet be like this?

HURLBUT cushion sole SHOES allow the foot to grow as nature intended. The broad toe gives room to grow for every toe—the cushion sole gives a springy natural tread. The shoes are welted and insure the lowest cost per day of wear.

Write for booklet about Hurlbut "Re-built Service" and we will tell you the name of the Hurlbut dealer nearest to you.

NAVAL BRIGADE GIVES CONCERT

The local support accorded the concert held last night in aid of the Boys' Naval Brigade in the Empress Theatre was gratifying indeed and in spite of inclement weather, the attendance was large. The program presented was an excellent one and encores were the order of the evening. The Great War Veterans' Band, under the direction of J. Gawthorn, provided the music and Miss Blanche Curtin was the accompanist.

Dido Gurvich and John Chenowski of the brigade, treated the audience to three rounds of boxing and Isa and Yosi Katsuyama, brothers, gave an excellent exhibition of catch-as-catch-can wrestling.

WORK AT LOCAL SHIPYARD WILL SOON BE DONE

Wallaces Expect to Have Canadian Britisher Out of Their Hands by End of Month.

The trial runs of the new Canadian Government Merchant Marine steamer Canadian Britisher will take place before the end of the month, stated H. J. E. Turney, superintendent of the Wallace Shipyards, this morning. Soon after that the vessel will be turned over to the Canadian Government.

The future activities of the local yard seem to be rather uncertain at the present time and the Wallace company is now awaiting reply from the railway company as to the lease. Certain of the foremen engaged on the Canadian Britisher have been given notice that they will not be needed after the end of the month. The notices had been made subject to rearrangement arriving now and then, this being dependent on the continued lease of the plant.

MUST HAVE COWS BEFORE CREAMERY

Hon. E. D. Barrow Tells Victoria People of Visit to Interior.

On his return to Victoria from his visit to the interior of northern British Columbia, Hon. E. D. Barrow said:

"At present in the Francois Lake country and south of Burns Lake there are not enough milk cattle to make the establishment of a creamery profitable, as it could not be operated at more than a fraction of its minimum capacity and that would mean extraordinary high costs."

Hon. Mr. Barrow went into all phases of the dairy situation in that country and made a plea for greater co-operation among the cattle men in Central B. C. He has started the department to work to make certain that the Francois Lake people get the best outlet for their cream. This is by way of Burns Lake to the creamery now operating at Vanderhoof, 75 miles along the G. T. P. It was found that it is more profitable for the ranchers to ship to Vanderhoof than to operate a creamery at Francois Lake, until cream production of the district increases to render possible a lower proportionate overhead cost.

Hon. Mr. Barrow said that a creamery would be established at Francois Lake as soon as the number of cattle increased.

The Man in the Moon SAYS—

THE chief objection to the bad weather is the absence of hunting stories. Some of the imaginations will run dry if there is nothing to practice on.

THE way some people tell an editor how to run a newspaper is like the way an old maid always tells married people how they should bring up their children.

JUDGING from many of the telegraphic despatches, everybody must be interested in statistics. Here goes then. If every drop of spirituous liquor in the country were destroyed and all the toppers buried, there would be ten billion times more happiness and the world would be too noisy to live in because of the shouts of the youngsters.

IF husbands were only half as good as wives say they are, this would be a wonderful world.

NOW there are two political candidates in the field and if you don't like either of them you can always run yourself.

LET'S all go to Terrace and make our fortunes, 'n have a good time.

NOW that the legislative mill is grinding, you should see the industries of the country pick up.

Mary had a little cold
 That started in her head,
 And everywhere that Mary went
 That cold was sure to spread.
 It followed her to school one day
 There wasn't any rule;
 It made the children cough and sneeze

To have that cough at school,
 The teacher tried to drive it out
 She tried hard, but kerehoo!
 It didn't do a bit of good,
 For teacher caught it, too.

Sport Chat

Winter is coming and the skating is now not very far away but nothing has yet been done about getting the Morse Creek pond prepared for the convenience of local skaters. The heavy rains are still on and there is time yet but, if the matter is to be dealt with at all, it should be taken up very soon. It has not yet come officially before the council although it is understood that certain of the aldermen have been approached on the subject. For the information of those who may be interested it might be pointed out that the proper and most effective course would be to take the matter up directly with the council or the board of works. Then the latter body could make a recommendation and there is little doubt but that they would favor the expending of the small amount of money that will be required for the work.

The New York Yankees, it is said, paid \$125,000 for Babe Ruth, the heavy hitting and spectacular outfielder and "Home Run King," while Ty Cobb, the veteran batter of the Detroit Tigers, cost only \$700 in 1905. Navin, owner of the Detroit club did not want to risk \$700 on Cobb but his manager, Bill Armour, liked the young Georgian and offered \$500 down and \$200 more when Ty made good and he made good. So the difference in purchase price between two stars is something like \$124,300.

PRINCE RUPERT MORE CONVENIENT AND SALE OF COAL IS ASSURED

In trying to persuade the Vancouver Harbor Board to erect coal bunkers for the handling of Alberta coal, James E. Dunn of the Luscar Collieries told of the high grade of the coal and the advantages to be gained by Vancouver in having the coal there. He went on to say that while it would be more convenient to ship to Prince Rupert, where a market was available quite sufficient to absorb the output, the harbor authorities here were unable to undertake the expense.

SUPERFLUOUS WOMEN SIMPLY AN ILLUSION

Members of Weaker Sex Able to Do Almost Any Work Done by Men.

In her presidential address to the National Council of Women at Sheffield, Lady Selborne discussed the question of "superfluous women." She said women did not regard the situation seriously. At present the single woman with no one dependent on her could earn her living more easily than her brother. They were very far from the point at which they could truly speak of any able-bodied woman as superfluous. Her services were wanted in a great many other capacities than those of wife and mother. We did not lack mothers. Women were taking a large part in elementary education, and the Civil Service, it was hoped, would prove attractive to many able women.

Mental Equipment. Women were not exactly like men in their mental equipment. The old notion that some activities were suitable to men and some to women was true; but the conventions of the last few centuries had made it absurd. To say that women, by their nature, were fit for such hard work as scrubbing and laundry work and unfit to be clerks, compositors, officials, or jewelers was obviously untrue. These conventions took their use in an age when education was much rarer among women than among men, and had been maintained by men who were afraid of women's competition lowering their own wages. Women of exceptional ability should not be prevented from rising to the highest posts in their trade or profession on account of their sex. Liberty would give both sexes the chance of choosing the work for which they were best fitted by nature.

HAUNTED HOUSE IS SPRINKLED BY PRIEST

Crowds Gather to See Place Said to Be Troubled by Spirits.

MONTREAL, Oct. 20.—Hundreds assembled Saturday, Sunday and Monday at the house alleged to be haunted, located at 77 Cazalais Street, St. Henri, and the police were forced to post extra constables at the door in order to prevent entry by the curious. Many came from country districts, and the police state that they have never before seen so many automobiles stationed in the district.

Rev. Father Dorval, Vicar of the parish of St. Elizabeth, in which the house is located, blessed every room in it on Sunday.

Further, he made inquiries and ascertained that fortune tellers had formerly occupied a part of the house and had predicted, by means of cards, that terrifying happenings would take place there. The cards were still in the house, and the Rev. Father tore them up and flung them in the fire.

Since his visit it is stated that everything is now normal at 77 Cazalais street.

A CURIOUS STATEMENT. A clergyman who advertised for an organist received the following reply—"Dear sir—I notice you have a vacancy for an organist and music teacher, either gentleman or lady. Having been both for several years I beg to apply for position!"
