Rupert Centre of the Timber District MACKENZIE KING HOLDING CONFERENCE TODAY ON ELECTION

Lumbering Industry Moving Towards North of Province

Lumbering will become at no distant date one of the most important industries in Prince Rupert and district. The country to the city has vast resources of timber, the total stand estimated at 38,219,620,000 board-feet of milling timber, 3,500,000,000 additional feet of smaller material for poles, piles, ties and other products.

As the timber areas in older sections of the province become depleted, this new district, which as yet has not been touched, is taking its place as a leading lumber region and the movement is surely coming in that direction.

OPENING OF FAIR TODAY

Hon. Alex Manson, Speaker and Member for Omineca, Declares Annual Event Open

Following a scheduled airplane flight by Aviator C. G. Prest in the bi-plane Polar Bear, the ninth annual exhibition of the Northern B. C. Agricultural and Industrial is being declared open by Hon. A. M. Manson, member for Omineca and speaker of the legislative assembly. The flight was scheduled for 2:15 and the formal opening of the fair at 3 o'clock. Both the Greenville and Aiyash Indian bands are taking part.

With the opening of the exhibition the city is taking on a gala appearance. Arrangements have been brought to a successful consummation and all that is now necessary for complete success is good weather which still shows favorable signs.

The work of getting the exhibits in place took the most of the morning and judging was delayed till afternoon. Although the number of exhibits in many classes will not show a notable increase over previous years their quality is better than ever. Commercial booths have been taken with increased and more representative displays. The exhibits of artistic work and cut flowers show much improvement.

At the rear of the Fair Building there are many concessions and side shows in operation which will, doubtless, be very popular. On the whole the 1921 exhibition gives promise of equalling previous affairs and eclipsing them in many ways.

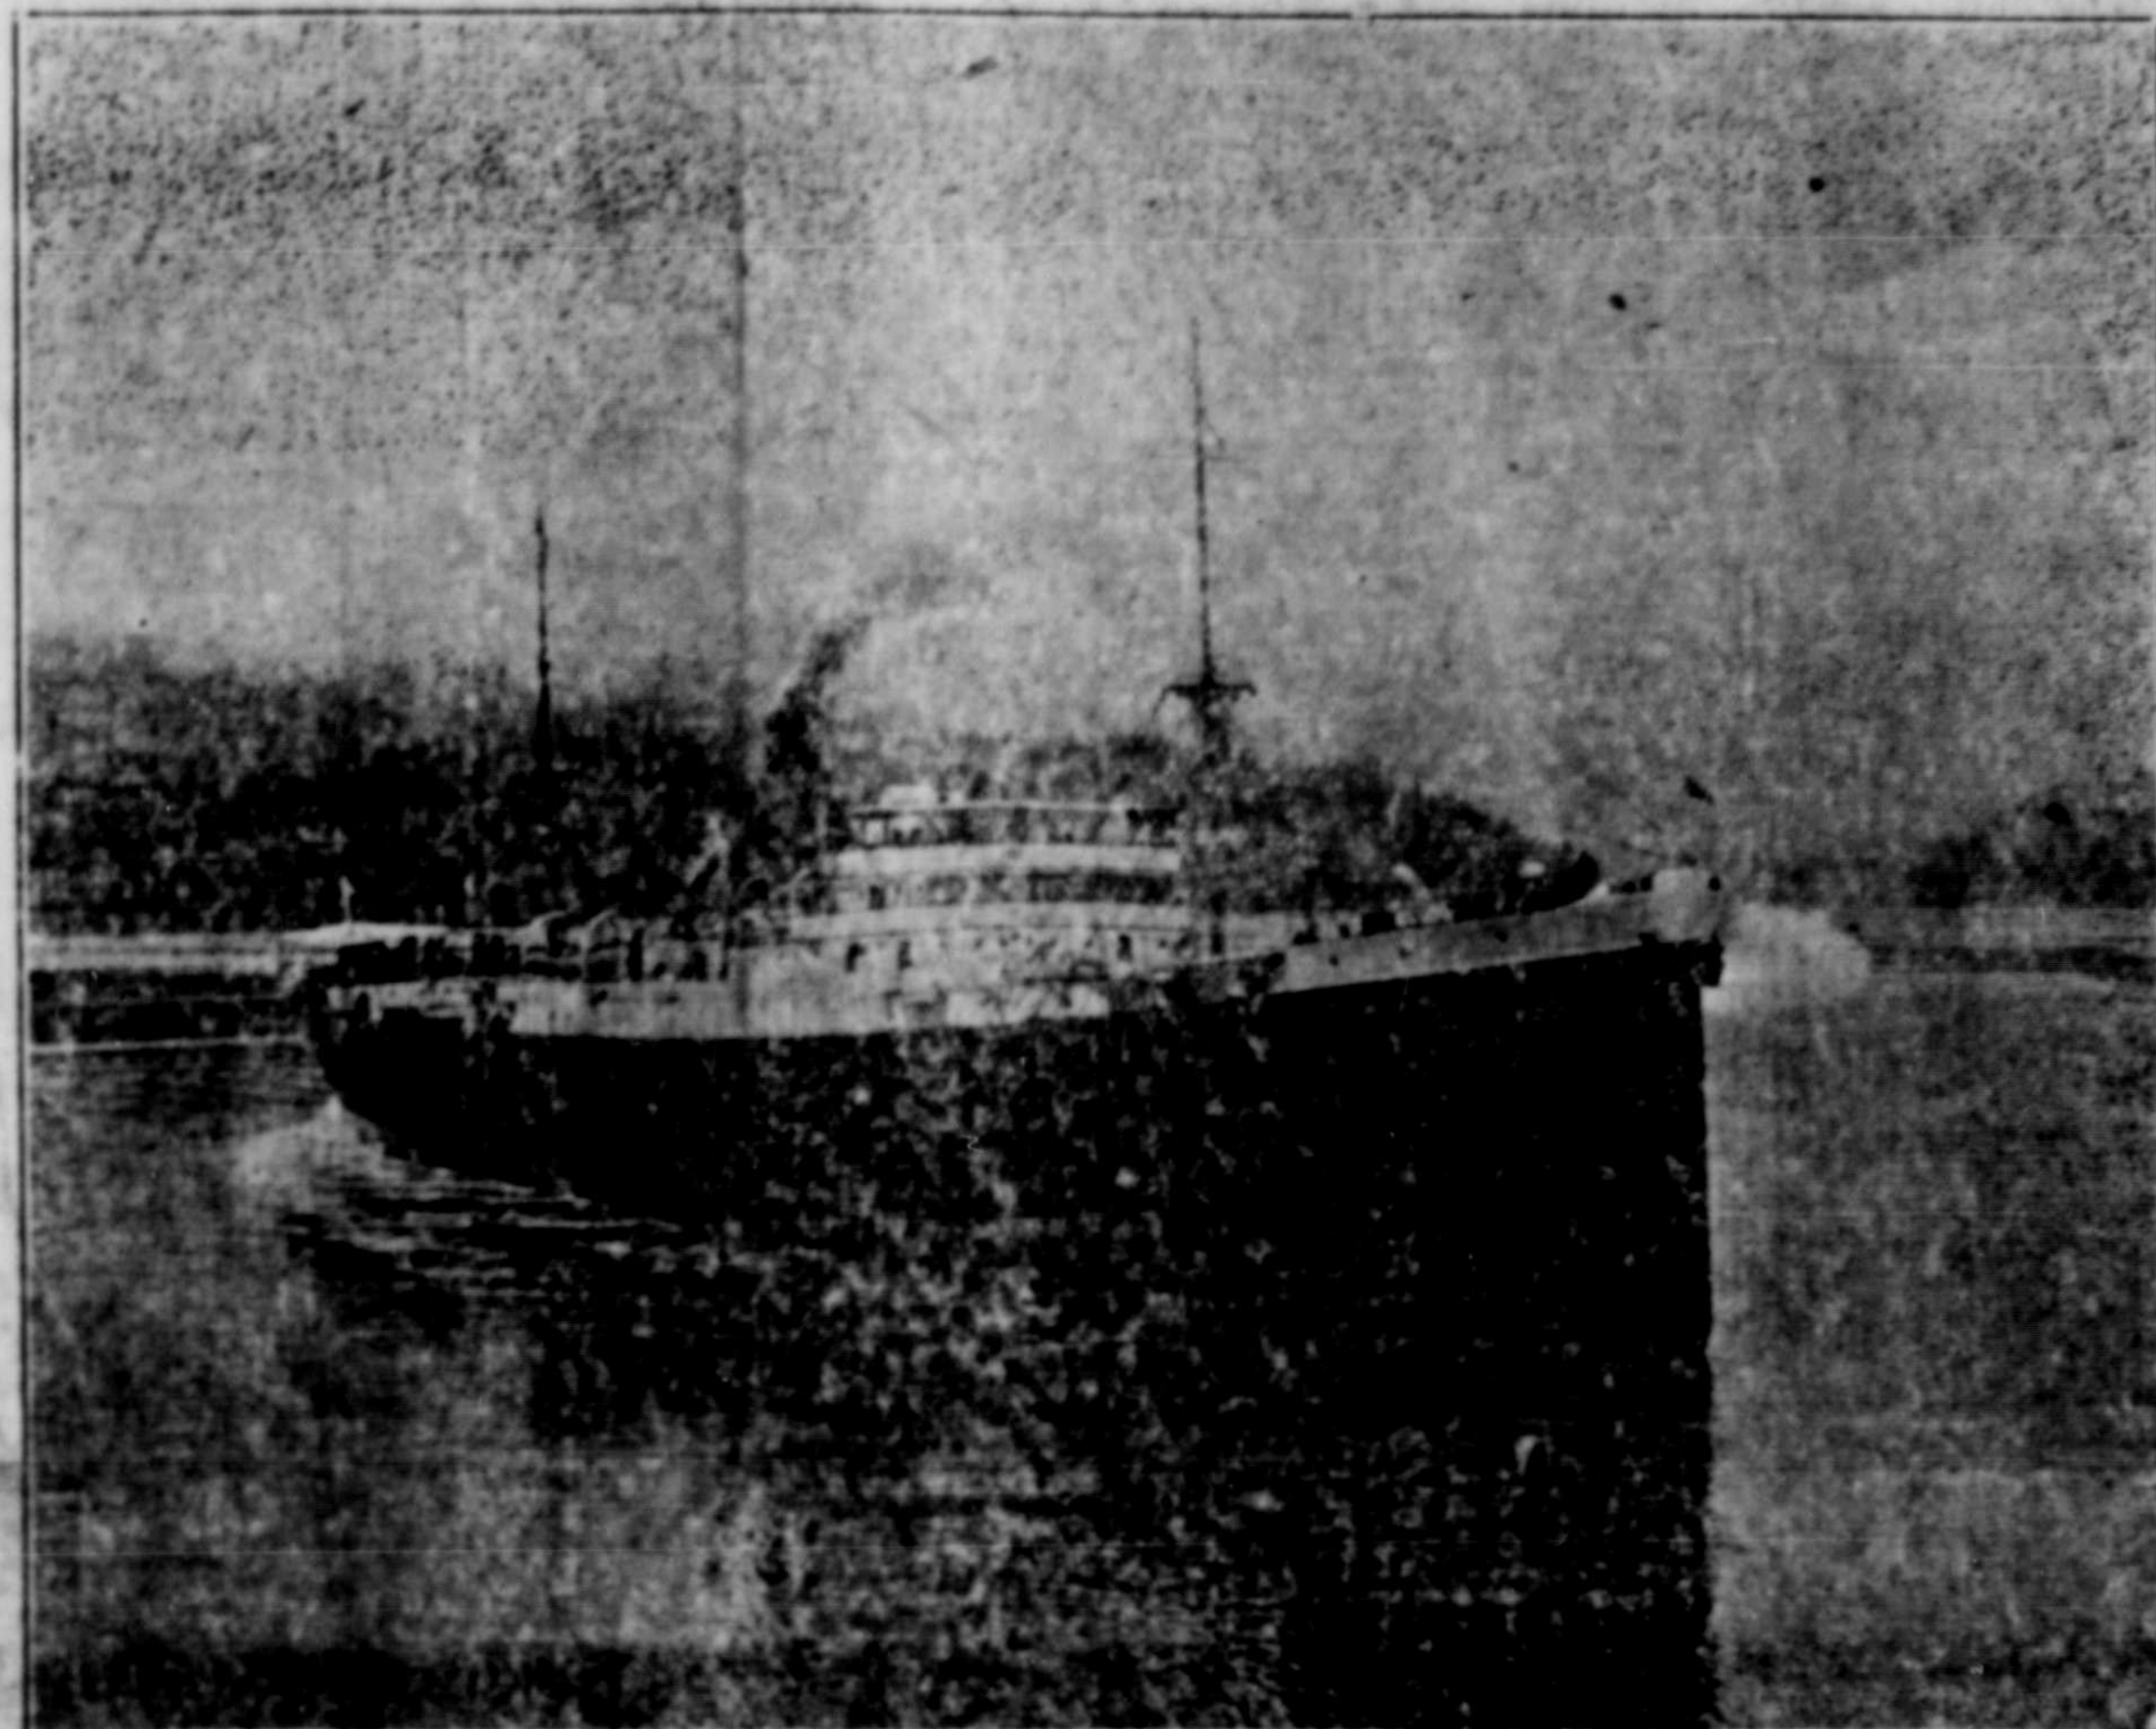

CHILDREN'S DAY AT THE EXHIBITION

Wednesday's Program.

DISCOVERY OF A PLOT IN RUSSIA

Attempt to Overthrow Soviet and Set up Czar is Alleged.

LONDON, Sept. 13.—Revelations at Moscow following the arrest of members of the Russian Famine Relief Committee allegedly indicate a plot to overthrow the Soviet Government. Plans had been completed to reorganize Russia under a supreme ruler with a federal duma, according to letters seized by the Soviet officials.

SAYS ELECTION TO BE IN GOOD TIME BEFORE CHRISTMAS

VICTORIA, Sept. 13.—Dr. Tolmie, who is here from Ottawa, says the election will be held in good time so as not to interfere with the Christmas business activity. He will return to Ottawa at the end of the month.

PROCLAMATION HALF HOLIDAY

The City Council has declared Wednesday afternoon next a Public Holiday in order that all citizens may have the opportunity of attending the Exhibition. It is requested that this Holiday be observed by all employers in the City and thus cooperate with the Fair Executive in making the Exhibition an unqualified success.
ERNEST A. WOODS,
City Clerk.

Meighen Will Lead Only Small Minority in Next parliament Is Report Coming from Ottawa

RANCHER DIES FRANCOIS LAKE

BURNS LAKE, Sept. 13.—Sandy Thompson of Katherine Lake near Biekie Post Office died at Francois Lake Hospital on Sunday morning. He leaves a widow and four small children. Mrs. Thompson was in the maternity ward of the same hospital at the time of his death. The brother, James Thompson, arrived from Alberta on Sunday but too late to see him alive.

The late Mr. Thompson was one of the most widely known and popular ranchers in the whole district. He was a pioneer, coming to the neighborhood of McDonald's landing south of Francois Lake, many years ago. His death will be regretted by all.

OTTAWA, Sept. 13.—Prominent Liberals, including a large number of ladies, from all parts of the Dominion are conferring today in the offices of the Liberal leader, W. L. Mackenzie King, discussing plans for the coming campaign. It is expected a statement will be issued at the close.

The swearing in of the new cabinet may not take place until next week. It is reported that H. H. Stevens, the member for Vancouver, is likely to succeed Sir George Foster as Minister of Trade and Commerce. While there is no confirmation of this, his entry into the cabinet is considered certain.

Only Minority Group.
Reports received from different parts of the country are to the effect that in spite of Premier Meighen's courageous coup and his manipulation of the election to have come on without a redistribution of seats to give the west its proper representation, there is no hope for the Meighenites to get more than a minority group in the next Parliament, smaller than either the Liberal or Farmer groups.

In Ontario there is some dissatisfaction with the Farmer Government and this is likely to have its reflex on the federal elections. Meighen will get a good majority in that province, but not enough to give him very much influence in the House. It is expected that the Governor will be asked to approve the appointment of several new senators within a few days. Several members of the dying cabinet will be recommended for the positions.

Mackenzie King is receiving encouraging reports and offers of assistance from many of the strong farmer constituencies and it is evident that there is a general feeling among the rank and file in favor of union of forces.

PLENTY OF POWER IS GOING TO WASTE IN NEIGHBORHOOD OF PRINCE RUPERT, NEEDING ONLY CAPITAL TO DEVELOP IT

Nothing is so great a factor in the development of a city as power. Cheap power, and plenty of it, is the need of the day. Prince Rupert is particularly fortunate in having within easy reach a number of big latent waterpowers that have not yet been developed. The estimated horsepowers and distances from the city are as follows:
Falls River, 50 miles distant, 26,000 horsepower.
Brown's River, 45 miles distant, 16,000 horsepower.
Khtada River, 40 miles distant, 17,500 horsepower.
Union Bay, 40 miles distant, 15,000 horsepower.
Thulme River, 20 miles distant, 20,000 h.p., peak load.
The most economical of these are, according to the Prince Rupert Pulp and Paper Co.'s estimate, Brown's River, and Falls River.

NEARLY ALL GRAIN IS NOW IN STOOK IN EDMONTON DISTRICT

EDMONTON, Sept. 13.—The harvest of the grain crop in this district is proceeding rapidly. Practically all the crop is cut and in stook. Threshing is well under way and the yields have been in many cases better than was expected. The late frosts had practically no effect on the crop, most of which was already in stook.

ARBUCKLE MAY BE A VICTIM OF PERJURERS

Grand Jury Refuses to Give Verdict After Five Hours' Hearing.

SAN FRANCISCO, Sept. 13.—A statement expressing the conviction that perjury had been committed by one of the chief witnesses for the prosecution at the grand jury investigation into the death of Virginia Rappe, for whose alleged murder Fatty Arbuckle is under arrest, was issued by District Attorney Brady shortly after the grand jury concluded a five hours' consideration of the case and adjourned without voting an indictment.

It is also charged that another witness is missing. The jury decided to defer action until further evidence could be presented.

Reports continue to come in of the cancellation of Arbuckle pictures by exhibitors, pending a disposition of the case.

TURKISH PLOT IS DISCOVERED

Plan to Spread Disaffection Among Indian Troops at Constantinople.

DESPERADOES IMPORTED

Murder of Leading Officials Was Among Schemes Laid by Nationalists.

LONDON, Sept. 13.—The British Intelligence Department at Constantinople has discovered a plot organized and subsidized by Ankara Turkish Nationalists capital to foment a revolution in Constantinople. It was planned to spread disaffection among the loyal Indian troops and to assassinate the leading allied officers. Desperadoes had been brought to Constantinople to carry out the murders.

The British authorities have demanded the arrest of those implicated.

AUCTIONING JOBLESS MEN

NEW YORK, Sept. 13.—Urban Ledoux, who auctioned off jobless men on Boston Common, declares he will hold a similar auction on Monday after a parade of unemployed down Broadway. He announced that he would put the jobless men on the block, strip them to the waist, and sell them to the highest bidder. He would also auction the services of any unemployed women applying.

Mayor Carries Banner of Prince Rupert in Southern Cities and Taken for Member of Nobility

VICTORIA, Sept. 13.—Mayor Harry Rochester of Prince Rupert is busy here in the South giving information and collecting it. What Prince Rupert has, what Prince Rupert is and what she will be are points which he has been dealing with enthusiastically in his discussions with the people he has met since he left the northern town, but in addition to seeing that the truth is known about Rupert he has been picking up a great amount of information which will be valuable in his administrative work.

Mayor Rochester came south to attend the convention of the Union of B. C. Municipalities at Port Alberni, Vancouver Island. When seen by a representative of the Daily News at the Dominion Hotel here some days after the gathering he was exchanging anecdotes with two of his numerous Victoria friends.

Valuable Data.

One of the big advantages of the convention, said the mayor, had been the opportunity provided for the securing of information relative to municipal matters. He had talked with the men in charge of municipal affairs in various parts of the Province at Port Alberni, securing valuable data.

The genial mayor was a popular figure at the convention where he became known as "Prince Rupert." Delegates there were astonished to learn that Prince Rupert had fish trains rolling out of his yards as often as it has, and there were other matters at which they expressed surprise when they were enlightened.

Right After It.

Prince Rupert had decided to make a bid for the 1922 convention of the Union of B. C. Municipalities, not knowing the unwritten rule that the convention place alternated each year between the coast and the interior, and that therefore it was slated for an interior point next year. Mayor Rochester learned this when he reached the south, and when Kamloops was announced as the next convention town he rose to his feet in the convention hall and pointed out that when Prince Rupert had asked for the next convention it had not known about the method of allotment or it would not have made the application, but it would certainly like to get the 1923 convention. He then extended his congratulations to Kamloops.

Get It in 1923.

The mayor's move was a popular one. That the convention appreciated the spirit of his remarks was evident from the applause that followed them, and afterward he was assured by various delegates that if Prince Rupert did not get the 1923 convention it would be no fault of theirs. Mayor Rochester is confident that the gathering will be held in his city the year after next. He told the convention that the delegates would find the water route to Prince Rupert the finest in North America.

Thought Him a Prince

The Provincial Government will be interviewed by Mayor Rochester on the question of getting the Skeena River highway from Prince Rupert started. He does not expect to return home for a short time yet, intending to visit Mainland points as far south as Spokane. He made the trip to Blaine for the opening of the peace arch on September 6, and it was not long before he was hailed as "Prince Rupert" by someone he had met at Port Alberni. The title raised the thought in the minds of some of the people within earshot that he was one of the nobility, one bystander being heard to remark that he was a prince because somebody had called him that.

The mayor is enthusiastic over the granite being used as road making material in Prince Rupert from the Smith Island quarry and he believes that the rock would be excellent for monumental and other purposes for which granite is used.

The Man in the Moon SAYS—

WHY a married man should buy a talking machine I don't see, except that he may be able to change the record occasionally.

SINCE a few people have been paying wages in Russia, most of the others are hankering to become wage slaves once more.

ONE of the things that does not get you very far is speculating on tomorrow's weather.

ANOTHER thing that does not help much is speculating on anything.

MANY a man is never heard of until he becomes rich and then it is only his wife and daughters who get into the public gaze.

THERE are two reasons why they call a ship she. In the first place it is difficult to steer and in the second it takes a long time to get it ready to go anywhere.

GIRLS all like to be pretty but they go a queer way about making themselves that way.

WHY does a man who is going to be married act as if he was going to the gallows. Yes, why?

The fishermen say all the romance there is in fishing is that seen from the editor's chair.

SINCE Gow Bay jumped into the limelight again yesterday there has not been a whimper from any of the boys loud enough so you could hear it. What is the matter with this little old town anyway? Everybody seems to be going to sleep.

WANTED—Advertiser would like to meet huxom lady to help run fishing boat view to matrimony. Applicants must be able to cook, clean fish, handle the tiller, row a dory, swear fluently and guarantee not to get too friendly with the third man. Apply aboard any three-man boat.

The city council last night decided to have the city engineer prepare specifications with a view to calling for tenders for extensive additions to the residence of Bert Moore at Shawatlans Lake. The Utilities Committee recommended to this effect. The cost of the work is estimated at \$2000 and conveying materials will cost \$200. The work will be paid for out of the surplus of the Utilities Department.

Often we get letters that seem to cover all the reasons why Pacific Milk has such a hold in the affections of the housewives of the West. Mrs. George Hardie, for instance, says: "I have tried fresh milk and almost every kind of canned milk. I must give Pacific Milk the preference because I can use it in everything and get better results than I ever got with anything else. I have made several converts among my friends by showing them what could be done with a can of good milk."

LUMBERING INDUSTRY IS MOVING TOWARDS NORTH OF PROVINCE

(Continued from Page one.)

turns out 45 tons of pulp per day and the sawmill 100,000 feet of lumber and 300,000 shingles. These mills work and produce on the 24 hour day basis. Three more pulp mills are planned for the district. The Prince Rupert Pulp and Paper Company's plant at Prince Rupert is to be in operation in 1923 turning out 40 tons of sulphite pulp per day. Surveys are now being made for a paper mill at Prince George with a capacity of 200 tons of newspaper daily. A mill is also projected for Gumsheva Inlet on the Queen Charlotte Islands.

Temporary Depression.

There was great activity in timbering and lumber cutting up to the end of 1919 in the district especially on account of the war demands. In 1918 there was sufficient clear spruce from the Queen Charlottes to build 20,000 aeroplanes. During the past year a combination of reasons have caused a temporary depression in the business and of the 40 mills of the district, there are today operating only about ten. In the boom in prices of all commodities following the war, lumber was the first article to start climbing and the first to revert to normal. The peak was reached in February, 1920, and since that date the price has steadily declined. In the latter part of 1920 the Oriental and Australian demand dropped owing to financial conditions in those export markets, while economic conditions in the home market, along with the heavy increase in railroad freight rates last September, retarded buying in Eastern Canada and on the prairies. This part of the province was hit hard along with every other part and the freight rates increase has militated against lumber from the Pacific coast on the Eastern market in favor of lumber from across the line which now has an advantage on account of the much shorter haul. The price of lumber has reached bottom now, but costs of operation have not gone down correspondingly so there is very little activity pending a general deflation of production costs. The lumbering business in this part will, doubtless, recover as quickly as anywhere. When conditions come to normal, the mills will reopen and the industry will make greater strides than ever before. The lumber business is but in its infancy and the field here presents one of the greatest in the world.

FIREWORKS DURING CONVENTION HELD TO CHOOSE CANDIDATES

TORONTO, Sept. 13.—In the choosing of A. J. Anderson as Conservative candidate for West York, there was plenty of fireworks. The convention was very much divided and Mr. Anderson secured only a little more than a majority of the votes of the delegates.

Several nominations were not allowed to stand because the nominees refused to pledge themselves to support the nominee of the convention, and it is altogether probable that at least one of these men will be in the field as independent.

Len Wallace was refused a hearing at first but eventually he won out and addressed the convention.

QUARTER MILLION OF LIQUOR IS SEIZED

Federal Agents Make Series of Forty Raids in California.

SAN FRANCISCO, Sept. 13.—Federal prohibition agents have been very busy here of late suppressing the illicit liquor traffic. In a series of forty raids they have seized in all a quarter of a million dollars worth of liquor. This has put a check to the business but many of the worst bootleggers are still carrying on, having so far evaded the officials.

JOE BECKETT WINS OVER McCORMICK

MINER'S DEATH AT SURF INLET FOUND TO BE ACCIDENTAL

The coroner's jury, investigating the circumstances of the death of the late Alec L. Fisher, a young miner at the Belmont Mine, Surf Inlet on August 26, this morning brought in a verdict of accidental death with no blame attached to any one.

The witnesses were James O'Dell, who was in the mine with deceased at the time of the accident, T. J. Shenton, inspector of mines, who testified that the company had taken all precautions, Dr. J. P. Cade and Frank Morris.

The jury which appeared before Coroner McMullin comprised C. O. Rowe, Joe Greer, D. C. Stuart, A. D. Gillies, James S. Irvine and Norman G. Governlock.

Sport Chat

The football game on Thursday afternoon between the Sons of Canada and the Callies for the Exhibition sweaters will be the last fixture of the season in either senior or junior leagues. In fact it marks the last regular outdoor game of the season in either the baseball or football leagues. Some more special games may be arranged before the players finish up the season after Fair Week but all trophies will have been now played for and won. The greatest sport season in the history of the city is drawing to a close.

It is most interesting that the Sons of Canada and the Callies, who have been opponents in many a tight game this season and between whom honors have been at all times most keenly contested, should be entering the ranks in the last match. Although the Sons of Canada want to win the game and make a clean sweep for the season, no one would be sorry to see the plucky Scots emerge victorious and thus obtain some tangible results for the great class of sport they have put up most of the season. If they are successful they will surely deserve the reward. The Sons of Canada have all the silverware so wouldn't it be all right to allow the Scots to have the dry goods?

The interior baseball and football teams are to compete this season for the McClary baseball cup and the Gray football cup, each of which trophies are significant of the interior championships. Both are now held by Hazelton. At a meeting held on Labor Day it was decided to have Smithers and Telkwa play off for the Gray Cup and come to Hazelton for a final at the end of the month. To decide the winners of the McClary Cup, there will be three series—one between Cedarvale and Hazelton and the other between Smithers and Telkwa with a final between the two winners. The executives for the teams are O. H. Hall, representing Telkwa; H. H. Little, Hazelton, and N. P. Moran, Smithers. The Cedarvale representative will be named later.

MISS LENGLEN MAY HAVE TO CANCEL PLAY IN STATES

NEW YORK, Sept. 13.—Miss Suzanne Lenglen was forced to stop playing tennis on Sunday owing to illness. It is doubtful if she will be able to play again in the United States this season. She was to have met Mrs. Molla Bjursdett Mallory next Friday.

OPENING DAY OF HUNTING SEASON WAS POOR SPORT

Hundreds of people were out with guns on Sunday last but very few ducks and geese were secured. There was plenty of shooting. The report of firearms could be heard from early morning until late at night anywhere around the bays and inlets but the birds that were brought home were a negligible quantity.

Some hunters went up the coast after geese, but while the birds were there, they were very wild and very few came within gunshot. As long as this fine weather lasts the condition will obtain. It is only bad weather that will drive the wildfowl in and make them tame enough for the hunters to get near them.

MANY VISITORS TO BURNS LAKE

Fred Stork, E. C. Gibbons, John Fixter and Others at the Busy Centre.

BURNS LAKE, Sept. 13.—Fred Stork, the well-known hardware merchant of Prince Rupert and Liberal candidate in the forthcoming federal election for the Skeena Riding, visited Burns Lake to renew his acquaintance with his many friends in the Lake district. As this was Mr. Stork's first visit for over four years he was both surprised and pleased at the evidence of progress and prosperity throughout the district, and although pressed for time was enabled to go as far as the Hostron Ranch, with a promise of making a longer visit in the near future. Although not on a campaign trip, he received many offers of support in the coming election.

E. C. Gibbons of the firm of McCaffrey, Gibbons & Doyle was a week-end visitor and made a trip to South Forks, encountering many of his old friends.

John Fixter of the Ottawa agricultural department has been on an inspection trip in order to view the result of his activities in the spring. He expressed himself as being highly pleased with the experimental plot on the Stanyer farm, which is owned by a returned soldier named Raymond Stanyer, who in one year has displaced any doubt as to his being able to make good on the purchase of his farm through the Soldiers' Settlement Board.

A woman from a neighboring lake has been in search of her truant husband, and the police force has got its motorcycle in running order, not to pursue the errant partner, but to follow his example in beating a safe retreat.

W. L. Palden of the forestry department has returned from Telkwa, and his assistant, T. Roberts, will leave for Prince Rupert and finally Bella-Goola. As Mr. Roberts was prominent in all outdoor sports and skilled in most indoor games, he will be greatly missed by the society leaders.

Mrs. L. Lake of Minneapolis, who has many friends in this neighborhood, is visiting Mrs. O. Evanson.

Owing to the heavy rains of the past week the Bahine road is almost impassable, but Fred Aslin in moving light loads of freight steadily in order to meet the demand.

The local tonsorial artist, Ed Kiscock, has built a new barber shop and installed a bathroom, which promises to be well patronized.

SPECIAL STEAMER SERVICE ISLANDS

Made Necessary by Delay of Prince John at Vancouver—Repairs Being Made.

On account of the delay of the G. T. P. steamer Prince John at the B. C. Marine yards in Vancouver, where repairs are being made, the steamship service to the Queen Charlotte Island points enroute.

The Prince Albert will leave Vancouver on Friday evening for the north calling at southern Queen Charlotte Island points enroute.

On Thursday evening the Prince John will leave Vancouver direct for Prince Rupert and, arriving here, will go to the north end of the islands. On her return here she will sail direct for Vancouver and there pick up her regular schedule again.

EDMONTON BONDS ARE SUBJECT TO HEAVY SELLERS' COMMISSION

EDMONTON, Sept. 13.—In regard to the spread between the price paid by Wood-Gundy Co. for the \$2,500,000 bond issue and the price the bonds were sold to the public, a further letter from the brokers contains some important information as it states the commission paid to the dealers in connection with the sale. The letter says:

"When we commenced our selling campaign there was no market whatever for Edmonton bonds in Canada and your bonds were selling to yield 9 per cent, retail in the American market. By placing our entire organization behind the issue we have created and have since maintained an active market for the city's bonds.

"We allowed a selling commission of 3 per cent. to dealers who purchased \$100,000 or more of the bonds, whereas the usual commissions to dealers range from 1/2 cent to 1 1/2 cents, and we allowed a concession of 2 1/2 per cent. to institutions who purchased a like amount."

VIRAS IS COMMITTED FOR TRIAL CHARGED ATTEMPT AT SUICIDE

Physician Testifies That Accused Has Mentality of Child of Five Years.

N. Viras, Serbian, charged with attempted suicide by cutting his throat with a knife, appeared for preliminary trial in the police court this morning and was committed for trial. Accused is now out on \$200 bail, this having been granted by Magistrate Mc-Mordie on recommendation of City Solicitor T. B. Hooper. Nick Gurvich is bondsman.

Evidence was taken this morning the witnesses being Constables Alex Macdonald and William Bourne and Dr. J. P. Cade. The officers testified as to the circumstances of the throat cutting incident in the city jail which were described at the time of the occurrence. Dr. Cade stated that the attempt had nearly been a successful one and the man had had a narrow escape. Viras had been peculiar for years he knew. From observation in the hospital he would say that his mentality was subnormal. He was not insane exactly but he was mentally more like a child of five years of age. He had had no hallucinations. On being asked if he had any question to ask Dr. Cade, Viras, through Nick Gurvich, interpreter, said that the doctor's statements were correct.

EVERYONE IS LOOKING FOR A PULP MILL

Valuable Timber of Almost all Can Be Converted Into Paper.

The most interesting thing to Prince Rupert people about the timber of Northern British Columbia is the possibility of grinding it into pulp. Everyone knows of the formation of the Prince Rupert Pulp and Paper Co., and of the efforts being made to get the big mill started, a mill large enough to make 40 tons of pulp a day. At this time when there is a possibility of the shipbuilding yard shutting down we are looking for the pulp mill to take its place and to be followed later by a large paper mill that will convert into the finished product the pulp that is made here. It cannot be done however without power and when such a time comes the company will have to have its own hydraulic supply.

There is an almost unlimited supply of timber in the north country and probably the largest holder of all is the Prince Rupert Pulp and Paper Co.

Valuable Wood.

The most valuable of all the woods, valuable because scarce, is the Sitka Spruce of the Queen Charlotte Islands. It produces high grade clear suitable for aeroplane manufacture and other purposes, mercantile timber for export and the lower grades make excellent pulp wood. It is only by combining the pulp and lumber business that the best results can be obtained.

There is another spruce, growing mostly on the mainland known as Engelmann's spruce which is useful for building material, for boxwood and for pulp.

Western Hemlock is a wood that is not well known. It is often confused with the eastern hemlock which is a poor, grade timber. The western can be given a finish equal to fir and is also useful for box lumber. For use as railway ties it excels all others.

Larch is an excellent box lumber and can also be ground into pulp.

Cedar, the wood of which shingles are made and posts and telegraph poles also make lumber that is good for boat building and other purposes.

A short distance inland is cottonwood in large quantities that is destined to be used for box wood and other purposes.

All these timbers are grown within reach of Prince Rupert and can be manufactured. At present most of the lumber is shipped away in its rough state as planks. If it were manufactured here it would provide employment and be a source of wealth to the community. Several planing mills have been erected in this city but only one is at present in operation, that of E. H. Shockley.

LOCAL THEATRE CANCELS FILM

Fatty Arbuckle Will Not Be Shown Here Tomorrow and Thursday as Booked.

On account of the sordid affair at Los Angeles last week resulting in the death of Miss Virginia Rappe in which Roscoe "Fatty" Arbuckle, the celebrated comedian, was involved the management of the Westholme Theatre here has cancelled the film "The Travelling Salesman" which was to have been shown tomorrow night and Thursday and in which Arbuckle is the star. Paul Aiyazoff, manager of the theatre, has wired to the exchange to this effect. Feeling against Arbuckle, as a result of the affair, has become quite strong and the local theatre is taking the same action that is being followed in many cities in connection with Arbuckle pictures.

In place of this play, the Westholme will offer the First National production "The Fortune Teller," with an all star cast.

BAPTIST LADIES HAD SUCCESSFUL SALE AND TEA

The Ladies' Aid of the Baptist Church yesterday afternoon held a very successful sale of home cooking and fancy work in the Red Cross Hut. Tea and cold lunches were also served. With all expenses paid there will be about \$45 netted.

Mrs. James Hampton was convener of the committee and was generally in charge. Mrs. J. S. McDonald looked after the serving. Mrs. Paulsen the fancy work and Mrs. G. Hubbard, home cooking. All the ladies of the Aid contributed donations and assisted generally.

MASTADONS ARE NOT TROPICAL

Scientist Visiting Yukon Tells of Some of Remains Found There.

DAWSON, Sept. 13.—Some of the popular notions in regard to the extinct animals of the north were shattered here by a distinguished visitor, G. S. Miller, curator of mammals at the United States National Museum. He saw here the remains of mammoths, two or three kinds of bison, a large bear, a deer and a horse. All of these animals, he stated, although related to others now living, long have been extinct, probably since the early part of the ice age.

A popular misconception, says Mr. Miller, exists regarding these animals. The presence of these animals does not indicate a tropical climate here at one time. Animals essentially the same as the mammoths which are found here, he explains, have been found in Siberia frozen in the ice in such good condition that their stomach contents can be studied. These show, says Mr.

Popular and Reliable

Miller, that the animals were feeding on twigs and herbs essentially like those which grow today in Siberia, a region whose climate is not very different from that of the Yukon valley.

Mammoth's Teeth.

The large teeth frequently found in this region and popularly called mastodon teeth, explains Mr. Miller, are mostly teeth of the mammoth. The crown of the mastodon's tooth has large tubercles or rounded bumps like those of the back teeth of a pig, while the teeth ordinarily found here are flat-topped, with cross ridges of hard enamel for grinding. Teeth of this kind are found only in the mammoth and the living elephants of India and Africa.

Mr. Miller calls attention to the fact that museums would be

much interested to receive the smaller bones to which little attention is usually paid, and which easily could be picked up and saved. It is to be hoped, he says, that miners and others will take an interest in seeing that they reach the museums. He secured some specimens when here, and will be pleased to examine any others which might be brought to his attention when he returns here, possibly ten days or two weeks hence. Mr. and Mrs. Miller will visit Fairbanks before returning.

CANTEEN FUNDS OF SOLDIERS

Premier Meighen Has to Answer for Disposal of the Money.

HAMILTON, Sept. 13.—As if Premier Meighen did not have enough to worry him in the oncoming election which he has brought on, several hundred members of the Discharged Soldiers' and Sailors' Federation here have sent a pointedly worded communication to the Prime Minister, in which they demand to know by what right he and his cabinet have sought to make good fellows out of themselves by laying their hands on the \$1,000,000 Field Force Canteen Fund and giving the G. W. V. A. \$20,000 of it, with the promise that \$10,000 more would follow each month.

Calls Action Illegal.

Through their president, Sergt.-Major Jack Anderson, M.C., members of the federation contend in the communication that such action on the part of the government is wholly illegal inasmuch as the fund is the property of returned soldiers and not to be touched without a mandate from themselves.

Mr. Anderson reminds Premier Meighen of the promise made by Major Hume Cronyn on May 31 last to the effect that the canteen fund would remain untouched unless the men consented that it should be used for any specific purpose. Concluding, Mr. Anderson's communication says in part:

"I question your jurisdiction, sir, in disposing of any of the money of this fund. I am unaware of any law that permits you or your government to utilize in any form whatsoever the fund trusted to your care without first receiving a mandate from the legal owners.

Entitled to Voice.

"It is true that you are our Prime Minister and leader, and we respect your leadership, but it was never intended that you should usurp the divine right of Prussian kings and assume without request direct control of individual rights and liberties; for, from time immemorial, canteen funds have been available to the creators of them, and they have invariably been entitled to a voice in their disposition."

The communication demands that the G. W. V. A. return all money thus advanced to it from the fund, plus interest at 6 1/2 per cent., otherwise members of the local Soldiers' and Sailors' Federation forcefully remind the premier that they will apply to the courts of justice for redress.

TOO SUDDEN.

Little Mary came into the house bedraggled and weeping. "My goodness," cried her mother, "what a sight you are! How did it happen?" "I am s-sorry, mamma, but I fell into a mud-puddle." "What! with your best new dress on?" "Y-y-yes, I didn't have time to change it."—Central Wesleyan Star.

THE STAGGER TODDLE

Algy—Parker, I'm ruined socially! Last night at the ball I drank too much and staggered into everybody. Valet—Scarcely that, sir. Every one's talking of you as inventing a new dance.—Passing Show.

The mother was about to lecture her son for an offense she had just discovered. "William," she began, "I'm afraid I'll never meet you in Heaven." "Why," asked the young man interestedly, "whata you been doin'?"
