ONLY THREE ARE RESCUED AND ARE IN SERIOUS CONDITION FROM EXPOSURE AND STARVATION—VESSEL IS POUNDED TO PIECES ON ROCKY SHORE.

SEATTLE, Sept. 30.—Pieces of the battered hulk of the American freighter Nevada were being pounded today on the rocky Aleutian island where thirty-four members of her crew were drowned. Only three men survived the disaster—being saved by their own strength and the daring and heroism of lifeboat crews from two rescue ships, the American liner President Madison and the Japanese freighter Oregon Maru.

The three men were finally taken off Amtignak Island late yesterday by the President Madison in a serious condition from hunger and exposure which they had suffered since the wreck of the Nevada on Tuesday night. They had remained on the island without shelter and only dried flour to eat for two sleepless days and nights after seeing their captain and shipmates leap into the gale-lashed sea, never to appear again.

The three rescued men are James Thorsen, cadet; Fritz Dewell, seaman, and Lucena Decaney, seaman.

Capt. T. W. Johansen and First Officer E. T. Wendt, both of Portland, and a passenger, Portius Berry, aged 26, who was making the trip for the benefit of his health, were among those drowned.

During the rescue attempts, a boat from the Oregon Maru was lost and several men were injured.

FISH BUYER BEING HELD

Alaskan Postmaster Arrested on Charge of Aiding Dorbrandt in Illegal Transportation

KETCHIKAN, Sept. 30.—Capt. Emil Lange, fish buyer, storekeeper and postmaster at Meyerschuck near here, was arrested today by an Alaska game warden on a charge of aiding Capt. Frank Dorbrandt, veteran Alaskan aviator, in illegal transportation. Capt. Lange was released on his own recognizance. Following the seizure of his plane a few days ago, Dorbrandt is being held at Seattle on the allegation that, during the past summer, he took part in the smuggling of a large quantity of furs from Bella Bella, British Columbia, into the United States.

PASSING OF COL. HARVEY

Well Known Ex-Service Man of Knapp Island Died Yesterday From War Injuries

VICTORIA, Sept. 30.—After a prolonged illness due to war service, Col. Swan Harvey of Knapp Island died here yesterday at the age of sixty years.

Men must be over 17 years and women over 15 to marry in Japan.

Mineral Claims Sold By Sheriff

Harry Quickstad of Seattle Purchaser of Portland Canal Property With Bid of \$5,000

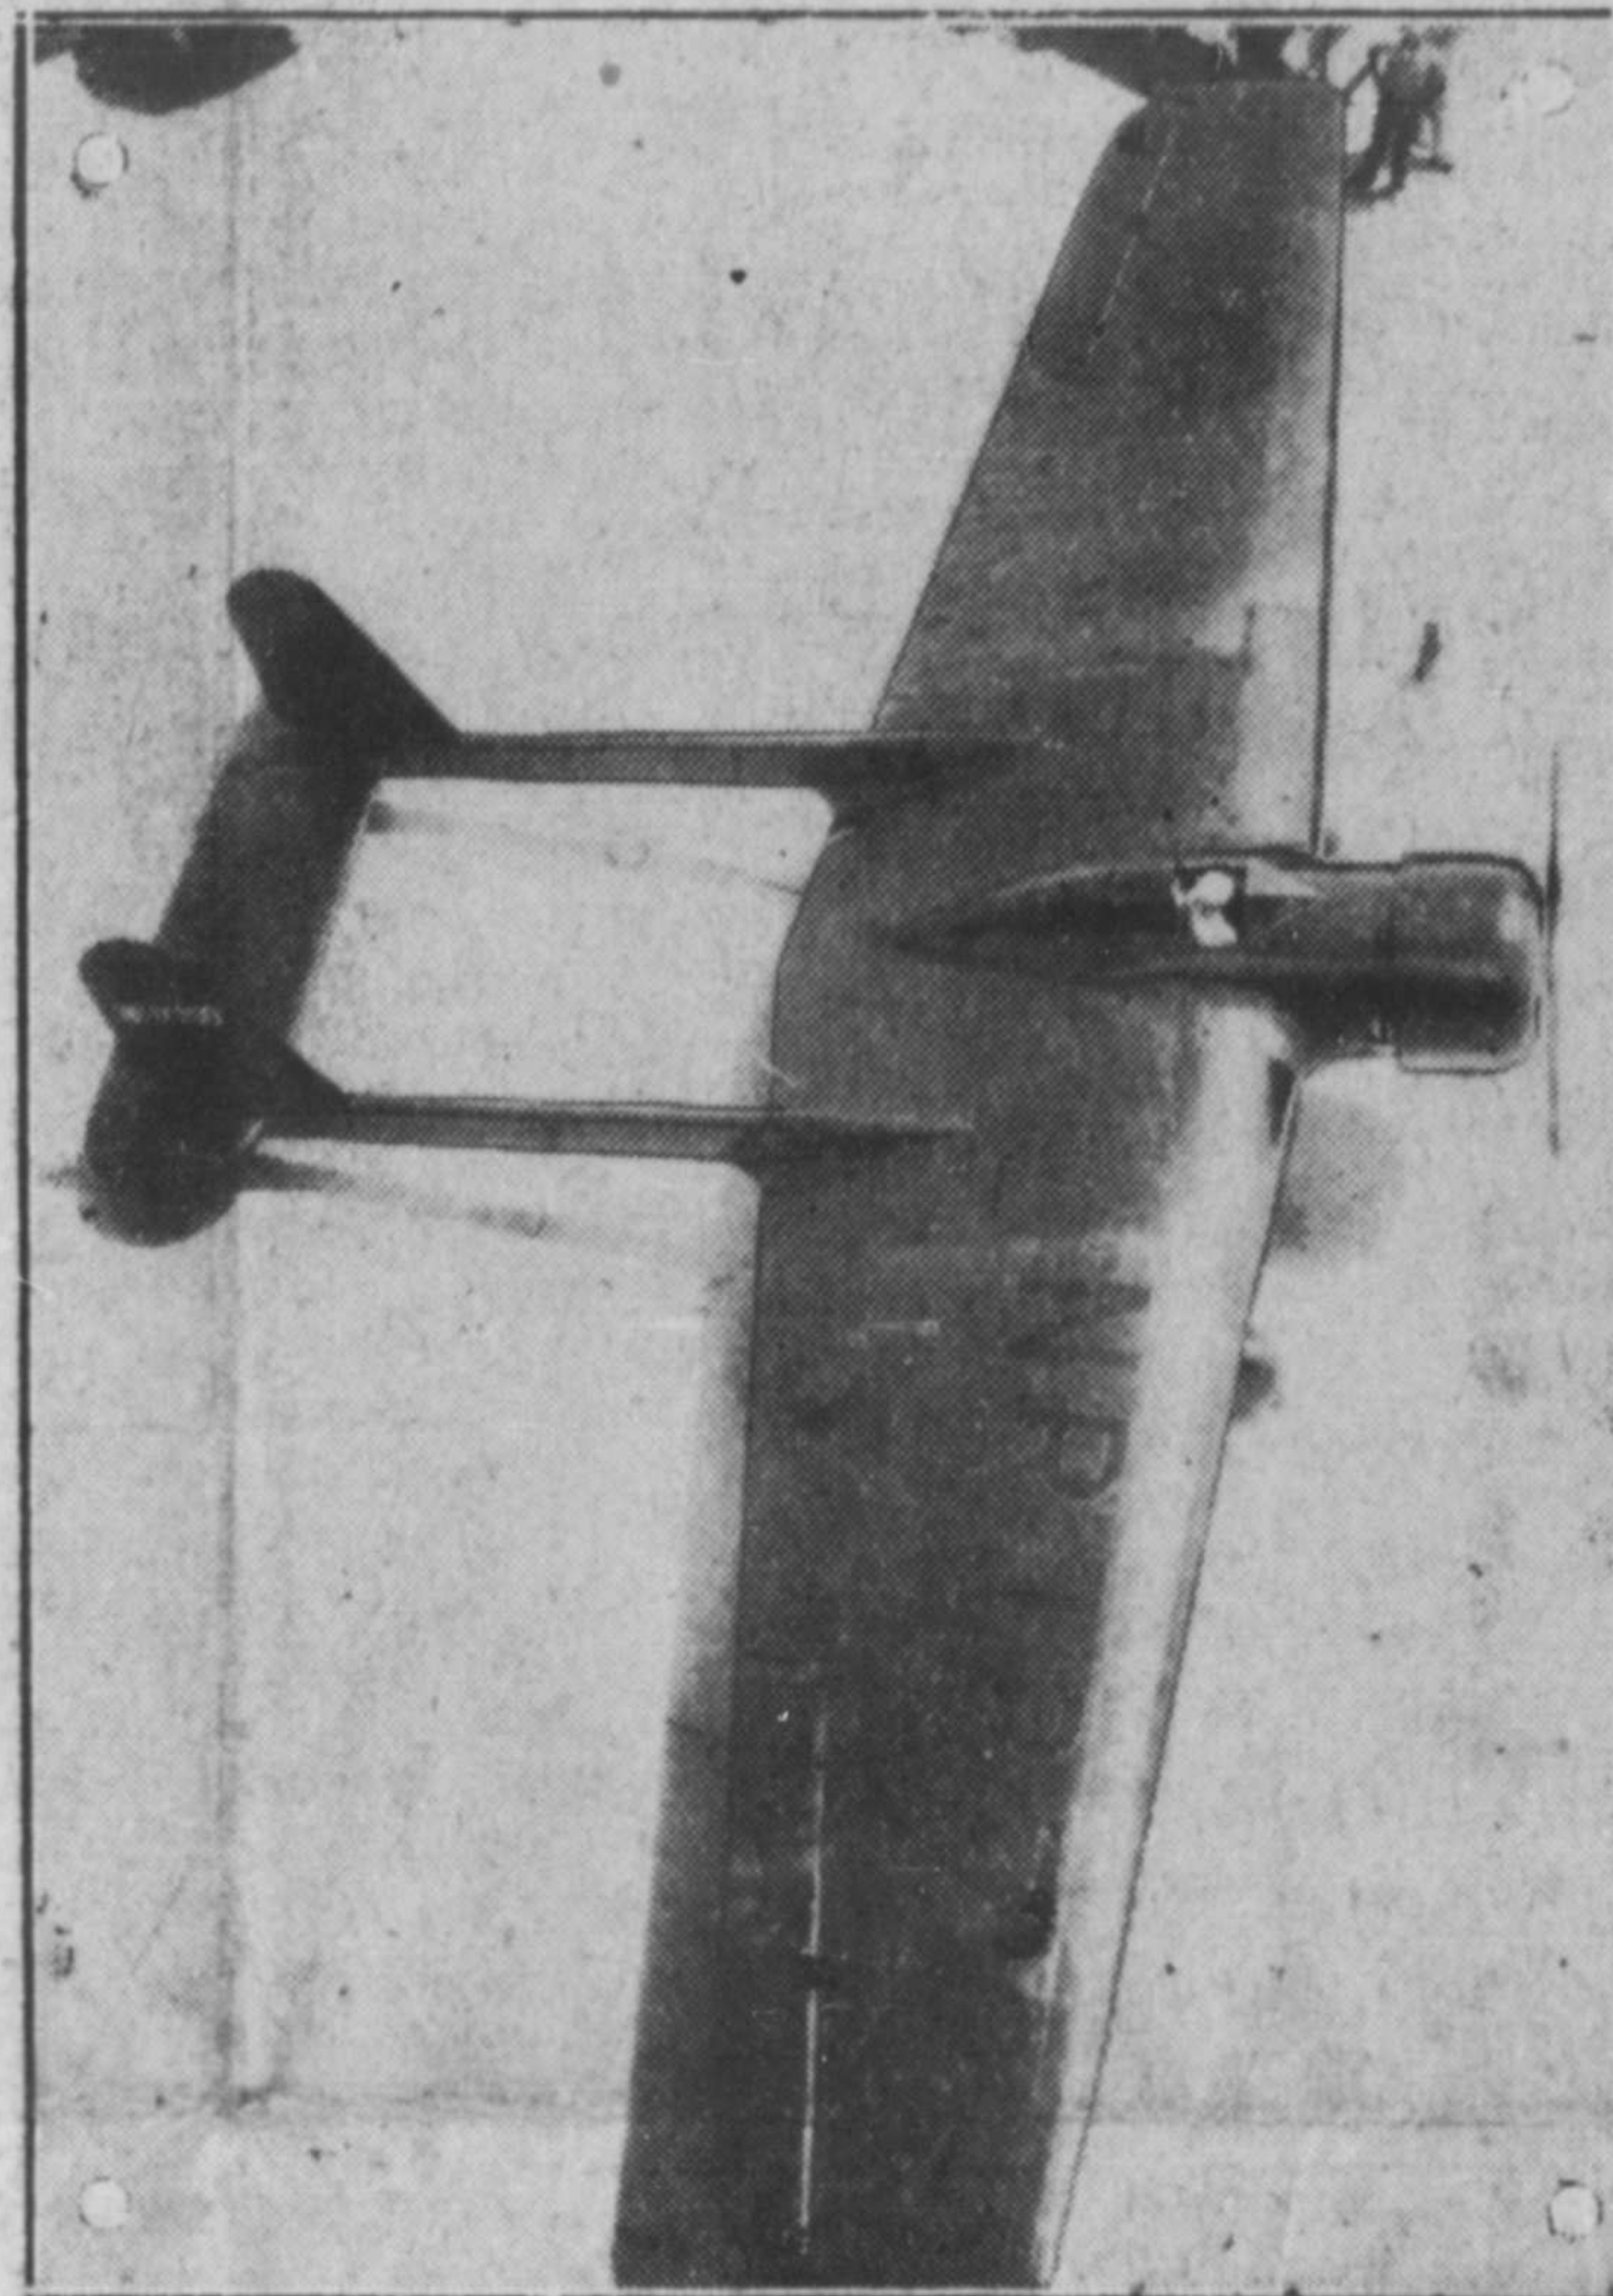

Satisfying a judgment of Chief Justice Aulay Morrison in Supreme Court in an action of Harry Quickstad vs. John McNeill, James J. Connors and Thomas Winlow, the Red Top and other mineral claims located at Cullen Creek, about six miles north of the Bear River Forks, in the Portland Canal mining district were sold at auction yesterday afternoon by Sheriff S. A. Nickerson to Harry Quickstad of Seattle, the plaintiff, for \$5,000. There were no other bidders. The amount of plaintiff's judgment was \$10,662.21 plus interest and costs.

LOST FLYERS FOUND NEAR ANCHORAGE

ANCHORAGE, Alaska, Sept. 30.—Pilot Arthur Woodley and a passenger, Harry Morton, Anchorage attorney, who had been missing since Sunday, were found about seven miles down the Chulitna River where their undamaged plane was located on a bar by two trappers. The two men were exhausted. They were found by Pilot Lon Cope, Charles Ruttan and Jack Morton, son of the attorney.

The party returned here yesterday.

DELEGATION TO LONDON

British Columbia to See That Spirit of Imperial Conference Is Carried Out

VICTORIA, Sept. 30.—British Columbia industries, with arrangements already made to have direct representatives in London when anti-dumping and other tariff regulations are framed to carry out the spirit of the Imperial conference, called on the government yesterday to request that a cabinet minister be placed at the head of a trade mission which will also endeavor to foster the development of trade between British Columbia and the United Kingdom. The cabinet will consider the request shortly.

IS KILLED AT ANYOX

Louie Draca Loses His Life When Struck By Branch While Falling Tree

District headquarters of the provincial police here have been advised of a fatal accident at Anyox on Tuesday of this week when Louie Draca, 34-year-old Jugo-Slav, was killed while engaged in falling a tree. The tree which Draca was falling struck another tree and Draca was killed instantly when struck on the head by a flying branch. An inquest is being held at Anyox.

Draca had been employed for some time as a miner at the Hidden Creek mine.

The sale, which is being conducted by City Treasurer D. J. Matheson with the assistance of City Cashier F. V. Vickers, was adjourned until tomorrow morning.

Vancouver Logging Operator Is Dead

VANCOUVER, Sept. 30.—Traford Bernard, president of the Homalco Logging Co. since it was incorporated in 1929, died here Tuesday night after a five weeks' illness.

A. Brown, the well known canneryman, who recently underwent a serious operation in the hospital, left that institution yesterday afternoon. Mr. and Mrs. Brown will live at the Besner Apartments where they will have for a guest Mrs. Brown's sister, Mrs. J. G. Robertson of Vancouver.

Provincial Government Adopts Plan Like That Prevailing Last Year

Fixed Appropriations to Be Made For Each Centre—Two Governments and Municipalities to Share Married Relief—Land Settlement Too

VICTORIA, Sept. 30.—The provincial government has decided upon the principle of allocating relief funds to the municipal and other areas this year as was done under Dominion and provincial control in 1930. Appointment will be made of a director of relief and two supervisors. The policy will include fixed appropriations for each centre after its needs have been ascertained. The treasury will finance provincial commitments under a plan of \$1,500,000 set aside for relief in the current fiscal year to March 31 next. There will be minimum direct relief where needed and absence of new works. Married men will be cared for by the two governments and municipalities on a share basis. Land settlement will also figure in the plan.

WILL STOP MIGRATION

Various Police Forces Co-operating To Terminate Movement of Transients Here From Prairies

VICTORIA, Sept. 30.—Provincial railway and the Royal Canadian Mounted police are co-operating to stop the movement of transients by "riding the rods" from one province to another, it has been announced. Col. J. H. McMullin, commissioner of provincial police, stated that reports that hundreds of jobless were leaving the prairies for the coast are exaggerated. Charges of trespassing will be laid against all offenders "beating their way" into British Columbia from Alberta.

SALMON IS CONDEMNED

50,000 Cases of Canned Fish Valued at \$250,000 Seized by Department of Agriculture

SEATTLE, Sept. 30.—Approximately thirty thousand cases of canned salmon from Alaska has been seized here during the past ten days by United States Department of Agriculture officials, constituting the largest condemnation of Alaska salmon since 1927. Twenty or more canning companies are involved, said Jeffrey Heiman, assistant United States attorney.

Earlier in September 20,000 other cases were seized, the two batches being valued at \$250,000.

Bad pack is usually the cause of condemnation. No criminal charges are made against the companies.

CO-OPERATION APPRECIATED

Letter Received By Spartan Athlete Club From Vancouver Province

Officials of the Spartan Athletic Club here have received a communication from Don Tyerman, director of athletics for the Vancouver Province, which sponsored the recent Junior Olympic meet in Vancouver, expressing appreciation of the co-operation extended by the local organization in connection with the meet.

Mr. Tyerman suggests that every means be studied of maintaining the interest of the members and the enthusiastic support of the community so that the good work may be continued. Activities for the winter such as basketball, indoor high-jumping, etc. are suggested.

Under the auspices of the Canadian Labor Defence League, another enjoyable dance was held last night in the League Hall on Second Avenue, a good sized crowd being in attendance. Members of the League provided the music and refreshments were furnished by the ladies.

GRAIN SHIP IS LOADING

Pouring of Wheat Into Flensburg Started This Morning—One Cargo Will Still Be Left

The Dutch steamer Flensburg started this morning on the loading of a full cargo of grain for the United Kingdom or Continent from the Alberta Wheat Pool's local elevator. The vessel will probably be ready to sail about Monday.

With the loading of the Flensburg, there will be still enough wheat left in the local house to load one more ship provided the cargo is not too large. Reports are that the remaining grain in the elevator may be shipped to the Orient.

There was no word up to this morning as to when the movement of new crop grain from the prairies to the local elevator might be expected to commence.

HEALTHY INDEPENDENCE

Withdrawal of Free Trade Liberal members from the British cabinet shows a healthy independence. While they have dropped out of the cabinet they will continue to support the Union Government on all questions except that of protective tariff.

There seems no good reason why members of the government should not hold views differing in some points from those of their fellows. While there must always be a certain amount of give and take in any group acting together, there are bound to come times when the differences are of so radical a nature that they cannot be compromised. In such cases the only recourse is to part company. That is what the small group of British Liberals have done. Possibly in so doing they may save the Liberal party from extinction there.

IMPORTANCE OF LOW RATE

The importance of a low rate on transportation of automobiles between Prince Rupert and the present terminus of the highway is being stressed by the Chamber of Commerce and is now before the Board of Railway Commissioners. The commissioners are taking it up with the railway officials and it is hoped that good results may follow.

This is a vital local question and one that should never be allowed to drop until results are achieved. The present rate is prohibitive. Nothing higher than twenty dollars will be finally acceptable to the people of Prince Rupert.

LOWER FREIGHT RATES

There are some anomalies in the local freight rates that seem to need attention. This matter may have to be taken up with the higher officials or with the railway board. Farmers shipping potatoes to Prince Rupert have to pay over 50 cents a sack from some points and 33 cents from Terrace. The rate from Vancouver is only 42 cents yet the distance is two or three times as great. When farmers wish to ship their produce to Prince Rupert they find they cannot compete with the south.

Just what steps should be taken to have matters like this remedied does not seem apparent. Turnips from Terrace cost 49 cents a sack of 100 pounds for freight which is more than the farmer gets for growing them. It seems as if a combined effort on the part of the farmers' organizations and the Prince Rupert people could secure some relief.

Just now an effort is being made to improve farming conditions in Northern and Central British Columbia. The railway is co-operating in bringing in livestock and they might well take into consideration a revision of the freight rates on staple commodities such as potatoes and turnips. They are entitled to a reasonable profit on the business. Possibly there might be a sliding scale dependent on the price of the articles at the time.

It may be argued that there is more business done with Vancouver than with the interior and therefore they are entitled to a better rate, but the business will always go south if the rate with interior points is prohibitive. Farmers cannot make good if all the profits go to the railway and none to themselves. If a reasonable rate is given it will encourage farmers to raise the products and ship them in. The whole matter is worthy of serious consideration.

CEREAL RELIEVED HIS CONSTIPATION

Kellogg's ALL-BRAN Brought New Health

Every one who has suffered from constipation should read Mr. F. M. Fisher's letter:

"For many years I suffered from constipation and used, for relief, all kinds of laxatives. After a few days' treatment, I would only find my condition the same as before and at times worse.

"Some time ago I started to use Kellogg's ALL-BRAN regularly, once a day as directed. Since doing this, I have found that I do not need any other medicine to procure the desired result, and it keeps me in a very healthful condition."—Mr. F. M. Fisher. (Address on request.)

Constipation is caused by lack of two things in the diet: "Bulk" to exercise the intestines; Vitamin B to tone the intestinal tract. ALL-BRAN supplies both—and also iron for the blood.

The "bulk" in ALL-BRAN is much like that in lettuce. Inside the body, it forms a soft mass, which gently clears out the wastes.

How much safer this is than risking pills and drugs—so often harmful. Just eat two tablespoonfuls daily—in serious cases, with every meal. If your intestinal trouble is not relieved in this way, see your doctor.

Equally tasty as a cereal, or used in cooking. Get the red-and-green package at your grocer's. Made by Kellogg in London, Ontario.

TALKED OF GRAHAM ID.

Rotary Club Hears H. F. Pullen Tell of Outstanding Problems of Queen Charlotte Islands

"What Queen Charlotte Islands need is population. She cannot get population without transportation and she cannot get good transportation facilities without population, so there you are." That was one of the problems in connection with the development of the Islands set forth in a talk on Queen Charlotte Islands at the regular weekly luncheon of the Rotary Club yesterday by H. F. Pullen, who visited the Islands during the past summer.

One of the hopes for more population and more frequent transportation facilities the speaker saw in the development of the mining properties there. He told of his recent visit to the Skidegate Sunrise mine, which is being developed and of which Dr. Mandy speaks most encouragingly. He expressed the opinion that this was likely to be a real mine that would help to make the Islands famous. If this became a shipping mine attention would at once be drawn to the possibilities across Hecate Strait.

Mr. Pullen told of the fine cattle he saw on the Islands, of the deserted farms that might be utilized, of the productivity of the soil, of the fine type of natives he met, of the holiday resort at Tlell and the holiday possibilities of North Beach near Massett. The people there had much longer stretches of highway than had the people of Prince Rupert and the roads were pretty good. The plank road between Port Clements and Tlell was in excellent condition and would be good for many years to come. He had been told that this piece of the highway connecting Port Clements and Queen Charlotte City would prove very economical owing to the small upkeep cost. While repairs had to be made constantly on the gravel road south from there, this fourteen miles across the muskeg cost almost nothing, since it was built.

The speaker prophesied that some day the Islands would become immensely important. There was four thousand square miles of territory practically undeveloped, much of which was unknown. It was close to Prince Rupert and the people there looked to Prince Rupert as their market.

More Heifers For Interior Farmers

Fifteenth Carload of Quality Breeding Stock is Distributed

PRINCE GEORGE, Sept. 30.—The fifteenth carload of good quality breeding heifers shipped into the Central Interior of British Columbia along the Canadian National Railways was distributed on September 23 as follows:

W. F. Sawkins, Sinclair Mills, one head.

Mrs. Ida Neilans, Giseome, ten head.

L. C. Gunn, Prince George, five head.

Nordgren and Lindsadt, Prince George, five head.

L. M. Bower, Prince George, two head.

Walter T. Seymour, Chilako, six head.

This recent importation makes a total of four hundred and twenty-four Hereford and Shorthorn heifers imported into the district between McBride and Topley since October 1, 1931.

The Dominion Government free freight policy has been of great assistance to farmers throughout this district in that it permits them to become established in good quality foundation stock at a minimum of expense.

SPORT CHAT

Another record has gone back to
England—a big fish one—with the
feat of Col. E. T. Peel of Scarbor-
ough in catching a 798-pound tuna
in the amazing time of 48 minute-
after being towed a mile and a half
by the monster. His achievement,
displaces the record of Zane Grey
American sportsman and novelist,
who set the previous mark with a
758-pound tuna off the coast of
Liverpool, N.S., on August 24, 1924.
Deep sea anglers of England, after
trying their luck off the North Am-
erican coast for tuna, decided a few
years ago they might catch tuna in
the North Sea. And they were right.
Fish weighing 560, 630 and 735
pounds were caught before Col. Peel
landed his record-breaker.

Under the stringent rules of the
British Deep Sea Anglers' Society
the angler is allowed to wear a
shoulder harness and has the butt
of his rod resting on a swivel seat
but the work is all done with rod
and reel. Use of a motorboat in
playing the fish is banned. Tuna-
fishing as a sport began on the
California coast, extended to the
Atlantic Coast with the waters off
Nova Scotia recognized as the spot
where the biggest fellows have been
taken. The passing of the record
big fish honor to European waters
ends a leadership of years by Am-
erican waters. Zane Grey still holds
the anglers' biggest fish record with
a catch of a 1,040-pound Tahitian
striped marlin swordfish which gave
him a seven-hour battle.

**World Series to
Resume Saturday
At Wrigley Field**

NEW YORK, Sept. 30—Following
the second world series game at
the Yankee Stadium here yester-
day between Chicago Cubs and
New York Yankees, the teams left
for Chicago where the conflict will
be resumed at Wrigley Field on Sa-
turday with the fourth game on
Sunday, and the fifth, if neces-
sary, on Monday. The teams will
return here for the sixth and
seventh games, should the series
go that far, next Wednesday and
Thursday.

Four out of seven games, as us-
ual, decides the issue.

Wolfe's Monument Attracts Tourists

The towering shaft of Wolfe's
Monument on the Plains of Abra-
ham in Quebec, which commemo-
rates the victory in 1759 which won
Canada for the British flag, is a
mecca for thousands of tourists who
visit the famous St. Lawrence river
port. The monument marks the spot
where the gallant Wolfe, leader of
the British expeditionary force, died,
pierced by several bullets, just as
the victory was won. This decisive
battle marked the end of a century
and a half during which time Que-
bec, founded in 1608 by Samuel de
Champlain, had been the headquar-
ters of French rule in America. The
monument was erected in 1849. Mr.
Oscar Drouin, a member of the leg-
islative assembly of Quebec City, is
shown standing beside his new Ford
V-8 victoria, parked by the monu-
ment. The car was a gift from the
Liberal Association of Quebec City.

Guide to Correspondents

The Daily News welcomes correspondence on live topics of the day or any other subject of public interest, but letters must be brief and to the point. The long-winded correspondent has no place in modern journalism. Every letter must be signed by the writer, not necessarily for publication but as a matter of good faith and courtesy. All business documents go to the waste-paper basket. Letters of a caustic character must have the signature appended for publication. Letter should be written on one side of the paper only. Correspondents must avoid personalities and the language should be such as would be allowed in the ordinary rules of debate.

The Classified Ads.

Many people have something in the house they would like to sell which could be turned into money if they knew of a customer. Try a classified advertisement. Most people read the classifieds. For about fifty cents you can let them know about it and it may prove a profitable transaction.

Renting the House

There are a number of houses in the city not rented yet and many people make little effort to secure a tenant. Others who are wise to their opportunities try a classified advertisement in the "For Rent" column and often get results. As one satisfied customer said recently: "Those little ads certainly do bring results."

Some Like Reader Ads.

Some people after trying other kinds of advertising decide to try a reader among the locals and personals. Then they have got results. The cost is a little higher but they have been well satisfied. When conditions are like they are today the newspapers can often help. The price is not very high. Do not lie down and bemoan your hard fate. Try a different kind of advertisement and if that is not successful try again.

District News

SKIDEGATE

News of the death last week in Prince Rupert of Mrs. Ike Thompson of Queen Charlotte City was received with great regret on the Queen Charlotte Islands. Both Mrs. Thompson and her husband, who predeceased her about a year and a-half ago, were widely known and highly esteemed on the islands.

Mr. Thompson was one of the original locators of Jedway where he and Mrs. Thompson lived for many years. Any strangers landing there always found a welcome from the genial couple and Mrs. Thompson was always the first to volunteer to help the sick and the needy. The sympathy of all residents of the Islands will be extended to A. J. Wilds of Queen Charlotte City, Mrs. Thompson's brother, in his bereavement.

Prospectors and others recently visiting the interior of Queen Charlotte Islands report the deer to be very numerous there.

NEW HAZELTON

New Hazelton won the Bulkley Valley baseball championship when the local team defeated Smithers by a score of 11 to 4 at Smithers on Sunday last.

Capt. Mortimer, Indian Agent, has returned to Hazelton from a visit to Babine Lake. The natives of the Babine are fairly well prepared for the coming winter, Capt. Mortimer states.

Its Better and You can Prove it — Borden's ST. CHARLES MILK

There is a great difference in evaporated milks. Insist on Borden's St. Charles. It's the best by every test.

There are good reasons why Borden's St. Charles is the best of all evaporated milks. First, every herd that supplies Borden's is rigidly inspected. Every dairy is supervised—by Borden's own milk experts.

Second, the milk itself is tested. Colour, flavour, purity, cream content, are all carefully checked. Not one quart gets by unless it meets the exacting Borden standard.

Third, sixty per cent. of the natural water is removed, giving you concentrated milk more than twice as rich as average fluid milk.

Fourth, it is sterilized after being sealed in the cans, safeguarding your health and bringing you the purest milk obtainable.

In coffee or tea, and, or better results in cooking—insist upon Borden's St. Charles, and make sure that you get it.

TRY THESE THREE TESTS
and prove for yourself that **ST. CHARLES is better!**

1 Open a can of Borden's St. Charles Evaporated Milk. Note the creamy color—the smooth consistency—the pure fresh flavor.

2 Have a cup of coffee with Borden's St. Charles Evaporated Milk to "cream" it. St. Charles blends in smoothly, tastes fresh and rich.

3 Make cream sauce with Borden's St. Charles. That pure, fresh St. Charles flavor gives greater deliciousness.

BULKLEY VALLEY COAL

IS A HIGH CARBON, NON-COKING, BITUMINOUS COAL
That can be used to economical advantage in all styles of fire boxes. In your kitchen range try the nut-egg size and simply shake the bottom grate when a hot fire is desired. For heaters use single screened lump. In furnaces use single screened lump with a generous portion of fines added to hold a slow fire or banking over night. You will use no other fuel after becoming accustomed to—
