De Valera Says Settlement Is Likely ACTUAL CONSTRUCTION SALMON WHARF FINISHED THIS MONTH

Conference Between Premier Lloyd George and De Valera Commenced London Today

LONDON, July 14.—The outlook for a lasting peace in Ireland is now brighter than it has ever been in the history of the country, declared Eamonn de Valera, the Irish Republican leader, as he was about to enter into conference today with Premier Lloyd George in an endeavor to find a basis for the adjustment of the Irish problem.

Asked how he considered the prospects for peace, de Valera replied: "The outlook is brighter than ever it was in history. I am sure the atmosphere for peace in Ireland and England is just right. The only thing that remains towards this end is for us to get down to rock bottom."

De Valera arrived this afternoon at 4:30 at the official residence of Premier Lloyd George for the conference. Lloyd George was awaiting him and their conference commenced immediately. Today's meeting is a private one between the two to discuss preliminaries. Sir James Craig, the Premier of Ulster, has not yet left Belfast for London.

Some Disorder.

BELFAST, July 14.—Rioting broke out again today in the streets of Cork. A bomb was thrown which damaged a grocery store. Another house was looted and set afire. Order was restored by the police.

TWO MEMBERS AT OPENING PARLIAMENT

Adjourned Until Called by King:
Senators Pass Resolution.

BELFEST, July 14.—Ten senators and two members of the lower house of the Southern Parliament attended the opening yesterday. The lower house adjourned at the King's pleasure. The Senate passed a resolution of thanks to the King for his Belfast speech "which made the present situation in Ireland possible."

BRIAND WAS GIVEN LARGE MAJORITY

French Premier Has Confidence
of Both Houses and Will
Attend Conference.

PARIS, July 14.—When the Senate and the Chamber of Deputies adjourned yesterday for three months, the Government of Premier Briand received a strong majority in both houses. It is considered certain that Briand will be in charge of French affairs when the Washington disarmament conference is called.

PRINCE ARRIVES.

ROME, July 14.—Crown Prince Hirohito of Japan arrived here yesterday and was warmly welcomed by the King and given an enthusiastic reception.

Provincial Government Wins Out Before Privy Council in Well Known Liquor Litigation

VANCOUVER, July 14.—Having exhausted every known process of law to recover \$23,000 worth of wines and liquor seized several months ago by the Vancouver dry squad, the Canadian Pacific Wine Company has lost on every count. The Provincial Government retains possession of the huge stock of wet goods.

Today's valuation of the liquors is approximately \$400,000. The Privy Council has just given judgment in favor of the Provincial Government under whose authority the seizure was made.

ADDRESSES AT ROTARY CLUB

Three Speakers Today, Major
Motherwell, Archie Willis
and Mr. Barnes.

FISHERIES AND OUR EDUCATION DISCUSSED

There were five guests at the Rotary Club luncheon today. Major Motherwell, chief inspector of fisheries for this coast; John Emerson, of the Prince Rupert Fish and Poultry Company; Archie Willis, sports editor of the Victoria Daily Times and member of the Victoria Gyro Club; S. H. Hoskins, of Smithers and Mr. Barnes representing Walter F. Evans Company and member of the Kiwanis Club of Vancouver. The first spoke on the fisheries, the second on the education of the young, in which Canadian soldiers took part, and the third on the forward movement in connection with the B. C. University. Mayor Rochester also spoke a few words on the value of punctuality.

Major Motherwell.

Major Motherwell spoke of the desirability of co-operation and of the south knowing more about the north especially in regard to the fisheries. He expected to be often in Prince Rupert where he could meet the people and get their viewpoint.

The major said he found some pessimism in regard to the sockeye run this year but he felt certain there would be a good run of fish even though it was late. Reports received this morning were to the effect that for the past three days boats had averaged 70, 40 and 30 fish each. Bright and clear weather was needed in the sockeye fishing. The fish were late this year in spawning, caused no doubt by weather conditions.

Fish Photography.

Major Motherwell told of the photography of the fishing industry which was being done here now under the department for moving picture educational films. The orders to the operators were to feature Prince Rupert as the fishing centre of the north. This would be splendid advertising. Much of the work had already been completed and just now they were making pictures of the cold storage plant and would go to the halibut banks later in the year.

Archie Willis.

Archie Willis said that the Victoria Gyro Club had launched a movement in Victoria, which he hoped would be taken up throughout the Dominion, of commemorating ten famous battles in which Canadians fought in France and Belgium. It had already been taken up in Victoria, where the mayor had asked the people to fly their flags and the teachers had given fifteen minute talks on the Battle of Vimy to the pupils in the schools. Nine more battles were yet to be celebrated. Fifteen thousand Canadians had laid down their lives in these battles and they thought it more important to learn of them than of the Wars of the Roses or it.

(Continued on Page Three).

WORLD'S FIRST WOMAN PRESIDENT.

Lady Surma, who obtained wide recognition as the first woman Ambassador to London from the Assyrians in the mountains of Kurdistan, has been appointed Chief Executive of 50,000 square miles of territory recently assigned to the British to the Assyrian people. Her capital will be either in Mosul or on the site of the ancient city of Nineveh.

Ocean Dock Construction Now But Awaits Letting Superstructure Contract

The construction of the new ocean dock, west of the present G. T. P. wharves, will be completed by the end of this month as far as the present contract of Grant Smith & Magoffin Company is concerned. This contract includes the pile-driving, decking and the dock generally, and there now remains but the building of the superstructure, for which the contract has not yet been let as far as is known locally.

The contracting company is now busy putting on the finishing touches to the actual dock building. About thirty tender piles have already been driven, the nailing down of the decking is about completed, and a week's time will see the rapping for the protection of the fill completed.

The wharf has been ready for twenty days for the starting of work on the superstructure, and the delay in the letting of the contract is not understood here. There has probably been some hitch in the tenders received which has necessitated the obtaining of further information.

DARING THEFT SEATTLE TODAY

Two Bandits Take Grips Con-
taining \$25,000 from Com-
pany Messenger.

SEATTLE, July 14.—Two bandits this morning snatched a bag containing \$25,000 in currency from a messenger of the Northwest Trust and Safe deposit Co., and escaped in an automobile pursued by a cab driver who witnessed the affair. The police soon took up the chase and are now working on it.

SNIPERS CONTINUE BUSY AT BELFAST

BELFAST, July 14.—Two men and a boy were wounded by snipers, who continued busy in the streets of Belfast Wednesday night.

Miss Clarke, superintendent of the Methodist Mission Home at Kitimaat, is spending her vacation with Dr. and Mrs. W. T. Kerrigan of this city.

Sockeye Swin Deep; Few Are Being Caught This Season as Yet; Weather Conditions Bad

Major J. A. Motherwell, chief inspector of Dominion Fisheries, together with J. T. G. Williams, inspector for District No. 2, has just completed an inspection of District No. 2 from Smith's Inlet to and including the Skeena River. All operating canneries were visited and conditions generally throughout the district were enquired into.

It was found at all points that the sockeye catch does not compare at all favorably with that of previous good seasons at the same date, although consensus of opinion among the cannery managers and others best qualified to know, would seem to be that the small catch is almost entirely due to the unusually unfavorable weather which has obtained.

Weather Bad.

In the Rivers Inlet and Smith's Inlet District the pack of sockeye up to and including July 11 amounted to approximately 7,500 cases. The weather conditions have been the most unfavorable in years, there being a great amount of rain, cold and much boisterous weather. It was observed, however, that as soon as a fine day arrived the catch immediately increased.

In the Bella Gorda District the sockeye run, although not as satisfactory as was expected, still compares very favorably with previous years. The run of spring salmon in the Bella Gorda District has been excellent and compares very favorably with the season of 1920, which was a particularly good one.

In the Kinsquit area the run of sockeye has been very good.

Skeena River.

On the Skeena River, up to and including July 12, the sockeye pack amounted to approximately 6,000 cases, which does not compare at all favorably with the same date other years, but the reason for the small run appeared to be the weather conditions which have been very similar to those at Rivers and Smith's Inlets. During the past few days, however, the run has improved somewhat, owing no doubt to the improved climatic conditions.

It is interesting to note in this connection that from very recent reports received from the Lakelse Lake District, it appears that practically no sockeye had reached that spawning area up to a few days ago. It is very probable that, as a good many authorities expect the run this year for some reason or other is a little later than usual.

The spring salmon run at the present time on the Skeena River is excellent, the quality being very high and the number most satisfactory.

Naas River.

The reports from the Naas River up to and including July 11 show a Sockeye pack of approximately 1,600 cases. The weather in this district has also been very bad.

Fish Swimming Deep.

The general impression among those interested appears to be that on the Skeena River, Smith's Inlet and Rivers Inlet particularly, there are fair quantities of fish running, but owing to weather conditions it has been impossible to catch them on account of the fish swimming deep.

From the Fraser River District the reports to date show few sockeye but of course it is yet early for the Fraser.

Although up to date the sockeye run in the District as a whole has hardly been satisfactory yet there is sufficient time for a good pack should the weather conditions become favorable.

SCHOONER IS WRECKED AND CREW SAVED

NOME, July 14.—The schooner Gertrude bound from Nome to Siberian points was wrecked in a gale off Cape Few and is a total loss. The crew was rescued by the coast guard cutter Bear.

The schooner Ram with a number of passengers aboard is ten days overdue from Teller, Alaska, and fear is expressed for her safety. She has not been sighted.

VILLAGE WAS BURNED OUT

Fires Still Sweep Unchecked in
Northern Ontario.

CAPREOL, Ont., July 14.—The village of Ruel, on the Canadian Northern Railway, has been completely wiped out by forest fires which are sweeping the district. Two large lumber mills, including all the lumber and logs and 35 car loads of ties, were destroyed. The monetary loss has, as yet, not been estimated. The fire is working its way unchecked toward the village of Makwa.

PRINCE OF WALES INVITED TO VISIT JAPAN IN AUTUMN

LONDON, July 14.—The Prince of Wales has been formally invited by the Japanese Government to visit Japan at the close of the Indian tour which begins in October. He would return from India by way of the Pacific and across Canada.

Sportsmen Losing Their Privileges.

Sportsmen are losing many of their hereditary privileges in the Old Country. It is now contrary to law to use pigeons for shooting matches, and coursing hares and rabbits is very much restricted. Other human restrictions are being imposed. It is illegal to use plumage of birds for trimming hats, the osprey being particularly banned. It is curious that at a time when human life is so cheap in Ireland, and following a time when men were killed like ants, Parliament should turn to the protection of animals and birds.

Liberal Choice At Convention.

Fred Stork, who was chosen Tuesday night by the Liberal Convention as the candidate to contest this constituency for them in the next election, whenever it may take place, is so well known to Prince Rupert people that it is almost superfluous to comment on the choice. He is a local business man and is thoroughly familiar with the district. If elected, as he probably will be, he cannot fail to prove a good representative.

It is likely to be some time before there is an election, but Fred is there, ready at any time to take the field when the clarion call goes forth and the political battle is staged.

New German Spirit Says Sir Philip Gibbs.

Sir Philip Gibbs, well-known war correspondent and fiction writer, issues a note of warning against the industrial danger to the world from Germany. According to that authority there is a change come over the country. Let Sir Philip speak in his own picturesque way:

"There is a new spirit in Germany. It is economic enthusiasm, with peace and labor as its conditions. They will show the world what German genius can do in industry.

"One thing perplexes me. It is certain that Germany can pay her indemnities only by enormously increased exports, but if they are increased to that extent won't they ruin the commerce of other nations? It is a devilish dilemma, for which as yet I can see no solution.

"I see another strange thing. I see a people braced and energized by defeat, whereas the victor nations like England have slackened into listlessness.

"Imperial pomp and pageantry have passed from Berlin. No guards surround its palaces. Only a few security police in neat green uniforms remain as a memory of all those military types who used to pass with such arrogance about the city.

Colossal Example of Industrial Energy.

"The German people are prepared to give the world the most colossal example of industrial energy ever seen. I think they will and I am not at all sure that the world will like it. In order to pay the indemnities they will have to increase their exports at least five times.

"With the low mark and low wages their goods will invade all the world's markets. When they can make safety razors of excellent quality for 18 cents, as they are doing, no tariff will keep them out. It is merely folly to believe that the German wealth is sufficiently great now to meet her obligations. She must create this wealth.

"Everywhere I find among German people, high or low, a firm resolve to pay what they have promised if it is humanly possible. All but the junkers, who are sulking in their castles, have abandoned the militaristic philosophy. Among the working classes it has disappeared, at least for the present generation, unless France goads them too savagely. And I notice that German children never play soldier games as they used to."

WELCOME RELIEF FROM ECZEMA

Complete Treatment That Gives Gratifying Results

WASING, ONT.

"I had an attack of Weeping Eczema so bad that my clothes would be wet through at times.

For four months, I suffered terribly. I could get no relief until I tried "Fruit-a-lives" and "Sootha-Salva".

Altogether, I have used three boxes of "Sootha-Salva" and two of "Fruit-a-lives", and am entirely well."

G. W. HALL.

Both these favorite remedies are sold by dealers at 50c. a box, 6 for \$2.50, or sent on receipt of price by Fruit-a-lives Limited, Ottawa.

"Fruit-a-lives" is also put up in a trial size which sells for 25c.

ENGINEERS OF PULP COMPANY VISITED ECSTALL TRIBUTARY

After a three days' trip on the launch Seal Cove in their quest for power projects in the vicinity of Prince Rupert, E. F. Duby, local manager; H. P. Crowell, resident engineer, and J. P. Leiland, superintendent of construction, all of the Prince Rupert Pulp and Paper Co., returned at midnight on Monday night from Brown's River, a tributary from the western side of the Ecstall River.

From their physical examination of this river, the officials are impressed that it has possibilities of becoming a good power producer. There would be 9,000 continuous horsepower available. They were indeed well pleased with the outlook for the development of this stream along these lines.

INCREASE IN CRIME SENDS UP RATE OF BURGLARY INSURANCE

MONTREAL, P.Q., July 14.—Mainly due to the great increase in crime on the island of Montreal and inadequate police protection, the burglary insurance companies have advanced their rates radically for this island.

Class A insurance, covering jewelry, personal effects, clothing, and liquors has been advanced one hundred per cent. It was stated this morning at the office of the Employers Liability Assurance Corporation, Ltd., and specific insurance has been increased from \$5 per \$1,000 to \$7.50 per \$1,000. By specific insurance is meant the insurance of any one article or set of articles separately from any other part of the household, the value of that specific article being separately declared, and the premium calculated at so much per cent. of the declared value.

The Man in the Moon SAYS:

ALL men are liars. And then there is the woman who says she is delighted to see you when all the time she is counting the minutes until you disappear.

FAMILIARITY is supposed to breed contempt. Many men are familiar with their wives, but very few hold them in contempt.

SOME Auto drivers say they can get nearly thirty miles on a gallon but there are others who have never driven a car who could almost go to heaven on a gallon.

ONE of the things that don't get you anywhere is trying to drive out to Butte rapids on the new Government road.

THERE is a rumor around town, though it is feared that it is only a rumor, that with the failure of the cabbage and hay crop in the East, the manufacturers will put real tobacco in the cigars.

It was in Vancouver the other day that a visitor put a couple of gallons of whiskey in the radiator of a Ford and Lizzie got safely past the customs officers at the boundary. Then she began to perform tricks and finally took a roll in the ditch and the driver is now in the hospital.

Ten Years Ago in Prince Rupert

July, 14, 1921.

From midnight last night until noon today saw much business along the waterfront. There was a veritable procession of incoming and outgoing steamers which included the Princess Mary, City of Seattle, Prince Albert, Venture, State of California, Prince Rupert, Princess Ena and Camosun.

Frank Scott, treasurer for the Grand Trunk and Grand Trunk Pacific Railways, returned today to his home in Montreal armed with seventy-six photographs which he took in and around Prince Rupert.

The new C.P.R. steamer Princess Mary called at this port last night on her first trip to Alaskan points. She is a palatial and handsome vessel.

PRINCE RUPERT TIDES

Thursday, July 14.

High—9:34 a.m., 15.6 feet.
21:33 p.m., 18.7 feet.
Low—3:26 a.m., 6.3 feet.
15:12 p.m., 8.8 feet.

Friday, July 15.

High—10:40 a.m., 16.0 feet.
22:27 p.m., 19.0 feet.
Low—4:35 a.m., 5.6 feet.
16:21 p.m., 9.1 feet.

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours, from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

The height is in feet and tenths of feet above the average level of lower low water.

TARIFF SHOULD NOT EFFECT WHEAT PRICES

Cattle Will Be Hard Hit by U. S. Duties, Secretary for Grain Growers' Says.

REGINA, Sask., July 14.—

Wheat prices in the Canadian west will not be affected by the new American tariff, except insofar as this interference with free shipment to the United States may be exploited by market manipulators, according to an opinion expressed by J. B. Musselman, central secretary for the Saskatchewan Grain Growers' Association, in a recent interview.

"So long as the United States requires Western Canadian hard wheat for blending with her own winter wheat, it would seem that her own people will have to pay the import duty on it, besides its competitive world value. The United States millers will be under a handicap in competing with Canadian millers when it is considered that imported wheat is used for blending in making flour for export to Europe," Mr. Musselman said.

The meat industry, Mr. Musselman believes, will be hard hit by the new tariff. "The effect of this tariff on our meat industry is likely to be very much more detrimental to the farmers of this country, especially as Canada has practically no other market for live cattle," Mr. Musselman, concluding said: "The thing for Canada to do is leave no stone unturned in building up export markets for her commodities, and in perfecting financial and marketing arrangements that will leave her producers under no handicap in meeting the competition of the United States States in the markets of the world."

GERMAN DESTROYER WAS SUNK BY BOMBS

VIRGINIA CAPES, July 14.—The German destroyer G-102 was used as a target for aircraft yesterday and was sunk by heavy bombs dropped from the air. Excellent work was done by the airmen.

HAIG WANTED AT G. W. V. A. PAGEANT

OTTAWA, July 14.—The assistance of Premier Meighen in securing the attendance of Earl Haig at the Great War Veterans pageant in September or October is requested.

CATHOLICS ATTACKED.

LONDON, July 14.—The Catholic quarter of Crookstown, Tyrone, was attacked, it is believed by Unionists. Several persons were injured and one house was burned.

PLAYS HARMONICA WHILE OPERATED ON

BOSTON, July 14.—His music soothes Oscar J. Kelley of South Boston that he preferred it to ether while hospital surgeons were probing for a bullet in his thigh. When the doctors started to put Kelley under the influence of the anæsthetic he objected strenuously. Then he called for his harmonica, jumped on the operating table and played gaily while the bullet was removed.

Keeps Motors Smooth Running

Quality maintains economy. You may pay less "per gallon" for other lubricating oils but you get more lubrication "per dollar" when you buy Imperial Polarine Motor Oils.

USERS of Imperial Polarine Motor Oils enjoy a singular freedom from engine trouble, which is at once a source of profit and pleasure to them.

Every bearing and rubbing surface is cushioned with an unbreakable oil film which relieves friction and minimizes wear. Good compression is also maintained, saving both fuel and oil and increasing power.

Lessened repair bills, lower upkeep costs, better satisfaction and longer service from your car follow the use of Imperial Polarine Motor Oils.

Consult our Chart of Recommendations for the grade of Imperial Polarine best suited to your motor. See Charts at your dealers or write to 56 Church Street for "Automotive Lubrication," a booklet which contains the Chart and other valuable information.

IMPERIAL OIL LIMITED

Branches in all Cities

FOR A CLEAN EFFICIENT MOTOR

The crank case of your motor should be drained, cleaned and refilled with fresh Imperial Polarine every 1,000 miles or less. Dealers who display this sign give expert crank case cleaning service, using Imperial Flushing Oil, a scientific cleaning agent which removes all dirt, grit and impurities, which are so harmful to your engine. It will pay you well to employ Imperial Polarine Crank-Case Service to-day.

other ancient historical events. History had been made by the fathers and brothers of the pupils in the schools, and of this they should know. He urged that Prince Rupert Rotary Club take a hand in making this movement a national one.

Mr. Willis said he admired the community spirit of Prince Rupert people. He found here an absence of knockers which was refreshing. The people were not afraid to boost what they had and make the most of it.

Mr. Barnes spoke for the University movement which his club was backing in Vancouver. He said that the present condition of the university demanded immediate attention. They were trying to interest the government in it and asked the co-operation of all the other clubs of the province.

NOTICE TO CONTRACTORS.

Tenders will be received by the undersigned up to noon July 18, 1921 for the shingling and painting of the Prince Rupert General Hospital. Plans and specifications may be seen at the office of the Secretary, 132 P. R. GENERAL HOSPITAL.

UNIQUE WEDDING WITH FEVER PATIENT AT MOOSEJAW RECENTLY

MOOSE JAW, July 14.—A unique wedding ceremony was performed here recently when Miss O'Brien of Philadelphia was united in marriage with Charles Barker of Vancouver by Rev. Father Egan of Boston at the local isolation hospital, where the bride is a scarlet fever patient. The ceremony performance was performed through the window of the hospital. Safe behind a germ-proof sheet of glass, the groom and Father Egan took their stand in the hospital grounds, while Miss O'Brien, charmingly gowned, made her responses from the interior of the building.

Following the ceremony, the bride returned to her ward to await the expiration of her six weeks' exile, while the groom left Moosejaw for his home in Vancouver.

Miss O'Brien was stricken with

Popular and Reliable

10c CIGAR

Union Made in Vancouver Since 1905

scarlet fever while travelling to Vancouver with Father Egan, where she was to have been married. She was taken from the train here and removed to the isolation hospital.

ALICE ARM

Ole Evindsen, the well known Alice Arm pioneer, is here on a ten day's visit.

L. N. McAuley, who has been a member of the Royal Bank staff since the branch was established here, has been transferred to Prince George and left here on Monday evening.

Government road work is being resumed on the trails in the Illance and Kulsaut River valleys.

As Henry Carney, the postmaster, was picking salmon berries near his Illance River ranch last week, a big brown bear started pulling on the same branch as he was picking from. On Bruin discovering a rival berry picker he disappeared post-haste into the woods.

Ole Pearson, one of the original stakers of the Dolly Varden mine, returned here last week accompanied by Miss A. L. Larsen and Mrs. O. A. Johnson. Mr. Pearson has been in Norway since 1911.

Unnecessary.

"I haven't any sympathy for the man who beats his wife," said a passenger in the smoker of the 5:15.

"Well," said another, a timid undersized fellow, "a man who can beat up his wife doesn't need any sympathy."

The difference in TEA.**The Secret of the Blend**

Even if you knew the blend of Blue Ribbon it would be impossible to make a tea as satisfactory, as strong, as superbly delicious. Blended by a process that combines the choicest tea varieties, Blue Ribbon in its final state retains only what is most superior—will give as a result.

ALBERTA DEPUTY MINISTER TELLS ABOUT THE CROPS

Rains on Prairie Have Made Wonderful Change, Stopped Grasshoppers, Insured Good Yield.

EDMONTON, July 14.—Recent rains have made a wonderful change in the crop prospects of the province and materially helped conditions. The rains were fairly general throughout the province and were of such a soaking and penetrating sort that has not been experienced in this province for two or three years. This is especially true of northern Alberta, states H. A. Craig, deputy minister of agriculture; he believes that while there will be a percentage of the province definitely curtailed in its crop prospect by the drought, there will be no place absolutely wiped out for that reason. The straw will be short, it will prematurely ripen on account of the hot dry spell, and the crop will be much lighter than had been expected. The only places where the crop is absolutely cut out, will be a few districts where the cutworms were bad. When the cutworms work, they do it with precision and accuracy.

Grasshoppers.

The rains of the past week have also stopped the operations of the grasshoppers, and the government has had no demands for the past few days for any more poisoned bait, but the organization is being kept intact, states Mr. Craig, in all readiness for another outbreak. The cool, cloudy weather following the rains, has been of the greatest benefit in allowing the moisture to soak in. Now with warm weather to complete the ripening, there should be a splendid crop especially in the northern half of the province. In some of the south and east the crop was too far advanced to get the benefit of the rain, states Mr. Craig.

The rain did not come in time, however, to make for a good hay crop, except in the Peace River, Grouard, and Grande Prairie countries. All through the north they have not lacked for moisture, all season, and as a consequence, they will have plenty of hay there. The supply of green feed and the pasture however, will come well, since the rain, and according to present prospects, there will be no lack of feed, even if the hay crop is light and in the south country especial, there is no doubt that the hay crop will be short this year.

The early sown wheat is well in head and the oats and barley are shooting. Rye is also a good crop. The cutworms have ceased to work now, having passed that stage in their development, and the grasshoppers have been plentiful, but the farmers have apparently been able to control them, by energetic poisoning campaigns.

JAZZ IS DYING

So Says London, But There is a Doubt Added as a Postscript.

NEW YORK, July 14.—"Jazz" is in its death agonies. The people are said to be "tired of noise" and want "music with real harmony in it." New York thus agrees with Chicago, where a music dealers' convention talked of a steadily increasing demand for the "Rosary." "Love's Old Sweet Song," and their like. So far as "jazz" is concerned, this American opinion is shared by some London authorities. Yet plenty of "jazzing" can still be seen both in town and the suburbs. In the suburbs there are many "flannel dances" these summer evenings, and they are not noticeable as a rule for any indication of a return to staid and stately styles.

FRIED EGGS IN SUN AND WON HIS BET

WASHINGTON, July 14.—"You win John," gasped Representative Joseph C. Pringle, of Oklahoma, as he mopped his brow and lost a wager to Congressman John W. Langley, of Kentucky. Langley bet that it was hot enough to fry eggs on the steps of the Capitol. Pringle said it couldn't be done. Langley secured a pair of eggs from the House restaurant. The frying was slow but was finally accomplished.
