Delegates Discuss Pacific Problems Conference Today

WASHINGTON, Nov. 16.—Problems of the Far East took the centre of attention at the disarmament conference today while the plan for the reduction of naval establishments is passing through a period of technical examination at the hands of the committee of experts. For the first time delegations from Great Britain, United States, Japan, France, China, Belgium, Portugal and the Netherlands, acting as a committee of the whole on far eastern questions, assembled for a preliminary discussion and to lay plans for procedure.

Ketchikan Whiskey Boat Fired Upon by Cannon From Thiepvat Before Capture Was Effected

Caught red-handed in the act of smuggling liquor from this port to an Alaskan port, the American gasoline boat Syph, of Ketchikan, and the Rosina B., of Prince Rupert, were seized yesterday afternoon at sea by the fisheries patrol steamer Thiepvat. The former boat has been confiscated as well as her \$3112 cargo of liquor, and the latter was fined \$500 for having failed to clear from port. The capture was a thrilling one and the three-pound cannon of the Thiepvat had to be brought into use before the seizure of the running American boat was effected.

Seven shots from this gun were fired as well as pistol shots. It was 9 o'clock yesterday morning when Chief Officer Alcock of the Thiepvat was on watch as the vessel was passing the north end of Dundas Island in Dixon entrance. He saw two boats coming towards each other. They were not fishing boats so his suspicions were aroused and he kept close watch of them. They went together into a small inlet into which it was impossible to take the Thiepvat. Calling Captain Adlem, it was decided to take the Thiepvat into a nearby inlet and a small boat was used in approaching the inlet into which the two launches had gone. Cutting through an inch of ice, shore was reached and the officers and men made over a trail to the bank of the smaller inlet.

From the shore the two boats could be easily seen and cases were being passed from the Canadian to the American. Seeing the operations, Captain Adlem decided to make his way back to the Thiepvat with a view to taking the steamer around to the mouth of the smaller inlet to intercept either of the boats attempting to depart from there. Chief Officer Alcock was left to watch the boats in the inlet. The work of transferring being finished, the men on the boats were seen to pass around a bottle for a parting drink. The American boat soon after started away. The mate then made his presence known and shouting commanded the departing boat to stop. No heed was paid to this order, however, and the boat proceeded to go faster. The officer then started to fire his revolver but still the fleeing vessel continued to make away from the scene as fast as possible.

There was a small dinghy in the inlet and the officer going to the owner, who lived close by, commanded this and, although it was half full of water, he and his men made the Rosina B. which was still anchored. Boarding this, he commanded the crew to start the engine but it seemed they had difficulty in doing so. The mate by this time had commenced to think that his American quarry had got away from him but the Thiepvat was after the smuggler and within half a mile of the boundary got within firing distance and commenced to fire the 3-pounder. Seven shots splashing here and there, were fired before it stopped. Overtaking her, it was found to be the Syph.

R. Simpson, the pilot, had prepared himself and his boat for hasty flight for when the men from the Thiepvat boarded her, Simpson was found alone in the pilot house wrapped in a mattress. The rest of the crew on the boat had been sent below. Simpson is the proprietor of the Owl Hotel, Ketchikan. The other two men on the boat were O. De Liere, captain, and Gus Brinkel.

Japan to Ask More than Hughes Scheme Allows and French and Italian also want Preference

WASHINGTON, Nov. 16.—Japanese naval experts announce that they are preparing arguments on which Japan will base her demand for a higher ratio of naval tonnage under the disarmament scheme. It is hinted that Japan will ask to be allowed sixty per cent. of the combined British and American strength. French and Italian naval experts are working on proposals. They figure these two countries will be entitled to bigger navies than under the Hughes scheme.

J. R. Knight, recently four months in Soviet Russia, Canadian representative Red Cross Society of Soviet Russia, will speak in the McIntyre Hall on Wednesday, November 16 at 8 p.m. on "Conditions in Russia." Other lectures next week. Watch for announcements. Supplies Russian Famine Relief Committee. 268

Greatest Event in World History.

If the great powers of the world now in conference at Washington evolve a permanent disarmament scheme which can be worked out successfully it will be the greatest event in human history. The world has always been fighting. The farther back in history we look the more fighting there was. Those who did not fight were killed off. The survival of the fittest meant very largely the survival of the best fighters.

In the early history of Britain we find war viewed as a noble thing. King Richard, Coeur de Lion, is the hero of all young boys, and a fight was the very breath of his nostrils. He never did anything else. Of late years, however, public opinion of the world is being modified. China long ago learned to look on war with horror, and that part of her civilization is permeating what we call the civilized world of today.

The climax of the movement toward peace seems to have come in the Washington conference, where the great nations of the world have sent their representatives to work out a scheme which it is hoped will eventually lead to universal peace.

Sportsmanship Badly Needed.

What is needed in the world today is the spirit of sportsmanship. When young boys are encouraged to take part in competitions and shown that it is honorable and noble to take a beating with a smile it is not always realized that this is the force that will prevent the wars of the future. To play the game without resort to improper methods is the power of today. Once that is learned, we have with us the spirit that will eliminate war.

There must always be competition between nations, just as there must always be competition between individuals, between communities, between provinces or states and between any groups of human beings. It is implanted in our natures to try to do better than the other fellow. It is the impetus which makes for all progress. Carried to the limit it means the successful war of Alexander, in which he conquered the whole world and wept because there were no more worlds to conquer. There comes in however, the spirit of sportsmanship which forbids men going the limit, but keeps them within reasonable bounds. They have to play according to the rules and learn to take no mean advantage of an opponent. That is the spirit that must eventually rule and that will make it possible for the nations of the world to agree not to quarrel while at the same time competing.

Cultivate at Home Spirit of Fairness.

In every phase of life we find this spirit exhibited and its failure is also noticed. When men at election time meet in debate and discuss the issues and the fitness of their respective candidates without rancor and ill feeling, there is the spirit which will make wars impossible in the future. When, however, they become carried away with the importance of the issues and allow themselves to take unfair means or to abuse or threaten their neighbors, or even to go farther than that, then the spirit which is a danger to the future peace of the world is very much in evidence.

Until men learn to play the game fairly, observing the rules and keeping their tempers, there is little hope for permanent peace. Happily, it is not the small men with small minds that usually control the destinies of nations. It is the men with the broad outlook that are desirable, men who are safe and who can view things as from an eminence where others cannot see.

Learning Sportsmanship Right in This City.

There is no means of training for sportsmanship like the indulgence in many sports and games. Last night the basketball season opened and a number of young people, boys and girls, lined up in opposing teams and played more or less according to rules. There was, however, too much of a desire to win even at the expense of the spirit of fair play. They did not always play the game. Until we can learn to do this in our games we cannot hope for nations to do it. The basketball league may be made a practical adjunct to the peace conference if it can train its members to play the game all the time and never to take an unfair advantage of an opponent.

MURDER MYSTERY IN TONIGHT'S FEATURE WESTHOLME THEATRE

Through the creation of an unusual character, the murder mystery in Louis Bennison's latest picture, "High Pockets," which comes to the Westholme Theatre tonight is solved. The Crime has baffled the sheriff and the U. S. Marshal "High Pockets" Henderson, who discovers the murder. The first clue is obtained only when the marshal begins to suspect a gang of cattle thieves as the perpetrators of the crime. As his suspicions cannot be confirmed, he is powerless to proceed in the case, when a half-witted musician, who has drifted to that deserted part of the world, gives the marshal his first real information.

Vicious Dance Hall. In "High Pockets" little Tony the musician in the vicious dance hall where the cattle thieves made their headquarters, had long been forgotten as a person of consequence and was treated by the gang as a little insignificant cog in their scheme of pleasure. But this cog knew the key to the mystery which had so long baffled the authorities and the knowledge bore upon his conscience with a pressing fear he could no longer conceal. Finally, when he saw the determination of "High Pockets" he could no longer remain silent but revealed his knowledge of the crime. Through him the marshal was then able to connect the scheme whereby the real murderers were brought to the point of admitting their crime and so vindicating the course of justice.

A NEW BOOK James Oliver Curwood Writes an Outdoor Tale of Northland.

"The Flaming Forest" is the title of a new book recently written by the great outdoor author, James Oliver Curwood. It is a tale of the northland which will stir up the wanderlust in the heart of the adventurer. This is Curwood's third book of the Three River Country. The theme of the story is that David Carrigan, sergeant of the Mounted Police, goes into the wilderness to get his man. He becomes the victim of a strange marksman, and is nursed back to health by Marie-Anne Boulain of the famous Boulain fur brigade, whose chief is the mysterious St. Pierre Boulain. Of course Carrigan falls in love with Marie-Anne, but Boulain stands between them.

There is a fight—woodsman against skilled boxer—and Carrigan wins. But he is kept prisoner and goes north with the brigade to the forest domain of St. Pierre Boulain. There is a forest fire, a tragedy, and then the smoke of mystery is cleared away. Unborn tomorrows and dead yesterdays! Why forget about them. Today is everything. Advertise—now!

HOUSTON HAS ADVANTAGE OF FINEST SOIL

Bulkley Valley Settlement Raises Finest Crops and is Prospering.

HOUSTON, Nov. 16.—Houston, located 277 miles from Prince Rupert on the Canadian National Railway, is the centre of one of the coming farming communities of the Bulkley Valley. From an agricultural standpoint the land here presents great opportunities and as a place to live it is unexcelled. Houston is one of the prettiest spots on the line, and the country for miles around is the same. The country is flat and the bush is light, so the land is not hard to clear. For miles there are no large mountains and the country is undulating over the small hills.

Farming here at the present time may be said to be in the experimental stage, although it is realized that, similar to most of the rest of the Bulkley Valley, the principal business will eventually be dairy farming. Timothy hay is raised with success and thus farmers in the district should be able to feed their own stock, although it is doubtful if hay will ever be raised for the outside. Potatoes are also raised here to advantage. Great crops have been reported this season on some of the farms on the flats.

Many Farmers. There are already thirty or more resident farmers who are actively engaged in developing their land in this district within a radius of six miles of the town. There are still others farther away, not to mention those who hold land and spend part time working it and the rest of the time working on the railway and the government roads. This year four of the ranchers shipped cream to the creamery at Vanderhoof. There is a great deal of stock already here, this including mostly beef cattle. Where are also horses, sheep and swine.

There are some prospectors in the neighborhood, but it is not likely that mining will ever play much part in the future of Houston or the territory immediately surrounding it. Fine Summer Resort. With such scenic advantages and also splendid hunting and fishing, Houston has much to offer as a summer camping resort. Roads that are being built now are opening the country up and making this town a centre from which a holiday seeker or traveller can get for many miles both east and west. The climate is dry and cool and is a pleasant change from the coast.

In the way of a town there is not much at Houston. The people are farmers and not business men or tradesmen, and come here to go on the land. However, John Gould, a pioneer of the North, conducts a general store as well as the postoffice and government telegraph office. There is a fine homelike little hotel run by Mr. and Mrs. C. H. Davies. This house is certainly not like the ordinary run of small town hotels, and the good meals, where one gets fresh cream with Bulkley Valley berries, fresh meat, fresh milk, fresh eggs, all cooked in a home kitchen, are making for it a popular reputation. Travellers like to make their plans to stay here if at all possible when in the district, for it is more like home than any other stopping place in the Bulkley Valley. H. Nickerson is the Canadian National Railway telegraph operator and also acts in the capacity of station agent.

WILL SELL POPPIES

Saturday is Tan Day for the G.W.V.A. Aid French Widows and Children and Local Funds.

The delayed tag day will be held on Saturday next when poppies will be given to all who donate to the G.W.V.A. funds. It is a worthy object and doubtless will be well supported. The French widows and orphans, who made the poppies, will benefit as well as the G.W.V.A. relief fund. The collection will be taken by the L.O.D.E. aided by a number of school girls.

BAPTISTS IN GOOD SHAPE

At Social Last Night, Rev. W. H. Redman Dealt With Church Finances.

Last evening under the auspices of the Ladies' Aid of the Baptist Church another successful and enjoyable get together social was held in the church rooms. During the evening Mrs. E. V. Ling and A. Clapperton rendered solos and P. Lingzy gave humorous shadowgraphs with Fred McDonald and Miss Muse assisting. W. Vaughan Davies was piano accompanist and he also gave solos. Those present joined heartily in the singing of old fashioned songs. Rev. W. H. Redman, the pastor in speaking stated that much credit was due to the Ladies' Aid for the splendid work that the organization had done. In the past seven months, with the assistance of other departments, the church had been able to pay off nearly \$300 of local debt. Today the church did not owe a single cent of local debt. Now it was hoped to get to work on the building debt and an effort would be made to reduce this. The amount was not large when one considered the fine and well equipped church which was second to none in the city. The pastor thought that it might be possible to pay this debt off entirely in three years' time or less and he made an especial appeal to all departments. More singing took place after the pastor's address and the affair closing with the singing of the National Anthem.

In the Letter Box WHO ARE WE ALL?

Editor Daily News:

I see by yesterday's issue that Mr. Myhill Jones considers you have committed a very great indiscretion in saying he is a Conservative and denies most emphatically that he is guilty, pointing out so far as I can gather that he was a Liberal of the Sir Galahad order who has been so disgusted by a "political scandal" alleged to be perpetrated by a Liberal statesman that he is now—What?

If Mr. Myhill Jones will take the trouble to look over the hand book got up by the Liberal and Progressive parties for use during the election he will find an account of the way the soldiers vote at the front was manipulated to return members of the Coalition party to power after they had been rejected in the elections in Canada. Names of the guilty parties are all published. Perhaps a perusal of this will cause Mr. Myhill Jones to make another change.

Regarding the Board of Trade scandal fixing the price of sugar at 21 cents when it was selling at 13 cents in New York an action that has been declared illegal by the privy council. How does this affect the conscience of our local Sir Galahad?

I see it announced in a recent news item that Mr. Myhill Jones and Oh, Baby! will shortly depart on an important and lucrative mission carrying ballot boxes. Now Sir, Mr. Myhill Jones has been appointed to this duty by the president of the Conservative association, acting as returning officer who it is also inferred dispatched our esteemed townsman Capt. Freeman on a "secret mission" on which he set out in a smoke screen. Capt. Freeman also denies he is a Conservative and informs the world at large that he is a Canadian. Surely we must all admire the liberality displayed by our returning officer in appointing these gentlemen to offices of honor and emolument under these conditions. W. K. CLARK.

IS EASY TO BECOME A RUSSIAN MILLIONAIRE

MOSCOW, Nov. 16.—Englishmen and Canadians now coming to Russia suddenly find themselves millionaires, in rubles, because of the relative value of rubles compared to dollars or pounds. A hundred dollars is equivalent to several millions of rubles.

The first effect of being a millionaire is to make the stranger haggle over the prices of commodities, which seem tremendously high to him. It takes him a few weeks to realize a million rubles is not very much money, and everybody in Russia who has anything at all is a millionaire just like himself.

A small shopkeeper has a daily turnover of 20,000,000 to 30,000,000 rubles. Even the boys who drive cabs or sell cigarettes about the railway stations are millionaires, handling one million to two millions daily. A million is referred jealously to as a "lemon," so little is it esteemed.

Being wealthy in Russia is very much of a burden. The newly rich carry their money in satchels or handbags. It is so bulky a whole valise full of it is needed for a journey of a few days.

Reduced Prices on Community Silver...

Community Silver has just been reduced about ten per cent, and though we have a large stock bought at the old prices, we want to be among the first to pass along any reduced prices we can. Our Community Plate can be bought right here in Prince at exactly the same price as in the largest city. You will also find our prices on other standard articles just the same as in larger places, and we are trying to give the people a service so it will pay to trade at home. Any special articles not in stock we will be glad to send for on approval.

EASILY EXCUSSED.
GENEVA, Nov. 15.—A dramatic incident took place in the law court at Lindau when a handsome woman named Milnebach appeared on a charge of poisoning her second husband. As she entered the courtroom, one of the jurymen rose and stated that the accused woman was his former wife whom he had divorced. The judge promptly excused the man from service.

Rev. T. J. Marsh of Terrace is in the hospital here making good progress.

T. J. Shenton, mining inspector, returned yesterday from an official visit to Stewart.

Was Troubled With Her Liver for over 4 months

When the liver becomes slow, sluggish and does not supply sufficient bile to thoroughly act on the bowels and carry off the waste products of the system, the bowels become clogged up, the bile gets into the blood, constipation sets in and liver troubles follow, among which are sick or bilious headaches, heartburn, water brash, jaundice, floating specks before the eyes, pain under the right shoulder, coated tongue, bad breath, yellow eyes, etc.

MILBURN'S LAXA-LIVER PILLS quickly remove the secretions, clear away the effete and waste matter by acting directly on the liver, and making the bile pass through the bowels instead of allowing it to get into the blood.

Mrs. Alice Merrill, Vancouver, Ont., writes: "I was very badly run down for over four months. I tried several remedies, but got no relief. One day my husband brought me the name of Milburn's Laxa-Liver Pills, and before I had used half of it I was much better. I only used two vials and I am a different person today."

"I can safely recommend Laxa-Liver Pills to anyone troubled with liver trouble."

Price, 25c a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

LONDON, Nov. 14.—It is anticipated that early in the New Year there will be considerable and important changes at the War Office. Field-Marshal Sir Henry Wilson's term of four years as chief of the general staff will then expire. His successor has not yet been named. Sir Henry has rendered great services to his country. Before the Great War opened he had predicted trouble with Germany. He has a perfect knowledge of French, and made a careful study of what afterwards became the scene of the fighting, cycling into every nook and corner.

His greatest achievement was to make friends with Marshal Foch. He early realized that Foch was the foremost of the French generals, and after much difficulty he obtained an interview with him and ultimately they became close friends.

Foch came to England to visit Sir Henry, and the latter frequently went to France to see Foch. Sir Henry was mainly instrumental in making the preliminary arrangements for the Expeditionary Force, and took a large part in fixing up the agreement between Great Britain and France, whereby it was decided that, in the event of either country being attacked by Germany, the two should stand shoulder to shoulder. The day came when this arrangement proved the saving of Europe. Sir Henry is Irish and stands 6 feet 6 inches in his socks. He has a remarkable gift of caustic humor. Here is one of his stories.

Without advertisements, this paper would not be as interesting to you, because information about goods for sale in the stores is news—just that.

THE COUGH with that Ticklish Sensation

A little tickling in the throat; now and then a dry, hacking cough; you think it is not bad enough to bother about, but every lack makes a breach in the system, strains the lungs and prepares the way for more serious trouble.

How many people have lost a good night's rest by that nasty, tickling, irritating sensation in the throat? The dry, harsh cough keeps you awake, and when you get up in the morning you feel as if you had had no rest at all.

DR. WOOD'S NORWAY PINE SYRUP is just the remedy you require to stop that irritating, tickling cough on account of its soothing, heating and expectorant properties.

Mrs. P. Johnson, Port Alberni, B. C., writes:—I have suffered for years, off and on, with a tickling cough. I could not sleep nights and had to sit up in bed to get relief. In fact, I coughed so I used to vomit. I tried different doctors' prescriptions until I heard of Dr. Wood's Norway Pine Syrup. I tried it and found great relief after I had taken the first bottle and have not been troubled since. I shall always keep it in the house.

Be sure and get "Dr. Wood's" when you ask for it. Price, 25c and 60c a bottle; put up only by The T. Milburn Co., Limited, Toronto, Ont.

COMPETITION CLOSED; LAST VERSES HERE

Final Lot of Christmas Rhymes in This Issue of Paper.

This is the last lot of Christmas verses in the competition. It is to be assumed that McRae Brothers will make an immediate selection of what they consider the best and will publish the winner. Possibly the winner will be simply named. The following are the verses:

Yuletide Anticipations. O, for a crab, a socked trout, A "pearly" clam, a bottle of stout, Choicest fish, without a doubt,

A nice fat grouse, a chunk of deer, Xmas pudding with Xmas cheer, Goo boys! I'm glad I'm here, Prince Rupert.

Hearty Greetings. Hearty greetings friend, to thee, From this outpost by the sea, Distance may divide, but never Can the bonds of friendship sever.

Old Folks At Home. I know where I would head for Had I the wings of a Dove, As straight as arrow my flight would be

To that dear home of love, But I'm anchored in Prince Rupert and here I must stay, But you know, dear folks, where my heart is this Christmas Day.

Let's Be Happy. Christmas comes but once a year Let's be happy while it's here, Forget all worries, all cares, all fears, And for Merry Old Christmas Give Three Cheers!

Bit of Cheer. I'd like to send you something more Than just this little card, But fortune is a fickle dame, And her ways are often hard, Here's just a bit of Christmas cheer,

But with it goes to you, A heart that holds more friendliness, Each time the day is due.

Cheer from the North. A Merry Christmas and a Happy New Year! Everyone's shouting it, can't you hear? The bells are ringing it, people are singing it, From ocean to ocean the chorus goes forth,

But from none does it echo like it does from the north.

Greeting. Merry Christmas to you all, Old and young, great and small, May joys lie thick about your way, And Happiness greet you Christmas Day.

I am far away in Prince Rupert, B. C. Where game trodden hills surround me

And the Pacific's great waves comes a rolling in, There is a spirit here that binds us

To this Northern clime so at Christmas time To the friends we have left behind us

We will send greetings true to all of you And that sorrow may never find you.

From Man to Man. From the region of golden sunsets

The end of the long steel trail, Where the land dips into the ocean,

And full, fresh and free blows the gale, From Kaien's light little island

The home of the Christmas tree, Where men laugh as they work and dare greatly,

This message I send to thee: Play the man and four square stand

For God and King and native land.

Hail, Hail, the gangs all here, 'Tis Xmas time again, We'll drown your tears With Prince Rupert's cheers, And wishes most sincere,

Hail, Hail, the gangs all here, Come join our merry gang, 'Tis twelve months true, till time is due For Xmas to come again, So here's twelve months of happiness With wealth and prosperity.

OIL DRILLING AT BURNS LAKE SHOWS NO RESULTS AS YET

With Eight Inch Water Drill Gercov Bros. Went Down 200 Feet and Have Started Again.

BURNS LAKE, Nov. 14.—By reason of the many indications of oil that exist near here, the people are confident that some time it will be discovered in commercial quantities but little has yet been done towards proving it. The country has been pretty well staked, however, on account of the excitement of the early summer.

Gercov Bros. are the only ones who have done any drilling. With an eight inch water drill they drilled a hole down about 200 feet south of town. Pulling the drill out of this first hole they started a second but have found no oil yet. It is generally believed that, if oil is to be found at all, the drill now in use will not be able to go deep enough to get it.

BORROWS MONEY TO PAY HIS EMPLOYEES

LONDON, Nov. 15.—The plight of some of the landed proprietors of England was illustrated here when the Marquis of Northampton, in returning thanks for a wedding present from the tenantry of his estate, said that at the present time he was living on borrowed money.

"We are passing through a difficult time," said the Marquis, "I try to excuse myself because I feel that people must hate me. I hope they do not. My grandfathers had a great deal of money to play with. My father had some too, I have none. I have to live on borrowed money. I have to be rather pinching."

"The cost of living has arisen and with it wages, and it is just as well I should tell you that in order to employ you at present wages I have to borrow money all the time. The money will have to be repaid but I do not quite see when that will be possible."

TIMBER SALE X-3587

Sealed tenders will be received by the Minister of Lands at Victoria not later than noon on the 1st day of December, 1921, for the purchase of License X-3587, to cut 2,054,000 feet of spruce, cedar and hemlock on an area situated on the west shore of Louise Island, Queen Charlotte District. One year will be allowed for removal of timber.

Basketball Season Off To Great Start With Opening Games Played Last Night

There was a record crowd in attendance at the opening games of the Basketball Association winter schedule which were held last evening in the Agricultural Hall. Colonel S. P. McMorde made a speech in formally opening the season and dwelt on the importance of sport to all classes in the city. He also started the first game. The Great War Veterans' Band, which was in attendance, added much to the attraction of the evening and their many selections were thoroughly appreciated. There were three basketball games: Meteors vs. Maple Leafs, a draw; Colts vs. Sons of Canada, 14 to 9 in favor of the Colts, and Elks vs. Sons of Canada, which resulted in victory for the Elks by a score of 27 to 18.

If the opening game of the Ladies' League is any indication of the class of basketball which they are to put up during the season, the fans are to see something worth while. Both teams, the Meteors and the Maple Leafs, served up exceptionally good basketball although they might have had the inclination to bunch together too much. Play was fast and even throughout, so even in fact, that ten minutes extra had to be played and then the teams were still level with eight points each. The Meteors opened the scoring and led at half time by four points to two but the Maple Leafs evened up matters in the second half, at the end of which the score stood 6 to 6. In the overtime period the Maple Leafs scored first, but the Meteors got a merited basket before the time was called. The result reflects fairly the run of play although the Meteors checked possibly more closely and quickly. They wasted many good scoring chances, however.

Teams and Scores.
Meteors—Miss Mary Ann, Miss Pete Tremayne, Miss Annie Kelly; Miss Vera Shockley, Miss Leona Parker, 4; total, 8.
Maple Leafs—Miss Myra Harvey, Miss Marjorie Carter, Miss Margaret Graham, Miss Louie Fisher, 2; Miss S. Calderone, 6; total, 8.
W. E. Willisroff was referee.

Men's Intermediate.
The Men's Intermediate game between the Colts and Sons of Canada, was another rattling good contest, although the shooting on both sides was rather erratic. That, however, was possibly due to the excitement of the opening game. There was little to choose between the teams in the first half although the Colts were on the long end of the 5 to 3 score at the end of the period. In the second half, the Colts got away stronger, their understanding and passing being away ahead of their opponents, who never seemed to get settled. As a result many good chances went begging. The Colts finally ran out winners by a score of 14 to 9.

The teams and scoring was as follows:
Colts—J. Mitchell, 2; R. Smith, H. Frizzell, 1; E. Mackintosh, 6 and W. Mitchell, 5—14.
Sons of Canada—H. A. Charlton, 3; W. Grey, E. Smith; Ted Halverson, 2; and F. Morrison—9.

Lee Dell was referee.

Men's Senior.
Last year's rivals, the Sons of Canada and the Elks, treated the fans to a fast and furious game and the Elks repeated last year's opening performance by winning over the Canucks by 27 to 18. The Sons opened strongly and soon had three points to their credit in about as many minutes but the Elks gradually came into their own and, by better shooting, they took the lead and held it at half time when the score stood 11 to 8 in their favor. The Elks returned the forcing in the second half and soon assumed a comfortable lead. The Sons made a great comeback towards the last scoring 9 points in quick succession in ten minutes. Their efforts came too late, however, and they were forced to acknowledge defeat to a team which played more consistently throughout the forty minutes.

The Elks move fast and effectively and were under better control while the Sons showed only glimpses of their last year's excellence. No doubt they will come back later.

There was only one bad feature to this game and that concerns players who temporarily forgot themselves in the heat of

Sport Chat

There are all too many accidents from fool hunters who fire before they see what they are shooting at. In connection with the shooting of Louis Franceseini alderman of Cumberland at Comox recently by Norman Whitehouse, a young logger, the young man had seen a deer and then expecting to get a shot, he said he heard something like a deer getting up. He squatted down and started looking through the thicket and he saw a brown thing which looked still. He moved his head to get a better view. He heard something which sounded like a deer going through the thicket. Then he saw the brown thing move a little. He raised the rifle, pulled the safety catch off and fired. When he fired he heard a long cry and he knew what he had done, because no deer would cry like that. He went to the thicket opened it and after taking four steps he saw the feet of a man lying down. It scared him so much he would not go in, but he turned and ran up the trail up to the skidder, and he went to the locomotive and told the men there what he had done. They stopped the train and he guided them to where the body lay. He took one look at the man and turned away. Then he came into camp as quickly as he could and reported the affair to the provincial police at Courtenay.

Clem Loughlin, who is a regular cyclone on skates, is to winter in Victoria this year and will play hockey in his spare time. A signed contract is now in the hands of Lester Patrick manager of the Aristocrats.

Glem is at present farming in Alberta, and while he thinks the farm life is O.K. he likes a little variety and just as a diversion he will entertain the hockey fans of Victoria during the winter. Last winter Glem was handicapped by a badly wrenched ankle, but even at that he was still able to make the ice hot. He has everything necessary for a hockey player of repute, brains, speed, a fair share of stick handling and the knack of putting up a good scrap whether ahead or behind. The Victoria fans will doubtless be tickled to see this renowned defence man back on their team.

Headache

Recurring headaches usually result from an exhaustion of the nervous system, and they do not appear until the vigor of the cells is restored by such up-lifting treatment as Dr. Chase's Nerve Food.

Temporary relief by use of others is often obtained at an enormous expense to the nervous system and the general health.

Get the nerves right and the headaches will not return.

Mr. W. J. Pearse, Nunn St., N. O., Ont., writes:

My system became run-down and I felt greatly with pain in my head. I was so severe that I would have to lie in bed for days. I had a dash night after night. A friend told me of Dr. Chase's Nerve Food, and I took the first box I could get. I continued using until I felt almost seven boxes, and my system had built up, and my headaches completely relieved the pain.

TERRACE is a thrifty, growing town. The chances are good that oil will be struck in the immediate vicinity, as seepages have been found, much ground has been staked and a drilling outfit is on its way there. We offer for sale eighty acres of land, 1 1/2 miles from the town on a good road at \$12.50 per acre. This is your opportunity to participate in the enhanced real estate values that will surely follow the growth of Terrace.

FRANCOIS LAKE

On Friday last a dance and box social was held in the Tehesinkut Hall for the benefit of the Tehesinkut Lake School.

On Saturday last Earl Cortiss left for Burns Lake, where he will attend school.

Last Saturday evening the Fraser Lake ferry boat went to the head of the lake to fetch the telephone gang. They returned Sunday afternoon.

A most successful bazaar was held recently in aid of the Francois Lake Hospital in the hall at North Francois. There were four stalls, fancy work, plain work, candy, and last but not least a home cooking booth by the ladies of Burns Lake. A large crowd of people were present and everything offered was sold, the demand being greater than the supply. Following the sale a chicken supper was enjoyed and then a dance and musical entertainment.

FORT FRASER

On Armistice Day all the stores closed from 10:15 until 11:15 a.m., and an open-air service was conducted by Rev. Hugh Graham, on the grounds adjoining the Government Buildings. At 11 a.m. the flag was lowered to half mast, and the two minutes silence was observed in memory of "our glorious dead." A quartet party comprising Mr. and Mrs. F. Makris, Miss Ebel Tiffenore and N. B. Wallace sang Kipling's "Recessional." Psalm 107 was read, and, after prayer and a brief address, the whole company joined in the singing of "O God Our Help in Ages Past."

The voters list for this district is now being compiled. Up-to-date, it contains one hundred and seventy names.

The Fort Fraser Literary Society are opening their winter program with a popular concert, to be held in the town hall on

Union Made in Vancouver Since 1900

Thursday, November 23. A varied, interesting and high-class entertainment is assured, comprising both vocal and instrumental music, sketches, and elocution. The president, F. Lacey, will occupy the chair and will call for new members and the election of permanent officers in the course of the evening.

SYNOPSIS OF LAND ACT AMENDMENTS

Minimum price of first-class and reduced to \$5 an acre, second-class to \$2.50 an acre.
Pre-emption now confined to surveyed lands only.
Where new sections are granted covering any land suitable for agricultural purposes and which is non-timber land.
Participating pre-emption abolished, but parties of not more than four may arrange for adjacent pre-emption with joint residence, but each making necessary improvements on respective claims.
Pre-emptors must occupy claim for five years and make improvements to value of \$100 per acre, including clearing and cultivating of at least one acre receiving Cross' Grant.
Where new sections are granted, no more than 2 years, and has made improvements, he may be cause of ill-health or other cause or granted a temporary certificate of pre-emption and transfer his claim.
Revised permanent residence may be located on agricultural lands, and improvements to extent of \$50 per acre and receive same each year. Failure to make improvements or to occupy the land for one year, the title cannot be obtained in less than 5 years, and improvements of \$100 per acre, including 2 acres cleared and cultivated, and residence of at least 2 years are required.
Pre-emptor holding Crown Grant may record same in connection with his regular land in connection with his regular land without actual occupation, provided statutory requirements made and in case mentioned on Crown Grant land.
Unsurveyed areas of not exceeding 20 acres, may be located as homestead, title to be obtained after fulfilling residential and improvement conditions.
For grazing and industrial purposes areas exceeding 20 acres may be taken by one person or company.
Mill factories or industrial sites on water lands not exceeding 5 acres may be located on water lands and include payment of stamps.
Natural hay meadows, unreservable areas, may be made as parks or conditional upon construction of a road to them. Half of one-half of cost of road, not exceeding half of purchase price, to be made by the province.
PRE-EMPTORS FREE GRANTS ACT.
The scope of this Act is enlarged to include all persons holding and serving with His Majesty's Forces. The same provisions of purchase or service of a deceased or emigrant may apply for title under the Act is extended from the one year from the death of such person, as formerly, until one year after the conclusion of the great war. This privilege is also made retroactive.
No fees relating to pre-emption are due or payable by soldiers on pre-emption recorded after Nov. 26, 1918.
Fees are remitted for five years.
Provision for return of money accrued, due and been paid since August 1, 1914, on account of payments, "see" of taxes on sections, or royalties.
Interest on agreements to purchase town or city lots held by members of the British Legion, or the recognized direct or indirect, remitted from an October to March 31, 1920.
SUB-PURCHASERS OF CROWN LANDS
Provision made for issuance of Crown Grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original purchase, purchase price and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.
GRAZING
Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged, priority for established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

Our business is increasing rapidly, due largely to the recommendations of more than satisfied customers.

DRESS SHIRTS AGAIN APPEAR IN RUSSIA

Cost of Seat in Pit of Theatre is 84,000 Rubles.

MOSCOW, Nov. 16.—Boiled shirts made their reappearance here at the opening performance of grand opera. There were seven of them, and not one was the sort that one scrubs with a sponge. This extremely bourgeois attire was an announcement that starch has arrived in the Moscow markets with the changed economic policy.
The entire audience in the great opera house heralded the advent of a new era in Russia. Seats were sold in the old time way. It cost 84,000 rubles to have an excellent seat in the pit or first balcony, and the seats were all full as well as the galleries. The mammoth auditorium is just as brilliant in its dull gold and red interior as it was in the days of the Czar.
The initial opera was Klinka's "Ruslan and Ludmichla." It was brilliantly staged.

People Changing.
There was a marked difference between the opera crowd this year and that of three years ago. In the opening months of the Soviet regime Bolsheviks of both sexes nearly all wore black leather coats, which they dramatized very heavily at the opera and in all public places. The absorption of a large bourgeois population and three years of experience in government have changed the dominant party. The members have softened and become more conventional.
The percentage of bobbed-haired, masculine looking women (smaller). Femininity is reasserting itself. The old time Russian courtesy is reappearing in all gatherings. Red army soldiers are now generally shaved and have their beards polished.
The constant lecturing of the immortal Trotsky has sunk into the army. He is a great stickler for proper care of clothing and equipment, and the same word has been generally passed along it, all government departments.

WINNIPEG, Nov. 16.—Reflecting depressed business conditions throughout Manitoba, the Government Telephone Commission today announced in a monthly report a loss of \$19,251.85 for September, an increase of \$10,000 over the loss in August.
Crop failures in many parts of the province were responsible for the loss, John E. Lowry, commissioner, said. September was usually the best month in the year, as farmers made grain sales by long distance phone. This year many had no grain to sell. He said long distance tolls had fallen off \$10,000, covering the difference in the September and August figures. The loss for September, 1920, was \$50,000.
Operating expenses were reduced by \$1000 during September and maintenance by \$3000, according to the report. About 1075 rural telephones were removed during the year ended September 30, due to crop conditions, and not to increased rates, Mr. Lowry said.
The whole appropriation for 1921 would not be needed, he pointed out, as \$250,000 was unexpended up to date.

MANITOTA TELEPHONE LOSING MONEY FAST

In September There Was Shortage of Nearly \$20,000.

BIG REWARD.
PARIS, Nov. 15.—Large advertisements have been appearing in the French press offering \$4,000 reward for information aiding in the arrest of persons who bring about the entry in contraband into the United States of pearls, diamonds and other precious stones. It is specified that the value of the seizures must be at least \$40,000.
The offer is made by an association for the protection of American jewelers.
